INDEX AND SUMMARY OF S. 3708

LEGISLATIVE HISTORY

Jan. 26, 1966 Both Houses received President's message on
 Jan. 26, 1966 Public Law 89-754
 June 23, 1966 S. 3708
 June 28, 1966 House committee voted to report S. 3708.
 July 13, 1966 House committee granted privilege to file report.
 July 18, 1966 House committee reported (during adjournment on
 July 15) H. R. 25890, with amendments. H. Report
 1979, Parts I and 2. Print of bill and reports.
 July 28, 1966 House committee submitted Part 2 of report on
 H. R. 25890. Print of report.

TABLE OF CONTENTS

Aug. 9, 1966 Senate Banking and Currency Committee reported
 S. 3708, as original bill. S. Report 1979.
 Aug. 18, 1966 Senate began debate on S. 3708.
 Aug. 19, 1966 Senate passed S. 3708 with amendments.
 Aug. 23, 1966 S. 3708 was referred to H. Banking and Currency
 Committee. Print of bill as referred.
 Aug. 31, 1966 House committee voted to report S. 3708.
 Sept. 1, 1966 House committee reported S. 3708 with an amend-
 ment. H. Report 1931. Print of bill and amend-
 ment.
 Sept. 22, 1966 House Rules Committee granted an open rule on
 S. 3708.
 Sept. 26, 1966 House Rules Committee reported resolution for the
 consideration of S. 3708.
 Oct. 13, 1966 House began debate on S. 3708.
 Oct. 14, 1966 House passed S. 3708 with amendments. House
 conferees were appointed.

INDEX AND SUMMARY OF S. 3708

Jan.	26, 1966	Both Houses received President's message on demonstration cities program. H. Doc. 368. Print of document.
June	23, 1966	Rep. Patman introduced H. R. 15890 which was referred to House Banking and Currency Committee. Print of bill as introduced.
June	28, 1966	House committee voted to report H. R. 15890.
July	13, 1966	House committee granted permission to file report.
July	18, 1966	House committee reported (during adjournment on July 15) H. R. 15890, with amendments. H. Report 1699, Parts 1 and 2. Print of bill and reports.
July	28, 1966	House committee submitted Part 3 of report on H. R. 15890. Print of report.
Aug.	9, 1966	Senate Banking and Currency Committee reported S. 3708, an original bill. S. Report 1439. Print of bill and report.
Aug.	18, 1966	Senate began debate on S. 3708.
Aug.	19, 1966	Senate passed S. 3708 with amendments.
Aug.	22, 1966	S. 3708 was referred to H. Banking and Currency Committee. Print of bill as referred.
Aug.	31, 1966	House committee voted to report S. 3708.
Sept.	1, 1966	House committee reported S. 3708 with an amendment. H. Report 1931. Print of bill and report.
Sept.	22, 1966	House Rules Committee granted an open rule on S. 3708.
Sept.	26, 1966	House Rules Committee reported resolution for the consideration of S. 3708.
Oct.	13, 1966	House began debate on S. 3708.
Oct.	14, 1966	House passed S. 3708 with amendments. House conferees were appointed.
		H. R. 15890 was laid on table to the passage of S. 3708.

INDEX AND SUMMARY OF S. 3708, cont'd.

- Oct. 17, 1966 Senate conferees were appointed on S. 3708.
- Oct. 18, 1966 House received conference report on S. 3708.
H. Report 2301. Print of report.
- Senate agreed to conference report.
- Oct. 20, 1966 House agreed to conference report.
- Nov. 3, 1966 Approved: Public Law 89-754.

DIGEST OF PUBLIC LAW 89-754

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT
ACT OF 1966. Title VIII of the Act broadens the authority of cities in Title V of the Housing Act of 1954 to permit the purchase of newly constructed buildings, extend the authority to make a loan on the basis of a contract to accept 502 applicants to other than senior citizens and also to applicants receiving average 500 loans. Loans from \$1,000 to \$1,500 the maximum amount of assistance that can be extended under section 502, permit cities to provide rental housing for low-income families and individuals who are less than 62 years old, and authorize cooperative housing to be financed with either direct or insured loans under section 502 of the Act, extend insured loans for rental housing to include rural areas and elderly who have moderate incomes, remove the 25% annual ceiling on new loans insured to families with low or moderate incomes and substitute an expiration date of October 1, 1969, and authorize rural housing loans to refinances under certain conditions.

DIGEST OF PUBLIC LAW 89-754

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966. Title VIII of the Act broadens the authorities in Title V of the Housing Act of 1949 to permit the purchase of newly constructed buildings, extend the authority to make a loan on the basis of a cosigner to section 502 applicants to other than senior citizens and also to applicants receiving section 504 loans, increase from \$1,000 to \$1,500 the maximum amount of assistance that can be extended under section 504, permit direct loans to provide rental housing for low-income rural persons even though they are less than 62 years old, authorize cooperative housing to be financed with either direct or insured loans under section 515 of the Act, extend insured loans for rental housing to include rural non-elderly who have moderate incomes, remove the \$300 million annual ceiling on new loans insured to families with low or moderate incomes and substitute an expiration date of October 1, 1969, and authorize rural housing loans to refinance debts under certain conditions.

HIGHLIGHTS: Senate received President's community development districts proposal. Sen. Proxmire criticized school-milk cut in budget. Sen. Mondale introduced and discussed food for peace bill. Sen. Case introduced and discussed egg marketing orders bill. Rep. Cooley introduced cotton research and promotion bill.

SENATE

1. **COMMUNITY DEVELOPMENT.** Received the President's message recommending legislation to provide for community development districts; to Agriculture and Forestry Committee (H. Doc. 367) (pp. 1108-10). Sen. Mondale commended the proposal (p. 1133).

Sen. McGee inserted an article by Bernard Kelly on how Little Bear Grange improved community life in Wyo. pp. 1131-3

2. SCHOOL MILK. Sen. Proxmire criticized the budget cut in this program. p. 1101
3. LEGISLATIVE REORGANIZATION. Agreed to S. Con. Res. 69, to provide funds for the Joint Committee on the Organization of Congress through December 1966. p. 1126
4. WATER. Sen. McGee inserted an article by Frank J. Trelease analyzing water rights of various levels of government. pp. 1145-9
Sen. Jackson inserted and discussed an article describing gains in salt-water research in foreign countries. pp. 1152-3
Sen. Moss deplored the "low level of the requests in the President's budget for water resource development." pp. 1159-60
5. FARM PROGRAM. Sen. Young, Ohio, inserted and commended the Vice President's speech on the farm program at the Ohio Farm Bureau meeting. pp. 1163-4
6. POVERTY. Sen. Douglas commended the Job Corps and inserted an article on this subject. pp. 1151-2
7. ELECTRIFICATION. Received the annual report of REA. p. 1110

HOUSE

8. URBAN DEVELOPMENT. Both Houses received the President's message on the proposed Demonstration Cities Act of 1966 to assist city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in these areas; to H. and S. Banking and Currency Committees. (H. Doc. 368) pp. 1055-8, 1101-5
Several Representatives commended the President's message. pp. 1058-60, 1065
9. TRADE FAIRS. Rep. Hall objected to consideration of H. R. 30, to provide for participation of the U. S. in the Inter-American Cultural and Trade Center in Dade Co., Fla., as passed by the Senate. p. 1055
10. FOREIGN TRADE. Rep. Dickinson criticized free world shipping to North Vietnam and urged the Government to take steps to halt such shipping. p. 1067
11. RURAL MAIL. Rep. Langen praised assurances he had received from the Post Office Department that they intended to improve rural mail service. p. 1069
12. ELECTRIFICATION. Rep. Moore stated his objections to a proposed AEC authorization for construction of a nuclear powerplant in cooperation with the Calif. Department of Water Resources, and contended that private industry should develop such facilities. pp. 1072-4
13. LEGISLATIVE ACCOMPLISHMENTS. Rep. Burton inserted the Vice President's address reviewing legislative accomplishments of the administration. pp. 1079-80
14. LEGISLATIVE PROGRAM. Rep. Albert stated that the only business for the remainder of the week would be money resolutions for various committees. p. 1072

CITY DEMONSTRATION PROGRAMS

MESSAGE

FROM

THE PRESIDENT OF THE UNITED STATES

TRANSMITTING

RECOMMENDATIONS FOR CITY DEMONSTRATION PROGRAMS

JANUARY 26, 1966.—Referred to the Committee on Banking and Currency and ordered to be printed, with accompanying papers

To the Congress of the United States:

Nineteen hundred and sixty-six can be the year of rebirth for American cities. This Congress, and this people, can set in motion forces of change in great urban areas that will make them the masterpieces of our civilization. Fifty years from now our population will reach that of today's India. Our grandchildren will inhabit a world as different from ours, as ours is from the world of Jefferson.

None can predict the shape of their life with any certainty. Yet one thing is sure. It will be lived in cities. By the year 2000, four out of five Americans will live and work in a metropolitan area. We are not strangers to an urban world. We began our national life gathered in towns along the Atlantic seaboard. We built new commercial centers around the Great Lakes and in the Midwest, to serve our westward expansion. Forty million came from Europe to fuel our economy and enrich our community life. This century has seen the steady and rapid migration of farm families—seeking jobs and the promise of the city.

From this rich experience we have learned much. We know that cities can stimulate the best in man, and aggravate the worst.

We know the convenience of city life, and its paralysis. We know its promise, and its dark foreboding. What we may only dimly perceive is the gravity of the choice before us. Shall we make our

cities livable for ourselves and our posterity? Or shall we by timidity and neglect damn them to fester and decay?

If we permit our cities to grow without rational design; if we stand passively by, while the center of each can become a hive of deprivation, crime, and hopelessness; if we devour the countryside as though it were limitless, while our ruins—millions of tenement apartments and dilapidated houses—go unredeemed; if we become two people, the suburban affluent and the urban poor, each filled with mistrust and fear one for the other—if this is our desire and policy as a people, then we shall effectively cripple each generation to come. We shall as well condemn our own generation to a bitter paradox: an educated, wealthy, progressive people, who would not give their thoughts, their resources, or their wills to provide for their common well-being.

I do not believe such a fate is either necessary or inevitable. But I believe this will come to pass—unless we commit ourselves now to the planning, the building, the teaching, and the caring that alone can forestall it. That is why I am recommending today a massive demonstration cities program. I recommend that both the public and private sectors of our economy join to build in our cities and towns an environment for man equal to the dignity of his aspirations.

I recommend an effort larger in scope, more comprehensive, more concentrated—than any that has gone before.

THE WORK OF THE PAST

I know the work of the past three decades. I have shared in the forging of our Federal housing and renewal programs. I know what they have done for millions of urban Americans:

8 million single-family dwellings assisted by the Federal Housing Administration.

An additional 6.7 million assisted by the Veterans' Administration.

1.1 million multiple units created.

605,000 families moved out of decayed and unsanitary dwellings into decent public housing.

300,000 dwelling units supported under urban renewal.

Without these programs, the goal I recommend today would be impossible to achieve. Because Federal sponsorship is so effective a part of our system of homebuilding, we can conceive a far larger purpose than it has yet fulfilled. We must make use of every established housing program—and of social, educational, and economic instruments as well—if the demonstration cities program is to succeed.

THE PROBLEM TODAY

Our housing programs have built a platform, from which we may see how far away is the reborn city we desire. For there still remain:

Some 4 million urban families living in homes of such disrepair as to violate decent housing standards.

The need to provide over 30 percent more housing annually than we are currently building.

Our chronic inability to provide sufficient low- and moderate-income housing, of adequate quality, at a reasonable price.

The special problem of the poor and the Negro, unable to move freely from their ghettos, exploited in the quest for the necessities of life.

Increasing pressures on municipal budgets, with large city per capita expenditures rising 36 percent in the 3 years after 1960.

The high human costs: crime, delinquency, welfare loads, disease and health hazards. This is man's fate in those broken neighborhoods where he can "feel the enclosure of the flaking walls and see through the window the blackened reflection of the tenement across the street that blocks out the world beyond."

The tragic waste and, indeed, the chaos that threatens where children are born into the stifling air of overcrowded rooms, destined for a poor diet, inadequate schools, streets of fear and sordid temptation, joblessness, and the gray anxiety of the ill prepared.

And the flight to the suburbs of more fortunate men and women who might have provided the leadership and the means for reversing this human decline.

THE INADEQUATE RESPONSE

Since 1949, the urban renewal program has been our chief instrument in the struggle for a decent urban environment. Over 800 cities are participating in urban renewal programs. Undertaken and designed by the cities themselves, these efforts have had an increasing influence on the use of urban land. Last year the Congress wisely extended the authorization for urban renewal at a higher level than before.

Years of experience with urban renewal have taught us much about its strengths and weaknesses. Since 1961 we have made major alterations in its administration. We have made it more responsive to human needs. We have more vigorously enforced the requirement of a workable program for the entire community. Within the limits of current law, we have achieved considerable progress toward these goals.

Nevertheless the social and psychological effects of relocating the poor have not always been treated as what they are. They are the unavoidable consequences of slum clearance, demanding as much concern as physical redevelopment.

The size and scale of urban assistance has been too small, and too widely dispersed. Present programs are often prisoners of archaic and wasteful building practices. They have inhibited the use of modern technology. They have inflated the cost of rebuilding.

The benefits and efficiencies that can come from metropolitan planning are still unrealized in most urban regions. Insufficient resources cause extensive delays in many projects. The result is growing blight and overcrowding that thwart our best efforts to resist them.

The goals of major Federal programs have often lacked cohesiveness. Some work for the revitalization of the central city. Some accelerate suburban growth. Some unite urban communities. Some disrupt them.

URBAN DILEMMAS

Virtually every forward step we have taken has had its severe limitations. Each of those steps has involved a public choice, and created a public dilemma:

Major clearance and reconstruction, with its attendant hardships of relocation.

Relieving traffic congestion, thereby widening the gulf between the affluence of suburbia and the poverty of the city.

Involving urban residents in redeveloping their own areas, hence lengthening the time and increasing the cost of the job.

Preserving the autonomy of local agencies, thus crippling our efforts to attack regional problems on a regional basis.

These dilemmas cannot be completely resolved by any single program, no matter how well designed. The prize—cities of spacious beauty and lively promise, where men are truly free to determine how they will live—is too rich to be lost because the problems are complex.

Let there be debate over means and priorities. Let there be experiment with a dozen approaches, or a hundred. But let there be commitment to that goal.

WHAT IS REQUIRED

From the experience of three decades, it is clear to me that American cities require a program that will—

Concentrate our available resources—in planning tools, in housing construction, in job training, in health facilities, in recreation, in welfare programs, in education—to improve the conditions of life in urban areas.

Join together all available talent and skills in a coordinated effort.

Mobilize local leadership and private initiative, so that local citizens will determine the shape of their new city—freed from the constraints that have handicapped their past efforts and inflated their costs.

A DEMONSTRATION CITIES PROGRAM

I propose a demonstration cities program that will offer qualifying cities of all sizes the promise of a new life for their people.

I propose that we make massive additions to the supply of low- and moderate-cost housing.

I propose that we combine physical reconstruction and rehabilitation with effective social programs throughout the rebuilding process.

I propose that we achieve new flexibility in administrative procedures.

I propose that we focus all the techniques and talents within our society on the crisis of the American city.

It will not be simple to qualify for such a program. We have neither the means nor the desire to invest public funds in an expensive program whose net effects will be marginal, wasteful, or visible only only after protracted delay. We intend to help only those cities who help themselves. I propose these guidelines for determining a city's qualifications for the benefits—and achievements—of this program.

1. The demonstration should be of sufficient magnitude both in its physical and social dimensions to arrest blight and decay in entire

neighborhoods. It must make a substantial impact within the coming few years on the development of the entire city.

2. The demonstration should bring about a change in the total environment of the area affected. It must provide schools, parks, playgrounds, community centers, and access to all necessary community facilities.

3. The demonstration—from its beginning—should make use of every available social program. The human cost of reconstruction and relocation must be reduced. New opportunities for work and training must be offered.

4. The demonstration should contribute to narrowing the housing gap between the deprived and the rest of the community. Major additions must be made to the supply of sound dwellings. Equal opportunity in the choice of housing must be assured to every race.

5. The demonstration should offer maximum occasions for employing residents of the demonstration area in all phases of the program.

6. The demonstration should foster the development of local and private initiative and widespread citizen participation—especially from the demonstration area—in the planning and execution of the program.

7. The demonstration should take advantage of modern cost-reducing technologies without reducing the quality of the work. Neither the structure of real estate taxation, cumbersome building codes, nor inefficient building practices should deter rehabilitation or inflate project costs.

8. The demonstration should make major improvements in the quality of the environment. There must be a high quality of design in new buildings, and attention to man's need for open spaces and attractive landscaping.

9. The demonstration should make relocation housing available at costs commensurate with the incomes of those displaced by the project. Counseling services, moving expenses, and small business loans should be provided, together with assistance in job placement and retraining.

10. The demonstration should be managed in each demonstration city by a single authority with adequate powers to carry out and coordinate all phases of the program. There must be a serious commitment to the project on the part of local, and where appropriate, State authorities. Where required to carry out the plan, agreements should be reached with neighboring communities.

11. The demonstration proposal should offer proof that adequate municipal appropriations and services are available and will be sustained throughout the demonstration period.

12. The demonstration should maintain or establish a residential character in the area.

13. The demonstration should be consistent with existing development plans for the metropolitan areas involved. Transportation plans should coordinate every appropriate mode of city and regional transportation.

14. The demonstration should extend for an initial 6-year period. It should maintain a schedule for the expeditious completion of the project.

These guidelines will demand the full cooperation of government at every level and of private citizens in each area. I believe our Federal

system is creative enough to inspire that cooperative effort. I know it must be so creative if it is to prosper and flourish.

SIZE OF THE PROGRAM

The program I recommend is intended to eliminate blight in the entire demonstration area. Through efficient rebuilding it must replace that blight with attractive and economic housing, social services, and community facilities.

There are many ways by which this can be done, once the commitment has been made to do it. Total clearance and reconstruction; partial clearance and rehabilitation; rehabilitation alone—any of these methods may be chosen by local citizens. Whatever approach is selected, however, must be comprehensive enough to be effective and economic.

There are few cities or towns in America which could not participate in the demonstration cities program. We shall take special care to see that urban communities of all sizes are included. For each such community, the impact of the program will be significant, involving as much as 15 to 20 percent of the existing substandard structures.

For the largest qualifying cities a relatively modest program could provide decent housing for approximately 5,000 families now living in substandard dwelling units. It could rehabilitate other marginal housing sufficient to affect 50,000 people. A typical program could well involve a total of 35,000 units or 100,000 people.

For cities of approximately 100,000 people, 1,000 families could be rehoused and 3,000 units rehabilitated, affecting a total of 10,000 people.

BENEFITS OF THE PROGRAM

I recommend that participating cities receive two types of Federal assistance:

First, *the complete array of all available grants and urban aids* in the fields of housing, renewal, transportation, education, welfare, economic opportunity, and related programs.

Second, *special grants amounting to 80 percent of the non-Federal cost of our grant-in-aid programs included in the demonstration.* These grants are to supplement the efforts of local communities. They are not to be substituted for those efforts.

In every qualifying city, a Federal coordinator would be assigned to assist local officials in bringing together all the relevant Federal resources.

Once authorized, the supplemental funds would be made available in a common account. They would be drawn at the discretion of the community to support the program. They would be certified by the Federal coordinator.

It is vital that incentives be granted for cost reductions achieved during the performance of the program.

At least as vital as the dollar commitment for rebuilding and rehabilitation is the social program commitment. We must link our concern for the total welfare of the person, with our desire to improve the physical city in which he lives. For the first time, social and construction agencies would be joined in a massive common effort, responsive to a common local authority.

There is another benefit—not measurable in dollars, or even in the extended range of social services—that qualifying cities would secure by participating in this program.

It is a sense of hope—

That the city is not beyond reach of redemption by men of good will.

That through wise planning, cooperation, hard work, and the sacrifice of those outmoded codes and practices that make widespread renewal impossibly expensive today, it is possible to reverse the city's decline.

That knowledge, that confidence, that hope can make all the difference in the decade ahead.

FEDERAL COST

Funds are required in the first year to assist our cities in the preparation of demonstration plans. We should not underestimate the problems involved in achieving such a plan. The very scale of the demonstration, its widespread and profound effects on the social and physical structure of the city, calls for marshaling the city's planning and administrative resources on an unprecedented scale.

I estimate the appropriate Federal contribution to this planning effort at \$12 million. For the supplemental demonstration grants I will recommend appropriations, over a 6-year period, totaling over \$2.3 billion, or an average of some \$400 million per year.

It is impossible to estimate exactly—but it is necessary to consider—the rising cost of welfare services, crime prevention, unemployment, and declining property values that will plague all governments, local, State, and Federal, if we do not move quickly to heal and revitalize our cities.

METROPOLITAN PLANNING

The success of each demonstration will depend on the quality of its planning, and the degree of cooperation it elicits from the various governmental bodies concerned, as well as from private interests.

Most metropolitan areas conduct some degree of metropolitan planning now. The Federal Government has made funds available throughout the country so that State and local planning agencies might devise—many for the first time—comprehensive plans for metropolitan areas.

I recommend improvements and extensions of this program. The Congress enacted them recognizing that the problems of growth, transportation, housing, and public services cannot be considered by one entity of government alone.

The absence of cooperation between contiguous areas is wasteful. It is also blind to the reality of urban life. What happens in the central city, or the suburb, is certain to affect the quality of life in the other.

The widespread demand for these funds has resulted in their being spread thinly across the 50 States. Thus, the benefits of a truly coordinated attack on metropolitan problems have not generally been realized.

INCENTIVES TO ORDERLY METROPOLITAN DEVELOPMENT

Over the past 5 years, the Congress has authorized Federal grants for urban mass transportation, open space, and sewer and water facilities. The Congress has required that such projects be consistent with comprehensive planning for an entire urban or metropolitan area. The Federal Government has thus not only helped our localities to provide the facilities they need; it has also stimulated cooperation and joint planning among neighboring jurisdictions.

But more remains to be done. The powerful forces of urban growth threaten to overwhelm efforts to achieve orderly development. A metropolitan plan should be an instrument for shaping sound urban growth—not a neglected document.

I now propose a new incentive to help assure that metropolitan plans achieve their potential.

The Federal Government should bear a larger share of the total cost of related Federal aid programs. This share would be borne where local jurisdictions show that they are ready to be guided by their own plans in working out the patterns of their own development and where they establish the joint institutional arrangements necessary to carry out those plans.

DEMONSTRATIONS OF EFFECTIVE PLANNING

I propose that a series of demonstrations in effective metropolitan planning be undertaken promptly.

Metropolitan areas would be selected to return the broadest possible data and experience to Federal, State, and local governments. They should therefore be of varying size and environment, in widely separated locations. They would be selected to assure that their benefits reach small communities surrounding the large cities.

Advanced techniques and approaches should be employed. There must be—

- Balanced consideration of physical and human development programs.

- Coordinated treatment of the regional transportation network.

- Technical innovations, such as metropolitan data banks and systems analysis.

- New educational and training programs.

- New arrangements for coordinating decisions of the various local governments involved.

I estimate the cost of the demonstrations at \$6,500,000.

I shall impose on the new Department of Housing and Urban Development the continuing responsibility to stimulate effective planning. If local governments do not plan cooperatively and sufficiently in advance of inevitable urban growth, even adequate funds and an aggressive determination to improve our cities cannot succeed.

HOUSING FOR ALL

The programs I have proposed—in rebuilding large areas of our cities, and in metropolitan planning—are essential for the rebirth of urban America.

Yet at the center of the cities' housing problem lies racial discrimination. Crowded miles of inadequate dwellings—poorly maintained

and frequently overpriced—is the lot of most Negro Americans in many of our cities. Their avenue of escape to a more attractive neighborhood is often closed, because of their color.

The Negro suffers from this, as do his children. So does the community at large. Where housing is poor, schools are generally poor. Unemployment is widespread. Family life is threatened. The community's welfare burden is steadily magnified. These are the links in the chain of racial discrimination.

This administration is working to break that chain—through aid to education, medical care, community action programs, job retraining, and the maintenance of a vigorous economy.

The time has come when we should break one of its strongest links—the often subtle but always effective force of housing discrimination. The impacted racial ghetto will become a thing of the past only when the Negro American can move his family wherever he can afford to do so.

I shall, therefore, present to the Congress at an early date legislation to bar racial discrimination in the sale or rental of housing.

NEW COMMUNITIES

Our existing urban centers, however revitalized, cannot accommodate all the urban Americans of the next generation.

Three million new residents are added each year to our present urban population. The growth of new communities is inevitable. Unless they are to be casual parts of a general urban sprawl, a new approach to their design is required.

We must—

- Enlarge the entire scale of the building process;

- Make possible new efficiencies in construction, land development, and municipal services;

- Relieve population densities;

- Offer a variety of homes to a wide range of incomes.

These communities must also provide an environment harmonious to man's needs. They must offer adequate transportation systems, attractive community buildings, and open spaces free from pollution. They must retain much of the natural beauty of the landscape.

The private sector must continue its prominent role in new community development. As I recommended to the Congress last year, mortgage insurance should be made available for sites and community facilities for entire new communities.

It is apparent that new communities will spring into being near an increasing number of major metropolitan areas. Some, already in existence, promise dramatic efficiencies through size and new construction techniques, without sacrificing beauty. Obviously such a development should be encouraged. I recommend that the Congress provide the means of doing so.

RENT SUPPLEMENT PROGRAM

Rarely has a new housing program evoked such a dramatic and positive response as the rent supplement program. The Department of Housing and Urban Affairs has already received preliminary proposals from sponsors to construct nearly 70,000 low-income units under this program as soon as funds become available. The pro-

posals involve 424 projects in 265 localities in 43 States, the District of Columbia, and Puerto Rico. The sponsors have already selected sites for some 40,000 of these units. The interested groups are about equally divided between nonprofit organizations and private limited dividend developers.

The need for this program is obvious. It is the need of the poor and the disadvantaged. The demand for the means to meet this need by private enterprise is demonstrated by the figures I have just cited.

I strongly urge the Congress to pass a supplementary appropriation to fund the rent supplement program at the \$30 million level it has authorized in the Housing and Urban Development Act of 1965.

MASS TRANSPORTATION PROGRAM

We must continue to help our communities meet their increasing needs for mass transportation facilities. For this purpose, I propose an additional 1-year authorization for the urban mass transportation program.

THE NEW DEPARTMENT

No Federal program can be effective unless the agency that administers it is efficient. This is even more crucial for programs that call for comprehensive approaches at both the Federal and local level.

Progress was made after 1961 toward unifying the Housing and Home Finance Agency. But the very nature of that Agency limited the extent to which its several parts could be welded into a truly unified whole. Its Administrator lacked the statutory basis for gaining full control over partially independent agencies.

With this in mind, I requested—and you enacted—legislation to create a Department of Housing and Urban Development. As a result, the Secretary of the new Department now has the authority and the machinery for implementing the new programs I have asked for. I see five ways by which he can do this:

1. He can organize the Department so that its emphasis will be upon meeting modern urban needs—rather than fitting new programs into old and outworn patterns.
2. He can strengthen the regional structure so that more decisions can be made in the field.
3. He can assert effective leadership throughout the Department.
4. He can mesh together all our social and physical efforts to improve urban living.
5. He can assume leadership among intergovernmental agencies dealing with urban problems.

Such a Department, and such leadership, will be worthy of the program I recommend you adopt.

A YEAR OF REBIRTH

The evidence is all about us that to be complacent about the American city is to invite, at best, inconvenience; at worst, a divided nation.

The programs I have proposed in this message will require a determined commitment of our energy and a substantial commitment of our funds. Yet these programs are well within our resources. Nor do they compare in cost with the ugliness, hostility, and hopelessness

of unlivable cities. What would it mean to begin now, and to bring about the rebirth of our cities?

It would mean—

A more tolerable and a more hopeful life for millions of Americans.

The possibility of retaining middle-income families in the city, and even attracting some to return.

Improving the cities' tax base at a time of heavy strain on city budgets.

Ultimately reducing welfare costs.

Avoiding the unnecessary waste of human resources.

Giving to both urban and suburban families the freedom to choose where they will live.

A clean room and a patch of sky for every person, a chance to live near an open space, and to reach it on a safe street.

As Thomas Wolfe wrote, "to every man his chance—to every man, regardless of his birth, his shining, golden opportunity—to every man the right to live, to work, to be himself, and to become whatever thing his manhood and his vision can combine to make him—this * * * is the promise of America."

I believe these are among the most profound aspirations of our people. I want to make them part of our destiny.

I urge the Congress promptly to adopt the Demonstration Cities Act of 1966. If we begin now the planning from which action will flow, the hopes of the 20th century will become the realities of the 21st.

LYNDON B. JOHNSON.

THE WHITE HOUSE, *January 26, 1966.*

A BILL To assist city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in these areas

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Demonstration Cities Act of 1966".

FINDINGS AND DECLARATION OF PURPOSE

SEC. 2. The Congress hereby finds and declares that improving the quality of urban life is the most critical domestic problem facing the United States. The persistence of widespread urban slums and blight, the concentration of persons of low income in older urban areas, and the unmet needs for additional housing and community facilities and services arising from rapid expansion of our urban population have resulted in a marked deterioration in the environment of large numbers of our people while the Nation as a whole prospers.

The Congress further finds and declares that cities, both large and small, do not have adequate resources to deal effectively with the critical problems facing them, and that additional Federal assistance is essential to enable cities to plan, develop, and conduct programs to improve their physical environment, increase their supply of adequate housing for low- and moderate-income people, and provide educational and social services vital to health and welfare.

It is the purpose of this Act to provide additional financial and technical assistance to enable cities, both large and small, to plan, develop, and carry out programs to rebuild or revitalize large slum and blighted areas and expand and improve public programs and services available to the people who live in such areas.

It is further the purpose of this Act to provide the additional financial aid needed to enable cities to participate more effectively in existing Federal assistance programs.

It is further the purpose of this Act to assist cities to coordinate activities aided under existing Federal programs with other public and private actions in

order to provide the most effective and economical concentration of Federal, State, local, and private efforts to improve the quality of urban life.

BASIC AUTHORITY

SEC. 3. The Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary") is authorized to make grants and provide technical assistance, as provided by this Act, to enable city demonstration agencies (as herein defined) to plan, develop, and carry out comprehensive city demonstration programs.

COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

SEC. 4. (a) A "comprehensive city demonstration program" is a locally prepared and scheduled program for rebuilding or restoring entire sections and neighborhoods of slum and blighted areas through the concentrated and coordinated use of all available Federal aids and local private and governmental resources, including citywide aids and resources necessary to improve the general welfare of the people living or working in the areas.

(b) A comprehensive city demonstration program is eligible for assistance under sections 6, 8, and 9 only if the Secretary determines that—

(1) the program is of sufficient magnitude in both physical and social dimensions (i) to remove or arrest blight and decay in entire sections or neighborhoods, (ii) to provide a substantial increase in the supply of standard housing of low and moderate cost, (iii) to make marked progress in serving the poor and disadvantaged people living in slum and blighted areas with a view to reducing educational disadvantages, disease, and enforced idleness, and (iv) to make a substantial impact on the sound development of the entire city;

(2) the rebuilding or restoration of sections or neighborhoods in accordance with the program will contribute to a well-balanced city with adequate public facilities (including those needed for transportation, education, and recreation), commercial facilities adequate to serve the residential areas, good access to industrial or other centers of employment, and housing for all income levels;

(3) the program provides for educational and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum opportunities for employing residents of the area in all phases of the program, and enlarged opportunity for work and training;

(4) adequate local resources are, or will be, available for the completion of the program as scheduled;

(5) administrative machinery is available for carrying out the program on a consolidated and coordinated basis, the local governing body has approved the program, and local agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation;

(6) there exists a relocation plan meeting the requirements of the regulations referred to in section 9;

(7) the program is designed to assure maximum opportunity in the choice of housing accommodations by all citizens; and

(8) the program meets such additional requirements as the Secretary may establish to carry out the purposes of this Act.

(c) In making the determinations under subsection (b), the Secretary shall give maximum consideration to whether—

(1) substantive local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program;

(2) the program will enhance neighborhoods by applying a high standard of design and will, as appropriate, maintain distinctive natural, historical, and cultural characteristics;

(3) the program is designed to make maximum use of new and improved technology and design, including cost reduction techniques;

(4) the program will encourage good community relations and counteract the segregation of housing by race or income; and

(5) the program is consistent with comprehensive planning for the entire urban or metropolitan area.

FINANCIAL ASSISTANCE FOR PLANNING COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

SEC. 5. (a) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 90 per centum of the costs of planning and developing comprehensive city demonstration programs.

(b) Financial assistance will be provided under this section only if (1) the application for such assistance has been approved by the local governing body of the city, and (2) the Secretary has determined that there exist (i) administrative machinery through which coordination of all related planning activities of local agencies can be achieved and (ii) evidence that necessary cooperation of agencies engaged in related local planning can be obtained.

FINANCIAL ASSISTANCE FOR APPROVED COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

SEC. 6. (a) The Secretary shall review plans for comprehensive city demonstration programs in order to determine that (1) such plans satisfy the criteria for such programs set forth in section 4, and (2) the various projects or activities to be undertaken in connection with such programs are scheduled to be initiated within a reasonably short period of time.

(b) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the costs of administering approved comprehensive city demonstration programs, but not the cost of administering any project or activity assisted under a Federal grant-in-aid program.

(c) To assist the city to carry out the projects or activities included within an approved comprehensive city demonstration program, the Secretary is authorized to make grants to the city demonstration agency of not to exceed 80 per centum of the aggregate amount of non-Federal contributions otherwise required to be made to all projects or activities assisted by Federal grant-in-aid programs: *Provided*, That the amount of non-Federal contribution required for each project in a Federal grant-in-aid program shall be certified to the Secretary by the Federal department or agency (other than the Department of Housing and Urban Development) administering such program, and the Secretary shall accept such determination in computing the grants hereunder.

(d) Grant funds provided pursuant to subsection (c) of this section may be used for projects or activities assisted under a Federal grant-in-aid program which are undertaken as part of an approved comprehensive city demonstration program, or for other projects or activities undertaken as part of such demonstration program. If used for projects or activities assisted under a Federal grant-in-aid program which are undertaken as part of such demonstration program, funds provided pursuant to subsection (c) shall be credited as part or all of the required non-Federal contribution to such projects or activities.

(e) The Secretary shall not make any grant under this section unless he has obtained satisfactory assurances that the locality will maintain, during the period an approved comprehensive city demonstration program is being carried out, a level of aggregate expenditures for activities similar to those being assisted under this section not less than the level of aggregate expenditures for such activities prior to initiation of the comprehensive city demonstration program.

OFFICE OF THE FEDERAL COORDINATOR

SEC. 7. There shall be established for each locality having an approved comprehensive city demonstration program an office to be known as the office of the Federal coordinator headed by a director who shall be designated by the Secretary. The director shall perform such functions as the Secretary shall from time to time prescribe with respect to helping achieve the maximum effective coordination of Federal grant-in-aid programs undertaken in connection with comprehensive city demonstration programs. Nothing in this section shall be construed to vest in the Secretary any authority to exercise or delegate any function or duty vested by law in any department or agency of the Federal Government other than the Department of Housing and Urban Development.

TECHNICAL ASSISTANCE

SEC. 8. The Secretary is authorized to undertake such activities as he determines to be desirable to provide, either directly or by contracts or other arrangements, technical assistance to city demonstration agencies to assist such agencies

in planning, developing, and administering comprehensive city demonstration programs.

RELOCATION REQUIREMENTS AND PAYMENTS

SEC. 9. (a) A comprehensive city demonstration program must include a plan for the relocation of individuals, families, business concerns, and nonprofit organizations displaced or to be displaced in carrying out the city demonstration program. The relocation plan shall be consistent with regulations prescribed by the Secretary to assure that (1) the provisions and procedures included in the plan meet relocation standards equivalent to those prescribed under section 105(c) of the Housing Act of 1949 with respect to urban renewal projects assisted under title I of that Act, and (2) relocation activities are coordinated to the maximum extent feasible with the increase in the supply of decent, safe, and sanitary housing for families and individuals of low or moderate income, as provided under the comprehensive city demonstration program, or otherwise, in order to best maintain the available supply of such housing for all such families and individuals throughout the city.

(b) To the extent not otherwise authorized under any Federal law, financial assistance extended to a comprehensive city demonstration agency under section 6 shall include grants to cover the full cost of relocation payments, as herein defined. Such grants shall be in addition to other financial assistance extended to such agency under section 6.

The term "relocation payments" means payments by a comprehensive city demonstration agency to a displaced individual, family, business concern, or nonprofit organization which are made on such terms and conditions and subject to such limitations (to the extent applicable, but not including the date of displacement) as are provided for relocation payments, at the time such payments are approved, by section 114 (b), (c), (d), and (e) of the Housing Act of 1949 with respect to projects assisted under title I thereof.

(c) Subsection (b) shall not be applicable with respect to any displacement occurring prior to the date of the enactment of this Act.

CONTINUED AVAILABILITY OF FEDERAL GRANT-IN-AID PROGRAM

SEC. 10. Notwithstanding any other provision of law, unless hereafter enacted expressly in limitation of the provisions of this section, funds appropriated for a Federal grant-in-aid program which are reserved for any projects or activities assisted under such grant-in-aid program undertaken in connection with an approved comprehensive city demonstration program shall remain available until expended when so provided in appropriation acts.

CONSULTATION

SEC. 11. In carrying out the provisions of this Act, including the issuance of regulations, the Secretary shall consult with other Federal departments and agencies administering Federal grant-in-aid programs. The Secretary shall consult with each Federal department and agency affected by each comprehensive city demonstration program before entering into a commitment to make grants for such program under section 6.

APPROPRIATIONS

SEC. 12. There are hereby authorized to be appropriated such sums as may be necessary to carry out the provisions of this Act. Appropriations authorized under this Act shall remain available until expended when so provided in appropriation acts.

DEFINITIONS

SEC. 13. As used in this Act—

(a) "Federal grant-in-aid program" means a program of Federal financial assistance other than loans and other than the assistance provided by this Act.

(b) "City demonstration agency" means the city or any local public agency established or designated by the local governing body to administer the comprehensive city demonstration program.

(c) "City" means any municipality (or two or more municipalities acting jointly) or, with respect to urban areas outside of incorporated municipalities, any county or other public body (or two or more acting jointly) having general governmental powers.

(d) "Local" agencies include State agencies and instrumentalities providing services or resources to a city or locality, and "local" resources include those provided to a city or locality by a State or its agency or instrumentality.

TERMINATION OF AUTHORITY

SEC. 14. (a) This Act and all authority conferred thereunder shall terminate at the close of June 30, 1971: *Provided*, That the functions, powers, duties, and authorities vested in the Secretary under this Act may be retained by the Secretary for the purpose of liquidating the affairs and functions conducted under this Act.

(b) The termination of this Act shall not affect the disbursement of funds under, or the carrying out of, any contract, commitment, or other obligation entered into pursuant to this Act prior to the date of such termination, or the taking of any action necessary to preserve or protect the interests of the United States in any amounts advanced or paid out in carrying on operations under this Act.

The resolution was agreed to.
A motion to reconsider was laid on the table.

U.S. PARTICIPATION IN THE INTER-AMERICAN CULTURAL AND TRADE CENTER IN DADE COUNTY, FLA.

Mr. FASCELL. Mr. Speaker, I ask unanimous consent to take from the Speaker's desk the bill (H.R. 30) to provide for participation of the United States in the Inter-American Cultural and Trade Center in Dade County, Fla., and for other purposes.

The Clerk read the title of the bill.

The Clerk read the Senate amendments, as follows:

Page 2, line 20, strike out "February 15, 1966," and insert "May 15, 1966,".

Page 4, line 19, strike out "\$11,000,000" and insert "\$7,500,000".

Page 5, lines 3 and 4, strike out "1967, 1968, 1969, and 1970" and insert "1968 and 1969".

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

Mr. HALL. Mr. Speaker, I object.

The SPEAKER pro tempore. Objection is heard.

DEMONSTRATION CITIES ACT OF 1966—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 368)

The SPEAKER laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, referred to the Committee on Banking and Currency and ordered to be printed:

To the Congress of the United States:

The year 1966 can be the year of rebirth for American cities.

This Congress, and this people, can set in motion forces of change in great urban areas that will make them the masterpieces of our civilization.

Fifty years from now our population will reach that of today's India. Our grandchildren will inhabit a world as different from ours, as ours is from the world of Jefferson.

None can predict the shape of their life with any certainty. Yet one thing is sure. It will be lived in cities. By the year 2000, four out of five Americans will live and work in a metropolitan area.

We are not strangers to an urban world.

We began our national life gathered in towns along the Atlantic seaboard. We built new commercial centers around the Great Lakes and in the Midwest, to serve our westward expansion.

Forty millions came from Europe to fuel our economy and enrich our community life. This century has seen the steady and rapid migration of farm families—seeking jobs and the promise of the city.

From this rich experience we have learned much.

We know that cities can stimulate the best in man, and aggravate the worst.

We know the convenience of city life, and its paralysis.

We know its promise, and its dark foreboding.

What we may only dimly perceive is the gravity of the choice before us.

Shall we make our cities livable for ourselves and our posterity? Or shall we by timidity and neglect damn them to fester and decay?

If we permit our cities to grow without rational design; if we stand passively by, while the center of each city becomes a hive of deprivation, crime, and hopelessness; if we devour the countryside as though it were limitless, while our ruins—millions of tenement apartments and dilapidated houses—go unredeemed; if we become two people—the suburban affluent and the urban poor, each filled with mistrust and fear one for the other; if this is our desire and policy as a people, then we shall effectively cripple each generation to come.

We shall as well condemn our own generation to a bitter paradox; an educated, wealthy, progressive people, who would not give their thoughts, their resources, or their wills to provide for their common well-being.

I do not believe such a fate is either necessary or inevitable. But I believe this will come to pass—unless we commit ourselves now to the planning, the building, the teaching and the caring that alone can forestall it.

That is why I am recommending today a massive demonstration cities program. I recommend that both the public and private sectors of our economy join to build in our cities and towns an environment for man equal to the dignity of his aspirations.

I recommend an effort larger in scope, more comprehensive, more concentrated—than any that has gone before.

THE WORK OF THE PAST

I know the work of the past three decades. I have shared in the forging of our Federal housing and renewal programs. I know what they have done for millions of urban Americans:

Eight million single family dwellings assisted by the Federal Housing Administration.

An additional 6.7 million assisted by the Veterans' Administration.

One million, one hundred thousand multiple units created; 605,000 families moved out of decayed and unsanitary dwellings into decent public housing; 300,000 dwelling units supported under urban renewal.

Without these programs, the goal I recommend today would be impossible to achieve. Because Federal sponsorship is so effective a part of our system of homebuilding, we can conceive a far larger purpose than it has yet fulfilled. We must make use of every established housing program—and of social, educational, and economic instruments as well—if the demonstration cities program is to succeed.

THE PROBLEM TODAY

Our housing programs have built a platform, from which we may see how far away is the reborn city we desire. For there still remain: some 4 million urban families living in homes of such disrepair as to violate decent housing

standards; the need to provide over 30 percent more housing annually than we are currently building; our chronic inability to provide sufficient low- and moderate-income housing, of adequate quality, at a reasonable price; the special problem of the poor and the Negro, unable to move freely from their ghettos, exploited in the quest for the necessities of life; increasing pressures on municipal budgets, with large city per capita expenditures rising 36 percent in the 3 years after 1960.

The high human costs: crime, delinquency, welfare loads, disease and health hazards. This is man's fate in those broken neighborhoods where he can "feel the enclosure of the flaking walls and see through the window the blackened reflection of the tenement across the street that blocks out the world beyond"; the tragic waste and, indeed, the chaos that threatens where children are born into the stifling air of overcrowded rooms, destined for a poor diet, inadequate schools, streets of fear and sordid temptation, joblessness, and the gray anxiety of the ill-prepared; and the flight to the suburbs of more fortunate men and women, who might have provided the leadership and the means for reversing this human decline.

THE INADEQUATE RESPONSE

Since 1949, the urban renewal program has been our chief instrument in the struggle for a decent urban environment.

Over 800 cities are participating in urban renewal programs. Undertaken and designed by the cities themselves, these efforts have had an increasing influence on the use of urban land. Last year the Congress wisely extended the authorization for urban renewal, at a higher level than before.

Years of experience with urban renewal have taught us much about its strengths and weaknesses.

Since 1961 we have made major alterations in its administration. We have made it more responsive to human needs. We have more vigorously enforced the requirement of a workable program for the entire community. Within the limits of current law, we have achieved considerable progress toward these goals.

Nevertheless the social and psychological effects of relocating the poor have not always been treated as what they are. They are the unavoidable consequences of slum clearance, demanding as much concern as physical redevelopment.

The size and scale of urban assistance has been too small, and too widely dispersed.

Present programs are often prisoners of archaic and wasteful building practices. They have inhibited the use of modern technology. They have inflated the cost of rebuilding.

The benefits and efficiencies that can come from metropolitan planning are still unrealized in most urban regions.

Insufficient resources cause extensive delays in many projects. The result is growing blight and overcrowding that thwart our best efforts to resist them.

The goals of major Federal programs have often lacked cohesiveness. Some

work for the revitalization of the central city. Some accelerate suburban growth. Some unite urban communities. Some disrupt them.

URBAN DILEMMAS

Virtually every forward step we have taken has had its severe limitations. Each of those steps has involved a public choice, and created a public dilemma: major clearance and reconstruction, with its attendant hardships of relocation; relieving traffic congestion, thereby widening the gulf between the affluence of suburbia and the poverty of the city; involving urban residents in redeveloping their own areas, hence lengthening the time and increasing the cost of the job; preserving the autonomy of local agencies, thus crippling our efforts to attack regional problems on a regional basis.

These dilemmas cannot be completely resolved by any single program, no matter how well designed. The prize—cities of spacious beauty and lively promise, where men are truly free to determine how they will live—is too rich to be lost because the problems are complex.

Let there be debate over means and priorities.

Let there be experiment with a dozen approaches, or a hundred.

But let there be commitment to that goal.

WHAT IS REQUIRED

From the experience of three decades, it is clear to me that American cities require a program that will: concentrate our available resources—in planning tools, in housing construction, in job training, in health facilities, in recreation, in welfare programs, in education—to improve the conditions of life in urban areas; join together all available talent and skills in a coordinated effort; mobilize local leadership and private initiative, so that local citizens will determine the shape of their new city—freed from the constraints that have handicapped their past efforts and inflated their costs.

A DEMONSTRATION CITIES PROGRAM

I propose a demonstration cities program that will offer qualifying cities of all sizes the promise of a new life for their people.

I propose that we make massive additions to the supply of low- and moderate-cost housing.

I propose that we combine physical reconstruction and rehabilitation with effective social programs throughout the rebuilding process.

I propose that we achieve new flexibility in administrative procedures.

I propose that we focus all the techniques and talents within our society on the crisis of the American city.

It will not be simple to qualify for such a program. We have neither the means nor the desire to invest public funds in an expensive program whose net effects will be marginal, wasteful, or visible only after protracted delay.

We intend to help only those cities who help themselves.

I propose these guidelines for determining a city's qualifications for the benefits—and achievements—of this program.

First. The demonstration should be of sufficient magnitude both in its physical

and social dimensions to arrest blight and decay in entire neighborhoods. It must make a substantial impact within the coming few years on the development of the entire city.

Second. The demonstration should bring about a change in the total environment of the area affected. It must provide schools, parks, playgrounds, community centers, and access to all necessary community facilities.

Third. The demonstration—from its beginning—should make use of every available social program. The human cost of reconstruction and relocation must be reduced. New opportunities for work and training must be offered.

Fourth. The demonstration should contribute to narrowing the housing gap between the deprived and the rest of the community. Major additions must be made to the supply of sound dwellings. Equal opportunity in the choice of housing must be assured to every race.

Fifth. The demonstration should offer maximum occasions for employing residents of the demonstration area in all phases of the program.

Sixth. The demonstration should foster the development of local and private initiative and widespread citizen participation—especially from the demonstration area—in the planning and execution of the program.

Seventh. The demonstration should take advantage of modern cost-reducing technologies without reducing the quality of the work. Neither the structure of real estate taxation, cumbersome building codes, nor inefficient building practices should deter rehabilitation or inflate project costs.

Eighth. The demonstration should make major improvements in the quality of the environment. There must be a high quality of design in new buildings, and attention to man's need for open spaces and attractive landscaping.

Ninth. The demonstration should make relocation housing available at costs commensurate with the incomes of those displaced by the project. Counseling services, moving expenses, and small business loans should be provided, together with assistance in job placement and retraining.

Tenth. The demonstration should be managed in each demonstration city by a single authority with adequate powers to carry out and coordinate all phases of the program. There must be a serious commitment to the project on the part of local, and where appropriate, State authorities. Where required to carry out the plan, agreements should be reached with neighboring communities.

Eleventh. The demonstration proposal should offer proof that adequate municipal appropriations and services are available and will be sustained throughout the demonstration period.

Twelfth. The demonstration should maintain or establish a residential character in the area.

Thirteenth. The demonstration should be consistent with existing development plans for the metropolitan areas involved. Transportation plans should coordinate every appropriate mode of city and regional transportation.

Fourteenth. The demonstration should

extend for an initial 6-year period. It should maintain a schedule for the expeditious completion of the project.

These guidelines will demand the full cooperation of government at every level and of private citizens in each area. I believe our Federal system is creative enough to inspire that cooperative effort. I know it must be so creative if it is to prosper and flourish.

SIZE OF THE PROGRAM

The program I recommend is intended to eliminate blight in the entire demonstration area. Through efficient rebuilding it must replace that blight with attractive and economic housing, social services, and community facilities.

There are many ways by which this can be done, once the commitment has been made to do it. Total clearance and reconstruction; partial clearance and rehabilitation; rehabilitation alone—any of these methods may be chosen by local citizens.

Whatever approach is selected, however, must be comprehensive enough to be effective and economic.

There are few cities or towns in America which could not participate in the demonstration cities program. We shall take special care to see that urban communities of all sizes are included. For each such community, the impact of the program will be significant, involving as much as 15 to 20 percent of the existing substandard structures.

For the largest qualifying cities a relatively modest program could provide decent housing for approximately 5,000 families now living in substandard dwelling units. It could rehabilitate other marginal housing sufficient to affect 50,000 people. A typical program could well involve a total of 35,000 units or 100,000 people.

For cities of approximately 100,000 people, 1,000 families could be rehoused, and 3,000 units rehabilitated, affecting a total of 10,000 people.

BENEFITS OF THE PROGRAM

I recommend that participating cities receive two types of Federal assistance:

First. The complete array of all available grants and urban aids in the fields of housing, renewal, transportation, education, welfare, economic opportunity, and related programs.

Second. Special grants amounting to 80 percent of the non-Federal cost of our grant-in-aid programs included in the demonstration. These grants are to supplement the efforts of local communities. They are not to be substituted for those efforts.

In every qualifying city, a Federal coordinator would be assigned to assist local officials in bringing together all the relevant Federal resources.

Once authorized, the supplemental funds would be made available in a common account. They would be drawn at the discretion of the community to support the program. They would be certified by the Federal coordinator.

It is vital that incentives be granted for cost reductions achieved during the performance of the program.

At least as vital as the dollar commitment for rebuilding and rehabilitation is the social program commitment. We

must link our concern for the total welfare of the person, with our desire to improve the physical city in which he lives. For the first time, social and construction agencies would be joined in a massive common effort, responsive to a common local authority.

There is another benefit—not measurable in dollars, or even in the extended range of social services—that qualifying cities would secure by participating in this program.

It is a sense of hope: that the city is not beyond reach of redemption by men of good will; that through wise planning, cooperation, hard work, and the sacrifice of those outmoded codes and practices that make widespread renewal impossibly expensive today, it is possible to reverse the city's decline.

That knowledge, that confidence, that hope can make all the difference in the decade ahead.

FEDERAL COST

Funds are required in the first year to assist our cities in the preparation of demonstration plans. We should not underestimate the problems involved in achieving such a plan. The very scale of the demonstration, its widespread and profound effects on the social and physical structure of the city, calls for marshaling the city's planning and administrative resources on an unprecedented scale.

I estimate the appropriate Federal contribution to this planning effort at \$12 million.

For the supplemental demonstration grants I will recommend appropriations, over a 6-year period, totaling over \$2.3 billion, or an average of some \$400 million per year.

It is impossible to estimate exactly—but it is necessary to consider—the rising cost of welfare services, crime prevention, unemployment and declining property values that will plague all governments, local, State, and Federal, if we do not move quickly to heal and revitalize our cities.

METROPOLITAN PLANNING

The success of each demonstration will depend on the quality of its planning, and the degree of cooperation it elicits from the various governmental bodies concerned, as well as from private interests.

Most metropolitan areas conduct some degree of metropolitan planning now. The Federal Government has made funds available throughout the country so that State and local planning agencies might devise—many for the first time—comprehensive plans for metropolitan areas.

I recommend improvements and extensions of this program. The Congress enacted them recognizing that the problems of growth, transportation, housing, and public services cannot be considered by one entity of Government alone.

The absence of cooperation between contiguous areas is wasteful. It is also blind to the reality of urban life. What happens in the central city, or the suburb, is certain to affect the quality of life in the other.

The widespread demand for these funds has resulted in their being spread thinly across the 50 States. Thus, the

benefits of a truly coordinated attack on metropolitan problems have not generally been realized.

INCENTIVES TO ORDERLY METROPOLITAN DEVELOPMENT

Over the past 5 years, the Congress has authorized Federal grants for urban mass transportation, open space, and sewer and water facilities. The Congress has required that such projects be consistent with comprehensive planning for an entire urban or metropolitan area.

The Federal Government has thus not only helped our localities to provide the facilities they need. It has also stimulated cooperation and joint planning among neighboring jurisdictions.

But more remains to be done. The powerful forces of urban growth threaten to overwhelm efforts to achieve orderly development. A metropolitan plan should be an instrument for shaping sound urban growth—not a neglected document.

I now propose a new incentive to help assure that metropolitan plans achieve their potential.

The Federal Government should bear a larger share of the total cost of related Federal aid programs. This share would be borne where local jurisdictions show that they are ready to be guided by their own plans in working out the patterns of their own development and where they establish the joint institutional arrangements necessary to carry out those plans.

DEMONSTRATIONS OF EFFECTIVE PLANNING

I propose that a series of demonstrations in effective metropolitan planning be undertaken promptly.

Metropolitan areas would be selected to return the broadest possible data and experience to Federal, State, and local governments. They should therefore be of varying size and environment, in widely separated locations. They would be selected to assure that their benefits reach small communities surrounding the large cities.

Advanced techniques and approaches should be employed. There must be balanced consideration of physical and human development programs; coordinated treatment of the regional transportation network; technical innovations, such as metropolitan data banks and systems analysis; new educational and training programs; new arrangements for coordinating decisions of the various local governments involved.

I estimate the cost of the demonstrations at \$6,500,000.

I shall impose on the new Department of Housing and Urban Development the continuing responsibility to stimulate effective planning. If local governments do not plan cooperatively and sufficiently in advance of inevitable urban growth, even adequate funds and an aggressive determination to improve our cities cannot succeed.

HOUSING FOR ALL

The programs I have proposed—in rebuilding large areas of our cities, and in metropolitan planning—are essential for the rebirth of urban America.

Yet at the center of the cities' housing problem lies racial discrimination. Crowded miles of inadequate dwellings—

poorly maintained and frequently overpriced—is the lot of most Negro Americans in many of our cities. Their avenue of escape to a more attractive neighborhood is often closed, because of their color.

The Negro suffers from this, as do his children. So does the community at large. Where housing is poor, schools are generally poor. Unemployment is widespread. Family life is threatened. The community's welfare burden is steadily magnified. These are the links in the chain of racial discrimination.

This administration is working to break that chain—through aid to education, medical care, community action programs, job retraining, and the maintenance of a vigorous economy.

The time has come when we should break one of its strongest links—the often subtle, but always effective force of housing discrimination. The impacted racial ghetto will become a thing of the past only when the Negro American can move his family wherever he can afford to do so.

I shall, therefore, present to the Congress at an early date legislation to bar racial discrimination in the sale or rental of housing.

NEW COMMUNITIES

Our existing urban centers, however revitalized, cannot accommodate all the urban Americans of the next generation.

Three million new residents are added each year to our present urban population. The growth of new communities is inevitable. Unless they are to be casual parts of a general urban sprawl, a new approach to their design is required.

We must: enlarge the entire scale of the building process; make possible new efficiencies in construction, land development, and municipal services; relieve population densities; offer a variety of homes to a wide range of incomes.

These communities must also provide an environment harmonious to man's needs.

They must offer adequate transportation systems, attractive community buildings, and open spaces free from pollution. They must retain much of the natural beauty of the landscape.

The private sector must continue its prominent role in new community development. As I recommended to the Congress last year, mortgage insurance should be made available for sites and community facilities for entire new communities.

It is apparent that new communities will spring into being near an increasing number of major metropolitan areas. Some, already in existence, promise dramatic efficiencies through size and new construction techniques, without sacrificing beauty. Obviously such a development should be encouraged. I recommend that the Congress provide the means of doing so.

RENT SUPPLEMENT PROGRAM

Rarely has a new housing program evoked such a dramatic and positive response as the rent supplement program.

The Department of Housing and Urban Affairs has already received preliminary proposals from sponsors to construct nearly 70,000 low-income units

under this program as soon as funds become available.

The proposals involve 424 projects in 265 localities in 43 States, the District of Columbia, and Puerto Rico. The sponsors have already selected sites for some 40,000 of these units. The interested groups are about equally divided between nonprofit organizations and private limited dividend developers.

The need for this program is obvious. It is the need of the poor and the disadvantaged. The demand for the means to meet this need by private enterprise is demonstrated by the figures I have just cited.

I strongly urge the Congress to pass a supplementary appropriation to fund the rent supplement program at the \$30 million level it has authorized in the Housing and Urban Development Act of 1965.

MASS TRANSPORTATION PROGRAM

We must continue to help our communities meet their increasing needs for mass transportation facilities. For this purpose, I propose an additional 1-year authorization for the urban mass transportation program.

THE NEW DEPARTMENT

No Federal program can be effective unless the agency that administers it is efficient. This is even more crucial for programs that call for comprehensive approaches at both the Federal and local level.

Progress was made after 1961 toward unifying the Housing and Home Finance Agency. But the very nature of that agency limited the extent to which its several parts could be welded into a truly unified whole. Its Administrator lacked the statutory basis for gaining full control over partially independent agencies.

With this in mind, I requested—and you enacted—legislation to create a Department of Housing and Urban Development.

As a result, the Secretary of the new Department now has the authority and the machinery for implementing the new programs I have asked for.

I see five ways by which he can do this: First. He can organize the Department so that its emphasis will be upon meeting modern urban needs—rather than fitting new programs into old and outworn patterns.

Second. He can strengthen the regional structure so that more decisions can be made in the field.

Third. He can assert effective leadership throughout the Department.

Fourth. He can mesh together all our social and physical efforts to improve urban living.

Fifth. He can assume leadership among intergovernmental agencies dealing with urban problems.

Such a Department, and such leadership, will be worthy of the program I recommend you adopt.

A YEAR OF REBIRTH

The evidence is all about us that to be complacent about the American city is to invite, at best, inconvenience; at worst, a divided Nation.

The programs I have proposed in this message will require a determined com-

mitment of our energy and a substantial commitment of our funds.

Yet these programs are well within our resources. Nor do they compare in cost with the ugliness, hostility, and hopelessness of unlivable cities.

What would it mean to begin now, and to bring about the rebirth of our cities?

It would mean: a more tolerable and a more hopeful life for millions of Americans; the possibility of retaining middle-income families in the city, and even attracting some to return; improving the cities' tax base, at a time of heavy strain on city budgets; ultimately reducing welfare costs; avoiding the unnecessary waste of human resources; giving to both urban and suburban families the freedom to choose where they will live; a clean room and a patch of sky for every person, a chance to live near an open space, and to reach it on a safe street.

As Thomas Wolfe wrote:

To every man his chance—to every man, regardless of his birth, his shining, golden opportunity—to every man the right to live, to work, to be himself, and to become whatever thing his manhood and his vision can combine to make him—this * * * is the promise of America.

I believe these are among the most profound aspirations of our people. I want to make them part of our destiny.

I urge the Congress promptly to adopt the Demonstration Cities Act of 1966. If we begin now the planning from which action will flow, the hopes of the 20th century will become the realities of the 21st.

LYNDON B. JOHNSON.

THE WHITE HOUSE, January 26, 1966.

DEMONSTRATION CITIES

(Mr. PATMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PATMAN. Mr. Speaker, I wish to voice my full support for the President's proposal of a concerted, massive thrust against blight, poverty, and decay in great areas of our urban centers.

I refer to President Johnson's bold plan to move, in large areas of our central cities, with all the means at hand and uproot the causes and consequences of physical decay and human degradation once and for all. In this way, we can demonstrate that revitalization of our cities, and the simultaneous redemption and rehabilitation of the people who live in run-down areas, need not wait on piecemeal-efforts which take decades or generations. It can be done now—if we will only make full concerted use of the resources we have today.

The President's new plan is simple in concept. It calls for no new programs to deal with separate problems. It calls, rather, for the full use of all the measures we already have, but applied jointly and in concert to the basic problems of a blighted area.

It means human and physical rehabilitation at one and the same time. It means a full-scale plan of action for the

needs of the area and the needs of the people. It brings together our resources of renewal, education, employment, housing, and social help in one combined assault.

The plan is for Federal help to make it possible for urban communities, large and small, to mount a major attack of this kind. Federal funds will be used to do a thorough-going job of planning on an all-out program to deal with all aspects of human and physical blight in large urban areas.

The President's plan proposes fighting blight on a new and larger scale—in areas that may involve as many as 100,000 people in a large city—or as few as 10,000 in a smaller sized town.

It would place Federal resources under a joint command to accomplish this objective. It calls on our local communities, likewise, to think in larger terms, and to place their resources under a common direction for the same end.

It is time, I think, that we start on such a scale and with full force to move against the basic problem of blight and its many causes. The President's proposal offers the means. If we really mean to get it done, this is the way to do the job.

MESSAGE ON CITIES

(Mr. ALBERT asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. ALBERT. Mr. Speaker, President Johnson's message on the cities outlines several needs of the urban areas of America that are yet to be met. He proposes new plans and programs to make urban development fit into the achievement of our overall objective of the Great Society.

The plans and programs proposed by the President are not idle dreams. They are highly practical, and based on long study and experience.

The President's proposal for rebuilding central cities suggests harnessing existing programs and activities of various Federal agencies and directing them in a more coordinated manner. He would add to these programs additional assistance for planning. The cities would contribute to their own rebuilding, but only an amount that is within their ability to pay. By these actions we can restore to the central city the tax resources and the industry and commerce that are essential to its prosperity.

The President would also provide the assistance to mass transportation that is needed if workers are to travel to and from our cities in a minimum of time, and with the least cost and inconvenience.

The President's message reports the great interest of private organizations in providing housing for low-income families with the assistance of rent supplements. I believe a fair trial will prove that this program, authorized by the 1965 Housing Act, is practical and that it will be successful in housing low-income families at least possible cost to the taxpayers.

These are only a few of the significant proposals made by the President in his various messages to the Congress on the cities and urban development.

I am sure the Congress will lose no time in giving them consideration so they can be put to work immediately.

DEMONSTRATION CITIES

(Mr. BOGGS (at the request of Mr. ALBERT) was given permission to extend his remarks at this point in the RECORD.)

Mr. BOGGS. Mr. Speaker, President Johnson's proposals for a concentrated effort to eliminate blight and decay from the centers of our towns and cities is, to my mind, one of the most important and promising recommendations in recent years.

Billions of dollars of public and private funds are now going into the redevelopment of our cities. Concentration of all these efforts, under coordinated plans and direction, instead of separately as unrelated forays on physical and human blight, will produce a total effort far more valuable than the sum of its separate parts.

As the President points out, many things can be accomplished by such a concerted effort which would be impossible without it.

The way to reverse blight and decay, far more quickly and on a lasting basis, is to alter the total environment at one time, instead of trying to do it bit by bit, without plan or coordination.

We can work effectively with, not just for, people whose lives are affected, enabling them to become a creative part of their own urban community.

We can stimulate and implement local initiative and citizen participation in a community's future.

We can develop, in these areas, laboratories for exploring stubborn problems of technology, real estate taxation, building codes, and inefficiency in construction and rehabilitation.

We can develop new and higher levels of design and quality in housing, in area planning, in preservation of open spaces.

We can serve the individual needs and problems of people directly, with counseling and with social and economic help. We can reduce the human cost of urban development.

We can, especially, bring about a consolidation within a community of its own resources, and those of the surrounding area.

The President has offered us a comprehensive plan for doing a difficult job. It is one of the most important proposals now before us and I trust that the committee will bring work immediately. I urge support of these proposals.

RENT SUPPLEMENTS

(Mr. BARRETT (at the request of Mr. ALBERT) was granted permission to extend his remarks at this point in the RECORD and to include extraneous matter.)

Mr. BARRETT. Mr. Speaker, in his message on the cities, President Johnson has forcefully brought to our attention a

basic fact of urban life that must be reckoned with: we do not have enough decent housing for the people who live in our cities. Nor are we preparing enough decent housing for the millions more who will be living there tomorrow.

Decent housing is the fundamental factor in building livable urban communities. Yet millions are now forced to live in slums, ghettos, or rundown housing because there is nothing else they can afford.

As the President also points out, however, we can have a lot more good housing for these low-income people if we want it and act to get it. Local sponsors and private developers are waiting for our word to build it.

Last year we enacted the rent supplement program to help provide this kind of housing. But we did not give it any money. Now the President asks for quick action to provide funds to put that program to work.

The President informs us that sponsors have already presented preliminary proposals to the FHA for the building of nearly 70,000 low-income units under this program. More than half of these—involved 40,000 units, already have sites available or optioned. This demand is nationwide—coming from 265 localities in 43 States, the District of Columbia, and Puerto Rico. The sponsors are both nonprofit organizations and private investors building for limited dividend returns.

This remarkable response to such a new program is highly encouraging.

I urge this body to move promptly to provide the full amount of funding for the rent supplement program. Our people need this housing now. They are looking to us to provide it. We should delay no longer.

CITIES

(Mrs. SULLIVAN (at the request of Mr. ALBERT) was granted permission to extend his remarks at this point in the RECORD and to include extraneous matter.)

Mrs. SULLIVAN. Mr. Speaker, when President Johnson signed the bill creating a new Department of Housing and Urban Development, he noted that we were "taking the first step toward organizing our system for a more rational response to the pressing challenge of urban life."

The Department is now in existence.

It has the leadership of Robert C. Weaver, who comes to us with impressive credentials and fine support. It has many good programs which it inherited from the Housing and Home Finance Agency, particularly the excellent legislation of the Housing Act of 1965.

Now we are ready to move ahead with even bolder steps. They are embodied in the legislation which the President has asked us to consider in this second session.

This legislation moves away from the piecemeal, and toward the comprehensive.

Foremost is the demonstration city program which will combine Federal aid

with local programs and local initiative to rebuild entirely the central city and slum areas of several American cities.

Under another Department-scale program, demonstration grants will be given to selected areas for metropolitan planning. This is an incentive program which will help metropolitan areas prepare themselves for a better urban environment and help them reduce costs of public facilities and services.

The experience gained, and the data gathered from such demonstrations will prove of great value for further planning.

These are two of the major new programs in this legislation. There are others. They are large in scope and promise, and they are properly the concern of all of us.

GHETTOS

(Mr. MULTER asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. MULTER. Mr. Speaker, I rise to express my great satisfaction to learn that the President, in a later message, will propose legislation aimed at that most poignant aspect of our American society—the existence of Negro ghettos in our cities.

Three years ago, President Kennedy signed his Executive order on equal opportunity in housing. That order, barring discrimination in rental or sale of FHA and VA housing, has not proved as effective as many of us hoped. Most housing today is rented or sold without FHA and VA assistance, and thus is not covered by the order.

It is my understanding there is some legal uncertainty that the Executive order can be widened, under existing law, to cover housing financed by conventional methods. Therefore, the only way open to the Nation to obtain an across-the-board end to housing discrimination is through new legislation.

We must do what we can to prevent the perpetuation of these ghettos.

This is the least that can be expected of the Congress if our fellow Americans who now live in congested ghettos are to have an equal chance to escape to better homes and better neighborhoods. Other legislation, some already enacted and some to be acted on this year, will accomplish still more—by providing better educational facilities, better jobs and other gains for minorities. But a further advance in legislation against housing discrimination must be made if all our other measures are to have their full effect.

THE PRESIDENT'S MESSAGE ON ASSISTANCE TO METROPOLITAN AREAS

(Mr. ANNUNZIO asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. ANNUNZIO. Mr. Speaker, the President's program for massive assistance to our metropolitan areas is aimed

at one of the pressing problems of our day.

Today, each city has a multitude of agencies and jurisdictions, each struggling with separate parts of the total metropolitan problem. Often they succeed only in compounding each other's woes. We must develop the means for them to act in concert on common problems. We must help them serve rather than abdicate their common interests.

The President's recommendation would make this possible on a scale never before attempted. It would offer the means and the incentive, through increased Federal assistance, for the separate interests to join in common action on problems affecting them all.

It calls not merely for plans, but for effective action.

It would embrace physical and community planning. But it also would plan for the human environment, and for transportation, education, financial, and other essential parts of sound urban growth.

The cost is small. The need is urgent. Action on this front is needed quickly and in a large scale.

SECRETARY McNAMARA MAKES AN IMPRESSIVE CASE FOR REPLACING THE B-52 AND B-58 BOMBERS WITH A BOMBER VERSION OF THE TFX—FB-111

(Mr. STRATTON asked and was given permission to address the House for 1 minute, and to revise and extend his remarks, and to include extraneous matter.)

Mr. STRATTON. Mr. Speaker, during the period of congressional adjournment last fall Defense Secretary McNamara announced a decision to phase out, in the next few years, a substantial portion of our present long-range strategic bomber force, both B-52 and B-58 bombers, and replace them with a smaller number of new aircraft; namely, a new bomber version of the famous TFX, the F-111 fighter, to be known as the FB-111.

Many Members of Congress were understandably concerned, when Mr. McNamara made this announcement, that the phasing out of these older aircraft and their replacement by a smaller number of a new aircraft, originally developed as a fighter rather than a bomber, might impair the Nation's security.

In an effort to determine the real facts in this matter the Hébert subcommittee of the House Armed Services Committee was directed to undertake a full investigation of the Secretary's decision. Yesterday, as its first witness, the subcommittee heard Secretary McNamara in executive session. Subsequently a declassified or "sanitized" version of the Secretary's statement was released to the press.

Mr. Speaker, I believe that Secretary McNamara's statement makes a very strong and impressive case for the soundness of his decision. While the impressiveness of the Secretary's case was, rather understandably, greater in the classified version, nevertheless the sanitized version is also very impressive and does, I believe, reveal the detailed and

painstaking thought that went into the Secretary's decision.

For this reason, and because the whole subject of changes in our strategic bombing force is understandably of great concern not only to all members of Congress but to all Americans, I am taking this opportunity of inserting in the Record, following my remarks, the unclassified version of Secretary McNamara's statement.

Mr. Speaker, this month Secretary McNamara marks the fifth anniversary of his service as Secretary of Defense. He has now served in that position longer than any other person. Many people have suggested, and I would concur with them, that Mr. McNamara has in fact been our greatest Secretary of Defense. And the reason for that, Mr. Speaker, I would say, is that he has succeeded far more extensively than any of his predecessors in applying to the complex, detailed, and extensive conglomeration of matters that properly fall within the province of the Department of Defense, the disciplines of reason, logic, and science. Not all of the matters which relate to defense matters are in fact completely subject to these disciplines of reason, logic, or scientific method. In defense matters, as in the conduct of war, we always confront what Clausewitz called "the fog of war." Not everything yields itself fully to rational treatment. Human beings cannot fully discern the future. Nor can they fully discern the minds or the actions of the enemy. That is why we all make mistakes in war and in defense matters. Even Mr. McNamara is human.

Nevertheless, Mr. Speaker, there is no other, no better way, to make decisions or to appraise facts, in defense matters as well as in other matters, than by the best possible application of reasoning, logic, and the normal disciplines of science. I for one am glad that our present Secretary of Defense is so highly capable in this particular aspect of management.

I believe the statement that follows will prove to be not only helpful and informative on the specific issue of the soundness of our defenses against the Soviet Union, but will demonstrate very clearly the impressive character of rational, logical analysis which has so marked the 5 brilliant years of Secretary McNamara's service, which have made him the greatest Defense Secretary in our history, and which have so fully justified the confidence placed in him, first by President Kennedy and now by President Johnson.

Mr. Speaker, under leave to extend my remarks, I include Secretary McNamara's statement in the Record.

STATEMENT OF SECRETARY OF DEFENSE ROBERT S. McNAMARA BEFORE SUBCOMMITTEE NO. 2 OF THE HOUSE ARMED SERVICES COMMITTEE ON THE FISCAL YEARS 1967-71 STRATEGIC BOMBER PROGRAM, JANUARY 25, 1966

I welcome this opportunity to discuss with you our longer range plans for the strategic bomber forces. You understand, of course, that the strategic bombers represent only a portion of our overall strategic offensive forces, and that the strategic offensive forces, themselves, are but one of two components of our general nuclear war posture; the other being the strategic defensive forces. I have

found from my own work in this area that both of these components must be considered within a single analytical framework if the relative merits of available alternatives are to be properly evaluated; and last year that was the way I presented the strategic offensive-defensive programs, both to the President and the congressional committees.

Accordingly, I believe it would be most useful for the purposes of your inquiry, today, if I were to review with you at least the nature of the general nuclear war problem as we see it now, the capabilities of the programed offensive and defensive forces against the expected threat, and our specific proposals for the strategic offensive forces in the fiscal years 1967-71 period.

A. THE GENERAL NUCLEAR WAR PROBLEM

Last year I pointed out that the general nuclear war forces should have two basic capabilities:

1. To deter deliberate nuclear attack upon the United States and its allies by maintaining, continuously, a highly reliable ability to inflict an unacceptable degree of damage upon any single aggressor, or combination of aggressors, at any time during the course of a strategic nuclear exchange, even after absorbing a surprise first strike.

2. In the event such a war nevertheless occurred, to limit damage to the population and industrial capacity.

The first of these capabilities we call assured destruction and the second damage limitation.

Viewed in this light, the assured destruction capability would require only a portion of the ICBM's, the submarine-launched ballistic missiles (SLBM's) and the manned bombers. The damage limiting capability would be provided by the remainder of the strategic offensive forces (ICBM's, SLBM's, and manned bombers), as well as area defense forces (manned interceptors, longer range anti-ballistic-missile missiles, and anti-submarine warfare forces), terminal defense forces (antibomber surface-to-air missiles and shorter range anti-ballistic-missile missiles), and passive defenses (fallout shelters, warning, etc.). The strategic offensive forces can contribute to the damage limiting objective by attacking enemy delivery vehicles on their bases or launch sites, provided that our forces can reach them before the vehicles are launched at our cities. Area defense forces can destroy enemy vehicles en route to their targets before they reach the target areas. Terminal defenses can destroy enemy weapons or delivery vehicles within the target areas before they detonate. Passive defense measures can reduce the vulnerability of our population to the weapons that do detonate.

The vital first objective, which must be met in full by our strategic nuclear forces, is the capability for assured destruction. Such a capability will, with a high degree of confidence, insure that we can deter under all foreseeable conditions a calculated, deliberate nuclear attack upon the United States or its allies. This capability must be provided regardless of the costs and the difficulties involved.

Once enough forces have been procured to provide high confidence of an assured destruction capability, we can then consider the kinds and amounts of forces which might be added for reducing damage to our population and industry in the event deterrence fails. Such damage limiting programs could range across the entire spectrum, from one designed against a threat of a minor nuclear power—for example, the Chinese Communists in the 1970's—to one designed against the threat of a carefully synchronized surprise first strike by the Soviet Union on our urban industrial areas.

With respect to the damage limiting problem posed by the Soviet nuclear threat, I believe it would be useful to restate briefly certain basic considerations which have

3. Strategic reconnaissance

The strategic reconnaissance force as shown on the classified table is essentially the same as that projected a year ago. All of these aircraft were procured in prior years.

4. Strategic missile forces

a. Qualitative Improvements to the Minuteman Force

There is now general agreement that a force of about 1,000 Minuteman missiles is appropriate in context with the total strategic offensive forces programed and in light of the expected threat. Accordingly, the principal concern at this time is the qualitative improvement of the Minuteman force, including the launch and launch control facilities. Three years ago we initiated a program ultimately to replace the Minuteman I with the Minuteman II, which has much greater accuracy, payload and operational versatility. In addition, its greater retargeting capability reduces the number of missiles that need to be earmarked against a given target system to achieve one reliably delivered warhead against each target. The first 10 Minuteman II's became operational last October and additional missiles will be in place by the end of this fiscal year.

We are now making certain further major improvements in the Minuteman which will so increase its performances as to warrant a new designation—Minuteman III. The initial procurement of this missile will be made in fiscal year 1967.

We still plan to continue the 54 Titan II missiles in the force throughout the program period.

By the end of the current fiscal year, we expect that 32 Polaris submarines (512 missiles) will be operational and, by the end of the first quarter of fiscal year 1968, the entire planned force of 41 submarines (656 missiles) will be operational. The force will then consist of 13 SSBN's with A-2 missiles and 28 SSBN's with A-3 missiles. All five of the earlier A-1 boats will have been retrofitted to carry the A-3 missile. We also tentatively plan to modify four of the A-2 submarines during their first overhaul in the fiscal year 1968-69 period to carry the A-3 missiles, in order to avoid the high unit costs which would be involved in restarting the A-2 missile production line (which closed down in June 1964) when present inventories are depleted by testing and training programs.

b. Accelerated Development of Poseidon

For reasons I have already discussed, it appears prudent at this time to place ourselves in a position to deploy a force of Poseidon missiles if this should be required. Last year we initiated project definition for this missile, using available 1965 funds, but the pace of the development was not precisely established. Now we propose an accelerated engineering development program for the Poseidon missile. The total cost of this development is estimated at about \$1.3 billion, of which about \$300 million will be needed in fiscal year 1967. No decisions need be made now on the number of Polaris submarines to be ultimately retrofitted with Poseidon.

With respect to other future strategic missile systems, both the Air Force and the Navy have active study programs underway. The Air Force will continue work on several projects which would contribute to the development of an advanced ICBM, if one should be required at some time in the future. In total, some \$10 million is required for fiscal year 1967 for these projects. The Navy will conduct an advanced development study of improved propulsion systems for future sea-based missiles at a fiscal year 1967 cost of \$3 million.

c. Accelerated Development of Penetration Aids

Five years ago, when I appeared before this Committee in support of the first Kennedy amendments to the original fiscal year 1962 defense budget, I said:

"While we are recommending a sizable quantitative increase in the strategic missile force we are also concerned with the introduction of qualitative improvements to enhance the combat effectiveness of the missiles. One of the most important such steps is the development of techniques and devices to help our missile warheads penetrate to their targets. The January budget provides for research and development on these penetration aids, but in view of their importance in staying well ahead of possible Soviet defensive developments we are now recommending that the level of effort on such work be more than doubled from \$15 to \$35 million."

Four years ago, in presenting the fiscal year 1963-67 defense program and the fiscal year 1963 defense budget to this committee, I said:

"A careful analysis of the problem which a Soviet anti-missile defense system would pose to our offensive forces leads to the conclusion that an effective solution would require the development of various penetrations aids for our strategic missiles."

Since that time, we have intensively studied a wide variety of penetration aid techniques and have invested a total of about \$1.2 billion on research and development in this area. We now propose to carry this work forward on an accelerated basis, particularly with regard to the development of new penetration aids, which would be needed to defeat an area ABM defense employing exoatmospheric missiles.

5. Other strategic offensive forces

The other strategic offensive forces are essentially the same as those programed a year ago. With respect to the KC-135's, as the total size of the bomber force declines we intend to retain one tanker for each of the bombers. Most, if not all, of the remainder will be used to improve the air-to-air refueling capabilities of the tactical air forces. However, the specific reallocation of these KC-135's will be made as they become available for reassignment.

With respect to the Post Attack Command and Control System (PACOS), a number of EC-135's have been added to the force planned last year. These aircraft have previously been used principally as refueling tankers with a secondary mission as communications relay aircraft. In 1963, anticipating the time when we might no longer be sure of the survivability of our ground-based missile launch control facilities, we undertook the development of an airborne launch control capability for all of the Minuteman force. The development costs of the necessary equipment through fiscal year 1967 is estimated at \$18.6 million. We now propose to begin procurement of the airborne portion of this equipment in fiscal year 1966 at a cost of approximately \$22 million. The ground portion of the airborne launch control capability is included as an integral element of the Minuteman program.

Mr. Chairman, I have not discussed the details of our proposals for the strategic defensive forces programs, but I will be prepared to do so when I appear before the full committee in support of the fiscal year 1967-71 program and fiscal year 1967 authorization requests. However, I believe it is clear from what has already been said, that the strategic forces proposed—both offensive and defensive—will provide in full the essential assured destruction capability required to achieve our primary objective, the deterrence of deliberate nuclear attack upon the United States or our allies.

DEMONSTRATION CITIES PROGRAM

(Mr. FARBSTAIN asked and was given permission to address the House for 1 minute.)

Mr. FARBSTAIN. Mr. Speaker, I

have just read President Johnson's message on the demonstration cities program. It is one of the most forward-looking approaches to the challenges and promises of our urban America. As the President said:

Cities can stimulate the best in man, and aggravate the worst.

The programs outlined by the President's message are a broad attack on the problems currently facing an increasingly urban America. I hope that these programs will speedily be enacted by Congress and that they are efficiently and effectively administered to the benefit of all America. The joint programs of private and public action should result in a useful program of physical reconstruction and rehabilitation for our cities.

One advanced and far-sighted proposal in the President's message is the appeal for a supplementary appropriation to fund the rent supplement program authorized in the Housing and Urban Development Act of 1965. While rejected in the first session of this Congress, rent supplements promise a broad range of our population more adequate housing. They promise a beginning of the end for low income family ghettos and will enable many men to reach out for whatever measure he can make of himself.

The message also touches on a problem which has concerned me. I have long been concerned with the time lag between urban project conception and the actual funding of the project. In my own district urban projects are characterized by inordinate and unacceptably long leadtimes. All too often these delays have hampered local initiative and in severe cases have even meant an end to a project.

Any program finally approved by Congress should include provisions to correct the time lag problem. The President's program, recognizing the need for flexibility of action and calling for a Federal coordinator, provides a framework for congressional action to alleviate the problem.

Mr. Speaker, the challenge of an America of 300 million citizens in the year 2,000 is a great one. It promises to be a world of vast cities expanding to meet each other. The promises and realizations of 2,000 will in many ways depend on our actions. I, for one, believe we must lay the groundwork for man to move toward his aspirations in what promises to be a more vastly urban society. The demonstration cities program is the first important step in this direction.

[Mr. KREBS addressed the House. His remarks will appear hereafter in the Appendix.]

WINNING ESSAYS ON "EMPLOY THE HANDICAPPED"

(Mr. DEL CLAWSON (at the request of Mr. JOHNSON of Pennsylvania) was granted permission to extend his remarks at this point in the RECORD and to include extraneous matter.)

Mr. DEL CLAWSON. Mr. Speaker, under leave to extend my remarks in the RECORD, it is my pleasure again this year to include the winning essays by high

school students in the 23d District of California in the "Employ the Handicapped" writing contest, this time for the 1965-66 school year. The essays are sponsored by the Southeast District of the California Employ the Handicapped Committee. The committee under the devoted chairmanship of Mrs. Lillian M. Karnes, is active in assisting handicapped individuals who are striving to help themselves. They also perform the function of educating the community to the contribution these people are capable of making in industry, and through the example they set of self-reliance and individual courage which should be an inspiration to all. The essays follow:

WHAT HANDICAPPED WORKERS ARE CONTRIBUTING TO MY COMMUNITY

(By Nancy Gilbert, age 17, first place, home address, 718 South Poinsettia, Compton, Calif.; school address, Dominguez High School, 15301 San Jose Avenue, Compton, Calif.; D. Taylor, teacher)

Only 25 years ago, World War II created a shortage of labor compelling the leaders of industry to consider the feasibility of hiring the many thousands of capable idle handicapped persons. The handicapped people took this opportunity to show themselves just as capable, if not more so, than the other workers. The deaf could perform well in foundries because they were not distracted from the work by the thunderous sound about them. The blind seemed to have an innate ability for assembling complex pieces of electronic equipment and similar pieces of work. The handicapped people, with jobs suited to their capabilities, put forth sincere effort to become useful members of the community. They live as actively as possible and participate in community activities to the fullest extent.

In the years following the war, when it was realized that a great deal could be done for the people permanently disabled in the war and for people disabled from birth, a movement began. Training centers were established to teach the people how to use what they had. Rehabilitation programs were begun to find positions for the people, raising the hopes of every disabled or handicapped person. From these centers came many thousands of people prepared to accept the responsibility of being effective citizens in the community. A few of these people developed their talents in the fields of art. Annually, there are expositions of the work done by these adept artists.

Some handicapped persons have become fine musicians, creating many hours of entertainment for audiences everywhere. Many handicapped persons have become writers who in their writing have shown ordinary things in a different light. They write about the mountains and beautiful things in nature. They see so much more because their attitudes are so different. They appreciate the people and things around them. All of these contribute to the cultural environment of the community. Some handicapped people become teachers, gaining the respect of their students almost immediately. They understand how slow it is for some people to understand and how much work must be done to accomplish even the slightest task. They are to be admired.

There is a lady working in an aircraft plant in Long Beach. She takes in calls and broadcasts through the plant. Many of the men have spoken of her as being the best speaker because they can understand her in the noisy plant. No one would guess that she is blind. And yet, she is performing a very important service in that company. A gate guard at another plant has worked there for many years. Although he has only one arm, he carries out his duties

exactly and performs these duties safely to the satisfaction of his employer.

Many handicapped people use their talents to help other unfortunate people just as many people in the community. Ladies in the community make quilts and repair tattered clothing. They bake assorted cookies, cakes, and pies to make meager meals nicer for others at Christmas and Thanksgiving. Many handicapped people choose to work for the cause of the handicapped people so that the services may reach more afflicted people. An exceptional example of this is Helen Keller who, before her second birthday, was left blind and deaf after a serious illness. Miss Keller, after years of intense study and help, learned to communicate with braille and eventually learned to speak and type with a special typewriter. After completing her education, having graduated with honors from Radcliffe College, she labored to help the blind by lecturing and writing books and articles about her own ideas and experiences. She went even further by contributing the profit from these activities to the institutions working in the interests of the blind.

It is true that not every handicapped person becomes as famous as Helen Keller, but each handicapped person is recognized in his own neighborhood as a considerate friend. Each one is respected and admired for the great effort he has made to be that successful part of the community which he is. Handicapped people are an asset to every community for they desire to contribute to the community and not be just another apathetic individual.

ABILITY COUNTS

(By Herlinda Vallejo, age 17, second place, home address, 1210 West Magnolia Street, Compton, Calif.; school, Regina Caeli High School, address, 823 East Compton Boulevard, Compton, Calif.; English teacher, Sister Maria Goretti, S.S.F.)

How fortunate to be whole and to possess the gift of health. We are indeed fortunate, but often take for granted that gift which enables us to do the simplest everyday things without giving them a second thought. How would we react if we suddenly had to function without the use of a limb, or our precious sight, or perhaps if we were doomed to a silent or speechless existence? Most assuredly we would react poorly, both physically and emotionally, if faced with such a circumstance. Yet, there are people who lead normal, independent, and productive lives, in spite of such handicaps.

Who are the handicapped? The handicapped are those who suffer some serious physical or mental disability. They are classified in four main divisions: The blind; the deaf and deaf mutes; the mentally handicapped; and the crippled.

Medical science cannot cure many of these handicaps, but it can help people to partially overcome them through training. From elementary schools up to vocational and trade schools the disabled are taught to develop the skills and talents they have and to give the people incentive.

By no means does an individual's talents, ambitions, and abilities end where his disability begins. History displays great credits to the handicapped such as Homer, the Greek poet, Helen Keller, Alexander Graham Bell, Beethoven, and more who despite their impediments made great contributions. But the display, be it great or unknown, does not end in history—it is always present in every community.

Hub Limited Workshop, in Compton, provides work for the mentally handicapped. The workers are those who are 16 years of age and over. No matter how simple the trade, it is a great contribution to the support and happiness of the mentally handicapped and in turn to the community to which they belong.

The managing editor of a local newspaper

in our community suffered a heart attack which handicapped him to a certain extent, but he was given back his position because of his ability and the contribution he could make to our community.

A similar and personal experience of disability in my own family is my uncle, Mr. Filomeno Salas, whose occupation is that of a sheet metal worker. At his trade he developed tumors in the wrist of his right hand and has had several unsuccessful operations in which some tendons were cut. He was no longer able to install sheet metal as a result of his disability and constant pain. But because of his skill and previous training as a draftsman he not only remained with the company he worked for but was promoted. He is now working happily as the draftsman and foreman of his company in Culver City.

A very touching example of contribution to her community is the chairman of the employment of the handicapped committee in Compton.

The department of employment does a lot to help the handicapped, but this woman, who herself was handicapped by a stroke and other illnesses, earnestly dedicated her time to finding jobs for handicapped persons.

Mr. Daniel J. Quigg, veterans employment representative at the office of employment in Compton spoke of two veterans, with whom he had personal contact. One of them was unable to lift his feet as a result of a stroke. He had a very nice speaking voice and Mr. Quigg found him a telephone soliciting job in which he is doing quite nicely. The other veteran is confined to a wheelchair and is very eager to work. As yet, no job has been found for him, but his eagerness is something to be admired.

The handicapped are not only contributing the fruits of their labor, but also an example of courage and self-respect to my community.

IF ONLY WE LET THEM

(By Kay Partlow, 16 years old, third place, 11061-B Bullis Road, Lynwood, Calif., Lynwood High School, 12124 Bullis Road, Lynwood, Calif.)

In 1961, the church was small and appeared dying. Then it called a new pastor. In the 4 years since this man accepted, the membership has jumped from 50 to 740, the property value has soared to \$300,000, and a small, somewhat obscure building has been replaced with a beautifully designed auditorium and functional educational building. This is all a matter of record. The city even presented the church with an award for contributing to the beauty of the community through its building—a building designed and largely built by the pastor. But this is not all. Pains have been soothed, tears dried, despair transformed to hope, cynicism has bowed to faith, and hearts have been lifted to joy, all without number. No earthly awards have been issued, but this, too, is a matter of record—in the hearts of the people. The man mainly responsible for these accomplishments (although he would never admit it) is the pastor. This is the same man who found himself among those who came back from World War II physically handicapped. He is only a single example of one man who has refused to accept the label "handicapped."

In spite of recent progress made in understanding and rehabilitating the mentally and physically handicapped, the public as a whole still clings to the old image of a grotesquely twisted body or mind huddled in a dark corner to quietly decay. The physically and mentally whole do not seem to realize that to automatically assign a handicapped person to that vague cubbyhole in the mind set a bit apart from all others is vicious injustice. To set apart, to classify a handicapped person as "one of them" is debasing to human dignity. And "human" includes the handicapped.

financial, and economic strengths, if we maintain our faith in ourselves and the principles for which this Nation stands, then time and history will be our allies.

Time is our ally because science and technology continue to lend gathering force to the second American revolution. Here, and in the nations that share with us a common purpose, scientific progress far outpaces the very limited achievements of the Communist world in the areas of basic human needs.

History is our ally because of the principles that we seek to uphold. History has shown that no people, given decent living standards and hope for improvement in a climate of freedom, will choose to enslave their minds and spirits in the type of system advocated by the rulers of China or Russia.

We defend the right to think, to speak, and to live as we wish. We are the custodians of a heritage gained for us at great sacrifice by millions of brave men and women through generations of American history and by the intrepid American soldiers, sailors, and airmen who have given their lives in defense of these principles.

Today, in the face of an unprecedented assault upon the principles that we cherish, let us respond boldly and effectively in their defense. Let us proclaim the second American revolution as a new and vital force that combines our heritage of freedom with the immensely powerful instrument of technology. Let us use it to lift the hopes of people everywhere—for this is the surest course to final victory.

SCHOOL MILK BUDGET FOR FISCAL 1967 A TRAVESTY

Mr. PROXMIRE. Mr. President, day after day I have been rising on this floor to criticize the Bureau of the Budget's directive that \$3 million appropriated by Congress for the special milk program for school children not be spent. The Bureau's action will cripple a highly popular and badly needed program at a time when program participation is increasing by 5 percent a year.

My colleagues can imagine my surprise when I learned late Friday that the school milk program for fiscal 1967 was pegged at \$21 million in the President's budget. This cut of \$82 million is difficult, if not impossible, to understand. The Department of Agriculture has given no help. Both on Friday and Monday my office contacted the Department for information. My staff was told that representatives of the Department were willing to meet with me to discuss the matter, but could not give details over the telephone. I was also invited to submit questions.

Mr. President, I am going to raise these questions on the floor of the Senate today. I have waited long enough to comment on this travesty of a school milk budget for 1967. This program is too vital for me to withhold comment so that the Department of Agriculture can laboriously grind out their legislative recommendations.

A full explanation of the proposed cut in the school milk program should have been available at the time the budget was submitted to Congress. Instead, Congress was given only one sentence to ponder. In part 4 of the budget—"The Federal Program by Function"—we are told:

The special milk program, which permits schools to sell milk at reduced prices, will be

directed primarily to helping needy children in 1967, thereby permitting a reduction of \$52 million in expenditures.

My basic question, Mr. President, is whether or not this program reorientation will require an onerous means test for children receiving milk under the program. Nothing is more abhorrent in my mind than requiring first and second graders to give evidence that Dad is too poor to pay for a half-pint of milk, but this is exactly what a means test would require. If no means test is required, then how are we to make sure that this milk goes only to the needy?

One apparent method would be to confine the school milk program to those schools in which a high percentage of the students come from needy families. This would be directly discriminatory against tens of thousands of children whose families are very needy, but who happen to go to schools where most of the students have families of adequate income.

Next, I would like to know how much of a saving this really represents. Will the Federal Government not have to step up its payments under the milk price support laws as less milk is used in the schools due to a reduction in Federal support for the school milk program? Certainly milk not used in the program is going to add to the existing surplus which must be purchased by the Commodity Credit Corporation at 75 percent of parity.

Has the Department made any estimate of the decrease in milk consumption by schoolchildren this program cutback will create? Certainly it will cause a substantial drop in consumption. If a means test is used, many parents will be too proud to let their children go through the indignity of receiving a Government handout, yet too poor to give their children money to purchase school milk.

Does the Department expect local school districts to have increased costs because of the school milk program slash? Will this 80-percent cutback mean a further strain on already overtaxed school budgets at the very time when the Federal Government is working to relieve existing strain through programs such as the Elementary and Secondary Education Act of 1965?

Does this new program reorientation require substantive legislation? I have reason to believe that it does, Mr. President. Consequently, the next question assumes increased importance. If new legislative authority is not forthcoming will the administration recommend that the program remain at this year's level, or at a higher level?

President Johnson said in his state of the Union address:

There are men who cry out that we must sacrifice. Well, let us rather ask them, who will they sacrifice? Are they going to sacrifice the children who seek the learning?

I profoundly hope that this new approach to the school milk program does not ask such a sacrifice. I profoundly hope that the program will not result in children getting less milk. But until I get answers to the questions I have raised on this floor today I must continue to speak against the recent steps which, in the absence of further evidence, seem

aimed at making a travesty out of the school milk program.

Mr. YARBOROUGH subsequently said: Mr. President, I wish to associate myself with the remarks made a few moments ago by the distinguished Senator from Wisconsin [Mr. PROXMIRE] concerning the stunning reduction by 80 percent in the budget for milk for schoolchildren. I do not see how we can save money by starving schoolchildren.

MESSAGES FROM THE PRESIDENT

Messages in writing from the President of the United States, were communicated to the Senate by Mr. Jones, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session, The VICE PRESIDENT laid before the Senate messages from the President of the United States submitting several nominations, which were referred to the appropriate committees.

(For nominations this day received, see the end of Senate proceedings.)

DEMONSTRATION CITIES ACT OF 1966—MESSAGE FROM THE PRESIDENT (H. DOC. NO. 368)

The VICE PRESIDENT laid before the Senate the following message from the President of the United States, which, with the accompanying paper, was referred to the Committee on Banking and Currency:

To the Congress of the United States:

Nineteen hundred and sixty-six can be the year of rebirth for American cities.

This Congress, and this people, can set in motion forces of change in great urban areas that will make them the masterpieces of our civilization.

Fifty years from now our population will reach that of today's India. Our grandchildren will inhabit a world as different from ours, as ours is from the world of Jefferson.

None can predict the shape of their life with any certainty. Yet one thing is sure. It will be lived in cities. By the year 2000, four out of five Americans will live and work in a metropolitan area.

We are not strangers to an urban world.

We began our national life gathered in towns along the Atlantic seaboard. We built new commercial centers around the Great Lakes and in the Midwest to serve our westward expansion.

Forty million came from Europe to fuel our economy and enrich our community life. This century has seen the steady and rapid migration of farm families—seeking jobs and the promise of the city.

From this rich experience we have learned much.

We know that cities can stimulate the best in man, and aggravate the worst.

We know the convenience of city life, and its paralysis.

We know its promise, and its dark foreboding.

What we may only dimly perceive is the gravity of the choice before us.

Shall we make our cities livable for ourselves and our posterity? Or shall we by timidity and neglect damn them to fester and decay?

If we permit our cities to grow without rational design, if we stand passively by, while the center of each city becomes a hive of deprivation, crime, and hopelessness; if we devour the countryside as though it were limitless, while our ruins—millions of tenement apartments and dilapidated houses—go unredeemed; if we become two people—the suburban affluent and the urban poor, each filled with mistrust and fear one for the other; if this is our desire and policy as a people, then we shall effectively cripple each generation to come.

We shall as well condemn our own generation to a bitter paradox: an educated, wealthy, progressive people, who would not give their thoughts, their resources, or their wills to provide for their common well-being.

I do not believe such a fate is either necessary or inevitable. But I believe this will come to pass—unless we commit ourselves now to the planning, the building, the teaching, and the caring that alone can forestall it.

That is why I am recommending today a massive demonstration cities program. I recommend that both the public and private sectors of our economy join to build in our cities and towns an environment for man equal to the dignity of his aspirations.

I recommend an effort larger in scope, more comprehensive, more concentrated—than any that has gone before.

THE WORK OF THE PAST

I know the work of the past three decades. I have shared in the forging of our Federal housing and renewal programs. I know what they have done for millions of urban Americans:

Eight million single-family dwellings assisted by the Federal Housing Administration.

An additional 6.7 million assisted by the Veterans' Administration.

One million, one hundred thousand multiple units created; 605,000 families moved out of decayed and unsanitary dwellings into decent public housing; 300,000 dwelling units supported under urban renewal.

Without these programs, the goal I recommend today would be impossible to achieve. Because Federal sponsorship is so effective a part of our system of homebuilding, we can conceive a far larger purpose than it has yet fulfilled. We must make use of every established housing program—and of social, educational, and economic instruments as well—if the demonstration cities program is to succeed.

THE PROBLEM TODAY

Our housing programs have built a platform, from which we may see how far away is the reborn city we desire. For there still remain: some 4 million urban families living in homes of such disrepair as to violate decent housing standards; the need to provide over 30

percent more housing annually than we are currently building; our chronic inability to provide sufficient low and moderate income housing, of adequate quality, at a reasonable price; the special problem of the poor and the Negro, unable to move freely from their ghettos, exploited in the quest for the necessities of life; increasing pressures on municipal budgets, with large city per capita expenditures rising 36 percent in the 3 years after 1960; the high human costs: crime, delinquency, welfare loads, disease and health hazards. This is man's fate in those broken neighborhoods where he can "feel the enclosure of the flaking walls and see through the window the blackened reflection of the tenement across the street that blocks out the world beyond"; the tragic waste and, indeed, the chaos that threatens where children are born into the stifling air of overcrowded rooms, destined for a poor diet, inadequate schools, streets of fear and sordid temptation, joblessness, and the gray anxiety of the ill prepared; and the flight to the suburbs of more fortunate men and women, who might have provided the leadership and the means for reversing this human decline.

THE INADEQUATE RESPONSE

Since 1949, the urban renewal program has been our chief instrument in the struggle for a decent urban environment.

Over 800 cities are participating in urban renewal programs. Undertaken and designed by the cities themselves, these efforts have had an increasing influence on the use of urban land. Last year the Congress wisely extended the authorization for urban renewal, at a higher level than before.

Years of experience with urban renewal have taught us much about its strengths and weaknesses.

Since 1961 we have made major alterations in its administration. We have made it more responsive to human needs. We have more vigorously enforced the requirement of a workable program for the entire community. Within the limits of current law, we have achieved considerable progress toward these goals.

Nevertheless the social and psychological effects of relocating the poor have not always been treated as what they are. They are the unavoidable consequences of slum clearance, demanding as much concern as physical redevelopment.

The size and scale of urban assistance has been too small, and too widely dispersed.

Present programs are often prisoners of archaic and wasteful building practices. They have inhibited the use of modern technology. They have inflated the cost of rebuilding.

The benefits and efficiencies that can come from metropolitan planning are still unrealized in most urban regions.

Insufficient resources cause extensive delays in many projects. The result is growing blight and overcrowding that thwart our best efforts to resist them.

The goals of major Federal programs have often lacked cohesiveness. Some work for the revitalization of the central city. Some accelerate suburban growth. Some unite urban communities. Some disrupt them.

URBAN DILEMMAS

Virtually every forward step we have taken has had its severe limitations. Each of those steps has involved a public choice, and created a public dilemma: major clearance and reconstruction, with its attendant hardships of relocation; relieving traffic congestion, thereby widening the gulf between the affluence of suburbia and the poverty of the city; involving urban residents in redeveloping their own areas, hence lengthening the time and increasing the cost of the job; preserving the autonomy of local agencies, thus crippling our efforts to attack regional problems on a regional basis.

These dilemmas cannot be completely resolved by any single program, no matter how well designed. The prize—cities of spacious beauty and lively promise, where men are truly free to determine how they will live—is too rich to be lost because the problems are complex.

Let there be debate over means and priorities.

Let there be experiment with a dozen approaches, or a hundred.

But let there be commitment to that goal.

WHAT IS REQUIRED

From the experience of three decades, it is clear to me that American cities require a program that will: concentrate our available resources—in planning tools, in housing construction, in job training, in health facilities, in recreation, in welfare programs, in education—to improve the conditions of life in urban areas; join together all available talent and skills in a coordinated effort; mobilize local leadership and private initiative, so that local citizens will determine the shape of their new city—freed from the constraints that have handicapped their past efforts and inflated their costs.

A DEMONSTRATION CITIES PROGRAM

I propose a demonstration cities program that will offer qualifying cities of all sizes the promise of a new life for their people.

I propose that we make massive additions to the supply of low- and moderate-cost housing.

I propose that we combine physical reconstruction and rehabilitation with effective social programs throughout the rebuilding process.

I propose that we achieve new flexibility in administrative procedures.

I propose that we focus all the techniques and talents within our society on the crisis of the American city.

It will not be simple to qualify for such a program. We have neither the means nor the desire to invest public funds in an expensive program whose net effects will be marginal, wasteful, or visible only after protracted delay.

We intend to help only those cities who help themselves.

I propose these guidelines for determining a city's qualifications for the benefits—and achievements—of this program:

First. The demonstration should be of sufficient magnitude both in its physical and social dimensions to arrest blight and decay in entire neighborhoods. It must make a substantial impact within

the coming few years on the development of the entire city.

Second. The demonstration should bring about a change in the total environment of the area affected. It must provide schools, parks, playgrounds, community centers, and access to all necessary community facilities.

Third. The demonstration—from its beginning—should make use of every available social program. The human cost of reconstruction and relocation must be reduced. New opportunities for work and training must be offered.

Fourth. The demonstration should contribute to narrowing the housing gap between the deprived and the rest of the community. Major additions must be made to the supply of sound dwellings. Equal opportunity in the choice of housing must be assured to every race.

Fifth. The demonstration should offer maximum occasions for employing residents of the demonstration area in all phases of the program.

Sixth. The demonstration should foster the development of local and private initiative and widespread citizen participation—especially from the demonstration area—in the planning and execution of the program.

Seventh. The demonstration should take advantage of modern cost-reducing technologies without reducing the quality of the work. Neither the structure of real estate taxation, cumbersome building codes, nor inefficient building practices should deter rehabilitation or inflate project costs.

Eighth. The demonstration should make major improvements in the quality of the environment. There must be a high quality of design in new buildings, and attention to man's need for open spaces and attractive landscaping.

Ninth. The demonstration should make relocation housing available at costs commensurate with the incomes of those displaced by the project. Counseling services, moving expenses, and small business loans should be provided, together with assistance in job placement and retraining.

Tenth. The demonstration should be managed in each demonstration city by a single authority with adequate powers to carry out and coordinate all phases of the program. There must be a serious commitment to the project on the part of local, and where appropriate, State authorities. Where required to carry out the plan, agreements should be reached with neighboring communities.

Eleventh. The demonstration proposal should offer proof that adequate municipal appropriations and services are available and will be sustained throughout the demonstration period.

Twelfth. The demonstration should maintain or establish a residential character in the area.

Thirteenth. The demonstration should be consistent with existing development plans for the metropolitan areas involved. Transportation plans should coordinate every appropriate mode of city and regional transportation.

Fourteenth. The demonstration should extend for an initial 6-year period. It

should maintain a schedule for the expeditious completion of the project.

These guidelines will demand the full cooperation of government at every level and of private citizens in each area. I believe our Federal system is creative enough to inspire that cooperative effort. I know it must be so creative if it is to prosper and flourish.

SIZE OF THE PROGRAM

The program I recommend is intended to eliminate blight in the entire demonstration area. Through efficient rebuilding it must replace that blight with attractive and economic housing, social services, and community facilities.

There are many ways by which this can be done, once the commitment has been made to do it. Total clearance and reconstruction; partial clearance and rehabilitation; rehabilitation alone—any of these methods may be chosen by local citizens.

Whatever approach is selected, however, must be comprehensive enough to be effective and economic.

There are few cities or towns in America which could not participate in the demonstration cities program. We shall take special care to see that urban communities of all sizes are included. For each such community, the impact of the program will be significant, involving as much as 15 to 20 percent of the existing substandard structures.

For the largest qualifying cities a relatively modest program could provide decent housing for approximately 5,000 families now living in substandard dwelling units. It could rehabilitate other marginal housing sufficient to affect 50,000 people. A typical program could well involve a total of 35,000 units or 100,000 people.

For cities of approximately 100,000 people, 1,000 families could be rehoused, and 3,000 units rehabilitated, affecting a total of 10,000 people.

BENEFITS OF THE PROGRAM

I recommend that participating cities receive two types of Federal assistance:

First. The complete array of all available grants and urban aids in the fields of housing, renewal, transportation, education, welfare, economic opportunity and related programs.

Second. Special grants amounting to 80 percent of the non-Federal cost of our grant-in-aid programs included in the demonstration. These grants are to supplement the efforts of local communities. They are not to be substituted for those efforts.

In every qualifying city, a Federal coordinator would be assigned to assist local officials in bringing together all the relevant Federal resources.

Once authorized, the supplemental funds would be made available in a common account. They would be drawn at the discretion of the community to support the program. They would be certified by the Federal coordinator.

It is vital that incentives be granted for cost reductions achieved during the performance of the program.

At least as vital as the dollar commitment for rebuilding and rehabilitation is

the social program commitment. We must link our concern for the total welfare of the person, with our desire to improve the physical city in which he lives. For the first time, social and construction agencies would be joined in a massive common effort, responsive to a common local authority.

There is another benefit—not measurable in dollars, or even in the extended range of social services—that qualifying cities would secure by participating in this program.

It is a sense of hope; that the city is not beyond reach of redemption by men of good will; that through wise planning, cooperation, hard work, and the sacrifice of those outmoded codes and practices that make widespread renewal impossibly expensive today, it is possible to reverse the city's decline.

That knowledge, that confidence, that hope can make all the difference in the decade ahead.

FEDERAL COST

Funds are required in the first year to assist our cities in the preparation of demonstration plans. We should not underestimate the problems involved in achieving such a plan. The very scale of the demonstration, its widespread and profound effects on the social and physical structure of the city, calls for marshaling the city's planning and administrative resources on an unprecedented scale.

I estimate the appropriate Federal contribution to this planning effort at \$12 million.

For the supplemental demonstration grants I will recommend appropriations, over a 6-year period, totaling over \$2.3 billion, or an average of some \$400 million per year.

It is impossible to estimate exactly—but it is necessary to consider—the rising cost of welfare services, crime prevention, unemployment, and declining property values that will plague all governments, local, State, and Federal, if we do not move quickly to heal and revitalize our cities.

METROPOLITAN PLANNING

The success of each demonstration will depend on the quality of its planning, and the degree of cooperation it elicits from the various governmental bodies concerned, as well as from private interests.

Most metropolitan areas conduct some degree of metropolitan planning now. The Federal Government has made funds available throughout the country so that State and local planning agencies might devise—many for the first time—comprehensive plans for metropolitan areas.

I recommend improvements and extensions of this program. The Congress enacted them recognizing that the problems of growth, transportation, housing, and public services cannot be considered by one entity of government alone.

The absence of cooperation between contiguous areas is wasteful. It is also blind to the reality of urban life. What happens in the central city, or the suburb, is certain to affect the quality of life in the other.

The widespread demand for these funds has resulted in their being spread thinly across the 50 States. Thus, the benefits of a truly coordinated attack on metropolitan problems have not generally been realized.

INCENTIVES TO ORDERLY METROPOLITAN DEVELOPMENT

Over the past 5 years, the Congress has authorized Federal grants for urban mass transportation, open space, and sewer and water facilities. The Congress has required that such projects be consistent with comprehensive planning for an entire urban or metropolitan area. The Federal Government has thus not only helped our localities to provide the facilities they need. It has also stimulated cooperation and joint planning among neighboring jurisdictions.

But more remains to be done. The powerful forces of urban growth threaten to overwhelm efforts to achieve orderly development. A metropolitan plan should be an instrument for shaping sound urban growth—not a neglected document.

I now propose a new incentive to help assure that metropolitan plans achieve their potential.

The Federal Government should bear a larger share of the total cost of related Federal aid programs. This share would be borne where local jurisdictions show that they are ready to be guided by their own plans in working out the patterns of their own development and where they establish the joint institutional arrangements necessary to carry out those plans.

DEMONSTRATIONS OF EFFECTIVE PLANNING

I propose that a series of demonstrations in effective metropolitan planning be undertaken promptly.

Metropolitan areas would be selected to return the broadest possible data and experience to Federal, State, and local governments. They should therefore be of varying size and environment, in widely separated locations. They would be selected to assure that their benefits reach small communities surrounding the large cities.

Advanced techniques and approaches should be employed. There must be balanced consideration of physical and human development programs; coordinated treatment of the regional transportation network; technical innovations, such as metropolitan data banks and systems analysis; new educational and training programs; new arrangements for coordinating decisions of the various local governments involved.

I estimate the cost of the demonstrations at \$6,500,000.

I shall impose on the new Department of Housing and Urban Development the continuing responsibility to stimulate effective planning. If local governments do not plan cooperatively and sufficiently in advance of inevitable urban growth, even adequate funds and an aggressive determination to improve our cities cannot succeed.

HOUSING FOR ALL

The programs I have proposed—in rebuilding large areas of our cities, and in metropolitan planning—are essential for the rebirth of urban America.

Yet at the center of the cities' housing problem lies racial discrimination. Crowded miles of inadequate dwellings—poorly maintained and frequently overpriced—is the lot of most Negro Americans in many of our cities. Their avenue of escape to a more attractive neighborhood is often closed, because of their color.

The Negro suffers from this, as do his children. So does the community at large. Where housing is poor, schools are generally poor. Unemployment is widespread. Family life is threatened. The community's welfare burden is steadily magnified. These are the links in the chain of racial discrimination.

This administration is working to break that chain—through aid to education, medical care, community action programs, job retraining, and the maintenance of a vigorous economy.

The time has come when we should break one of its strongest links—the often subtle, but always effective force of housing discrimination. The impacted racial ghetto will become a thing of the past only when the Negro American can move his family wherever he can afford to do so.

I shall, therefore, present to the Congress at an early date legislation to bar racial discrimination in the sale or rental of housing.

NEW COMMUNITIES

Our existing urban centers, however revitalized, cannot accommodate all the urban Americans of the next generation.

Three million new residents are added each year to our present urban population. The growth of new communities is inevitable. Unless they are to be casual parts of a general urban sprawl, a new approach to their design is required.

We must: enlarge the entire scale of the building process; make possible new efficiencies in construction, land development, and municipal services; relieve population densities; offer a variety of homes to a wide range of incomes.

These communities must also provide an environment harmonious to man's needs.

They must offer adequate transportation systems, attractive community buildings, and open spaces free from pollution. They must retain much of the natural beauty of the landscape.

The private sector must continue its prominent role in new community development. As I recommended to the Congress last year, mortgage insurance should be made available for sites and community facilities for entire new communities.

It is apparent that new communities will spring into being near an increasing number of major metropolitan areas. Some, already in existence, promise dramatic efficiencies through size and new construction techniques, without sacrificing beauty. Obviously such a development should be encouraged. I recommend that the Congress provide the means of doing so.

RENT SUPPLEMENT PROGRAM

Rarely has a new housing program evoked such a dramatic and positive response as the rent supplement program.

The Department of Housing and Urban Affairs has already received preliminary proposals from sponsors to construct nearly 70,000 low-income units under this program as soon as funds become available.

The proposals involve 424 projects in 265 localities in 43 States, the District of Columbia, and Puerto Rico. The sponsors have already selected sites for some 40,000 of these units. The interested groups are about equally divided between nonprofit organizations and private limited dividend developers.

The need for this program is obvious. It is the need of the poor and the disadvantaged. The demand for the means to meet this need by private enterprise is demonstrated by the figures I have just cited.

I strongly urge the Congress to pass a supplementary appropriation to fund the rent supplement program at the \$30 million level it has authorized in the Housing and Urban Development Act of 1965.

MASS TRANSPORTATION PROGRAM

We must continue to help our communities meet their increasing needs for mass transportation facilities. For this purpose, I propose an additional 1-year authorization for the urban mass transportation program.

THE NEW DEPARTMENT

No Federal program can be effective unless the agency that administers it is efficient. This is even more crucial for programs that call for comprehensive approaches at both the Federal and local level.

Progress was made after 1961 toward unifying the Housing and Home Finance Agency. But the very nature of that Agency limited the extent to which its several parts could be welded into a truly unified whole. Its Administrator lacked the statutory basis for gaining full control over partially independent agencies.

With this in mind, I requested—and you enacted—legislation to create a Department of Housing and Urban Development.

As a result, the Secretary of the new Department now has the authority and the machinery for implementing the new programs I have asked for.

I see five ways by which he can do this:

First. He can organize the Department so that its emphasis will be upon meeting modern urban needs—rather than fitting new programs into old and outworn patterns.

Second. He can strengthen the regional structure so that more decisions can be made in the field.

Third. He can assert effective leadership throughout the Department.

Fourth. He can mesh together all our social and physical efforts to improve urban living.

Fifth. He can assume leadership among intergovernmental agencies dealing with urban problems.

Such a Department, and such leadership, will be worthy of the program I recommend you adopt.

A YEAR OF REBIRTH

The evidence is all about us that to be complacent about the American city is to invite, at best, inconvenience; at worst, a divided Nation.

The programs I have proposed in this message will require a determined commitment of our energy and a substantial commitment of our funds.

Yet, these programs are well within our resources. Nor do they compare in cost with the ugliness, hostility, and hopelessness of unlivable cities.

What would it mean to begin now, and to bring about the rebirth of our cities?

It would mean: a more tolerable and a more hopeful life for millions of Americans; the possibility of retaining middle-income families in the city, and even attracting some to return; improving the cities' tax base, at a time of heavy strain on city budgets; ultimately reducing welfare costs; avoiding the unnecessary waste of human resources; giving to both urban and suburban families the freedom to choose where they will live; a clean room and a patch of sky for every person, a chance to live near an open space, and to reach it on a safe street.

As Thomas Wolfe wrote:

To every man his chance—to every man, regardless of his birth, his shining, golden opportunity—to every man the right to live, to work, to be himself, and to become whatever thing his manhood and his vision can combine to make him—this * * * is the promise of America.

I believe these are among the most profound aspirations of our people. I want to make them part of our destiny.

I urge the Congress promptly to adopt the Demonstration Cities Act of 1966. If we begin now the planning from which action will flow, the hopes of the 20th century will become the realities of the 21st.

LYNDON B. JOHNSON.

THE WHITE HOUSE, January 26, 1966.

DISTRICT OF COLUMBIA BUDGET, 1967—MESSAGE FROM THE PRESIDENT (H. DOC. NO. 336)

The VICE PRESIDENT laid before the Senate the following message from the President of the United States, which was referred to the Committee on Appropriations:

To the Congress of the United States:

I present the budget for the District of Columbia for the fiscal year beginning July 1, 1966.

The great domestic challenge of our time lies in our cities. Significant efforts are being undertaken to meet this challenge, and to make it possible for every citizen to lead a productive and satisfying life.

The Federal Government has a special responsibility for the Nation's Capital. We have long resolved that the District can and should be an example of the best among our urban communities, but in many ways the District continues to fall short of that goal.

Programs for the future must recognize that there is much room for improvement. Yet, even to avoid regression is both difficult and expensive. The District, as the central portion of a major metropolitan area, must cope with unusual demands.

The past decade, for example, has seen a substantial increase in the need for services to meet the requirements of a changing population. During that short span, while total population of the District remained virtually unchanged—

School-age population—5 to 19—increased by 23,700—15 percent.

Actual school enrollments increased more than 37,000—35 percent—due primarily to expanded kindergarten programs and a modestly successful program to reduce school dropouts.

Working-age population—20 to 64—decreased 21,100—4 percent.

The over-65 age group increased 14,000—24 percent.

The student group certainly, and the older age group in many cases, require greater public services and public facilities. These needs cannot be ignored.

The District must also replace and modernize a physical plant that is aged and rapidly becoming obsolete. Of the public schools, for example—

Over 38 percent were built totally or in part before 1920.

Over 60 percent have some substandard classrooms.

Yet, the demands of the rapidly increasing school population, combined with limited appropriations for school construction, have made it impossible even to house new students, much less to modernize the existing school plant. Indeed, there is no fact of which we should be less proud than that in the Capital City of this great Nation there are some 2,100 children compelled by lack of classroom space to accept part-time education.

These and other program demands mean, therefore, that an increased level of appropriations will be required. To some extent that increase has been held in check by the cost reduction and management improvement program developed by the Commissioners. This program, similar to that required in each Federal department and agency, will continue to help in holding down the need for additional personnel and other resources despite the rapidly increasing program requirements. Moreover, to increase even further the productivity of

District agencies, I have directed the Bureau of the Budget to work closely with the Commissioners in the development of—

A planning, programing, and budgeting system.

New management techniques.

Improved methods and procedures.

Intensified use of data processing equipment.

In addition, I have insisted that the increases in expenditures reflected in this budget be held to the minimum needed to—

Assure continuation of essential services.

Provide an adequate level of staffing to carry out essential services.

Permit only such improvement in services as is required to assure an acceptable rate of progress toward our ultimate goals.

Revenues: Increases in District resources must, as always, come largely from local taxes. Commensurate increases in support by the Federal Government are necessary. The Federal payment, which is now authorized at \$50 million, should be authorized at a substantially higher level by approval of the formula contained in H.R. 6889, and appropriations should be increased accordingly. That formula provides a fair, equitable, and flexible measure of the amount of Federal support that should be provided the District government. The need for this type of flexible authorization and the inadequacy of the present laws are apparent. In 1965, the formula would have authorized only \$4.8 million more than the present authorization of \$50 million. In 1967, the formula indicates \$61.9 million as the appropriate level of support—\$11.9 million more than is now authorized. The propriety of thus measuring the appropriate level of Federal support to the District has twice had the approval of the Senate. I urgently commend it.

Increases in District taxes to accompany the larger Federal payment should be substantially greater than the \$4 million provided for the general fund in H.R. 11487, the revenue bill which has been passed by the House of Representatives. While it is true that the contribution made by District taxpayers has substantially increased in the past year, both through larger receipts from existing taxes and from the increase of 20 cents per \$100 of assessed valuation in the real estate tax, these increases fall far short of meeting the District's needs. I support, therefore, the recommendation of the Commissioners to the Congress of a tax package which will increase tax revenues in the general fund by \$8.4 million annually beyond those provided in H.R. 11487.

Requirements and financing of the general fund, 1966-72

¹ Includes recent increase in real estate tax rate from \$2.50 to \$2.70 per \$100 assessed valuation in fiscal year 1966. Also, rate increase from \$2.70 to \$2.80 in fiscal year 1969 and from \$2.80 to \$2.90 in fiscal year 1970.

Borrowing: The authority of the District to borrow for general fund purposes is now fixed at \$225 million, of which \$50 million is specifically allocated for the purposes of the National Capital Transportation Act of 1965. When this amount has been borrowed the authority will be exhausted, irrespective of repayments. This form of lump-sum authorization should be replaced by the pro-

visions of H.R. 6889, which relate the maximum amount which the District may borrow from the Treasury to a percentage of the assessed value of real and personal property in the District. This would—

Conform to debt limits generally used throughout the United States for local governments.

Relate the debt limit more closely to ability to repay.

Enable the District to incur new debt as repayments are made. Since at current levels of annual borrowing the District will soon exhaust its present borrowing authorization for general public works purposes, this matter deserves prompt consideration by the Congress.

New obligatory authority, all funds

With the additional revenues now being proposed, the District will measurably advance toward the goals outlined in my message to the Congress of February 15, 1965. Some of the more significant recommendations are—

EDUCATION

Operation of the school system in 1967 will require \$82.6 million, an increase of \$6.9 million over 1966. These increased funds will provide—

Additional classroom teachers needed to maintain the pupil-teacher ratios now in effect.

Additional positions in special subject areas such as science, mathematics, and reading needed to enrich and strengthen the District's educational program.

Addition of 24 librarians to provide 1 in every school in which physical facilities exist to house a library.

Additional counselors to achieve the

Board of Education pupil-counselor ratios of 750 to 1 in elementary schools and 400 to 1 in secondary schools.

Four pupil personnel service teams. Each team will be composed of psychiatrists, clinical and school psychologists, social workers and attendance officers. They will be able to meet acute needs of literally thousands of pupils whose opportunities to achieve the maximum of their potentialities are now impaired be-

89TH CONGRESS
2D SESSION

H. R. 15890

IN THE HOUSE OF REPRESENTATIVES

JUNE 23, 1966

Mr. PATMAN introduced the following bill; which was referred to the Committee on Banking and Currency

A BILL

To assist city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in these areas, to improve and amend our housing programs, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*
3 That this Act may be cited as the "Housing and Urban
4 Development Act of 1966".

5 TITLE I—DEMONSTRATION CITIES PROGRAM

6 FINDINGS AND DECLARATION OF PURPOSE

7 SEC. 101. The Congress hereby finds and declares that
8 improving the quality of urban life is the most critical do-
9 mestic problem facing the United States. The persistence

1 of widespread urban slums and blight, the concentration of
2 persons of low income in older urban areas, and the unmet
3 needs for additional housing and community facilities and
4 services arising from rapid expansion of our urban popula-
5 tion have resulted in a marked deterioration in the environ-
6 ment of large numbers of our people while the Nation as a
7 whole prospers.

8 The Congress further finds and declares that cities, both
9 large and small, do not have adequate resources to deal
10 effectively with the critical problems facing them, and that
11 additional Federal assistance is essential to enable cities to
12 plan, develop, and conduct programs to improve their physi-
13 cal environment, increase their supply of adequate housing
14 for low- and moderate-income people, and provide educa-
15 tional and social services vital to health and welfare.

16 It is the purpose of this title to provide additional finan-
17 cial and technical assistance to enable cities, both large and
18 small, to plan, develop, and carry out programs to rebuild
19 or revitalize large slum and blighted areas and expand and
20 improve public programs and services available to the people
21 who live in such areas.

22 It is further the purpose of this title to provide the
23 additional financial aid needed to enable cities to participate
24 more effectively in existing Federal assistance programs.

25 It is further the purpose of this title to assist cities to

1 coordinate activities aided under existing Federal programs
2 with other public and private actions in order to provide
3 the most effective and economical concentration of Federal,
4 State, local, and private efforts to improve the quality of
5 urban life.

6 BASIC AUTHORITY

7 SEC. 102. The Secretary of Housing and Urban Devel-
8 opment (hereinafter referred to as the "Secretary") is
9 authorized to make grants and provide technical assistance,
10 as provided by this title, to enable city demonstration agen-
11 cies (as herein defined) to plan, develop, and carry out
12 comprehensive city demonstration programs.

13 COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

14 SEC. 103. (a) A "comprehensive city demonstration
15 program" is a locally prepared and scheduled program for
16 rebuilding or restoring entire sections and neighborhoods of
17 slum and blighted areas through the concentrated and
18 coordinated use of all available Federal aids and local private
19 and governmental resources, including citywide aids and
20 resources necessary to improve the general welfare of the
21 people living or working in the areas.

22 (b) A comprehensive city demonstration program is
23 eligible for assistance under sections 105, 106, and 107 only
24 if the Secretary determines that—

25 (1) the program is of sufficient magnitude in both

1 physical and social dimensions (i) to remove or arrest
2 blight and decay in entire sections or neighborhoods,
3 (ii) to provide a substantial increase in the supply of
4 standard housing of low and moderate cost, (iii) to
5 make marked progress in serving the poor and disad-
6 vantaged people living in slum and blighted areas with
7 a view to reducing educational disadvantages, disease,
8 and enforced idleness, and (iv) to make a substantial
9 impact on the sound development of the entire city;

10 (2) the rebuilding or restoration of sections or
11 neighborhoods in accordance with the program will
12 contribute to a well-balanced city with adequate public
13 facilities (including those needed for transportation, edu-
14 cation, and recreation), commercial facilities adequate
15 to serve the residential areas, good access to industrial
16 or other centers of employment, and housing for all
17 income levels;

18 (3) the program provides for educational and social
19 services necessary to serve the poor and disadvantaged
20 in the area, widespread citizen participation in the pro-
21 gram, maximum opportunities for employing residents
22 of the area in all phases of the program, and enlarged
23 opportunity for work and training;

24 (4) adequate local resources are, or will be, avail-
25 able for the completion of the program as scheduled;

1 (5) administrative machinery is available for carry-
2 ing out the program on a consolidated and coordinated
3 basis, the local governing body has approved the pro-
4 gram, and local agencies whose cooperation is necessary
5 to the success of the program have indicated their in-
6 tent to furnish such cooperation;

7 (6) there exists a relocation plan meeting the re-
8 quirements of the regulations referred to in section 107;

9 (7) the program is designed to assure maximum op-
10 portunity in the choice of housing accommodations by all
11 citizens; and

12 (8) the program meets such additional require-
13 ments as the Secretary may establish to carry out the
14 purposes of this title.

15 (c) In making the determinations under subsection (b) ,
16 the Secretary shall give maximum consideration to whether—

17 (1) substantive local laws, regulations, and other
18 requirements are, or can be expected to be, consistent
19 with the objectives of the program;

20 (2) the program will enhance neighborhoods by
21 applying a high standard of design and will, as appro-
22 priate, maintain distinctive natural, historical, and cul-
23 tural characteristics;

24 (3) the program is designed to make maximum

1 use of new and improved technology and design, includ-
2 ing cost reduction techniques;

3 (4) the program will encourage good community
4 relations and counteract the segregation of housing by
5 race or income; and

6 (5) the program is consistent with comprehensive
7 planning for the entire urban or metropolitan area.

8 FINANCIAL ASSISTANCE FOR PLANNING COMPREHENSIVE

9 CITY DEMONSTRATION PROGRAMS

10 SEC. 104. (a) The Secretary is authorized to make
11 grants to, and to contract with, city demonstration agencies
12 to pay 80 per centum of the costs of planning and developing
13 comprehensive city demonstration programs.

14 (b) Financial assistance will be provided under this sec-
15 tion only if (1) the application for such assistance has been
16 approved by the local governing body of the city, and (2)
17 the Secretary has determined that there exist (i) administra-
18 tive machinery through which coordination of all related
19 planning activities of local agencies can be achieved, and
20 (ii) evidence that necessary cooperation of agencies engaged
21 in related local planning can be obtained.

1 FINANCIAL ASSISTANCE FOR APPROVED COMPREHENSIVE
2 CITY DEMONSTRATION PROGRAMS

3 SEC. 105. (a) The Secretary shall review plans for com-
4 prehensive city demonstration programs in order to deter-
5 mine that (1) such plans satisfy the criteria for such pro-
6 grams set forth in section 103, and (2) the various projects
7 or activities to be undertaken in connection with such pro-
8 grams are scheduled to be initiated within a reasonably short
9 period of time.

10 (b) The Secretary is authorized to make grants to, and
11 to contract with, city demonstration agencies to pay 80 per
12 centum of the cost of administering approved comprehensive
13 city demonstration programs, but not the cost of administer-
14 ing any project or activity assisted under a Federal grant-
15 in-aid program.

16 (c) To assist the city to carry out the projects or activi-
17 ties included within an approved comprehensive city demon-
18 stration program, the Secretary is authorized to make grants
19 to the city demonstration agency of not to exceed 80 per
20 centum of the aggregate amount of non-Federal contributions
21 otherwise required to be made to all projects or activities

14 assisted by Federal grant-in-aid programs (as hereinafter
15 defined which are undertaken in connection with such dem-
16 onstration program: *Provided*, That the specific amount of
17 any such grant shall take into account the number and
18 intensity of the economic and social pressures in the sections
19 or neighborhoods involved, such as those involving or result-
20 ing from population density, crime rate, public welfare par-
21 ticipation, delinquency rate, poverty levels, unemployment
22 rate, educational levels, health and disease characteristics,
23 and degree of substandard and dilapidated housing: *Pro-*
24 *vided further*, That the amount of non-Federal contribution
25 required for each project in a Federal grant-in-aid program
14 shall be certified to the Secretary by the Federal department
15 or agency (other than the Department of Housing and Urban
16 Development) administering such program, and the Secre-
17 tary shall accept such determination in computing the grants
18 hereunder.

19 (d) Grant funds provided pursuant to subsection (c) of
20 this section shall be used for projects or activities assisted
21 under a Federal grant-in-aid program which are undertaken
22 as part of an approved comprehensive city demonstration
23 program, or for other projects or activities undertaken as part
24 of such demonstration program. If used for projects or ac-
25 tivities assisted under a Federal grant-in-aid program which

14 are undertaken as part of such demonstration program, funds
15 provided pursuant to subsection (c) shall be credited as part
16 or all of the required non-Federal contribution to such proj-
17 ects or activities.

18 (e) The Secretary shall not make any grant under this
19 section unless he has obtained satisfactory assurances that
20 the locality will maintain, during the period and approved
21 comprehensive city demonstration program is being carried
22 out, a level of aggregate expenditures for activities similar
23 to those being assisted under this section not less than the
24 level of aggregate expenditures for such activities prior to
25 initiation of the comprehensive city demonstration program.

14 TECHNICAL ASSISTANCE

15 SEC. 106. The Secretary is authorized to undertake such
16 activities as he determines to be desirable to provide, either
17 directly or by contracts or other arrangements, technical
18 assistance to city demonstration agencies to assist such
19 agencies in planning, developing, and administering compre-
20 hensive city demonstration programs.

21 RELOCATION REQUIREMENTS AND PAYMENTS

22 SEC. 107. (a) A comprehensive city demonstration pro-
23 gram must include a plan for the relocation of individuals,
24 families, business concerns, and nonprofit organizations dis-

1 placed or to be displaced in carrying out the city demonstra-
2 tion program. The relocation plan shall be consistent with
3 regulations prescribed by the Secretary to assure that (1)
4 the provisions and procedures included in the plan meet
5 relocation standards equivalent to those prescribed under
6 section 105 (c) of the Housing Act of 1949 with respect
7 to urban renewal projects assisted under title I of that Act,
8 and (2) relocation activities are coordinated to the maxi-
9 mum extent feasible with the increase in the supply of
10 decent, safe, and sanitary housing for families and individuals
11 of low or moderate income, as provided under the compre-
12 hensive city demonstration program, or otherwise, in order
13 to best maintain the available supply of such housing for all
14 such families and individuals throughout the city.

15 (b) (1) To the extent not otherwise authorized under
16 any Federal law, financial assistance extended to a compre-
17 hensive city demonstration agency under section 105 shall
18 include grants to cover the full cost of relocation payments,
19 as herein defined. Such grants shall be in addition to other
20 financial assistance extended to such agency under section
21 105.

22 (2) The term "relocation payments" means payments
23 by a comprehensive city demonstration agency to a displaced
24 individual, family, business concern, or nonprofit organiza-
25 tion which are made on such terms and conditions and

1 subject to such limitations (to the extent applicable, but not
2 including the date of displacement) as are provided for relo-
3 cation payments, at the time such payments are approved,
4 by sections 114 (b), (c), (d), and (e) of the Housing
5 Act of 1949 with respect to projects assisted under title I
6 thereof.

7 (c) Subsection (b) shall not be applicable with respect
8 to any displacement occurring prior to the date of the
9 enactment of this Act.

10 CONTINUED AVAILABILITY OF FEDERAL GRANT-IN-AID
11 PROGRAM

12 SEC. 108. Notwithstanding any other provision of law,
13 unless hereafter enacted expressly in limitation of the provi-
14 sions of this section, funds appropriated for a Federal grant-
15 in-aid program which are reserved for any projects or
16 activities assisted under such grant-in-aid program under-
17 taken in connection with an approved comprehensive city
18 demonstration program shall remain available until expended
19 when so provided in appropriation Acts.

20 CONSULTATION

21 SEC. 109. In carrying out the provisions of this title,
22 including the issuance of regulations, the Secretary shall
23 consult with other Federal departments and agencies admin-
24 istering Federal grant-in-aid programs. The Secretary shall

1 consult with each Federal department and agency affected
2 by each comprehensive city demonstration program before
3 entering into a commitment to make grants for such pro-
4 gram under section 105.

5 LABOR STANDARDS

6 SEC. 110. (a) All laborers and mechanics employed
7 by contractors or subcontractors on projects assisted directly
8 or indirectly under this title shall be paid wages at rates
9 not less than those prevailing on similar construction in
10 the locality as determined by the Secretary of Labor in
11 accordance with the Davis-Bacon Act, as amended (40
12 U.S.C. 276a—276a-5). No assistance provided for under
13 this title shall be approved without first obtaining adequate
14 assurance that these labor standards will be maintained upon
15 the construction work.

16 (b) The Secretary of Labor shall have, with respect to
17 the labor standards specified in subsection (a), the authority
18 and functions set forth in Reorganization Plan Numbered 14
19 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15),
20 and section 2 of the Act of June 13, 1934, as amended
21 (48 Stat. 948; 40 U.S.C. 276c).

22 APPROPRIATIONS

23 SEC. 111. (a) There are authorized to be appropriated
24 for the purpose of financial assistance under section 104 the

1 sum of \$12,000,000 for the fiscal year ending June 30,
2 1967, and such sums as may be necessary for the fiscal year
3 ending June 30, 1968.

4 (b) There are authorized to be appropriated for the
5 purpose of financial assistance under section 105 such sums
6 as may be necessary for the fiscal year ending June 30,
7 1968, and succeeding fiscal years. It is the sense of the
8 Congress that appropriations pursuant to this subsection shall
9 be made only on the basis of need demonstrated by plans
10 submitted for comprehensive city demonstration programs,
11 and that any such appropriation shall take into account the
12 budgetary situation existing at the time it is made.

13 (c) There are authorized to be appropriated for the
14 other purposes of this title such sums as may be necessary.

15 (d) Appropriations authorized under this section shall
16 remain available until expended when so provided in appro-
17 priation Acts.

18 DEFINITIONS

19 SEC. 112. As used in this title—

20 (a) “Federal grant-in-aid program” means a program
21 of Federal financial assistance other than loans and other
22 than the assistance provided by this title.

23 (b) “City demonstration agency” means the city or any
24 local public agency established or designated by the local

1 governing body to administer the comprehensive city demon-
2 stration program.

3 (c) "City" means any municipality (or two or more
4 municipalities acting jointly) or, with respect to urban areas
5 outside of incorporated municipalities, any county or other
6 public body (or two or more acting jointly) having general
7 governmental powers.

8 (d) "Local" agencies include State agencies and instru-
9 mentalities providing services or resources to a city or local-
10 ity, and "local" resources include those provided to a city
11 or locality by a State or its agency or instrumentality.

12 TERMINATION OF AUTHORITY

13 SEC. 113. (a) This title and all authority conferred
14 thereunder shall terminate at the close of June 30, 1971:
15 *Provided*, That the functions, powers, duties, and authorities
16 vested in the Secretary under this title may be retained by
17 the Secretary for the purpose of liquidating the affairs and
18 functions conducted under this title.

19 (b) The termination of this title shall not affect the
20 disbursement of funds under, or the carrying out of, any
21 contract, commitment, or other obligation entered into pur-
22 suant to this title prior to the date of such termination, or
23 the taking of any action necessary to preserve or protect the
24 interests of the United States in any amounts advanced or
25 paid out in carrying on operations under this title.

1 GRANT AUTHORITY FOR URBAN RENEWAL PROJECTS WHICH
2 ARE PART OF APPROVED COMPREHENSIVE CITY DEMON-
3 STRATION PROGRAMS

4 SEC. 114. Section 103 (b) of the Housing Act of 1949
5 is amended by inserting after the first sentence the following
6 new sentence: "In addition to the authority to make grants
7 provided in the first sentence of this subsection, the Sec-
8 retary may contract to make grants under this title, on or
9 after July 1, 1967, in an amount not to exceed \$600,000,-
10 000: *Provided*, That the authority to contract to make
11 grants provided by this sentence shall be exercised only
12 with respect to an urban renewal project which is identified
13 and scheduled to be carried out as one of the projects or
14 activities included within an approved comprehensive city
15 demonstration program assisted under the provisions of sec-
16 tion 105 (c) of the Housing and Urban Development Act
17 of 1966."

18 TITLE II—GRANTS TO ASSIST IN PLANNED
19 METROPOLITAN DEVELOPMENT

20 FINDINGS AND DECLARATION OF PURPOSE

21 SEC. 201. (a) The Congress hereby finds that the wel-
22 fare of the Nation and of its people is directly dependent
23 upon the effective organization and functioning of the metro-
24 politan areas in which two-thirds of its people live and work.

25 It further finds that the continuing rapid growth of these

1 areas makes it essential that they prepare, keep current, and
2 actually carry out comprehensive plans and programs for
3 their orderly physical development with a view to efficiently
4 meeting all their economic and social needs.

5 It further finds that metropolitan areas are especially
6 handicapped in this task by the complexity and scope of
7 governmental services required in such rapidly growing
8 areas, the multiplicity of political jurisdictions and agencies
9 involved, and the inadequacy of the operational and adminis-
10 trative arrangements available for cooperation among them.

11 It further finds that present requirements for areawide
12 planning and programing in connection with various Federal
13 programs have materially assisted in the solution of metro-
14 politan problems, but that additional participation and
15 cooperation are needed from the States and localities in
16 perfecting and carrying out such areawide efforts.

17 (b) It is the purpose of this title to provide additional
18 encouragement and assistance to States and localities,
19 through supplementary grants for certain federally assisted
20 development projects, for making effective comprehensive
21 metropolitan planning and programing.

22 GRANT AUTHORITY

23 SEC. 202. (a) The Secretary is authorized to make
24 supplementary grants to applicant State and local public
25 bodies and agencies carrying out, or assisting in carrying

1 out, development projects meeting the requirements of this
2 title.

3 (b) Grants may be made under this title only for de-
4 velopment projects in metropolitan areas for which it has
5 been demonstrated, to the satisfaction of the Secretary, that—

6 (1) metropolitanwide comprehensive planning and
7 programing provide an adequate basis for evaluating

8 (A) the location, financing, and scheduling of individ-
9 ual public facility projects (including, but not limited
10 to, sewer, water, and sewage treatment facilities; high-
11 way, mass transit, airport, and other transportation
12 facilities; and recreation and other open-space areas)
13 whether or not federally assisted; and (B) other pro-
14 posed land development or uses, which projects or uses,
15 because of their size, density, type, or location, have
16 public metropolitanwide or interjurisdictional signifi-
17 cance;

18 (2) adequate metropolitanwide institutional or
19 other arrangements exist for coordinating, on the basis
20 of such metropolitanwide comprehensive planning and
21 programing, local public policies and activities affecting
22 the development of the area; and

23 (3) public facility projects and other land develop-
24 ment or uses which have a major impact on the develop-

1 ment of the area are, in fact, being carried out in accord
2 with such metropolitanwide comprehensive planning and
3 programing.

4 (c) (1) Where the applicant for a grant under this title
5 is a county, municipality, or other general-purpose unit of
6 local government, it must demonstrate, to the satisfaction of
7 the Secretary, that taking into consideration the scope of its
8 authority and responsibilities it is adequately assuring that
9 public facility projects and other land development or uses
10 of public metropolitanwide or interjurisdictional significance
11 are being, and will be, carried out in accord with metropoli-
12 tan planning and programing meeting the requirements of
13 subsection (b). In making this determination the Secre-
14 tary shall give special consideration to whether the applicant
15 is effectively assisting in, and conforming to, metropolitan
16 planning and programing through (A) the location and
17 scheduling of public facility projects, whether or not federally
18 assisted; and (B) the establishment and consistent adminis-
19 tration of zoning codes, subdivision regulations, and similar
20 land-use and density controls.

21 (2) Where the applicant for a grant under this title is
22 not a general-purpose unit of local government, both it and
23 the general-purpose unit of local government having jurisdic-
24 tion over the location of the project must meet requirements
25 of this subsection.

1 (d) In making the determinations required under this
2 section, the Secretary shall obtain, and give full consideration
3 to, the comments of the body or bodies (State or local) re-
4 sponsible for planning and programing for the metropolitan
5 area.

6 (e) No grant shall be made under this title with respect
7 to a development project for which a Federal grant has been
8 made, or a contract of assistance has been entered into, under
9 the legislation referred to in paragraph (1) of section 205
10 prior to February 21, 1966, or more than one year prior to
11 the date on which the Secretary has made the determinations
12 required under this section with respect to the applicant and
13 to the area in which the project is located: *Provided*, That in
14 the case of a project for which a contract of assistance under
15 the legislation referred to in paragraph (1) of section 205
16 has been entered into after June 30, 1967, no grant shall be
17 made under this title unless an application for such grant
18 has been made on or before the date of such contract.

19 EXTENT OF GRANT

20 SEC. 203. (a) A grant under this title shall not exceed

21 (1) 20 per centum of the cost of the project for which the
22 grant is made; nor (2) the Federal grant made with respect
23 to the project under the legislation referred to in paragraph
24 (1) of section 205. In no case shall the total Federal con-

1 tributions to the cost of such project be more than 80 per
2 centum. Notwithstanding any other provision of law, includ-
3 ing requirements with respect to non-Federal contributions,
4 grants under this title shall be eligible for inclusion (directly
5 or through refunds or credits) as part of the financing for
6 such projects: *Provided*, That projects or activities on the
7 basis of which assistance is provided under section 105 (c) of
8 this Act shall not be eligible for assistance under this title.

9 (b) There are hereby authorized to be appropriated
10 such sums as may be necessary to carry out the provisions of
11 this title. Appropriations authorized under this title shall
12 remain available until expended when so provided in appro-
13 priations Acts.

14 CONSULTATION AND CERTIFICATION

15 SEC. 204. In carrying out the provisions of this title, in-
16 cluding the issuance of regulations, the Secretary shall con-
17 sult with the Department of the Interior; the Department of
18 Commerce; the Department of Health, Education, and Wel-
19 fare; and the Federal Aviation Agency with respect to de-
20 velopment projects assisted by those departments and agen-
21 cies; and he shall, for the purpose of section 203, accept
22 their respective certifications as to the cost of those projects
23 and the amount of the non-Federal contribution paid or to be
24 paid to that cost.

DEFINITIONS

SEC. 205. As used in this title—

(1) “development project” means a project assisted or to be assisted under section 702 of the Housing and Urban Development Act of 1965; section 8 of the Federal Water Pollution Control Act; section 120 (a) of title 23, United States Code; section 9 of the Federal Airport Act; section 3 of the Urban Mass Transportation Act of 1964; title VII of the Housing Act of 1961; section 5 (e) of the Land and Water Conservation Fund Act of 1965; or section 101 (a) (1) of the Public Works and Economic Development Act of 1965 (for a project of a type which the Secretary determines to be eligible for assistance under other of the provisions listed above) ;

(2) “State” means any State of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, or an agency or instrumentality of any of the foregoing;

(3) “metropolitan area” means a standard metropolitan statistical area as established by the Bureau of the Budget, subject however to such modifications and extensions as the Secretary may determine to be appropriate; and

(4) “Secretary” means the Secretary of Housing and Urban Development.

1 TITLE III—COORDINATION OF FEDERAL ACTIV-
2 ITIES IN METROPOLITAN DEVELOPMENT

3 COOPERATION BETWEEN FEDERAL AGENCIES

4 SEC. 301. In order to insure that all Federal programs
5 related to metropolitan development are carried out in a
6 coordinated manner—

7 (1) the Secretary of Housing and Urban Develop-
8 ment is authorized to call upon other Federal agencies
9 to supply such statistical data, program reports, and
10 other materials as he deems necessary to discharge his
11 responsibilities for metropolitan development, and to
12 assist the President in coordinating the metropolitan
13 development efforts of all Federal agencies; and

14 (2) all Federal agencies which are engaged in
15 administering programs related to metropolitan develop-
16 ment, or which otherwise perform functions relating
17 thereto, shall cooperate with the Secretary in carrying
18 out his duties and responsibilities for metropolitan
19 development.

20 METROPOLITAN EXPEDITERS

21 SEC. 302. The Secretary shall appoint a metropolitan
22 expediter for each metropolitan area which he finds needs and
23 desires it. Such appointments shall be made only after con-
24 sultation with local governmental authorities in such metro-
25 politan area. The metropolitan expediter shall provide

1 information, data, and assistance to local authorities and
2 private individuals and entities within the metropolitan area,
3 and to all relevant Federal departments and agencies, with
4 respect to all programs and activities conducted within such
5 metropolitan area by the Department of Housing and Urban
6 Development, and with respect to other public and private
7 activities and needs within such metropolitan area which
8 relate to the programs and activities of the Department.

9 TITLE IV—LAND DEVELOPMENT AND NEW
10 COMMUNITIES

11 MORTGAGE INSURANCE FOR NEW COMMUNITIES

12 SEC. 401. Title X of the National Housing Act is
13 amended by inserting after section 1003 the following new
14 section 1004 and redesignating the remaining sections
15 accordingly:

16 “NEW COMMUNITIES

17 “SEC. 1004. (a) New communities consisting of de-
18 velopments, satisfying all other requirements under this title,
19 may be approved under this section by the Secretary for
20 mortgage insurance if they meet the requirements of sub-
21 section (b) of this section.

22 “(b) A development shall be eligible for approval as
23 a new community if the Secretary determines it will, in
24 view of its size and scope, make a substantial contribution

1 to the sound and economic growth of the area within which
2 it is located in the form of—

3 “(1) substantial economies, made possible through
4 large-scale development, in the provision of improved
5 residential sites;

6 “(2) adequate housing to be provided for those
7 who would be employed in the community or the sur-
8 rounding area;

9 “(3) maximum accessibility from the new residen-
10 tial sites to industrial or other employment centers and
11 commercial, recreational, and cultural facilities in or near
12 the community; and

13 “(4) maximum accessibility to any major central
14 city in the area”.

15 MORTGAGE AMOUNT AND TERM

16 SEC. 402. (a) Section 1002 (c) of the National Housing
17 Act is amended by striking out “\$10,000,000” and insert-
18 ing in lieu thereof “\$25,000,000”.

19 (b) Section 1002 (d) (1) of such Act is amended to
20 read as follows:

21 “(1) contain repayment provisions satisfactory to
22 the Secretary and have a maturity not to exceed seven
23 years, or such longer maturity as the Secretary deems
24 reasonable (A) in the case of a privately owned system

for water or sewerage, and (B) in the case of a new community approved under section 1004;”.

ENCOURAGEMENT OF SMALL BUILDERS

SEC. 403. The section of the National Housing Act redesignated as section 1005 by section 401 of this Act is amended by inserting “particularly small builders,” after “broad participation by builders,”.

WATER AND SEWERAGE FACILITIES

SEC. 404. The section of the National Housing Act redesignated as section 1006 by section 401 of this Act is amended by adding at the end thereof the following new sentence: “In the case of a new community approved by the Secretary pursuant to section 1004, the land shall be served, after its development, by—

“(a) public systems for water and sewerage which are consistent with other existing or prospective systems within the area; or

“(b) existing privately or cooperatively owned systems (including reasonable extensions thereto) which are approved as adequate by the Secretary and are regulated in a manner acceptable to him; or

“(c) if it is necessary to develop a new system and the Secretary determines that public ownership of

1 such a system is not feasible, an adequate privately or
 2 cooperatively owned new system (1) which he finds
 3 consistent with other existing or prospective systems
 4 within the area; (2) which will be regulated, during
 5 the period of such ownership, in a manner acceptable to
 6 him with respect to user rates and charges, capital struc-
 7 ture, methods of operation, and rate of return; and (3)
 8 regarding which he receives assurances, satisfactory to
 9 him, with respect to eventual public ownership and
 10 operation of the system and with respect to the condi-
 11 tions and terms of any sale or transfer.”

12 FEDERAL NATIONAL MORTGAGE ASSOCIATION SPECIAL
 13 ASSISTANCE FOR NEW COMMUNITIES

14 SEC. 405. Section 302 (b) of the National Housing Act
 15 is amended by inserting after “or title VIII,” in the proviso
 16 the following: “or under title X with respect to a new com-
 17 munity approved under section 1004 thereof.”.

18 URBAN PLANNING GRANTS

19 SEC. 406. Section 701 (a) (4) of the Housing Act of
 20 1954 is amended by inserting before the semicolon at the
 21 end thereof the following: “, or for areas where rapid urbani-
 22 zation is expected to result on land acquired or to be acquired
 23 by land development agencies with assistance under section
 24 202 (b) (1) of the Housing Amendments of 1955, or on

1 land developed or to be developed as a new community ap-
2 proved under section 1004 of the National Housing Act”.

3 PUBLIC FACILITY LOANS

4 SEC. 407. Paragraph (4) of the subsection of section
5 202 of the Housing Amendments of 1955 redesignated as
6 subsection (c) by section of this Act is amended by adding
7 before the period at the end of the second sentence the fol-
8 lowing: “, or (iii) to be provided in connection with the
9 establishment of a new community approved under section
10 1004 of the National Housing Act”.

11 LOANS TO LAND DEVELOPMENT AGENCIES

12 SEC. 408. (a) Section 202 of the Housing Amendments
13 of 1955 is amended by inserting after subsection (a) the
14 following new subsection (b) and redesignating the remain-
15 ing subsections accordingly:

16 “(b) (1) In order to encourage and assist in the timely
17 acquisition of open or predominantly undeveloped land to be
18 utilized in connection with the development of well-planned
19 residential neighborhoods, subdivisions, and communities, the
20 Secretary is authorized to purchase the securities and obliga-
21 tions of, or make loans to, land development agencies to
22 finance the acquisition of a fee simple or other interest in such
23 land for subsequent sale in accordance with this subsection.
24 A loan under this subsection may be in an amount which

1 shall not exceed the total cost, as approved by the Secretary,
2 of acquiring such interest; shall be reasonably secured; shall
3 be repaid in such manner and within such period, not exceed-
4 ing fifteen years, as may be determined by the Secretary;
5 and shall bear interest at the rate prescribed for financial
6 assistance extended under subsection (a) of this section. As
7 used in this subsection, 'land development agencies' means
8 public corporations, including municipalities, authorized to
9 carry out, and created or designated by or pursuant to State
10 law for the purpose of carrying out, the functions for which
11 financial assistance is available under this subsection.

12 “(2) The Secretary shall not extend any financial as-
13 sistance for the acquisition of land under this subsection
14 unless he determines that (A) the financial assistance ap-
15 plied for is not otherwise available on reasonable terms, (B)
16 the development of a well-planned residential neighborhood,
17 subdivision, or community on such land would be consistent
18 with a comprehensive plan or comprehensive planning, meet-
19 ing criteria established by the Secretary, for the area in
20 which the land is located, and (C) a preliminary develop-
21 ment plan for the use of the land meets criteria established
22 by the Secretary for such preliminary plans.

23 “(3) Land acquired with financial assistance under this
24 subsection shall be disposed of for development in accordance
25 with a current development plan for the land which has been

1 approved by the Secretary as consistent with provisions of
 2 the loan agreement, and shall not be sold or otherwise dis-
 3 posed of for less than its fair value for uses in accord with
 4 such development plan. Such plan shall, wherever feasible
 5 in the light of current conditions, encourage the provision of
 6 sites providing a proper balance of types of housing to serve
 7 families having a broad range of incomes. The Secretary
 8 shall adopt such requirements as he deems necessary to en-
 9 courage the maintenance of a diversified local homebuilding
 10 industry and broad participation by builders, particularly
 11 small builders.”

12 (b) The proviso in section 203 (a) of the Housing
 13 Amendments of 1955 is amended—

14 (1) by striking out “section 202 (a)” and inserting
 15 in lieu thereof “section 202 (a) and pursuant to section
 16 202 (b)”; and

17 (2) by striking out “of such section” and inserting
 18 in lieu thereof “of section 202 (a)”.

19 Housing and Urban Development.

20 TITLE V—FHA INSURANCE OPERATIONS

21 FHA MORTGAGE FINANCING FOR VETERANS

22 SEC. 501. The next to last sentence of section 203 (b)
 23 (2) of the National Housing Act is amended by striking
 24 out “If the mortgagor is a veteran who has not received any
 25 direct, guaranteed, or insured loan under laws administered

1 by the Veterans' Administration for the purchase, construc-
2 tion, or repair of a dwelling (including a farm dwelling)
3 which was to be owned and occupied by him as his home,"
4 and inserting in lieu thereof the following: "If the mortgagor
5 is a veteran,".

6 COOPERATIVE HOUSING INSURANCE FUND

7 SEC. 502. (a) Section 213 (m) of the National Hous-
8 ing Act is amended by striking out " , but only in cases where
9 the consent of the mortgagee or lender to the transfer is ob-
10 tained or a request by the mortgagee or lender for the transfer
11 is received by the Secretary within such period of time after
12 the date of the enactment of this subsection as the Secretary
13 shall prescribe".

14 (b) Section 213 (n) of such Act is amended—

15 (1) by striking out "insured under this section and
16 sections 207, 231, and 232" and inserting in lieu thereof
17 "the insurance of which is the obligation of either the
18 Management Fund or the General Insurance Fund";
19 and

20 (2) by adding at the end thereof the following new
21 sentence: "Premium charges on the insurance of mort-
22 gages or loans transferred to the Management Fund or
23 insured pursuant to commitments transferred to the Man-
24 agement Fund may be payable in debentures which are

the obligation of either the Management Fund or of the General Insurance Fund.”

(c) (1) The fourth sentence of section 213 (k) of such Act is amended to read as follows: “The Secretary is directed to transfer to the Management Fund from the General Insurance Fund an amount equal to the total of the premium payments theretofore made with respect to the insurance of mortgages and loans transferred to the Management Fund pursuant to subsection (m) minus the total of any administrative expenses theretofore incurred in connection with such mortgages and loans, plus such other amounts as the Secretary determines to be necessary and appropriate.”

(2) The second proviso in section 213 (l) of such Act is amended by striking out “pursuant to subsection (k) or (o)” and inserting in lieu thereof “pursuant to subsection (o)”.

MORTGAGE LIMITS FOR COOPERATIVE HOUSING

SEC. 503. Section 213 (b) (2) of the National Housing Act is amended—

(1) by striking out “\$9,000”, “\$12,500”, “\$15,000”, “\$18,500”, and “\$21,000” in the matter preceding the first proviso and inserting in lieu thereof “\$11,500”, “\$15,000”, “\$17,500”, “\$21,000”, and “\$23,500”, respectively; and

(2) by striking out "\$10,500", "\$15,000", "\$18,000", "\$22,500", and "\$25,500" in the first proviso and inserting in lieu thereof "\$13,000", "\$17,500", "\$20,500", "\$25,000", and "\$28,000", respectively.

SUPPLEMENTARY FINANCING FOR COOPERATIVE HOUSING

SEC. 504. Section 213 (j) (2) (A) of the National Housing Act is amended by adding at the end thereof the following: "except that, in the case of improvements or additional community facilities, the outstanding indebtedness may be increased by an amount equal to 97 per centum of the amount which the Secretary estimates will be the value of such improvements or facilities, and the new outstanding indebtedness may exceed the original principal obligation of the mortgage if such new outstanding indebtedness does not exceed the limitations imposed by subsection (b) ;".

MORTGAGE LIMITS FOR HOMES UNDER SECTION 221(d)(2)

SEC. 505. Section 221 (d) (2) (A) of the National Housing Act is amended by striking out "\$11,000" and "\$18,000" and inserting in lieu thereof "\$12,500" and "\$20,000", respectively.

1 INSURANCE OF MORTGAGES UNDER SECTION 221 TO
2 FINANCE PURCHASE AND REHABILITATION BY NON-
3 PROFIT ORGANIZATIONS OF HOUSING FOR RESALE TO
4 LOW-INCOME PURCHASERS

5 SEC. 506. (a) Section 221 of the National Housing
6 Act is amended by adding at the end thereof the following
7 new subsection:

8 “(i) (1) In addition to mortgages insured under the
9 other provisions of this section, the Secretary is authorized,
10 upon application by the mortgagee, to insure under this sub-
11 section as hereinafter provided any mortgage (including
12 advances under such mortgage during rehabilitation) which
13 is executed by a nonprofit organization to finance the pur-
14 chase and rehabilitation of deteriorating or substandard
15 housing for subsequent resale to low-income home purchasers
16 and, upon such terms and conditions as the Secretary may
17 prescribe, to make commitments for the insurance of such
18 mortgages prior to the date of their execution or disburse-
19 ment thereon.

20 “(2) To be eligible for insurance under paragraph (1)
21 of this subsection, a mortgage shall—

1 “(A) be executed by a private nonprofit corpora-
2 tion or association approved for purposes of this subsec-
3 tion by the Secretary, for the purpose of financing the
4 purchase of property (comprising one or more tracts or
5 parcels, whether or not contiguous) upon which there
6 is located deteriorating or substandard housing consisting
7 of five or more single-family dwellings of detached, semi-
8 detached, or row construction and of rehabilitating such
9 dwellings with a view to subsequent resale as hereinafter
10 provided;

11 “(B) be secured by the property which is to be
12 purchased and rehabilitated with the proceeds thereof;

13 “(C) be in a principal amount not exceeding the
14 appraised value of the property at the time of its pur-
15 chase under the mortgage plus the estimated cost of the
16 rehabilitation;

17 “(D) bear interest (exclusive of premium charges
18 for insurance and service charge, if any) at the rate in
19 effect under the proviso in subsection (d) (5) at the
20 time of execution;

21 “(E) provide for complete amortization (subject
22 to paragraph (5) (E)) by periodic payments within
23 such term as the Secretary may prescribe; and

24 “(F) provide for the release of individual single-
25 family dwellings from the lien of the mortgage upon

1 the sale of the rehabilitated dwellings in accordance
2 with paragraph (5).

3 “(3) No mortgage shall be insured under paragraph
4 (1) unless the mortgagor shall have demonstrated to the
5 satisfaction of the Secretary that (A) the property to be
6 rehabilitated is located in a neighborhood which is suf-
7 ficiently stable and contains sufficient public facilities and
8 amenities to support long-term values, or (B) the rehabili-
9 tation to be carried out by the mortgagor plus its related
10 activities and the activities of other owners of housing in
11 the neighborhood, together with actions to be taken by
12 public authorities, will be of such scope and quality as to
13 give reasonable promise that a stable environment will be
14 created in the neighborhood.

15 “(4) The aggregate principal balance of all mortgages
16 insured under paragraph (1) and outstanding at any one
17 time shall not exceed \$20,000,000.

18 “(5) (A) No mortgage shall be insured under para-
19 graph (1) unless the mortgagor enters into an agreement
20 (in form and substance satisfactory to the Secretary) that
21 it will offer to sell the dwellings involved, upon com-
22 pletion of their rehabilitation, to individuals or families
23 (hereinafter referred to as ‘low-income purchasers’) deter-
24 mined by the Secretary to have incomes below the maximum
25 amount specified (with respect to the area involved) in sec-

1 tion 101 (c) (1) of the Housing and Urban Development
2 Act of 1965.

3 “(B) The Secretary is authorized to insure under this
4 paragraph mortgages executed to finance the sale of indi-
5 vidual dwellings to low-income purchasers as provided in
6 subparagraph (A). Any such mortgage shall—

7 “(i) be in a principal amount equal to that portion
8 of the unpaid balance of the principal mortgage covering
9 the property (insured under paragraph (1)) which is
10 allocable to the individual dwelling involved; and

11 “(ii) bear interest at the same rate as the prin-
12 cipal mortgage, and provide for complete amortization
13 by periodic payments within a term equal to the re-
14 maining term (determined without regard to subpara-
15 graph (E)) of such principal mortgage.

16 “(C) The price for which any individual dwelling is
17 sold to a low-income purchaser under this paragraph shall
18 be the amount of the mortgage covering the sale as deter-
19 mined under subparagraph (B), except that the purchaser
20 shall in addition thereto be required to pay on account of
21 the property at the time of purchase such amount (which
22 shall not be less than \$200, but which may be applied
23 in whole or in part toward closing costs) as the Secretary
24 may determine to be reasonable and appropriate in the
25 circumstances.

1 “(D) Upon the sale under this paragraph of any indi-
2 vidual dwelling, such dwelling shall be released from the lien
3 of the principal mortgage, and such mortgage shall there-
4 upon be replaced by an individual mortgage insured under
5 this paragraph to the extent of the portion of its unpaid
6 balance which is allocable to the dwelling covered by such
7 individual mortgage. Until all of the individual dwellings in
8 the property covered by the principal mortgage have been
9 sold, the mortgagor shall hold and operate the dwellings re-
10 maining unsold at any given time as though they constituted
11 rental units in a project covered by a mortgage which is
12 insured under subsection (d) (3) (and which receives the
13 benefits of the interest rate provided for in the proviso in
14 subsection (d) (5)).

15 “(E) Upon the sale under this paragraph of all of the
16 individual dwellings in the property covered by the prin-
17 cipal mortgage, and the release of all individual dwellings
18 from the lien of the principal mortgage, the insurance of
19 the principal mortgage shall be terminated and no adjusted
20 premium charge shall be charged by the Secretary upon
21 such termination.

22 “(F) Any mortgage insured under this paragraph shall
23 contain a provision that if the low-income mortgagor does
24 not continue to occupy the property, the interest rate shall
25 increase to the highest rate permissible under this section

1 and the regulations of the Secretary effective at the time of
2 commitment for insurance of the principal mortgage; except
3 that the increase in interest rate shall not be applicable if
4 the property is sold and the purchaser is (i) the nonprofit
5 organization which executed the principal mortgage, (ii) a
6 public housing agency having jurisdiction under the United
7 States Housing Act of 1937 over the area where the dwelling
8 is located, or (iii) a low-income purchaser approved for the
9 purposes of this paragraph by the Secretary.”

10 (b) (1) Section 221 (g) (1) of such Act is amended
11 by inserting after “paragraph (2) of subsection (d) of this
12 section” the following: “or paragraph (5) of subsection (i)
13 of this section”.

14 (2) Section 221 (g) (2) of such Act is amended by in-
15 serting after “paragraph (3) or (4) of subsection (d) of
16 this section” the following: “or paragraph (1) of subsection
17 (i) of this section”.

18 (c) Section 221 (f) of such Act is amended by inserting
19 after “Housing Act of 1961.” in the fourth sentence “or
20 which meets the requirements of subsection (i).”.

21 (d) Section 305 (h) of such Act is amended by striking
22 out “section 221 (d) (3)” and inserting in lieu thereof “sec-
23 tions 221 (d) (3) and 221 (i)”.

1 APPLICATION OF DAVIS-BACON ACT TO COOPERATIVE HOUS-
 2 ING PROJECTS INSURED UNDER SECTION 221 (d)(3) AND
 3 (d)(4)

4 SEC. 507. The third sentence of section 212 (a) of the
 5 National Housing Act is amended by inserting before the
 6 period at the end thereof the following: “, except that com-
 7 pliance with such provisions may be waived by the Secretary
 8 in cases or classes of cases where laborers or mechanics (not
 9 otherwise employed at any time in the construction of the
 10 project) voluntarily donate their services without compensa-
 11 tion for the purpose of lowering their housing costs in a
 12 cooperative housing project and the Secretary determines
 13 that any amounts saved thereby are fully credited to the
 14 cooperative undertaking the construction”.

15 WAIVER OF DEDUCTION ON ASSIGNMENT OF PROPERTY TO
 16 SECRETARY IN LIEU OF FORECLOSURE

17 SEC. 508. Title V of the National Housing Act is
 18 amended by adding at the end thereof the following new
 19 section:

20 “WAIVER OF DEDUCTION ON ASSIGNMENT OF PROPERTY TO
 21 SECRETARY IN LIEU OF FORECLOSURE

22 “SEC. 523. Notwithstanding any other provision of this
 23 Act, from and after the date of the enactment of the Housing

1 and Urban Development Act of 1966, the Secretary, under
2 such terms and conditions as he may approve, may waive
3 all or a part of the 1 per centum deduction otherwise made
4 from insurance benefits with respect to multifamily housing
5 or land development mortgages assigned to him, where the
6 assignment is made at his request in lieu of foreclosure of
7 the mortgage.”

8 ARMED SERVICES HOUSING MORTGAGE INSURANCE

9 PROGRAM

10 SEC. 509. (a) Section 803 (a) of the National Housing
11 Act is amended—

12 (1) by striking out “\$2,300,000,000” and inserting
13 in lieu thereof “\$3,350,000,000”;

14 (2) by striking out “October 1, 1962” and inserting
15 in lieu thereof “October 1, 1969”; and

16 (3) by striking out “twenty-eight thousand” and
17 inserting in lieu thereof “eighty-eight thousand”.

18 (b) Section 803 (b) of such Act is amended—

19 (1) by striking out “\$16,500” each place it ap-
20 pears in paragraph (3) (B) and inserting in lieu thereof
21 “\$17,500”; and

22 (2) by striking out “4½ per centum” in the sen-
23 tence following paragraph (3) (C) and inserting in lieu
24 thereof “5½ per centum”.

1 TITLE VI—MORTGAGE INSURANCE FOR GROUP
2 PRACTICE FACILITIES

3 PURPOSE

4 SEC. 601. It is the purpose of this title to assure the
5 availability of credit on reasonable terms to units or orga-
6 nizations engaged in the group practice of medicine, optom-
7 etry, or dentistry, particularly those in smaller communities
8 and those sponsored by cooperative or other nonprofit
9 organizations, to assist in financing the construction and
10 equipment of group practice facilities.

11 ESTABLISHMENT OF PROGRAM

12 SEC. 602. (a) The National Housing Act is amended
13 by adding at the end thereof the following new title:

14 “TITLE XI—MORTGAGE INSURANCE FOR GROUP
15 PRACTICE FACILITIES

16 “INSURANCE OF MORTGAGES

17 “SEC. 1101. (a) The Secretary is authorized (1) to
18 insure mortgages (including advances on such mortgages
19 during construction), upon such terms and conditions as
20 he may prescribe, in accordance with the provisions of this
21 title, and (2) to make commitments for the insuring of such
22 mortgages prior to the date of their execution or disburse-
23 ment thereon. No mortgage shall be insured under this

1 title after October 1, 1969, except pursuant to a commit-
2 ment to insure issued before that date.

3 “(b) To be eligible for insurance under this title, the
4 mortgage shall (1) be executed by a mortgagor that is
5 a group practice unit or organization, approved by the Sec-
6 retary, (2) be made to and held by a mortgagee ap-
7 proved by the Secretary as responsible and able to service
8 the mortgage properly, and (3) cover a property or project
9 which is approved for mortgage insurance prior to the be-
10 ginning of construction or rehabilitation and is designed for
11 use as a group practice facility which the Secretary finds
12 will be constructed in an economical manner, will not be of
13 elaborate or extravagant design or materials, and will be
14 adequate and suitable for carrying out the purposes of this
15 title. No mortgage shall be insured under this title unless
16 it is shown to the satisfaction of the Secretary that the
17 applicant would be unable to obtain the mortgage loan
18 without such insurance on terms comparable to those speci-
19 fied in subsection (c).

20 “(c) The mortgage shall—

21 “(1) not exceed \$5,000,000;

22 “(2) not exceed 90 per centum of the amount
23 which the Secretary estimates will be the value of the
24 property or project when construction or rehabilitation
25 is completed. The value of the property may include

1 the land and the proposed physical improvements, equip-
2 ment, utilities within the boundaries of the property,
3 architects' fees, taxes, and interest accruing during con-
4 struction or rehabilitation, and other miscellaneous
5 charges incident to construction or rehabilitation and
6 approved by the Secretary;

7 “(3) have a maturity satisfactory to the Secretary
8 but not to exceed twenty-five years, and provide for
9 complete amortization of the principal obligation by
10 periodic payments within such term as the Secretary
11 shall prescribe; and

12 “(4) bear interest (exclusive of premium charges
13 for insurance, and service charges if any) at a rate of
14 not to exceed 5 per centum per annum of the amount of
15 the principal obligation outstanding at any time, or not
16 to exceed such rate (not in excess of 6 per centum per
17 annum) as the Secretary finds necessary to meet the
18 mortgage market.

19 “(d) Any contract of insurance executed by the Secre-
20 tary under this title shall be conclusive evidence of the
21 eligibility of the mortgage for insurance, and the validity of
22 any contract for insurance so executed shall be incontestable
23 in the hands of an approved mortgagee from the date of the
24 execution of such contract, except for fraud or misrepresenta-
25 tion on the part of such approved mortgagee.

1 “(e) Each mortgage insured under this title shall con-
2 tain an undertaking (in accordance with regulations pre-
3 scribed under this title and in force at the time the mortgage
4 is approved for insurance) to the effect that, except as
5 authorized by the Secretary and the mortgagee, the prop-
6 erty will be used as a group practice facility until the
7 mortgage has been paid in full or the contract of insurance
8 otherwise terminated.

9 “(f) No mortgage shall be insured under this title
10 unless the mortgagor and the mortgagee certify (1) that
11 they will keep such records relating to the mortgage trans-
12 action and indebtedness, to the construction of the facility
13 covered by the mortgage, and to the use of such facility as
14 a group practice facility as are prescribed by the Secretary
15 at the time of such certification, (2) that they will make
16 such reports as may from time to time be required by the
17 Secretary pertaining to such matters, and (3) that the
18 Secretary shall have access to and the right to examine and
19 audit such records.

20 “PREMIUMS

21 “SEC. 1102. The Secretary shall fix premium charges
22 for the insurance of mortgages under this title, but such
23 charges shall not be more than 1 per centum per annum
24 of the amount of the principal obligation of the mortgage

1 outstanding at any time, without taking into account delin-
2 quent payments or prepayments. In addition to the pre-
3 mium charge, the Secretary is authorized to charge and col-
4 lect such amounts as he may deem reasonable for the analysis
5 of a proposed project and the appraisal and inspection of
6 the property and improvements. Where the principal obli-
7 gation of any mortgage accepted for insurance under this
8 title is paid in full prior to the maturity date, the Secretary
9 is authorized to require the payment by the mortgagee of
10 an adjusted premium charge. This charge shall be in such
11 amount as the Secretary determines to be equitable, but not
12 in excess of the aggregate amount of the premium charges
13 that the mortgagee would otherwise have been required to
14 pay if the mortgage had continued to be insured until the
15 maturity date. Where such prepayment occurs, the Secre-
16 tary is authorized to refund to the mortgagee for the account
17 of the mortgagor all, or such portion as he shall determine
18 to be equitable, of the current unearned premium charges
19 theretofore paid. Premium charges fixed under this section
20 shall be payable by the mortgagee either in cash, or in
21 debentures which are the obligation of the General Insurance
22 Fund at par plus accrued interest, at such times and in such
23 manner as may be prescribed by the Secretary.

1 “PAYMENT OF INSURANCE BENEFITS

2 “SEC. 1103. The mortgagee shall be entitled to receive
3 the benefits of the insurance under this title in the manner
4 provided in subsection (g) of section 207 with respect to
5 mortgages insured under that section. For such purpose the
6 provisions of subsections (g), (h), (i), (j), (k), (l), and
7 (n) of section 207 shall apply to mortgages insured under
8 this title and all references in such subsections to section
9 207 shall be deemed to refer to this title.

10 “REGULATIONS

11 “SEC. 1104. The Secretary shall prescribe such regu-
12 lations as may be necessary to carry out this title, after con-
13 sulting with the Surgeon General of the Public Health
14 Service with respect to any health or medical aspects of
15 the program under this title which may be involved in
16 such regulations.

17 “ADMINISTRATION

18 “SEC. 1105. (a) At the request of individuals or orga-
19 nizations operating or contemplating the operation of group
20 practice facilities (as defined in section 1106 (1)), the Sec-
21 retary may provide or obtain technical assistance in the
22 planning for and construction of such facilities.

23 “(b) With a view to avoiding unnecessary duplication
24 of existing staffs and facilities of the Federal Government,
25 the Secretary is authorized to utilize available services and

1 facilities of any agency of the Federal Government in carry-
2 ing out the provisions of this title, and to pay for such serv-
3 ices and facilities, either in advance or by way of reimburse-
4 ment, in accordance with an agreement between the Secre-
5 tary and the head of such agency.

6 "DEFINITIONS

7 "SEC. 1106. For the purposes of this title—

8 "(1) The term 'group practice facility' means a facility
9 in a State for the provision of preventive, diagnostic, and
10 treatment services to ambulatory patients (in which patient
11 care is under the professional supervision of persons licensed
12 to practice medicine in the State or, in the case of optometric
13 care or treatment, is under the professional supervision of
14 persons licensed to practice optometry in the State, or, in
15 the case of dental diagnosis or treatment, is under the pro-
16 fessional supervision of persons licensed to practice dentistry
17 in the State) and which is primarily for the provision of such
18 health services by a medical or dental group.

19 "(2) The term 'medical or dental group' means a
20 partnership or other association or group of persons licensed
21 to practice medicine or surgery in the State, or of persons
22 licensed to practice optometry in the State, or of persons
23 licensed to practice dentistry in the State, or of any combi-
24 nation of such persons, who, as their principal professional
25 activity and as a group responsibility, engage or undertake

1 to engage in the coordinated practice of their profession pri-
2 marily in one or more group practice facilities, and who (in
3 this connection) share common overhead expenses (if and to
4 the extent such expenses are paid by members of the group) ,
5 medical and other records, and substantial portions of the
6 equipment and the professional, technical, and administra-
7 tive staffs, and which partnership or association or group is
8 composed of at least such professional personnel and make
9 available at least such health services as may be provided
10 in regulations prescribed under this title.

11 “(3) The term ‘group practice unit or organization’
12 means—

13 “(A) a private nonprofit agency or organization
14 undertaking to provide, directly or through arrange-
15 ments with a medical or dental group, comprehensive
16 medical care, optometric care, or dental care, or any
17 combination thereof, which may include hospitalization,
18 to members or subscribers primarily on a group practice
19 prepayments basis; or

20 “(B) a private nonprofit agency or organization
21 established for the purpose of improving the availability
22 of medical, optometric, or dental care in the community
23 or having some function or functions related to the
24 provision of such care, which will, through lease or
25 other arrangement, make the group practice facility

1 with respect to which assistance has been requested
2 under this title available to a medical or dental group
3 for use by it.

4 “(4) The term ‘nonprofit organization’ means a corpo-
5 ration, association, foundation, trust, or other organization
6 no part of the net earnings of which inures, or may lawfully
7 inure, to the benefit of any private shareholder or individual
8 except, in the case of an organization the purposes of which
9 include the provision of personal health services to its mem-
10 bers or subscribers or their dependents under a plan of such
11 organization for the provision of such services to them
12 (which plan may include the provision of other services
13 or insurance benefits to them), through the provision of
14 such health services (or such other services or insurance
15 benefits) to such members or subscribers or dependents
16 under such plan.

17 “(5) The term ‘State’ includes the Commonwealth of
18 Puerto Rico, Guam, the Virgin Islands, American Samoa,
19 and the District of Columbia.

20 “(6) The term ‘mortgage’ means a first mortgage on
21 real estate in fee simple, or on the interest of either the
22 lessor or lessee thereof (A) under a lease for not less than
23 ninety-nine years which is renewable, or (B) under a lease
24 having a period of not less than fifty years to run from the

1 date the mortgage was executed. The term 'first mortgage'
2 means such classes of first liens as are commonly given to
3 secure advances (including but not limited to advances dur-
4 ing construction) on, or the unpaid purchase price of, real
5 estate under the laws of the State in which the real estate is
6 located, together with the credit instrument or instruments,
7 if any, secured thereby, and any mortgage may be in the
8 form of one or more trust mortgages or mortgage indentures
9 or deeds of trust, securing notes, bonds, or other credit in-
10 struments, and, by the same instrument or by a separate in-
11 strument, may create a security interest in initial equipment,
12 whether or not attached to the realty.

13 “(7) The term 'mortgagee' means the original lender
14 under a mortgage, and his or its successors and assigns, and
15 includes the holders of credit instruments issued under a
16 trust mortgage or deed of trust pursuant to which such
17 holders act by and through a trustee named therein.

18 “(8) The term 'mortgagor' means the original bor-
19 rower under a mortgage and his or its successors and
20 assigns.”

21 (b) The first sentence of section 227 of such Act is
22 amended by inserting after “new or rehabilitated multifamily
23 housing” the following: “or a property or project described
24 in title XI”.

LABOR STANDARDS

SEC. 603. Section 212 (a) of the National Housing Act is amended by adding at the end thereof the following new sentence: "The provisions of this section shall also apply to the insurance of any mortgage under title XI."

AMENDMENTS TO OTHER FEDERAL LAWS

SEC. 604. (a) (1) The sixth sentence of paragraph "Seventh" of section 5136 of the Revised Statutes, as amended (12 U.S.C. 24), is amended by inserting after "Federal Home Loan Banks," the following: "or obligations which are insured by the Secretary of Housing and Urban Development under title XI of the National Housing Act".

(2) The third sentence of the first paragraph of section 24 of the Federal Reserve Act, as amended (12 U.S.C. 371), is amended by inserting after "or sections 1471-1484 of title 42," the following: "or which are insured by the Secretary of Housing and Urban Development pursuant to title XI of the National Housing Act,".

(b) Subsection (a) of section 304 of the Trust Indenture Act of 1939 (15 U.S.C. 77ddd) is amended by striking out the word "or" at the end of paragraph (8) ; by striking out the period at the end of paragraph (9) and inserting in

1 lieu thereof a semicolon and the word “or”; and by adding
2 after paragraph (9) a new paragraph as follows:

3 “(10) any security issued under a mortgage or
4 trust deed indenture as to which a contract of insurance
5 under title XI of the National Housing Act is in effect;
6 and any such security shall be deemed to be exempt from
7 the provisions of the Securities Act of 1933 to the same
8 extent as though such security were specifically enumer-
9 ated in section 3 (a) (2), as amended, of the Securities
10 Act of 1933 (15 U.S.C. 77c (a) (2)).”

11 (c) Section 263 of chapter X of the Bankruptcy Act
12 (11 U.S.C. 663) is amended by adding at the end thereof
13 the following: “Nothing contained in this chapter shall be
14 deemed to affect or apply to the creditors of any corporation
15 under a mortgage insured pursuant to title XI of the National
16 Housing Act.”

17 TITLE VII—RURAL HOUSING

18 SEC. 701. Section 501 (a) of the Housing Act of 1949
19 is amended by striking out “previously occupied” wherever
20 it appears.

21 SEC. 702. Section 502 (a) of the Housing Act of 1949
22 is amended by striking out “In cases of applicants who are
23 elderly persons, the” and inserting in lieu thereof “The”.

24 SEC. 703. Section 504 of the Housing Act of 1949 is

1 amended by striking out “\$1,000” and inserting in lieu
2 thereof “\$1,500”.

3 SEC. 704. (a) Section 515 (a) of the Housing Act of
4 1949 is amended by inserting after “income” the following:
5 “or other persons and families of low income”.

6 (b) Section 515 (d) (1) of such Act is amended by
7 striking out “elderly persons or elderly families” and insert-
8 ing in lieu thereof “occupants eligible under this section”.

9 TITLE VIII—MISCELLANEOUS

10 HOUSING FOR THE ELDERLY OR HANDICAPPED

11 SEC. 801. Section 105 (b) of the Housing and Urban
12 Development Act of 1965 is amended—

13 (1) by inserting “(1)” after “(b)”;

14 (2) by striking out “Effective with respect to loans
15 made on or after the date of the enactment of this Act,
16 section” and inserting in lieu thereof “Section”; and

17 (3) by adding at the end thereof a new paragraph
18 as follows:

19 “(2) The interest rate provided by the amendment
20 made in paragraph (1) shall be applicable (A) with respect
21 to any loan made on or after August 10, 1965, and (B) with
22 respect to any loan made prior to such date if construction of
23 the housing or related facilities to be assisted by such loan
24 was not commenced prior to such date, and not completed

1 prior to the filing of an application for the benefits of such
2 interest rate.”

3 LOW-RENT HOUSING IN PRIVATE ACCOMMODATIONS FOR
4 DISPLACED FAMILIES—TERM OF LEASE

5 SEC. 802. Section 23 (d) of the United States Housing
6 Act of 1937 is amended by inserting after “thirty-six
7 months” the following: “ (except that it may be for a term of
8 up to sixty months in any case in which the public housing
9 agency determines that the housing to be leased thereunder
10 is needed for displaced families) ”.

11 APPLICATION OF DAVIS-BACON ACT TO LOW-RENT HOUS-
12 ING PROJECTS CONSISTING OF PRIVATELY BUILT HOUS-
13 ING

14 SEC. 803. Section 16 (2) of the United States Housing
15 Act of 1937 is amended by inserting after “the development
16 of the project involved” the following: “ (including a project
17 for the use of privately built housing in any case where the
18 public housing agency and the builder or sponsor enter into an
19 agreement for such use before construction is commenced) ”.

20 APPLICATION OF DAVIS-BACON ACT TO MULTIFAMILY
21 HOUSING CONSTRUCTION IN URBAN RENEWAL AREAS

22 SEC. 804. Section 105 of the Housing Act of 1949 is
23 amended by adding at the end thereof the following new
24 subsection:

25 “ (f) All laborers and mechanics employed by contrac-

1 tors or subcontractors in the construction of any multifamily
2 housing (as defined for purposes of this subsection by the
3 Secretary of Housing and Urban Development or his
4 designee) which may be involved in the redevelopment of the
5 urban renewal area, and which is not subject to the provisions
6 of section 212 of the National Housing Act or to other pro-
7 visions of Federal law imposing similar standards, will be
8 paid wages at rates not less than those prevailing on similar
9 construction in the locality as determined by the Secretary
10 of Labor in accordance with the Davis-Bacon Act, as
11 amended (40 U.S.C. 276a—276a-5). No contract for loan
12 or capital grant shall be entered into under this title with
13 respect to an urban renewal area whose redevelopment will
14 involve the construction of such housing without first obtain-
15 ing adequate assurance that the labor standards imposed by
16 the preceding sentence (or, in the case of housing which is
17 subject to the provisions of section 212 of the National Hous-
18 ing Act or to other provisions of Federal law imposing
19 similar standards, the labor standards imposed by such pro-
20 visions) will be maintained upon the construction work.
21 The Secretary of Labor shall have, with respect to the labor
22 standards specified in this subsection, the authority and func-
23 tions set forth in Reorganization Plan Numbered 14 of 1950
24 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15), and sec-

1 tion 2 of the Act of June 13, 1934, as amended (48 Stat.
2 948; 40 U.S.C. 276c).”

3 FEDERAL NATIONAL MORTGAGE ASSOCIATION PARTICIPA-
4 TION IN FEDERAL HOUSING ADMINISTRATION-INSURED
5 CONSTRUCTION FINANCING

6 SEC. 805. Section 305 of the National Housing Act
7 is amended by adding at the end thereof the following
8 new subsection:

9 “(i) In any case where the Association makes a com-
10 mitment to purchase under this section a mortgage insured
11 under section 213, or a mortgage executed by a cooperative
12 or a private nonprofit corporation or association and insured
13 under section 221 (d) (3), such commitment may provide
14 for participation by the Association in the making of insured
15 advances on the mortgage during construction. Such par-
16 ticipation shall be limited to 95 per centum of the amount
17 of each of the advances involved, and the mortgagee pro-
18 viding the balance of such amount shall perform all neces-
19 sary servicing and processing of such advances until the
20 final insurance endorsement of the mortgage.”

21 PLANNING GRANTS FOR RESEARCH ON STATE STATUTES
22 AFFECTING LOCAL GOVERNMENTS

23 SEC. 806. Section 701 (b) of the Housing Act of 1954
24 is amended by inserting before the period at the end thereof

1 the following: “, and for grants to assist in the conduct of
2 studies and research relating to needed revisions in State
3 statutes which create, govern, or control local governments
4 and local governmental operations”.

5 USE OF OPEN-SPACE GRANTS FOR DEVELOPMENT OF EXIST-
6 ING OPEN-SPACE LAND

7 SEC. 807. (a) Section 701 (b) of the Housing Act of
8 1961 is amended by inserting “, for the development and re-
9 development of existing parks and other open space,” after
10 “the Nation’s urban areas”.

11 (b) (1) The first sentence of section 702 (a) of such
12 Act is amended by inserting before the period at the end
13 thereof the following: “, or the development or redevelop-
14 ment, for open-space uses, of existing open-space land”.

15 (2) The second sentence of section 702 (a) of such Act
16 is amended by inserting before the period at the end thereof
17 the following: “or such development or redevelopment”.

18 PROHIBITION AGAINST OPEN-SPACE GRANTS TO CERTAIN
19 COMMUNITIES

20 SEC. 808. Section 702 of the Housing Act of 1961 is
21 amended by adding at the end thereof the following new
22 subsection:

23 “(f) No grant under this title shall be made to any
24 community having a median family income of over \$15,000.”

1 APPLYING ADVANCES IN TECHNOLOGY TO HOUSING AND
2 URBAN DEVELOPMENT

3 SEC. 809. (a) To encourage and assist the housing
4 industry to continue to reduce the cost and improve the
5 quality of housing by the application to home construction
6 of advances in technology, and to encourage and assist the
7 application of advances in technology to urban development
8 activities, the Secretary of Housing and Urban Development
9 is directed—

10 (1) to conduct research and studies to test and dem-
11 onstrate new and improved techniques and methods of
12 applying advances in technology to housing construc-
13 tion, rehabilitation, and maintenance, and urban devel-
14 opment activities; and

15 (2) to encourage and promote the acceptance and
16 application of new and improved techniques and methods
17 of constructing, rehabilitating, and maintaining housing
18 and the application of advances in technology to urban
19 development activities by all segments of the housing
20 industry, communities, industries engaged in urban de-
21 velopment activities, and the general public.

22 (b) Research and studies conducted under this section
23 shall be designed to test and demonstrate the applicability
24 to housing construction, rehabilitation, and maintenance, and

1 urban development activities, of advances in technology re-
2 lating to (1) design concepts, (2) construction and rehabil-
3 itation methods, (3) manufacturing processes, (4) materials
4 and products, and (5) building components.

5 (c) The Secretary is authorized to carry out the
6 research and studies authorized by this section either directly,
7 or by contract (for work to continue not more than two
8 years from the date of the contract) with public or private
9 bodies or agencies, or by working agreement with depart-
10 ments and agencies of the Federal Government, as he may
11 determine to be desirable.

12 (d) There are hereby authorized to be appropriated
13 such sums as may be necessary to carry out the provisions of
14 this section. All funds so appropriated shall remain avail-
15 able until expended when so provided in appropriation Acts.

16 (e) Nothing contained in this section shall limit any
17 authority of the Secretary under title III of the Housing
18 Act of 1948, section 602 of the Housing Act of 1956, or
19 any other provision of law.

20 PAYMENTS WITH RESPECT TO CERTAIN PROPERTIES AT OR

21 NEAR MILITARY BASES ORDERED TO BE CLOSED

22 SEC. 810. Section 108 of the Housing and Urban De-
23 velopment Act of 1965 is amended by redesignating subsec-
24 tions (e) and (f) as subsections (f) and (g), respectively,

1 and by inserting after subsection (d) the following new sub-
 2 section:

3 “(e) In any case in which a property could have been
 4 acquired by the Secretary of Defense in accordance with the
 5 preceding provisions of this section, but the owner of such
 6 property had instead sold it to another person (after the an-
 7 nouncement of the intention of the Department of Defense
 8 to close all or part of the base or installation) at a price less
 9 than its fair market value immediately prior to such announce-
 10 ment or lost it through foreclosure (after such announce-
 11 ment), the Secretary of Defense shall upon application pay
 12 to such owner as partial compensation for losses sustained
 13 in such sale or as a result of such foreclosure an amount equal
 14 to the difference between the fair market value of the prop-
 15 erty immediately prior to such announcement and the fair
 16 market value of the property at the time of such sale or
 17 foreclosure.”

18 STUDY CONCERNING RELIEF OF HOMEOWNERS IN

19 PROXIMITY TO AIRPORTS

20 SEC. 811. Section 1113 of the Housing and Urban
 21 Development Act of 1965 is amended—

22 (1) by inserting “(a)” after “SEC. 1113.”;

23 (2) by striking out “one year after the date of the
 24 enactment of this Act” and inserting in lieu thereof

“six months after the date of the enactment of the Housing and Urban Development Act of 1966”; and

(3) by adding at the end thereof the following new subsection:

“(b) There is authorized to be appropriated the sum of \$100,000 to carry out subsection (a).”

HYDROLOGY RESEARCH FOR URBAN DEVELOPMENT

SEC. 812. (a) The Congress finds that there is an increasingly severe impact upon the national economy occasioned by storm water damages and costs of storm drainage control in urban and metropolitan areas; that engineering technology directed toward the specialized storm drainage problems of urbanized areas has not kept pace with the growth of drainage problems in such areas; and that effective areawide comprehensive planning requires efficient planning and design of all elements of urban drainage systems.

(b) The Secretary of Housing and Urban Development is authorized—

(1) by contract with public or private agencies to conduct studies, investigations, research, and demonstrations to develop and improve all aspects of the science and technology of urban hydrology as it relates to storm drainage systems for urban and metropolitan areas and to collection sewers for such areas, and by working agreements with other departments and agen-

1 cies of the Federal Government to conduct studies, in-
2 vestigations, research, and demonstrations to develop
3 and improve all aspects of the science and technology
4 of urban hydrology;

5 (2) to evaluate the studies, investigations, research,
6 and demonstrations authorized by this section; and

7 (3) to make available, through publications and
8 other appropriate means, the information resulting from
9 such studies, investigations, research, and demonstra-
10 tions.

11 (c) The Secretary shall annually submit a report to the
12 President and to the Congress concerning the studies, investi-
13 gations, research, and demonstrations undertaken under this
14 section with such recommendations as he deems desirable for
15 additional legislation to develop the science of urban hydrol-
16 ogy and its application.

17 (d) There are hereby authorized to be appropriated such
18 sums as may be necessary to carry out the provisions of this
19 section. Appropriations authorized under this section shall
20 remain available until expended when so provided in appro-
21 priation Acts.

22 (e) Nothing contained in this section shall limit any
23 authority of the Secretary under title III of the Housing Act
24 of 1948, section 602 of the Housing Act of 1956, or any
25 other provision of law.

1 SPECIFIC URBAN RENEWAL PROJECTS

2 SEC. 813. (a) Notwithstanding any other provision
3 of law, moneys heretofore or hereafter expended by the
4 Massachusetts Institute of Technology for the acquisition
5 of real property (and related expenditures for demolition
6 and relocation) included in the overall development plans
7 proposed by such Institute and utilized, or to be utilized,
8 in connection with new facilities of such Institute within
9 one mile of urban renewal project Mass. R-107 (Kendall
10 Square) shall, if otherwise eligible and if made prior to
11 final payment of the capital grant for such project, be
12 counted as local grants-in-aid toward such project.

13 (b) Notwithstanding the extent to which the munic-
14 ipal police and courts building, the arts center, and the
15 municipal library building, located within or adjacent to
16 the central Little Rock urban renewal project (Arkan-
17 sas R-12) in Little Rock, Arkansas, may benefit areas
18 other than the urban renewal area, and notwithstanding
19 the date of the commencement of construction of each such
20 facility, expenses incurred by the city of Little Rock in
21 constructing such facilities shall, to the extent otherwise
22 eligible, be counted as local grants-in-aid toward such
23 project.

24 (c) Notwithstanding the date of the commencement of
25 construction of the Roosevelt School, Mary Manse College,

1 Mercy Hospital, and Saint Vincent's Hospital, in Toledo,
2 Ohio, local expenditures made in connection with such
3 schools and hospitals shall, to the extent otherwise eligible,
4 be counted as local grants-in-aid toward federally assisted
5 urban renewal projects in Toledo that will be served by such
6 schools and hospitals.

7 (d) Notwithstanding the extent to which the civic cen-
8 ter to be built within the Civic Center urban renewal project
9 (Texas R-83) in San Antonio, Texas, may benefit areas
10 other than the urban renewal area, expenses incurred by the
11 city of San Antonio in constructing such center shall, to the
12 extent otherwise eligible, be counted as local grants-in-aid
13 toward such project.

14 (e) Notwithstanding the extent to which the proposed
15 Community Services Center located within or adjacent to
16 the Buttermilk-Bottoms-North Avenue urban renewal proj-
17 ect (Ga. R-91) in Atlanta, Georgia, may benefit areas other
18 than the urban renewal area, expenses incurred by the city
19 of Atlanta in constructing such facilities shall, to the extent
20 otherwise eligible, be counted as local grants-in-aid toward
21 such project.

22 (f) There shall be counted as local grants-in-aid to-
23 ward the West Central urban renewal project (Michigan
24 R-85), in Albion, Michigan, to the extent otherwise eli-
25 gible—

1 (1) local expenditures made in connection with the
2 construction of the Austin Elementary School and the
3 installation of certain water distribution system facilities,
4 in the city of Albion, notwithstanding the date of the
5 commencement of such construction and such installa-
6 tion; and

7 (2) expenditures made in connection with the con-
8 struction of a new hospital plant in the city of Albion,
9 notwithstanding the distance between such hospital plant
10 (or the existing hospital in Albion) and the urban
11 renewal project.

12 (g) Notwithstanding the date of the commencement of
13 construction of the Florence Primary School in Garden City,
14 Michigan, local expenditures made in connection with such
15 school shall, to the extent otherwise eligible, be counted as
16 local grants-in-aid for the Cherry Hill urban renewal proj-
17 ect (Michigan R-46).

18 (h) Notwithstanding the date of the commencement
19 of construction of the Beale Street interceptor sewer in
20 Memphis, Tennessee, local expenditures made in connection
21 with such sewer shall, to the extent otherwise eligible, be
22 counted as local grants-in-aid to the medical center urban
23 renewal area II project (Tennessee R-68), the medical
24 center urban renewal area III project (Tennessee R-75),

1 and the Beale Street urban renewal area project (Ten-
2 nessee R-77).

3 (i) Notwithstanding the extent to which the Portland
4 Public Auditorium, located within or adjacent to the South
5 Auditorium urban renewal project Oregon R-1 in Portland,
6 Oregon, may benefit areas other than the urban renewal
7 area, expenses incurred by the city of Portland in an amount
8 not exceeding \$4,000,000 for rehabilitating that facility
9 shall, to the extent otherwise eligible, be counted as local
10 grants-in-aid toward such project.

11 (j) Notwithstanding the extent to which the civic cen-
12 ter and sports arena proposed to be built in or adjacent to
13 urban renewal project Mass. R-7 (North End) in Spring-
14 field, Massachusetts, may benefit areas other than the urban
15 renewal area, expenses incurred by the city of Springfield
16 in constructing such center and arena shall, to the extent
17 otherwise eligible, be counted as local grants-in-aid toward
18 such project.

19 (k) Notwithstanding the extent to which the Coliseum-
20 Convention Center proposed to be built within the Church
21 Street redevelopment and renewal project (Connecticut
22 R-2) in New Haven, Connecticut, may benefit areas other
23 than the urban renewal area, expenses incurred by the city
24 of New Haven in constructing such Coliseum-Convention

1 Center shall, to the extent otherwise eligible, be counted as
2 a grant-in-aid toward such project.

3 (1) Notwithstanding the extent to which the water
4 works improvement and extension project of the city of
5 Olathe, Kansas, may benefit areas other than the urban
6 renewal area, expenses incurred by the city of Olathe in
7 constructing such project shall, to the extent otherwise eligi-
8 ble, be counted as local grants-in-aid toward the Olathe urban
9 renewal project (Kansas R-31).

10 (m) Notwithstanding the provisions of section 110(c)
11 of the Housing Act of 1949, the area in Hackensack, New
12 Jersey, hereinafter described shall be eligible for assistance
13 under title I of such Act on the same basis as a built-up
14 blighted area. Such area, known as the University Park
15 urban renewal area and being an area of approximately 185
16 acres, is bounded generally as follows: On the north, by
17 State Highway Route 4; on the east, by the Hackensack
18 River; on the south, by Passaic Street and its prolongation
19 easterly to the Hackensack River; and on the west, by
20 Main Street, the New Jersey-New York Railroad, De Voe
21 Place, and Hackensack Avenue.

22 (n) Notwithstanding the date of the commencement of
23 construction of a certain storm drainage system in Sacra-
24 mento, California, local expenditures made in connection

1 with such storm drainage system shall, to the extent other-
2 wise eligible, be counted as local grants-in-aid toward the
3 Capitol Mall Riverfront urban renewal project (California
4 R-67) .

5 (o) Notwithstanding the extent to which the Hampden
6 Bridge may benefit areas other than the area originally desig-
7 nated for the urban renewal project Colorado R-19 (C)
8 (South Platte River) in Sheridan, Colorado, expenses in-
9 curred by the city of Sheridan in repairing such bridge shall,
10 to the extent otherwise eligible, be counted as local grants-
11 in-aid toward any federally assisted urban renewal project
12 undertaken for that same area.

13 (p) Notwithstanding the extent to which the Civic
14 Center and the City-County-Justice Building to be built
15 within the Central Business District Numbered 1 urban
16 renewal project (Michigan R-131) in Saginaw, Michigan,
17 may benefit areas other than the urban renewal area, ex-
18 penses incurred by the city of Saginaw in connection with
19 such center and building shall, to the extent otherwise eligi-
20 ble, be counted as local grants-in-aid toward such project.

21 (q) Notwithstanding the extent to which the down-
22 town civic center, municipal auditorium-music hall, Tivoli
23 Gardens, and cultural complex proposed to be built in
24 the urban renewal project Oklahoma R-26 (GN) (central
25 business district) in Oklahoma City, Oklahoma, may benefit

1 areas other than the urban renewal area, expenses incurred
2 by the city of Oklahoma City in the development and con-
3 struction of such facilities shall, to the extent otherwise eligi-
4 ble, be counted as local grants-in-aid toward such project.

5 (r) Notwithstanding the extent to which the fire and
6 police headquarters within the Slater urban renewal project
7 (Rhode Island R-11) in Pawtucket, Rhode Island, and
8 the public works depot replacing the municipal garage in
9 that project may benefit areas other than the urban renewal
10 area, expenses incurred by the city of Pawtucket in connec-
11 tion with such facilities shall, to the extent otherwise eligible,
12 be counted as local grants-in-aid toward such project: *Pro-*
13 *vided*, That the expenses which may be so counted shall not
14 exceed \$500,000 in connection with such fire and police
15 headquarters and \$250,000 in connection with such public
16 works depot.

17 (s) Notwithstanding the extent to which the Sinclair
18 Community College to be built within urban renewal proj-
19 ects Ohio R-15 and R-58 in Dayton, Ohio, and the Mont-
20 gomery County Courts-Jail Building recently completed ad-
21 jacent to such urban renewal projects, may benefit areas
22 other than the urban renewal areas, expenses incurred by
23 the Montgomery County Community College District and
24 the city of Dayton in constructing such college shall be
25 counted as local grant-in-aid toward any federally assisted

1 urban renewal project in Dayton, and local expenditures
2 made in connection with such building shall be counted as
3 local grants-in-aid toward such projects R-15 and R-58, to
4 the extent such expenses and expenditures are otherwise
5 eligible.

6 USE OF CERTAIN LANDS FOR CIVIL DEFENSE PURPOSES

7 SEC. 814. Section 2 of the Act entitled "An Act to
8 provide for the conveyance of a tract of land in Prince
9 Georges County, Maryland, to the State of Maryland for
10 use as a site for a National Guard Armory and for training
11 the National Guard or for other military purposes", approved
12 August 10, 1949 (63 Stat. 592), is amended by striking
13 out "The land" and inserting in lieu thereof "(a) Except as
14 provided in subsection (b) of this section, the land" and by
15 adding at the end thereof the following new subsection:

16 "(b) The Secretary of Housing and Urban Develop-
17 ment shall execute the necessary instrument or instruments
18 to provide that a certain portion of land, not to exceed two
19 acres, on the easterly side of the land described in the first
20 section of this Act, as more particularly determined and
21 designated by the Secretary of the Army, may be used for
22 civil defense or other emergency preparedness purposes or
23 the purposes stated in subsection (a) and that such use
24 shall not cause the reverter clause set forth herein to become
25 operable."

1 MISCELLANEOUS AND TECHNICAL AMENDMENTS

2 SEC. 815. (a) Section 106 (d) of the Housing Act of
3 1949 is repealed.

4 (b) (1) Section 113 (a) of the Housing Act of 1949
5 and section 701 (a) (3) of the Housing Act of 1954 are
6 amended by inserting “(or under any Act supplementary
7 thereto)” after “Area Redevelopment Act”.

8 (2) Section 113 (d) of the Housing Act of 1949 is
9 amended by inserting “(or Act supplementary thereto)”
10 after “Area Redevelopment Act”.

11 (c) Section 227 (a) of the National Housing Act is
12 amended by striking out “subsection (b) (2)” in clause
13 (vi) and inserting in lieu thereof “subsection (b)”.

14 (d) The last sentence of section 305 (e) of the National
15 Housing Act is amended by striking out “supplementing”
16 and inserting in lieu thereof “supplementary”.

17 (e) Section 308 of the National Housing Act is amended
18 by striking out “(a)”.

19 (f) Section 512 of the National Housing Act is amended
20 by striking out “or IX” and inserting in lieu thereof “IX,
21 X, or XI”.

22 (g) Section 1001 (c) of the National Housing Act is
23 amended by striking out “‘mortgage’” and inserting in lieu
24 thereof “‘mortgagee’”.

1 CONFORMING NOMENCLATURE IN STATUTES TO DEPART-
2 MENT OF HOUSING AND URBAN DEVELOPMENT ACT

3 SEC. 816. (a) (1) The National Housing Act is
4 amended—

5 (A) by striking out “Federal Housing Adminis-
6 tration” each place it appears and inserting in lieu
7 thereof “Department of Housing and Urban Develop-
8 ment”;

9 (B) by striking out “Federal Housing Commis-
10 sioner” each place it appears and inserting in lieu
11 thereof “Secretary of Housing and Urban Develop-
12 ment”;

13 (C) by striking out “Commissioner” each place it
14 appears and inserting in lieu thereof “Secretary”; and

15 (D) by striking out “Commissioner’s” each place
16 it appears and inserting in lieu thereof “Secretary’s”.

17 (2) The heading of section 1 of such Act is amended
18 by striking out “CREATION OF FEDERAL HOUSING ADMINIS-
19 TRATION” and inserting in lieu thereof “ADMINISTRATIVE
20 PROVISIONS”.

21 (3) Section 1 of such Act is amended—

22 (A) by striking out the first paragraph;

23 (B) by inserting immediately before “may estab-
24 lish” in the first sentence of the second paragraph the

1 following: “(hereinafter referred to as the ‘Secre-
2 tary’)”; and

3 (C) by striking out “Administration” in the last
4 sentence of the second paragraph and inserting in lieu
5 thereof “Department”.

6 (4) Sections 2 (c) (2), 204 (g), 604 (g), and 904 (f)
7 of such Act are amended by striking out “the Commissioner
8 or by any Assistant Commissioner” and inserting in lieu
9 thereof “an officer”.

10 (5) The first sentence of section 206 of such Act is
11 amended by striking out “shall be deposited” and inserting
12 in lieu thereof “related to insurance under section 203 shall
13 be deposited”.

14 (6) The first sentence of section 209 of such Act is
15 amended by adding “in connection with the insurance pro-
16 grams” after “made”.

17 (7) Section 220 (d) (1) (A) of such Act is amended—

18 (A) by striking out “Housing and Home Finance
19 Administrator” each place it appears and inserting in lieu
20 thereof “Secretary of Housing and Urban Develop-
21 ment”;

22 (B) by striking out “Administrator” each place it
23 appears and inserting in lieu thereof “Secretary”;

24 (C) by striking out “certification to the Commis-

1 sioner” and inserting in lieu thereof “determination”;
2 and

3 (D) by striking out “certified to the Commissioner”
4 each place it appears and inserting in lieu thereof
5 “determined”.

6 (8) Section 223 (a) (2) of such Act is amended—

7 (A) by striking out “Public Housing Administra-
8 tion” and inserting in lieu thereof “Secretary of Housing
9 and Urban Development”; and

10 (B) by striking out “said Administration” and in-
11 serting in lieu thereof “Secretary”.

12 (9) The heading of section 226 of such Act is amended
13 by striking out “FHA”.

14 (10) Section 302 (a) of such Act is amended by strik-
15 ing out “a constituent agency of the Housing and Home
16 Finance Agency” and inserting in lieu thereof “in the De-
17 partment of Housing and Urban Development”.

18 (11) Section 306 (e) of such Act is amended by
19 striking out “Housing and Home Finance Agency or its
20 Administrator, or by such Agency’s constituent units or
21 agencies or the heads thereof” and inserting in lieu thereof
22 “Secretary of Housing and Urban Development”.

17 serting in lieu thereof “Secretary of Housing and Urban
18 Development”.

19 (5) Section 108 (d) of such Act is amended—

20 (A) by striking out “Federal Housing Commis-
21 sioner, and the Federal Housing Commissioner” and
22 inserting in lieu thereof “Secretary of Housing and
23 Urban Development, and the Secretary”; and

24 (B) by striking out “the Commissioner” and in-
25 serting in lieu thereof “the Secretary”.

1 (6) Section 301 of such Act is amended by striking out
2 “Housing and Home Finance Administrator” in the third
3 sentence of subsection (a) and inserting in lieu thereof “Sec-
4 retary of Housing and Urban Development”.

5 (7) Section 315 of such Act is amended—

6 (A) by striking out “Housing and Home Finance
7 Administrator” in subsection (a) (8) and inserting in
8 lieu thereof “Secretary of Housing and Urban Develop-
9 ment”;

10 (B) by striking out “Housing and Home Finance
11 Administrator and Public Housing Commissioner are”
12 in subsections (b) (1) and (b) (2) and inserting in
13 lieu thereof “Secretary of Housing and Urban Develop-
14 ment is”; and

15 (C) by striking out “Public Housing Administra-
16 tion” in subsection (b) (1) and inserting in lieu thereof
17 “Secretary”.

18 (8) Section 401 (5) of such Act is amended to read as
19 follows:

20 “(5) the term ‘Secretary’ means the Secretary of
21 Housing and Urban Development”.

22 (9) Section 702 (a) of such Act is amended by striking
23 out “Housing and Home Finance Administrator (hereinafter
24 in this title referred to as the ‘Administrator’)” and insert-

1 ing in lieu thereof “Secretary of Housing and Urban De-
2 velopment (hereinafter in this title referred to as the
3 ‘Secretary’)”.

4 (10) Section 1113 of such Act is amended by striking
5 out “Housing and Home Finance Administrator” and insert-
6 ing in lieu thereof “Secretary of Housing and Urban De-
7 velopment”.

8 (w) Section 501 of the Military Construction Author-
9 ization Act, 1966, is amended—

10 (1) by striking out “Administrator, Housing and
11 Home Finance Agency” in the first sentence and insert-
12 ing in lieu thereof “Secretary of Housing and Urban
13 Development”; and

14 (2) by striking out “Administrator” in the second
15 sentence and inserting in lieu thereof “Secretary of
16 Housing and Urban Development”.

17 (x) (1) Sections 493, 657, and 1006 of title 18, United
18 States Code, are amended by striking out “Federal Housing
19 Administration” and inserting in lieu thereof “Department
20 of Housing and Urban Development”.

21 (2) The eighth paragraph of section 709 of such title
22 is amended to read as follows:

23 “Whoever uses as a firm or business name the words
24 ‘Department of Housing and Urban Development’, ‘Hous-
25 ing and Home Finance Agency’, ‘Federal Housing Ad-

1 ministration', 'Federal National Mortgage Association',
2 'United States Housing Authority', or 'Public Housing Ad-
3 ministration' or the letters 'HUD', 'FHA', 'PHA', or
4 'USHA', or any combination or variation of those words or
5 the letters 'HUD', 'FHA', 'PHA', or 'USHA' alone or
6 with other words or letters reasonably calculated to convey
7 the false impression that such name or business has some con-
8 nection with, or authorization from, the Department of Hous-
9 ing and Urban Development, the Housing and Home Finance
10 Agency, the Federal Housing Administration, the Federal
11 National Mortgage Association, the United States Housing
12 Authority, the Public Housing Administration, the Govern-
13 ment of the United States or any agency thereof, which does
14 not in fact exist, or falsely claims that any repair, improve-
15 ment, or alteration of any existing structure is required or
16 recommended by the Department of Housing and Urban De-
17 velopment, the Housing and Home Finance Agency, the
18 Federal Housing Administration, the Federal National Mort-
19 gage Association, the United States Housing Authority, the
20 Public Housing Administration, the Government of the
21 United States or any agency thereof, for the purpose of in-
22 ducing any person to enter into a contract for the making of
23 such repairs, alterations, or improvements, or falsely adver-
24 tises or falsely represents by any device whatsoever that any
25 housing unit, project, business, or product has been in any

1 way endorsed, authorized, inspected, appraised, or approved
2 by the Department of Housing and Urban Development, the
3 Housing and Home Finance Agency, the Federal Housing
4 Administration, the Federal National Mortgage Association,
5 the United States Housing Authority, the Public Housing
6 Administration, the Government of the United States or
7 any agency thereof; or”.

8 (3) Section 1010 of such title is amended—

9 (A) by amending the section heading to read as
10 follows:

11 **“§ 1010. Department of Housing and Urban Development**
12 **and Federal Housing Administration trans-**
13 **actions.”;**

14 (B) by striking out “Federal Housing Administra-
15 tion” and inserting in lieu thereof “Department of Hous-
16 ing and Urban Development”; and

17 (C) by striking out “such Administration” both
18 places it appears and inserting in lieu thereof “such
19 Department”.

20 (4) Section 1012 of such title is amended—

1 (A) by amending the section heading to read as
2 follows:

3 “§ 1012. Department of Housing and Urban Development
4 transactions.”;

5 (B) by striking out “Public Housing Administra-
6 tion” and inserting in lieu thereof “Department of Hous-
7 ing and Urban Development”; and

8 (C) by striking out “such Administration” each
9 place it appears and inserting in lieu thereof “such
10 Department”.

11 (5) The analysis of chapter 47, title 18, United States
12 Code, immediately preceding section 1001, is amended—

13 (A) by striking out the item relating to section
14 1010 and inserting in lieu thereof

“1010. Department of Housing and Urban Development and Federal
Housing Administration transactions.”;

15 and

16 (B) by striking out the item relating to section
17 1012 and inserting in lieu thereof

“1012. Department of Housing and Urban Development transactions.”

18 (y) Title 38, United States Code, is amended—

1 (1) by striking out “Federal Housing Administra-
2 tion approved mortgagee designated by the Federal
3 Housing Commissioner” in section 1802 (d) and in-
4 serting in lieu thereof “mortgagee approved by the
5 Secretary of Housing and Urban Development and
6 designated by him”.

7 (2) by striking out “Federal Housing Commis-
8 sioner” in subsections (b), (d), and (e) of section
9 1804 and inserting in lieu thereof “Secretary of Hous-
10 ing and Urban Development”.

11 (z) The fourth paragraph of section 24 of the Federal
12 Reserve Act is amended by striking out “Housing and Home
13 Finance Administrator” in the first sentence and inserting
14 in lieu thereof “Secretary of Housing and Urban Develop-
15 ment”.

16 (aa) (1) The penultimate sentence of paragraph
17 Seventh of section 5136 of the Revised Statutes (12 U.S.C.
18 24) is amended—

19 (A) by striking out “Federal Housing Administra-
20 tor” and inserting in lieu thereof “Secretary of Housing
21 and Urban Development (hereafter in this sentence re-
22 ferred to as the ‘Secretary’) ”; and

23 (B) by striking out “Housing and Home Finance
24 Administrator” and inserting in lieu thereof “Secre-
25 tary”;

1 (C) by striking out “Administrator” each place it
2 appears and inserting in lieu thereof “Secretary”; and

3 (D) by striking out “Public Housing Administra-
4 tion” each place it appears and inserting in lieu thereof
5 “Secretary”.

6 (2) Paragraph (11) of section 5200 of the Revised
7 Statutes (12 U.S.C. 84) is amended—

8 (A) by striking out “Housing and Home Finance
9 Administrator or the Public Housing Administration”
10 and inserting in lieu thereof “Secretary of Housing and
11 Urban Development”; and

12 (B) by striking out “Administrator or Administra-
13 tion” each place it appears and inserting in lieu thereof
14 “Secretary”.

15 (bb) Any function or authority vested in or exercisable
16 by the Federal Home Loan Bank Board, the Chairman
17 thereof, or the Federal Savings and Loan Insurance Corpora-
18 tion immediately before the enactment of this Act shall not
19 by this section or anything therein be affected or impaired,
20 or subjected to any restriction or limitation to which it was
21 not then subject.

89TH CONGRESS
2D SESSION

H. R. 15890

A BILL

To assist city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in these areas, to improve and amend our housing programs, and for other purposes.

By Mr. PATMAN

HIGHLIGHTS: Both Houses passed continuing appropriations resolution. Senate subcommittee approved agricultural appropriation bill. Senate committee reported screw-worm eradication bill. Senate adopted conference report on cotton research-promotion bill. Sen. Proxmire spoke in favor of school milk program.

HOUSE

- 1. APPROPRIATIONS.** Both Houses passed H. J. Res. 1180, the continuing appropriations resolution. This measure will now be sent to the President. Sen. Russell, Ga., stated this resolution "is the usual type of resolution which comes before the Senate each year...from the House and is necessary to continue projects and activities of the Government until the appropriations bills are enacted into law. All authority under this resolution expires August 31, 1966." pp. 13843-44, 13874-94

2. LIBRARIES. Concurred in Senate amendments to H. R. 14050, to extend and amend the Library Services and Construction Act. This bill will now be sent to the President. pp. 13894-5, 13945
3. CIVIL DEFENSE. Passed without amendment H. R. 13125, to amend the provisions of title III of the Federal Civil Defense Act of 1950, as amended. p. 13898
4. HOUSING. The Banking and Currency Committee voted to report (but did not actually report) H. R. 15890, amended, to assist city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in these areas, and to improve and amend our housing programs. p. D587
5. WATER. A subcommittee of the Interior and Insular Affairs Committee approved for full committee action H. R. 4671, amended, to authorize the construction, operation, and maintenance of the Lower Colorado River Basin project. p. D588
6. LABOR STANDARDS. Rep. Farnsley inserted an article, "Almost a Whole Loaf for Labor," commending passage of the minimum wage bill. p. 13942
7. TRANSPORTATION. Rep. Mink spoke in support of the proposed Department of Transportation and the advantages such a department would provide Hawaii. pp. 13943-4
8. MARKETING. Rep. Tunney urged enactment of legislation to provide adequate protection for consumers with regard to labeling and packaging. p. 13945
9. GRAIN STANDARDS. Received from this Department a proposed bill to provide for U. S. standards and a uniform national inspection system for grain; to Agriculture Committee. p. 13948
10. RESEARCH. Rep. Hanna paid tribute to the University of California and its agricultural programs. pp. 13904-31
11. OPINION POLL. Rep. Martin, Ala., inserted the results of a questionnaire including items of interest to this Department. p. 13947

SENATE

12. SCREW-WORM. The Agriculture and Forestry Committee reported with amendment S. 3325, to authorize this Department to cooperate in screw-worm eradication in Mexico (S. Rept. 1342). p. 13776
13. COTTON. Received and agreed to conference report on H. R. 12322, the cotton research and promotion bill. p. 13780
14. APPROPRIATIONS. A subcommittee of the Appropriations Committee approved for full committee consideration, H. R. 14596, fiscal 1967 appropriations for this Department, and related agencies. p. D585
15. WATER RESOURCES. The Interior and Insular Affairs Committee reported without amendment S. 3186, to increase the authorization for continuing work on the Missouri River Basin Project (S. Rept. 1340); voted to report (but did not actually report) S. 3034, to authorize feasibility studies of certain potential Federal reclamation projects in 17 Western States; and voted to report (but did

HIGHLIGHTS: Senate debated agricultural appropriation bill and received supplemental budget request for cotton promotion program. House debated foreign aid authorization bill.

SENATE

1. APPROPRIATIONS. Began debate on H. R. 14596, the agricultural appropriation bill. Agreed to the committee amendments en bloc (but only for the purpose of considering the bill with the amendments as the original text) and an amendment by Sen. Holland to provide \$300,000 supplemental funds "to initiate work under the Cotton Research and Promotion Act of 1966" (pp. 14896-901). Sen. Holland's amendment was submitted pursuant to a supplemental estimate (S. Doc. 98) (p. 14824).

Sen. Proxmire expressed his appreciation to the committee for its support of the special milk program for schoolchildren but questioned the "adequacy of \$105 million to do the job." pp. 14827-8

2. WATER POLLUTION. Passed with amendments S. 2947, to authorize "a research and demonstration program into advanced waste treatment and water purification and joint municipal-industrial treatment facilities." pp. 14849-67, 14869-84, 14887-96
3. HISTORIC STRUCTURES. Sen. Tower commended S. 3097, to encourage and assist in the preservation and maintenance of historic structures, and at his request was added as a cosponsor. pp. 14826-7
4. FOREIGN AID. Sen. Mondale inserted numerous letters supporting his amendment to the foreign aid bill, "to strengthen our support of adaptive agricultural research in hungry nations." pp. 14831-2

HOUSE

5. FARM CREDIT. The Agriculture Committee reported with amendments S. 2822, to amend various provisions of the laws administered by the Farm Credit Administration to improve operations thereunder (H. Rept. 1695) p. 14822
6. FOREIGN AID. Continued debate on H. R. 15750, the foreign aid authorization bill. pp. 14714-87
7. PACIFIC ISLANDS. Rep. Taylor inserted a statement to the U. N. Trusteeship Council by the High Commissioner of the Trust Territory of the Pacific Islands including a discussion of agricultural projects in the islands. pp. 14813-8
8. OPINION POLL. Rep. McDade inserted the results of a questionnaire, including items of interest to this Department. p. 14795
9. RECLAMATION. Rep. Saylor inserted an engineers' report criticizing the proposed Marble Canyon and Bridge Canyon dams as "a poor use of federal money and an unnecessary desecration of the Grand Canyon." pp. 14797-8
10. TRUTH-IN-PACKAGING. Rep. Ashbrook commended and inserted an article opposing some provisions of the truth-in-packaging bill. p. 14798
11. INTERSTATE TAXATION. Rep. Pool spoke in favor of H. R. 11798, to provide a system for taxation of interstate commerce. p. 14810
12. LOANS. Rep. O'Neill, Mass., criticized an Economic Development Administration loan for a Maine sugarbeet factory as "a colossal waste of the taxpayer's money" (p. 14714). Rep. Hathaway defended this loan and the viability of the Maine sugarbeet industry (p. 14819).
13. HOUSING. The Banking and Currency Committee was granted permission to file a report and accompanying documents by midnight Fri., July 15, on H. R. 15890, the city demonstration program bill. p. 14787
14. HAWAII. Rep. Mink commended and inserted a speech outlining economic and commercial achievements and prospects for Hawaii. pp. 14811-2

July 18, 1966

14. TOBACCO; HEALTH. Sen. Moss inserted an article describing an experiment which he called "the most recent evidence that cigarette smoking causes lung damage." p. 15278

HOUSE

15. HOUSING. The Banking and Currency Committee reported during adjournment July 15, H. R. 15890, with amendments, the city demonstration program bill (H. Rept. 1699 and accompanying document H. Rept. 1699, Pt. II). p. 15247

16. TRANSPORTATION. The Government Operations Committee reported July 15 during adjournment, H. R. 15963, with amendments, to establish a Department of Transportation (H. Rept. 1701). p. 15247

17. HIGHWAYS. The Public Works Committee reported with amendment H. R. 14359, to authorize appropriations for the fiscal years 1968 and 1969 for the construction of certain highways (H. Rept. 1704). p. 15247

18. LANDS. A subcommittee of the Interior and Insular Affairs Committee approved for full Committee action, H. R. 13955, amended, to authorize the Secretary of the Interior to grant patents to certain lands under the provisions of the Color of Title Act. p. D634

19. WATER RESOURCES. Passed with amendment S. 3034, to authorize feasibility studies of certain potential Federal reclamation projects in 17 Western States. H. R. 13419, a similar bill, was tabled. pp. 15193-15201

20. FARM CREDIT. Passed as reported S. 2822, to amend various provisions of the laws administered by the Farm Credit Administration to improve operations thereunder. pp. 15201-2

21. WATER POLLUTION. Rep. Vanik commended and inserted Cleveland, Ohio, Mayor Locher's testimony before the Public Works Committee on the proposed Federal Water Pollution Control Amendments of 1966. pp. 15243-6

22. FOREIGN AID. Rep. Reuss discussed the needs and problems of agricultural development in Latin America and urged U. S. leadership through the Inter-American Development Bank as a means to meet the Latin American "food crisis." pp. 15220-2

ITEMS IN APPENDIX

23. FEDERAL-STATE RELATIONS. Sen. Javits inserted an analysis on the problem of Federal-State-local relations. pp. A3749-50

24. POVERTY. Rep. Cederberg inserted an article, "Poverty Aid Can Be Embarrassing." p. A3751

Extension of remarks of Rep. Jones, Ala., assessing the "real record" of the war on poverty and inserting an article. pp. A3758-9

Extension of remarks of Rep. Carter commending the resource development action in Appalachia. p. A3760

Extension of remarks of Rep. Quillen stating that "...bureaucracy and politics are dangerously stifling any attempts at concrete and useful advances" of the poverty program. p. A3763

23. RECREATION. Extension of remarks of Rep. Johnson, Calif., commenting on some of the problems in acquiring lands for parks and recreation programs. p. A3752
26. OPINION POLL. Reps. Jonas and Keith inserted the results of questionnaires including items of interest to this Department. pp. A3755-6, A3769-70
27. WATER SUPPLY. Extension of remarks of Rep. Rumsfeld stating that it is imperative that the American people and governments at all levels realize the gravity of the water crisis. p. A3768
28. FARM PROGRAM. Rep. Skubitz inserted an article critical of "restriction" placed on this Department's permission for drought-stricken Kansas counties to harvest hay or graze livestock on land retired from production. pp. A3780-1
29. FOREIGN AID. Speech in the House by Rep. Rees supporting an amendment to the foreign aid authorization bill to restrict aid to the United Arab Republic. pp. A3785-6

BILLS INTRODUCED

30. LANDS. S. 3622 by Sen. Moss, to amend the Mineral Leasing Act of February 25, 1920, as amended; to Interior and Insular Affairs Committee. Remarks of author p. 15250
H. R. 16299 by Rep. Battin, providing that certain privately owned irrigable lands in the Milk River project in Montana shall be deemed to be excess lands; to Interior and Insular Affairs Committee.
31. EMPLOYMENT. H. R. 16307 by Rep. Quie and H. R. 16308 by Rep. Goodell, to mesh the combined efforts of government at all levels with private endeavors to provide jobs and dignity for the poor; to Education and Labor Committee.
32. FOOD. H. Con. Res. 831 by Rep. Dyal, expressing the sense of the Congress with respect to certain proposed regulations of the Food and Drug Administration relating to the labeling and content of diet foods and diet supplements; to Interstate and Foreign Commerce Committee.
33. SEED. H. R. 16280 by Rep. Abernethy, to amend the Federal Seed Act (53 Stat. 1275) as amended; to Agriculture Committee.
34. POSTAL SERVICE. H. R. 16286 by Rep. Dingell, making an appropriation to enable the Post Office Department to extend city delivery service on a door delivery service basis to postal patrons now receiving curbside delivery service who qualify for door delivery service; to Appropriations Committee.

PRINTED HEARINGS RECEIVED BY THIS OFFICE

35. RESEARCH. S. 2322, 3059, and 3138, dog-cat handling bills. S. Commerce Committee.
36. POSTAL SERVICE. H. R. 5180, 9551, zip code system in the U. S. Postal Service. H. Post Office and Civil Service Committee.
37. ORGANIZATION. S. 3010, to establish a Dept. of Transportation. Part 4. S. Government Operations Committee.

HOUSING AND URBAN DEVELOPMENT ACT OF 1966

JULY 15, 1966.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

Mr. PATMAN, from the Committee on Banking and Currency, submitted the following

R E P O R T

[To accompany H.R. 15890]

The Committee on Banking and Currency, to whom was referred the bill (H.R. 15890) to assist city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in these areas, to improve and amend our housing programs, and for other purposes, having considered the same, report favorably thereon with amendments and recommend that the bill as amended do pass.

The amendments are as follows:

Page 12, before the period in line 12, insert the following:

, and each such laborer or mechanic shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any work week in excess of eight hours in any work day or forty hours in the work week, as the case may be

Page 27, line 6, insert "408" after "section".

Page 30, in lines 11 and 12, strike out "Secretary" and insert "Commissioner".

Page 33, line 8, strike out "(i)" and insert "(h)".

Page 38, in lines 12, 17, 20, and 23, strike out "(i)" and insert "(h)".

Page 51, line 5, strike out "XI" and insert the following:

XI; and each laborer or mechanic employed on any facility covered by a mortgage insured under such title shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any work week in excess of eight hours in any work day or forty hours in the work week, as the case may be

Page 54, line 19, after "commenced)" insert the following:

, and that each such laborer or mechanic shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any work week in excess of eight hours in any work day or forty hours in the work week, as the case may be

Page 70, after line 25, insert the following new section:

QUARTERS AND FACILITIES FOR FEDERAL HOME LOAN BANKS
AND THE FEDERAL HOME LOAN BANK BOARD

• SEC. 815. (a) The second sentence of section 12 of the Federal Home Loan Bank Act (12 U.S.C. 1432) is amended by striking out "but no bank building shall be bought or erected to house any such bank, nor shall any such bank make any lease" and inserting in lieu thereof "but, except with the prior approval of the board, no bank building shall be bought or erected to house any such bank, or leased by such bank under any lease".

(b) Section 18 of such Act (12 U.S.C. 1438) is amended—

(1) by adding at the end of subsection (b) the following new sentence: "Such assessments may include such amounts as the board may deem advisable for carrying out the provisions of subsection (c) of this section."; and

(2) by adding at the end thereof the following new subsection:

"(c)(1) The board, utilizing the services of the Administrator of General Services (hereinafter referred to as the 'Administrator'), and subject to any limitation hereon which may hereafter be imposed in appropriation Acts, is hereby authorized—

"(A) to acquire, in the name of the United States, real property in the District of Columbia, for the purposes set forth in this subsection;

"(B) to construct, develop, furnish, and equip such buildings thereon and such facilities as in its judgment may be appropriate to provide, to such extent as the board may deem advisable, suitable and adequate quarters and facilities for the board and the agencies under its administration or supervision;

"(C) to enlarge, remodel, or reconstruct any of the same; and

"(D) to make or enter into contracts for any of the foregoing.

"(2) The board may require of the respective banks, and they shall make to the board, such advances of funds for the purposes set out in paragraph (1) as in the sole judgment of the board may from time to time be advisable. Such advances shall be in addition to the assessments authorized in subsection (b) and shall be apportioned by the board among the banks in proportion to the total assets of the respective banks, determined in such manner and as of such times as the board may prescribe. Each such advance shall bear interest at the rate of 4½ per centum per annum from

the date of the advance and shall be repaid by the board in such installments and over such period, not longer than twenty-five years from the making of the advance, as the board may determine. Payments of interest and principal upon such advances shall be made from receipts of the board or from other sources which may from time to time be available to the board. The obligation of the board to make any such payment shall not be regarded as an obligation of the United States. To such extent as the board may prescribe any such obligation shall be regarded as a legal investment for the purposes of subsections (g) and (h) of section 11 and for the purposes of section 16.

“(3) The plans and designs for such buildings and facilities and for any such enlargement, remodeling, or reconstruction shall, to such extent as the chairman of the board may request, be subject to his approval.

“(4) Upon the making of arrangements mutually agreeable to the board and the Administrator, which arrangements may be modified from time to time by mutual agreement between them and may include but shall not be limited to the making of payments by the board and such agencies to the Administrator and by the Administrator to the board, the custody, management, and control of such buildings and facilities and of such real property shall be vested in the Administrator in accordance therewith. Until the making of such arrangements such custody, management, and control, including the assignment and allotment and the reassignment and reallocation of building and other space, shall be vested in the board.

“(5) Any proceeds (including advances) received by the board in connection with this subsection, and any proceeds from the sale or other disposition of real or other property acquired by the board under this subsection, shall be considered as receipts of the board, and obligations and expenditures of the board and such agencies in connection with this subsection shall not be considered as administrative expenses. As used in this subsection, the term ‘property’ shall include interests in property.

“(6) With respect to its functions under this subsection the board shall (A) annually prepare and submit a budget program as provided in title I of the Government Corporation Control Act with regard to wholly owned Government corporations, and for purposes of this sentence, the terms ‘wholly owned Government corporations’ and ‘Government corporations’, wherever used in such title, shall include the board, and (B) maintain an integral set of accounts which shall be audited annually by the General Accounting Office in accordance with the principles and procedures applicable to commercial corporate transactions as provided in such title, and no other audit, settlement, or adjustment shall be required with respect to transactions under this subsection or with respect to claims, demands, or accounts by or against any person arising thereunder. Except as otherwise provided in this subsection or by the board, the provisions of

this subsection and the functions thereby or thereunder subsisting shall be applicable and exercisable notwithstanding and without regard to the Act of June 20, 1938 (D.C. Code, secs. 5-413—5-428), except that the proviso of section 16 thereof shall apply to any building constructed under this subsection, and section 306 of the Act of July 30, 1947 (61 Stat. 584), or any other provision of law relating to the construction, alteration, repair, or furnishing of public or other buildings or structures or the obtaining of sites therefor, but any person or body in whom any such function is vested may provide for delegation or redelegation of the exercise of such function.

“(7) No obligation shall be incurred and no expenditure, except in liquidation of obligation, shall be made pursuant to the first two subparagraphs of paragraph (1) of this subsection if the total amount of all obligations incurred pursuant thereto would thereupon exceed \$13,200,000 or such greater amount as may be provided in an appropriation Act or other law.”

Page 73, line 3, strike out “last” and insert “next to last”.

WHAT THE BILL WOULD DO

Title I contains the President's proposed demonstration cities program. The bill authorizes \$12 million to be appropriated for planning in the first year of the program. The planning would identify the slum and blighted areas to be designated and would plan for the use of the whole array of available Federal, State, and local programs to be used for the physical and social rehabilitation of the area. This title further authorizes the appropriation of supplemental grant funds which can amount to up to 80 percent of the local share of the cost of Federal programs to be used in a demonstration cities program, and enumerates the criteria which a proposed city demonstration program must meet to qualify for this assistance. The President's message transmitting this legislation indicated that appropriations of \$2.3 billion would be needed over a 6-year period to carry out the program. This would be sufficient to cover an estimated 60 to 70 cities. This title also authorizes an additional \$600 million in urban renewal funds, to become available in fiscal 1968, for projects which are part of city demonstration programs.

Title II contains the administration's metropolitan planning incentive program which would authorize supplemental grants of up to 20 percent of the cost of projects eligible under designated Federal programs which are related to metropolitan growth. These supplemental grants would be in addition to the basic grant authorized in existing law but in no case could the total Federal contribution to a project exceed 80 percent. To be eligible for these supplemental

grants, a metropolitan area must have comprehensive areawide planning and programing meeting the criteria in the bill.

Title III provides for cooperation between Federal agencies in metropolitan development and authorizes the appointment of a metropolitan expediter, in any metropolitan area which needs and desires the official, to provide information, data, and assistance to local authorities and persons concerning Federal and other programs.

Title IV extends FHA mortgage insurance for land development to include financing for new communities. The limit on the amount of land development mortgages would be increased from \$10 million to \$25 million outstanding and mortgages financing new communities would be eligible for FNMA special assistance. The title sets forth planning and other requirements which must be met as a condition for this aid. The second part of this title would authorize direct loans to State-designated public bodies to finance land acquisition for eventual resale to private developers for residential development. The loans would be made from the existing public facilities loan fund and would have a maximum maturity of 15 years.

Title V contains a number of amendments to the FHA program. One section expands eligibility for the preferential terms under FHA section 203 extended to veterans in last year's Housing Act to include veterans who have used their VA entitlement. Another section authorizes financing at an interest rate of 3 percent under FHA section 221(d)(3) for the acquisition and rehabilitation of housing by non-profit groups for resale to families of very low income. Among other provisions, this title would also reactivate on a limited basis the armed services housing program (Capehart).

Title VI authorizes FHA mortgage insurance to finance the construction and equipment of buildings to be used as group medical practice facilities. Insured loans would be limited to 90 percent of value, a maximum maturity of 25 years, and a maximum interest rate of 6 percent.

Title VII contains four amendments to the rural housing programs administered by the Farmers Home Administration, including an increase from \$1,000 to \$1,500 in the maximum amount of a loan, grant, or combined loan and grant for repairs and improvements to owner-occupied dwellings which are necessary to make them safe and sanitary.

Title VIII contains a number of miscellaneous provisions including limited authorization for FNMA participation in construction financing for FHA cooperative housing or FHA section 221(d)(3) projects. This title also authorizes the Secretary of Defense to pay the loss in value of homes owned by transferred service personnel or employees at military bases where the property value has been adversely affected by the closing of the base.

BACKGROUND OF THE BILL

During the period February 28 to March 25, the Subcommittee on Housing held 4 weeks of hearings on housing and urban development legislation including the administration proposed bills, H.R. 12341 (demonstration cities program), H.R. 12946 (Urban Development Act), H.R. 13064 (housing and urban development amendments), H.R. 9256 (group medical practice facilities), and other pending bills in the housing and urban development field.

Expert and detailed testimony was received on all phases and aspects of the proposed legislation. The subcommittee heard detailed testimony from the Secretary of Housing and Urban Development and his top assistants, and the Under Secretary of HEW testified on the group medical practice facilities bill. Many other witnesses reflecting the viewpoints of the homebuilding, real estate, and mortgage lending industries, labor organizations, civic groups, mayors, cooperative groups, and others provided the committee with the benefit of their knowledge and their recommendations.

While the testimony covered all aspects of the housing and urban development legislation under consideration, there was considerable emphasis on President Johnson's proposed demonstration cities program. This proposal received the enthusiastic support of the Nation's mayors speaking both through their national organizations, the U.S. Conference of Mayors and the National League of Cities, and through the testimony of many individual mayors. It is also heartily endorsed by the AFL-CIO, the National Association of Home Builders, and spokesmen for planners, housing, and civic groups.

The Subcommittee on Housing met in executive sessions on June 1, 14, and 22 and recommended a draft omnibus bill to the full committee by a vote of 7 to 3. The draft bill which emerged from the subcommittee incorporated the main features of the administration proposed bills (H.R. 12341, H.R. 12946, H.R. 13064, and H.R. 9256), as well as improving and perfecting amendments. The subcommittee-recommended bill was introduced on June 23 as H.R. 15890, the Housing and Urban Development Act of 1966, and the full Committee on Banking and Currency met on the bill in executive session on June 28. In addition to technical amendments, four substantive amendments were adopted; three amendments clarifying the application of Davis-Bacon prevailing wage and overtime requirements to construction undertaken under the demonstration cities program, the group medical program, and privately built housing intended for use as public low-rent housing, and a fourth authorizing the construction of new quarters and facilities for Federal home loan banks and the Federal Home Loan Bank Board. The bill was then ordered reported by a rollcall vote of 18 to 8 with 3 votes of "present".

MAJOR PROVISIONS OF THE BILL

TITLE I. DEMONSTRATION CITIES PROGRAM

The demonstration cities program is the most important single proposal in the President's plan for rebuilding America's cities.

In his message to the Congress recommending the demonstration cities program, the President said:

From the experience of three decades, it is clear to me that American cities require a program that will—

Concentrate our available resources—in planning tools, in housing construction, in job training, in health facilities, in recreation, in welfare programs, in education—to improve the conditions of life in urban areas.

Join together all available talent and skills in a coordinated effort.

Mobilize local leadership and private initiative, so that local citizens will determine the shape of their new city * * *.

The demonstration cities program would make it possible for cities of all sizes, and in all sections of the country, to undertake such a program.

This program would help cities to plan, develop, and carry out locally prepared plans for rebuilding or restoring entire sections and neighborhoods of slum and blighted areas. It would help cities provide the public facilities and services, including citywide aids, needed to enable the poor and disadvantaged people who live in these areas to become useful, productive citizens—citizens able to join in the general prosperity this Nation now enjoys.

This program would make it possible to improve and substantially increase the supply of adequate low- and moderate-cost housing in the cities. It would make it possible for cities to focus their educational, health, and special services on the problems of the large numbers of poor and disadvantaged people who live in slum and blighted sections and neighborhoods. It would make it possible to treat the human needs of people in the slums at the same time physical rehabilitation is being carried out.

The problems of cities

Perhaps the most difficult problem facing cities is that of blighted areas with their concomitant and constantly increasing demands for services and their declining taxable values. The continuing spread of blight reduces the taxable value of city land. As slums and blight spread, crime, delinquency, and disease follow. While the need for city services grows, the city's ability to provide these services is impaired by the very blight that creates the demand.

More blight, greater demand for city services, decreasing revenues to meet the demand—that is the descending spiral confronting many American cities.

There are over 7 million homes in urban areas that are run down or deteriorating. More than 3 million do not have adequate plumbing or hot and cold running water. In many of our central cities entire sections and neighborhoods are in need of major surgery to overcome decay. Increasingly the old, the poor, and the underprivileged are concentrated in these slum and blighted areas of the central city.

Significantly, the independent efforts of cities to help themselves are in large measure self-defeating. The more determined the city's effort to raise funds to meet the need for increased services, the more likely that effort drives its economically affluent citizens to the nearby suburbs. Similarly, the greater burden the city places on industry within its borders, the less its opportunity to attract, and hold, the industry and commerce its economy requires. So the city becomes, increasingly, a home for the economically deprived, those least able to bear the cost of municipal services. In these circumstances it is not surprising that the cities with the greatest slum problems often have the least capacity to deal with those problems.

Our cities have made great efforts to cope with their problems. Between 1954 and 1963, municipalities increased their tax revenues by 43 percent, and local government indebtedness increased by 119 percent. With the limited sources of revenue available to them, the

cities have waged a heroic battle against national problems which are overwhelming them.

But the problems of slum and blight, ignorance and disease, poverty and despair, crime and delinquency are national problems. The resources needed to solve these problems cannot come from city taxes alone.

Improving the quality of urban life is the most critical domestic problem facing the United States. To meet this problem, we must bring to bear national resources.

Comprehensive city demonstration program

Title I of the bill would establish a new program of Federal assistance to help cities plan, administer, and carry out comprehensive city demonstration programs. A "comprehensive city demonstration program" is a locally prepared and scheduled program for rebuilding or restoring entire sections and neighborhoods of slum and blighted areas by the concentrated and coordinated use of all available Federal aids together with local private and governmental resources. It will include citywide aids and resources necessary to improve the general welfare of the people living or working in these areas.

This is to be a local program, planned and carried out by local people, and based on local judgment as to the city's needs and its order of priorities in meeting these needs.

The assistance provided by title I of the bill would help cities of all sizes and in all sections of the country to plan, develop, and carry out programs to rebuild or revitalize large slum or blighted areas and to expand and improve public programs and services available to the people who live in these areas. It would provide funds needed for the city to participate in existing Federal assistance programs. It would encourage the cities to focus and coordinate projects and activities for which assistance is now available under existing Federal programs with other public and private actions to provide the most effective and economic concentration of Federal, State, local, and private efforts to improve the quality of urban life.

Federal assistance provided

Federal funds would cover up to 80 percent of the cost of planning and developing comprehensive city demonstration programs. Federal grants would also pay up to 80 percent of the cost of administering every project or activity which is included as part of these programs (but not the cost of administering any project or activity for which Federal financial assistance is provided under an existing grant-in-aid program).

In addition, two types of Federal assistance are available to help finance all of the projects or activities that are included as part of an approved comprehensive city demonstration program.

First, to the extent such projects or activities are eligible for assistance under an existing Federal grant-in-aid program, they may be financed under that program. This bill contemplates that existing Federal grant-in-aid programs—and funds now available for those programs—will be utilized, where feasible, in carrying out projects or activities that, though part of a comprehensive city demonstration program, are eligible for assistance under existing grant-in-aid programs.

It is expected that the demonstration cities program will stimulate a new and sharper focusing of activities assisted under existing grant-

in-aid programs and far greater coordination in their use. More effective use of existing grant-in-aid programs by cities is a key goal of the demonstration cities program.

The fact that a particular project or activity, eligible for assistance under an existing Federal grant-in-aid program, is undertaken as part of a comprehensive city demonstration program will in no way affect its eligibility for assistance under the existing grant-in-aid program. The city will apply to the agency which administers the grant-in-aid program and the application will be subject to all the existing rules, regulations, and priorities governing that grant-in-aid program.

Second, special grants, supplementing the assistance available under existing grant-in-aid programs, would be provided under the demonstration cities program to—

- (1) Assist cities to provide their required share of the cost of projects or activities that are part of the demonstration program and are funded under existing Federal grant-in-aid programs, and

- (2) Provide funds to carry out other non-federally-assisted projects or activities (including projects or activities of the type eligible for Federal assistance under existing grant-in-aid programs) undertaken as part of the demonstration program.

The amount of this special—supplemental—demonstration cities grant would be up to 80 percent of the total non-Federal contributions required to be made to all projects or activities assisted by existing Federal grant-in-aid programs which are carried out as part of a comprehensive city demonstration program.

The required non-Federal contribution to every project or activity included within an approved comprehensive city demonstration program, and funded under an existing Federal grant-in-aid program, would serve as a base for computing the special supplemental grant under the demonstration cities program. It does not matter whether or not the Federal commitment to assist in financing the particular project or activity under an existing grant-in-aid program occurred some time before the comprehensive city demonstration program is approved. So long as the activity financed by the existing grant-in-aid program is included within the approved city demonstration program, the non-Federal contribution to that project or activity can serve as a base for the grant computed under the demonstration cities program.

The supplemental grant funds authorized to be paid by the demonstration cities program are not "earmarked" for any one specific project or activity carried out as part of the demonstration program. After the amount of this supplemental grant is established under the formula in the demonstration cities program, the total amount will be available to the city to be used for any project or activity included as part of an approved comprehensive city demonstration program.

The supplemental assistance to cities provided by the demonstration cities program is not to replace local funds already being used to rebuild and restore slum and blighted areas and provide community facilities and services to their residents. Accordingly, the bill requires as a condition to receiving assistance for an approved comprehensive city demonstration program, that the city not reduce, during the period an approved program is carried out, its prior level of aggregate expenditures for projects or activities similar to those being assisted under the demonstration program.

It is not expected that all grants will be for the maximum 80-percent ratio and the bill contains a proviso which would require that the specific amount of any grant take into account the number and intensity of the economic and social pressures in the sections or neighborhoods involved—such as those involving or resulting from population density, crime rate, public welfare participation, delinquency rate, poverty levels, unemployment rate, educational levels, health and disease characteristics, and degree of substandard and dilapidated housing. To the extent that less than maximum ratio grants are made, a larger number of cities would be able to participate.

Preparing a comprehensive city demonstration program

A. City demonstration agency

The Federal assistance authorized by the demonstration cities program would be provided to a "city demonstration agency." The "city demonstration agency" may be the city or any local public agency established or designated by the local governing body to administer the comprehensive city demonstration program.

The city demonstration agency, therefore, may be a public agency created for the purpose of administering the demonstration program or it may be an existing local public agency assigned this responsibility. A very wide range of administrative organizations are permissible so long as the structure serving as the city demonstration agency constitutes a public body which is subject to the control of the local governing body.

Whatever the administrative organization of the city demonstration agency, it must have the endorsement and support of the elected officials of the city and the agency must have sufficient power and authority to undertake the overall administration of the demonstration program.

This does not mean that the city demonstration agency must assume operational control of all projects and activities which are a part of the local demonstration program. For example, to the extent urban renewal activities are a part of the demonstration, the existing urban renewal agency would carry out such projects. School boards would continue to direct educational activities in the demonstration area. The function of the city demonstration agency would be to obtain the cooperation of all participants and receive their agreement to a concentrated and coordinated effort.

B. Planning and developing the city demonstration program

The city demonstration agency would apply to the Secretary of Housing and Urban Development for a grant to pay 80 percent of the cost of planning and developing the comprehensive city demonstration program. The application for this grant must have the approval of the local governing body of the city and would show in broad and general terms the nature and seriousness of the city's problems and the outlines of what the city intends to do. Before he makes a grant to plan a comprehensive city demonstration program, the Secretary of Housing and Urban Development must determine that there exist (1) administrative machinery through which coordination of all related planning activities of local agencies can be achieved, and (2) evidence that necessary cooperation of agencies engaged in related local planning can be obtained.

The bulk of the effort during the planning and development period would be spent in refining the program elements of the initial proposal and developing their interrelationships, working out organizational arrangements, and scheduling and budgeting program activities. During the hearings, the Secretary of Housing and Urban Development testified that the planning and development period will generally not require more than 6 to 8 months, and perhaps less time. Much information in terms of needs identification will already be available. Many cities in a position to qualify as a demonstration city will already have undertaken a community renewal program, will have a community action agency which will have already collected data on social problems and needs, and will have a well-developed physical master plan and capital improvements program.

During the course of considering this bill, the committee gave serious thought to the inclusion of a provision which would have required the application of systems analysis techniques to the development of city demonstration programs. There was no question that such techniques would be desirable, yet the committee decided that it would be undesirable to write such a requirement into legislation. The committee felt that the need for action in our rundown urban areas was pressing and immediate. Too much delay could occur if we had to wait for an effective cross-fertilization of ideas between the scientific community and our urban administrators. However, the committee expects the Secretary of Housing and Urban Development to make every effort to see that advanced techniques of systems analysis are applied to city demonstration programs as fast as is possible. The bill authorizes the Secretary to provide technical assistance to cities undertaking demonstration programs which can include expert advice on systems analysis techniques, and the 80-percent Federal grant for planning a demonstration city program authorized by the bill could include the cost of developing a program of systems analysis in connection with a local program.

Completed plans for comprehensive city demonstration programs would be reviewed by the Secretary of Housing and Urban Development to determine that (1) they satisfy the statutory criteria for demonstration programs, and (2) the various projects or activities to be undertaken in connection with the program are scheduled to be initiated within a reasonably short period of time.

Demonstration programs need not be limited to a single geographically delineated demonstration area in which slum and blight are to be removed or arrested. Rather, there may be several such areas of varying sizes in the city.

In addition, a wide variety of activities that serve the demonstration program, no matter where located, may be included in the demonstration.

For example, a hospital or vocational school which serves the needs of residents of slum and blighted areas may be a part of the city's program though constructed in a section of the community not requiring clearance or rehabilitation treatment. Similarly, providing housing for families displaced from slum and blighted areas may involve construction activities outside of the slum and blighted areas in a wholly different portion of the community.

Grant funds provided under this legislation will, therefore, be available for certain communitywide activities, and the cities will be ex-

pected to study the effect and impact of their programs with a view to the well-being of the entire community.

Content of demonstration program

To qualify for assistance under title I of the bill, a city must be prepared to embark on major new undertakings addressed to major urban problems. The demonstration cities program is designed to help those cities willing to face up to their responsibilities, willing and able to bring together all the public and private bodies whose joint action is necessary to solve their problems, willing to fully commit their energy and resources, and willing to undertake actions which will have widespread and substantial effects on the social and physical structure of the city.

A demonstration program must meet the following general criteria:

First, it must be of sufficient magnitude, in both its physical and social dimensions, to (1) remove or arrest blight and decay in entire sections or neighborhoods, (2) provide a substantial increase in the supply of standard housing of low and moderate cost, (3) make marked progress in serving the poor and disadvantaged people living in slum and blighted areas by reducing educational disadvantages, disease and enforced idleness, and (4) make a substantial impact on the sound development of the entire city.

These criteria will require a demonstration program to remove or arrest blight and decay in sections or neighborhoods which contain a substantial percentage—as much as 15 to 20 percent—of the substandard dwelling units in the city.

Clearance of structures will play a significant part in many demonstration programs, and considerable new construction of low-income housing will be necessary. However, a great amount of rehabilitation will be essential to provide sufficient additional low-income housing and minimize dislocation of families and businesses.

Very often, rehabilitation and improvement of substandard and deteriorating units can make them suitable. Some units require relatively minor repairs; others require considerable rehabilitation. In some instances rehabilitation can be carried on without any displacement of occupants. In many areas temporary relocation in the neighborhood can be arranged, and in some instances relocation to another neighborhood will be necessary.

Second, the general criteria require that the rebuilding or restoration of sections or neighborhoods contribute to a well-balanced city with adequate public facilities. This includes facilities needed for transportation, education, and recreation; commercial facilities adequate to serve the residential areas; good access to industrial or other centers of employment; and housing for all income levels.

Existing Federal grant-in-aid programs can be utilized to help the city fulfill these requirements. For example, the existing Federal grant-in-aid program for neighborhood facilities can help in the provision of physical facilities needed to house many social services and the existing mass transit program may finance needed transportation facilities. The Elementary and Secondary Education Act may provide needed educational services.

The housing component, required by the criteria to be a part of every comprehensive city demonstration program, will contribute toward a balanced supply of housing for the city as it provides additional low-

income housing. This is, of course, the housing for which there is the greatest need.

Third, the bill would require that the program provide for educational and social services necessary to serve the poor and disadvantaged in the area; widespread citizen participation in the program; maximum opportunities for employing residents of the area in all phases of the program; and enlarged opportunity for work and training.

Many of the educational and social services needed can be provided under community action programs supported by the Office of Economic Opportunity.

Opportunities for employing residents in the program, as well as opportunities for other work and training, can be provided through appropriate arrangements with lending institutions, private construction firms, and labor unions involved in the rehabilitation activities and construction of new public facilities that are part of the program.

Fourth, the general criteria require that adequate local resources be available for the completion of the activities undertaken in accordance with the program.

This will require evidence that the local share of administrative and project costs will be available from identifiable local sources throughout the period during which the program is to be executed.

Fifth, administrative machinery must be available for carrying out the program on a consolidated and coordinated basis, the local governing body must have approved the program, and local agencies whose cooperation is necessary to carry out the program must have indicated their intent to furnish that cooperation.

Sixth, the general criteria require that there be a plan for relocating individuals, families, business concerns, and nonprofit organizations displaced or to be displaced in carrying out the program.

This relocation plan must provide concrete evidence that there will be available for families who are displaced decent, safe, and sanitary housing within their economic means. In addition, adequate provision must be made for assistance and relocation payments to families, business concerns, and nonprofit organizations displaced as a consequence of a city demonstration program. The relocation activities are to be coordinated, to the maximum extent feasible, with the contemplated increase in the housing supply for the entire city in order to maintain the available supply of decent, safe, and sanitary housing for people of low and moderate income.

Your committee has long been concerned with the burden that programs which benefit the community as a whole may place on those displaced from their homes and places of business. Seventeen years ago, the committee inserted in title I of the Housing Act of 1949 a requirement that urban renewal activities include a feasible method for the relocation of displaced individuals and families to decent, safe, and sanitary dwellings available at rents within their financial means. In 1956 the committee authorized the payment of moving and relocation expenses to those displaced by urban renewal; and in 1964 the committee substantially extended and increased relocation assistance. In 1965 the committee extended the relocation payment provisions applicable to the urban renewal program to those displaced by the college and elderly housing programs, the open-space land program, and the public facility loan program.

The relocation provisions included in the demonstration cities program would make available to those displaced by any activity under-

taken as part of a demonstration program relocation aids and benefits as liberal as those now provided in the urban renewal program. Where relocation payments authorized in existing Federal programs utilized in connection with the demonstration program are less than now authorized in the urban renewal program, demonstration grant funds will supplement the relocation payments authorized in these existing programs to make up the difference.

Seventh, the general criteria require that the program be designed to assure maximum opportunity in the choice of housing accommodations by all persons.

In addition to these criteria, the city's program must be more than a statement of goals. It must be a definite plan of action. Projects and activities to be undertaken must be scheduled and ready for initiation within a reasonably short period of time. All of the activities which are part of the program should be scheduled for completion within a reasonable period of time.

Other actions expected of the city

An important benefit of Federal grant-in-aid programs is the local spur these programs provide to activities that may not otherwise be undertaken. The demonstration cities program calls on the cities to take a series of actions, in conjunction with their demonstration programs, designed to make significant breakthroughs in the techniques of rebuilding and restoring slum and blighted areas.

Even though a city demonstration program meets the statutory criteria described, other actions may be expected of the city if new Federal aids are to be provided under this legislation. Consideration will be given to the extent and nature of purely local actions which encourage more rational and efficient urban development. In preparing their demonstration programs, cities may have occasion to—

First, examine their local laws to determine the extent to which those laws impede substantial progress in carrying out their demonstration programs and to take appropriate action, if necessary, to make those laws consistent with the objectives of their programs.

In many localities, the structure of real estate taxes, and inadequate and often obsolete housing codes and zoning laws, retard the prompt and proper development of the city's physical characteristics. Stimulating local efforts to remove these restrictions can be one of the major benefits of the city demonstration program.

Second, apply high standards of design to buildings constructed and rehabilitated under the program in order to maintain distinctive natural, historical, and cultural characteristics.

Revitalizing the Nation's cities requires more than the construction and rehabilitation of homes and buildings. City demonstration programs should contain special efforts to make new and existing structures as fresh and attractive as possible.

Third, make maximum use of new and improved technology and design, including the introduction of cost reduction techniques to every aspect of a city's activities.

Massive rebuilding and restoration programs provide unique opportunities for applying the fruits of our technological advances to the homebuilding and rehabilitation industries. Cities should encourage the maximum use of such advances in the building and rehabilitation of homes and buildings.

Fourth, encourage good community relations and counteract the segregation of housing by race or income.

Fifth, indicate that the projects and activities carried on under the program are consistent with comprehensive planning for the entire urban or metropolitan area.

Central cities are the economic and cultural cores of larger urban or metropolitan areas. Their activities affect the entire urban or metropolitan area. And the cities, in turn, are affected by activities undertaken in the entire area. No element of rational urban development is more important than the carrying on of sound comprehensive planning for entire urban and metropolitan areas. Cities will be expected to continue to cooperate with other governmental bodies in the metropolitan area to assure and promote sound community growth.

Participation in the program

The ultimate success of this new program rests upon the ability of local people to assess their own most pressing problems and devise their own solutions to those problems. The cities themselves, by their actions, will determine which of them participate in this program. Those cities which can concentrate their resources, identify their problem areas, and develop sound imaginative solutions will be the first to qualify.

But all cities will benefit from the solutions to urban problems developed through the demonstration cities approach. Your committee is confident that every city will ultimately use this "total attack" approach to solve its urban problems.

The committee intends that the assistance provided by title I of the bill be given to cities of all sizes and in all parts of the country. This will enable the program to demonstrate the wide range of methods available to deal with the diversity of problems that face cities of all sizes throughout the country.

The committee expects the Secretary of Housing and Urban Development to take into account the special needs of smaller cities that do not ordinarily have the staff of technicians and experts which would enable them to move quickly under a program of this nature. In reviewing the content of a proposed demonstration program of the smaller cities, the committee expects that the Secretary will understand that, because of the small size and particular circumstances, many cities do not have all of the problems to which the criteria in title I of this bill are directed. The committee expects that the demonstration program of a smaller city will be deemed adequate to meet the criteria of title I of this bill if the program proposed is of such magnitude and includes such social services and activities, as are appropriate to its size and particular circumstances.

Additional urban renewal grant authority

During the hearings on the bill as introduced, it became clear that the urban renewal program would be the principal existing Federal grant-in-aid program utilized in connection with cities' demonstration programs. Fears were expressed by a number of witnesses that cities participating in the demonstration program would drain off large amounts of existing urban renewal grant authorization.

After consultation with the Department of Housing and Urban Development it was agreed that additional urban renewal authoriza-

tion was justified to assure that the demonstration cities program would not use a disproportionate amount of existing urban renewal grant authority to the detriment of cities which do not participate in the program, particularly small towns. To avoid this the bill authorizes \$600 million in new additional urban renewal grant authority which would be available after July 1, 1967, for urban renewal projects which are identified and scheduled to be carried out as one of the projects or activities included within approved city demonstration programs.

Your committee wishes to make very clear its intent that the demonstration cities program will not in any way change the flow of funds, as among cities, under existing grant-in-aid programs. The demonstration cities program does not provide any priority in the use of existing Federal grant-in-aid programs for cities which participate in the demonstration program. The demonstration cities program contemplates that the funds that would normally flow to participating cities from existing grant-in-aid programs, plus the additional—supplemental—grant funds authorized by title I of this bill, will finance the demonstration programs.

Authorization for planning funds

The bill as introduced contained an open-end authorization for appropriations of the sums necessary to carry out the demonstration program. The President's message transmitting the administration's demonstration cities program to the Congress estimated the Federal contribution to the cost of planning demonstration programs at \$12 million.

H.R. 15890 would authorize appropriations of \$12 million for financial assistance for planning comprehensive programs for the fiscal year ending June 30, 1967, and such sums as may be necessary for the fiscal year ending June 30, 1968. The committee believes that \$12 million would be adequate to finance planning by 60 to 70 cities which is the estimated number of participants contemplated by the Department in the first year. The committee desired to authorize sufficient planning funds for those additional cities which will be ready to begin planning demonstration programs during fiscal 1968.

Authorization for financial assistance to carry out demonstration programs

The bill authorizes the appropriation of such sums as may be necessary to make the supplemental grants needed to carry out the demonstration cities program. In this connection the President stated in his message of January 26, 1966:

For the supplemental demonstration grants I will recommend appropriations, over a 6-year period, totaling over \$2.3 billion, or an average of some \$400 million per year.

The bill makes clear that the authorization for appropriations to carry out demonstration programs begins with the fiscal year ending June 30, 1968. In addition, the bill expresses—

the sense of the Congress that appropriations * * * shall be made only on the basis of need demonstrated by plans submitted for comprehensive city demonstration programs, and that any such appropriation shall take into account the budgetary situation existing at the time it is made.

The committee wishes to stress that (except for \$12 million for planning demonstration programs) the funds authorized by title I of this bill will not begin to be spent until after July 1, 1967.

Elimination of the Federal coordinator

The original administration proposal provided for the mandatory appointment, for each demonstration city, of a Federal coordinator who would serve as an expeditor and help coordinate Federal contributions and technical assistance to the various projects and activities that are a part of the approved demonstration program.

During the hearings, considerable opposition to this provision developed. There was a fear that the Federal coordinator might become involved in determining the content of the locality's demonstration program, and might actually interfere with established relationships between the locality and Federal agencies administering ongoing Federal programs.

The committee therefore deleted the coordinator provision, but provided in title III of this bill for the appointment of a metropolitan expeditor for each metropolitan area which the Secretary finds needs and desires the services of such an expeditor. The appointment of a metropolitan expeditor would be made only after expressions of interest by, and consultation with, local governmental authorities in the metropolitan area.

Prevailing wage requirements

The bill requires that all laborers and mechanics employed by contractors or subcontractors on projects assisted directly or indirectly under the demonstration cities program shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor. The committee also adopted an amendment to make it clear that time and a half payment for overtime would be required.

TITLE II. GRANTS TO ASSIST IN PLANNED METROPOLITAN DEVELOPMENT

Evolution of Federal planning policies

During the past 15 years, the Federal Government has increasingly supported planned urban development.

Under the Housing Act of 1949, slum clearance and urban redevelopment projects were required to be consistent with local plans for the municipality as a whole.

The Housing Act of 1954 established the citywide workable program requirement for the expanded urban renewal program, for public housing, and for renewal-related FHA housing programs. The emphasis was placed on total community effort. Planning became an integral workable program element to help guide citywide growth and improvement.

The 1954 act also created the "section 701" urban planning assistance program. Grants were made available to help prepare the comprehensive plans required for local workable programs and renewal activities. Assistance was also provided for metropolitan planning activities, as distinct from citywide planning.

The first requirement for metropolitanwide planning as a condition to Federal assistance was applied to the open-space land program under the Housing Act of 1961. Next, the 1962 Federal-Aid Highway Act

established the requirement for metropolitan areawide transportation planning carried on cooperatively by States and local communities. In 1964 and 1965 new programs with areawide planning requirements were established to assist such activities as mass transportation, the provision of basic water and sewer facilities, and FHA-aided land development for subdivisions and neighborhoods.

These requirements have resulted in an increased tempo of metropolitan planning. Much of the planning is, however, still directed toward meeting the specific Federal planning requirements and has not resulted in effective overall planned development.

The proposed new program under title II would meet this problem through its special incentives for multipurpose planning and for area-wide implementation of plans. It would provide grants only when planning and implementation are found to be satisfactory for all major developments within the area.

Purpose of title

In brief, the new incentive for effective metropolitan planning and development consists of increased aid to federally assisted projects of types which generally affect the growth of metropolitan areas. This aid would be given only within metropolitan areas where all public and private development having major areawide impact is consistent with fully comprehensive and current metropolitan planning.

This represents a new approach to making planning effective. It would not deprive any project of aid it would receive under existing programs. It would simply increase assistance to cities and other State and local bodies that actually develop projects and administer local zoning and subdivision controls consistently with metropolitan plans.

This aid is distinct from existing aids to planning bodies for preparing the plans. It is also distinct from Federal financial aids, the purpose of which is to help provide specific types of well-planned public works.

Proposed new grant program

The title would authorize establishment of a new program of supplementary grants to localities and other public bodies in metropolitan areas. These grants would supplement existing Federal assistance to programs for transportation facilities (including mass transit, roads, and airports), water and sewer facilities, and recreation and other open-space areas. The supplementary grant could not exceed 20 percent of the cost of such projects, and the combined Federal grants (under existing law and under this title) could not exceed 80 percent of the project cost.

Grants would be available only within metropolitan areas which had established areawide planning and programing adequate for evaluating and guiding all public and private actions of metropolitanwide or interjurisdictional significance. Within such areas, the grants would be available only to municipalities or other public bodies which were carrying out the location and scheduling of public facilities, zoning and other subdivision actions, and other policies and actions of metropolitanwide or interjurisdictional significance in accord with such areawide and planning programing.

The need for additional assistance to metropolitan areas

This program, which is an outgrowth of existing Federal urban development policies, could be of great benefit to many of our people. Today, 125 million Americans—two-thirds of our total population—live in metropolitan areas. Twenty years from now, we will have added, according to conservative estimates, 54 million people to our metropolitan population, the great bulk of them in suburban areas. This is the equivalent of adding 5 New Yorks or 27 Washingtons. Federal, State, and local governments will be spending, over this period, billions of dollars for basic services for these areas—for schools, highways and other forms of transportation, parks, sewer and water systems, and other community facilities. Careful and effective planning can greatly reduce the capital costs of these services, and can, in addition, make great contributions to our goal of a suitable living environment for every American family.

Programs that would receive supplemental grants

Applicants under eight Federal grant programs would be eligible to receive supplemental assistance under the new program:

(1) Grants for basic water and sewer facilities, administered by the Department of Housing and Urban Development under the Housing and Urban Development Act of 1965;

(2) Grants for construction of sewage treatment works, administered by the Department of Interior under the Federal Water Pollution Control Act;

(3) Grants for highway construction (Federal-aid primary and secondary systems, but not the Interstate System) administered by the Department of Commerce;

(4) Grants for airport development, administered by the Federal Aviation Agency under the Federal Airport Act;

(5) Grants for urban mass transportation facilities and equipment, administered by the Department of Housing and Urban Development under the Urban Mass Transportation Act of 1964;

(6) Grants for acquisition and development of open space, or for beautification and improvement of public land, administered by the Department of Housing and Urban Development under the Housing Act of 1961;

(7) Grants for the acquisition and development of lands and waters for recreation purposes, administered by the Department of the Interior under the Land and Water Conservation Fund Act of 1965; and

(8) Grants for public works and facilities, administered by the Department of Commerce under the Public Works and Economic Development Act of 1965 (but only if they involve works or facilities of a type which the Secretary of Housing and Urban Development determines to be eligible under items (1) through (7)).

Basis for inclusion of programs

The programs supplemented by this bill serve some of the major needs of the Nation's growing metropolitan communities.

Transportation facilities, water and sewer systems, and recreation and open-space areas all knit together metropolitan regions and help to shape their growth. A highway or a rapid transit line, for example, can open large areas for suburban development, and influence the scheduling and location of other public facilities to serve such develop-

ment. Similarly, the location of water and sewer lines and of parks and other open-space areas can greatly affect local subdivisions and other development. But if planned inconsistently, these projects can distort urban growth, and one project can greatly reduce, or even negate, the benefits expected from another.

The supplemental assistance provided under this title is, therefore, directly keyed to critical types of development projects for which there has already been Federal recognition of need and a commitment to assist in meeting these needs.

Amount of grant

A supplemental grant could not exceed 20 percent of project cost. Thus, projects under an eligible program with a 50-percent grant level could receive a total of 70 percent in Federal support.

However, in no case could total Federal contributions exceed 80 percent. Under the mass transportation program, for example, Federal grants could be raised from 66⅔ percent only to a maximum of 80 percent, and not 88⅓ percent.

Also, the grant supplement could in no case exceed the basic grant amount.

Effect on basic grant programs

The supplemental grants provided under the new program would not affect the basic grant programs themselves, which would continue in full force and effect. The new program would merely increase the Federal share of the cost of development projects meeting the standards of metropolitan coordination set out in the bill. In this way, the proposed grants would reward State and local governments which have actually reached, and provide encouragement for others to reach, a high level of metropolitan planning and arrangements for coordinated development.

The amount of a supplementary grant will be based on a certification, by the Federal agency having responsibility for the basic program, of the cost of the assisted projects and of the amount of non-Federal contributions. These certifications and other aspects of administering their own programs will remain under the full control of the individual Federal agencies.

Eligibility of metropolitan areas

Before supplemental grants can be made for projects in a particular metropolitan area, it will have to be shown that (1) metropolitanwide comprehensive planning and programing provide an adequate basis for the location and scheduling of public facilities and land developments of metropolitanwide or interjurisdictional public significance; (2) adequate areawide arrangements exist to carry out such planned and coordinated development; and (3) public facility projects (whether federally aided or not) and other land developments having a major impact on the development of the area are in fact being carried out in accord with comprehensive planning and programing.

Eligibility of applicant

Not all localities or other public bodies in an eligible metropolitan area could receive supplemental grant assistance under the program. An applicant public body would have to show that public facility projects and other activities over which it has jurisdiction and which are of interjurisdictional or areawide significance are being carried out

in accord with the metropolitan planning and programing. The objective would be to further areawide and interjurisdictional coordination where that is needed.

Special attention would be given to whether the applicant is effectively assisting in, and conforming to, metropolitan planning and programing through the location and scheduling of its public facility projects and its establishment and consistent administration of zoning codes, subdivision regulations, and similar land-use and density controls.

This requirement could not, of course, be applied directly to a sewer district or other special-purpose body. If the applicant is not a county, municipality, or other general-purpose government, then the general-purpose government having jurisdiction over the location of the project would also have to qualify under the program.

Role of areawide comprehensive planning agency

The metropolitanwide comprehensive planning agency would be expected to assist materially in making these necessary determinations of eligibility. It would provide comments on the consistency of assisted development projects with areawide planning and programing. It would also report on the overall status of the area's development activity as it relates to carrying out areawide planning and programing.

Authorization for appropriation

The bill would authorize the appropriation of such sums as may be necessary to carry out the purpose of this title and the administration's budget for fiscal year 1967 carries a request for \$25 million for this purpose.

TITLE III. COORDINATION OF FEDERAL ACTIVITIES IN METROPOLITAN DEVELOPMENT

Title III of the bill emphasizes and reinforces the leading role which the Department of Housing and Urban Development must play in Federal efforts to assist our metropolitan areas. The development problems of these areas are growing increasingly complex, and so likewise are the Federal and State assistance programs. This has greatly increased the need for more effective coordination among, and transmittal of information about, such programs.

Metropolitan expeditors

Title III seeks to help in two ways. It would require the Secretary of Housing and Urban Development to appoint a "metropolitan expediter" for any metropolitan area he found to need and desire such assistance, after consultation with local governmental authorities in the area. The expediter, acting of course through a staff as necessary, would provide information, data, and assistance to local authorities and private persons (and also to all relevant Federal departments and agencies) with respect both to HUD programs and activities and to other public and private activities and needs which relate to such programs and activities.

Under this authority, the expediter would provide detailed information about, and continued liaison with, programs of the Department of Housing and Urban Development. He would also provide general information with respect to programs of other Federal and State

agencies. However, his function with respect to such programs would be only as a clearinghouse; those agencies themselves would necessarily continue to be responsible for providing more detailed information and continuing liaison, as part of their own program operations.

Such expeditors would be particularly helpful to localities in metropolitan areas participating in the demonstration cities program authorized by title I of this bill. However, even with respect to this program or other Housing and Urban Development programs, it is not intended that he have any authority to approve local applications for assistance. This will continue to be the function of the regional offices of HUD, as delegated by the Secretary.

Cooperation between Federal agencies

In addition, the bill would help to assure that all Federal programs related to metropolitan development are carried out in a coordinated manner by specifically authorizing the Secretary of Housing and Urban Development to obtain from other Federal agencies statistical data, program reports, and other material needed to carry out the metropolitan-area responsibilities of the Department. Federal agencies carrying out programs related to HUD programs or other responsibilities would provide such materials and otherwise cooperate with the Secretary in carrying out those responsibilities.

This provision is not intended to change the present arrangements for HUD reimbursement of other Federal agencies in providing special materials or other services. Rather, it is intended to emphasize that other agencies would cooperate fully in providing such services, consistent with their own authority and responsibilities.

This provision would be of special importance in connection with the functions of the new metropolitan expeditors. As described above, such expeditors must, in order effectively to assist localities within metropolitan areas, be able to act as a clearinghouse of general information and advice with regard to all metropolitan-area programs, rather than just those of HUD. It will be very important that the other Federal agencies having program responsibilities within such areas work closely with these expeditors.

TITLE IV. LAND DEVELOPMENT AND NEW COMMUNITIES

During the 1st session of the 89th Congress, the committee reported favorably on a new program of FHA mortgage insurance for privately financed land development which the Congress subsequently enacted as part of the Housing and Urban Development Act of 1965. That program, embodied in title X of the National Housing Act, had as its principal aim providing a stimulus to the production of an adequate supply of properly planned and improved residential sites. It also was based on a recognition of the need to provide a meaningful approach toward avoiding the wasteful disorganization which unfortunately has been the mark of much recent metropolitan land development. Since enactment of the program, the committee has observed with interest the attention the program has gained throughout the country.

Title IV of the bill is focused on extending Federal credit and other assistance to facilitate the development of entire new communities, and on strengthening and improving the title X FHA land development program.

Mortgage insurance for new communities

The bill would add a new provision to the existing FHA land development program under title X of the National Housing Act which would authorize the approval of a category of "new communities" for which sites could be acquired and improved with the aid of FHA mortgage insurance.

The concept of "new communities" is not unique, and many successful new town or community developments are already well underway. Despite the difficulties in securing adequate financial backing for these projects on reasonable terms, a number of large developers have undertaken the development of well-planned new communities.

The work of developing new communities across this Nation has been and will continue to be the proper responsibility of the private sector—the mortgage banking community, land developers, the building industry, and others. It should be clearly understood that the new authority contained in the bill is in no way directed toward supplanting these successful efforts, but only toward encouraging more participation and activity by builders and developers in new community development through the availability of FHA mortgage insurance.

The Subcommittee on Housing has heard detailed testimony on the proposed program of land insurance for new communities from the Secretary of Housing and Urban Development and from numerous other witnesses reflecting many differing viewpoints. After carefully evaluating all aspects of the proposal, your committee is persuaded that the new communities provisions of this bill would be instrumental in encouraging well-planned land developments on the scale necessary to move toward orderly metropolitan growth. As future population increases occur in metropolitan areas, the bulk of these increases will take place outside the central cities, in suburbs and new communities. Action is clearly needed now to meet the demands of rapid population growth and rapid urbanization in the immediate future.

New communities under the bill would consist of land developments meeting all other requirements under existing title X, and satisfying certain special requirements under the new provision added to title X. Developments would be eligible for approval if the Secretary of Housing and Urban Development determined they will, in view of their size and scope, make a substantial contribution to the sound and economic growth of the area in which they are located, in the following forms:

- (1) Substantial economies, made possible through large-scale development, in the provision of improved residential sites;
- (2) Adequate housing for those who would be employed in the community or the surrounding area;
- (3) Maximum accessibility from the new residential sites to industrial or other employment centers, and commercial, recreational, and cultural facilities in or near the community; and
- (4) Maximum accessibility to any major central city in the area.

In the committee's view, it is clear that there are substantial problems involved in carrying forward land development for new communities on any sizable basis. Except in selected circumstances, developments cannot ordinarily approach the scale or scope necessary to assure overall economic success. For this reason, many economies

which otherwise might have resulted—to the building industry, the consumer and the locality—have not been realized.

Under the bill, developments will be planned so as to assure a broad range of urban facilities and services. New communities will more readily provide nearby industrial, commercial, civic, and recreational facilities, minimizing transportation costs and efforts. They will also provide a fuller range of housing as to both the range of incomes to be served, and as to design. FHA credit assistance for these large-scale developments will promote long-range economies in the use of our land resources, permit greater flexibility in the private housing market, and, above all, assure a greater range of choice for the home-buying public.

The new community might be served by several schools, a hospital, churches, and other community facilities. New towns, with appropriate planning, could enjoy permanent open space, natural water resources, forests, parks, and recreation areas.

One factor which would be considered in approving a development as a new community, is its maximum accessibility to any major central city in the area. Special emphasis would be placed on maintaining close relationship between new communities and nearby major central cities. Along with existing development, redevelopment, and mass transportation aids which are accorded cities under present law, the central cities will be able to enhance their economic base and become even more the major service, educational, cultural, and distribution centers of their region. In terms of economic development, this will benefit both the new communities and the cities.

One important purpose of the land development program enacted last year was to encourage the participation of small builders. This emphasis applies particularly with respect to new communities, and section 403 of the bill contains a clarifying amendment to this end.

The availability of FHA mortgage insurance under the new authority is especially intended to permit smaller land developers and smaller local homebuilders, as well as local mortgage lenders, to participate in the land development program. Small- and medium-sized builders will be better able, under this legislation, to obtain lots at reasonable prices on which to build houses in new communities. An increasingly important segment of tomorrow's housing market will thereby be opened to them, to the benefit both of the builders and of the new communities themselves.

One of the most persistent problems of small builders is the difficulty of securing a steady supply of reasonably priced improved building lots. They simply do not have the cash or credit facilities or even the time needed to undertake a land purchase and land improvement program to supply them with an even flow of good building sites in well-planned large subdivisions or in attractive new communities. The homebuilding industry as a whole is finding it increasingly important to market houses on the basis that the entire neighborhood or the entire new community will provide unusual attractions for the homebuyer. This trend in the industry toward large-scale planned development becomes increasingly apparent every building season.

The program of FHA mortgage insurance for land development for new communities can be helpful to small builders in a number of ways. For example, under this program the small builder can join with other small builders to acquire and jointly develop a site com-

mensurate with their combined needs and capacities for several years of home construction. The ability to pool equity and the eligibility of fees for professional services under the FHA-insured land development mortgage enable the small builders to retain competent technical land development staff for the operation. Each builder, however, can retain his individual building and sales operation with respect to his own lots within the larger project, and all can share in the profits on land for commercial property within the project made valuable by the aggregation of new families.

Another way in which small builders may participate is by purchasing the desired number of contiguous lots from land developers who are not themselves homebuilders. Without the benefit of FHA credit assistance, such land developers are often forced to obtain credit backing or other participation from large- or medium-sized homebuilders in order to enable the land developers to obtain the funds with which to prepare sites in a large development. In the case of large new communities, even more extensive backing or participation is required from large homebuilder organizations. In return for such backing or other participation, the land developer must normally make firm commitments to the participating homebuilders under which the latter will have first choice of the best blocks of improved lots, thus leaving random and inferior lots, if any, to smaller builders. The availability of FHA mortgage insurance will in very many cases make it unnecessary for land developers to make such advance commitments to large- and medium-size builders. Instead, the land developer can carry the site preparation stage with the insured FHA mortgage loan; sell lots on the free market; and thereby make additional improved lots available to smaller builders.

Benefits which will accrue to smaller builders, however, will not be at the expense of medium-size and larger builders. Increased availability of credit for rational and orderly development is intended to result in increasing the supply of improved building lots at cheaper prices for all builders.

Longer mortgage maturities would be authorized for new communities under the bill. Under existing law, FHA-insured land development mortgages are limited to a maximum maturity of 7 years, except that longer maturities are permitted in the case of privately owned water or sewerage systems. Under the bill, this exception would be extended to land developments for new communities.

Other provisions affecting new communities

FNMA special assistance.—FHA-insured land development mortgages under title X are presently eligible and would continue to be eligible for FNMA purchase under its regular secondary market program. However, since the principal aim of the new authority provided in the bill is to encourage new community land developments of necessary and appropriate scale and scope, the Federal National Mortgage Association would be authorized, if needed, to purchase new community land development mortgages at the more generous terms allowable under FNMA's special assistance program. This provision will be particularly helpful during periods such as the present, when mortgage funds are in short supply.

Urban planning grants.—The bill would make available urban planning grants, under the present program of urban planning assistance, to official governmental planning agencies for areas where new com-

munities are to be developed with mortgage insurance assistance, or where land is being acquired by land development agencies designated or created pursuant to State law. Such Federal grants to local planning agencies are presently available for metropolitan areas, depressed areas, and federally impacted areas.

Public facilities.—New communities would be eligible for public facilities provided by municipalities or other political subdivisions, with the assistance of loans under the public facility loan program. The population limit (50,000) on the political jurisdiction eligible to receive public facility loans would be waived in the case of public facilities serving new communities within jurisdictions whose total population would otherwise make them ineligible to receive such loans.

Increased maximum mortgage amounts for FHA-aided land development

The bill also broadens the scope of the overall existing FHA land development program by increasing from \$10 million to \$25 million the maximum outstanding mortgage amount permitted for a single development. This increase will provide the type of financial flexibility necessary to assure sufficient credit assistance for very large developments, whether they are well-planned subdivisions or entire new communities.

Loans to land development agencies

In addition to making credit assistance available to private developers to enable them to create well-planned new communities, your committee believes credit assistance, in the form of direct loans, should be available to public land development agencies.

The new loan authority provided in the bill is designed specifically to assist those State governments wishing to establish land development agencies to promote the planned development of future urban growth, taking full advantage of the State's unique powers in this area. Under State law, cities, counties, and other political subdivisions could be designated as participating land development agencies. Through these agencies, State governments responsible for the well-being of all of their citizens would become instrumental in fostering comprehensive planning of new areas expected to be populated within the foreseeable future.

The bill would authorize the Secretary of Housing and Urban Development to make loans to land development agencies to finance the acquisition (but not the improvement) of open or predominantly undeveloped land to be utilized for developing well-planned residential neighborhoods, subdivisions, and new communities. Such agencies would be public corporations, including municipalities, designated or created pursuant to State law, and the land acquired would be sold to private builders, possibly after installation of basic public facilities, for the construction of well-planned developments. These could be residential neighborhoods, housing subdivisions, or more extensive developments, including new communities authorized under title X, as amended by the bill. Loans would be limited to an amount not exceeding the total cost, as approved by the Secretary, of the acquisition of a fee simple or other interest in the land, including capitalization of interest for the term of the loan, and related expenses. The loans would be required to be reasonably secured and would be repayable within a period not exceeding 15 years at an interest rate of not more than the average annual interest rate on all interest-bearing obligations of the United States forming a part of the public

debt, adjusted to the nearest one-eighth percent, plus one-half percent. These loans could not be made unless the Secretary determined that—

(1) Private financing was not otherwise available on reasonable terms;

(2) The development of a well-planned residential neighborhood, housing subdivision, or community on the land would be consistent with a comprehensive plan or with comprehensive planning, meeting criteria established by the Secretary, for the area in which the land is located; and

(3) A preliminary development plan for the use of the land met the criteria which he has established.

Criteria for comprehensive planning would be designed to assure maximum accessibility of planned developments to any major central cities in the area.

Under the bill, land acquired would be developed in accordance with a development plan consistent with the provisions of the loan agreement. Sales of the land to private persons could not be for less than its fair value for uses in accord with the approved development plan. Development plans, wherever feasible in the light of current conditions, would be required to encourage the provision of sites providing an appropriate balance of types of housing to serve families having a broad range of income. The Secretary would adopt requirements necessary to encourage the maintenance of a diversified local homebuilding industry and broad participation by builders, particularly small builders.

Loans authorized under the bill would be made from the revolving fund established by title II of the Housing Amendments of 1955, to finance the public facility loan program. After some experience under the loan program indicates that this type of State and municipal activity is both practical and successful, the committee is hopeful that private investor interest in the obligations issued by land development agencies can be expected. Private funds could then most likely be obtainable at interest rates below the interest rate to be charged for the Federal loans.

Loans to land development agencies under the bill would not conflict with, or overlap, the mortgage insurance assistance for land development provided under title X of the National Housing Act. It is contemplated that loans to land development agencies under the new authority would in almost all cases take place at an earlier stage in the development of land than would the loans insured under title X. For example, a loan to a land development agency might finance the acquisition of land which, when sold by the agency, could be developed with financial assistance under title X, or developed without any form of Federal or State assistance whatsoever. At this point (the point of intensive development of the land for a residential neighborhood, subdivision, or new community) the title X mortgage insurance program would begin to operate.

TITLE V. FHA INSURANCE OPERATIONS

Title V would (1) authorize a new experimental FHA mortgage insurance program which would provide financing at below market interest rates for the purchase and rehabilitation of housing and for its resale to low-income individuals and families, and (2) make changes in existing FHA housing loan insurance programs.

Below market interest rate financing of sales housing for low-income individuals and families

Homeownership is a fundamental goal of our national housing policy. Through legislation extending back to the early 1930's, millions of American families have been able to achieve this goal who could not otherwise afford it. In spite of this, there are still many families whose incomes fall just short of the level needed to buy homes of their own. A major deterrent to homeownership is the extremely heavy burden of financing costs which in many cases amount to more than the cost of the home itself. The committee has included a provision in the bill, section 506, which would offer on an experimental basis, FHA financing to low income families at the same 3-percent interest rate now available to rental and cooperative projects for moderate income families and to housing for the elderly. This financing would be available in neighborhoods which consist largely of deteriorating or substandard housing and could be used only if the housing is rehabilitated to bring it up to an adequate level. Through this approach, there is an immediate public benefit when the housing is rehabilitated and the neighborhood improved, and there is the further benefit of making homeownership possible for deserving families.

The program would enable low-income individuals and families to buy rehabilitated homes with as low as \$200 downpayments and with FHA-insured mortgages bearing below-market interest rates. FHA-insured below-market interest rate mortgages would also finance the purchase of the housing by nonprofit organizations and its rehabilitation by those organizations for resale to the low-income individuals and families. The Federal National Mortgage Association would assist in the financing of the housing by commitments to purchase and purchase of the mortgages under its special assistance program. Under existing law the maximum interest rate on the mortgages would be 3 percent per annum.

The program is designed to enable highly motivated families to buy their own homes rather than subsidizing their renting of a house or apartment. It is patterned after programs being carried out in St. Louis and a few other cities, and is based on the premise that homeownership can play a large part in the conservation of neighborhoods and the prevention of the growth of blight and slums.

Under the bill, mortgages aggregating not more than \$20 million in outstanding balances at any one time could be insured by FHA where the mortgagor is a nonprofit organization financing the purchase and rehabilitation of deteriorating or substandard housing for resale to low-income home purchasers. The housing must consist of five or more single-family dwellings. They can be detached, semi-detached, or row construction. The mortgage would bear interest at the rate permitted for below-market rental housing under the FHA section 221(d)(3) program (currently 3 percent per annum), and could be amortized in accordance with such terms as the Secretary of Housing and Urban Development may prescribe. The amount of the mortgage could not exceed the appraised value of the property plus the estimated cost of rehabilitation. The mortgage would provide for the release of the individual dwellings from the lien of the mortgage when the dwellings are sold.

A nonprofit mortgagor must demonstrate to the satisfaction of the Secretary that the property to be rehabilitated is (1) located in a neighborhood which is sufficiently stable and contains public facilities and amenities that would support long-term values, or (2) that the rehabilitation to be carried out by the mortgagor, plus private and public activities in the neighborhood, will be of such scope and quality as to give reasonable promise that a stable environment will be created in the neighborhood.

The nonprofit mortgagor would be required to agree that after the housing is rehabilitated it will offer to sell the dwellings to individuals or families who have incomes below the maximum amount that would permit them to be eligible (in their area) for rent supplements under the Housing and Urban Development Act of 1965. Under that act, the income cannot exceed the maximum amount permitted in the area for occupancy of federally aided low-rent public housing.

Purchase of the dwellings by the low-income purchasers would be with FHA-insured mortgages bearing the same low interest rate as the mortgage given by the nonprofit organization selling the housing. The downpayment would be not less than \$200, which could be applied in whole or in part toward closing costs. The purchase price would be that portion of the unpaid balance of the nonprofit organization's mortgage covering the property which is allocable to the individual dwelling being sold (plus the \$200 downpayment).

Upon sale of a dwelling by the nonprofit organization, the dwelling would be released from the lien of the mortgage given by the nonprofit organization for financing the purchase and rehabilitation of the housing.

A mortgage given by a home purchaser under the program would be required to contain a provision that if the purchaser does not continue to occupy the housing, the interest rate will increase to the highest rate permitted by FHA under the section 221 program at the time the commitment was issued to insure the mortgage of the nonprofit organization which rehabilitated the housing. However, the increase in interest rate would not be applicable if the home purchaser sells the property to another purchaser who is either (1) the nonprofit organization from which he purchased, (2) the local housing authority of the area, or (3) another low-income purchaser approved by the Secretary.

Pending sale of individual dwellings, a nonprofit organization could operate them as rental housing, with rentals regulated by the FHA in the same manner as the below market 221(d)(3) rental housing.

Provision is also made for full or partial waiver by FHA of the payment of premiums for mortgage insurance under the new program.

Changes in existing FHA housing loan insurance programs

A number of modifications in existing FHA housing loan insurance programs would be made by title V, and the Capehart military housing program would be reactivated.

FHA financing for veterans

The new liberal mortgage insurance program for housing for veterans authorized by the Housing and Urban Development Act of 1965 would be made available to a veteran even though he has previously received a VA direct, guaranteed, or insured home loan. Under this program a veteran can purchase a home with an FHA-insured

mortgage with no downpayment required on the first \$15,000 of the value of the home, a 10-percent downpayment on the value of the home over \$15,000, but not in excess of \$20,000, and 15 percent downpayment on the value in excess of \$20,000. Your committee sees no reason why the benefits of this liberal form of FHA financing should be denied to veterans who previously used their GI entitlement.

Cooperative housing

The FHA cooperative housing program would be liberalized in four respects:

1. The per family unit limitations on the amount of a cooperative housing mortgage would be increased by \$2,500.

2. The amount of a supplemental insured loan could be larger where the loan finances improvements of community facilities for an existing cooperative housing project. Under present law, an insured supplemental loan is limited to an amount which, when added to the outstanding mortgage indebtedness on the property, creates a total outstanding indebtedness which does not exceed the original principal obligation of the mortgage. Under the amendment, a supplemental loan for improvements or facilities could be up to 97 percent of the value of the improvements and facilities, so long as the total outstanding indebtedness does not exceed the limits imposed under the law on the original mortgage financing the housing.

3. Compliance with prevailing wage requirements applicable to the construction of multifamily housing could be waived where families who will occupy the housing donate their labor in order to lower their housing costs.

4. Certain technical obstacles would be removed to the transfer of insurance of management-type FHA cooperative housing insured mortgages to insurance on a mutual basis.

Mortgage limits—Low income housing

In order to enable the FHA home mortgage insurance program for low- and moderate-income families [sec. 221(d)(2)] to be more operative under present increased housing costs, the limit on the amount of an insured mortgage would be increased from \$11,000 to \$12,500 in the case of a single-family dwelling, and from \$18,000 to \$20,000 in the case of a two-family dwelling.

Waiver of deduction of insurance benefits when multifamily mortgage is assigned

Another provision in the bill would help mortgagors of FHA multifamily housing projects who, in spite of good management, are in default on their mortgages. Under this provision, FHA could, in cases of assignments of mortgages in default, waive all or part of the 1 percent deduction from insurance benefits it pays the mortgagee. Under the present law, because of this deduction from insurance benefits when a mortgage is assigned to FHA rather than being foreclosed, many mortgagees may exercise their option to foreclose, since the 1 percent deduction in the case of assignment may be greater than the cost of foreclosing. This results in foreclosures in cases where the mortgagors could, if given more time, through good management, restore their mortgages to a current condition. Mortgagees would be more willing to assign the mortgages rather than foreclose if the deduction from insurance benefits in cases of assignment is waived in whole or in part. If a mortgage is assigned to FHA, FHA can permit

the mortgagor to continue operating the project and in some cases help the mortgagor to cure the default in the mortgage. This would be a benefit not only to the mortgagor, but also to the FHA.

Reactivation of Capehart armed services housing program

There is a pressing need in many communities for additional housing for servicemen and their families in connection with military bases. Unfortunately, budgetary restrictions limit the amount of funds available for direct military construction of this housing. To meet this need, the bill would revive the program of FHA mortgage insurance to finance housing for the Armed Forces (popularly known as the Capehart program). Because this program employs private capital, it can provide this much needed housing without strain on the Federal budget. The bill would authorize financing for 60,000 such units over the next 3 years with a maximum average amount of \$17,500 per dwelling unit. The maximum interest rate on these loans would be 5½ percent.

TITLE VI. MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

Title VI of the bill amends the National Housing Act to add a new title XI, authorizing the Secretary of Housing and Urban Development to insure mortgages on facilities for the group practice of medicine, dentistry, and optometry. (The terms "medicine" and "medical" as used in the new title XI include physicians who are duly licensed doctors of medicine or doctors of osteopathy.) The interest rate on mortgages insured under the program could not exceed 6 percent and the Secretary of Housing and Urban Development would be authorized to fix premium charges up to 1 percent of the principal obligation outstanding at any time, to cover the costs of administration and the risk of default. An insurable mortgage under the new program would be limited to 90 percent of the estimated value of the facility after construction or rehabilitation (with a maximum mortgage amount of \$5 million), and would have a maximum maturity of 25 years.

These new provisions would carry out the recommendations of both President Kennedy and President Johnson that the Federal Government guarantee the repayment of loans for the construction or rehabilitation of group practice facilities in order to ameliorate the problems of securing long-term financing for these facilities, which typically have high initial capital requirements.

Group practice is one demonstrated way of reducing hospital utilization, and of making more efficient use of scarce manpower and expensive diagnostic equipment. The demands for health care in this country are increasing rapidly, from \$27 billion in 1960 to approximately \$40 billion last year, with private spending for personal health care in 1965 alone amounting to more than \$26.1 billion—about 6.1 percent of personal consumption expenditures. The costs of health care are also increasing; the cost of hospital care has risen 5 to 7 percent a year for the past 20 years. The scarcity of health manpower has required congressional action several times in recent years, with new laws giving Federal support to the training of doctors, dentists, and other highly trained professionals. Even with these efforts, the

ratio of physicians to population is expected to remain about the same over the next decade. The trend toward specialization has severely reduced the number of doctors available for general practice. The preventive diagnostic care which group practice can provide is one answer to the gradual disappearance of the family physician. Moreover, continuous common recordkeeping by all of the members of the group practice, and "one stop medicine" are distinct advantages to the patient.

Recently, on June 23, 1966, the House passed a bill to provide Federal aid for the training of personnel at the technological and technical levels in the health occupations, such as medical technologists, dental hygienists, X-ray technicians, and others. These middle-level and subprofessional staff workers are in very short supply even with the present demands for services, and the prospect is that the shortages will continue for some time into the future. In a group practice, the services of these personnel are shared by the physicians in the group, with the result that fewer technicians are required for the number of patients who receive care.

New methods of providing payment for hospital care—the increasing amount of private insurance coverage incident to employment, and public programs such as medicare—will result in more people who need services being able to make their demands effective. If the existing supply of health facilities and manpower is not to be overtaxed, it is important to make every attempt to reduce unnecessary hospital utilization. Evidence was presented to the committee that experience under the Federal employees health benefits program has demonstrated that hospital utilization rates are significantly lower among those persons who obtain their medical services through group practices. Every day of needless hospitalization avoided is an important saving to the consumer with hospital costs now averaging \$42 a day in the United States. It is important, too, as one way to stretch the existing supply of health care facilities, if we are to succeed in making the best in health care available to all in this country who need it.

As the techniques of diagnosis and treatment become more complex, the cost of equipment becomes a more significant factor in the cost of providing medical care. Just as there is plain efficiency in sharing technical and subprofessional staff, such as nurses, laboratory and X-ray technicians, there is an equally obvious efficiency in the sharing of expensive machinery, such as laboratory and X-ray equipment.

Doctors in group practice can see more patients per week. And at the same time, the committee was told, doctors in group practice are better able to maintain their skills at the highest levels, because they share responsibility for patient care with their colleagues, and it is easier for them to participate in continuing education programs. As the practice of medicine continues to change rapidly, this is an especially important advantage to the patient.

The need to provide mortgage insurance as an encouragement to the development of group practice was demonstrated not only by the shortages of health resources and the efficiencies of group practice, but also by cases of established need in which group practices have been unable to secure adequate long-term financing. The reluctance of many lenders may be attributable to the fact that a group practice facility is not always readily convertible to other uses. On the other

hand, the committee heard evidence that individual doctors and dentists generally have good credit ratings and are able to obtain financing for individual practices. The committee therefore included an amendment to provide that mortgage insurance would only be available where a showing is made that the loan could not be obtained on comparable terms without mortgage insurance.

To insure that the advantages of group practice are in fact realized through the construction of the facilities insured under this title, the bill requires that a medical, dental, or optometric group engage in group practice as their principal professional activity and as a group responsibility; that they engage in the coordinated practice of their profession, share common expenses, medical and other records, and substantial portions of the equipment and the professional, technical, and administrative staffs. A medical or dental group could operate either on a prepayment basis or on a fee-for-service basis, so long as these organizational requirements of group practice were met.

While the evidence before the committee justified extending Federal mortgage insurance to encourage the development of group practices, the facilities are only the tool for accomplishing the beneficial objective of providing good health care, and the committee desires to make it absolutely clear that there is no intention to create a bonanza and to allow windfall profits to be reaped out of the real estate operation. The committee therefore amended section 1106(3) to provide that the mortgagor must be a nonprofit organization. This amendment of course has nothing to do with the size of fees charged by doctors or dentists, or the amount of income that the members of the group, either collectively or individually, can derive from the practice of their profession. The amendment does not exclude profit making groups. The result of this amendment will be that the medical or dental group, if not itself nonprofit, must enter into an agreement with the nonprofit mortgagor for the use of the insured facility, and the income derived from the medical or dental practice will be fully reflected to the members of the group.

The bill applies the prevailing wage requirement of the Davis-Bacon Act to construction aided by mortgage insurance under this new title. In addition, the committee adopted an amendment which would require payment of wages at time and one-half rates for work in excess of 8 hours per day or 40 hours per week.

TITLE VII. RURAL HOUSING

Authority to buy new homes

Section 701 of the bill would amend the Housing Act of 1949 to permit the purchase of newly constructed homes. Many families are interested in buying new buildings but under the existing law only dwellings and farm service buildings that have been previously occupied may be bought with loan funds.

The need for better housing in rural America is great. A third of our population lives on farms, in the open country and in small rural towns with populations of not more than 5,500. This third of the population has half of the substandard housing in the Nation. Housing credit always has been scarce in rural areas and in recent months has been even more difficult to obtain.

The authority to buy older homes has proved to be an effective means of providing housing for rural families at a reasonable cost.

It has been particularly useful in connection with low-income families. But it has become increasingly clear that restricting the authority to the purchase of previously occupied buildings is an impediment to carrying out the rural housing program most effectively.

Broadening title V of the Housing Act of 1949 to permit making loans to buy newly constructed homes would enable many families who cannot get credit from other sources to obtain adequate, modest housing with less delay and difficulty than they now encounter in planning, contracting, and building. It also would encourage local builders to participate more extensively in the rural housing program. This would be an economic stimulant to the local economy by offering market outlets for materials and employment to local residents. Local builders in small towns customarily build several houses a year with the prospect of selling them. Such builders could build houses with the expectation of selling them to families who might obtain loans from the Farmers Home Administration.

As with all houses financed with rural housing loans, finished homes would have to meet Farmers Home Administration standards. In no case would a loan be made in excess of the appraised value of the property as determined by the Farmers Home Administration.

Use of cosigners for title V loans

Section 702 would permit the use of a cosigner on any rural housing loan where the applicant does not have sufficient repayment ability. Under existing law, cosigners may be used only for elderly applicants whose income is too low to provide reasonable assurance of being able to repay the loan.

The housing needs among the low-income rural families are particularly acute. More than half of the rural families who in 1960 had incomes of less than \$3,000 were living in houses that were dilapidated or lacked complete plumbing. Their personal incomes are not adequate to provide necessary assurance that the loan payments will be met. This problem of low-income families with poor housing in rural areas could be helped considerably if they could use cosigners to compensate for income deficiency.

With the proposed amendment, many low-income families will be able to obtain loans to repair, improve, or even buy a home of their own. Without the amendment, such families would have to continue to live in substandard housing.

Increase in maximum assistance under section 504 of the 1949 act

Section 703 would increase the maximum assistance available under section 504 of title V of the Housing Act of 1949 from \$1,000 to \$1,500. Under section 504, loans and grants or combination loans and grants not exceeding \$1,000 may now be made to families with extremely low incomes to help them make essential repairs to the homes they own. If the family has enough income to repay a small loan to make minor improvements such as patching or replacing a roof, making the house weathertight, or providing a safe and sanitary water supply, such a loan may be made. In case the family does not have enough income to repay such a loan, they may qualify for a grant to make minimum essential improvements so as to remove hazards to the health and safety of the family and the community.

The \$1,000 maximum limit on assistance under section 504 was established in 1962. Building costs have increased substantially

since then. Furthermore, experience has shown that the \$1,000 often is inadequate to make the necessary repairs to a rural dwelling to enable the family to have even minimum shelter. Another consideration is that the Housing and Urban Development Act of 1965 authorized grants in amounts up to \$1,500 to certain urban families. Raising the maximum amount of assistance available under section 504 to this level for low-income rural families would help give them equality of opportunity with urban families to improve their housing.

Extension of purposes of direct loans for rental housing

Section 704 would amend section 515(a) of the Housing Act of 1949 to permit making loans to private nonprofit corporations and consumer cooperatives to provide rental housing for low-income rural residents even though they are less than 62 years of age.

Under present law such rental housing may be provided only for rural elderly persons with low or moderate incomes. This phase of the rural housing program has demonstrated its effectiveness in meeting the housing needs of the elderly rural families, and the committee believes it should be extended to low-income families in all age groups.

There are many persons under 62 in rural America with low incomes whose housing needs can best be met by economically constructed rental housing operated on a nonprofit basis. These are families who because of personal preference or lack of sufficient income are unable to maintain a privately owned home. Some are young families who are trying to become established and have not reached their maximum level of earning. Others are persons who have passed their earning peak but are not yet 62 years old and do not have sufficient income to acquire a decent home of their own.

About 96 percent of the houses in rural areas are one-unit structures. In 1960, 70 percent of the rural families with incomes of less than \$3,000 who were renting houses were living in homes that were dilapidated or lacked plumbing. Making rental housing available to all age groups would help many of these low-income families have a decent home in which to live.

TITLE VIII—MISCELLANEOUS

Title VIII would make needed changes in a number of existing housing and urban development programs, and provide new authorities for (1) applications of new technology to housing and urban development, (2) studies and demonstrations in the field of urban hydrology, and (3) construction financing for FHA cooperative and low-income multifamily housing.

Construction financing for FHA cooperative and section 221 housing

The current mortgage market has made it increasingly difficult to obtain construction financing at reasonable interest rates and reasonable service charges for cooperative housing and nonprofit rental housing for low-income families.

The bill would assist in the provision of construction financing for such housing by authorizing the Federal National Mortgage Association to make FHA-insured advances during construction of the housing where the mortgagors are cooperatives or nonprofit organizations, and the mortgages financing the housing are to be insured by FHA under its cooperative housing (sec. 213) program or its section 221(d) (3) program for low-income housing. This would include the below-

market (d)(3) housing. FNMA advances would be made in cases where it has made commitments to purchase the mortgages. The advances would be limited to 95 percent of the construction financing.

The lending institutions providing the balance of the construction advances would handle all servicing and processing work through the FHA final insurance endorsement, as FNMA is not staffed to perform those functions.

Use of open-space grants for development of existing open-space land

Provisions of this title will remove an undesirable restriction on the authority of the Secretary to assist in the development of land under the open-space grant program. Present law authorizes him to make up to 50 percent grants for the development of open-space areas with—for example—access roads, landscaping, and basic recreation facilities. However, such grants may now be made only for the development of open-space land which has itself been acquired with a grant under the program.

There is an urgent need for increasing the accessibility and usability of open-space land in our urban areas, as well as to acquire additional land in advance of urban development. Land acquired under the open space program generally forms only a small part of the land suitable for such improvement. The present restriction on development grants thus tends to prevent Federal assistance for open-space development from being based on actual local needs and priorities. Therefore the bill would authorize the use of Federal matching grants under the open-space program for the development and improvement of open-space land whether or not it was acquired under this program.

Applying advances in technology to housing and urban development

This title authorizes a program of research and studies to test and demonstrate new and improved techniques and methods of applying technological advances to housing construction, rehabilitation and maintenance, and urban development activities. The provisions of the title would direct the Secretary of Housing and Urban Development to encourage and promote the acceptance and application of modern techniques and methods of constructing, rehabilitating, and maintaining housing, as well as the application of technological advances to urban development activities, by all segments of the housing industry, communities, industries engaged in urban development activities, and the general public. Considerable technological advances are being made by private industry and State and local governments both with respect to the cost and quality of home construction and with respect to meeting the complex problems of urban development. Constant experimentation is being carried on in such areas as housing design, materials, and construction techniques, and in making our urban centers safer, healthier, and more attractive places in which to live.

The problem is not a lack of technological progress. Rather, it is that these continuing advances in technique are often slow to be applied. Builders are reluctant to risk making major changes in designs or materials for fear of adverse market reaction. The home buyer does not readily accept deviations from traditional housing design or materials. Communities that could benefit enormously from the application of such new urban techniques as large-scale centralized treatment of wastes or new methods of intracity transportation are often slow to move along these lines.

The program authorized by this bill will not involve basic research to develop technological improvements. It is designed to encourage and assist industry to continue to reduce the cost and improve the quality of housing and urban development activities through the application of existing advances in technology created by private research and development efforts. The program will be carried out by the Secretary directly, through contracts with public or private bodies or agencies, or by working agreements with other departments or agencies of the Federal Government. The bill authorizes appropriations of such sums as may be necessary to carry out the program.

Payments with respect to certain properties at or near military bases ordered to be closed

The Housing and Urban Development Act of 1965 included a provision designed to protect servicemen and other employees at military bases closed by order of the Department of Defense from suffering the loss in value on their homes entailed by the closing of the base. That provision, however, suffered from a serious shortcoming in that it provided only for acquisition of the housing (at the preclosing value) and offered no protection to the serviceman or employee who lost his home through foreclosure or who was forced to sell at a depressed price because of inability to carry the cost of an unoccupied home at the closed base as well as of a home at his new place of employment.

The Department of Defense has not requested an appropriation to carry out the provision of section 108 of the 1965 act but after study has submitted legislative recommendations to the committee to replace that section. One of those recommendations was meritorious in that it provided aid to the serviceman or employee who had suffered a loss but who had already been forced to dispose of his home. While limited in scope as proposed by Department of Defense, the committee feels that this additional authority is needed and section 810 of the bill would authorize the Secretary of Defense to pay the loss in value between preclosing prices and the value at actual time of foreclosure or sale without acquiring the property. In taking this action, the committee feels that it is providing well-warranted protection to servicemen and other employees at closed military bases who have suffered a loss for reasons beyond their own control and it further feels that the Secretary of Defense should request an appropriation to carry out the will of Congress.

Hydrology research for urban development

The bill provides new authority for the Secretary of Housing and Urban Development to conduct studies, investigations, research, and demonstrations to develop and improve all aspects of the science and technology of urban hydrology having reference to storm drainage systems for urban and metropolitan areas. The authority would be carried out through contracts with public or private bodies and agencies, or by working agreements with other Federal departments or agencies.

Under the new program, the Secretary will evaluate the studies, investigations, research, and demonstrations authorized, and will make available the information resulting from these activities through publications and other appropriate means. A report will be submitted annually to the President and to the Congress concerning the activities financed under the program, with such recommendations as

the Secretary deems desirable for additional legislation to develop the science of urban hydrology and its application.

One of the most significant and urgent economic and technical needs in urban development is to minimize direct and indirect storm water losses and to reduce the need for future storm drainage control expenditures. The responses of urban areas to the problems of rainfall and water runoff, the definition of potential flood hazards and their probability, the approaches to proper design of storm drainage and storm water protection facilities, as well as the economic, financial, and legal needs and considerations in urban drainage and urban flood control design, are presently ill defined. For this reason, the committee is of the opinion that improved design techniques and procedures will be necessary for appropriate areawide urban and metropolitan planning, for minimizing future urban storm damages and urban storm water control expenditures, and for fostering conservation practices in industrial and domestic urban use of water. The new authority provided is intended to (1) stimulate a coordinated research and development program to develop and improve all aspects of the science and technology of urban hydrology having reference to storm drainage systems for urban and metropolitan areas, (2) provide the means for evaluation of the studies, investigations, research, and demonstrations undertaken, and (3) make available, through publications and other appropriate means, information resulting from the studies, investigations, research, and demonstrations undertaken. The bill authorizes appropriations of such sums as may be necessary to carry out the program.

Code enforcement under urban renewal

The Housing and Urban Development Act of 1965 authorized new assistance for intensive code enforcement under the urban renewal program. This provision is aimed primarily at areas where code enforcement can arrest developing blight or restore neighborhoods with a minimum of reliance on outright clearance. That provision recognized that it would not be economic for a city to require substantial expenditures by private owners to bring deteriorating homes up to full code standards in cases where demolition under the urban renewal program or for other reasons was imminent. It has come to the attention of the committee that this has been interpreted by the Department to deny code enforcement assistance in blighted areas where eventual clearance appears likely even though such action may be some years away. Meantime, the housing continues to be substandard and may even deteriorate further, working a serious hardship on the occupants. The committee feels that this provision should be interpreted to provide the limited aid involved in code enforcement projects in such cases so that the housing will provide at least minimum decent conditions in the period while further action is being considered or planned.

SECTION-BY-SECTION SUMMARY OF THE BILL AS REPORTED

The first section provides that the bill may be cited by its short title—the “Housing and Urban Development Act of 1966”.

TITLE I—DEMONSTRATION CITIES PROGRAM

Section 101. Findings and declaration of purpose

This section sets forth the findings of Congress that improving the quality of urban life and upgrading deteriorated urban environments constitute our most critical domestic problems, and that cities do not have the resources needed to deal effectively with these problems without additional Federal assistance in improving their physical environment, increasing the housing supply for low- and moderate-income people, and providing vital services.

It further states that it is the purpose of title I to provide additional assistance to enable cities to plan, develop, and carry out programs to rebuild or revitalize large slum and blighted areas and expand and improve public programs and services in those areas, to enable cities to participate more effectively in existing Federal programs, and to help cities to plan the effective coordination of the activities aided under existing Federal programs with other public and private activities.

Section 102. Basic authority

This section would authorize the Secretary of Housing and Urban Development to make grants and provide technical assistance to enable city demonstration agencies to plan, develop, and carry out comprehensive city demonstration programs.

Section 103. Comprehensive city demonstration programs

This section defines the term “comprehensive city demonstration program” and establishes criteria for such programs.

Subsection (a) defines a “comprehensive city demonstration program” as a locally prepared and scheduled program for rebuilding or restoring entire sections and neighborhoods in slum and blighted areas through the concentrated and coordinated use of all available Federal aids and local private and governmental resources, including citywide aids and resources necessary to improve the general welfare of the people living or working in the areas.

Subsection (b) provides that a comprehensive city demonstration program is eligible for assistance to carry out the program only if the Secretary determines that—

- (1) the program is of sufficient magnitude in both physical and social dimensions to remove or arrest blight and decay in entire sections or neighborhoods; provide a substantial increase in the supply of standard housing of low and moderate cost; make marked progress in serving the poor and disadvantaged people living in slum and blighted areas with a view to reducing educa-

tional disadvantages, disease, and enforced idleness; and make a substantial impact on the sound development of the entire city;

(2) the rebuilding or restoration of sections or neighborhoods, in accordance with the program, will contribute to a well-balanced city with adequate public facilities (including those needed for transportation, education, and recreation), commercial facilities adequate to serve the residential areas, good access to industrial or other centers of employment, and housing for all income levels;

(3) the program provides for educational and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum opportunities for employing residents of the area in all phases of the program, and enlarged opportunity for work and training;

(4) adequate local resources are, or will be, available for the completion of the program as scheduled;

(5) administrative machinery is available for carrying out the program on a consolidated and coordinated basis, the local governing body has approved the program, and local agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation;

(6) there exists a relocation plan meeting the requirements of the regulations referred to in section 107 of the bill;

(7) the program is designed to assure maximum opportunity in the choice of housing accommodations by all persons; and

(8) the program meets such additional requirements as the Secretary may establish to carry out the purpose of the title.

Subsection (c) provides that, in determining whether a proposed comprehensive city demonstration program is eligible for assistance, the Secretary must give maximum consideration to whether (1) substantive local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program; (2) the program will enhance neighborhoods by applying a high standard of design and will, as appropriate, maintain distinctive natural, historical, and cultural characteristics; (3) the program is designed to make maximum use of new and improved technology and design, including cost reduction techniques; (4) the program will encourage good community relations and counteract the segregation of housing by race or income; and (5) the program is consistent with comprehensive planning for the entire urban or metropolitan area.

Section 104. Financial assistance for planning comprehensive city demonstration programs

Subsection (a) authorizes the Secretary to make grants to, or contract with, city demonstration agencies to pay 80 percent of the costs of planning and developing comprehensive city demonstration programs.

Subsection (b) provides that such financial assistance may be provided only if (1) the application for the assistance has been approved by the local governing body of the city, and (2) the Secretary has determined that there exist administrative machinery through which coordination of all related planning activities of local agencies can be achieved and evidence that necessary cooperation of agencies engaged in related local planning can be secured.

Section 105. Financial assistance for approved comprehensive city demonstration programs

Subsection (a) requires the Secretary to review plans for comprehensive city demonstration programs in order to determine that (1) such plans satisfy the criteria for comprehensive city demonstration programs set forth in section 103 of the bill, and (2) the various projects or activities to be undertaken under such programs are planned and scheduled to be initiated within a reasonably short period of time.

Subsection (b) authorizes the Secretary to extend grant assistance for approved comprehensive city demonstration programs to pay 80 percent of the costs of administering such programs (but not including the costs of administering any project or activity assisted under a Federal grant-in-aid program).

Subsection (c) provides that in addition, to assist the city to carry out the projects or activities included within an approved comprehensive city demonstration program, the Secretary may make grants to the city demonstration agency of not to exceed 80 percent of the aggregate amount of non-Federal contributions required to be made by the locality to all projects or activities assisted by Federal grant-in-aid programs carried out in connection with such comprehensive city demonstration program. The specific amount of any such grant must take into account the number and intensity of the economic and social pressures in the sections or neighborhoods involved, such as those involving or resulting from population density, crime rate, public welfare participation, delinquency rate, poverty levels, unemployment rate, educational levels, health and disease characteristics, and degree of substandard and dilapidated housing. The amount of non-Federal contribution required for each such project or activity would be certified to the Secretary by the Federal department or agency administering the grant-in-aid program and the Secretary would be required to accept such determination in computing the amount of grants made under this section.

Subsection (d) requires that grant funds provided under subsection (c) to assist in carrying out an approved comprehensive city demonstration program be used for projects or activities which are part of such program; and if such projects or activities are assisted under other Federal grant-in-aid programs the funds provided under subsection (c) must be credited toward the required non-Federal contribution to such projects or activities.

Subsection (e) prohibits the Secretary from making any grant under this section of the bill unless he obtains satisfactory assurances that the locality will maintain, during the period the approved comprehensive city demonstration program is being carried out, its prior level of aggregate expenditures for activities similar to those assisted under this section.

Section 106. Technical assistance

This section authorizes the Secretary to provide technical assistance to city demonstration agencies to assist such agencies in planning, developing, and administering comprehensive city demonstration programs.

Section 107. Relocation requirements and payments

Subsection (a) requires that a comprehensive city demonstration program include a relocation plan for individuals, families, business concerns, and nonprofit organizations displaced or to be displaced in carrying out the program which assures the availability of adequate housing before people are displaced and requires, to the maximum extent feasible, the coordination of relocation activities with increases in the supply of standard housing suitable for displaced families.

Subsection (b) requires relocation payments, in the amount and in the circumstances authorized by section 114 of the Housing Act of 1949, to individuals, families, business concerns, and nonprofit organizations displaced or to be displaced under comprehensive city demonstration programs, and provides that grants under section 105 of the bill shall include amounts to cover the full cost of such payments in addition to other financial assistance.

Subsection (c) makes it clear that the requirement of relocation payments imposed by subsection (b) does not apply to any displacement occurring before the bill is enacted.

Section 108. Continued availability of Federal grant-in-aid program funds

This section provides that funds appropriated for a Federal grant-in-aid program which are reserved for any projects or activities assisted under such grant-in-aid program undertaken in connection with an approved comprehensive city demonstration program will remain available until expended when so provided in appropriation acts.

Section 109. Consultation

This section requires the Secretary, in carrying out the provisions of the title, including the issuance of regulations, to consult with other Federal departments and agencies administering grant-in-aid programs. In addition, the Secretary would be required to consult with each Federal department and agency affected by any approved comprehensive city demonstration program before entering into a commitment to make grants for such program under section 105 of the bill.

Section 110. Labor standards

This section requires compliance with the prevailing wage provisions of the Davis-Bacon Act on all projects assisted directly or indirectly under the demonstration cities program. In addition, payment of time and a half would be required for work performed in excess of 8 hours in a day or 40 hours in a week.

Section 111. Appropriations

Subsection (a) authorizes, for planning grants under section 104, appropriations of \$12 million for the fiscal year 1967 and such sums as may be necessary for the fiscal year 1968.

Subsection (b) authorizes, for grants to assist approved comprehensive city demonstration programs under section 105, appropriations of such sums as may be necessary for the fiscal year 1968 and the succeeding fiscal years of the program. It is stated to be the sense of the Congress that appropriations for these grants shall be made only on the basis of need demonstrated by the plans submitted, and that any such appropriation shall take into account the budgetary situation existing at the time it is made.

Subsection (c) authorizes such additional appropriations (for technical assistance, administrative expenses, etc.) as may be necessary to carry out the program.

Subsection (d) provides that amounts appropriated for the program may remain available until expended when so provided in appropriation acts.

Section 112. Definitions

This section defines terms used in title I. A "Federal grant-in-aid program" is a program of Federal financial assistance other than loans (and other than assistance under this title). A "city demonstration agency" is a city or any local public agency established or designated by the city's local governing body. A "city" is any municipality (or two or more municipalities acting jointly), or any county or other public body (or two or more acting jointly) having general governmental powers. A "local agency" may be a State agency or instrumentality providing services or resources to a city or locality, and "local" resources include those so provided.

Section 113. Termination of authority

This section provides that all authority conferred under title I shall terminate at the close of June 30, 1971, except to the extent necessary for the liquidation of the program or to deal with outstanding contracts, commitments, and other obligations.

Section 114. Grant authority for urban renewal projects which are part of approved comprehensive city demonstration programs

This section amends section 103(b) of the Housing Act of 1949 to provide authority for an additional \$600 million in urban renewal grant contracts, to be exercised (in or after the fiscal year 1968) only with respect to urban renewal projects which are identified and scheduled to be carried out as part of approved comprehensive city demonstration programs.

TITLE II—GRANTS TO ASSIST IN PLANNED METROPOLITAN DEVELOPMENT

This title is designed to provide incentives for effective metropolitan planning and development with the objective of assuring the actual physical development of projects in the metropolitan area in accordance with the planning. The incentive consists of increased aid to federally assisted projects of a type which generally affect the growth of such area, and would be given only where all public and private development in the area having a major regional impact is consistent with planned metropolitan development.

Section 201. Findings and declaration of purpose

Subsection (a) sets forth the findings of Congress (1) that it is essential that metropolitan areas prepare, keep current, and actually carry out comprehensive plans and programs for their orderly physical development; (2) that these areas are especially handicapped by the complexity and scope of governmental services required, the multiplicity of political jurisdictions and agencies involved, and the inadequacy of the operational and administrative arrangements available for cooperation among them; and (3) that present requirements for areawide planning and programing in connection with various Federal programs have materially assisted in the solution of metro-

politan problems but additional participation and cooperation are needed from the States and localities in perfecting and carrying out such areawide efforts.

Subsection (b) declares that the purpose of title II is to provide additional encouragement and assistance to States and localities, through supplementary grants for certain federally assisted development projects, for making effective comprehensive metropolitan planning and programing.

Section 202. Grant authority

Subsection (a) authorizes the Secretary of Housing and Urban Development to make supplementary grants to applicant State and local public bodies and agencies carrying out, or assisting in carrying out, development projects meeting the requirements of this title.

Subsection (b) provides that grants may be made under this title only for development projects in metropolitan areas for which it has been demonstrated, to the satisfaction of the Secretary, that metropolitanwide comprehensive planning and programing provide an adequate basis for evaluating as to consistency (A) the location, financing, and scheduling of individual public facility projects (including, but not limited to, sewer, water, and sewage treatment facilities; highway, mass transit, airport, and other transportation facilities; and recreation and other open-space areas) whether or not federally assisted; and (B) other proposed land development or uses, which projects or uses, because of their size, density, type, or location, have public metropolitanwide or interjurisdictional significance.

In addition, no metropolitan area would be eligible for the grants unless it is demonstrated to the satisfaction of the Secretary that adequate metropolitanwide institutional or other arrangements, such as a metropolitan council of governments, exist for coordinating local public development policies and activities on the basis of the metropolitanwide comprehensive planning and programing; and that public facility projects and other land development or uses (public or private) which have a major impact on the development of the area are, in fact, being carried out in accord with the metropolitanwide comprehensive planning and programing.

Subsection (c) provides that where the applicant for a grant under this title is a county, municipality, or other general-purpose unit of local government it must demonstrate to the satisfaction of the Secretary that taking into consideration the scope of its authority and responsibilities it is adequately assuring that public facility projects and other land developments or uses of public metropolitanwide or interjurisdictional significance are being, and will be, carried out in accord with metropolitan planning and programing meeting the requirements of subsection (b). In making this determination the Secretary is to give special consideration to whether the applicant is effectively assisting in, and conforming to, metropolitan planning and programing through (1) the location and scheduling of public facility projects (including, but not limited to, sewer, water, and sewage treatment facilities; highway, mass transit, airport, and other transportation facilities; and recreation and other open-space areas) whether or not federally assisted; and (2) its establishment and consistent administration of zoning codes, subdivision regulations, and similar land use and density controls. Where the applicant is not a general-purpose unit of local government, both it and the general-

purpose unit of local government having jurisdiction over the location of the project must meet the requirements of this subsection.

Subsection (d) provides that, in making the determination required under this section, the Secretary is to obtain, and give full consideration to, the comments of the body or bodies (State or local) responsible for planning and programing for the metropolitan area.

Subsection (e) provides that no grant may be made under this title with respect to a development project for which a Federal grant has been made, or a contract of assistance has been entered into, under any of the laws referred to in paragraph (1) of section 205 of the bill, prior to February 21, 1966, or more than 1 year prior to the date on which the Secretary has made the determinations required under this section with respect to the applicant and the area in which the project is located. In the case of a project for which a contract of assistance under any of the laws referred to in paragraph (1) of section 205 is entered into after June 30, 1967, there is a further provision that no grant may be made under this title unless an application for such grant has been made on or before the date of such contract.

Section 203. Extent of grant

Subsection (a) limits a grant under this title to 20 percent of the cost of the project for which the grant is made, and in addition provides that the grant under this title may never exceed the Federal grant made to the project under other legislation. In no case are the total Federal contributions to the cost of any such project to be more than 80 percent.

This subsection also specifies that, notwithstanding any other provision of law, including requirements with respect to non-Federal contributions, grants under this title are eligible for inclusion (directly or through refunds or credits when a portion of the local share has meanwhile been paid in) as a part of the financing for a project. Projects or activities on the basis of which assistance is received under the demonstration cities program (title I of the bill) are not to be eligible for assistance under this title.

Subsection (b) authorizes the appropriation of such sums as may be necessary to carry out the provisions of this title. Such appropriations would remain available until expended when so provided in appropriations acts.

Section 204. Consultation and certification

This section requires the Secretary, in carrying out the provisions of this title, including the issuance of regulations, to consult with the Department of the Interior, the Department of Commerce, the Department of Health, Education, and Welfare, and the Federal Aviation Agency with respect to development projects assisted by those departments and agencies and, for the purpose of determining grant amounts, to accept their respective certifications as to the cost of those projects and the amount of the non-Federal contribution paid or to be paid to that cost.

Section 205. Definitions

This section defines certain terms used in title II of the bill.

(1) "Development project" is defined to mean a State or local project assisted under certain specified Federal programs. (These programs are those which most often involve projects affecting the pattern of local land use and local growth.) The specified programs are—

(a) grants for basic water and sewer facilities, administered by the Department of Housing and Urban Development under section 702 of the Housing and Urban Development Act of 1965;

(b) grants for construction of sewage treatment works, administered by the Department of the Interior under section 8 of the Federal Water Pollution Control Act;

(c) grants for highway construction (Federal-aid primary and secondary systems, but not the Interstate System) administered by the Department of Commerce under section 120(a) of title 23, United States Code;

(d) grants for airport development, administered by the Federal Aviation Agency under the Federal Airport Act;

(e) grants for urban mass transportation facilities and equipment, administered by the Department of Housing and Urban Development under section 3 of the Urban Mass Transportation Act of 1964;

(f) grants for acquisition and development of open space, or for urban beautification and improvement, administered by the Department of Housing and Urban Development under title VII of the Housing Act of 1961;

(g) grants for the acquisition and development of lands and waters for recreational purposes, administered by the Department of the Interior under section 5(e) of the Land and Water Conservation Fund Act of 1965; and

(h) grants for public works and facilities, administered by the Department of Commerce under section 101(a)(1) of the Public Works and Economic Development Act of 1965 (but only if they involve works or facilities of a type which the Secretary determines to be eligible under one of the programs listed in paragraphs (a) through (g) above).

(2) "State" means any State of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, or an agency or instrumentality of any of the foregoing.

(3) "Metropolitan area" means a standard metropolitan statistical area as established by the Bureau of the Budget, subject however to such modifications and extensions as the Secretary may determine to be appropriate.

(4) "Secretary" means the Secretary of Housing and Urban Development.

TITLE III—COORDINATION OF FEDERAL ACTIVITIES IN METROPOLITAN DEVELOPMENT

Section 301. Cooperation between Federal agencies

This section authorizes the Secretary of Housing and Urban Development to call upon other Federal agencies for data, reports, and other materials and to assist the President in coordinating the efforts of such agencies, and directs all Federal agencies engaged in metropolitan programs to cooperate with the Secretary, in order to insure that all Federal programs related to metropolitan development are carried out in a coordinated manner.

Section 302. Metropolitan expeditors

This section directs the Secretary of Housing and Urban Development to appoint, for each metropolitan area which needs and desires

it (and after consultation with local governmental authorities in such area), a metropolitan expediter who will provide information, data, and assistance to local authorities and other local persons, and to relevant Federal agencies, with respect to the Department's programs and activities in such area and other activities and needs in such area which relate thereto.

TITLE IV—LAND DEVELOPMENT AND NEW COMMUNITIES

This title expands the FHA mortgage insurance program for privately financed land development under title X of the National Housing Act (which was enacted as part of the Housing and Urban Development Act of 1965), authorizing the Secretary to approve "new communities" for which certain special aids would be available and increasing the maximum outstanding mortgage amount permitted under the title X program; and in addition it authorizes loans to land development agencies to finance the acquisition of land to be utilized in connection with the development of well-planned residential neighborhoods, subdivisions, and communities.

Section 401. Mortgage insurance for new communities

This section adds to title X of the National Housing Act a new section 1004, authorizing the Secretary of Housing and Urban Development to approve a category of "new communities" for mortgage insurance under title X. These would consist of land developments, satisfying all other requirements under the title, which meet the special requirements of the new section. (Subsequent sections of this title of the bill would authorize longer mortgage maturities and FNMA special assistance for this category of land development which would not be available to land developments, even though very extensive, which are not approved as meeting the special requirements.)

A development would be eligible for approval as a new community if the Secretary determines that it will, in view of its size and scope, make a substantial contribution to the sound and economic growth of the area within which it is located in the form of—

- (1) substantial economies, made possible through large-scale development, in the provision of improved residential sites;
- (2) adequate housing to be provided for those who would be employed in the community or the surrounding area;
- (3) maximum accessibility from the new residential sites to industrial or other employment centers and commercial, recreational, and cultural facilities in or near the community; and
- (4) maximum accessibility to any major central city in the area.

The objectives and planning criteria for the existing land development program would also be applicable with respect to new communities. The Secretary would, under already enacted provisions of title X, review the site development plan to determine that it is consistent with overall comprehensive plans or planning actually being carried out for the area in which the community is to be located.

Section 402. Mortgage amount and term

Subsection (a) amends section 1002(c) of the National Housing Act to increase from \$10 to \$25 million the maximum mortgage amount permitted at any one time for a single land development mortgage

under title X, in order to make possible sufficient credit assistance for very large developments, including new communities or very large subdivisions.

Subsection (b) amends section 1002(d) of the act to exempt new communities approved by the Secretary from the 7-year maximum mortgage maturity generally applicable under existing law to mortgages under the land development program. Such an exemption is already provided in the case of privately owned water or sewerage systems.

Section 403. Encouragement of small builders

This section amends the present section 1004 of the National Housing Act (redesignated section 1005) to make it clear that the present requirements for encouraging broad participation by builders in the land development program are intended particularly to encourage participation by small builders.

Section 404. Water and sewerage facilities

This section amends the present section 1005 of the National Housing Act (redesignated section 1006) to require that in the case of a new community approved by the Secretary the land shall be served, after its development, by public systems for water and sewerage which are consistent with other existing or prospective systems in the area, or by existing privately or cooperatively owned systems (including reasonable extensions thereto) which are approved by the Secretary and are regulated in a manner acceptable to him. However, the section also provides that, where there is no existing system that can serve the area and the Secretary determines that public ownership of a new system is not feasible, the land may be served by an adequate privately or cooperatively owned new system, under the following conditions:

- (1) the Secretary finds the system consistent with other existing or prospective systems within the area;
- (2) the system will be regulated, during the period of such private or cooperative ownership, in a manner acceptable to the Secretary with respect to user rates and charges, capital structure, methods of operation, and rate of return; and
- (3) the Secretary receives assurances, satisfactory to him, with respect to eventual public ownership and operation of the system and with respect to the conditions and terms of any sale or transfer.

Section 405. FNMA special assistance for new communities

This section amends section 302(b) of the National Housing Act to make FHA-insured mortgages with respect to new communities eligible for purchase by the Federal National Mortgage Association under its special assistance program. FHA-insured land development mortgages are now eligible for FNMA purchase under its secondary market program.

Section 406. Urban planning grants

This section amends section 701(a) of the Housing Act of 1954 to make urban planning grants thereunder available to official governmental planning agencies for areas where new communities are to be developed with mortgage insurance assistance or where land is being acquired by land development agencies under the new programs established by title IV of the bill. (Federal grants to local planning

agencies for such planning are now available for metropolitan areas, depressed areas, and federally impacted areas.)

Section 407. Public facility loans

This section amends section 202 of the Housing Amendments of 1955 to waive the population limit (50,000) on the political jurisdictions eligible to receive public facility loans thereunder in the case of public facilities serving new communities within such jurisdictions.

Section 408. Loans to land development agencies

Subsection (a) amends section 202 of the Housing Amendments of 1955 to authorize the Secretary to provide financial assistance thereunder to land development agencies to finance the acquisition of land to be utilized in connection with the development of well-planned residential neighborhoods, subdivisions, and communities. These land development agencies would include municipalities, counties, and other public corporations which are designated or created pursuant to State law. The land acquired would be sold to private builders, possibly after installation of basic public facilities, for the construction of well-planned developments. These could be residential neighborhoods, housing subdivisions, or more extensive developments, including new communities. The land could be developed by the private owners with or without the mortgage insurance assistance available under title X of the National Housing Act.

Financial assistance under this new program would be limited to an amount not exceeding the total cost, as approved by the Secretary, of the acquisition of a fee simple or other interest in the land. It would be required to be reasonably secured and would be repayable within a period not exceeding 15 years at an interest rate of not more than the average annual interest rate on all interest-bearing obligations of the United States forming a part of the public debt, adjusted to the nearest one-eighth of 1 percent, plus one-half of 1 percent. Such assistance could not be provided unless the Secretary determines that—

(1) private financing is not otherwise available on reasonable terms;

(2) the development of a well-planned residential neighborhood, housing subdivision, or community on the land would be consistent with a comprehensive plan or with comprehensive planning, meeting criteria established by the Secretary, for the area in which the land is located; and

(3) a preliminary development plan for the use of the land meets criteria which he has established.

The land acquired would be required to be developed in accordance with a development plan approved by the Secretary as consistent with the provisions of the loan agreement. Sales of the land to private persons could not be for less than its fair value for uses in accord with the approved development plan. A development plan, wherever feasible in the light of current conditions, would be required to encourage the provision of sites providing a proper balance of types of housing to serve families having a broad range of incomes. The Secretary would adopt requirements necessary to encourage the maintenance of a diversified local homebuilding industry and broad participation by builders, particularly small builders.

Subsection (b) amends section 203 of the 1955 amendments to make it clear that the loans authorized are to be made from the revolving fund established by title II of such amendments to finance the public facility loan program. No additional authorization is now necessary. It is estimated that during the first full year of operations the amount of Federal funds committed for these new loans would not exceed \$25 million.

TITLE V—FHA INSURANCE OPERATIONS

Section 501. FHA mortgage financing for veterans

This section amends section 203(b) of the National Housing Act (FHA's regular residential mortgage insurance program) to provide that the special liberal terms for veterans enacted in 1965 (100-percent loan-to-value ratio up to \$15,000, 90 percent from \$15,000 to \$20,000, and 85 percent over \$20,000) will be available to a veteran even though he has previously received a VA direct, guaranteed, or insured home loan.

Section 502. Cooperative housing insurance fund

Subsections (a) and (b) amend section 213 (m) and (n) of the National Housing Act to make changes facilitating the administration of FHA's new mutual cooperative management housing insurance fund. These changes would permit mortgagees to use FHA's general insurance fund debentures for paying premiums on cooperative housing mortgages transferred to the cooperative fund and to use cooperative fund debentures for the payment of general fund premiums, and would permit the transfer of cooperative mortgages to the new mutual fund without the mortgagee's consent.

Subsection (c) amends section 213 (k) and (l) of the act to direct the transfer to the new fund of the specific assets attributable to the insurance transferred to that fund, and to remove the provision requiring (before payment of any dividend) the repayment of any general funds transferred to the new fund.

Section 503. Mortgage limits for cooperative housing

This section amends section 213(b) of the National Housing Act to increase by \$2,500 per family unit the existing limitations (including the special limitations for elevator-type structures) which apply in determining the maximum amount of an insurable mortgage under FHA's cooperative housing program.

Section 504. Supplementary financing for cooperative housing

This section amends section 213(j) of the National Housing Act to permit the supplementary financing of improvements and community facilities provided in connection with existing FHA-insured cooperative housing up to 97 percent of the value of such improvements and facilities, even though financing to that extent would increase the mortgage indebtedness above the original mortgage amount (so long as it would not increase such indebtedness above the statutory maximum).

Section 505. Mortgage limits for homes under section 221(d)(2)

This section amends section 221(d)(2) of the National Housing Act to increase, from \$11,000 to \$12,500 in the case of a single-family dwelling and from \$18,000 to \$20,000 in the case of a two-family residence, the maximum mortgage amount for dwellings of this kind under FHA's

mortgage insurance program for moderate-income and displaced families.

Section 506. Insurance of mortgages under section 221 to finance purchase and rehabilitation by nonprofit organizations of housing for resale to low-income purchasers

Subsection (a) adds to section 221 of the National Housing Act a new subsection (h), authorizing the insurance of mortgages (not exceeding \$20 million outstanding at any one time) executed by private nonprofit organizations to finance the purchase and rehabilitation of deteriorating or substandard housing for resale to low-income purchasers (i.e., individuals and families having incomes below the maximum with which they could qualify under the rent supplements program). To be eligible for insurance under the new program, a mortgage would have to cover property or properties containing five or more single-family dwellings of detached, semidetached, or row construction (whether or not on the same or contiguous property). The mortgage amount could not exceed the appraised value of the property when purchased plus the estimated cost of the proposed rehabilitation; the mortgage would bear interest at the submarket rate provided for section 221(d)(3) mortgages, and would have a maturity determined by the Secretary.

The mortgagor would have to agree to sell the rehabilitated dwellings to low-income purchasers, whose individual mortgages would also be insured under the new program; each such individual mortgage would be in an amount equal to the portion of the principal mortgage which is allocable to the individual dwelling, would bear interest at the same rate as the principal mortgage, and would have a maturity equal to the remaining maturity of the principal mortgage. The purchaser would pay at least \$200 down, which may be applied to closing costs, in addition to the purchase price. Upon the sale of an individual dwelling to a low-income purchaser, such dwelling would be released from the lien of the principal mortgage; the insurance of the principal mortgage would be terminated when all such dwellings had been sold, without payment of any adjusted premium charge, and until that time the dwellings remaining unsold would be held and operated by the nonprofit mortgagor as though they were rental units in a section 221(d)(3) submarket-interest-rate project. If the low-income purchaser does not continue to occupy the property, the submarket rate would terminate and the interest rate would rise to the highest permissible section 221 rate, unless he has resold the property to the original nonprofit mortgagor or has sold it to the local public housing agency or to another approved low-income purchaser.

Subsection (b) makes conforming amendments to section 221(g) of the act (relating to payment of insurance).

Subsection (c) amends section 221(f) of the act to authorize full or partial waiver of the mortgage insurance premium to assist low- and moderate-income families to obtain housing through the new section 221(h) program, the same as is presently authorized for section 221(d)(3) mortgages.

Subsection (d) amends section 305(h) of the act to authorize FNMA special assistance for mortgages insured under the new section 221(h) program, the same as is presently authorized for section 221(d)(3) mortgages.

Section 507. Application of Davis-Bacon Act to cooperative housing projects insured under section 221 (d)(3) and (d)(4)

This section amends section 212(a) of the National Housing Act to permit the waiver of the prevailing-wage provisions of the Davis-Bacon Act in the construction of cooperative housing projects covered by mortgages insured under section 221 (d)(3) and (d)(4) to enable the low-income families and others who will occupy the projects to lower their housing costs by donating their services without compensation in the construction.

Section 508. Waiver of deduction on assignment of property to Secretary in lieu of foreclosure

This section adds to title V of the National Housing Act a new section 523, authorizing the Secretary to waive the 1-percent deduction from insurance benefits which is generally made when the mortgagee under a multifamily housing or land development mortgage in default assigns the mortgage to the Secretary instead of foreclosing and then conveying title.

Section 509. Armed services housing mortgage insurance program

This section amends section 803 of the National Housing Act to reactivate the armed services housing ("Capehart") program and extend it until October 1, 1969, authorizing an additional \$1,050 million in mortgage insurance covering an additional 60,000 family housing units, with a maximum average of \$17,500 per unit and a maximum interest rate of 5½ percent.

TITLE VI—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

Section 601. Purpose

This section states that it is the purpose of title VI to assure the availability of credit on reasonable terms to assist in the construction and equipment of facilities for the group practice of medicine, optometry, or dentistry.

Section 602. Establishment of program

Subsection (a) adds to the National Housing Act a new title XI, providing mortgage insurance for group practice facilities.

Section 1101. Insurance of mortgages

Subsection (a) authorizes the Secretary of Housing and Urban Development to insure group practice facility mortgages, and make commitments to insure such mortgages, until October 1, 1969.

Subsection (b) requires that the mortgagor (which must be a "group practice unit or organization") and the mortgagee be approved by the Secretary, and that the mortgage cover property to be constructed or rehabilitated for use as a "group practice facility". It also prohibits insurance of any mortgage unless the applicant shows inability to obtain the mortgage loan on comparable terms without such insurance.

Subsection (c) limits an insurable mortgage to 90 percent of the estimated value of the facility after construction or rehabilitation (with a maximum mortgage amount of \$5 million), and provides for a maximum maturity and interest rate of 25 years and 6 percent.

Subsection (d) makes the Secretary's insurance contracts conclusive evidence of eligibility, and incontestable in the hands of an approved mortgagee except for fraud or misrepresentation.

Subsection (e) requires the mortgagor to agree to use the property as a group practice facility as long as the insured mortgage is outstanding.

Subsection (f) requires the mortgagor and mortgagee to keep such records and make such reports as the Secretary may require, and to permit examination of their records by the Secretary.

Section 1102. Premiums

This section authorizes the Secretary to fix premiums of not more than 1 percent, payable in cash or debentures, for mortgage insurance under the program, and to impose appropriate charges for analysis, appraisal, and inspection as well as an adjusted premium charge in case of prepayment.

Section 1103. Payment of insurance benefits

This section provides for payment of insurance benefits under the new program (from the general insurance fund) in the same manner as under FHA's section 207 regular rental housing program.

Section 1104. Regulations

This section authorizes the Secretary to prescribe the regulations necessary to carry out the new program, after consulting with the Surgeon General on the health and medical matters involved.

Section 1105. Administration

Subsection (a) authorizes the Secretary to provide technical assistance in planning and constructing group practice facilities, at the request of persons operating or planning the operation of such facilities.

Subsection (b) authorizes the Secretary, in order to avoid unnecessary duplication, to use (and pay for) existing services and facilities of other Federal agencies under agreements with the heads of such agencies.

Section 1106. Definitions

This section defines the principal terms used in the new title XI, including "group practice facility," "medical or dental group," "group practice unit or organization," "nonprofit organization," "State," "mortgage," "mortgagee," and "mortgagor."

A "group practice facility" is a facility for the provision (by a medical or dental group) of medical (including osteopathic), optometric, or dental care and treatment for ambulatory patients, under the supervision of appropriately licensed professional personnel.

A "medical or dental group" is an association or group of physicians (including osteopathic physicians), optometrists, or dentists who undertake the coordinated practice of their profession in one or more group practice facilities, sharing overhead expenses, records, equipment, and staff, and who make available at least such health services as may be required by the regulations prescribed under section 1104.

A "group practice unit or organization" can only be a private nonprofit agency or organization which will make a group practice facility available to a medical or dental group, or a private nonprofit agency or organization providing comprehensive medical, optometric or dental care to members or subscribers primarily on a group practice prepayment basis.

(b) Subsection (b) of this section of the bill amends section 227 of the National Housing Act to require cost certification in the case of group practice facility mortgages insured under the new program.

Section 603. Labor standards

This section amends section 212(a) of the National Housing Act to require compliance with the prevailing wage provisions of the Davis-Bacon Act in the construction of group practice facilities financed with mortgages insured under the new program. It also requires payment of time and a half for work performed in the construction of these facilities in excess of 8 hours in a day or 40 hours in a week.

Section 604. Amendments to other Federal laws

Subsection (a)(1) amends section 5136 of the Revised Statutes to exempt national banks, with respect to their dealings in and purchases of insured title X mortgages, from certain restrictions and limitations which would otherwise apply.

Subsection (a)(2) amends section 24 of the Federal Reserve Act to permit national banks to make insured title X loans without regard to certain restrictions and limitations which would otherwise apply.

Subsection (b) amends section 304 of the Trust Indenture Act of 1939 to exempt securities issued under an insured title X mortgage from the requirements of that act (and from the Securities Act of 1933).

Subsection (c) amends section 263 of the Bankruptcy Act to make that act inapplicable to creditors under an insured title X mortgage.

TITLE VII—RURAL HOUSING

Section 701

This section amends section 501(a) of the Housing Act of 1949 to remove the present requirement that existing farm and nonfarm rural dwellings and farm service buildings purchased with rural housing loans must have been "previously occupied."

Section 702

This section amends section 502(a) of the Housing Act of 1949 to permit the Secretary of Agriculture to accept a comaker in the case of any applicant for a rural housing loan under title V of such act who is deficient in repayment ability. Present law permits comakers only in the case of loans made to the elderly.

Section 703

This section amends section 504 of the Housing Act of 1949 to increase from \$1,000 to \$1,500 the maximum amount of a loan, grant, or combined loan and grant for repairs and improvements to owner-occupied rural dwellings or farm service buildings which are necessary to make them safe and sanitary.

Section 704

This section amends section 515 of the Housing Act of 1949 to expand the purposes of direct loans to private nonprofit corporations and consumer cooperatives under that section to include rental housing for the low-income rural nonelderly. Under present law such loans are restricted to housing for the rural elderly of low or moderate income.

TITLE VIII—MISCELLANEOUS

Section 801. Housing for the elderly or handicapped

This section makes a change in the effective date of the 3-percent ceiling on the interest rate applicable to elderly or handicapped housing loans which was enacted by section 105 of the Housing and Urban Development Act of 1965. Under this change, the 3-percent ceiling would apply not only to loans made on or after the date of enactment of the 1965 act but also to loans made before such date if the construction involved was not begun before such date and was not completed prior to application for the benefits of such ceiling.

Section 802. Low-rent housing in private accommodations for displaced families—term of lease

This section amends section 23(d) of the U.S. Housing Act of 1937 to provide that the term of the contract between the local public housing agency and the owner of housing to be used under the new program of low-rent housing in private accommodations enacted in 1965 (which is limited to 36 months under existing law) may be as long as 60 months where such agency determines that the housing is needed for displaced families.

Section 803. Application of Davis-Bacon Act to low-rent housing projects consisting of privately built housing

This section amends section 16(2) of the U.S. Housing Act of 1937 to require compliance with the prevailing wage provisions of the Davis-Bacon Act in the construction of privately owned structures to be used as low-rent housing in cases where an agreement that the structure will be so used is entered into by the local agency and the builder or sponsor before construction begins. In addition, payment of time and a half would be required for work performed in such cases in excess of 8 hours in a day or 40 hours in a week.

Section 804. Application of Davis-Bacon Act to multifamily housing construction in urban renewal areas

This section requires compliance with the prevailing wage provisions of the Davis-Bacon Act in the construction of any multifamily housing in the redevelopment of an urban renewal area, as a condition of any Federal assistance to the urban renewal project.

Section 805. FNMA participation in FHA-insured construction financing

This section adds to section 305 of the National Housing Act a new subsection (i), authorizing the Federal National Mortgage Association to participate (up to 95 percent) in making FHA-insured advances during construction on a section 213 cooperative housing mortgage, or a section 221(d)(3) mortgage executed by a cooperative or a nonprofit corporation, which it has issued a commitment to purchase,

with the private mortgagee doing all the administrative work of servicing and processing.

Section 806. Planning grants for research on State statutes affecting local governments

This section amends section 701(b) of the Housing Act of 1954 to permit section 701 planning grant funds to be used, under the demonstration program (for which 5 percent of such funds are set aside), for grants to assist in studies and research on needed revisions in those State statutes which create, govern, or control local governmental operations.

Section 807. Use of open-space grants for development of existing open-space land

This section amends sections 701 and 702 of the Housing Act of 1961 to authorize Federal grants under the open-space land program for the development and redevelopment of existing open-space land, as well as of land acquired under such program for development as open-space land.

Section 808. Prohibition against open-space grants to certain communities

This section amends section 702 of the Housing Act of 1961 to prohibit open-space or urban beautification grants to communities having a median family income of over \$15,000.

Section 809. Applying advances in technology to housing and urban development

This section authorizes the Secretary of Housing and Urban Development, in order to encourage cost reductions and improved quality in housing through the application of technological advances and to encourage the application of such advances in urban development activities, to conduct research and studies to test and demonstrate new and improved techniques and methods and to encourage and promote the acceptance and application of these techniques and methods by the housing industry, communities, industries engaged in urban development activities, and the general public.

Section 810. Payments with respect to certain properties at or near military bases ordered to be closed

This section amends section 108 of the Housing and Urban Development Act of 1965 to permit the Secretary of Defense, in a case where the closing or threatened closing of a military base or installation has terminated a property owner's employment or service there and also destroyed the market for his property, to compensate such owner for losses sustained when he sells the property or loses it through foreclosure (in an amount equal to the difference between the property's fair market value immediately before the closing was announced and its fair market value at the time of such sale or foreclosure). Under existing law the Secretary can acquire the property, but cannot make any payment if the owner's interest has been terminated through sale or foreclosure.

Section 811. Study concerning relief of homeowners in proximity to airports

This section extends until 6 months after the enactment of the bill the time allowed the Secretary of Housing and Urban Development for reporting the results of his study (provided for in section 1113

of the Housing and Urban Development Act of 1965) concerning relief of homeowners who reside in the vicinity of airports. It also authorizes appropriation of the specific sum of \$100,000 for this study.

Section 812. Hydrology research for urban development

This section authorizes the Secretary of Housing and Urban Development, in order to help urbanized areas deal more effectively with their increasingly severe storm drainage problems, to conduct studies, investigations, research, and demonstrations (by contracts with public or private agencies and working agreements with other Federal agencies) to develop and improve the science and technology of urban hydrology, and to evaluate such studies, investigations, research, and demonstrations and make publicly available the information resulting therefrom.

Section 813. Specific urban renewal projects

This section makes specified local expenditures in connection with land acquisition, or in connection with the construction of buildings or facilities, eligible as local noncash grants-in-aid (or extends other benefits) with respect to urban renewal projects in the following cities:

- | | |
|------------------------|--------------------------|
| (a) Cambridge, Mass. | (k) New Haven, Conn. |
| (b) Little Rock, Ark. | (l) Olathe, Kans. |
| (c) Toledo, Ohio | (m) Hackensack, N.J. |
| (d) San Antonio, Tex. | (n) Sacramento, Calif. |
| (e) Atlanta, Ga. | (o) Sheridan, Colo. |
| (f) Albion, Mich. | (p) Saginaw, Mich. |
| (g) Garden City, Mich. | (q) Oklahoma City, Okla. |
| (h) Memphis, Tenn. | (r) Pawtucket, R.I. |
| (i) Portland, Oreg. | (s) Dayton, Ohio |
| (j) Springfield, Mass. | |

Section 814. Use of certain lands for civil defense purposes

This section amends section 2 of the act of August 10, 1949, to provide that a portion of the tract of land conveyed to the State of Maryland pursuant to that Act may be used for civil defense purposes (instead of or in addition to National Guard purposes) without causing the land to revert to the United States.

Section 815. Quarters and facilities for Federal home loan banks and the Federal Home Loan Bank Board

Subsection (a) amends section 12 of the Federal Home Loan Bank Act to permit Federal home loan banks, with the prior approval of the Federal Home Loan Bank Board, to purchase or construct appropriate quarters for the conduct of their banking business.

Subsection (b) amends section 18 of such act to authorize the Board, utilizing the services of the General Services Administration, to acquire a site in the District of Columbia and construct thereon suitable buildings and facilities for the Board and its agencies (including the Federal Savings and Loan Insurance Corporation).

Section 816. Miscellaneous and technical amendments

Subsection (a) repeals the existing requirement (in section 106(d) of the Housing Act of 1949) that contracts under the urban renewal law which exceed \$1,000 may be made only after advertising for bids; such contracts would accordingly become subject to the general

Federal law, which imposes the requirement of advertising only where the amount of the contract exceeds \$2,500.

Subsection (b) amends section 113 of the Housing Act of 1949 to make it clear (in order to conform with amendments made by the 1965 Housing Act) that references in title I of that act and in the urban planning grant law to the Area Redevelopment Act are also references to laws which are supplementary thereto.

Subsections (c), (d), (e), (f), (g), and (h) make amendments which are technical or clerical in nature. (Subsections (f) and (i) include amendments reflecting the new title XI of the National Housing Act which would be added by title VI of the bill.)

Section 817. Conforming nomenclature in statutes to Department of Housing and Urban Development Act

This section amends various Federal laws to reflect the creation of the new Department of Housing and Urban Development, the transfer to that Department and the Secretary of the functions and powers previously vested in HHFA and its constituent units, and the abolition of the latter. It does not, in conforming the nomenclature used in those laws to the new administrative structure, make any substantive changes.

CHANGES IN EXISTING LAW MADE BY THE BILL AS REPORTED

[See part II of this report]

[MINORITY VIEWS ON H.R. 15890]

MINORITY VIEWS

DEMONSTRATION CITIES

“* * * if the Secretary determines that * * * the program meets such additional requirements as the Secretary may establish to carry out the purposes of this title.”

Prior to the sudden reporting of H.R. 15890 by the Housing Subcommittee and the full Banking and Currency Committee, there was general agreement by members of the subcommittee, both majority and minority, on a housing bill of 1966 that was responsive to testimony taken during the month long hearings held in March 1966. The present bill, with minor exceptions, is responsive only to the wishful thinking of the hierarchy of the Department of Housing and Urban Development and does not reflect the professional efforts of the subcommittee.

It is not so much an *omnibus* housing bill as it is an *ominous* housing bill. If passed, it will not only give away much of the national legislative controls belonging to the Congress, but also those local controls which belong to the communities of the Nation. It will use the power of the Federal purse to first stultify the local knowledge essential to the working of a much needed demonstration city program, and second, to ratify the mistakes, faulty planning, and misleading promises of the Department which insisted on its proposals or nothing.

The minority wants a program for our cities which will stress an increase in decent housing for citizens with low and moderate incomes. For the past several years minority members of this committee have introduced bills to turn the present housing and urban renewal program in this direction. The minority welcomes the change in attitude indicated by the demonstrations cities program. But it insists on a program which is free of the misconceptions in planning which characterize the present bill. The minority endorses the concept of demonstration cities, its breadth and its sweep as revealed in the findings and declaration of purpose. The minority, however, cannot endorse the specifics which follow these findings and declaration of purpose because they not only are faulty but also they endanger existing programs in the housing field upon which communities, families, and individuals are depending.

It is the position of the minority that no amount of face saving is worth the havoc that would be caused by a program conceived in ignorance, based on half-truths, and executed with more pride than skill. The minority believes this doubly true since the promises made in behalf of this bill are far in excess of any possible performance.

HIGH HOPES AND LONG SHOT ODDS

The Department has shamefully lobbied for H.R. 15890, stressing to the individual Members of Congress that any city is *eligible* to participate in the city demonstration program. The plain fact of the matter is that of the hundreds and thousands of cities in the country, perhaps a high of 50 or less can expect to participate in the program. The chances of any city participating under the conditions of H.R. 15890 are at best a 20 to 1 shot during the supposed 6-year life of the program.

To avoid calling a spade a spade, the Department first spoke of spending \$2.3 billion on demonstration city inducements, and then at the last moment covertly slipped in an additional \$600 million authorization for urban renewal in demonstration cities exclusively. Why? Because Department officials were made to face their own faulty arithmetic by knowledgeable Congressmen.

This \$2.9 billion, however, is not what the bill says will be authorized. The authorization is open end, without limit. It could well be 10 times \$2.9 billion, or more if the Department means to do what it has led the city officials of the United States to believe it can and will do.

This is the great danger of the program as proposed—that it will be used as a political “lure” to entice political support in the hope of generous Federal bequests. If this is allowed to happen, then a potentially valuable effort will be tragically compromised. The myriad problems confronting our cities desperately need to be solved. To do so will require the best in engineering and economic thinking—not the juggled arithmetic put forward by the Department as its panacea.

It has become increasingly obvious to most that almost all of our older and larger cities are faced with physical, social, and economic blight which threaten their continued viability and the well-being of adjacent communities. These cities contain substantial investments, the preservation of which is in the interest of our total economic and social life. These areas must be carefully identified and worked into a demonstration city program. But to hold out as bait, the hope that Federal funds for this purpose may be made available to every nook and cranny of the United States, is neither the part of sense nor honesty.

The country can neither afford such an operation, nor staff it, the Bureau of the Budget and the Department of Housing and Urban Development to the contrary notwithstanding. HUD has trouble coordinating its own programs and their newly arising problems—how can it hope to coordinate those of other departments and agencies as well?

In a bow to the Budget Bureau's willingness to endorse any multi-billion program, if the program's advocates will only postpone until next year the program's execution and the need to appropriate funds for that operation, we find only planning funds of \$12 million involved in the Department's 1967 fiscal forecast for demonstration cities needs.

PLAN NOW—PAY LATER

The departmental proponents of demonstration cities are saying we are only planning now and it does not have to cost much.

The trouble is the Department's brain-trusters were elaborately casual, not to say careless, in their planning. This is in a pattern. The medicare advocates, trying to slip one more idea into an overloaded program for the elderly, were perfectly willing to do so even at the risk of making the entire program unworkable. The same practice is now at work again.

We are once again faced with the situation where our ivory-tower specialists in the Department, secure and isolated in their cloistered retreats, made their paper research calculations, read the latest news dispatches on violent demonstrations, and too hastily produced a solution—ideal in concept, but short on practicality and void of impact intelligence.

The net result was that they came before the Congress in March asking for \$2.3 billion, and were seeking \$600 million more for their flimsy plans by June. The Congress and the country deserves better thinking.

The cost of the program as presently set up by the Department is \$2.9 billion. This is supposed to run 5 or 6 years. Expenditures have been estimated at \$400 to \$525 million annually. Testimony, however, taken from 11 of the 16 mayors who appeared before the subcommittee, put their needs, in terms of a demonstration city program, at over \$8 billion. Since the Department is talking in terms of 50 or 60 or 70 cities, while carefully encouraging *all* cities to think of themselves as "eligible," the program if it is to work will require much more than the advertised \$2.9 billion. This may explain why the appropriations in the bill are open end and have no limit as to authorization.

COORDINATOR OF FEDERAL ACTIVITIES

There are 43 programs which HUD thinks could be included in a city demonstration program. Of these 43 programs, 10 are within HUD, 25 within HEW, 2 each in the Departments of Agriculture, Commerce, and Labor, and the Office of Economic Opportunity. The HUD programs are urban renewal, neighborhood facilities, mass transit, open space, urban beautification, water and sewer facilities, community renewal, code enforcement, demolition grants, and low rent public housing, a list indicating the extent of the Department's intrusion into community life which it obviously hopes to expand.

The last named of the HUD programs, low rent public housing, is already a completely federally funded program. Consequently, it would be a natural conclusion that it would not be possible for it to obtain additional Federal funds for its direct operation. Under the demonstration cities program, however, it can.

Inquiry on this point, the transfer of funds within the various programs covered by any city's demonstration plan, was made during the hearings and the possibility was denied by the Department at that time. Now this same transfer of funds is presented by the agency as one of the more flexible advantages of the program. As the operation is explained by Department officials, all of the local contributions

that any of the programs included in the demonstration city plan are required to make under present law are added together to obtain a grand total. Of this total, 80 percent is turned over to the demonstration city agency to use as it sees fit. The agency may even use the funds for a program which did not contribute to the 80-percent grant, because it is already completely funded federally—so long as the program is included in the demonstration city plan. Thus, low rent public housing, which makes only a theoretical contribution, could have its subsidy payments increased under the proposed formula if the demonstration city so desires.

THE CHOSEN FEW

Another largely overlooked fact is what would happen to the big contributor, urban renewal. Figures from the Department indicate that 60 percent of the funds made available under the demonstration cities program will flow to urban renewal operations. Dr. Weaver says the demonstration cities program will be spending \$400 million a year. Sixty percent of that will be \$240 million. This is the 80-percent new Federal contribution of the local urban renewal share. The city still has to contribute 20 percent, which would be \$60 million. Added to the \$240 million, that gives us the *one-third* local contribution of \$300 million for urban renewal. The additional two-thirds that the Federal Government still has to put up for the urban renewal operation proper amounts then to \$600 million. Available for urban renewal use as of July 1, 1967: \$750 million. From this \$750 million, \$600 million will be available for a few demonstration cities, presently said to be 50, although it well could be less, leaving \$125 million for the more than 600 other cities who are active urban renewal applicants.

There are 595 cities in the country that have populations of 30,000 and over, and hence are eligible for membership in the U.S. Conference of Mayors. The National League of Cities, which has no population limits, has a membership of over 13,000. To protect the non-demonstration cities, which obviously will be in the majority, there was belatedly inserted in the bill a provision proposing to add \$600 million for the exclusive use of urban renewal projects in demonstration cities. This, however, despite the explanation that it was to be a one-time authorization good for the entire 6-year life of the program, is by our previous calculations only enough to last a year. If the urban renewal use of demonstration city funds goes above 60 percent—as it well may—the \$600 million may be wiped out in less than a year.

If this is intended as a 5- or 6-year authorization, it is too little to avoid the harm that could be done to nondemonstration cities. If it is intended to be an annual appropriation, the Congress should know it to insure proper understanding of just what this program entails in the way of expenditures and where it is heading. Anything else is too expensive a price to pay for the Department's lack of prior planning.

This late addition of a specific authorization of \$600 million for demonstration city urban renewal projects exclusively is proof of the completely unrealistic approach to the impact possibilities of the bill. The urban renewal program, by inference and admission, will command the majority of the funds authorized. Subsections of sec-

tion 103 of the bill, which sets up the conditions which any city must fulfill to the satisfaction of the Secretary, have major reference to such matters as *arresting blight and decay, development of the city, widespread citizen participation, maximum opportunities for employing residents of the demonstration area in all phases of the program, relocation plans, maximum opportunity for choice of housing accommodations by all citizens*, etc. This spells out urban renewal activities on a large scale and was confirmed by the Secretary in testimony before the subcommittee and elsewhere.

The significance of this for the nondemonstration cities becomes even more apparent when it is known that the \$725 million authorization made available on July 1, 1966, will be exhausted by the Department's backlog of applications before September 1, 1966. In other words, in less than 2 months, if the Department's processing holds up, the authorization for fiscal 1967 will be used up.

Under the demonstration cities formula, this makes a bad matter worse.

How bad the formula is becomes even more apparent when it is remembered that there are 407 urban renewal projects, as of the end of 1966, which are operating under the one-fourth local, three-fourths Federal formula. These are the cities which are either under a certain size, in depressed areas, or did their planning at their own expense. Obviously, the Congress thought the municipalities falling into any one of these three categories deserved more favorable terms from the Urban Renewal Administration.

Equally obvious is that 80 percent of one-fourth is a lot less than 80 percent of one-third. Thus, the demonstration cities formula goes a long way here to wipe out the previous intent of Congress.

The foregoing may be a little hard to grasp because of the fact that the demonstration cities formula applies only to the local one-third or one-fourth contribution that the city makes. Generally there is a tendency to overlook the fact that this is only a part of the urban renewal operation and that under the demonstration cities formula a part twice as large can be triggered, obligating a majority of the funds, possibly all of them, that are available under urban renewal for the exclusive use of a few communities chosen as demonstration cities.

OPEN END AND UNLIMITED

Regardless of the above, one fact stands out: if this bill passes in its present form, \$500 million a year, minimum, would be spent for the next 6 years for not more than 50 of the cities of the United States—the cities to be determined by the Secretary of HUD.

The Congress must face up to the fact that HUD officials from the Secretary on down, with billions of dollars at their disposal, will have more power over urban and suburban life than any mayor or Governor in the country.

The present bill places a termination date on the demonstration city program of June 30, 1971. If so terminated, it is too early to prove the Department's overstressed point; too late to prevent the damage that will be done under the present faulty planning setup.

Section 108 of the present bill keeps authorized funds, once appropriated, available past the point of the termination of the program

as listed. (To be remembered here is the fact that as of January 31, 1966, there were \$7.6 billion urban renewal funds authorized since 1949. Of this \$7.6 billion, \$5.6 billion has been committed but only \$1.5 billion spent.) The demonstration city program could take some time to move to an end, undoubtedly at great expense, possibly never.

The HUD Secretary, with the possibility of coordinating 10 of his own programs with 33 others of other departments and agencies, is required to consult with those departments and agencies prior to making any grants under the bill. All he has to do is consult. *The consultation is not binding in any particular.*

This brings up section 103, subsection (8), of the bill. This is the usual "boilerplate" which is said to give the Secretary flexibility in issuing regulations, etc. It also gives the Secretary the power to do just as he wishes. Among the specific admonitions within the bill's language (see subsecs. (4) and (8)) are those which require measures for counteracting "the segregation of housing by race or income." No one has yet satisfactorily explained how integration by income is brought about. There are other seemingly innocuous provisions inserted for the purpose of forcing the enactment of new building codes (1), and to enforce metropolitan planning (5).

All of this should alarm any community wishing to preserve its independence. They should not be deceived by the provisions that require local governing body approval. In all cases, the Secretary still has the power to decide whether the demonstration city applicant has the necessary administrative machinery to implement the program. This provision can be easily used to shut out small cities desiring to be included in the demonstration city program.

The minority's point is that the program as proposed in the new administration bill is *narrow, limited and expensive, but unplanned as regards existing programs*. To do the job as it should be done, we need planning not so much on the local level as we do on the national level. The original subcommittee bill gave those concerned a chance to do this. We cannot afford planning that has overlooked impact possibilities, that jeopardizes the operation of existing programs, that is subject to such political manipulation as to threaten whole communities with economic coercion.

Once again, this is not so much an *omnibus* housing bill as it is an *ominous* housing bill. The country needs the first, not the second.

FEDERAL-METRO GOVERNMENT

Thus we seek to recapture control of the use of land, most of which the Government has already given to people.—Dr. ROBERT C. WEAVER.

We agree with the findings and declaration of purpose of title II (grants to assist in planned metropolitan development).

We agree that "the welfare of the Nation and of its people is directly dependent upon the effective organization and functioning of the metropolitan areas in which two-thirds of its people live and work."

We agree that "the continuing rapid growth of these areas makes

it essential that they prepare, keep current, and actually carry out comprehensive plans and programs for their orderly physical development * * *."

We concur in the view that "metropolitan areas are especially handicapped in this task by the complexity and scope of governmental services required in such rapidly growing areas * * *." Moreover, we agree with the President's observation in his message of January 26, 1966, accompanying this bill, that "the absence of cooperation between contiguous areas is wasteful. It is also blind to the reality of urban life." The President further mentioned: "What happens in the central city, or the suburbs, is certain to affect the quality of life in the other."

We do not agree, however, that title II of this bill is the proper means of achieving these objectives.

MORE INVOLVED THAN COST

During this inflationary period we might be expected to base our objections to the proposed "metro" development title of this bill on the basis of budgetary considerations alone. We could point out, for instance, that nowhere in title II is there any hint whatsoever as to the cost of this new program.

Secretary Weaver suggested in his testimony that the first year cost would be about \$25 million for just a dozen metropolitan areas. He further estimated that within 5 years about 75 metropolitan areas, embracing a combined population of around 60 million, might qualify for supplemental grants under the metro title of the bill. Projecting this estimate, we therefore assume that within a relatively short time the 231 officially designated metropolitan areas throughout the country would require approximately \$500 million per year in additional Federal grants if title II were enacted. In short, it is clear that we are talking about a multi-billion-dollar program which gets its foot in the door with a purportedly small, yet open-end and unlimited authorization.

Clearly, it would be easy to make a case on budgetary impact alone. But we would rather not, for to do so would be to avoid the real issues involved in this far-reaching proposal—issues that would confront us long after budgetary considerations might fade from view.

NEW LEVEL OF GOVERNMENT

The proposed metro development title of this bill would serve to divide the country into new Federal community development districts—a new administrative or political unit that would look to the Federal Government rather than the State, cities, and other localities for guidance. Title II would place the shadow of HUD over every metropolitan area in our country. Virtually every local governmental decision of any magnitude, in areas accepting supplemental Federal aid, would be subject to review by the Secretary of HUD.

This, more than any other proposal ever to come before our committee, drastically would reshape our Federal form of government.

HASTY CONSIDERATION BY COMMITTEE

In many respects, we regret that the proposed demonstration cities program as provided in title I has so dominated the consideration of this bill. Because of this, entirely too little attention has been paid to the metro government proposal. Every Member of the House should be aware of the questions raised by the language of this title. The following will attempt to point out just a few.

Section 202(b) of the bill says:

Grants may be made under this title only for development projects in metropolitan areas for which it has been demonstrated, to the satisfaction of the Secretary, that—

(1) metropolitanwide comprehensive planning and programing provide an adequate basis for evaluating (A) the location, financing, and scheduling of individual public facility projects (including, but not limited to, sewer, water, and sewage treatment facilities; highway, mass transit, airport, and other transportation facilities; and recreation and other open-space areas) *whether or not federally assisted* [italic supplied]; and (B) other proposed land development or uses, which projects or uses, because of their size, density, type, or location, have public metropolitanwide or interjurisdictional significance;

(2) adequate metropolitanwide institutional or other arrangements exist for coordinating, on the basis of such metropolitanwide comprehensive planning and programing, local public policies and activities affecting the development of the area; and

(3) public facility projects and other land development or uses which have a major impact on the development of the area are, in fact, being carried out in accord with such metropolitanwide comprehensive planning and programing.

SATISFACTION GUARANTEED

Accordingly, before approving "incentive grants" the Secretary must be satisfied that the metropolitan planning affecting the applicant State and local public body or agency evaluate the location, financing, and scheduling of individual public facility projects, *whether or not such projects are federally assisted*. Consequently, Secretary Weaver and his successors would have substantial control over local metropolitanwide location, financing, and scheduling of any public facility projects that have areawide impact.

Which projects would have areawide impact? We don't know. The bill makes no attempt to tell us. They could include highway projects, mass transit, sewage, water, and other large-scale Federal-aid projects. On the other hand, the Secretary could impose his judgment over the location, scheduling, and financing of local parking facilities, traffic control equipment, municipal buildings, recreation parks, and even local public school facilities.

It could be contended by the Department of HUD that virtually any one of these types of locally financed projects could have metropolitanwide impact. Indeed, the language of the bill itself in section

202(b)(1) suggests that they would be included in the Secretary's consideration of additional Federal aid incentive grants.

Furthermore, according to the language of the bill, it is difficult to conceive of any type of local project that would not have to meet with the Secretary's "satisfaction" for metropolitan planning prior to receiving additional Federal grants. According to the bill "other proposed land development or uses, which projects or uses, because of their size, density, type, or location, have public metropolitanwide or interjurisdictional significance," would have to meet the criteria established by the Secretary. If this language doesn't embrace practically every normal function of local government, we don't know what does.

During the hearings, the Secretary of HUD denied that title II of the bill is aimed at creating metro governments throughout our country. Yet, contrary to his testimony, the bill would encourage through incentive grants "metropolitanwide, institutional, or other arrangements" for "coordinating, on the basis of such metropolitanwide comprehensive planning and programing, local public policies and activities affecting the development of the area." If this isn't the clearest definition of what constitutes the ultimate in metro government, we wish the Secretary would tell us what is.

LET THE PEOPLE DECIDE

This brings us to an important point, and one upon which our opposition hinges. We are not at this point in a position to cast a final judgment as to the need for creation of metro governments to solve our growing urban problems. Under our Constitution, it seems to us this is something that should be decided by the people within those metropolitan jurisdictions. We all know that there have been hundreds of local referenda on the metro question. As a matter of fact, this happens to be one of the most controversial local issues to have come to the surface in decades. In only a few instances have the people voted to embrace this concept of government—and then on only a limited scale.

As controversial as metro already is at the local level, we feel that it would be far more so if those who support metropolitan planning and/or government were also asked if they would further support the metro concept under the direction and supervision of the Federal Government. That the Federal Government and specifically the Department of HUD would dominate any such new governmental relationship is made clear by the language of the bill. Section 202(c) states:

Where the applicant for a grant under this title is a county, municipality, or other general-purpose unit of local government, it must demonstrate, to the satisfaction of the Secretary, that taking into consideration the scope of its authority and responsibilities it is adequately assuring that public facility projects and other land development or uses of public metropolitanwide or interjurisdictional significance are being, and will be, carried out in accord with metropolitan planning and programing meeting the requirements of subsection (b). In making this determination the Secretary shall

give special consideration to whether the applicant is effectively assisting in, and conforming to, metropolitan planning and programing through (A) the location and scheduling of public facility projects, whether or not federally assisted; and (B) the establishment and consistent administration of zoning codes, subdivision regulations, and similar land-use and density controls.

THE FEDERAL ZONING BOARD

We think it is particularly interesting that the Secretary "shall give special consideration" to those applicants for additional Federal grants who effectively are assisting in and conforming to metropolitan planning and programing through "the establishment and consistent administration of zoning codes, subdivision regulations, and similar land-use and density controls."

In his "special consideration," how far could the Secretary's powers go?

What constitutes "consistent administration" of zoning codes? Consistent with what?

Does this mean that the Secretary would only grant incentive Federal aid to those communities whose zoning codes, subdivision regulations, and similar land-use and density controls are administered locally in a manner consistent with the views of Federal planning officials? We think the question answers itself. In this particular case, the language of the bill is entirely too explicit in its intent.

If the Congress decides to grant to the Secretary of HUD the power to determine the disposition of additional billions of Federal aid on the basis of whether or not applicant communities are administering their zoning codes in a manner consistent with Federal planning, then Federal-Metro government will be a reality.

Those who fear the concept of metro government because of "downtown" dominance will wake up and find that their fears were misplaced. Under the Federal-Metro concept, all true power will reside not with the city, but with the Secretary of HUD.

COME UP AND SEE ME SOMETIME

In answer to a question from Congressman Widnall during the hearings as to the degree of Federal-Metro government suggested by the language of the bill, Secretary Weaver said:

This is a supplemental grant given to those who voluntarily decide that they want to cooperate in order to get a metropolitanwide approach. If they do not want it, they certainly do not have to do it, and many of them will not do it.

What the Secretary was referring to was the old tried and true carrot-and-stick approach of sections 203, 204, and 205. In an effort to achieve the goals of so-called metropolitanwide planning under the guidance of the Federal Government, communities would be given an opportunity to receive an extra dividend of 20 percent of cost of a project, providing they meet the conditions set forth in the bill.

These extra dividends in Federal aid were carefully chosen for their far-reaching impact on basic water and sewage facility programs; the Federal Water Pollution Control Act; Federal Airport

Act grants; urban mass transit grants; land and water conservation fund grants; primary, secondary, and urban extension Federal-aid highway grants, as well as the Public Works and Economic Development Act grants. Most of these programs currently are on a 50-50 matching basis. To the communities that agreed to enter into metropolitanwide planning and that satisfied the requirements imposed by the Secretary of HUD, these 50-50 funds would be increased by at least 20 percent, up to a maximum of 80 percent Federal aid.

FEALTY OVER NEEDS

We particularly object to the fact that these added incentives for areawide planning would in no way be based upon the needs of the communities in relation to the needs of others. Where metropolitan areawide planning already is in a relatively advanced stage for one reason or another, the rewards could be substantial. On the other hand, the areas of most critical need might very well be the last to receive these additional Federal grants-in-aid.

To cite just one Federal-aid program that drastically would be affected by title II, we need only look at the so-called ABC Federal-aid highway program. Over a period of more than 10 years, the Committees on Public Works and Ways and Means have developed a formula for financing this multi-billion-dollar program. The 50-percent Federal share comes from the highway trust fund entirely out of user tax receipts. The Congress has for many years rejected the idea of non-highway-user payments for highway-user needs. Yet, in this bill, we completely would destroy the delicate balance that has been achieved between highway-user and non-highway-user groups.

We would for the first time destroy the concept of the highway-user trust fund which has served us so well since 1956. Moreover, your committee has done so without any consultation whatsoever with the two committees which have handled this program since its inception. This same criticism equally would apply to the other Federal-aid programs mentioned above.

It would be a mistake for the Congress on such a broad scale to abandon the concept of Federal aid based upon local needs, and replace it with a system of grants in aid based on fealty.

One final point on the language of the bill. The bill doesn't even tell us which areas would be eligible. Neither the language of the bill nor the legislative history of the measure give any indication as to what the Secretary should or would consider "appropriate" as a "modification" or an "extension" of standard metropolitan areas as we know them. Section 205(3) defines an eligible metropolitan area as being a "standard metropolitan statistical area as established by the Bureau of the Budget, subject however to modifications and extensions as the Secretary may determine to be appropriate."

Presumably, through the grant of additional Federal funds he could urge the creation of a metropolitan area extending from Boston to Richmond, holding out as an inducement 70- to 80-percent Federal aid as opposed to the traditional 50-percent Federal contribution for an imposing array of huge Federal grant-in-aid programs. The urge for creation of such a new metropolitan area by Federal planners would be irresistible. But we are confident the people residing in this rapidly growing area would not want to have the Federal Government deter-

mine for them such purely local matters as zoning, subdivision regulations, and similar land-use and density controls.

REASONABLE SOLUTION

At the outset, we said that we agreed with the basic findings and purposes and the need for additional metropolitan planning. S. 561, passed unanimously last year by the Senate and currently before the House Committee on Government Operations, addresses itself to the need for comprehensive planning of land use for resident, commercial, industrial, and other purposes and other facets of urban development. Under that bill, areawide metropolitan or regional planning would be required as a prerequisite for a broad range of Federal grant-in-aid projects. The difference is that S. 561 would require this comprehensive planning as a condition for grants as presently constituted. Moreover, it would rely on commonsense and good will to persuade local governing bodies to accept planning decisions; it would not be mandatory. H.R. 15890, on the other hand, would require areawide planning as a condition of increasing the Federal share without regard to needs, and local governing bodies would have to accept the planning decisions.

Earlier this year, in his budget message, the President asked that the Congress speedily enact S. 561. We heartily concur. Passage of S. 561 would encourage comprehensive metropolitanwide area planning at the local and State levels—precisely where such plans should originate. Title II of H.R. 15890, on the other hand, makes clear that such metropolitanwide plans would be under the thumb of the Secretary of HUD, leading inevitably to the creation of Federal-Metro government throughout our Nation.

Furthermore, we note that urban planning grants under section 701 of the Housing Act of 1954, involving \$31.1 million, have been approved for 408 metropolitan and regional areas as well as 88 projects involving \$12.3 million for statewide agencies. Secretary Weaver's testimony did not give a report on the results of these. Before approving an entirely new metropolitan planning grant program to be superimposed over the existing one, the Congress should first evaluate past experience under the existing program.

DON'T CALL US; WE'LL CALL YOU

Title III (coordination of Federal activities in metropolitan development) goes hand in hand with title II. The language of this title would insure that the Secretary of HUD would be authorized to—

call upon other Federal agencies to supply such statistical data, program reports, and other materials as he deems necessary to discharge his responsibilities for metropolitan development * * *.

It further asks that—

all Federal agencies which are engaged in administering programs related to metropolitan development, or which otherwise perform functions relating thereto, shall cooperate with the Secretary in carrying out his duties and responsibilities for metropolitan development.

Title III further authorizes the Secretary to appoint "metropolitan expeditors" for each metropolitan area which he finds needs and desires it. The metropolitan expeditor would—

provide information, data, and assistance to local authorities and private individuals and entities within the metropolitan area, and to all relevant Federal departments and agencies, with respect to all programs and activities conducted within such metropolitan area by the Department of Housing and Urban Development, and with respect to other public and private activities and needs within such metropolitan area which relate to the programs and activities of the Department.

The language of this title makes clear the effort by the Department of HUD to take unto itself vast administrative control of virtually every other department and agency of the Federal Government. The Secretary is authorized to request all manner of information from other departments and agencies, and all of these agencies and departments would be required to "cooperate with the Secretary in carrying out *his* duties and responsibilities for metropolitan development."

With the power to increase substantially the Federal share of already multibillion dollar Federal-aid grants to States and localities for highways, water pollution, sewage, airport, and recreation programs, we can only imagine the powers implicit in title III. Furthermore, the bureaucratic jurisdictional disputes that likely would arise would be mammoth.

We realize that the growth of several Federal-aid programs has brought with it a degree of Federal control. Many of us have already expressed varying degrees of displeasure with some of these controls. However, when a community seeks out the Federal Government to pay 50 percent or more of the cost of a local project, it must expect at least some direction from Washington. But to draw together a vast collection of these Federal-aid programs and place over them a second layer of Federal control over purely local matters such as zoning and subdivision regulations would far exceed the proper role of the Federal Government in our society.

YOU CAN FIGHT CITY HALL

To whom would the people turn to exert their proper voice in local and even metropolitan government?

To whom would they protest a zoning decision or the location of a Federal-aid highway? To an appointed metropolitan counsel? To the Federal metropolitan expeditor? To the Secretary of HUD?

Certainly not to their local town council or to their mayor—or their Representative in Congress.

We will not assert our displeasure with titles II and III with the hackneyed warning that these are powers that might be entrusted to Secretary Weaver, but not to his future successors in office. On the contrary, we will be bold enough to say that they should not be entrusted to *any* Secretary of HUD, including the incumbent.

After several months' consideration, the Subcommittee on Housing in its wisdom at one point had decided to delete titles II and III from the housing bill. Unfortunately, various pressures were exerted by the Department of Housing and Urban Development and these and

other sections of the bill were restored and reported favorably by your committee.

We urge the House to strike titles II and III in their entirety. To do otherwise would be to impose a broad new form of government upon millions of Americans who, we are certain, would overwhelmingly reject Federal-metro government.

BANKER'S BONZANA

Tucked away in title VIII, the "Miscellaneous" title of the bill, is a provision in section 805 which would put the Federal National Mortgage Association in the lending business. At present, FNMA's operations are confined to providing a secondary market for FHA- and VA-insured mortgages.

Under this new provision, FNMA could participate up to 95 percent in making construction loans for cooperative housing under FHA section 213, or housing for moderate income and displaced families under FHA section 221(d)(3) in cases in which FNMA has issued a commitment to purchase the mortgage upon completion of construction.

In construction lending on FHA-insured advances, a banker or other lender engaging in such financing usually obtains a 5½-percent interest return on funds advanced, and charges servicing and processing fees amounting to 1½ percent of the total amount of the funds advanced. The loans are made for a period of 6 to 18 months depending upon the nature of the project.

The maximum mortgage amount under FHA section 213 is \$25 million, and under FHA section 221(d)(3) the maximum is \$12.5 million. Assuming the maximum mortgage amount of \$25 million and a 1½-percent servicing fee, this means that a construction lender could put up \$1,250,000, obtain \$23,750,000 from FNMA and collect a servicing fee of \$375,000 on the \$25 million construction loan. To this would be added the \$34,375 of interest he would collect on the \$1,250,000 of his own funds that he had advanced in the transaction over a 1-year period. The \$409,375 return on a \$1,250,000 investment is indeed an outrageous bonzana for a banker or other construction lender.

This is carrying the high interest policies of this administration too far. The provision should be stricken from the bill and FNMA confined to its established secondary mortgage market operations.

J. WILLIAM STANTON.

SUPPLEMENTAL VIEWS OF CONGRESSMAN WILLIAM B. WIDNALL

We are told that the proposed Demonstration Cities Act would help the poor and disadvantaged in our restless cities. For the past 17 years we have been told that slum clearance and urban renewal would do likewise. Now we are told, by Secretary Weaver himself, that urban renewal has never lived up to its promise. And yet, instead of improving upon the multibillion-dollar program already in existence—urban renewal—and regearing it to meet the true housing needs of our urban populations, we are handed still another huge program.

My efforts over the past several years to change this deplorable situation with respect to the urban renewal program have more often than not been met with the statement by HUD that urban renewal cannot be tampered with for fear of losing flexibility. Flexibility for what? Do they mean the kind of flexibility that has constructed luxury high rise apartments and promoted commercial downtown renewal at the expense of the low- and moderate-income citizens left behind in the ghettos? Do they mean the kind of flexibility that has fostered the explosive situations in city after city that we face this summer?

We are told that, whatever the problems of urban renewal in the past, since 1961 residential renewal has been emphasized. Yet a Library of Congress study using HUD data shows that the following major cities have had the following high percentages of funds approved for nonresidential, commercial projects in the last 5 years: Atlanta, 97 percent; Baltimore, 77 percent; Boston, 62 percent; Chicago, 60 percent; Cleveland, 49 percent; New York, 56 percent; Philadelphia, 75 percent.

Speaking for myself, my patience with the present trends in urban renewal has about come to an end. If a city qualifies for demonstration city assistance, then why should it be permitted to continue at the same time with residential urban renewal projects completely inconsistent with the goals set forth for the new program? And why should only demonstration projects in demonstration cities be required to produce "a substantial increase in the supply of standard housing of low and moderate cost and result in marked progress in serving the poor and disadvantaged people living in slum and blighted areas"? Do we need a 6-year demonstration program to prove that in both the few demonstration cities and the thousand other urban centers not so designated there is a need for improvements in the quantity and quality of housing in low- and moderate-income residential areas?

During the executive committee session on this bill, I offered an amendment to the urban renewal laws—an amendment that in no way would have affected the demonstration cities program. Instead, it would have set a priority in the existing multibillion-dollar urban renewal program emphasizing the needs of those with low and moderate means, using the language quoted above from the demonstration cities

bill itself. It was rejected on a straight party line vote. The reason? Flexibility!

I shall offer this same amendment when the bill reaches the floor. For my part, I view the proposed Demonstration Cities Act as a unique opportunity for the Congress. It can provide a test of the sincerity of those who desire its enactment. If they want demonstration cities, then let them first put their urban renewal house in order. Let them restrict urban renewal grants to those cities who are interested in housing the poor instead of accommodating the rich. Had we kept our urban renewal program on the right track all these years, possibly millions of our citizens of all races and backgrounds would not be living in fear for their very lives and properties this summer.

WILLIAM B. WIDNALL.

ADDITIONAL VIEWS OF CONGRESSMAN PAUL A. FINO

I concur with the minority views opposing this bill and wish to express some additional thoughts I have against this measure.

As a Representative from a district that is, by census standards, 100-percent urban, I would like to explain the possible impact this legislation could have in my district and the city of New York if it should be chosen to participate in the demonstration cities program.

The proponents of this program say that it will help the cities of America. I disagree.

This legislation, as written, will permit and allow the Department of Housing and Urban Development to impose its own planning and social standards on the people of my district. I believe that much of urban America will be trampled on and coerced by unwanted Federal standards.

To begin with, a city, in applying for a demonstration cities grant will have to draw up a plan which must satisfy a lot of Federal criteria. The Secretary of HUD will insist that the cities of America pursue a number of new social goals.

Let me tell you what the Secretary of HUD will be considering, by law, in picking any city under this program:

(1) Whether the city plan "provides for educational and social services necessary to serve the poor and disadvantaged in the area."

(2) Whether "substantive local laws, regulations or other requirements are, or can be expected to be, consistent with the objectives of the program."

(3) Whether the city plan will "counteract the segregation of housing by race or income."

If a city's plan does not meet these criteria, then it cannot become a demonstration city. A city which is not a demonstration city (and only 50 cities are to be chosen) will not get a nickel from the Federal Government because the Federal agencies are already making plans to spend their grant money only in those cities (demonstration cities) where Federal dollars will buy Federal control. So the Federal Government, if this bill is passed, will have an extremely powerful weapon to force the cities of America to adopt programs embodying the social criteria set forth above. By passing a bill like this, Congress would be putting an economic pistol to the heads of our cities—in support of social coercion.

I think the above criteria are worth spending a minute of careful analysis on: Take No. 1 first. It requires that the program "provide for educational * * * services necessary to serve the poor and disadvantaged in the area." Evidently "poor" and "disadvantaged" are not necessarily the same group. When someone talks about "educational services" for the "disadvantaged", it brings to my mind "busing", "pairing" and redrawing school district lines to achieve artificial integration. There is no doubt that the Federal Government can and

will insist on schemes for "busing" and "pairing" and the like as a prerequisite to making a demonstration cities grant to a city.

U.S. Education Commissioner Howe on June 18 stated that the Federal Government will insist that localities must adopt such schemes, and the HEW Department recently established a section on de facto segregation. I think it is unfortunate that the demonstration cities program should have been chosen as the vehicle of the Federal effort to push bussing, pairing, and school district redrawing schemes. Congress has already spoken in opposition to these schemes, and the U.S. Supreme Court, in refusing to review the *Gary* case, has said that localities are under no constitutional obligation to juggle school districts or pupils. America's cities do not want demonstration bussing or demonstration school pairing bills.

Obviously the Federal Government can insist on any number of social schemes under the language of the demonstration cities criteria. For example, demonstration cities grants might be conditioned on accepting a Job Corps center full of knife-wielding delinquents. Perhaps a demonstration city might be told that any plan it wanted to submit would have to include submission to a whole new host of OEO programs.

Maybe the Federal Government will decide it doesn't like a local law requiring that welfare applicants must have their eligibility corroborated. As I noted above, the Federal Government can check to see if local laws or regulations are, or can be expected to be, consistent with the objectives of the program. This is a demonstration cities criterion. No doubt the Government could tell city officials that their application would have to await revision of a local regulation or law, or at least promise such revision. This demonstration cities criterion is an intolerable interference with local self-government. That is just what the administration has in mind.

Then there is the requirement that a city plan work for economic and racial integration. By this test, the Federal Government can insist that a city embark on a certain amount of rent supplement housing or build a certain amount of public housing in one-family home residential areas. Since the program also must "encourage good community relations" perhaps a city could be required to hire minority group high school dropouts for the police force like New York City is doing under a labor department grant.

The demonstration cities bill is an ill-considered bill. The committee had pretty much agreed to toss out the program because of its poor structuring when the administration intervened with its usual closed mind and open bayonet. The legislative language under which the above social programs can be forced on America's cities is not something our committee really ought to be blamed for. I urge the defeat of the demonstration cities section of the omnibus bill.

Turning to the metropolitan planning section of the bill, I submit that this is just as far reaching, and aims at Federal control of suburban land use and zoning patterns. Again, souped-up Federal aid is the carrot being offered to induce this municipal abdication. This, too, ought to be stricken from the bill.

I believe we should look askance on this program for still another reason. Is this a year to be making grandiose budgetary commitments for open-ended schemes? It seems to me that we ought to hold off until we have a good idea of the intensity and duration of the

Vietnam war. It is impossible to tell just what this administration has in mind either for our cities or for Vietnam, but I don't believe we can bite off an open-ended multibillion-dollar commitment in the cities until we have successfully delineated our Vietnamese commitment.

To those who say that the programs proposed would involve only a few million in fiscal 1967, I say what about fiscal 1968? Is there any good news emanating from Vietnam which justifies optimism that we will be out of there by fiscal 1968—or even on the way?

This administration has chestnuts to pull out of the fire before it can go soaring after pie in the sky. The program proposed in this bill could feed billions into New York City alone without approaching the total impact desired by the criteria set forth. It is not a cheap program. It is a very costly multibillion-dollar program. It would not be worth its cost, as presently drawn up, even in the best of years. In its present raw and menacing form, set against the budget backdrop of the dollar-eating quagmire of Vietnam, it is not even worth considering.

PAUL A. FINO.

ADDITIONAL VIEWS OF REPRESENTATIVE FLORENCE P. DWYER

The myriad weaknesses of the committee-reported bill are comprehensively discussed in the minority views, with which I concur.

What is so objectionable about the administration proposals, especially in title I and title II, it seems to me, is the fact that while they recognize the real need to mobilize all available assistance to help central cities restore new life and hope to their blighted neighborhoods (title I) and to encourage more effective areawide planning and intergovernmental cooperation to deal with the common needs and problems of metropolitan areas (title II), they seek to exploit the increasing awareness of these needs to enact a program based on inadequate planning, devoid of effective standards, and designed to expand enormously the powers of the Secretary of Housing and Urban Development.

This is the kind of hastily drawn legislation to which the Senate majority leader was obviously referring when he said, at the close of the first session of this Congress, that the second session would have to devote much of its time to correcting the inadequacies of legislation passed last year.

It is a truism to say that if the job of helping cities and metropolitan areas solve their problems is worth doing—and I believe it urgently needs doing—then it is worth doing well. But this is a truism that seems to have escaped the administration in its single-minded rush to get something on the statute books.

The concept of the demonstration cities program, for instance, is a most attractive and promising one. If the program could be revised to eliminate its objectionable features and if this avowedly experimental program could be limited to a half dozen qualifying cities, then I would support it.

Similarly, the excesses of the metropolitan development program—which relies on supplemental grants to persuade metropolitan areas and their constituent jurisdictions to accept as mandatory the planning decisions made by an independent, nonelected planning agency—should be rejected in favor of the more rational and acceptable provisions of the Intergovernmental Cooperation Act, of which I am a cosponsor, which is now pending before the House Committee on Government Operations following unanimous approval of a companion bill by the Senate.

In both cases, the administration seems to be asking Congress to authorize the Department of Housing and Urban Development to spend an undetermined number of billions of dollars for the purpose of permitting the Secretary to control the planning and development of those cities and metropolitan areas which want the money. I believe there are better ways of achieving our desired objectives.

In any program for rebuilding the urban areas of the country, the urban renewal program will play a central role. Yet, there is probably more popular antagonism toward this program today than ever

before—the result, in part, both of misunderstanding about the nature and operation of the program and of dissatisfaction with specific projects which were improperly designed and poorly administered.

In order to help restore public confidence in the urban renewal program, I offered an amendment to the pending bill during subcommittee and full committee consideration which would require the holding of a public referendum on proposed urban renewal projects in communities with populations of 150,000 or less. Although this amendment was rejected, as similar amendments which I offered to housing bills in 2 prior years were also rejected, I believe there is growing recognition among Members that a referendum requirement could stimulate better performance, and so I intend to offer the amendment when the bill comes to the House floor.

This is not an anti-urban-renewal amendment. I have supported urban renewal legislation throughout my service in Congress, and I believe that, wisely administered, the program can make increased contributions toward the rehabilitation of urban communities.

All too often, however, the people of a community have been the missing ingredient in urban renewal. The people have a right to know and to participate in making the community's decision about urban renewal, and urban renewal needs the enlightened understanding of the community. Urban renewal is a unique program in that it uses public funds and the power of eminent domain with which to force private owners to sell their property for resale to other private owners. This fact, plus the communitywide impact of urban renewal projects, especially in smaller communities, requires the involvement of the people in the process of rebuilding their own cities—an objective recognized as fundamental in urban redevelopment legislation.

Yet, in community after community, local development agencies positively discourage citizen interest and participation and function in ways more appropriate to boards of directors of private corporations, thereby inviting some of the public opposition they have encountered.

By giving the people the right to make the decision on an urban renewal project, yes or no, the referendum I propose would (a) provide the means and the incentive for the people to involve themselves in and inform themselves about the community's redevelopment plans, and (b) motivate the planners to take the people into their confidence, to provide meaningful information, and to do as careful and effective a job as possible of advance planning of the project in anticipation of the referendum. This kind of care, and planning, and the knowledge that an unhappy people can kill the project can make the difference between good urban renewal and bad.

To many who have experienced it, urban renewal has not been an unmixed blessing. And the lower down the income scale these people have been, the more they have been hurt. The low-income worker, the struggling small businessman, the family on relief—all have been badly hurt, especially in attempting to relocate their homes and businesses, when individual urban renewal projects were deficient in planning or implementation. The record is discouragingly full of documented reports of hardship, dislocation, disruption, higher rents, vacant land, Negro removal, new slums, the unnecessary destruction of viable neighborhoods and a host of other ills resulting directly from badly planned and mishandled projects.

Smaller communities have been especially vulnerable to such unfortunate experiences with urban renewal due in part to the lack of adequately trained and experienced professional staff and to their relatively poor bargaining position vis-a-vis potential commercial developers. Moreover, in communities with populations of 150,000 or less, a single urban renewal project has a much more direct and immediate impact on the community as a whole than similar projects have in larger cities. For these reasons, plus the prohibitive cost of repeated referendums in larger cities having active urban renewal programs involving many individual projects, I have limited my amendment to smaller communities.

To my knowledge, only two significant objections have been raised to the referendum requirement: First, the theoretical one that a referendum interferes with the concept of representative government in which elected local officials have the responsibility of making urban renewal decisions, and second, the practical one that most communities would defeat urban renewal referenda.

Neither objection is convincing, in my judgment. The country has a long history of submitting public questions to a referendum, including such issues as State constitutional amendments, local school budgets, bond issues, etc., as well as urban renewal in certain States and localities. No discernible damage to the principle of representative government has resulted. Nor, judging from the record during the past 3 years of urban renewal, bond issue and related questions submitted to local referendums, do communities invariably reject such referendums. Of 60 such referendums, 30 have received majorities and 30 have been defeated.

It is a question of trusting the people. As they do in other elections, people tend to vote on the merits of a referendum issue as they see them. I am confident that, given a sound urban renewal plan and the expectation of a competent job of administration, the people will vote accordingly.

In view of the fact that the present bill includes an authorization of \$600 million for urban renewal, over and above existing authorizations, this is an appropriate opportunity to strengthen the urban renewal program by giving the people the right to participate in decisions that have such a fundamental impact on the future of their communities.

FLORENCE P. DWYER.

SEPARATE VIEWS OF REPRESENTATIVE SEYMOUR HALPERN ON H.R. 15890

I, too, am deeply concerned with some of the broad descriptions and language embodied within certain sections of H.R. 15890. I assure my colleagues that I am also wary of imprecise wording which may lead to misinterpretation of any bill.

However, the seriousness of the problems to which the creative concept of demonstration cities addresses itself calls for the massive programs outlined in the bill. Such programs are necessarily broad in scope and, at first, general in description.

The machinery involved in the intergovernmental administration of urban aid projects might, indeed, be more specifically explained so that costs and initial confusion can be kept to a minimum.

While I do have reservations, I believe the demonstration cities program is desperately needed to spur rehabilitation of blighted areas of our cities. The problems of urban areas are enormous; it is estimated that New York City alone will need three demonstration projects to help cure its urban ills. The special needs of our cities—in which, it is estimated, three-fourths of us will live by 1970—call for the physical and social reform provided through the demonstration cities program. The problems are urgent; the program should begin immediately.

Certainly, broad powers and programs will need to be adequately monitored. I can assure Congress that I will be among the first to closely watch and attempt to control proposed appropriations under this crucial authorization.

It is doubtful, in my mind, whether Federal officials will seek to impose limited financial appropriations and programs on areas not seeking such help, when many other cities are, at the same time, asking for such aid. The local voice, I am certain, will be heard and heeded.

I believe that consultation between Federal agencies involved in urban development programs, provided for in the bill, will concentrate resources and bring about more immediate, more effective, and more efficient urban improvement than under presently disjointed programs. Moreover, the demonstration cities program supplements such programs; it does not detract from their goals.

The metropolitan planning title will serve to decentralize and speed administration of federally aided urban projects. Coordinators will be appointed to only those local areas which ask for them.

I am particularly pleased with two sections of the bill. Section 811(2)(b) would appropriate \$100,000 for study of possible relief of homeowners who live near airports. This section would try to discover what ought to be done about the claims of homeowners concerning problems of noise and nuisance associated with residential areas near airports. Study of this problem is long overdue.

The committee has also wisely included several amendments I proposed which perfect the administration of cooperative housing insurance payment programs. I trust they will receive the wholehearted support of Congress, in keeping with the widespread endorsement they already have earned. Approval of the amendments would be a congressional vote of confidence in this commendable segment of American middle-income housing.

SEYMOUR HALPERN.

ADDITIONAL VIEWS OF REPRESENTATIVE BILL BROCK

The minority has stated a factual case in opposition to this legislation, and I concur. However, I feel that additional attention should be directed to the section relating to "Demonstration Cities."

Federal specific grant programs have in many instances aroused my opposition in the past either because I felt they were unwarranted, wasteful, incompetently drawn, debilitated local responsibility through excessive controls, or resulted in an unwise reallocation of funds to projects with less than top priority.

Even so, never did I imagine this Government would have to resort to the device of subsidizing people to take a subsidy as this section does. The tactic is inconceivable, the method of implementation is incredible.

Should a particular subsidy be insufficient, it is hypocritical to hide an additional increase in this bill rather than amend the basic program. Should these subsidies not be insufficient, then it becomes patently clear that the motivation of this bill is founded upon a basic lack of faith in local government and represents solely a stronger device to control it.

Regardless of this, it is politically easy for an individual Member to say a particular bill will relieve problems in his area and ignore its long-range implications. We must not take this easy way on the "Demonstration Cities" title.

Thus, knowing the normal tendency of Members to depend upon their colleagues on the committee in complicated legislation, may I simply urge you in at least this one instance to take 5 or 10 minutes from an obviously overworked schedule and read the first 15 pages of H.R. 15890.

When the bill says that "the Congress further finds and declares that cities, both large and small, do not have adequate resources to deal effectively with the critical problems facing them," pause for a quiet moment and ask yourself "why"? Do you honestly believe that all local and State officials of these United States are either inefficient, incompetent, or corrupt? Do you honestly believe that they don't care, that they are not doing the best possible job with the resources available for the people in their area? Is it not true that sooner or later in our American political system those who might fall into the above categories will ultimately be found out by the people and fired for their failure?

If this be so, then is it not possible that our local communities are in troubled waters because we in Washington have preempted their tax base, have vitiated their ability to respond to the needs of their own people? Can we honestly say that subsidizing subsidies in order to impose even more control and assume even more local responsibilities reflects a sincere effort on the part of this Congress to redress these problems? When are we going to face up to the basic issue—that of

expanding the tax base so that public servants in the courthouse can really serve the public.

When the bill says it is "the purpose of this title to provide the additional financial aid needed to enable cities to participate more effectively in existing Federal assistance programs," would not it be the essence of responsible self-evaluation to ask ourselves, "Where have we failed?" If after decades of massive Federal specific grant programs we come finally to the conclusion that our cities cannot effectively utilize many of these programs, is it not time to pause and reevaluate our past efforts?

When the bill takes four pages just to list those areas in which national controls and standards must be substituted for local judgment and initiative, doesn't this ring a small bell? If our local communities are unable or unwilling to establish reasonable criteria, as this language implies, then perhaps we had best reexamine the root structure of America. This Nation can be no stronger than each citizen's "hometown." If we doubt their responsiveness, and I do not, then we must also pause briefly to wonder "Where lies the future of our Federal system?" Certainly it is also fair to ask whether Federal assumption of local responsibility is part of the solution or part of the problem.

Sooner or later we must face up to the question of the viability of our system in modern America. This is the most basic problem of all, and I, for one, am not afraid to seek the answer. We, in this Nation must continuously address ourselves to the overall political complex of interrelated and interdependent, city, county, State, and Federal Governments. If we will appraise our current effectiveness, and based upon this appraisal make a decision as to future governmental composition, then I don't fear those solutions which may be forthcoming.

But let us not in the name of political expediency or financial crisis direct our attention to the symptoms only. If we, in our haste to act, destroy the existing structure without giving sufficient thoughts, and taking sufficient steps, to replace it—then we will have failed those who will direct the Nation tomorrow.

Yes, we are politicians, but as successful politicians, we have accepted a responsibility. It is time we had the integrity to stand or fall based upon how well we meet this responsibility. Should our job become more important to us than the institution we call America, then we will cease to earn the title of a great, or even a free, society.

I don't ask you to defeat this bill and then forget the problem. It should be defeated, but only with eyes open and minds excited over the challenge our action affords. I ask you to seize upon a unique opportunity to focus the enormous intellectual talents of this Congress and this Nation upon the total Federal system, its tax base and its makeup, its strengths, and its weaknesses, fully aware of the impact its formulation will have on the future of freedom.

BILL BROCK.

INDIVIDUAL VIEWS OF CONGRESSMAN BURT L. TALCOTT

I generally concur with the minority views and the additional views of Representative Florence P. Dwyer relating to the proposal to require a referendum in the urban renewal approval procedure.

Much more should be said, but time does not permit.

The Congress, all local and State officials, and all citizens of the United States should be forewarned of the proposal for "New Communities"—title IV of this bill. It could be the most devastating encroachment by the Federal central bureaucracy upon the functions of local government, private enterprise, and individual freedom yet concocted by the Federal planners.

"FEDERAL SUBURBS" AND GOVERNMENT TOWNS"

"Satisfactory to the *Secretary*," "as the *Secretary* deems reasonable," "if the *Secretary* determines," "approved by the *Secretary*," "regulated in a manner acceptable to *him*," "which *he* finds consistent," "meeting criteria established by the *Secretary*," "the *Secretary* shall adopt such requirements as *he* deems necessary."

What is a "new town," or a "new community," as the Department calls it?

There is no adequate definition except as may exist in the Department's mind. If this legislation is enacted into law, new communities will be whatever the Secretary of HUD says they will be. In proof of this is the language of the proposed departmental legislation: "satisfactory to the Secretary," "as the Secretary deems reasonable," "if the Secretary determines," "approved by the Secretary," "regulated in a manner acceptable to *him*," "which *he* finds consistent," "meeting criteria established by the Secretary," "the Secretary shall adopt such requirements as *he* deems necessary," etc. The phraseology is repetitious.

This proposed legislation is something that the Congress has not been willing to consider despite three prior recommendations by the Department. It does provide a considerable subsidy for selected large entrepreneurs, an ill-concealed "bailout" operation for a favored few, but that is not legislation in the public interest. The ideas on which the new town legislative proposals are based are yet to be proven and the new town experiments to date have been well characterized as "oversized subdivisions with oversized problems."

The "new towns" as proposed and as they presently exist are also not a lesson in democracy. The kindest definition of them from a political standpoint is that they are "benevolent dictatorships," so run by their developers in a mixture of self-preservation and self-interest. The Department is proposing, possibly unthinkingly, that the title of dictator rests better with the Secretary than with the developers. This gives believers in our present political system a poor choice from which to make a bad decision.

All of the "new towns" currently in existence are fighting desperately to establish an economic base. They need it to breathe life into their moribund communities which have learned that they cannot exist on dreams alone and must have dollars to go with those dreams and dollars in large figures. Consequently, most of the "new towns" developers are at Washington's door, hat in hand, looking for some form of Government subsidy. Preferably, this subsidy should adopt the disguise which would have the Government establish one of its multipurpose bureaus within the new town's city limits. This, of course, would just increase the further unnecessary investment of public funds, but no one other than the Federal Government seems to have the large amounts of money that are necessary to make one of these artificial communities work.

Since considerable sums of money are necessary to make a new town go, it follows that those living there must bring it with them. So we have the paradox of the Department talking in terms of building low- and moderate-income housing within the new community that desperately needs heavy taxpayments just to maintain itself. New streets, sewers, and water facilities cost money, particularly in these days of the inflated dollars, and particularly when a developer or the Government has made the arbitrary decision that a town will be built here.

Obviously, artificial communities such as are conceived under this proposed title of the bill are going to be under Government domination, direct and indirect, for a long time to come if the new towns are going to be propped up and kept going. Administrative authority is going to be the guiding principle and for the first time we are going to have our people told where to live and under what conditions. But there probably is no other control possible if these are going to be rubberstamped "new towns" put down wherever the Government decides it has an economic, political, or personal reason.

It may come as a shock to some, but the nearby Washington community of Belair could well have been one of the "new towns" under this legislation, its political life dictated from Washington.

At any rate, judging from the difficulties encountered by such communities to date, the risks are great and the benefits are nebulous.

But why are we building new towns? To take care of our burgeoning population?

That is the best answer to date, but not one that is satisfying to the country's mayors and councilmen, all of them in a constant struggle to *rebuild* and *maintain* their existing cities. They see, with considerable reality, "new towns" as a threat to their tax base, as an overly hungry contender for Federal funds, support, and preference.

The mayors and councilmen are struggling for industry, citizens, and a better way of life for the people within their communities. They already have the competition of the suburbs, which grew naturally. Now, they are faced with the Government rubberstamping whole new, expensive, artificial communities in their vicinity which will feed upon them, but contribute nothing to their continued existence.

The National Association of Homebuilders put it differently. They said they were against the Government destroying the system of private ownership of land.

The proposal has so much and so many against it that it is amazing to me that it could be proposed at such an unlimited and costly expense to the taxpayers. If the benefits were for the many, we could understand the Department's stand. But they are for the few. If the history of new towns was extensive and marked with success, we could understand the Department's adamant stand. But the history is a spotty one of financial failure and heavy subsidy. If the solutions to the apparent problems were at hand, we could envision some compromise. But no solutions have been sought, the proponents do not even admit of the obvious problems existing.

I do not think the Government can afford the millions that are required to be expended while the Department's thinking matures.

The so-called new towns or new communities can only sap the vitality of established towns and communities. The subsidized new towns will be parasitic—sucking revenues from other communities for artificial sustenance and making the preservation and revitalization of our established communities more difficult.

These new "government towns" or "Federal suburbs" will have all the disadvantages of old "company towns" or military posts. Those who live near a large military base can easily appreciate living on the post and having your town "regulated in a manner satisfactory to the Secretary of DOD." What difference, if any, would there be in another Federal town "regulated in a manner acceptable to the Secretary of HUD"?

The "HUD towns" would certainly sap the neighboring conventional "civilian" towns more than the present military "DOD towns."

Persons can and would prefer to build and own their own homes; citizens of a community can and would prefer to build and own their own towns.

There are many better, more effective and more practicable methods for the Federal Government to assist local governments with their chronic problems. Local officials have the talent, experience, concern, and scrutiny to solve their local problems—whether educational or purely governmental. Local municipalities lack only the funds to finance necessary projects. Local tax sources—property and sales—are overburdened and saturated. The income tax should be used for these purposes. The Federal Government has usurped the income tax source—and has the collection machinery well oiled.

The Federal Government should share income tax revenues with the individual States for education and such local governmental purposes as are proposed in this bill.

Special Federal categorical subsidies and subventions for a myriad local purposes are inequitable, extravagant, wasteful, and mediocre.

My bill, H.R. 10717, provides a Federal revenue sharing plan for educational purposes. It is the soundest proposal yet for improving our elementary and secondary education system. A similar proposal of Federal tax sharing with the States for local governmental purposes would be a better, more effective, less expensive, and more acceptable method for solving the governmental problems of our local communities.

I urge approval of an amendment to require a public referendum to approve urban renewal projects and an amendment to delete title IV proposing "government towns" and Federal cities.

BURT L. TALCOTT.

ADDITIONAL VIEWS OF REPRESENTATIVE DEL CLAWSON

In supporting the minority views in opposition to this bill, I concur particularly with those arguments which expressly reveal the wide variety of programs, the numerous Federal agencies involved and the overlapping implementation of the federally supported projects. Most significant, I feel are the statistics on the amount of money appropriated, the projects approved but not begun, the volume of authorized yet unencumbered funds. The most dramatic statistic perhaps is that used in the report which indicates that as of January 1, 1966, the figure for urban renewal funds authorized since 1949 stood at \$7.6 billion. Of this \$7.6 billion, \$5.6 billion is committed and only \$1.5 billion actually spent.

The Federal Government spreads before the cities not a buffet or banquet but a bewildering Lucullan feast of aid. But aside from the questionable proposals that build project on project and overlap program with program, where is the logic in authorizing and appropriating additional funds when billions are yet unspent and other authorized billions are yet to be committed? Why not permit a breathing spell to see what we have done and where we are going? Place the burden upon those agencies and departments involved in the numerous programs to do the job assigned to them and give an accounting of their performance before launching upon a series of new and untried programs that could very possibly result in failure for both the new and the old. It is conceivable that employees could not be hired in numbers sufficient to perform efficiently the total job that is contemplated in this bill while continuing to carry out those functions and complete the projects currently in the pipeline.

If the presently authorized billions were put to work how many employees would be added to the Federal payroll and just how adequate (with the value of the 1966 dollar) would the funds appropriated in the 1950's prove to do the job for which they were originally intended?

Unless an attempt is made to resolve some of these basic questions passage of this bill will merely supply some finishing touches to an inverse pyramid of overlapping Federal programs which must finally topple of its own weight and imbalance.

In connection with the criticisms outlined above, Members of the House might be interested in reading the following story that appeared in the Washington Daily News of June 14, 1966. Because of the current extremely tight credit market, it further fortifies my opposition to a broad new Federal spending program at this critical time.

[From the Washington Daily News, Thursday, July 14, 1966]

BANKS BACK OFF RENEWAL LOANS

(By William Steif, Scripps-Howard Staff Writer)

The U.S. Treasury has just been socked with an unexpected \$44.7 million expense because of the first refusal of private banks to finance urban renewal loans.

As a result, slum clearance in some cities may be slowed.

The cities draw on proceeds of the loans occasionally to pay for their urban renewal work.

BIDS OPENED

Bids were opened this week on \$106,445,000 worth of federally guaranteed, short-term notes. Government financial experts running the bidding were shocked to find they had sold only \$61,683,000 worth of the tax-exempt notes—and at a record high interest rate of 4.11 percent. The prior month \$102,883,000 worth of notes sold out at 3.57 percent interest.

When there are no buyers for the 6-month to 1-year notes the Treasury, by law, must step in and pay off the obligations. This never happened before in the 13 years that cities' urban renewal notes have been sold on a regular basis.

About \$1.5 billion in this type of debt is outstanding. Every month some of it is refinanced through sale of the notes.

"We have had no trouble selling them," one official said today. "The only reason for this failure is that there is absolutely no loose money around."

He said between \$100 million and \$150 million in such notes would be up for sale in August and "we could have the same experience."

Officials in the Housing and Urban Development Department conceded that when interest rates soar as high as they are today, costs of urban renewal projects rise substantially. This may cause a number of cities to defer slum clearance. The cities pay a third of the public costs of urban renewal and the United States pays two-thirds.

Delays in urban renewal eventually could balance off the current drain on the Treasury, although city renewal programs would suffer.

HUD officials said new notes will be offered for sale later this year in place of the \$44,762,000 worth of unsold notes. The plan is to shorten the terms—almost half of the unsold notes were 1-year obligations—and to break the new notes into smaller denominations, so that small local banks can bid on them. Until now, giant banks such as California's Bank of America and New York's First National City have been the chief purchasers.

DEL CLAWSON.

ADDITIONAL VIEWS OF CONGRESSMAN ALBERT W. JOHNSON

I subscribe to and have signed the minority views. In addition, I wish to comment briefly on section 404 of the bill relating to water and sewage facilities in new communities.

This section contains power-grab authority on the part of the Secretary of HUD which was considered and rejected by the Congress last year when it wrote into the law a new title X of the FHA Act providing for FHA mortgage insurance for land development.

At that time, provision was made that water and sewage facilities could be either public, or privately or cooperatively owned provided they would be adequate, and regulated in a manner acceptable to the Secretary. A requirement of the then proposed legislation that privately or cooperatively owned systems could only be utilized if there was provision for eventual public ownership and operation was deleted.

Section 404 of the bill would reverse that basic policy decision in the case of water and sewage facilities in new communities. In such new towns, the Secretary of HUD would be given authority to deny private or cooperative systems unless "he receives assurance, satisfactory to him, with respect to eventual public ownership and operation of the system * * *." Thus, although land development and new communities are found in the same title X of the FHA Act, different tests would apply to water and sewage facilities to be developed therein. This does not make sense.

When the bill is on the floor of the House, I intend to support an amendment to strike out section 404. This will allow existing law to stand so that the same tests will be applicable to water and sewage facilities whether they be in connection with land development or in connection with new communities.

ALBERT W. JOHNSON.

INDIVIDUAL VIEW OF CONGRESSMAN CHESTER L. MIZE

There is—in my opinion—enough legislation on the books at present in the fields of renewal, housing, transportation, education, economic opportunity, and related programs—to make the demonstration cities program—absolutely unnecessary.

Under the bill, the Federal Government would have to make additional billions of dollars available to help selected cities undertake rehabilitation programs in a single demonstration area in the city. In the first year a modest \$12 million is available for planning—but the bulk of the money to be provided over the next 5 years to carry out the plans would be in the billions. One of the leading members of the Housing Subcommittee—stated that it would be impossible to accurately estimate the total cost of the program.

The main thrust of the bill is to combine traditional slum clearance programs such as urban renewal with a wide variety of social welfare programs. It is just another example of piling on additional programs to existing programs to accomplish the same objectives. Why don't we stop adding new legislation in the field of housing—and urban development—and give existing legislation an opportunity to achieve their objective—before initiating additional efforts. Furthermore—with budget deficit facing us—this is the kind of thing that should be eliminated by not starting it.

CHESTER L. MIZE.

SUPPLEMENTARY VIEWS OF HON. RICHARD L. OTTINGER

I wholeheartedly approve of the approach of the demonstration cities program put forward in this bill.

The crisis of urban deterioration is enormous and pressing. It is national in scope. A new approach is desperately needed. The demonstration cities program will show whether concentration of existing Federal programs can succeed in eliminating the blight of slums from substantial areas.

I question, however, the prudence of authorizing a huge multibillion-dollar expenditure at this time of national financial strain.

We are in a period of severe inflationary danger. Prices are soaring and the pinch is being felt all around the country, especially by low- and middle-income families and by pensioners on fixed incomes. We are at war. We have been asked to approve \$17.8 billion for defense, more than \$1 billion in excess of the President's budget. The pressures for an undesirable tax increase to pay these costs mount daily.

The only way to avoid a tax increase in the face of war demands and these severe inflationary pressures is to cut nonessential Federal spending. This necessarily means foregoing some badly needed and highly desirable programs. It means that we cannot afford to authorize billions for this program at this time.

We need not make this multibillion-dollar decision now and in my opinion we should not. The demonstration city funds cannot be spent at any rate for more than a year, until after projects are formulated and planned.

I therefore suggested in committee and recommend to the House that we authorize at this time only the \$12 million requested for planning.

I recommend that we defer authorization of funds for execution until such time as the state of the economy permits.

At the present time, the bill contains a sense-of-Congress resolution that any appropriation for this program "shall take into account the budgetary situation existing at the time it is made." I don't think we should yield this vitally important decision to the Appropriations Committee. The bill contains absolutely no limit or guidelines on the amount to be authorized. I don't think the Banking and Currency Committee of the House should write a blank check. It would undermine the authorization process and concede an important power for financial restraint at a time of severe monetary crisis.

Actually, there is more than one blank check included in this bill. It is a peculiar fact that the chairman of the Housing Subcommittee, in response to a question on how much expenditure was contemplated in the 5-year authorization for this bill, replied that he did not know how much was involved.

Here is a listing of what the bill says it is authorizing:

There is a blank check authorization for the demonstration cities program in section 111(c). We are told by HUD that this will call for a \$2.3 billion expenditure.

In addition to \$600 million in section 114 for urban renewal within demonstration areas, there is a blank check in section 203(b) for metropolitan development grants for which no sum has been mentioned; \$15 million in section 402 (a) for mortgage authority and \$25 million in the first year for land acquisition under section 408, to develop new communities.

There are also new—

Increased mortgage limits for cooperative housing in sections 503 and 505;

\$20,000 of mortgage authorization for section 221 mortgages under section 506;

\$1 billion of added armed services mortgage insurance authority under section 509(a) (1);

Indeterminate subsidized mortgage insurance authority for group practice facilities in title VI;

An undetermined additional authority for rural housing in title VII;

A blank check for technical research advances in section 809(d);

\$100,000 for studies concerning relief of homeowners in proximity to airports in section 811(2) (b), and

A blank check for hydrology research in section 812(d).

We have a right to know the total anticipated cost of each and all these projects that we are being asked to authorize. We must know if we are to act soundly and responsibly.

To show our commitment to the demonstration cities program, I suggested in committee and recommend to the House that we express the sense of Congress of our resolve to execute this program and that authorization, but not appropriation, for this program shall take into account the budgetary situation existing when plans for the program have been submitted and are, in fact, ready for funding.

RICHARD OTTINGER.

HOUSING AND URBAN DEVELOPMENT ACT OF 1966

JULY 15, 1966.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

Mr. PATMAN, from the Committee on Banking and Currency,
submitted the following

R E P O R T

[To accompany H.R. 15890]

PART II

CHANGES IN EXISTING LAW MADE BY THE BILL, AS REPORTED

In compliance with clause 3 of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in italic, existing law in which no change is proposed is shown in roman) :

NATIONAL HOUSING ACT

[Public Law 479, 73d Congress, 48 Stat. 1246, 12 U.S.C. 1701 et seq.]

AN ACT to encourage improvement in housing standards and conditions, to provide a system of mutual mortgage insurance, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "National Housing Act."

TITLE I—HOUSING RENOVATION AND MODERNIZATION

【CREATION OF FEDERAL HOUSING ADMINISTRATION】 *ADMINISTRATIVE PROVISION*

SECTION 1. 【The President is authorized to create a Federal Housing Administration, all of the powers of which shall be exercised by a Federal Housing Commissioner (hereinafter referred to as the “Commissioner”), who shall be appointed by the President, by and with the advice and consent of the Senate.】

In order to carry out the provisions of this title and titles II, III, V, VI, VII, VIII, IX, and X, the 【Commissioner】 *Secretary of Housing and Urban Development* (hereinafter referred to as the “Secretary”) may establish such agencies, accept and utilize such voluntary and uncompensated services, utilize such Federal officers and employees, and, with the consent of the State, such State and local officers and employees, and appoint such other officers and employees as he may find necessary, and may prescribe their authorities, duties, responsibilities, and tenure and fix their compensation, without regard to the provisions of other laws applicable to the employment or compensation of officers or employees of the United States. The 【Commissioner】 *Secretary* may delegate any of the functions and powers conferred upon him under this title and titles II, III, V, VI, VII, VIII, IX, and X, to such officers, agents, and employees as he may designate or appoint, and may make such expenditures (including expenditures for personal services and rent at the seat of government and elsewhere, for law books and books of reference, and for paper, printing, and binding) as are necessary to carry out the provisions of this title and titles II, III, V, VI, VII, VIII, IX, and X, without regard to any other provisions of law governing the expenditure of public funds. All such compensation, expenses, and allowances shall be paid out of funds made available by this Act: *Provided, That*, notwithstanding any other provisions of law except provisions of law hereafter enacted expressly in limitation hereof, all expenses of the 【Federal Housing Administration】 *Department of Housing and Urban Development* in connection with the examination and insurance of loans or investments under any title of this Act, all properly capitalized expenditures, and other necessary expenses not attributable to general overhead in accordance with generally accepted accounting principles shall be considered nonadministrative and payable from funds made available by this Act, except that, unless made pursuant to specific authorization by the Congress therefor, expenditures made in any fiscal year pursuant to this proviso, other than the payment of insurance claims and other than expenditures (including services on a contract or fee basis, but not including other personal services) in connection with the acquisition, protection, completion, operation, maintenance, improvement, or disposition of real or personal property of the 【Administration】 *Department* acquired under authority of this Act, shall not exceed 35 per centum of the income received by the 【Federal Housing Administration】 *Department of Housing and Urban Development* from premiums and fees during the preceding fiscal year. The 【Commissioner】 *Secretary* shall, in carrying out the provisions of this title and titles

II, III, V, VI, VII, VIII, IX, and X be authorized, in his official capacity, to sue and be sued in any court of competent jurisdiction, State or Federal.

INSURANCE OF FINANCIAL INSTITUTIONS

SEC. 2. (a) The **[Commissioner]** *Secretary* is authorized and empowered upon such terms and conditions as he may prescribe, to insure banks, trust companies, personal finance companies, mortgage companies, building and loan associations, installment lending companies, and other such financial institutions, which the **[Commissioner]** *Secretary* finds to be qualified by experience or facilities and approves as eligible for credit insurance, against losses which they may sustain as a result of loans and advances of credit, and purchases of obligations representing loans and advances of credit, made by them on and after July 1, 1939, and prior to October 1, 1969, for the purpose of financing alterations, repairs, and improvements upon or in connection with existing structures, and the building of new structures, upon urban, suburban, or rural real property (including the restoration, rehabilitation, rebuilding, and replacement of such improvements which have been damaged or destroyed by earthquake, conflagration, tornado, hurricane, cyclone, flood, or other catastrophe), by the owners thereof or by lessees of such real property under a lease expiring not less than six months after the maturity of the loan or advance of credit. In no case shall the insurance granted by the **[Commissioner]** *Secretary* under this section to any such financial institution on loans, advances of credit, and purchases made by such financial institution for such purposes on and after July 1, 1939, exceed 10 per centum of the total amount of such loans, advances of credit, and purchases: *Provided*, That with respect to any loan, advance of credit, or purchase made after the effective date of the Housing Act of 1954, the amount of any claim for loss on any such individual loan, advance of credit, or purchase paid by the **[Commissioner]** *Secretary* under the provisions of this section to a lending institution shall not exceed 90 per centum of such loss.

After the effective date of the Housing Act of 1954, (i) the **[Commissioner]** *Secretary* shall not enter into contracts for insurance pursuant to this section except with lending institutions which are subject to the inspection and supervision of a governmental agency required by law to make periodic examinations of their books and accounts, and which the **[Commissioner]** *Secretary* finds to be qualified by experience or facilities to make and service such loans, advances or purchases, and with such other lending institutions which the **[Commissioner]** *Secretary* approves as eligible for insurance pursuant to this section on the basis of their credit and their experience or facilities to make and service such loans, advances or purchases; (ii) only such items as substantially protect or improve the basic livability or utility of properties shall be eligible for financing under this section, and therefore the **[Commissioner]** *Secretary* shall from time to time declare ineligible for financing under this section any item, product, alteration, repair, improvement, or class thereof which he determines would not substantially protect or improve the basic livability or utility of such properties, and he may also declare ineligible for financing under this section any item which he determines is especially subject to selling abuses; and

(iii) the **[Commissioner]** *Secretary* is hereby authorized and directed, by such regulations or procedures as he shall deem advisable, to prevent the use of any financial assistance under this section (1) with respect to new residential structures that have not been completed and occupied for at least six months, or (2) which would, through multiple loans, result in an outstanding aggregate loan balance with respect to the same structure exceeding the dollar amount limitation prescribed in this subsection for the type of loan involved: *Provided*, That this clause (iii) may in the discretion of the **[Commissioner]** *Secretary* be waived with respect to the period of occupancy or completion of any such new residential structures.

(b) No insurance shall be granted under this section to any such financial institution with respect to any obligation representing any such loan, advance of credit, or purchase by it (1) if the amount of such loan, advance of credit, or purchase exceeds \$3,500; (2) if such obligation has a maturity in excess of three years and thirty-two days, except that the **[Commissioner]** *Secretary* may increase such maximum limitation to five years and thirty-two days if he determines such increase to be in the public interest after giving consideration to the general effect of such increase upon borrowers, the building industry, and the general economy, and such maturity limitation shall not apply if such loan, advance of credit, or purchase is for the purpose of financing the construction of a new structure for use in whole or in part for agricultural purposes; or (3) unless the obligation bears such interest, has such maturity, and contains such other terms, conditions, and restrictions as the **[Commissioner]** *Secretary* shall prescribe, in order to make credit available for the purposes of this title: *Provided*, That any such obligation with respect to which insurance is granted under this section on or after sixty days from the date of the enactment of this proviso shall bear interest, and insurance premium charges, not exceeding (A) an amount, with respect to so much of the net proceeds thereof as does not exceed \$2,500, equivalent to \$5 discount per \$100 of original face amount of a one-year note payable in equal monthly installments, plus (B) an amount, with respect to any portion of the net proceeds thereof in excess of \$2,500, equivalent to \$4 discount per \$100 of original face amount of such a note: *Provided further*, That the amounts referred to in clauses (A) and (B) of the preceding proviso, when correctly based on tables of calculations issued by the **[Commissioner]** *Secretary* or adjusted to eliminate minor errors in computation in accordance with requirements of the **[Commissioner]** *Secretary*, shall be deemed to comply with such proviso: *Provided further*, That insurance may be granted to any such financial institution with respect to any obligation not in excess of \$15,000 nor an average amount of \$2,500 per family unit and having a maturity not in excess of seven years and thirty-two days representing any such loan, advance of credit, or purchase made by it if such loan, advance of credit, or purchase is made for the purpose of financing the alteration, repair, improvement, or conversion of an existing structure used or to be used as an apartment house or a dwelling for two or more families: *Provided further*, That any obligation with respect to which insurance is granted under this section on or after July 1, 1939, may be refinanced and extended in accordance with such terms and conditions as the **[Commissioner]**

Secretary may prescribe, but in no event for an additional amount or term in excess of the maximum provided for in this subsection.

(c) (1) Notwithstanding any other provision of law, the **[Commissioner]** *Secretary* shall have the power, under regulations to be prescribed by him and approved by the Secretary of the Treasury, to assign or sell at public or private sale, or otherwise dispose of, any evidence of debt, contract, claim, personal property, or security assigned to or held by him in connection with the payment of insurance heretofore or hereafter granted under this section, and to collect or compromise all obligations assigned to or held by him and all legal or equitable rights accruing to him in connection with the payment of such insurance until such time as such obligations may be referred to the Attorney General for suit or collection.

(2) The **[Commissioner]** *Secretary* is authorized and empowered (a) to deal with, complete, rent, renovate, modernize, insure, or sell for cash or credit, in his discretion, and upon such terms and conditions and for such consideration as the **[Commissioner]** *Secretary* shall determine to be reasonable, any real property conveyed to or otherwise acquired by him in connection with the payment of insurance heretofore or hereafter granted under this title and (b) to pursue to final collection, by way of compromise or otherwise, all claims against mortgagors assigned by mortgagees to the **[Commissioner]** *Secretary* in connection with such real property by way of deficiency or otherwise: *Provided*, That section 3709 of the Revised Statutes shall not be construed to apply to any contract of hazard insurance or to any purchase or contract for services or supplies on account of such property if the amount thereof does not exceed \$1,000. The power to convey and to execute in the name of the **[Commissioner]** *Secretary* deeds of conveyance, deeds of release, assignments and satisfactions of mortgages, and any other written instrument relating to real property or any interest therein heretofore or hereafter acquired by the **[Commissioner]** *Secretary* pursuant to the provisions of this title may be exercised by **[the Commissioner or by any Assistant Commissioner]** *an officer* appointed by him without the execution of any express delegation of power or power of attorney: *Provided*, That nothing in this paragraph shall be construed to prevent the **[Commissioner]** *Secretary* from delegating such power by order or by power of attorney, in his discretion, to any officer or agent he may appoint.

(d) The **[Commissioner]** *Secretary* is authorized and empowered, under such regulations as he may prescribe, to transfer to any such approved financial institution any insurance in connection with any loans and advances of credit which may be sold to it by another approved financial institution.

(e) The **[Commissioner]** *Secretary* is authorized to waive compliance with regulations heretofore or hereafter prescribed by him with respect to the interest and maturity of and the terms, conditions, and restrictions under which loans, advances of credit, and purchases may be insured under this section and section 6, if in his judgment the enforcement of such regulations would impose an injustice upon an insured institution which has substantially complied with such regulations in good faith and refunded or credited any excess charge made, and where such waiver does not involve an increase of the obligation

of the **[Commissioner]** *Secretary* beyond the obligation which would have been involved if the regulations had been fully complied with.

(f) The **[Commissioner]** *Secretary* shall fix a premium charge for the insurance hereafter granted under this section, but in the case of any obligation representing any loan, advance of credit, or purchase, such premium charge shall not exceed an amount equivalent to 1 per centum per annum of the net proceeds of such loan, advance of credit, or purchase, for the term of such obligation, and such premium charge shall be payable in advance by the financial institution and shall be paid at such time and in such manner as may be prescribed by the **[Commissioner]** *Secretary*.

(g) Any payment for loss made to an approved financial institution under this section shall be final and incontestable after two years from the date the claim was certified for payment by the **[Commissioner]** *Secretary*, in the absence of fraud or misrepresentation on the part of such institution, unless a demand for repurchase of the obligation shall have been made on behalf of the United States prior to the expiration of such two-year period.

(h) the **[Commissioner]** *Secretary* is authorized and directed to make such rules and regulations as may be necessary to carry out the provisions of this title.

LOANS TO FINANCIAL INSTITUTIONS

SEC. 3. Repealed.

ALLOCATION OF FUNDS

SEC. 4. For the purposes of carrying out the provisions of this title and titles II and III **[the Reconstruction Finance Corporation shall make available to the Administrator such funds as he may deem necessary, and the amount of notes, debentures, bonds, or other such obligations which the Corporation is authorized and empowered to have outstanding at any one time under existing law is hereby increased by an amount sufficient to provide such funds: *Provided, That*** the President, in his discretion, is authorized to provide such funds or any portion thereof by allotment to the **[Commissioner]** *Secretary* from any funds that are available, or may hereafter be made available, to the President for emergency purposes.

SEC. 5. Repealed.

SEC. 6. Repealed.

TAXATION

SEC. 7. Nothing in this title shall be construed to exempt any real property acquired and held by the **[Commissioner]** *Secretary* in connection with the payment of insurance heretofore or hereafter granted under this title from taxation by any State or political subdivision thereof, to the same extent, according to its value, as other real property is taxed.

INSURANCE OF MORTGAGES

SEC. 8. (a) To assist in providing adequate housing for families of low and moderate income, particularly in suburban and outlying areas, this section is designed to supplement systems of mortgage

insurance under other provisions of the National Housing Act by making feasible the insurance of mortgages covering properties in areas where it is not practicable to obtain conformity with many of the requirements essential to the insurance of mortgages on housing in built-up urban areas. The **[Commissioner]** *Secretary* is authorized upon application by the mortgagee, to insure, as hereinafter provided, any mortgage (as defined in section 201 of this Act) offered to him which is eligible for insurance as hereinafter provided, and, upon such terms as the **[Commissioner]** *Secretary* may prescribe, to make commitments for the insuring of such mortgages prior to the date of their execution or disbursement thereon: *Provided*, That the aggregate amount of principal obligations of all mortgages insured under this section and outstanding at any one time shall not exceed \$100,000,000, except that with the approval of the President such aggregate amount may be increased at any time or times by additional amounts aggregating not more than \$150,000,000 upon a determination by the President, taking into account the general effect of any such increase upon conditions in the building industry and upon the national economy, that such increase is in the public interest: *And provided further*, That no mortgage shall be insured under this section after the effective date of the Housing Act of 1954, except pursuant to a commitment to insure issued on or before such date.

(b) To be eligible for insurance under this section, a mortgage shall—

(1) have been made to, and be held by, a mortgagee approved by the **[Commissioner]** *Secretary* as responsible and able to service the mortgage properly;

(2) involve a principal obligation (including such initial service charges, appraisal, inspection, and other fees as the **[Commissioner]** *Secretary* shall approve) in an amount not to exceed \$5,700, and not to exceed 95 per centum of the appraised value, as of the date the mortgage is accepted for insurance, of a property upon which there is located a dwelling designed principally for a single-family residence, and which is approved for mortgage insurance prior to the beginning of construction: *Provided*, That the mortgagor shall be the owner and occupant of the property at the time of insurance and shall have paid on account of the property at least 5 per centum of the **[Commissioner's]** *Secretary's* estimate of the cost of acquisition in cash or its equivalent, or shall be the builder constructing the dwelling, in which case the principal obligation shall not exceed 85 per centum of the appraised value of the property or \$5,100: *Provided further*, That the **[Commissioner]** *Secretary* finds that the project with respect to which the mortgage is executed is an acceptable risk, giving consideration to the need for providing adequate housing for families of low and moderate income particularly in suburban and outlying areas: *And provided further*, That, where the mortgagor is the owner and occupant of the property and establishes (to the satisfaction of the **[Commissioner]** *Secretary*) that his home, which he occupied as an owner or as a tenant, was destroyed or damaged to such an extent that reconstruction is required as a result of a flood, fire, hurricane, earthquake, storm or other catastrophe,

which the President, pursuant to section 2(a) of the Act entitled "An Act to authorize Federal assistance to States and local governments in major disasters, and for other purposes" (Public Law 875, Eighty-first Congress, approved September 30, 1950), has determined to be a major disaster, such maximum dollar limitation may be increased by the [Commissioner] *Secretary* from \$5,700 to \$7,000, and the percentage limitation may be increased by the [Commissioner] *Secretary* from 95 per centum to 100 per centum of the appraised value;

(3) have a maturity satisfactory to the [Commissioner] *Secretary* but not to exceed thirty years from the date of insurance of the mortgage;

(4) contain complete amortization provisions satisfactory to the [Commissioner] *Secretary* requiring periodic payments by the mortgagor not in excess of his reasonable ability to pay as determined by the [Commissioner] *Secretary*;

(5) bear interest (exclusive of premium charges for insurance and service charges, if any) at not to exceed 5 per centum per annum on the amount of the principal obligation outstanding at any time;

(6) provide, in a manner satisfactory to the [Commissioner] *Secretary*, for the application of the mortgagor's periodic payments (exclusive of the amount allocated to interest and to the premium charge which is required for mortgage insurance as hereinafter provided and to the service charge, if any) to amortization of the principal of the mortgage; and

(7) contain such terms and provisions with respect to insurance, repairs, alterations, payment of taxes, service charges, default reserves, delinquency charges, foreclosure proceedings, anticipation of maturity, and other matters as the [Commissioner] *Secretary* may in his discretion prescribe.

(c) The [Commissioner] *Secretary* is authorized to fix a premium charge for the insurance of mortgages under this section, but in the case of any mortgage, such charge shall not be less than an amount equivalent to one-half of 1 per centum per annum nor more than an amount equivalent to 1 per centum per annum of the amount of the principal obligation of the mortgage outstanding at any time, without taking into account delinquent payments or prepayments. Such premium charges shall be payable by the mortgagee, either in cash or in debentures issued by the [Commissioner] *Secretary* under this section at par plus accrued interest, in such manner as may be prescribed by the [Commissioner] *Secretary*: *Provided*, That the [Commissioner] *Secretary* may require the payment of one or more such premium charges at the time the mortgage is insured, at such discount rate as he may prescribe not in excess of the interest rate specified in the mortgage. If the [Commissioner] *Secretary* finds, upon the presentation of a mortgage for insurance and the tender of the initial premium charge or charges so required, that the mortgage complies with the provisions of this section, such mortgage may be accepted for insurance by endorsement or otherwise as the [Commissioner] *Secretary* may prescribe. In the event that the principal obligation of any mortgage accepted for insurance under this section is paid in full prior

to the maturity date, the [Commissioner] *Secretary* is further authorized, in his discretion, to require the payment by the mortgagee of an adjusted premium charge in such amount as the [Commissioner] *Secretary* determines to be equitable, but not in excess of the aggregate amount of the premium charges that the mortgagee would otherwise have been required to pay if the mortgage had continued to be insured until such maturity date; and in the event that the principal obligation is paid in full as herein set forth, the [Commissioner] *Secretary* is authorized to refund to the mortgagee for the account of the mortgagor all, or such portion as he shall determine to be equitable, of the current unearned premium charges theretofore paid.

(d) The [Commissioner] *Secretary* may, at any time under such terms and conditions as he may prescribe, consent to the release of the mortgagor from his liability under the mortgage or the credit instrument secured thereby, or consent to the release of parts of the mortgaged property from the lien of the mortgage.

(e) Any contract of insurance executed by the [Commissioner] *Secretary* under this section shall be conclusive evidence of the eligibility of the mortgage for insurance, and the validity of any contract of insurance so executed shall be incontestable in the hands of an approved mortgagee from the date of the execution of such contract, except for fraud or misrepresentation on the part of such approved mortgagee.

(f) In any case in which the mortgagee under a mortgage insured under this section shall have foreclosed and taken possession of the mortgaged property in accordance with the regulations of, and within a period to be determined by, the [Commissioner] *Secretary*, or shall, with the consent of the [Commissioner] *Secretary*, have otherwise acquired such property from the mortgagor after default, the mortgagee shall be entitled to receive the benefits of the insurance as provided in section 204(a) of this Act with respect to mortgages insured under section 203(b) (2) (D) of this Act.

(g) Subsection (c), (d), (e), (f), (g), (h), (j), and (k) of section 204 of this Act shall be applicable to mortgages insured under this section except that all references therein to the Mutual Mortgage Insurance Fund or the Fund shall be construed to refer to the General Insurance Fund, and all references therein to section 203 shall be construed to refer to this section: *Provided*, That debentures issued in connection with mortgages insured under this section 8 shall have the same tax exemption as debentures issued in connection with mortgages insured under section 203 of this Act.

SEC. 9. The provisions of sections 2 and 8 shall be applicable in the several States and Puerto Rico, the District of Columbia, Guam, and the Virgin Islands.

TITLE II—MORTGAGE INSURANCE

DEFINITIONS

SEC. 201. As used in section 203 of this title—

(a) The term "mortgage" means a first mortgage on real estate, in fee simple, or on a leasehold (1) under a lease for not less than ninety-nine years which is renewable or (2) under a lease having a period

of not less than fifty years to run from the date the mortgage was executed; and the term "first mortgage" means such classes of first liens as are commonly given to secure advances on, or the unpaid purchase price of, real estate, under the laws of the State in which the real estate is located, together with the credit instruments, if any, secured thereby.

(b) The term "mortgagee" includes the original lender under a mortgage, and his successors and assigns approved by the [Commissioner] *Secretary*; and the term "mortgagor" includes the original borrower under a mortgage and his successors and assigns.

(c) The term "maturity date" means the date on which the mortgage indebtedness would be extinguished if paid in accordance with periodic payments provided for in the mortgage.

(d) The term "State" includes the several States and Puerto Rico, the District of Columbia, Guam, and the Virgin Islands.

MUTUAL MORTGAGE INSURANCE FUND

SEC. 202. There is hereby created a Mutual Mortgage Insurance Fund (hereinafter referred to as the "Fund"), which shall be used by the [Commissioner] *Secretary* as a revolving fund for carrying out the provisions of this title with respect to mortgages insured under section 203 as hereinafter provided, and there shall be allocated immediately to such Fund the sum of \$10,000,000 out of funds made available to the [Commissioner] *Secretary* for the purposes of this title.

INSURANCE OF MORTGAGES

SEC. 203. (a) The [Commissioner] *Secretary* is authorized, upon application by the mortgagee, to insure as hereinafter provided any mortgage offered to him which is eligible for insurance as hereinafter provided, and, upon such terms as the [Commissioner] *Secretary* may prescribe, to make commitments for the insuring of such mortgages prior to the date of their execution or disbursement thereon.

(b) To be eligible for insurance under this section a mortgage shall—

(1) Have been made to, and be held by, a mortgagee approved by the [Commissioner] *Secretary* as responsible and able to service the mortgage properly.

(2) Involve a principal obligation (including such initial service charges, appraisal, inspection, and other fees as the [Commissioner] *Secretary* shall approve) in an amount not to exceed \$30,000 in the case of property upon which there is located a dwelling designed principally for a one-family residence; or \$32,500 in the case of a two-family residence (whether or not such one- or two-family residence may be intended to be rented temporarily for school purposes); or \$32,500 in the case of a three-family residence; or \$37,500 in the case of a four-family residence; and (except as provided in the next to the last sentence of this paragraph) not to exceed an amount equal to the sum of (i) 97 per centum (but, in any case where the dwelling is not approved for mortgage insurance prior to the beginning of construction unless the construction of the dwelling was completed more than one year prior to the application for mortgage insurance or the dwelling

was approved for guaranty, insurance, or direct loan under chapter 37 of title 38, United States Code, prior to the beginning of construction, 90 per centum) of \$15,000 of the appraised value of the property, as of the date the mortgage is accepted for insurance, (ii) 90 per centum of such value in excess of \$15,000 but not in excess of \$20,000, and (iii) 80 per centum of such value in excess of \$20,000. If the mortgagor is a veteran who has not received any direct, guaranteed, or insured loan under laws administered by the Veterans' Administration for the purchase, construction, or repair of a dwelling (including a farm dwelling) which was to be owned and occupied by him as his home, and the mortgage to be insured under this section covers property upon which there is located a dwelling designed principally for a one-family residence, the principal obligation may be in an amount equal to the sum of (i) 100 per centum of \$15,000 of the appraised value of the property as of the date the mortgage is accepted for insurance, (ii) 90 per centum of such value in excess of \$15,000 but not in excess of \$20,000, and (iii) 85 per centum of such value in excess of \$20,000. As used herein, the term "veteran" means any person who served on active duty in the armed forces of the United States for a period of not less than ninety days (or is certified by the Secretary of Defense as having performed extra-hazardous service), and who was discharged or released therefrom under conditions other than dishonorable.

(3) Have a maturity satisfaction to the **[Commissioner]** *Secretary*, but not to exceed, in any event, thirty-five years (or thirty years if such mortgage is not approved for insurance prior to construction) from the date of the beginning of amortization of the mortgage or three-quarters of the **[Commissioner's]** *Secretary's* estimate of the remaining economic life of the building improvements, whichever is the lesser.

(4) Contain complete amortization provisions satisfactory to the **[Commissioner]** *Secretary* requiring periodic payments by the mortgagor not in excess of his reasonable ability to pay as determined by the **[Commissioner]** *Secretary*.

(5) Bear interest (exclusive of premium charges for insurance, and services charges if any) at not to exceed 5 per centum per annum on the amount of the principal obligation outstanding at any time, or not to exceed such per centum per annum not in excess of 6 per centum as the **[Commissioner]** *Secretary* finds necessary to meet the mortgage market.

(6) Provide, in a manner satisfactory to the **[Commissioner]** *Secretary*, for the application of the mortgagor's periodic payments (exclusive of the amount allocated to interest and to the premium charge which is required for mortgage insurance as hereinafter provided) to amortization of the principal of the mortgage.

(7) Contain such terms and provisions with respect to insurance, repairs, alterations, payment of taxes, default reserves, delinquency charges, foreclosure proceedings, anticipation of maturity, additional and secondary liens, and other matters as the **[Commissioner]** *Secretary* may in his discretion prescribe.

(8) In the case of a mortgagor who is not the occupant of the property, have a principal obligation not in excess of an amount equal to 85 per centum of the amount computed under the provisions of para-

tion unless the **【Commissioner】** *Secretary* finds that the project with respect to which the mortgage is executed is economically sound. In the event that the principal obligation of any mortgage accepted for insurance under this title is paid in full prior to the maturity date, the **【Commissioner】** *Secretary* is further authorized in his discretion to require the payment by the mortgagee of an adjusted premium charge in such amount as the **【Commissioner】** *Secretary* determines to be equitable, but not in excess of the aggregate amount of the premium charges that the mortgagee would otherwise have been required to pay if the mortgage had continued to be insured until such maturity date; and in the event that the principal obligation is paid in full as herein set forth, the **【Commissioner】** *Secretary* is authorized to refund to the mortgagee for the account of the mortgagor all, or such portion as he shall determine to be equitable, of the current unearned premium charges theretofore paid.

(d) Repealed.

(e) Any contract of insurance heretofore or hereafter executed by the **【Commissioner】** *Secretary* under this title shall be conclusive evidence of the eligibility of the loan or mortgage for insurance, and the validity of any contract of insurance so executed shall be incontestable in the hands of an approved financial institution or approved mortgagee from the date of the execution of such contract, except for fraud or misrepresentation on the part of such approved financial institution or approved mortgagee.

(f) Repealed.

(g) Repealed.

(h) Notwithstanding any other provision of this section, the **【Commissioner】** *Secretary* is authorized to insure any mortgage which involves a principal obligation not in excess of \$12,000 and not in excess of 100 per centum of the appraised value of a property upon which there is located a dwelling designed principally for a single-family residence, where the mortgagor is the owner and occupant and establishes (to the satisfaction of the **【Commissioner】** *Secretary*) that his home which he occupied as an owner or as a tenant was destroyed or damaged to such an extent that reconstruction is required as a result of a flood, fire, hurricane, earthquake, storm, or other catastrophe, which the President, pursuant to section 2(a) of the Act entitled "An Act to authorize Federal assistance to States and local governments in major disasters and for other purposes" (Public Law 875, Eighty-first Congress, approved September 30, 1950), as amended, has determined to be a major disaster.

(i) The **【Commissioner】** *Secretary* is authorized to insure under this section, any mortgage meeting the requirements of subsection (b) of this section, except as modified by this subsection, which involves a principal obligation not in excess of \$12,500 and not in excess of 97 per centum (or, in any case where the dwelling is not approved for mortgage insurance prior to the beginning of construction, unless the construction of the dwelling was completed more than one year prior to the application for mortgage insurance or the dwelling was approved for guaranty, insurance, or direct loan under chapter 37 of title 38, United States Code, prior to the beginning of construction, 90 per centum) of the appraised value of a property located in an area where

the **Commissioner** *Secretary* finds it is not practicable to obtain conformity with many of the requirements essential to the insurance of mortgages on housing in built-up urban areas, upon which there is located a dwelling designed principally for a single-family residence: *Provided*, That if the mortgagor is not the occupant of the property at the time of insurance, the principal obligation of the mortgage shall not exceed 85 per centum of the appraised value of the property: *Provided further*, That the **Commissioner** *Secretary* finds that the property with respect to which the mortgage is executed is an acceptable risk, giving consideration to the need for providing adequate housing for families of low and moderate income particularly in suburban and outlying areas or small communities: *Provided further*, That under the foregoing provisions of this subsection the **Commissioner** *Secretary* is authorized to insure any mortgage issued with respect to a farm home on a plot of land five or more acres in size adjacent to a public highway.

(j) Loans secured by mortgages insured under this section shall not be taken into account in determining the amount of real estate loans which a national bank may make in relation to its capital and surplus or its time and savings deposits.

(k) To supplement the mortgage insurance provisions of this section in order to assist the conservation, improvement, and alteration of housing, the **Commissioner** *Secretary* is authorized to make commitments to insure and to insure a home improvement loan (including advances during construction or improvement) under this subsection in accordance with the provisions of section 220(h), except that (1) the structures improved shall be designed for occupancy by not more than four families and shall not be required to be located in the area of an urban renewal project, (2) the **Commissioner** *Secretary* shall find that the project with respect to which the loan is executed is an acceptable risk, (3) all funds received and all disbursements made shall be credited or charged, as appropriate, to the General Insurance Fund, and (4) insurance benefits shall be paid in cash out of the General Insurance Fund or in debentures executed in the name of such Fund. For the purposes of this subsection, the **Commissioner** *Secretary* shall have all the authority provided in section 220(h). Insurance benefits paid with respect to loans insured under this subsection shall be paid in accordance with sections 220(h)(6) and 220(h)(7), except that as applied to those loans references in section 220(h) to "this subsection" shall be construed to refer to this section 203(k). If the insurance payment is made in cash, there shall be added to such payment an amount equivalent to the interest which the debentures would have earned, computed to a date to be established pursuant to regulations issued by the **Commissioner** *Secretary*.

PAYMENT OF INSURANCE

SEC. 204. (a) In any case in which the mortgagee under a mortgage insured under section 203 shall have foreclosed and taken possession of the mortgaged property in accordance with regulations of, and within a period to be determined by, the **Commissioner** *Secretary*, or shall, with the consent of the **Commissioner** *Secretary*,

have otherwise acquired such property from the mortgagor after default, the mortgagee shall be entitled to receive the benefit of the insurance as hereinafter provided, upon (1) the prompt conveyance to the **[Commissioner]** *Secretary* of title to the property which meets the requirements of rules and regulations of the **[Commissioner]** *Secretary* in force at the time the mortgagee was insured, and which is evidenced in the manner prescribed by such rules and regulations, and (2) the assignment to him of all claims of the mortgagee against the mortgagor or others, arising out of the mortgage transaction or foreclosure proceedings, except such claims as may have been released with the consent of the **[Commissioner]** *Secretary*. Upon such conveyance and assignment the obligation of the mortgagee to pay the premium charges for insurance shall cease and the **[Commissioner]** *Secretary* shall, subject to the cash adjustment hereinafter provided, issue to the mortgagee debentures having a total face value equal to the value of the mortgage and (subject to subsection (e) (2)) a certificate of claim, as hereinafter provided. For the purposes of this subsection, the value of the mortgage shall be determined, in accordance with rules and regulations prescribed by the **[Commissioner]** *Secretary*, by adding to the amount of the original principal obligation of the mortgage which was unpaid on the date of the institution of foreclosure proceedings, or on the date of the acquisition of the property after default other than by foreclosure, the amount of all payments which have been made by the mortgagee for taxes, ground rents, and water rates, which are liens prior to the mortgage, special assessments which are noted on the application for insurance or which become liens after the insurance of the mortgage, charges for the administration, operation, maintenance and repair of community-owned property or the maintenance and repair of the mortgaged property, the obligation for which arises out of a covenant filed for record and approved by the **[Commissioner]** *Secretary* prior to the insurance of the mortgage, insurance on the mortgaged property, and any mortgage insurance premiums, and any tax imposed by the United States upon any deed or other instrument by which said property was acquired by the mortgagee and transferred or conveyed to the **[Commissioner]** *Secretary*, and by deducting from such total amount any amount received on account of the mortgage after either of such dates, and any amount received as rent or other income from the property, less reasonable expenses incurred in handling the property, after either of such dates: *Provided*, That with respect to mortgages which are accepted for insurance under section 203(b) (2) (B) of this Act, and which are foreclosed before there shall have been paid on account of the principal obligation of the mortgage a sum equal to 10 per centum of the appraised value of the property as of the date the mortgage was accepted for insurance, there may be included in the debentures issued by the **[Commissioner]** *Secretary*, on account of foreclosure costs actually paid by the mortgagee and approved by the **[Commissioner]** *Secretary* an amount not in excess of 2 per centum of the unpaid principal of the mortgage as of the date of the institution of foreclosure proceedings, but in no event in excess of \$75: *And provided further*, That with respect to mortgages which are accepted for insurance under section 203(b) (2) (D) or under the second proviso of section 207(c) (2) of this Act, or under section 213 of this Act, or with respect to any

mortgage accepted for insurance under section 203 on or after the effective date of the Housing Act of 1954, there may be included in the debentures issued by the [Commissioner] *Secretary* on account of the cost of foreclosure (or of acquiring the property by other means) actually paid by the mortgagee and approved by the [Commissioner] *Secretary* an amount, not in excess of two-thirds of such cost or \$75 whichever is the greater: *And provided further*, That with respect to a mortgage accepted for insurance pursuant to a commitment issued on or before the date of enactment of the Housing Act of 1964,⁵³ the [Commissioner] *Secretary* may include in debentures or in the cash payment an amount not to exceed the foreclosure, acquisition, and conveyance costs actually paid by the mortgagee and approved by the [Commissioner] *Secretary*: *And provided further*, That with respect to a mortgage accepted for insurance pursuant to a commitment issued prior to the date of enactment of the Housing Act of 1964, the [Commissioner] *Secretary* may, with the consent of the mortgagee (in lieu of issuing a certificate of claim as provided in subsection (e)), include in debentures or in the cash payment, in addition to amounts otherwise allowed for such costs, an amount not to exceed one-third of the total foreclosure, acquisition, and conveyance costs actually paid by the mortgagee and approved by the [Commissioner] *Secretary*, but in no event may the total allowance for such costs exceed the amount actually paid by the mortgagee: *And provided further*, That with respect to mortgages to which the provisions of sections 302 and 306 of the Soldiers' and Sailors' Civil Relief Act of 1940, as now or hereafter amended, apply and which are insured under section 203 of the National Housing Act, as now or hereafter amended, and subject to such regulations and conditions as the [Commissioner] *Secretary* may prescribe, there shall be included in the debentures an amount which the [Commissioner] *Secretary* finds to be sufficient to compensate the mortgagee for any loss which it may have sustained on account of interest on debentures by reason of its having postponed the institution of foreclosure proceedings or the acquisition of the property by other means during any part or all of the period of such military service and three months thereafter: *And provided further*, That where the claim is paid in cash there shall be included in the cash payment an amount equivalent to the compensation for loss of debenture interest that would be included in computing debentures if such claim were being paid in debentures: *And provided further*, That with respect to any mortgage covering a one-, two-, three-, or four-family residence insured under this Act, if the [Commissioner] *Secretary* finds, after notice of default, that the default was due to circumstances beyond the control of the mortgagor, he may, upon such terms and conditions as he may prescribe, (1) approve the request of the mortgagee for an extension of the time for the curing of the default and of the time for commencing foreclosure proceedings or for otherwise acquiring title to the mortgaged property to such time as the [Commissioner] *Secretary* may determine is necessary and desirable to enable the mortgagor to complete the mortgage payments, including an extension of time beyond the stated maturity of the mortgage, and in the event of a subsequent foreclosure or acquisition of the property by other means the [Commissioner] *Secretary* is authorized to include in the debentures an amount equal to any

unpaid mortgage interest, or (2) approve a modification of the terms of the mortgage for the purpose of changing the amortization provisions by recasting, over the remaining term of the mortgage or over such longer period as may be approved by the [Commissioner] *Secretary*, the total unpaid amount then due, as determined by the [Commissioner] *Secretary*, with the modification to become effective currently or to become effective upon the termination of an agreed-upon extension of the period for curing the default; and the principal amount of the mortgage, as modified, shall be considered to be the "original principal obligation of the mortgage" as that term is used in this Act for the purpose of computing the total face value of the debentures to be issued or the cash payment to be made by the [Commissioner] *Secretary* to a mortgagee: *And provided further*, That, notwithstanding any requirement contained in this Act that debentures may be issued only upon acquisition of title and possession by the mortgagee and its subsequent conveyance and transfer to the [Commissioner] *Secretary*, and for the purpose of avoiding unnecessary conveyance expense in connection with payment of insurance benefits under the provisions of this Act, the [Commissioner] *Secretary* is authorized, subject to such rules and regulations as he may prescribe, to permit the mortgagee to tender to the [Commissioner] *Secretary* a satisfactory conveyance of title and transfer of possession direct from the mortgagor or other appropriate grantor and to pay the insurance benefits to the mortgagee which it would otherwise be entitled to if such conveyance had been made to the mortgagee and from the mortgagee to the [Commissioner] *Secretary*.

(b) The [Commissioner] *Secretary* may at any time, under such terms and conditions as he may prescribe, consent to the release of the mortgagor from his liability under the mortgage or the credit instrument secured thereby, or consent to the release of parts of the mortgaged property from the lien of the mortgage.

(c) Debentures issued under this section shall be in such form and denominations in multiples of \$50, shall be subject to such terms and conditions, and shall include such provisions for redemption, if any, as may be prescribed by the [Commissioner] *Secretary* with the approval of the Secretary of the Treasury, and may be in coupon or registered form. Any difference between the value of the mortgage determined as herein provided and the aggregate face value of the debentures issued, not to exceed \$350, shall be adjusted by the payment of cash by the [Commissioner] *Secretary* to the mortgagee from the Mutual Mortgage Insurance Fund.

(d) The debentures issued under this section to any mortgagee with respect to mortgages insured under section 203 shall be executed in the name of the Mutual Mortgage Insurance Fund as obligor, shall be signed by the [Commissioner] *Secretary* by either his written or engraved signature, and shall be negotiable. All such debentures shall be dated as of the date foreclosure proceedings were instituted, or the property was otherwise acquired by the mortgagee after default: *Provided*, That debentures issued pursuant to claims for insurance filed on or after the date of enactment of the Housing Act of 1964 shall be dated as of the date of default or as of such later date as the [Commissioner] *Secretary* in his discretion, may establish by

regulation. The debentures shall bear interest from such date at a rate established by the [Commissioner] *Secretary* pursuant to section 224, payable semiannually on the 1st day of January and the 1st day of July of each year, and shall mature twenty years after the date there. Such debentures as are issued in exchange for property covered by mortgages insured under section 203 or section 207 prior to the date of enactment of the National Housing Act Amendments of 1938 shall be subject only to such Federal, State, and local taxes as the mortgages in exchange for which they are issued would be subject to in the hands of the holder of the debentures and shall be a liability of the Mutual Mortgage Insurance Fund, but such debentures shall be fully and unconditionally guaranteed as to principal and interest by the United States; but any mortgagee entitled to receive any such debentures may elect to receive in lieu thereof a cash adjustment and debentures issued as hereinafter provided and bearing the current rate of interest. Such debentures as are issued in exchange for property covered by mortgages insured after the date of enactment of the National Housing Act Amendments of 1938 shall be exempt, both as to principal and interest, from all taxation (except surtax, estate, inheritance, and gift taxes) now or hereafter imposed by the United States, by any Territory, dependency, or possession thereof, or by any State, county, municipality, or local taxing authority; and such debentures shall be paid out of the Mutual Mortgage Insurance Fund, which shall be primarily liable therefor, and they shall be fully and unconditionally guaranteed as to principal and interest by the United States, and such guaranty shall be expressed on the face of the debentures. In the event that the Mutual Mortgage Insurance Fund fails to pay upon demand, when due, the principal of or interest on any debentures issued under this section, the Secretary of the Treasury shall pay to the holders the amount thereof which is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, and thereupon to the extent of the amount so paid the Secretary of the Treasury shall succeed to all the rights of the holders of such debentures.

(e)(1) Subject to paragraph (2), the certificate of claim issued by the [Commissioner] *Secretary* to any mortgagee shall be for an amount which the [Commissioner] *Secretary* determines to be sufficient, when added to the face value of the debentures issued and the cash adjustment paid to the mortgagee, to equal the amount which the mortgagee would have received if, at the time of the conveyance to the [Commissioner] *Secretary* of the property covered by the mortgage, the mortgagor had redeemed the property and paid in full all obligations under the mortgage and a reasonable amount for necessary expenses incurred by the mortgagee in connection with the foreclosure proceedings, or the acquisition of the mortgaged property otherwise, and the conveyance thereof to the [Commissioner] *Secretary*. Each such certificate of claim shall provide that there shall accrue to the holder of such certificate with respect to the face amount of such certificate, an increment at the rate of 3 per centum per annum which shall not be compounded. The amount to which the holder of any such certificate shall be entitled shall be determined as provided in subsection (f).

(2) A certificate of claim shall not be issued and the provisions of paragraph (1) of this subsection shall not be applicable in the case of a mortgage accepted for insurance pursuant to a commitment issued on or after the date of enactment of the Housing Act of 1964.

(f)(1) If, after deducting (in such manner and amount as the **【Commissioner】** *Secretary* shall determine to be equitable and in accordance with sound accounting practice) the expenses incurred by the **【Commissioner】** *Secretary*, the net amount realized from any property conveyed to the **【Commissioner】** *Secretary* under this section and the claims assigned therewith exceed the face value of the debentures issued and the cash paid in exchange for such property plus all interest paid on such debentures, such excess shall be divided as follows:

(i) If such excess is greater than the total amount payable under the certificate of claim issued in connection with such property, the **【Commissioner】** *Secretary* shall pay to the holder of such certificate the full amount so payable, and any excess remaining thereafter shall be paid to the mortgagor of such property if the mortgage was insured under section 203: *Provided*, That on and after the date of enactment of the Housing Act of 1964, any excess remaining after payment to the holder of the full amount of the certificate of claim, together with the accrued interest increment thereon, shall be retained by the **【Commissioner】** *Secretary* and credited to the applicable insurance fund; and

(ii) If such excess is equal to or less than the total amount payable under such certificate of claim, the **【Commissioner】** *Secretary* shall pay to the holder of such certificate the full amount of such excess.

(2) Notwithstanding any other provisions of this section, the **【Commissioner】** *Secretary* is authorized, with respect to mortgages insured pursuant to commitments for insurance issued after the date of enactment of the Housing Amendments of 1955, and, with the consent of the mortgagee or mortgagor, as the case may be, with respect to mortgages insured pursuant to commitments issued prior to such date, to effect the settlement of certificates of claim and refunds to mortgagors at any time after the sale or transfer of title to the property conveyed to the **【Commissioner】** *Secretary* under this section and without awaiting the final liquidation of such property for the purpose of determining the net amount to be realized therefrom: *Provided*, That the settlement authority created by the Housing Amendments of 1955 shall be terminated with respect to any certificates of claim outstanding as of the date of enactment of the Housing Act of 1964.

(3) With the consent of the holder thereof, the **【Commissioner】** *Secretary* is authorized, without awaiting the final liquidation of the **【Commissioner's】** *Secretary's* interest in the property, to settle any certificate of claim issued pursuant to subsection (e), with respect to which settlement had not been effected prior to the date of enactment of the Housing Act of 1964, by making payment in cash to the holder thereof of such amount not exceeding the face amount of the certificate of claim, together with the accrued interest thereon, as the **【Commissioner】** *Secretary* may consider appropriate: *Provided*, That in any case where the certificate of claim is settled in accordance with the provisions of this paragraph, any amounts realized after the date of enactment of the Housing Act of 1964, in the liquidation of the **【Com-**

missioner's] *Secretary's* interest in the property, shall be retained by the [Commissioner] *Secretary* and credited to the applicable insurance fund.

(g) Notwithstanding any other provision of law relating to the acquisition, handling, or disposal of real property by the United States, the [Commissioner] *Secretary* shall have power to deal with, complete, rent, renovate, modernize, insure, or sell for cash or credit, in his discretion, any properties conveyed to him in exchange for debentures and certificates of claim as provided in this section; and notwithstanding any other provision of law, the [Commissioner] *Secretary* shall also have power to pursue to final collection, by way of compromise or otherwise, all claims against mortgagors assigned by mortgagees to the [Commissioner] *Secretary* as provided in this section: *Provided*, That section 3709 of the Revised Statutes shall not be construed to apply to any contract for hazard insurance, or to any purchase or contract for services or supplies on account of such property if the amount thereof does not exceed \$1,000. The power to convey and to execute in the name of the [Commissioner] *Secretary* deeds of conveyance, deeds of release, assignments and satisfactions of mortgages, and any other written instrument relating to real or personal property or any interest therein heretofore or hereafter acquired by the [Commissioner] *Secretary* pursuant to the provisions of this Act, may be exercised by [the Commissioner or by any Assistant Commissioner] *an officer* appointed by him, without the execution of any express delegation of power or power of attorney: *Provided*, That nothing in this subsection shall be construed to prevent the [Commissioner] *Secretary* from delegating such power by order or by power of attorney, in his discretion, to any officer, agent, or employee he may appoint: *And provided further*, That a conveyance or transfer of title to real or personal property or an interest therein to the [Federal Housing Commissioner] *Secretary*, his successors and assigns, without identifying the [Commissioner] *Secretary* therein, shall be deemed a proper conveyance or transfer to the same extent and of like effect as if the [Commissioner] *Secretary* were personally named in such conveyance or transfer.

(h) No mortgagee or mortgagor shall have, and no certificate of claim shall be construed to give to any mortgagee or mortgagor, any right or interest in any property conveyed to the [Commissioner] *Secretary* or in any claim assigned to him; nor shall the [Commissioner] *Secretary* owe any duty to any mortgagee or mortgagor with respect to the handling or disposal of any such property or the collection of any such claim.

(j) In the event that any mortgagee under a mortgage insured under section 203 forecloses on the mortgaged property but does not convey such property to the [Commissioner] *Secretary* in accordance with this section, and the [Commissioner] *Secretary* is given written notice thereof, or in the event that the mortgagor pays the obligation under the mortgage in full prior to the maturity thereof, and the mortgagee pays any adjusted premium charge required under the provisions of section 203(c), and the [Commissioner] *Secretary* is given written notice by the mortgagee of the payment of such obligation, the obligation to pay any subsequent premium charge for insurance shall cease,

and all rights of the mortgagee and the mortgagor under this section shall terminate as of the date of such notice.

(k) Notwithstanding any other provision of this section or of section 604 or 904 and with respect to any debentures issued in exchange for properties conveyed to and accepted by the [Commissioner] *Secretary* after the effective date of the Housing Act of 1959 in accordance with such sections, the [Commissioner] *Secretary* may (1) include in debentures reasonable payments made by the mortgagee with the approval of the [Commissioner] *Secretary* for the purpose of protecting, operating, or preserving the property, and taxes imposed upon any deed or any other instrument by which the property, was acquired by the mortgagee and transferred or conveyed to the [Commissioner] *Secretary*; (2) include in debentures as a portion of foreclosure costs (to the extent that foreclosure costs may be included in such debentures by any other provision of this Act) payments made by the mortgagee for the cost of acquiring the property and conveying and evidencing title to the property to the [Commissioner] *Secretary*; and (3) terminate the mortgagee's obligation to pay mortgage insurance premiums upon receipt of an application for debentures filed by the mortgagee, or in the event the contract of insurance is terminated pursuant to section 229.

CLASSIFICATION OF MORTGAGES AND INSURANCE FUND

SEC. 205. (a) The [Commissioner] *Secretary* shall establish as of July 1, 1954, in the Mutual Mortgage Insurance Fund a General Surplus Account and a Participating Reserve Account. All of the assets of the General Reinsurance Account shall be transferred to the General Surplus Account whereupon the General Reinsurance Account shall be abolished. There shall be transferred from the various group accounts to the Participating Reserve Account as of July 1, 1954, an amount equal to the aggregate amount which would have been distributed under the provisions of section 205 in effect on June 30, 1954, if all outstanding mortgages in such group accounts had been paid in full on said date. All of the remaining balances of said group accounts shall as of said date be transferred to the General Surplus Account whereupon all of said group accounts shall be abolished.

(b) The aggregate net income thereafter received or any net loss thereafter sustained by the Mutual Mortgage Insurance Fund in any semiannual period shall be credited or charged to the General Surplus Account and/or the Participating Reserve Account in such manner and amounts as the [Commissioner] *Secretary* may determine to be in accord with sound actuarial and accounting practice.

(c) Upon termination of the insurance obligation of the Mutual Mortgage Insurance Fund by payment of any mortgage insured thereunder, the [Commissioner] *Secretary* is authorized to distribute to the mortgagor a share of the Participating Reserve Account in such manner and amount as the [Commissioner] *Secretary* shall determine to be equitable and in accordance with sound actuarial and accounting practice: *Provided*, That, in no event, shall any such distributable share exceed the aggregate scheduled annual premiums of the mortgagor to the year of termination of the insurance.

(d) No mortgagor or mortgagee of any mortgage insured under section 203 shall have any vested right in a credit balance in any such account or be subject to any liability arising out of the mutuality of the Fund and the determination of the [Commissioner] *Secretary* as to the amount to be paid by him to any mortgagor shall be final and conclusive.

INVESTMENT OF FUNDS

SEC. 206. Moneys in the Fund not needed for the current operations of the [Federal Housing Administration shall be deposited] *Department of Housing and Urban Development related to insurance under section 203 shall be deposited* with the Treasurer of the United States to the credit of the Fund, or invested in bonds or other obligations of, or in bonds or other obligations guaranteed as to principal and interest by, the United States. The [Commissioner] *Secretary* may, with the approval of the Secretary of the Treasury, purchase in the open market debentures issued under the provisions of section 204. Such purchases shall be made at a price which will provide an investment yield of not less than the yield obtainable from other investments authorized by this section. Debentures so purchased shall be canceled and not re-issued, and the several group accounts to which such debentures have been charged shall be charged with the amounts used in making such purchases.

RENTAL HOUSING INSURANCE

SEC. 207. (a) As used in this section—

(1) The term “mortgage” means a first mortgage on real estate in fee simple, or on the interest of either the lessor or lessee thereof (A) under a lease for not less than ninety-nine years which is renewable or (B) under a lease having a period of not less than fifty years to run from the date the mortgage was executed, upon which there is located or upon which there is to be constructed a building or buildings designed principally for residential use or upon which there is located or to be constructed facilities for trailer coach mobile dwellings; and the term “first mortgage” means such classes of first liens as are commonly given to secure advances (including but not being limited to advances during construction) on, or the unpaid purchase price of, real estate under the laws of the State in which the real estate is located, together with the credit instrument or instruments, if any, secured thereby, and may be in the form of trust mortgages or mortgage indentures or deeds of trust securing notes, bonds, or other credit instruments.

(2) The term “mortgagee” means the original lender under a mortgage, and its successors and assigns, and includes the holders of credit instruments issued under a trust mortgage or deed of trust pursuant to which such holders act by and through a trustee therein named.

(3) The term “mortgagor” means the original borrower under a mortgage and its successors and assigns.

(4) The term “maturity date” means the date on which the mortgage indebtedness would be extinguished if paid in accordance with the periodic payments provided for in the mortgage.

(5) The term “slum or blighted area” means any area where dwellings predominate which, by reason of dilapidation, overcrowding,

faulty arrangement or design, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health, or morals.

(6) The term "rental housing" means housing, the occupancy of which is permitted by the owner thereof in consideration of the payment of agreed charges, whether or not, by the terms of the agreement, such payment over a period of time will entitle the occupant to the ownership of the premises or space in a trailer court or park properly arranged and equipped to accommodate trailer coach mobile dwellings.

(7) The term "State" includes the several States, and Puerto Rico, the District of Columbia, Guam, and the Virgin Islands.

(b) In addition to mortgages insured under section 203, the [Commissioner] *Secretary* is authorized to insure mortgages as defined in this section (including advances on such mortgages during construction) which cover property held by—

(1) Federal or State instrumentalities, municipal corporate instrumentalities of one or more States, or limited dividend or redevelopment or housing corporations restricted by Federal or State laws or regulations of State banking or insurance departments as to rents, charges, capital structure, rate of return, or methods of operation; or

(2) any other mortgagor approved by the [Commissioner] *Secretary* which until the termination of all obligations of the [Commissioner] *Secretary* under the insurance and during such further period of time as the [Commissioner] *Secretary* shall be the owner, holder, or reinsurer of the mortgage, is regulated or restricted by the [Commissioner] *Secretary* as to rents or sales, charges, capital structure, rate of return, and methods of operation to such extent and in such manner as to provide reasonable rentals to tenants and a reasonable return on the investment. The [Commissioner] *Secretary* may make such contracts with and acquire, for not to exceed \$100, such stock or interest in the mortgagor as he may deem necessary to render effective the regulations or restrictions. The stock or interest acquired by the [Commissioner] *Secretary* shall be paid for out of the General Insurance Fund, and shall be redeemed by the mortgagor at par upon the termination of all obligations of the [Commissioner] *Secretary* under the insurance.

The insurance of mortgages under this section is intended to facilitate particularly the production of rental accommodations, at reasonable rents, of design and size suitable for family living. The [Commissioner] *Secretary* is, therefore, authorized and directed in the administration of this section to take action, by regulation or otherwise, which will direct the benefits of mortgage insurance hereunder primarily to those projects which make adequate provision for families with children, and in which every effort has been made to achieve moderate rental charges.

Notwithstanding any other provisions of this section, no mortgage shall be insured hereunder unless the mortgagor certifies under oath in selecting tenants for the property covered by the mortgage he will not discriminate against any family by reason of the fact that there are children in the family, and that he will not sell the property while the insurance is in effect unless the purchaser so certifies, such certifi-

cation to be filed with the [Commissioner] *Secretary*. Violation of any such certification shall be a misdemeanor punishable by a fine of not to exceed \$500.

(c) To be eligible for insurance under this section a mortgage on any property or project shall involve a principal obligation in an amount—

(1) not to exceed \$20,000,000, or, if executed by a mortgagor coming within the provisions of paragraph numbered (b) (1) of this section, not to exceed \$50,000,000;

(2) not to exceed 90 per centum of the estimated value of the property or project (when the proposed improvements are completed): *Provided*, That this limitation shall not apply to mortgages on housing in Alaska, or in Guam, but such a mortgage may involve a principal obligation in an amount not to exceed 90 per centum of the amount which the [Commissioner] *Secretary* estimates will be the replacement cost of the property or project when the proposed improvements are completed (the value of the property or project as such term is used in this paragraph may include the land, the proposed physical improvements, utilities within the boundaries of the property or project, architect's fees, taxes, and interest accruing during construction, and other miscellaneous charges incident to construction and approved by the [Commissioner] *Secretary*). *And provided further*, That nothing contained in this section shall preclude the insurance of mortgages covering existing construction located in slum or blighted areas, as defined in paragraph numbered (5) of subsection (a) of this section, and the [Commissioner] *Secretary* may require such repair or rehabilitation work to be completed as is, in his discretion, necessary to remove conditions detrimental to safety, health, or morals; and

(3) not to exceed, for such part of the property or project as may be attributable to dwelling use (excluding exterior land improvements as defined by the [Commissioner] *Secretary*), \$9,000 per family unit without a bedroom, \$12,500 per family unit with one bedroom, \$15,000 per family unit with two bedrooms, \$18,500 per family unit with three bedrooms, and \$21,000 per family unit with four or more bedrooms, or not to exceed \$1,800 per space or \$500,000 per mortgage for trailer courts or parks; except that as to projects to consist of elevator-type structures the [Commissioner] *Secretary* may, in his discretion, increase the dollar amount limitations per family unit to not to exceed \$10,500 per family unit without a bedroom, \$15,000 per family unit with one bedroom, \$18,000 per family unit with two bedrooms, \$22,500 per family unit with three bedrooms, and \$25,500 per family unit with four or more bedrooms, as the case may be, to compensate for the higher costs incident to the construction of elevator-type structures of sound standards of construction and design; and except that the [Commissioner] *Secretary* may, by regulation, increase any of the foregoing dollar amount limitations contained in this paragraph by not to exceed 45 per centum in any geographical area where he finds that cost levels so require.

The mortgage shall provide for complete amortization by periodic payments within such term as the [Commissioner] *Secretary* shall prescribe, and shall bear interest (exclusive of premium charges for insurance) at not to exceed $5\frac{1}{4}$ per centum per annum on the amount

of the principal obligation outstanding at any time. The **[Commissioner]** *Secretary* may consent to the release of a part or parts of the mortgaged property from the lien of the mortgage upon such terms and conditions as he may prescribe and the mortgage may provide for such release. No mortgage shall be accepted for insurance under this section or section 210 unless the **[Commissioner]** *Secretary* finds that the property or project, with respect to which the mortgage is executed, is economically sound. Such property or project may include eight or more family units and may include such commercial and community facilities as the **[Commissioner]** *Secretary* deems adequate to serve the occupants.

(d) The **[Commissioner]** *Secretary* shall collect a premium charge for the insurance of mortgages under this section which shall be payable annually in advance by the mortgagee, either in cash or in debentures issued by the **[Commissioner]** *Secretary* under any title and section of this Act, except debentures of the Mutual Mortgage Insurance Fund, or of the Cooperative Management Housing Insurance Fund, at par plus accrued interest. In addition to the premium charge herein provided for, the **[Commissioner]** *Secretary* is authorized to charge and collect such amounts as he may deem reasonable for the appraisal of a property or project offered for insurance and for the inspection of such property or project during construction: *Provided*, That such charges for appraisal and inspection shall not aggregate more than 1 per centum of the original principal face amount of the mortgage.

(e) In the event that the principal obligation of any mortgage accepted for insurance under this section is paid in full prior to the maturity date, the **[Commissioner]** *Secretary* is authorized in his discretion to require the payment by the mortgagee of an adjusted premium charge in such amount as the **[Commissioner]** *Secretary* determines to be equitable, but not in excess of the aggregate amount of the premium charges that the mortgagee would otherwise have been required to pay if the mortgage had continued to be insured until such maturity date.

(f)

(g) The failure of the mortgagor to make any payment due under or provided to be paid by the terms of a mortgage insured under this section shall be considered a default under such mortgage and, if such default continues for a period of thirty days, the mortgagee shall be entitled to receive the benefits of the insurance as hereinafter provided, upon assignment, transfer, and delivery to the **[Commissioner]** *Secretary*, within a period and in accordance with rules and regulations to be prescribed by the **[Commissioner]** *Secretary* of (1) all rights and interests arising under the mortgage so in default; (2) all claims of the mortgagee against the mortgagor or others, arising out of the mortgage transactions; (3) all policies of title or other insurance or surety bonds or other guaranties and any and all claims thereunder; (4) any balance of the mortgage loan not advanced to the mortgagor; (5) any cash or property held by the mortgagee, or to which it is entitled, as deposits made for the account of the mortgagor and which have not been applied in reduction of the principal of the mortgage indebtedness; and (6) all records, documents, books, papers, and accounts relating to the mortgage transaction. Upon such assign-

ment, transfer, and delivery the obligation of the mortgagee to pay the premium charges for mortgage insurance shall cease, and the [Commissioner] *Secretary* shall, subject to the cash adjustment provided for in subsection (j), issue to the mortgagee a certificate of claim as provided in subsection (h), and debentures having a total face value equal to the original principal face amount of the mortgage plus such amount as the mortgagee may have paid for (A) taxes, special assessments, and water rates, which are liens prior to the mortgage; (B) insurance on the property; and (C) reasonable expenses for the completion and preservation of the property and any mortgage insurance premiums paid after default, less the sum of (i) that part of the amount of the principal obligation, that has been repaid by the mortgagor, (ii) an amount equivalent to 1 per centum of the unpaid amount of such principal obligation, and (iii) any net income received by the mortgagee from the property: *Provided*, That the mortgagee in the event of a default under the mortgage may, at its option and in accordance with regulations of, and in a period to be determined by, the [Commissioner] *Secretary*, proceed to foreclose on and obtain possession of or otherwise acquire such property from the mortgagor after default, and receive the benefits of the insurance as herein provided, upon (1) the prompt conveyance to the [Commissioner] *Secretary* of title to the property which meets the requirements of the rules and regulations of the [Commissioner] *Secretary* in force at the time the mortgage was insured and which is evidenced in the manner prescribed by such rules and regulations, and (2) the assignment to him of all claims of the mortgagee against the mortgagor or others, arising out of the mortgage transaction or foreclosure proceedings, except such claims that may have been released with the consent of the [Commissioner] *Secretary*. Upon such conveyance and assignment, the obligation of the mortgagee to pay the premium charges for insurance shall cease and the mortgagee shall be entitled to receive the benefits of the insurance as provided in this subsection, except that in such event the 1 per centum deduction, set out in (ii) hereof, shall not apply. Notwithstanding any other provision of this Act, upon receipt, after the date of enactment of the Housing Act of 1964, of an application for insurance benefits on a mortgage insured under this Act, the [Commissioner] *Secretary* may terminate the mortgagee's obligation to pay premium charges on the mortgage.

(h) The certificate of claim issued under this section shall be for an amount which the [Commissioner] *Secretary* determines to be sufficient, when added to the face value of the debentures issued and the cash adjustment paid to the mortgagee, to equal the amount which the mortgagee would have received if, on the date of the assignment, transfer and delivery to the [Commissioner] *Secretary* provided for in subsection (g), the mortgagor had extinguished the mortgage indebtedness by payment in full of all obligations under the mortgage and a reasonable amount for necessary expenses incurred by the mortgagee in connection with the foreclosure proceedings, or the acquisition of the mortgaged property otherwise, and the conveyance thereof to the [Commissioner] *Secretary*. Each such certificate of claim shall provide that there shall accrue to the holder of such certificate with respect

to the face amount of such certificate, an increment at the rate of 3 per centum per annum which shall not be compounded. If the net amount realized from the mortgage, and all claims in connection therewith, so assigned, transferred, and delivered, and from the property covered by such mortgage and all claims in connection with such property after deducting all expenses incurred by the **[Commissioner]** *Secretary* in handling, dealing with, acquiring title to, and disposing of such mortgage and property and in collecting such claims, exceeds the face value of the debentures issued and the cash adjustment paid to the mortgagee plus all interest paid on such debentures, such excess shall be divided as follows:

(1) If such excess is greater than the total amount payable under the certificate of claim issued in connection with such property, the **[Commissioner]** *Secretary* shall pay to the holder of such certificate the full amount so payable, and any excess remaining thereafter shall be retained by the **[Commissioner]** *Secretary* and credited to the General Insurance Fund; and

(2) If such excess is equal to or less than the total amount payable under such certificate of claim, the **[Commissioner]** *Secretary* shall pay to the holder of such certificate the full amount of such excess.

(i) Debentures issued under this section, except that debentures issued pursuant to the provisions of section 220 (f), 221 (g), and section 233 may be dated as of the date the mortgage is assigned (or the property is conveyed) to the **[Commissioner]** *Secretary*, shall be executed in the name of the General Insurance Fund as obligor, shall be signed by the **[Commissioner]** *Secretary*, by either his written or engraved signature, shall be negotiable, and shall be dated as of the date of default as determined in subsection (g) of this section and shall bear interest from such date. They shall bear interest at a rate established by the **[Commissioner]** *Secretary* pursuant to section 224, payable semiannually on the 1st day of January and the 1st day of July of each year, and shall mature twenty years after the date thereof. Such debentures as are issued in exchange for mortgages insured after the date of enactment of the National Housing Act Amendments of 1938 shall be exempt, both as to principal and interest, from all taxation (except surtaxes, estate, inheritance, and gift taxes) now or hereafter imposed by the United States, by any Territory, dependency, or possession thereof, or by any State, county, municipality, or local taxing authority. They shall be paid out of the General Insurance Fund which shall be primarily liable therefor and they shall be fully and unconditionally guaranteed as to principal and interest by the United States, and such guaranty shall be expressed on the face of the debentures. In the event the General Insurance Fund fails to pay upon demand, when due, the principal of or interest on any debentures so guaranteed, the Secretary of the Treasury shall pay to the holders the amount thereof which is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, and thereupon, to the extent of the amount so paid, the Secretary of the Treasury shall succeed to all the rights of the holders of such debentures.

(j) Debentures issued under this section shall be in such form and denominations in multiples of \$50, shall be subject to such terms and

conditions, and shall include such provision for redemption, if any, as may be prescribed by the [Commissioner] *Secretary* with the approval of the Secretary of the Treasury and may be in coupon or registered form. Any difference between the amount of debentures to which the mortgagee is entitled under this section, and the aggregate face value of the debentures issued, not to exceed \$50, shall be adjusted by the payment of cash by the [Commissioner] *Secretary* to the mortgagee from the General Insurance Fund.

(k) The [Commissioner] *Secretary* is hereby authorized either to (1) acquire possession of and title to any property, covered by a mortgage insured under this section and assigned to him, by voluntary conveyance in extinguishment of the mortgage indebtedness, or (2) institute proceedings for foreclosure on the property covered by any such insured mortgage and prosecute such proceedings to conclusion. The [Commissioner] *Secretary* at any sale under foreclosure may, in his discretion, for the protection of the General Insurance Fund, bid any sum up to but not in excess of the total unpaid indebtedness secured by the mortgage, plus taxes, insurance, foreclosure costs, fees, and other expenses, and may become the purchaser of the property at such sale. The [Commissioner] *Secretary* is authorized to pay from the General Insurance Fund such sums as may be necessary to defray such taxes, insurance, costs, fees, and other expenses in connection with the acquisition or foreclosure of property under this section. Pending such acquisition by voluntary conveyance or by foreclosure, the [Commissioner] *Secretary* is authorized, with respect to any mortgage assigned to him under the provisions of subsection (g), to exercise all the rights of a mortgagee under such mortgage, including the right to sell such mortgage, and to take such action and advance such sums as may be necessary to preserve or protect the lien of such mortgage.

(l) Notwithstanding any other provisions of law relating to the acquisition, handling, or disposal of real and other property by the United States, the [Commissioner] *Secretary* shall also have power, for the protection of the interests of the General Insurance Fund, to pay out of the General Insurance Fund all expenses or charges in connection with, and to deal with, complete, reconstruct, rent, renovate, modernize, insure, make contracts for the management of, or establish suitable agencies for the management of, or sell for cash or credit or lease in his discretion, any property acquired by him under this section; and notwithstanding any other provision of law, the [Commissioner] *Secretary* shall also have power to pursue to final collection by way of compromise or otherwise all claims assigned and transferred to him in connection with the assignment, transfer, and delivery provided for in this section, and at any time, upon default, to foreclose on any property secured by any mortgage assigned and transferred to or held by him: *Provided*, That section 3709 of the Revised Statutes shall not be construed to apply to any contract for hazard insurance, or to any purchase or contract for services or supplies on account of such property if the amount thereof does not exceed \$1,000.

(m)

(n) In the event that a mortgage insured under this section becomes in default through failure of the mortgagor to make any payment due

under or provided to be paid by the terms of the mortgage and such mortgage continues in default for a period of thirty days, but the mortgagee does not foreclose on or otherwise acquire the property, or does not assign and transfer such mortgage and the credit instrument secured thereby to the **Commissioner** *Secretary*, in accordance with subsection (g), and the **Commissioner** *Secretary* is given written notice thereof, or in the event that the mortgagor pays the obligation under the mortgage in full prior to the maturity thereof, and the mortgagee pays any adjusted premium charge required under the provisions of subsection (e), and the **Commissioner** *Secretary* is given written notice by the mortgagee of the payment of such obligation, the obligation to pay the annual premium charge for insurance shall cease, and all rights of the mortgagee and the mortgagor under this section shall terminate as of the date of such notice.

(o) The **Commissioner** *Secretary*, with the consent of the mortgagee and the mortgagor of a mortgage insured under this section prior to the date of enactment of the National Housing Act Amendments of 1938, shall be empowered to reissue such mortgage insurance in accordance with the provisions of this section as amended by such Act, and any such insurance not so reissued shall not be affected by the enactment of such Act.

(p)

(q) Repealed.

(r) Notwithstanding any other provision of this Act, the **Commissioner** *Secretary* is authorized to include in any mortgage insured under any title of this Act after the effective date of the Housing Act of 1959 a provision requiring the mortgagor to pay a service charge to the **Commissioner** *Secretary* in the event such mortgage is assigned to and held by the Commissioner. Such service charge shall not exceed the amount prescribed by the **Commissioner** *Secretary* for mortgage insurance premiums applicable to such mortgage.

TAXATION PROVISIONS

SEC. 208. Nothing in this title shall be construed to exempt any real property acquired and held by the **Commissioner** *Secretary* under this title from taxation by any State or political subdivision thereof, to the same extent, according to its value, as other real property is taxed.

STATISTICAL AND ECONOMIC SURVEYS

SEC. 209. The **Commissioner** *Secretary* shall cause to be made *in connection with the insurance programs* such statistical surveys and legal and economic studies as he shall deem useful to guide the development of housing and the creation of a sound mortgage market in the United States, and shall publish from time to time the results of such surveys and studies. Expenses of such studies and surveys, and expenses of publication and distribution of the results of such studies and surveys, shall be charged as a general expense of such insurance fund or funds, as the **Commissioner** *Secretary* shall determine.

ADDITIONAL HOUSING INSURANCE

SEC. 210. Repealed.

RULES AND REGULATIONS

SEC. 211. The **[Commissioner]** *Secretary* is authorized and directed to make such rules and regulations as may be necessary to carry out the provisions of this title.

LABOR STANDARDS

SEC. 212. (a) The **[Commissioner]** *Secretary* shall not insure under section 207 or section 210 of this title, or under section 608 of title VI, pursuant to any application for insurance filed subsequent to the effective date of this section, or under section 213 of this title, or under title VIII pursuant to any application filed subsequent to sixty days after the date of enactment of the Housing Act of 1950, or under section 803 or 810 of title VIII, or under section 908 of title IX, a mortgage or investment which covers property on which there is or is to be placed a dwelling or dwellings, or a housing project, the construction of which was or is to be commenced subsequent to such date, unless the principal contractor files a certificate or certificates (at such times, in course of construction or otherwise, as the **[Commissioner]** *Secretary* may prescribe) certifying that the laborers and mechanics employed in the construction of the dwelling or dwellings or the housing project involved have been paid not less than the wages prevailing in the locality in which the work was performed for the corresponding classes of laborers and mechanics employed on construction of a similar character, as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5), prior to the beginning of construction and after the date of the filing of the application for insurance. The provisions of this section shall also apply to the insurance of any loan or mortgage under section 220 or section 233 which covers property on which there is located a dwelling or dwellings designed principally for residential use for twelve or more families. The provisions of this section shall apply to the insurance under section 221 of any mortgage described in subsection (d) (3), or (d) (4). The provisions of this section shall also apply to the insurance of any mortgage under section 231 or 232 except that compliance with such provisions may be waived by the **[Commissioner]** *Secretary* in cases or classes of cases where laborers or mechanics, not otherwise employed at any time on the project, voluntarily donate their services without full compensation for the purpose of lowering the costs of construction and the **[Commissioner]** *Secretary* determines that any amounts thereby saved are fully credited to the nonprofit corporation, association, or other organization undertaking the construction. The provisions of this section shall also apply to the insurance of any mortgage under section 234(d). The provisions of this section shall also apply to insurance under title X with respect to laborers and mechanics employed in land development financed with the proceeds of any mortgage insured under that title.

(b) The **[Commissioner]** *Secretary* is authorized to make such rules and regulations as may be necessary to carry out the provisions of this section.

(c) There is hereby authorized to be appropriated for the remainder of the fiscal year ending June 30, 1939, and for each fiscal year there-

after, a sum sufficient to meet all necessary expenses of the Department of Labor in making the determinations provided for in subsection (a).

COOPERATIVE HOUSING INSURANCE

SEC. 213. (a) In addition to mortgages insured under section 207 of this title, the **【Commissioner】** *Secretary* is authorized to insure mortgages as defined in section 207(a) of this title (including advances on such mortgages during construction), which cover property held by—

(1) a nonprofit cooperative ownership housing corporation or nonprofit cooperative ownership housing trust, the permanent occupancy of the dwellings of which is restricted to members of such corporation or to beneficiaries of such trust;

(2) a nonprofit corporation or nonprofit trust organized for the purpose of construction of homes for members of the corporation or for beneficiaries of the trust; or

(3) a mortgagor, approved by the **【Commissioner】** *Secretary*, which (A) has certified to the **【Commissioner】** *Secretary*, as a condition of obtaining the insurance of a mortgage under this section, that upon completion of the property or project covered by such mortgage it intends to sell such property or project to a nonprofit corporation or nonprofit trust of the character described in paragraph (1) of this subsection at the actual cost of such property or project as certified pursuant to section 227 of this Act and will faithfully and diligently make and carry out all reasonable efforts to consummate such sale, and (B) shall be regulated or restricted by the **【Commissioner】** *Secretary* as to rents, charges, capital structure, rate of return, and methods of operation during any period while it holds the mortgaged property or project; and for such purpose the **【Commissioner】** *Secretary* may make such contracts with, and acquire for not to exceed \$100 such stock or interest in, any such mortgagor as the **【Commissioner】** *Secretary* may deem necessary to render effective such restriction or regulation, such stock or interest to be paid for out of the Cooperative Management Housing Insurance Fund and to be redeemed by such mortgagor at par upon the sale of such property or project to such nonprofit corporation or nonprofit trust;

which corporations or trusts referred to in paragraphs (1) and (2) of this subsection are regulated or restricted for the purposes and in the manner provided in paragraphs numbered (1) and (2) of subsection (b) of section 207 of this title: *Provided*, That as applied to mortgages the mortgage insurance for which is the obligation of the Management Fund, the reference to the General Insurance Fund in section 207(b) (2) shall be construed to refer to the Management Fund.

(b) To be eligible for insurance under this section a mortgage on any property or project of a corporation or trust of the character described in paragraph numbered (1) of subsection (a) of this section shall involve a principal obligation in an amount—

(1) not to exceed \$20,000,000, or not to exceed \$25,000,000 if the mortgage is executed by a mortgagor regulated or supervised

under Federal or State laws or by political subdivisions of States or agencies thereof, as to rents, charges, and methods of operations; and

(2) not to exceed, for such part of the property or project as may be attributable to dwelling use (excluding exterior land improvements as defined by the **[Commissioner]** *Secretary*), \$9,000 per family unit without a bedroom, \$12,500 per family unit with one bedroom, \$15,000 per family unit with two bedrooms, \$18,500 per family unit with three bedrooms, and \$21,000 per family unit with four or more bedrooms, and not to exceed 97 per centum of the amount which the **[Commissioner]** *Secretary* estimates will be the replacement cost of the property or project when the proposed physical improvements are completed: *Provided*, That as to projects to consist of elevator-type structures the **[Commissioner]** *Secretary* may, in his discretion, increase the dollar amount limitations per family unit to not to exceed \$10,500 per family unit without a bedroom, \$15,000 per family unit with one bedroom, \$18,000 per family unit with two bedrooms, \$22,500 per family unit with three bedrooms, and \$25,500 per family unit with four or more bedrooms, as the case may be, to compensate for the higher costs incident to the construction of elevator-type structures of sound standards of construction and design: *Provided further*, That the **[Commissioner]** *Secretary* may, by regulation, increase any of the foregoing dollar amount limitations contained in this paragraph by not to exceed 45 per centum in any geographical area where he finds that cost levels so require. *Provided further*, That in the case of a mortgagor of the character described in paragraph (3) of subsection (a) the mortgage shall involve a principal obligation in an amount not to exceed 90 per centum of the amount which the **[Commissioner]** *Secretary* estimates will be the replacement cost of the property or project when the proposed physical improvements are completed: *And provided further*, That upon the sale of a property or project by a mortgagor of the character described in paragraph (3) of subsection (a) to a non-profit cooperative ownership housing corporation or trust within two years after the completion of such property or project the mortgage given to finance such sale shall involve a principal obligation in an amount not to exceed the maximum amount computed in accordance with this subsection without regard to the preceding proviso.

(c) To be eligible for insurance under this section a mortgage on any property or project of a corporation or trust of the character described in paragraph numbered (2) of subsection (a) of this section shall involve a principal obligation in an amount not to exceed \$12,500,000 and not to exceed a sum computed on the basis of a separate mortgage for each single-family dwelling (irrespective of whether such dwelling has a party wall or is otherwise physically connected with another dwelling or dwellings) comprising the property or project, equal to the total of each of the maximum principal obligations of such mortgages which would meet the requirements of section 203(b)(2) if the mortgagor were the owner and occupant who had made any required payment on account of the property prescribed in such paragraph.

(d) Any mortgage insured under this section shall provide for complete amortization by periodic payments within such terms as the **[Commissioner]** *Secretary* may prescribe but not to exceed forty years from the beginning of amortization of the mortgage, and shall bear interest (exclusive of premium charges for insurance) at not to exceed $5\frac{1}{4}$ per centum per annum, except that individual mortgages insured pursuant to this subsection covering the individual dwellings in the project may bear interest at not to exceed $5\frac{3}{4}$ per centum per annum, on the amount of the principal obligation outstanding at any time. The **[Commissioner]** *Secretary* may consent to the release of a part or parts of the mortgaged property from the lien of the mortgage upon such terms and conditions as he may prescribe and the mortgage may provide for such release, and a mortgage on any project of a corporation or trust of the character described in paragraph numbered (2) of subsection (a) of this section may provide that, at any time after the completion of the construction of the project, such mortgage may be replaced, in whole or in part, by individual mortgages covering each individual dwelling in the project in amounts not to exceed the unpaid balance of the blanket mortgage allocable to the individual property. Each such individual mortgage may be insured under this section. Property covered by a mortgage, insured under this section, on a property or project of a corporation or trust of the character described in paragraph numbered (1) of subsection (a) of this section may include five or more family units and may include such commercial and community facilities as the **[Commissioner]** *Secretary* deems adequate to serve the occupants. Property held by a corporation or trust of the character described in paragraph numbered (2) of subsection (a) of this section which is covered by a mortgage insured under this section may include such community facilities, and property held by a mortgagor of the character described in paragraph numbered (3) of subsection (a) of this section which is covered by a mortgage insured under this section may include such commercial and community facilities, as the **[Commissioner]** *Secretary* deems adequate to serve the occupants.

(e) The provisions of subsections (d), (e), (g), (h), (i), (j), (k), (l), (m), and (n) of section 207 of this title shall be applicable to mortgages insured under this section except individual mortgages insured pursuant to subsection (d) of this section covering the individual dwellings in the project, and as to such individual mortgages the provisions of subsections (a), (c), (d), (e), (f), (g), (h), (j), and (k) of section 204 shall be applicable: *Provided*, That as applied to mortgages or loans the insurance for which is the obligation of the Management Fund (1) all references to the General Insurance Fund shall be construed to refer to the Management Fund, and (2) all references to section 207 shall be construed to refer to subsections (a) (1), (a) (3) (if the project involved is acquired by a cooperative corporation), (i), and (j) of this section.

(f) The **[Commissioner]** *Secretary* is authorized, with respect to mortgages insured or to be insured under this section, to furnish technical advice and assistance in the organization of corporations or trusts of the character described in subsection (a) of this section and in the

planning, development, construction, and operation of their housing projects.

(g) Nothing in this Act shall be construed to prevent the insurance of a mortgage under this section covering a housing project designed for occupancy by single persons, and dwelling units in such a project shall constitute family units within the meaning of this section.

(h) In the event that a mortgagor of the character described in paragraph (3) of subsection (a) obtains an insured mortgage loan pursuant to this section and fails to sell the property or project covered by such mortgage to a nonprofit housing corporation or nonprofit housing trust of the character described in paragraph (1) of subsection (a) hereof, the **Commissioner** *Secretary* is authorized to refuse, for such period of time as he shall deem appropriate under the circumstances, to insure under this section any additional investor-sponsor type mortgage loans made to such mortgagor or to any other investor-sponsor mortgagor where, in the determination of the **Commissioner** *Secretary*, any of its stockholders were identified with such mortgagor.

(i) Nothing in this Act shall be construed to prevent the insurance of a mortgage executed by a mortgagor of the character described in paragraph (1) of subsection (a) of this section covering property upon which dwelling units and related facilities have been constructed prior to the filing of the application for mortgage insurance hereunder: *Provided*, That the **Commissioner** *Secretary* determines that the consumer interest is protected and that the mortgagor will be a consumer cooperative. In the case of properties other than new construction, the limitations in this section upon the amount of the mortgage shall be based upon the appraised value of the property for continued use as a cooperative rather than upon the **Commissioner's** *Secretary's* estimate of the replacement cost. As to any project on which construction was commenced after the effective date of this subsection, the mortgage on such project shall be eligible for insurance under this section only in those cases where the construction was subject to inspection by the **Commissioner** *Secretary* and where there was compliance with the provisions of section 212 of this title. As to any project on which construction was commenced prior to the effective date of this subsection, such inspection, and compliance with the provisions of section 212 of this title, shall not be a prerequisite.

(j)(1) With respect to any property covered by a mortgage insured under this section (or any cooperative housing project covered by a mortgage insured under section 207 as in effect prior to the enactment of the Housing Act of 1950), the **Commissioner** *Secretary* is authorized, upon such terms and conditions as he may prescribe, to make commitments to insure and to insure supplementary cooperative loans (including advances during construction or improvement) made by financial institutions approved by the **Commissioner** *Secretary*. As used in this subsection, "supplementary cooperative loan" means a loan, advance of credit, or purchase of an obligation representing a loan or advance of credit made for the purpose of financing any of the following:

(A) Improvements or repairs of the property covered by such mortgage;

(B) Community facilities necessary to serve the occupants of the property; or

(C) Cooperative purchases and resales of memberships in order to provide necessary refinancing for resales of memberships which involve increases in equity; but in such resales by the cooperative the downpayments by the new members shall not be less than those made on the original sales of such memberships.

(2) To be eligible for insurance under this subsection, a supplementary cooperative loan shall—

(A) be limited to an amount which, when added to the outstanding mortgage indebtedness on the property, creates a total outstanding indebtedness which does not exceed the original principal obligation of the mortgage;

(B) have a maturity satisfactory to the [Commissioner] *Secretary* but not to exceed the remaining term of the mortgage;

(C) be secured in such manner as the [Commissioner] *Secretary* may require;

(D) contain such other terms, conditions, and restrictions as the Commissioner may prescribe; and

(E) represent the obligation of a borrower of the character described in paragraph (1) of subsection (a).

(k) There is hereby created a Cooperative Management Housing Insurance Fund (hereinafter referred to as the "Management Fund"). The Management Fund shall be used by the [Commissioner] *Secretary* as a revolving fund for carrying out the provisions of this section with respect to mortgages or loans insured, on or after the date of the enactment of this subsection, under subsections (a)(1), (a)(3) (if the project is acquired by a cooperative corporation), (i), and (j). The Management Fund shall also be used as a revolving fund for mortgages, loans, and commitments transferred to it pursuant to subsection (m). The [Commissioner] *Secretary* is directed to transfer to the Management Fund from the General Insurance Fund established pursuant to section 519 such amount as the [Commissioner] *Secretary* determines to be necessary and appropriate. General expenses of operation of the [Federal Housing Administration] *Department of Housing and Urban Development* relating to mortgages or loans which are the obligation of the Management Fund may be charged to the Management Fund.

(1) The [Commissioner] *Secretary* shall establish in the Management Fund, as of the date of the enactment of this subsection, a General Surplus Account and a Participating Reserve Account. The aggregate net income thereafter received or any net loss thereafter sustained by the Management Fund, in any semiannual period, shall be credited or charged to the General Surplus Account or the Participating Reserve Account or both in such manner and amounts as the [Commissioner] *Secretary* may determine to be in accord with sound actuarial and accounting practice. Upon termination of the insurance obligation of the Management Fund by payment of any mortgage or loan insured under this section, and at such time or times prior to such termination as the [Commissioner] *Secretary* may determine, the [Commissioner] *Secretary* is authorized to distribute to the mortgagor or borrower a share of the Participating Reserve Account in such manner and amount as the [Commissioner] *Secretary* shall determine to be equitable and in accordance with sound actuarial and accounting practice: *Provided,*

That in no event shall the amount of the distributable share exceed the aggregate scheduled annual premiums of the mortgagor or borrower to the year of payment of the share less the total amount of any share or shares previously distributed by the **[Commissioner]** *Secretary* to the mortgagor or borrower: *And provided further*, That in no event may a distributable share be distributed until any funds transferred from the General Insurance Fund to the Management Fund pursuant to subsection (k) or (o) have been repaid in full to the General Insurance Fund. No mortgagor, mortgagee, borrower, or lender shall have any vested right in a credit balance in any such account or be subject to any liability arising out of the mutuality of the Management Fund. The determination of the **[Commissioner]** *Secretary* as to the amount to be paid by him to any mortgagor or borrower shall be final and conclusive.

(m) The **[Commissioner]** *Secretary* is authorized to transfer to the Management Fund commitments for insurance issued under subsections (a)(1), (i), and (j) prior to the date of the enactment of this subsection, and to transfer to the Management Fund the insurance of any mortgage or loan insured prior to the date of the enactment of this subsection under subsection (a)(1), (a)(3) (if the project is acquired by a cooperative corporation), (i), or (j), but only in cases where the consent of the mortgagee or lender to the transfer is obtained or a request by the mortgagee or lender for the transfer is received by the **[Commissioner]** *Secretary* within such period of time after the date of the enactment of this subsection as the **[Commissioner]** *Secretary* shall prescribe: *Provided*, That the insurance of any mortgage or loan shall not be transferred under the provisions of this subsection if on the date of the enactment of this subsection the mortgage or loan is in default and the mortgagee or lender has notified the **[Commissioner]** *Secretary* in writing of its intention to file an insurance claim. Any insurance or commitment not so transferred shall continue to be an obligation of the General Insurance Fund.

(n) Notwithstanding the limitations contained in other provisions of this Act, premium charges for mortgages or loans insured under this section and sections 207, 231, and 232 may be payable in debentures issued in connection with mortgages or loans transferred to the Management Fund or in connection with mortgages or loans insured pursuant to commitments transferred to the Management Fund, as provided in subsection (m) of this section.

(o) Notwithstanding any other provision of this Act, the **[Commissioner]** *Secretary* is authorized to transfer funds between the Cooperative Management Housing Insurance Fund and the General Insurance Fund in such amounts and at such times as he may determine, taking into consideration the requirements of each such Fund, to assist in carrying out effectively the insurance program for which such Funds were respectively established.

SEC. 214. If the **[Federal Housing Commissioner]** *Secretary of Housing and Urban Development* finds that, because of higher cost prevailing in Alaska, Guam, or Hawaii, it is not feasible to construct dwellings on property located in Alaska or in Guam or Hawaii without sacrifice of sound standards of construction, design, or livability, within the limitations as to maximum or maxima mortgage amounts provided in this Act, the **[Commissioner]** *Secretary* may, by regula-

tions or otherwise, prescribe, with respect to dollar amount, a higher maximum or maxima for the principal obligation of mortgages insured under this Act covering property located in Alaska or in Guam or Hawaii in such amounts as he shall find necessary to compensate for such higher costs but not to exceed, in any event, the maximum or maxima otherwise applicable (including increased mortgage amounts in geographical areas where cost levels so require) by more than one-half thereof. No mortgage with respect to a project or property in Alaska or in Guam or Hawaii shall be accepted for insurance under this Act unless the **[Commissioner]** *Secretary* finds that the project or property is an acceptable risk, giving consideration to the acute housing shortage in Alaska or in Guam or Hawaii: *Provided*, That any such mortgage may be insured or accepted for insurance without regard to any requirement in any other section of this Act that the **[Commissioner]** *Secretary* finds the project or property to be economically sound or an acceptable risk. Notwithstanding any of the provisions of this Act or any other law, the Alaska Housing Authority or the Government of Guam or Hawaii or any agency or instrumentality thereof shall be eligible as mortgagor or mortgagee, as the case may be, for any of the purposes of mortgage insurance under the provisions of this Act. Upon application by the mortgagee (1) where the mortgagor is regulated or restricted pursuant to the last sentence of this section or (2) where the Alaska Housing Authority or the Government of Guam or Hawaii or any agency or instrumentality thereof is the mortgagor or mortgagee, for the insurance of a mortgage under any provisions of this Act, the **[Commissioner]** *Secretary* is authorized to insure the mortgage (including advances thereon where otherwise authorized), and to make commitments for the insuring of any such mortgages prior to the date of their execution or disbursement thereon, under such provisions (and this section) without regard to any requirement that the mortgagor shall be the owner and occupant of the property or shall have paid a prescribed amount on account of such property. Without limiting the authority of the **[Commissioner]** *Secretary* under any other provision of law, the **[Commissioner]** *Secretary* is hereby authorized, with respect to any mortgagor in such case (except where the Alaska Housing Authority is the mortgagor or mortgagee), to require the mortgagor to be regulated or restricted as to rents or sales, charges, capital structure, rate of return, and methods of operation to such an extent and in such manner as the **[Commissioner]** *Secretary* determines advisable to provide reasonable rentals and sales prices and a reasonable return on the investment.

ISSUANCE OF COMMITMENTS

SEC. 215. The **[Commissioner]** *Secretary* is hereby authorized to process applications and issue commitments with respect to insurance of mortgages under section 8 of title I, title II, title VI, title VIII, or title IX of this Act, even though the permanent mortgage financing may not be insured under this Act, and in the event the mortgage is not so insured the **[Commissioner]** *Secretary* is authorized to charge an additional application fee determined by him to be reasonable. The **[Commissioner]** *Secretary* is authorized to make such rules and regulations as may be necessary to carry out the provisions of this section.

WAIVER OF OCCUPANCY REQUIREMENTS FOR SERVICEMEN

SEC. 216. The [Commissioner] *Secretary* is hereby authorized to insure any mortgage otherwise eligible for insurance under any of the provisions of this Act without regard to any requirement that the mortgagor be the occupant of the property at the time of insurance, where the [Commissioner] *Secretary* is satisfied that the inability of the mortgagor to occupy the property is by reason of his entry into military service subsequent to the filing of an application for insurance and the mortgagor expresses an intent to occupy the property upon his discharge from military service.

GENERAL MORTGAGE INSURANCE AUTHORIZATION

SEC. 217. Except with respect to the insurance of a loan or mortgage pursuant to section 2, section 221, title VIII, or title X of this Act (subject to any limitations thereunder on the time of such insurance), no loan or mortgage shall be insured under any provision of this Act after October 1, 1969, except pursuant to a commitment to insure before that date.

SEC. 218. Repealed.

SEC. 219. Repealed.

REHABILITATION AND NEIGHBORHOOD CONSERVATION HOUSING INSURANCE

SEC. 220. (a) The purpose of this section is to aid in the elimination of slums and blighted conditions and the prevention of the deterioration of residential property by supplementing the insurance of mortgages under sections 203 and 207 of this title with a system of loan and mortgage insurance designed to assist the financing required for the rehabilitation of existing dwelling accommodations and the construction of new dwelling accommodations where such dwelling accommodations are located in an area referred to in paragraph (1) of subsection (d) of this section.

(b) The [Commissioner] *Secretary* is authorized, upon application by the mortgagee, to insure, as hereinafter provided, any mortgage (including advances during construction on mortgages covering property of the character described in paragraph (3)(B) of subsection (d) of this section) which is eligible for insurance as hereinafter provided, and, upon such terms and conditions as he may prescribe, to make commitments for the insurance of such mortgages prior to the date of their execution or disbursement thereon.

(c) As used in this section, the terms "mortgage," "first mortgage," "mortgagee," "mortgagor," "maturity date," and "State" shall have the same meaning as in section 201 of this Act.

(d) To be eligible for insurance under this section a mortgage shall meet the following conditions:

(1) The mortgaged property shall—

(A) be located in (i) the area of a slum clearance and urban redevelopment project covered by a Federal-aid contract executed or a prior approval granted, pursuant to title I of the Housing Act of 1949 before the effective date of the Housing Act of 1954, or (ii) an urban renewal area (as defined in title I of the Housing Act of

1949, as amended) in a community respecting which the [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* has made the [certification to the Commissioner] *determination* provided for by section 101(c) of the Housing Act of 1949, as amended, or (iii) the area of an urban renewal project assisted under section 111 of the Housing Act of 1949, as amended, or (iv) an area in which a program of concentrated code enforcement activities is being carried out pursuant to section 117 of the Housing Act of 1949: *Provided, That*, in the case of an area within the purview of clause (i) or (ii) of this subparagraph, a redevelopment plan or an urban renewal plan (as defined in title I of the Housing Act of 1949, as amended), as the case may be, has been approved for such area by the governing body of the locality involved and by the [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development*, and the [Administrator] *Secretary* has [certified to the Commissioner] *determined* that such plan conforms to a general plan for the locality as a whole and that there exist the necessary authority and financial capacity to assure the completion of such redevelopment or urban renewal plan: *And provided further, That*, in the case of an area within the purview of clause (iii) of this subparagraph, an urban renewal plan (as required for projects assisted under such section 111) has been approved for such area by such governing body and by the [Administrator] *Secretary*, and the [Administrator] *Secretary* has [certified to the Commissioner] *determined* that such plan conforms to definite local objectives respecting appropriate land uses, improved traffic, public transportation, public utilities, recreational and community facilities, and other public improvements, and that there exist the necessary authority and financial capacity to assure the completion of such urban renewal plan, and

(B) meet such standards and conditions as the [Commissioner] *Secretary* shall prescribe to establish the acceptability of such property for mortgage insurance under this section.

(2) The mortgaged property shall be held by—

(A) a mortgagor approved by the [Commissioner] *Secretary*, and the [Commissioner] *Secretary* may in his discretion require such mortgagor to be regulated or restricted as to rents or sales, charges, capital structure, rate of return and methods of operation, and for such purpose the [Commissioner] *Secretary* may make such contracts with and acquire for not to exceed \$100 stock or interest in any such mortgagor as the [Commissioner] *Secretary* may deem necessary to render effective such restriction or regulations. Such stock or interest shall be paid for out of the General Insurance Fund and shall be redeemed by the mortgagor at par upon the termination of all obligations of the [Commissioner] *Secretary* under the insurance; or

(B) by Federal or State instrumentalities, municipal corporate instrumentalities of one or more States, or limited dividend or redevelopment or housing corporations restricted by Federal or State laws or regulations of State banking or insurance departments as to rents, charges, capital structure, rate of return, or methods of operation.

(3) The mortgage shall—

(A) (i) involve a principal obligation (including such initial service charges, appraisal, inspection, and other fees as the [Commissioner] *Secretary* shall approve) in an amount not to exceed \$30,000 in the case of property upon which there is located a dwelling designed principally for a one-family residence; or \$32,500 in the case of a two-family residence; or \$32,500 in the case of a three-family residence; or \$37,500 in the case of a four-family residence; or in the case of a dwelling designed principally for residential use for more than four families (but not exceeding such additional number of family units as the [Commissioner] *Secretary* may prescribe) \$37,500 plus not to exceed \$7,000 for each additional family unit in excess of four located on such property; and not to exceed an amount equal to the sum of (1) 97 per centum (but, in any case where the dwelling is not approved for mortgage insurance prior to the beginning of construction, unless the construction of the dwelling was completed more than one year prior to the application for mortgage insurance, 90 per centum) of \$15,000 of the [Commissioner's] *Secretary's* estimate of replacement cost of the property, as of the date the mortgage is accepted for insurance, (2) 90 per centum of such replacement cost in excess of \$15,000 but not in excess of \$20,000, (3) 75 per centum of such replacement cost in excess of \$20,000: *Provided*, That in the case of properties other than new construction, the foregoing limitations upon the amount of the mortgage shall be based upon the sum of the estimated cost of repair and rehabilitation and the [Commissioner's] *Secretary's* estimate of the value of the property before repair and rehabilitation rather than upon the [Commissioner's] *Secretary's* estimate of the replacement cost;

(ii) in a case where the mortgagor is not the occupant of the property and intends to hold the property for rental purposes, have a principal obligation in an amount not to exceed 93 per centum of the amount computed under the provisions of clause (i);

(iii) in a case where the mortgagor is not the occupant of the property and intends to hold the property for the purpose of sale, have a principal obligation in an amount not to exceed 85 per centum of the amount computed under the provisions of clause (i), or in the alternative, in an amount equal to the amount computed under the provisions of clause (i) if the mortgagor and mortgagee assume responsibility in a manner satisfactory to the [Commissioner] *Secretary* for the reduction of the mortgage by an amount not less than 15 per centum of the outstanding principal amount thereof, or by such greater amount as may be required to meet the limitations of clause (iv), in the event the mortgaged property is not, prior to the due date of the eighteenth amortization payment of the mortgage, sold to a purchaser acceptable to the [Commissioner] *Secretary* who is the occupant of the property and who assumes and agrees to pay the mortgage indebtedness; and

(iv) in no case involving refinancing (except as provided in clause (iii)) have a principal obligation in an amount exceeding

the sum of the estimated cost of repair and rehabilitation and the amount (as determined by the [Commissioner] *Secretary*) required to refinance existing indebtedness secured by the property or project, plus any existing indebtedness incurred in connection with improving, repairing, or rehabilitating the property; or

(B) (i) not exceed \$30,000,000 or, if executed by a mortgagor coming within the provisions of paragraph (2) (B) of this subsection (d) not exceed \$50,000,000; and

(ii) not exceed 90 per centum of the amount which the [Commissioner] *Secretary* estimates will be the replacement cost of the property or project when the proposed improvements are completed (the replacement cost of the property or project may include the land, the proposed physical improvements, utilities within the boundaries of the property or project, architect's fees, taxes, and interest during construction, and other miscellaneous charges incident to construction and approved by the [Commissioner] *Secretary*, and shall include an allowance for builder's and sponsor's profit and risk of 10 per centum of all of the foregoing items except the land unless the [Commissioner] *Secretary*, after certification that such allowance is unreasonable, shall by regulation prescribe a lesser percentage): *Provided*, That in the case of properties other than new construction, the foregoing limitations upon the amount of the mortgage shall be based upon the sum of the estimated cost of repair and rehabilitation and the [Commissioner's] *Secretary's* estimate of the value of the property before repair and rehabilitation rather than upon the [Commissioner's] *Secretary's* estimate of the replacement cost: *Provided further*, That in no case involving refinancing shall such mortgage exceed such estimated cost of repair and rehabilitation and the amount (as determined by the [Commissioner] *Secretary*) required to refinance existing indebtedness secured by the property or project;

(iii) not exceed, for such part of the property or project as may be attributable to dwelling use (excluding exterior land improvements as defined by the [Commissioner] *Secretary*), \$9,000 per family unit without a bedroom, \$12,500 per family unit with one bedroom, \$15,000 per family unit with two bedrooms, \$18,500 per family unit with three bedrooms, and \$21,000 per family unit with four or more bedrooms, except that as to projects to consist of elevator-type structures the [Commissioner] *Secretary* may, in his discretion, increase the dollar amount limitations per family unit to not to exceed \$10,500 per family unit without a bedroom, \$15,000 per family unit with one bedroom, \$18,000 per family unit with two bedrooms, \$22,500 per family unit with three bedrooms, and \$25,500 per family unit with four or more bedrooms, as the case may be, to compensate for the higher costs incident to the construction of elevator-type structures of sound standards of construction and design; and except that the [Commissioner's] *Secretary's* estimate of the value of the property being dollar amount limitations contained in this clause by not to exceed 45 per centum in any geographical area where he finds that cost levels so require: *Provided*, That nothing contained in this

subparagraph shall preclude the insurance of mortgages covering existing multifamily dwellings to be rehabilitated or reconstructed for the purposes set forth in subsection (a) of this section; and

(iv) include such nondwelling facilities as the [Commissioner] *Secretary* deems desirable and consistent with the urban renewal plan: *Provided*, That the project shall be predominantly residential and any nondwelling facility included in the mortgage shall be found by the [Commissioner] *Secretary* to contribute to economic feasibility of the project, and the [Commissioner] *Secretary* shall give due consideration to the possible effect of the project on other business enterprises in the community.

(4) The mortgage shall provide for complete amortization by periodic payments within such terms as the [Commissioner] *Secretary* may prescribe, but as to mortgages coming within the provisions of paragraph (3) (A) of this subsection (d) not to exceed the maximum maturity prescribed by the provisions of section 203(b) (3). The mortgage shall bear interest (exclusive of premium charges for insurance and service charge, if any) at not to exceed 5 per centum per annum on the amount of the principal obligation outstanding at any time, or not to exceed such per centum per annum not in excess of 6 per centum as the [Commissioner] *Secretary* finds necessary to meet the mortgage market; contain such terms and provisions with respect to the application of the mortgagor's periodic payment to amortization of the principal of the mortgage, insurance, repairs, alterations, payment of taxes, default reserves, delinquency charges, foreclosure proceedings, anticipation of maturity, additional and secondary liens, and other matters as the [Commissioner] *Secretary* may in his discretion prescribe.

(e) The [Commissioner] *Secretary* may at any time, under such terms and conditions as he may prescribe, consent to the release of the mortgagor from his liability under the mortgage or the credit instrument secured thereby, or consent to the release of parts of the mortgaged property from the lien of mortgage.

(f) The mortgagee shall be entitled to receive the benefits of the insurance as hereinafter provided—

(1) as to mortgages meeting the requirements of paragraph (3) (A) of subsection (d) of this section, as provided in section 204 (a) of this Act with respect to mortgages insured under section 203; and the provisions of subsections (b), (c), (d), (e), (f), (g), (h), (j), and (k) of section 204 of this Act shall be applicable to such mortgages insured under this section, except that all references therein to the Mutual Mortgage Insurance Fund or the Fund shall be construed to refer to the General Insurance Fund and all references therein to section 203 shall be construed to refer to this section;

(2) as to mortgages meeting the requirements of paragraph (3) (B) of subsection (d) of this section, as provided in section 207 (g) of this Act with respect to mortgages insured under said section 207, and the provisions of subsections (h), (i), (j), (k), and (l) of section 207 of this Act shall be applicable to such mortgages insured under this section, and all references therein to the Hous-

ing Insurance Fund or the Housing Fund shall be construed to refer to the General Insurance Fund; or

(3) as to mortgages meeting the requirements of this section that are insured or initially endorsed for insurance on or after the date of enactment of the Housing Act of 1961, notwithstanding the provisions of paragraphs (1) and (2) of this subsection, the **[Commissioner]** *Secretary* in his discretion, in accordance with such regulations as he may prescribe, may make payments pursuant to such paragraphs in cash or in debentures (as provided in the mortgage insurance contract), or may acquire a mortgage loan that is in default and the security therefor upon payment to the mortgagee in cash or in debentures (as provided in the mortgage insurance contract) of a total amount equal to the unpaid principal balance of the loan plus any accrued interest and any advances approved by the **[Commission]** *Secretary* and made previously by the mortgagee under the provisions of the mortgage. After the acquisition of the mortgage by the **[Commissioner]** *Secretary* the mortgagee shall have no further rights, liabilities, or obligations with respect to the loan or the security for the loan. The appropriate provisions of sections 204 and 207 relating to the rights, liabilities, and obligations of a mortgagee shall apply with respect to the **[Commissioner]** *Secretary* when he has acquired an insured mortgage under this paragraph, in accordance with and subject to regulations (modifying such provisions to the extent necessary to render their application for such purposes appropriate and effective) which shall be prescribed by the **[Commissioner]** *Secretary*, except that as applied to mortgages so acquired (A) all references in section 204 to the Mutual Mortgage Insurance Fund or the Fund shall be construed to refer to the General Insurance Fund, and (B) all references in section 204 to section 203 shall be construed to refer to this section. If the insurance payment is made in cash, there shall be added to such payment an amount equivalent to the interest which the debentures would have earned, computed to a date to be established pursuant to regulations issued by the **[Commissioner]** *Secretary*.

(g)

(h) (1) To assist further in the conservation, improvement, repair, and rehabilitation of property located in the area of an urban renewal project, or in an area in which a program of concentrated code enforcement activities is being carried out pursuant to section 117 of the Housing Act of 1949, as provided in paragraph (1) of subsection (d) of this section, the **[Commissioner]** *Secretary* is authorized upon such terms and conditions as he may prescribe to make commitments to insure and to insure home improvement loans (including advances during construction or improvement) made by financial institutions on and after the date of enactment of the Housing Act of 1961. As used in this subsection—

(A) the term “home improvement loan” means a loan, advance of credit, or purchase of an obligation representing a loan or advance of credit made—

(i) for the purpose of financing the improvement of an existing structure (or in connection with an existing struc-

ture) which was constructed not less than ten years prior to the making of such loan, advance of credit, or purchase, and which is used or will be used primarily for residential purposes: *Provided*, That a home improvement loan shall include a loan, advance, or purchase with respect to the improvement of a structure which was constructed less than ten years prior to the making of such loan, advance, or purchase if the proceeds are or will be used primarily for major structural improvements, or to correct defects which were not known at the time of the completion of the structure or which were caused by fire, flood, windstorm, or other casualty; or

(ii) for the purpose of enabling the borrower to pay that part of the cost of the construction or installation of sidewalks, curbs, gutters, street paving, street lights, sewers, or other public improvements, adjacent to or in the vicinity of property owned by him and used primarily for residential purposes, which is assessed against him or for which he is otherwise legally liable as the owner of such property;

(B) the term "improvement" means conservation, repair, restoration, rehabilitation, conversion, alteration, enlargement, or remodeling; and

(C) the term "financial institution" means a lender approved by the [Commissioner] *Secretary* as eligible for insurance under section 2 or a mortgagee approved under section 203(b) (1).

(2) To be eligible for insurance under this subsection, a home improvement loan shall—

(i) not exceed the [Commissioner's] *Secretary's* estimate of the cost of improvement, or \$10,000 per family unit, whichever is the lesser, and be limited as required by paragraph (11) : *Provided*, That the [Commissioner] *Secretary* may, by regulation, increase such amount by not to exceed 45 per centum in any geographical area where he finds that cost levels so require;

(ii) be limited to an amount which when added to any outstanding indebtedness related to the property (as determined by the [Commissioner] *Secretary*) creates a total outstanding indebtedness which does not exceed the limits provided in subsection (d) (3) for properties (of the same type) other than new construction;

(iii) bear interest at not to exceed a rate prescribed by the [Commissioner] *Secretary*, but not in excess of 6 per centum per annum of the amount of the principal obligation outstanding at any time, and such other charges (including such service charges, appraisal, inspection, and other fees) as may be approved by the [Commissioner] *Secretary*;

(iv) have a maturity satisfactory to the [Commissioner] *Secretary*, but not to exceed twenty years from the beginning of amortization of the loan or three-quarters of the remaining economic life of the structure, whichever is the lesser;

(v) comply with such other terms, conditions, and restrictions as the [Commissioner] *Secretary* may prescribe; and

(vi) represent the obligation of a borrower who is the owner of the property improved, or a lessee of the property

under a lease for not less than 99 years which is renewable or under a lease having an expiration date in excess of 10 years later than the maturity date of the loan.

(3) Any home improvement loan insured under this subsection may be refinanced and extended in accordance with such terms and conditions as the **[Commissioner]** *Secretary* may prescribe, but in no event for an additional amount or term in excess of the maximum provided for in this subsection.

(4).

(5) The **[Commissioner]** *Secretary* is authorized to fix a premium charge for the insurance of home improvement loans under this subsection but in the case of any such loan such charge shall not be less than an amount equivalent to one-half of 1 per centum per annum nor more than an amount equivalent to 1 per centum per annum of the amount of the principal obligation of the loan outstanding at any time, without taking into account delinquent payments or prepayments. Such premium charges shall be payable by the financial institution either in cash or in debentures (at par plus accrued interest) issued by the **[Commissioner]** *Secretary* as obligations of the General Insurance Fund, in such manner as may be prescribed by the **[Commissioner]** *Secretary*, and the **[Commissioner]** *Secretary* may require the payment of one or more such premium charges at the time the loan is insured, at such discount rate as he may prescribe not in excess of the interest rate specified in the loan. If the **[Commissioner]** *Secretary* finds upon presentation of a loan for insurance and the tender of the initial premium charge or charges so required that the loan complies with the provisions of this subsection, such loan may be accepted for insurance by endorsement or otherwise as the **[Commissioner]** *Secretary* may prescribe. In the event the principal obligation of any loan accepted for insurance under this subsection is paid in full prior to the maturity date, the **[Commissioner]** *Secretary* is authorized to refund to the financial institution for the account of the borrower all, or such portions as he shall determine to be equitable, of the current unearned premium charges theretofore paid.

(6) In cases of defaults on loans insured under this subsection, upon receiving notice of default, the **[Commissioner]** *Secretary*, in accordance with such regulations as he may prescribe, may acquire the loan and any security therefor upon payment to the financial institution in cash or in debentures (as provided in the loan insurance contract) of a total amount equal to the unpaid principal balance of the loan, plus any accrued interest, any advances approved by the **[Commissioner]** *Secretary* made previously by the financial institution under the provisions of the loan instruments, and reimbursement for such collection costs, court costs, and attorney fees as may be approved by the **[Commissioner]** *Secretary*. If the insurance payment is made in cash, there shall be added to such payment an amount equivalent to the interest which the debentures would have earned, computed to a date to be established pursuant to regulations issued by the **[Commissioner]** *Secretary*.

(7) Debentures issued under this subsection shall be executed in the name of the General Insurance Fund as obligor, shall be signed by the **【Commissioner】** *Secretary*, by either his written or engraved signature, shall be negotiable, and shall be dated as of the date the loan is assigned to the **【Commissioner】** *Secretary* and shall bear interest from that date. They shall bear interest at a rate established by the **【Commissioner】** *Secretary* pursuant to section 224, payable semiannually on the 1st day of January and the 1st day of July of each year, and shall mature ten years after their date of issuance. They shall be exempt from taxation as provided in section 207(i) with respect to debentures issued under that section. They shall be paid out of the General Insurance Fund which shall be primarily liable therefor and they shall be fully and unconditionally guaranteed as to principal and interest by the United States, and the guaranty shall be expressed on the face of the debentures. In the event the General Insurance Fund fails to pay upon demand, when due, the principal of or interest on any debentures so guaranteed, the Secretary of the Treasury shall pay to the holders the amount thereof which is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, and thereupon, to the extent of the amount so paid, the Secretary of the Treasury shall succeed to all the rights of the holders of such debentures. Debentures issued under this subsection shall be in such form and denominations in multiples of \$50, shall be subject to such terms and conditions, and shall include such provisions for redemption, if any, as may be prescribed by the **【Commissioner】** *Secretary* with the approval of the Secretary of the Treasury, and they may be in coupon or registered form. Any difference between the amount of the debentures to which the financial institution is entitled, and the aggregate face value of the debentures issued, not to exceed \$50, shall be adjusted by the payment of cash by the **【Commissioner】** *Secretary* to the financial institution from the General Insurance Fund.

(8) The provisions of subsections (c), (d), and (h) of section 2 shall apply to home improvement loans insured under this subsection, and for the purposes of this subsection references in subsections (c), (d), and (h) of section 2 to "this section" or "this title" shall be construed to refer to this subsection.

(9)(A) Notwithstanding any other provisions of this Act, no home improvement loan executed in connection with the improvement of a structure for use as rental accommodations for five or more families shall be insured under this subsection unless the borrower has agreed (i) to certify, upon completion of the improvement and prior to final endorsement of the loan, either that the actual cost of improvement equaled or exceeded the proceeds of the home improvement loan, or the amount by which the proceeds of the loan exceed the actual cost, as the case may be, and (ii) to pay forthwith to the financial institution, for application to the reduction of the principal of the loan, the amount, if any, certified to be in excess of the actual cost of improvement. Upon the **【Commissioner's】** *Secretary's* approval of the borrower's certification as required under this paragraph, the certification shall

be final and incontestable, except for fraud or material misrepresentation on the part of the borrower.

(B) As used in subparagraph (A), the term "actual cost" means the cost to the borrower of the improvement, including the amounts paid for labor, materials, construction contracts, off-site public utilities, streets, organization and legal expenses, such allocations of general overhead items as are acceptable to the **[Commissioner]** *Secretary*, and other items of expense approved by the **[Commissioner]** *Secretary*, plus a reasonable allowance for builder's profit if the borrower is also the builder, as defined by the **[Commissioner]** *Secretary*, and excluding the amount of any kickbacks, rebates, or trade discounts received in connection with the improvement.

(10) Notwithstanding any other provision of this Act, the **[Commissioner]** *Secretary* is authorized and empowered (i) to make expenditures and advances out of funds made available by this Act to preserve and protect his interest in any security for, or the lien or priority of the lien securing, any loan or other indebtedness owing to, insured by, or acquired by the **[Commissioner]** *Secretary* or by the United States under this subsection, or section 2 or 203(k); and (ii) to bid for and to purchase at any foreclosure or other sale or otherwise acquire property pledged, mortgaged, conveyed, attached, or levied upon to secure the payment of any loan or other indebtedness owing to or acquired by the **[Commissioner]** *Secretary* or by the United States under this subsection or section 2 or 203(k). The authority conferred by this paragraph may be exercised as provided in the last sentence of section 204(g).

(11) Notwithstanding any other provision of this Act, no home improvement loan made in whole or in part for the purpose specified in clause (A)(ii) of the second sentence of paragraph (1) shall be insured under this subsection if such loan (or the portion thereof which is attributable to such purpose), when added to the aggregate principal balance of any outstanding loans insured under this subsection or section 203(k) which were made to the same borrower for the purpose so specified (or the portion of such aggregate balance which is attributable to such purpose), would exceed \$10,000 or such additional amount as the **[Commissioner]** *Secretary* has by regulation prescribed in any geographical area where he finds cost levels so require pursuant to the authority vested in him by the proviso in paragraph (2)(i) of this subsection.

HOUSING FOR MODERATE INCOME AND DISPLACED FAMILIES

Sec. 221 (a) This section is designed to assist private industry in providing housing for low and moderate income families and families displaced from urban renewal areas or as a result of governmental action.

(b) The **[Commissioner]** *Secretary* is authorized, upon application by the mortgagee, to insure under this section as hereinafter provided any mortgage (including advances during construction on mortgages covering property of the character described in paragraphs (3) and

(4) of subsection (d) of this section) which is eligible for insurance as provided herein and, upon such terms and conditions as the **[Commissioner]** *Secretary* may prescribe, to make commitments for the insurance of such mortgages prior to the date of their execution or disbursement thereon.

(c) As used in this section, the terms "mortgage", "first mortgage", "mortgagee", "mortgagor", "maturity date" and "State" shall have the same meaning as in section 201 of this Act.

(d) To be eligible for insurance under this section, a mortgage shall—

(1) have been made to and be held by a mortgagee approved by the **[Commissioner]** *Secretary* as responsible and able to service the mortgage properly;

(2) be secured by property upon which there is located a dwelling conforming to applicable standards prescribed by the **[Commissioner]** *Secretary* under subsection (f) of this section, and meeting the requirements of all State laws, or local ordinances or regulations, relating to the public health or safety, zoning, or otherwise, which may be applicable thereto, and shall involve a principal obligation (including such initial service charges, appraisal, inspection, and other fees as the **[Commissioner]** *Secretary* shall approve) in an amount (A) not to exceed (i) \$11,000 in the case of a property upon which there is located a dwelling designed principally for a single-family residence, (ii) \$18,000 in the case of a property upon which there is located a dwelling designed principally for a two-family residence, (iii) \$27,000 in the case of a property upon which there is located a dwelling designed principally for a three-family residence, or (iv) \$33,000 in the case of a property upon which there is located a dwelling designed principally for a four-family residence; *Provided*, That a mortgage secured by property upon which there is located a dwelling designed principally for a two-, three-, or four-family residence shall not be insured under this section except in the case of a dwelling for occupancy by a family displaced from an urban renewal area or as a result of governmental action: *Provided further*, That the **[Commissioner]** *Secretary* may increase the foregoing amounts to not to exceed \$15,000, \$25,000, \$32,000, and \$38,000, respectively, in any geographical area where he finds that cost levels so require; and (B) not to exceed the appraised value of the property (as of the date the mortgage is accepted for insurance): *Provided*, That (i) if the mortgagor is the owner and an occupant of the property at the time of insurance, (1) in the case of a family displaced from an urban renewal area or as a result of Government action, he shall have paid on account of the property at least \$200 in the case of a single-family dwelling, \$400 in the case of a two-family dwelling, \$600 in the case of a three-family dwelling, and \$800 in the case of a four-family dwelling, or (2) in the case of any other family, he shall have paid on account of the property at least 3 per centum of the **[Commissioner's]** *Secretary's* estimate of its acquisition cost; which amount in either instance may include amounts to cover settlement costs and initial payments for taxes, hazard insurance, mortgage insurance premium, and other pre-

paid expenses; or (ii) in the case of repair and rehabilitation, the amount of the mortgage shall not exceed the sum of the estimated cost of repair and rehabilitation and the [Commissioner's] *Secretary's* estimate of the value of the property before repair and rehabilitation, except that in no case involving refinancing shall such mortgage exceed such estimated cost of repair and rehabilitation and the amount (as determined by the [Commissioner] required to refinance existing indebtedness secured by the property: *Provided further*, That nothing contained herein shall preclude the [Commissioner] *Secretary* from issuing a commitment to insure, and insuring a mortgage pursuant thereto, where the mortgagor is not the owner and an occupant of the property, if the property is to be built or acquired and repaired or rehabilitated for sale, and the insured mortgage financing is required to facilitate the construction, or the repair or rehabilitation, of the dwelling and to provide financing pending the subsequent sale thereof to a qualified owner who is also an occupant thereof, but in such instances the mortgage shall not exceed 85 per centum of the appraised value; or

(3) if executed by a mortgagor which is a public body or agency (and which certifies that it is not receiving financial assistance from the United States exclusively pursuant to the United States Housing Act of 1937), a cooperative (including an investor-sponsor who meets such requirements as the [Commissioner] *Secretary* may impose to assure that the consumer interest is protected), or a limited dividend corporation (as defined by the [Commissioner] *Secretary*), or a private nonprofit corporation or association, or other mortgagor approved by the [Commissioner] *Secretary*, and regulated or supervised under Federal or State laws or by political subdivisions of States, or agencies thereof, or by the [Commissioner] *Secretary* under a regulatory agreement or otherwise, as to rents, charges, and methods of operation, in such form and in such manner as in the opinion of the [Commissioner] *Secretary* will effectuate the purposes of this section—

(i) not exceed \$12,500,000;

(ii) not exceed, for such part of the property or project as may be attributable to dwelling use (excluding exterior land improvements as defined by the [Commissioner] *Secretary*), \$8,000 per family unit without a bedroom, \$11,250 per family unit with one bedroom, \$13,500 per family unit with two bedrooms, \$17,000 per family unit with three bedrooms, and \$19,250 per family unit with four or more bedrooms; except that as to projects to consist of elevator-type structures the [Commissioner] *Secretary* may, in this discretion, increase the dollar amount limitations per family unit to not to exceed \$9,500 per family unit without a bedroom, \$13,500 per family unit with one bedroom, \$16,000 per family unit with two bedrooms, \$20,000 per family unit with three bedrooms, and \$22,750 per family unit with four or more bedrooms, as the case may be, to compensate for the higher costs incident to the construction of elevator-type structures of sound standards of construction and design; and except that the [Commis-

sioner] *Secretary* may, by regulation, increase any of the foregoing dollar amount limitations contained in this clause by not to exceed 45 per centum in any geographical area where he finds that cost levels so require; and

(iii) not exceed (1) in the case of new construction, the amount which the [Commissioner] *Secretary* estimates will be the replacement cost of the property or project when the proposed improvements are completed (the replacement cost may include the land, the proposed physical improvements, utilities within the boundaries of the land, architect's fees, taxes, interest during construction, and other miscellaneous charges incident to construction and approved by the [Commissioner] *Secretary*), or (2) in the case of repair and rehabilitation, the sum of the estimated cost of repair and rehabilitation and the [Commissioner's] *Secretary's* estimate of the value of the property before repair and rehabilitation: *Provided*, That in no case involving refinancing shall such mortgage exceed such estimated cost of repair and rehabilitation and the amount (as determined by the [Commissioner] *Secretary*) required to refinance existing indebtedness secured by the property or project: *Provided further*, That in the case of any mortgagor other than a nonprofit corporation or association, cooperative (including an investor-sponsor), or public body, or a mortgagor meeting the special requirements of subsection (e) (1), the amount of the mortgage shall not exceed 90 per centum of the amount otherwise authorized under this section: *Provided further*, That such property or project, when constructed, or repaired and rehabilitated, shall be for use as a rental or cooperative project, and low and moderate income families or families displaced by urban renewal or other governmental action shall be eligible for occupancy in accordance with such regulations and procedures as may be prescribed by the [Commissioner] *Secretary* and the [Commissioner] *Secretary* may adopt such requirements as he determines to be desirable regarding consultation with local public officials where such consultation is appropriate by reason of the relationship of such project to projects under other local programs; or

(4) if executed by a mortgagor other than a mortgagor referred to in subsection (d) (3), and which is approved by the [Commissioner] *Secretary*—

(i) not exceed \$12,500,000;

(ii) not exceed, for such part of the property or project as may be attributable to dwelling use (excluding exterior land improvements as defined by the [Commissioner] *Secretary*), \$8,000 per family unit without a bedroom, \$11,250 per family unit with one bedroom, \$13,500 per family unit with two bedrooms, \$17,000 per family unit with three bedrooms, and \$19,250 per family unit with four or more bedrooms; except that as to projects to consist of elevator-type structures the [Commissioner] *Secretary* may, in his discretion, increase the dollar amount limitations per family unit to not to exceed \$9,500 per family unit without a bedroom, \$13,500 per family unit with one bedroom, \$16,000 per family unit with two bedrooms, \$20,000 per family unit with three

bedrooms, and \$22,750 per family unit with four or more bedrooms, as the case may be, to compensate for the higher costs incident to the construction of elevator-type structures of sound standards of construction and design; and except that the [Commissioner] *Secretary* may, by regulation, increase any of the foregoing dollar amount limitations contained in this clause by not to exceed 45 per centum in any geographical area where he finds that cost levels so require;

(iii) not exceed (in the case of a property or project approved for mortgage insurance prior to the beginning of construction) 90 per centum of the amount which the [Commissioner] *Secretary* estimates will be the replacement cost of the property or project when the proposed improvements are completed (the replacement cost may include the land, the proposed physical improvements, utilities within the boundaries of the land, architect's fees, taxes, interest during construction, and other miscellaneous charges incident to construction and approved by the [Commissioner] *Secretary*, and shall include an allowance for builder's and sponsor's profit and risk of 10 per centum of all of the foregoing items, except the land, unless the [Commissioner] *Secretary*, after certification that such allowance is unreasonable, shall by regulation prescribe a lesser percentage); and

(iv) not exceed 90 per centum of the sum of the estimated cost of repair and rehabilitation and the [Commissioner's] *Secretary's* estimate of the value of the property before repair and rehabilitation if the proceeds of the mortgage are to be used for the repair and rehabilitation of a property or project: *Provided*, That in no case involving refinancing shall such mortgage exceed such estimated cost of repair and rehabilitation and the amount (as determined by the [Commissioner] *Secretary*) required to refinance existing indebtedness secured by the Property or project: *Provided further*, That the [Commissioner] *Secretary* may, in his discretion, require the mortgagor to be regulated or restricted as to rents or sales, charges, capital structure, rate of return, and methods of operation, and for such purpose the [Commissioner] *Secretary* may make such contracts with and acquire for not to exceed \$100 such stock or interest in any such mortgagor as the [Commissioner] *Secretary* may deem necessary to render effective such restrictions or regulations, with such stock or interest being paid for out of the General Insurance Fund and being required to be redeemed by the mortgagor at par upon the termination of all obligations of the [Commissioner] *Secretary* under the insurance;

(5) bear interest (exclusive of premium charges for insurance and service charge, if any) at not to exceed 5 per centum per annum on the amount of the principal obligation outstanding at any time, or not to exceed such per centum per annum not in excess of 6 per centum as the [Commissioner] *Secretary* finds necessary to meet the mortgage market; and contain such terms and provisions with respect to the application of the mortgagor's periodic payment to amortization of the principal of the mortgage, insurance, repairs, alterations, payment of taxes, default reserves, delin-

quency charges, foreclosure proceedings, anticipation of maturity, additional and secondary liens, and other matters as the **【Commissioner】 Secretary** may in his discretion prescribe: *Provided*, That a mortgage insured under the provisions of subsection (d) (3) shall bear interest (exclusive of any premium charges for insurance and service charge, if any) at not less than the lower of (A) 3 per centum per annum, or (B) the annual rate of interest determined, from time to time by the Secretary of the Treasury at the request of the **【Commissioner】 Secretary**, by estimating the average market yield to maturity on all outstanding marketable obligations of the United States, and by adjusting such yield to the nearest one-eighth of 1 per centum, and there shall be no differentiation in the rate of interest charged under this proviso as between mortgagors under subsection (d) (3) on the basis of differences in the types or classes of such mortgagors; and

(6) provide for complete amortization by periodic payments within such terms as the **【Commissioner】 Secretary** may prescribe, but as to mortgages coming within the provisions of subsection (d) (2) not to exceed from the date of the beginning of amortization of the mortgage (i) 40 years in the case of a family displaced from an urban renewal area or as a result of governmental action, (ii) 35 years in the case of any other family if the mortgage is approved for insurance prior to construction, except that the period in such case may be increased to not more than 40 years where the mortgagor is an owner-occupant of the property and is not able, as determined by the **【Commissioner】 Secretary**, to make the required payments under a mortgage having a shorter amortization period, and (iii) 30 years in the case of any other family where the mortgage is not approved for insurance prior to construction: *Provided*, That no mortgage insured under subsection (d) (2) shall have a maturity exceeding three-quarters of the **【Commissioner's】 Secretary's** estimate of the remaining economic life of the building improvements.

(e) (1) A mortgagor which may be approved by the **【Commissioner】 Secretary** as provided in subsection (d) (3) includes a mortgagor which, as a condition of obtaining insurance of the mortgage and prior to the submission of its application for such insurance, has entered into an agreement (in form and substance satisfactory to the **【Commissioner】 Secretary**) with a private nonprofit corporation eligible for an insured mortgage under the provisions of subsection (d) (3), that the mortgagor will sell the project when it is completed to the corporation at the actual cost of the project, as certified pursuant to section 227 of this Act. The mortgagor to whom the property is sold shall be regulated or supervised by the **【Commissioner】 Secretary** as provided in subsection (d) (3) to effectuate its purposes.

(2) The **【Commissioner】 Secretary** may at any time, under such terms and conditions as he may prescribe, consent to the release of the mortgagor from his liability under the mortgage or the credit instrument secured thereby, or consent to the release of parts of the mortgaged property from the lien of the mortgage.

(f) The property or project shall comply with such standards and conditions as the **【Commissioner】 Secretary** may prescribe to establish

the acceptability of such property for mortgage insurance and may include such commercial and community facilities as the **Commissioner** *Secretary* deems adequate to serve the occupants. A property or project covered by a mortgage insured under the provisions of subsection (d) (3) or (d) (4) shall include five or more family units. The **Commissioner** *Secretary* is authorized to adopt such procedures and requirements as he determines are desirable to assure that the dwelling accommodations provided under this section are available to families displaced from urban renewal areas or as a result of governmental action. Notwithstanding any provision of this Act, the **Commissioner** *Secretary*, in order to assist further the provision of housing for low and moderate income families, in his discretion and under such conditions as he may prescribe, may insure a mortgage which meets the requirements of subsection (d) (3) of this section as in effect after the date of enactment of the Housing Act of 1961, with no premium charge, with a reduced premium charge, or with a premium charge for such period or periods during the time the insurance is in effect as the **Commissioner** *Secretary* may determine, and there is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, such amounts as may be necessary to reimburse the General Insurance Fund for any net losses in connection with such insurance. No mortgage shall be insured under this section after October 1, 1969, except pursuant to a commitment to insure before that date, or except a mortgage covering property which the **Commissioner** *Secretary* finds will assist in the provision of housing for families displaced from urban renewal areas or as a result of governmental action. Any person who is sixty-two years of age or over, or who is a handicapped person within the meaning of section 202 of the Housing Act of 1959, shall be deemed to be a family within the meaning of the terms "family" and "families" as those terms are used in this section.

(g) The mortgagee shall be entitled to receive the benefits of the insurance as hereinafter provided—

(1) as to mortgages meeting the requirements of paragraph (2) of subsection (d) of this section, as provided in section 204(a) of this Act with respect to mortgages insured under section 203, and the provisions of subsections (b), (c), (d), (e), (f), (g), (h), (j), and (k) of section 204 of this Act shall be applicable to such mortgages insured under this section, except that all references therein to the Mutual Mortgage Insurance Fund or the Fund shall be construed to refer to the General Insurance Fund and all references therein to section 203 shall be construed to refer to this section; or

(2) as to mortgages meeting the requirements of paragraph (3) or (4) of subsection (d) of this section, as provided in section 207 (g) of this Act with respect to mortgages insured under said section 207, and the provisions of subsections (h), (i), (j), (k), and (l) of section 207 of this Act shall be applicable to such mortgages insured under this section; or

(3) as to mortgages meeting the requirements of this section which are insured or initially endorsed for insurance on or after the date of enactment of the Housing Act of 1961, notwithstand-

ing the provisions of paragraphs (1) and (2) of this subsection, the **[Commissioner]** *Secretary* in his discretion, in accordance with such regulations as he may prescribe, may make payments pursuant to such paragraphs in cash or in debentures (as provided in the mortgage insurance contract), or may acquire a mortgage loan that is in default and the security therefor upon payment to the mortgagee in cash or in debentures (as provided in the mortgage insurance contract) of a total amount equal to the unpaid principal balance of the loan plus any accrued interest and any advances approved by the **[Commissioner]** *Secretary* and made previously by the mortgagee under the provisions of the mortgage, and after the acquisition of any such mortgage by the **[Commissioner]** *Secretary* the mortgagee shall have no further rights, liabilities, or obligations with respect to the loan or the security for the loan. The appropriate provisions of sections 204 and 207 relating to the issuance of debentures shall apply with respect to debentures issued under this paragraph, and the appropriate provisions of sections 204 and 207 relating to the rights, liabilities, and obligations of a mortgagee shall apply with respect to the **[Commissioner]** *Secretary* when he has acquired an insured mortgage under this paragraph, in accordance with and subject to regulations (modifying such provisions to the extent necessary to render their application for such purposes appropriate and effective) which shall be prescribed by the **[Commissioner]** *Secretary*, except that as applied to mortgages so acquired (A) all references in section 204 to the Mutual Mortgage Insurance Fund or the Fund shall be construed to refer to the General Insurance Fund, and (B) all references in section 204 to section 203 shall be construed to refer to this section. If the insurance is paid in cash, there shall be added to such payment an amount equivalent to the interest which the debentures would have earned, computed to a date to be established pursuant to regulations issued by the **[Commissioner]** *Secretary*.

(4) In the event any mortgage insured under this section is not in default at the expiration of twenty years from the date the mortgage was endorsed for insurance, the mortgagee shall, within a period thereafter to be determined by the **[Commissioner]** *Secretary*, have the option to assign, transfer, and deliver to the **[Commissioner]** *Secretary* the original credit instrument and the mortgage securing the same and receive the benefits of the insurance as hereinafter provided in this paragraph, upon compliance with such requirements and conditions as to the validity of the mortgage as a first lien and such other matters as may be prescribed by the **[Commissioner]** *Secretary* at the time the loan is endorsed for insurance. Upon such assignment, transfer, and delivery the obligation of the mortgagee to pay the premium charges for insurance shall cease, and the **[Commissioner]** *Secretary* shall, subject to the cash adjustment provided herein, issue to the mortgagee debentures having a total face value equal to the amount of the original principal obligation of the mortgage which was unpaid on the date of the assignment, plus accrued interest to such date. Debentures issued pursuant to this paragraph shall be issued in the same manner and subject to the same terms

and conditions as debentures issued under paragraph (1) of this subsection, except that the debentures issued pursuant to this paragraph shall be dated as of the date the mortgage is assigned to the **[Commissioner]** *Secretary*, shall mature ten years after such date, and shall bear interest from such date at the going Federal rate determined at the time of issuance. The term "going Federal rate" as used herein means the annual rate of interest which the Secretary of the Treasury shall specify as applicable to the six-month period (consisting of January through June or July through December) which includes the issuance date of such debentures, which applicable rate for each six-month period shall be determined by the Secretary of the Treasury by estimating the average yield to maturity, on the basis of daily closing market bid quotations or prices during the month of May or the month of November, as the case may be, next preceding such six-month period, on all outstanding marketable obligations of the United States having a maturity date of eight to twelve years from the first day of such month of May or November (or, if no such obligations are outstanding, the obligation next shorter than eight years and the obligation next longer than twelve years, respectively, shall be used), and by adjusting such estimated average annual yield to the nearest one-eighth of 1 per centum. The **[Commissioner]** *Secretary* shall have the same authority with respect to mortgages assigned to him under this paragraph as contained in section 207(k) and section 207(l) as to mortgages insured by the **[Commissioner]** *Secretary* and assigned to him under section 207 of this Act.

MORTGAGE INSURANCE FOR SERVICEMEN

SEC. 222. (a) The purpose of this section is to aid in the provision of housing accommodations for servicemen in the Armed Forces of the United States and their families, and servicemen in the United States Coast Guard and their families, by supplementing the insurance of mortgages under section 203 of this title with a system of mortgage insurance specially designed to assist the financing required for the construction or purchase of dwellings by those persons. As used in this section, a "serviceman" means a person to whom the Secretary of Defense (or any officer or employee designated by him), or the Secretary of the Treasury (or any officer or employee designated by him), as the case may be, has issued a certificate hereunder indicating that such person requires housing, is serving on active duty in the Armed Forces of the United States or in the United States Coast Guard and has served on active duty for more than two years, but a certificate shall not be issued hereunder to any person ordered to active duty for training purposes only. The Secretary of Defense and the Secretary of the Treasury, respectively, are authorized to prescribe rules and regulations governing the issuance of such certificates and may withhold issuance of more than one such certificate to a serviceman whenever in his discretion issuance is not justified due to circumstances resulting from military assignment, or, in the case of the United States Coast Guard, other assignment.

(b) To be eligible for insurance under this section a mortgage shall

(1) meet the requirements of section 203(b) or 203(i), or 221(d)(2), except as such requirements are modified by this section;

(2) involve a principal obligation (including such initial service charges, appraisal, inspection, and other fees as the **[Commissioner]** *Secretary* shall approve) in an amount not to exceed \$30,000, except that in the case of a mortgage meeting the requirements of section 203(i) or section 221(d)(2) such principal obligation shall not exceed the maximum limits prescribed for such section;

(3) have a principal obligation not in excess of the sum of (i) 97 per centum of \$15,000 of the appraised value of the property as of the date the mortgage is accepted for insurance, (ii) 90 per centum of such value in excess of \$15,000 but not in excess of \$20,000, and (iii) 85 per centum of such value in excess of \$20,000; and

(4) be executed by a mortgagor who at the time of application for insurance is certified as a "serviceman" and who at the time of insurance is the owner of the property and either occupies the property or certifies that his failure to do so is the result of his military assignment, or, in the case of the United States Coast Guard, other assignment.

(c) The **[Commissioner]** *Secretary* may prescribe the manner in which a mortgage may be accepted for insurance under this section. Premiums fixed by the **[Commissioner]** *Secretary* under section 203 with respect to, or payable during, the period of ownership by a serviceman of the property involved shall not be payable by the mortgagee but shall be paid not less frequently than once each year, upon request of the **[Commissioner]** *Secretary* to the Secretary of Defense or the Secretary of the Treasury, as the case may be, from the respective appropriations available for pay and allowances of persons eligible for mortgage insurance under this section. As used herein, "the period of ownership by a serviceman" means the period, for which premiums are fixed, prior to the date that the Secretary of Defense (or any officer or employee or other person designated by him) or the Secretary of the Treasury (or any officer or employee or other person designated by him), as the case may be, furnishes the **[Commissioner]** *Secretary* with a certification that such ownership (as defined by the **[Commissioner]** *Secretary*) has terminated.

(d) Any mortgagee under a mortgage insured under this section is entitled to the benefits of the insurance as provided in section 204 (a) with respect to mortgages insured under section 203.

(e) The provisions of subsections (b), (c), (d), (e), (f), (g), (h), (j), and (k) of section 204 shall apply to mortgages insured under this section, except that as applied to those mortgages (1) all references to the "Fund", or "Mutual Mortgage Insurance Fund", shall refer to the General Insurance Fund, and (2) all references to "section 203" shall refer to this section.

MISCELLANEOUS HOUSING INSURANCE

SEC. 223. (a) Notwithstanding any of the provisions of this title, and without regard to limitations upon eligibility contained in section 203, 207, 213, 220, 221, 222, 231, 232, or 233 the **[Commissioner]** *Secre-*

tary is authorized, upon application by the mortgagee, to insure or make commitments to insure under section 203, 207, 213, 220, 221, 222, 231, 232, or 233 of this title any mortgage—

(1) executed in connection with the sale by the Government, or any agency or official thereof, of any housing acquired or constructed under Public Law 849, Seventy-sixth Congress, as amended; Public Law 781, Seventy-sixth Congress, as amended; or Public Laws 9, 73, or 353, Seventy-seventh Congress, as amended (including any property acquired, held, or constructed in connection with such housing or to serve the inhabitants thereof); or

(2) executed in connection with the sale by the [Public Housing Administration] *Secretary of Housing and Urban Development*, or by any public housing agency with the approval of the [said Administration] *Secretary* of any housing (including any property acquired, held, or constructed in connection with such housing or to serve the inhabitants thereof) owned or financially assisted pursuant to the provisions of Public Law 671, Seventy-sixth Congress; or

(3) executed in connection with the sale by the Government, or any agency or official thereof, of any of the so-called Greenbelt towns, or parts thereof, including projects, or parts thereof, known as Greenhills, Ohio; Greenbelt, Maryland; and Greendale, Wisconsin, developed under the Emergency Relief Appropriation Act of 1935, or of any of the village properties or employee's housing under the jurisdiction of the Tennessee Valley Authority, or of any housing under the jurisdiction of the Department of the Interior located within the town area of Coulee Dam, Washington, acquired by the United States for the construction, operation, and maintenance of Grand Coulee Dam and its appurtenant works: *Provided*, That for the purpose of the application of this title to sales by the Secretary of the Interior pursuant to subsections 3(b)(1) and 3(b)(2) of the Coulee Dam Community Act of 1957,⁶ the selling price of the property involved shall be deemed to be the appraised value, or of any permanent housing under the jurisdiction of the Department of the Interior constructed under the Boulder Canyon Project Act of December 21, 1928, as amended and supplemented, located within the Boulder City municipal area: *Provided*, That for purposes of the application of this title to sales by the Secretary of the Interior pursuant to subsections 3(b)(1) and 3(b)(2) of the Boulder City Act of 1958, the selling price of the property involved shall be deemed to be the appraised value; or

(4) executed in connection with the sale by the Government or any agency or official thereof, of any housing (including any property acquired, held, or constructed in connection therewith or to serve the inhabitants thereof) pursuant to the Atomic Energy Community Act of 1955, as amended: *Provided*, That such insurance shall be issued without regard to any preferences or priorities except those prescribed by this Act or the Atomic Energy Community Act of 1955, as amended; or

(5) executed in connection with the sale by a State or municipality, or an agency, instrumentality, or political subdivision of

either, of a project consisting of any permanent housing (including any property acquired, held, or constructed in connection therewith or to serve the inhabitants thereof), constructed by or on behalf of such State, municipality, agency, instrumentality, or political subdivision, for the occupancy of veterans of World War II, or Korean veterans, their families, and others; or

(6) executed in connection with the first resale, within two years from the date of its acquisition from the Government, of any portion of a project or property of the character described in paragraphs (1), (2), (3), and (4) above; or

(7) given to refinance an existing mortgage insured under this Act: *Provided*, That the principal amount of any such refinancing mortgage shall not exceed the original principal amount or the unexpired term of such existing mortgage and shall bear interest at a rate not in excess of the maximum rate applicable to loans insured under section 203, 207, 213, 220, 221, 222, 231, 232, or 233, as the case may be, except that in any case involving the refinancing of a loan in which the [Commissioner] *Secretary* determines that the insurance of a mortgage for an additional term will inure to the benefit of the applicable insurance fund, taking into consideration the outstanding insurance liability under the existing insured mortgage, such refinancing mortgage may have a term not more than twelve years in excess of the unexpired term of such existing insured mortgage: *Provided further*, That a mortgage of the character described in paragraphs (1) through (6) of this subsection shall have a maturity, a principal obligation, and an interest rate not in excess of the maximums applicable to loans insured under section 203, 207, 213, 220, 221, 222, 231, 232, or 233, as the case may be, except that in no case may the principal obligation of a mortgage referred to in paragraph (5) of this subsection exceed 90 per centum of the appraised value of the mortgaged property; or

(8) executed in connection with the sale by the [Commissioner] *Secretary* of any housing acquired pursuant to section 108 of the Housing and Urban Developing Act of 1965.

(b) Notwithstanding any of the provisions of this title and without regard to limitations upon eligibility contained in section 221, the [Commissioner] *Secretary* may in his discretion insure under section 221(d) (3) any mortgage executed by a mortgagor of the character described therein where such mortgage is given to refinance a mortgage covering an existing property or project (other than a one- to four-family structure) located in an urban renewal area, if the [Commissioner] *Secretary* finds that such insurance will facilitate the occupancy of dwelling units in the property or project by families of low or moderate income or families displaced from an urban renewal area or displaced as a result of governmental action.

(c) The [Commissioner] *Secretary* shall also have authority to insure under this title any mortgage assigned to him in connection with payment under a contract of mortgage insurance or executed in connection with the sale by him of any property acquired under title I, title II, title VI, title VII, title VIII, or title IX without regard to any limitations or requirements contained in this title upon the eligibility of the mortgage, upon the payment of insurance premiums, or

upon the terms and conditions of insurance settlement and the benefits of the insurance to be included in such settlement (except that in any case the payment of insurance shall be in debentures).

(d) With respect to any mortgage, other than a mortgage covering a one- to four-family structure, heretofore or hereafter insured by the **[Commissioner]** *Secretary*, and notwithstanding any other provision of this Act, when the taxes, interest on the mortgage debt, mortgage insurance premiums, hazard insurance premiums, and the expense of maintenance and operation of the project covered by such mortgage during the first two years following the date of completion of the project, as determined by the **[Commissioner]** *Secretary*, exceed the project income, the **[Commissioner]** *Secretary* may, in his discretion and upon such terms and conditions as he may prescribe, permit the excess of the foregoing expenses over the project income to be added to the amount of such mortgage, and extend the coverage of the mortgage insurance thereto, and such additional amount shall be deemed to be part of the original face amount of the mortgage.

DEBENTURE INTEREST RATE

SEC. 224. Notwithstanding any other provisions of this Act, debentures issued under any section of this Act with respect to a loan or mortgage accepted for insurance on or after thirty days following the effective date of the Housing Act of 1954 (except debentures issued pursuant to paragraph (4) of section 221(g)) shall bear interest at the rate in effect on the date the commitment to insure the loan or mortgage was issued, or the date the loan or mortgage was endorsed for insurance, or (when there are two or more insurance endorsements) the date the loan or mortgage was initially endorsed for insurance, whichever rate is the highest, except that debentures issued pursuant to section 220(f), section 220(h)(7), section 221(g), or section 233 may, at the discretion of the **[Commissioner]** *Secretary*, bear interest at the rate in effect on the date they are issued.

The **[Commissioner]** *Secretary* shall from time to time, with the approval of the Secretary of the Treasury, establish such interest rate in an amount not in excess of the annual rate of interest determined by the Secretary of the Treasury, at the request of the **[Commissioner]** *Secretary*, by estimating the average yield to maturity, on the basis of daily closing market bid quotations or prices during the calendar month next preceding the establishment of such rate of interest, on all outstanding marketable obligations of the United States having a maturity date of fifteen years or more from the first day of such next preceding month, and by adjusting such estimated average annual yield to the nearest one-eighth of 1 per centum.

OPEN-END MORTGAGES

SEC. 225. Notwithstanding any other provisions of this Act, in connection with any mortgage insured pursuant to any section of this Act which covers a property upon which there is located a dwelling designed principally for residential use for not more than four families in the aggregate, the **[Commissioner]** *Secretary* is authorized, upon such terms and conditions as he may prescribe, to insure under said section the amount of any advance for the improvement or repair of

such property made to the mortgagor pursuant to an "open-end" provision in the mortgage, and to add the amount of such advance to the original principal obligation in determining the value of the mortgage for the purpose of computing the amounts of debentures and certificate of claim to which the mortgagee may be entitled: *Provided*, That the **[Commissioner]** *Secretary* may require the payment of such charges, including charges in lieu of insurance premiums, as he may consider appropriate for the insurance of such "open-end" advances: *Provided further*, That only advances for such improvements or repairs as substantially protect or improve the basic livability or utility of the property involved shall be eligible for insurance under this section: *Provided further*, That no such advance shall be insured under this section if the amount thereof plus the amount of the unpaid balance of the original principal obligation of the mortgage would exceed the amount of such original principal obligation unless the mortgagor certifies that the proceeds of such advance will be used to finance the construction of additional rooms or other enclosed space as a part of the dwelling: *And provided further*, That the insurance of "open-end" advances shall not be taken into account in determining the aggregate amount of principal obligations of mortgages which may be insured under this Act.

[FHA] APPRAISAL AVAILABLE TO HOME BUYERS

SEC. 226. The **[Commissioner]** *Secretary* is hereby authorized and directed to require that, in connection with any property upon which there is located a dwelling designed principally for a single-family residence or a two-family residence and which is approved for mortgage insurance under section 203, 213 with respect to any property or project of a corporation or trust of the character described in paragraph numbered (2) of subsection (a) thereof, 220, 221, 222, 233, 243, or 903 of this Act, the seller or builder or such other person as may be designated by the **[Commissioner]** *Secretary* shall agree to deliver, prior to the sale of the property, to the person purchasing such dwelling for his own occupancy, a written statement setting forth the amount of the appraised value of the property as determined by the **[Commissioner]** *Secretary*. This section shall not apply in any case where the mortgage involved was insured or the commitment for such insurance was issued prior to the effective date of the Housing Act of 1954. Notwithstanding the first sentence of this section, the **[Commissioner]** *Secretary* is authorized to require, in connection with any mortgage where the mortgage amount is computed on the basis of the **[Commissioner's]** *Secretary's* estimate of the replacement cost of the property, or on the basis of any other estimates of the **[Commissioner]** *Secretary*, that a written statement setting forth such estimate or estimates, as the case may be, be furnished under this section in lieu of a written statement setting forth the amount of the appraised value of the property.

BUILDER'S COST CERTIFICATION

SEC. 227. Notwithstanding any other provisions of this Act, no mortgage covering new or rehabilitated multifamily housing shall be insured under this Act unless the mortgagor has agreed (a) to cer-

tify, upon completion of the physical improvements on the mortgaged property or project and prior to final endorsement of the mortgage, either (i) that the approved percentage of actual cost (as those terms are herein defined) equaled or exceeded the proceeds of the mortgage loan or (ii) the amount by which the proceeds of the mortgage loan exceeded such approved percentage of actual cost, as the case may be, and (b) to pay forthwith to the mortgagee, for application to the reduction of the principal obligation of such mortgage, the amount, if any, certified to be in excess of such approved percentage of actual cost. Upon the **[Commissioner's]** *Secretary's* approval of the mortgagor's certification as required hereunder, such certification shall be final and incontestable, except for fraud or material misrepresentation on the part of the mortgagor. As used in this section—

(a) The term "new or rehabilitated multifamily housing" means a project or property approved for mortgage insurance prior to the construction or the repair and rehabilitation involved and covered by a mortgage insured or to be insured (i) under section 207, (ii) under section 213 with respect to any property or project of a corporation or trust of the character described in paragraph numbered (1) of subsection (a) thereof or with respect to any property or project of a mortgagor of the character described in paragraph (3) of subsection (a) thereof, (iii) under section 220 if the mortgage meets the requirements of paragraph (3)(B) of subsection (d) thereof, (iv) under section 221 if the mortgage meets the requirements of paragraph (3) or paragraph (4) of subsection (d) thereof, (v) under section 231, (vi) under section 233 if the mortgage meets the requirements of subsection (b)(2), (vii) under section 810 if the mortgage meets the requirements of subsection (f), or (viii) under section 234(d);

(b) The term "approved percentage" means the percentage figure which, under applicable provisions of this Act, the **[Commissioner]** *Secretary* is authorized to apply to his estimate of value, cost, or replacement cost, as the case may be, of the property or project in determining the maximum insurable mortgage amount; except that if the mortgage is to assist the financing of repair or rehabilitation and no part of the proceeds will be used to finance the purchase of the land or structure involved, the approved percentage shall be 100 per centum; and

(c) The term "actual cost" has the following meaning: (i) in case the mortgage is to assist the financing of new construction, the term means the actual cost to the mortgagor of such construction, including amounts paid for labor, materials, construction contracts, off-site public utilities, streets, organizational and legal expenses, such allocations of general overhead items as are acceptable to the **[Commissioner]** *Secretary*, and other items of expense approved by the **[Commissioner]** *Secretary*, plus (1) a reasonable allowance for builder's profit if the mortgagor is also the builder as defined by the **[Commissioner]** *Secretary*, and (2) an amount equal to the **[Commissioner's]** *Secretary's* estimate of the fair market value of any land (prior to the construction of the improvements built as a part of the project) in the property or project owned by the mortgagor in fee (or, in case the land in the property or project is held by the mortgagor under a leasehold or other interest less than a fee, such amount as the

mortgagor paid for the acquisition of such leasehold or other interest but, in no event, in excess of the fair market value of such leasehold or other interest exclusive of the proposed improvements), but excluding the amount of any kickbacks, rebates, or trade discounts received in connection with the construction of the improvements, or (ii) in case the mortgage is to assist the financing of repair or rehabilitation, the term means the actual cost to the mortgagor of such repair or rehabilitation, including the amounts paid for labor, materials, construction contracts, off-site public utilities, streets, organization and legal expenses, such allocations of general overhead items as are acceptable to the [Commissioner] *Secretary*, and other items of expense approved by the [Commissioner] *Secretary*, plus (1) a reasonable allowance for builder's profit if the mortgagor is also the builder as defined by the [Commissioner] *secretary*, and (2) an additional amount equal to (A) in case the land and improvements are to be acquired by the mortgagor and the purchase price thereof is to be financed with part of the proceeds of the mortgage, the purchase price of such land and improvements prior to such repair or rehabilitation, or (B) in case the land and improvements are owned by the mortgagor subject to an outstanding indebtedness to be refinanced with part of the proceeds of the mortgage, the amount of such outstanding indebtedness secured by such land and improvements, but excluding (for the purposes of this clause (ii)) the amount of any kickbacks, rebates, or trade discounts received in connection with the construction of the improvements: *Provided*, That such additional amount under (A) of this clause (ii) shall in no event exceed the [Commissioner's] *Secretary's* estimate of the fair market value of such land and improvements prior to such repair or rehabilitation, and such additional amount under (B) of this clause (ii) shall in no event exceed the approved percentage of the [Commissioner's] *Secretary's* estimate of the fair market value of such land and improvements prior to such repair or rehabilitation. In the case of a mortgage insured under section 220, section 221 (d) (3), section 221(d) (4), section 231, or section 233 (b) (2), where the mortgagor is also the builder as defined by the [Commissioner] *Secretary*, there shall be included in the actual cost, in lieu of the allowance for builder's profit under clause (i) or (ii) of the preceding sentence, an allowance for builder's and sponsor's profit and risk of 10 per centum (unless the [Commissioner] *Secretary*, after finding that such allowance is unreasonable, shall by regulation prescribe a lesser percentage) of all other items entering into the term "actual cost" except land or amounts paid for a leasehold and amounts included under either (A) or (B) of clause (ii) of the preceding sentence. In the case of a mortgage insured under section 220, section 221(d) (3), section 221 (d) (4), section 231, or section 233(b) (2), where the mortgagor is not also the builder as defined by the [Commissioner] *Secretary*, there shall be included in the actual cost an allowance for sponsor's profit and risk of the said 10 per centum or lesser percentage of all other items entering into the term "actual cost" except land or amounts paid for a leasehold, amounts included under either (A) or (B) of the said clause (ii), and amounts paid by the mortgagor under a general construction contract.

SEC. 228. Repealed.

VOLUNTARY TERMINATION OF INSURANCE

SEC. 229. Notwithstanding any other provision of this Act and with respect to any loan or mortgage heretofore or hereafter insured under this Act, except under section 2, the [Commissioner] *Secretary* is authorized to terminate any insurance contract upon request by the borrower or mortgagor and the financial institution or mortgagee and upon payment of such termination charge as the [Commissioner] *Secretary* determines to be equitable, taking into consideration the necessity of protecting the various insurance Funds. Upon such termination, borrowers and mortgagors and financial institutions and mortgagees shall be entitled to the rights, if any, to which they would be entitled under this Act if the insurance contract were terminated by payment in full of the insurable loan or mortgage.

ACQUISITION OF MORTGAGES TO AVOID FORECLOSURE

SEC. 230. Upon receiving notice of the default of any mortgage covering a one-, two-, three-, or four-family residence heretofore or hereafter insured under this Act, the [Commissioner] *Secretary* in his discretion and for the purpose of avoiding foreclosure of the mortgage, and notwithstanding the fact that he has previously approved a request of the mortgagee for an extension of the time for curing the default and of the time for commencing foreclosure proceedings or for otherwise acquiring title to the mortgaged property, or has approved a modification of the mortgage for the purpose of changing the amortization provisions by recasting the unpaid balance, may acquire the loan and security therefor upon payment of the insurance benefits in an amount equal to the unpaid principle balance of the loan plus any unpaid mortgage interest plus reimbursement for such costs and attorney's fees as the [Commissioner] *Secretary* finds were properly incurred in connection with the defaulted mortgage and its assignment to the [Commissioner] *Secretary*, and for any proper advances theretofore made by the mortgagee under the provisions of the mortgage. After the acquisition of such mortgage by the [Commissioner] *Secretary*, the mortgagee shall have no further rights, liabilities, or obligations with respect thereto. The provisions of section 204 relating to the issuance of debentures incident to the acquisition of foreclosed properties shall apply with respect to debentures issued under this subsection, and the provisions of section 204 relating to the rights, liabilities, and obligations of a mortgagee shall apply with respect to the [Commissioner] *Secretary* when he has acquired an insured mortgage under this section, in accordance with and subject to regulations (modifying such provisions to the extent necessary to render their application for such purposes appropriate and effective) which shall be prescribed by the [Commissioner] *Secretary*.

HOUSING FOR ELDERLY PERSONS

SEC. 231. (a) The purpose of this section is to assist in relieving the shortage of housing for elderly persons and to increase the supply of rental housing for elderly persons.

For the purposes of this section—

(1) the term “housing” means eight or more new or rehabilitated living units, not less than 50 per centum of which are specially designed for the use and occupancy of elderly persons;

(2) the term “elderly person” means any person, married or single, who is sixty-two years of age or over; and

(3) the terms “mortgage,” “mortgagee,” “mortgagor,” and “maturity date” shall have the meanings respectively set forth in section 207 of this Act.

(b) The **Commissioner** *Secretary* is authorized to insure any mortgage (including advances on mortgages during construction) in accordance with the provisions of this section upon such terms and conditions as he may prescribe and to make commitments for insurance of such mortgages prior to the date of their execution or disbursement thereon.

(c) To be eligible for insurance under this section, a mortgage to provide housing for elderly persons shall—

(1) involve a principal obligation in an amount not to exceed \$12,500,000 or, if executed by Federal or State instrumentalities, municipal corporate instrumentalities of one or more States, or nonprofit development or housing corporations restricted by Federal or State laws or regulations of State banking or insurance departments as to rents, charges, capital structure, rate of return, or methods of operation, not to exceed \$50,000,000;

(2) not exceed, for such part of the property or project as may be attributable to dwelling use (excluding exterior land improvements as defined by the **Commissioner** *Secretary*), \$8,000 per family unit without a bedroom, \$11,250 per family unit with one bedroom, \$13,500 per family unit with two bedrooms, \$17,000 per family unit with three bedrooms, and \$19,250 per family unit with four or more bedrooms; except that as to projects to consist of elevator-type structures the **Commissioner** *Secretary* may, in his discretion, increase the dollar amount limitations per family unit to not to exceed \$9,500 per family unit without a bedroom, \$13,500 per family unit with one bedroom, \$16,000 per family unit with two bedrooms, \$20,000 per family unit with three bedrooms, and \$22,750 per family unit with four or more bedrooms, as the case may be, to compensate for the higher costs incident to the construction of elevator-type structures of sound standards of construction and design; and except that the **Commissioner** *Secretary* may, by regulation, increase any of the foregoing dollar amount limitations contained in this paragraph by not to exceed 45 per centum in any geographical area where he finds that cost levels so require;

(3) if executed by a mortgagor which is a public instrumentality or a private nonprofit corporation or association or other acceptable private nonprofit organization regulated or supervised under Federal or State laws or by political subdivisions of States, or agencies thereof, or by the **Commissioner** *Secretary* under a regulatory agreement or otherwise, as to rents, charges, and methods of operation in such form and in such manner as, in the opinion of the **Commissioner** *Secretary*, will effectuate the purpose

of this section, involve a principal obligation not in excess of the amount which the **[Commissioner]** *Secretary* estimates will be the replacement cost of the property or project when the proposed improvements are completed (the replacement cost may include the land, the proposed physical improvements, utilities within the boundaries of the land, architect's fees, taxes, interest during construction, and other miscellaneous charges incident to construction and approved by the **[Commissioner]** *Secretary*): *Provided*, That in the case of properties other than new construction, the principal obligation shall not exceed the appraised value rather than the **[Commissioner's]** *Secretary's* estimate of the replacement cost;

(4) if executed by a mortgagor which is approved by the **[Commissioner]** *Secretary* but is not a public instrumentality or a private nonprofit organization, involve a principal obligation not in excess (in the case of a property or project approved for mortgage insurance prior to the beginning of construction) of 90 per centum of the amount which the **[Commissioner]** *Secretary* estimates will be the replacement cost of the property or project when the proposed improvements are completed (the replacement costs may include the land, the proposed physical improvements, utilities within the boundaries of the land, architect's fees, taxes, interest during construction, and other miscellaneous charges incident to construction and approved by the **[Commissioner]** *Secretary*, and shall include an allowance for builder's and sponsor's profit and risk of 10 per centum of all of the foregoing items except the land unless the **[Commissioner]** *Secretary*, after certification that such allowance is unreasonable, shall by regulation prescribe a lesser percentage): *Provided*, That in the case of properties other than new construction the principal obligation shall not exceed 90 per centum of the **[Commissioner's]** *Secretary's* estimate of the value of the property or project: *And provided further*, That the **[Commissioner]** *Secretary* may in his discretion require such mortgagor to be regulated or restricted as to rents or sales, charges, capital structure, rate of return, and methods of operation, and for such purpose the **[Commissioner]** *Secretary* may make contracts with and acquire for not to exceed \$100 such stock or interest in any such mortgagor as the **[Commissioner]** *Secretary* may deem necessary to render effective such restrictions or regulations; such stock or interest shall be paid for out of the General Insurance Fund and shall be redeemed by the mortgagor at par upon the termination of all obligations of the **[Commissioner]** *Secretary* under the insurance;

(5) provide for a complete amortization by periodic payments within such terms as the **[Commissioner]** *Secretary* shall prescribe;

(6) bear interest (exclusive of premium charges for insurance) at not to exceed 5 per centum per annum on the amount of the principal obligation outstanding at any time, or not to exceed such per centum per annum not in excess of $5\frac{1}{2}$ per centum as the **[Commissioner]** *Secretary* finds necessary to meet the mortgage market; and

(7) cover a property or project which is approved for mortgage insurance prior to the beginning of construction or rehabilitation, with 50 per centum or more of the units therein specially designed for the use and occupancy of elderly persons in accordance with standards established by the **[Commissioner]** *Secretary*, and which may include such commercial and special facilities as the **[Commissioner]** *Secretary* deems adequate to serve the occupants.

(d) The **[Commissioner]** *Secretary* may consent to the release of a part or parts of the mortgaged property or project from the lien of any mortgage insured under this section upon such terms and conditions as he may prescribe, and shall prescribe such procedures as in his judgment are necessary to secure to elderly persons a preference or priority of opportunity to rent the dwellings included in such property or project.

(e) The provisions of subsections (d), (e), (g), (h), (i), (j), (k), (l), and (n) of section 207 shall apply to mortgages insured under this section and all references therein to section 207 shall refer to this section.

(f) Notwithstanding any of the provisions of this section, the housing provided under this section may include family units which are specially designed for the use and occupancy of any person or family qualifying as a handicapped family as defined in section 202 of the Housing Act of 1959, and such special facilities as the **[Commissioner]** *Secretary* deems adequate to serve handicapped families (as so defined). The **[Commissioner]** *Secretary* may also prescribe procedures to secure to such families preference or priority of opportunity to rent the living units specially designed for their use and occupancy.

MORTGAGE INSURANCE FOR NURSING HOMES

SEC. 232. (a) The purpose of this section is to assist the provision of urgently needed nursing homes for the care and treatment of convalescents and other persons who are not acutely ill and do not need hospital care but who require skilled nursing care and related medical services.

(b) For the purposes of this section—

(1) the term “nursing home” means a proprietary facility, or facility of a private nonprofit corporation or association licensed or regulated by the State (or, if there is no State law providing for such licensing and regulation by the State, by the municipality or other political subdivision in which the facility is located), for the accommodation of convalescents or other persons who are not acutely ill and not in need of hospital care but who require skilled nursing care and related medical services, in which such nursing care and medical services are prescribed by, or are performed under the general direction of, persons licensed to provide such care or services in accordance with the laws of the State where the facility is located; and

(2) the terms “mortgage” and “mortgagor” shall have the meanings respectively set forth in section 207(a) of this Act.

(c) The **[Commissioner]** *Secretary* is authorized to insure any mortgage (including advances on such mortgage during construction)

in accordance with the provisions of this section upon such terms and conditions as he may prescribe and to make commitments for insurance of such mortgage prior to the date of its execution or disbursement thereon.

(d) In order to carry out the purpose of this section, the **[Commissioner]** *Secretary* is authorized to insure any mortgage which covers a new or rehabilitated nursing home, subject to the following conditions:

(1) The mortgage shall be executed by a mortgagor approved by the **[Commissioner]** *Secretary*. The **[Commissioner]** *Secretary* may in his discretion require any such mortgagor to be regulated or restricted as to charges and methods of financing, and, in addition thereto, if the mortgagor is a corporate entity, as to capital structure and rate of return. As an aid to the regulation or restriction of any mortgagor with respect to any of the foregoing matters, the **[Commissioner]** *Secretary* may make such contracts with and acquire for not to exceed \$100 such stock or interest in such mortgagor as he may deem necessary. Any stock or interest so purchased shall be paid for out of the General Insurance Fund, and shall be redeemed by the mortgagor at par upon the termination of all obligations of the **[Commissioner]** *Secretary* under the insurance.

(2) The mortgage shall involve a principal obligation in an amount not to exceed \$12,500,000, and not to exceed 90 per centum of the estimated value of the property or project when the proposed improvements are completed.

(3) The mortgage shall—

(A) provide for complete amortization by periodic payments within such terms as the **[Commissioner]** *Secretary* shall prescribe; and

(B) bear interest (exclusive of premium charges for insurance) at not to exceed 5 per centum per annum of the amount of the principal obligation outstanding at any time, or not to exceed such per centum per annum not in excess of 6 per centum as the **[Commissioner]** *Secretary* finds necessary to meet the mortgage market.

(4) The **[Commissioner]** *Secretary* shall not insure any mortgage under this section unless he has received, from the State agency designated in accordance with section 612(a)(1) of the Public Health Service Act for the State in which is located the nursing home covered by the mortgage, a certification that (1) there is a need for such nursing home, and (2) there are in force in such State or other political subdivision of the State in which the proposed nursing home would be located reasonable minimum standards of licensure and methods of operation for nursing homes. No such mortgage shall be insured under this section unless the **[Commissioner]** *Secretary* has received such assurance as he may deem satisfactory from the State agency that such standards will be applied and enforced with respect to any nursing home located in the State for which mortgage insurance is provided under this section.

(e) The **[Commissioner]** *Secretary* may consent to the release of a part or parts of the mortgaged property or project from the lien of

any mortgage insured under this section upon such terms and conditions as he may prescribe.

(f) The provisions of subsections (d), (e), (g), (h), (i), (j), (k), (l), and (n) of section 207 shall apply to mortgages insured under this section and all references therein to section 207 shall refer to this section.

EXPERIMENTAL HOUSING

SEC. 233. (a) In order to assist in lowering housing costs and improving housing standards, quality, livability, or durability or neighborhood design through the utilization of advanced housing technology, or experimental property standards, the **[Commissioner]** *Secretary* is authorized to insure and to make commitments to insure, under this section, mortgages (including home improvement loans, and including advances on mortgages during construction) secured by properties including dwellings involving the utilization and testing of advanced technology in housing design, materials, or construction, or experimental property standards for neighborhood design if the **[Commissioner]** *Secretary* determines that (1) the property is an acceptable risk, giving consideration to the need for testing advanced housing technology or experimental property standards, (2) the utilization and testing of the advanced technology or experimental property standards involved will provide data or experience which the **[Commissioner]** *Secretary* deems to be significant in reducing housing costs or improving housing standards, quality, livability, or durability, or improving neighborhood design, and (3) the mortgages are eligible for insurance under the provisions of this section and under any further terms and conditions which may be prescribed by the **[Commissioner]** *Secretary* to establish the acceptability of the mortgages for insurance.

(b) To be eligible for insurance under this section, a mortgage shall meet the requirements of one of the other sections of this title; except that, in lieu of determining the appraised value or the replacement cost of the property in cases involving new construction or the estimated cost of repair and rehabilitation or improvement in cases involving existing properties, the **[Commissioner]** *Secretary* shall estimate the cost of replacing the property using comparable conventional design, materials, and construction, and any limitation upon the maximum mortgage amount available to nonoccupant owner shall not, in the discretion of the **[Commissioner]** *Secretary*, be applicable to mortgages insured under this section.

(c) The **[Commissioner]** *Secretary* may enter into such contracts, agreements, and financial undertakings with the mortgagor and others as he deems necessary or desirable to carry out the purposes of this section, and may expend available funds for such purposes, including the correction (when he determines it necessary to protect the occupants), at any time subsequent to insurance of a mortgage, of defects or failures in the dwellings which the **[Commissioner]** *Secretary* finds are caused by or related to the advanced housing technology utilized in their design or construction or experimental property standards.

(d) The **[Commissioner]** *Secretary* may make such investigations and analyses of data, and publish and distribute such reports, as he

determines to be necessary or desirable to assure the most beneficial use of the data and information to be acquired as a result of this section.

(e) Any mortgagee or lender under a mortgage insured under subsection (b) shall be entitled to insurance benefits determined in the same manner as such benefits would be determined if such mortgage or loan were insured under the section of this title for which it otherwise would have been eligible except for the experimental feature of the property involved.

(f) Notwithstanding the provisions of subsection (e) of this section, in the case of default on any mortgage insured under this section, the **[Commissioner]** *Secretary* in his discretion, in accordance with such regulations as he may prescribe, may make payments pursuant to such subsections in cash or in debentures (as provided in the mortgage insurance contract), or may acquire the mortgage loan and the security therefor upon payment to the mortgagee in cash or in debentures (as provided in the mortgage insurance contract) of a total amount equal to the unpaid principal balance of the loan plus any accrued interest and any advances approved by the **[Commissioner]** *Secretary* made previously by the mortgagee under the provisions of the mortgage. After the acquisition of the mortgage by the **[Commissioner]** *Secretary* the mortgagee shall have no further rights, liabilities, or obligations with respect to the mortgage. The appropriate provisions of sections 204 and 207 relating to the issuance of debentures shall apply with respect to debentures issued under this subsection, and the appropriate provisions of sections 204 and 207 relating the rights, liabilities, and obligations of a mortgagee shall apply with respect to the **[Commissioner]** *Secretary* when he has acquired an insured mortgage under this subsection, in accordance with and subject to regulations (modifying such provisions to the extent necessary to render their application for such purposes appropriate and effective) which shall be prescribed by the **[Commissioner]** *Secretary*, except that as applied to mortgages insured under this section (1) all references in section 204 to the Mutual Mortgage Insurance Fund or the Fund shall be construed to refer to the General Insurance Fund, and (2) all references in section 204 to section 203 shall be construed to refer to this section.

MORTGAGE INSURANCE FOR CONDOMINIUMS

SEC. 234. (a) The purpose of this section is to provide an additional means of increasing the supply of privately owned dwelling units where, under the laws of the State in which the property is located, real property title and ownership are established with respect to a one-family unit which is part of a multifamily project.

(b) The terms "mortgage," "mortgagee," "mortgagor," "maturity date," and "State" shall have the meanings respectively set forth in section 201, except that the term "mortgage" for the purpose of subsection (c) may include a first mortgage given to secure the unpaid purchase price of a fee interest in, or a long-term leasehold interest in, a one-family unit in a multifamily project and an undivided interest in the common areas and facilities which serve the project where the

mortgage is determined by the **[Commissioner]** *Secretary* to be eligible for insurance under this section. The term "common areas and facilities" as used in this section shall be deemed to include the land and such commercial, community, and other facilities as are approved by the **[Commissioner]** *Secretary*.

(c) The **[Commissioner]** *Secretary* is authorized, in his discretion and under such terms and conditions as he may prescribe (including the minimum number of family units in the project which shall be offered for sale and provisions for the protection of the consumer and the public interest), to insure any mortgage covering a one-family unit in a multifamily project and an undivided interest in the common areas and facilities which serve the project if (1) the mortgage meets the requirements of this subsection and of section 203(b), except as that section is modified by this subsection, (2) the project is or has been covered by a mortgage insured under any section (except section 213(a) (1) and (2) of this Act, notwithstanding any requirements in any such section that the project be constructed or rehabilitated for the purpose of providing rental housing, and (3) the mortgagor is acquiring, or has acquired, a family unit covered by a mortgage insured under this subsection for his own use and occupancy and will not own more than four one-family units covered by mortgages insured under this subsection. Any project proposed to be constructed or rehabilitated after the date of enactment of the Housing Act of 1961 with the assistance of mortgage insurance under this Act, where the sale of family units is to be assisted with mortgage insurance under this subsection, shall be subject to such requirements as the **[Commissioner]** *Secretary* may prescribe. To be eligible for insurance pursuant to this subsection, a mortgage shall (A) involve a principal obligation in an amount not to exceed \$30,000, and not to exceed the sum of (i) 97 per centum of \$15,000 of the amount which the **[Commissioner]** *Secretary* estimates will be the appraised value of the family unit including common areas and facilities as of the date the mortgage is accepted for insurance, (ii) 90 per centum of such value in excess of \$15,000 but not in excess of \$20,000, and (iii) 75 per centum of such value in excess of \$20,000, and (B) have a maturity satisfactory to the **[Commissioner]** *Secretary*, but not to exceed, in any event, thirty-five years from the date of the beginning of amortization of the mortgage or three-fourths of the **[Commissioner's]** *Secretary's* estimate of the remaining economic life of the project, whichever is the lesser. In determining the amount of a mortgage in the case of a nonoccupant mortgagor the reference to paragraph (2) of section 203(b) in section 203(b)(5) shall be construed to refer to the preceding sentence in this subsection. The mortgage shall contain such provisions as the **[Commissioner]** *Secretary* determines to be necessary for the maintenance of common areas and facilities and the multifamily project. The mortgagor shall have exclusive right to the use of the one-family unit covered by the mortgage and, together with the owners of other units in the multifamily project, shall have the right to the use of the common areas and facilities serving the project and the obligation of maintaining all such common areas and facilities. The **[Commissioner]** *Secretary* may require that the rights and obligations of the mortgagor and the owners of other dwelling units in the project shall be subject to such con-

controls as he determines to be necessary and feasible to promote and protect individual owners, the multifamily project and its occupants. For the purposes of this subsection, the [Commissioner] Secretary is authorized in his discretion and under such terms and conditions as he may prescribe to permit one-family units and interests in common areas and facilities in multifamily projects covered by mortgages insured under any section of this Act (other than section 1102a) (1) and (2) to be released from the liens of those mortgages.

(d) In addition to individual mortgages insured under subsection (c), the [Commissioner] Secretary is authorized, in his discretion and under such terms and conditions as he may prescribe, to insure blanket mortgages (including advances on such mortgages during construction) which cover multifamily projects to be constructed or rehabilitated in cases where the mortgage is held by a mortgagor, approved by the [Commissioner] Secretary, which—

(1) has certified to the [Commissioner] Secretary, as a condition of obtaining the insurance of a blanket mortgage under this subsection, that upon completion of the multifamily project covered by such mortgage it intends to convert the ownership of the multifamily project to a plan of family unit ownership under which each family unit would be eligible for individual mortgage insurance under subsection (c) and will faithfully and diligently make and carry out all reasonable efforts to establish such plan of family unit ownership and to sell such family units to purchasers approved by the [Commissioner] Secretary; and

(2) shall be regulated or restricted by the [Commissioner] Secretary as to rents, charges, capital structure, rate of return, and methods of operation until the termination of all obligations of the [Commissioner] Secretary under the insurance and during such further period of time as the [Commissioner] Secretary shall be the owner, holder, or reinsurer of the mortgage. The [Commissioner] Secretary may make such contracts with and acquire for not to exceed \$100 such stock or interest in such mortgagor as he may deem necessary to render effective the regulation and restriction of such mortgagor. The stock or interest required by the [Commissioner] Secretary shall be paid for out of the General Insurance Fund, and shall be redeemed by the mortgagor at par at any time upon the request of the [Commissioner] Secretary after the termination of all obligations of the [Commissioner] Secretary under the insurance.

(e) To be eligible for insurance, a blanket mortgage on any multifamily project of a mortgagor of the character described in subsection (d) shall involve a principal obligation in an amount—

(1) not to exceed \$20,000,000, or not to exceed \$25,000,000 if the mortgage is executed by a mortgagor regulated or supervised, under Federal or State law or by a political subdivision of a State or any agency thereof, as to rents, charges, and methods of operation;

(2) not to exceed 90 per centum of the amount which the [Commissioner] Secretary estimates will be the replacement cost of the project when the proposed physical improvements are completed;

(3) not to exceed, for such part of the project as may be attributable to dwelling use (excluding exterior land improvements as defined by the **[Commissioner]** *Secretary*), \$9,000 per family unit without a bedroom, \$12,500 per family unit with one bedroom, \$15,000 per family unit with two bedrooms, \$18,500 per family unit with three bedrooms, and ⁴⁶ \$21,000 per family unit with four or more bedrooms; except that as to projects to consist of elevator-type structures the **[Commissioner]** *Secretary* may, in his discretion, increase the dollar amount limitations per family unit to not to exceed \$10,500 per family unit without a bedroom, \$15,000 per family unit with one bedroom, \$18,000 per family unit with two bedrooms, \$22,500 per family unit with three bedrooms, and \$25,000 per family unit with four or more bedrooms, as the case may be, to compensate for the higher costs incident to the construction of elevator-type structures of sound standards of construction and design; and except that the **[Commissioner]** *Secretary* may, by regulation, increase any of the foregoing dollar amount limitations contained in this paragraph by not to exceed 45 per centum in any geographical area where he finds that cost levels so require; and

(4) not to exceed an amount equal to the sum of the unit mortgage amounts determined under the provisions of subsection (c) assuming the mortgagor to be the owner and occupant of each family unit.

(f) Any blanket mortgage insured under subsection (d) shall provide for complete amortization by periodic payments within such terms as the **[Commissioner]** *Secretary* may prescribe but not to exceed forty years from the beginning of amortization of the mortgage, and shall bear interest (exclusive of premium charges for insurance) at not to exceed $5\frac{1}{4}$ per centum per annum on the amount of the principal obligation outstanding at any time. The **[Commissioner]** *Secretary* may consent to the release of a part or parts of the mortgaged property from the lein of the blanket mortgage upon such terms and conditions as he may prescribe and the blanket mortgage may provide for such release. The project covered by the blanket mortgage may include five or more family units and such commercial and community facilities as the **[Commissioner]** *Secretary* deems adequate to serve the occupants.

(g) Any mortgagee under a mortgage insured under subsection (c) of this section is entitled to receive the benefits of the insurance as provided in section 204(a) of this Act with respect to mortgages insured under section 203, and the provisions of subsections (b), (c), (d), (e), (f), (g), (h), (j), and (k) of section 204 shall be applicable to the mortgages insured under subsection (c) of this section, except that (1) all references in section 204 of the Mutual Mortgage Insurance Fund or the Fund shall be construed to refer to the General Insurance Fund, (2) all references therein to section 203 shall be construed to refer to subsection (c) of this section, and (3) the excess remaining, referred to in section 204(f)(1), shall be retained by the **[Commissioner]** *Secretary* and credited to the General Insurance Fund.

(h) The provisions of subsections (d), (e), (g), (h), (i), (j), (k), (l), and (n) of section 207 shall be applicable to mortgages insured under subsection (d) of this section.

(i) The provisions of sections 225 and 230 shall be applicable to the mortgages insured under subsection (c) of this section.

TITLE III—FEDERAL NATIONAL MORTGAGE ASSOCIATION

PURPOSES

SEC. 301. The Congress hereby declares that the purposes of this title are to establish in the Federal Government a secondary market facility for home mortgages, to provide that the operations of such facility shall be financed by private capital to the maximum extent feasible, and to authorize such facility to—

(a) provide supplementary assistance to the secondary market for home mortgages by providing a degree of liquidity for mortgage investments, thereby improving the distribution of investment capital available for home mortgage financing;

(b) provide special assistance (when, and to the extent that, the President has determined that it is in the public interest) for the financing of (1) selected types of home mortgages (pending the establishment of their marketability) originated under special housing programs designed to provide housing of acceptable standards at full economic costs for segments of the national population which are unable to obtain adequate housing under established home financing programs, and (2) home mortgages generally as a means of retarding or stopping a decline in mortgage lending and home building activities which threatens materially the stability of a high level national economy; and

(c) manage and liquidate the existing mortgage portfolio of the Federal National Mortgage Association in an orderly manner, with a minimum of adverse effect upon the home mortgage market and minimum loss to the Federal Government.

CREATION OF ASSOCIATION

SEC. 302. (a) There is hereby created a body corporate to be known as the "Federal National Mortgage Association" (hereinafter referred to as the "Association"), which shall be [a constituent agency of the Housing and Home Finance Agency] *in the Department of Housing and Urban Development*. The Association shall have succession until dissolved by Act of Congress. It shall maintain its principal office in the District of Columbia and shall be deemed, for purposes of venue in civil actions, to be a resident thereof. Agencies or offices may be established by the Association in such other place or places as it may deem necessary or appropriate in the conduct of its business.

(b) For the purposes set forth in section 301 and subject to the limitations and restrictions of this title, the Association is authorized, pursuant to commitments or otherwise, to purchase, lend (under section 304) on the security of, service, sell, or otherwise deal in any mortgages which are insured under the National Housing Act or title V of the Housing Act of 1949, or which are insured or guaranteed under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code: *Provided*, That (1) no mortgage may be pur-

chased at a price exceeding 100 per centum of the unpaid principal amount thereof at the time of purchase, with adjustments for interest and any comparable items; (2) the Association may not purchase any mortgage, except a mortgage insured under title V of the Housing Act of 1949, if it is offered by, or covers property held by, a State, territorial, or municipal instrumentality; and (3) the Association may not purchase any mortgage under section 305, except a mortgage insured under section 220 or title VIII, or insured under section 213 and covering property located in an urban renewal area, or a mortgage covering property located in Alaska, Guam, or Hawaii, if the original principal obligation thereof exceeds or exceeded \$17,500 for each family residence or dwelling unit covered by the mortgage (plus an additional \$2,500 for each such family residence or dwelling unit which has four or more bedrooms). Notwithstanding the provisions of clause (3) in the preceding sentence, the Association may purchase a mortgage under section 305 with an original principal obligation that exceeds \$17,500 per dwelling unit if the mortgage (1) is a below-market interest rate mortgage insured under section 221(d)(3), and (2) covers property which has the benefit of local tax abatement in an amount determined by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* to be sufficient to make possible rentals not in excess of those that would be approved by the [Commissioner] *Secretary* if the mortgage amount did not exceed \$17,500 per dwelling unit and if local tax abatement were not provided. For the purposes of this title, the terms "mortgages" and "home mortgages" shall be inclusive of any mortgages or other loans insured under any of the provisions of the National Housing Act or title V of the Housing Act of 1949.

(c) (1) Notwithstanding any other provision of this Act or of any other law, the Association is authorized under section 306 to create, accept, execute, and otherwise administer in all respects such trusts, receiverships, conservatorships, liquidating or other agencies, or other fiduciary and representative undertakings and activities, hereinafter in this subsection called "trusts," as might be appropriate for financing purposes; and in relation thereto the Association may acquire, hold and manage, dispose of, and otherwise deal in any mortgages or other types of obligations in which any department or agency of the United States listed in paragraph (a) of this subsection may have a financial interest. The Association may join in any such undertakings and activities notwithstanding that it is also serving in a fiduciary or representative capacity; and is authorized, consistent with section 307, to guarantee any participations or other instruments, whether evidence of property rights or debt, issued for such financing purposes. Participations or other instruments issued by the Association pursuant to this subsection shall to the same extent as securities which are direct obligations of or obligations guaranteed as to principal or interest by the United States be deemed to be exempt securities within the meaning of laws administered by the Securities and Exchange Commission. The amounts of any mortgages and other obligations acquired by the Association under section 306 pursuant to this subsection, shall not be included in the total amounts set forth in section 306(c).

(2) Subject to the limitations provided in paragraph (4) of this subsection, one or more trusts may be established as provided in this subsection by each of the following departments or agencies:

(A) The Farmers Home Administration of the Department of Agriculture, but only with respect to operating loans, direct farm ownership loans, direct housing loans, and direct soil and water loans. Such trusts may not be established with respect to loans for housing for the elderly under sections 502 and 515(a) of the Housing Act of 1949, nor with respect to loans for nonfarm recreational development.

(B) The Office of Education of the Department of Health, Education, and Welfare, but only with respect to loans for construction of academic facilities.

(C) The Department of Housing and Urban Development, except that such authority may not be used with respect to secondary market operations of the Federal National Mortgage Association.

(D) The Veterans' Administration.

(E) The Export-Import Bank.

(F) The Small Business Administration.

The head of each such department or agency, hereinafter in this subsection called the 'trustor,' is authorized to set aside a part or all of any obligations held by him and subject them to a trust or trusts and, incident thereto, shall guarantee to the trustee timely payment thereof. The trust instrument may provide for the issuance and sale of beneficial interests or participations, by the trustee, in such obligations or in the right to receive interest and principal collections therefrom; and may provide for the substitution or withdrawal of such obligations, or for the substitution of cash for obligations. The trust or trusts shall be exempt from all taxation. The trust instrument may also contain other appropriate provisions in keeping with the purposes of this subsection. The Association shall be named and shall act as trustee of any such trusts and, for the purposes thereof, the title to such obligations shall be deemed to have passed to the Association in trust. The trust instrument shall provide that custody, control, and administration of the obligations shall remain in the trustor subjecting the obligations to the trust, subject to transfer to the trustee in event of default or probable default, as determined by the trustee, in the payment of principal and interest of the beneficial interests or participations. Collections from obligations subject to the trust shall be dealt with as provided in the instrument creating the trust. The trust instrument shall provide that the trustee will promptly pay to the trustor the full net proceeds of any sale of beneficial interests or participations to the extent they are based upon such obligations or collections. Such proceeds shall be dealt with as otherwise provided by law for sales or repayment of such obligations. The effect of both past and future sales of any issue of beneficial interests or participations shall be the same, to the extent of the principal of such issue, as the direct sale with recourse of the obligations subject to the trust. Any trustor creating a trust or trusts hereunder is authorized to purchase, through the facilities of the trustee, outstanding beneficial interests or participations to the extent of the amount of his responsibility to

the trustee on beneficial interests or participations outstanding, and to pay his proper share of the costs and expenses incurred by the Federal National Mortgage Association as trustee pursuant to the trust instrument.

(3) When any trustor guarantees to the trustee the timely payment of obligations he subjects to a trust pursuant to this subsection, and it becomes necessary for such trustor to meet his responsibilities under such guaranty, he is authorized to fulfill such guaranty.

(4) Beneficial interests or participations shall not be issued for the account of any trustor in an aggregate principal amount greater than is authorized with respect to such trustor in an appropriation Act. Any such authorization shall remain available only for the fiscal year for which it is granted and for the succeeding fiscal year.

(5) The Association, as trustee, is authorized to issue and sell beneficial interests or participations under this subsection, notwithstanding that there may be an insufficiency in aggregate receipts from obligations subject to the related trust to provide for the payment by the trustee (on a timely basis out of current receipts or otherwise) of all interest or principal on such interests or participations (after provision for all costs and expenses incurred by the trustee, fairly prorated among trustors). There are authorized to be appropriated without fiscal year limitation such sums as may be necessary to enable any trustor to pay the trustee such insufficiency as the trustee may require on account of outstanding beneficial interests or participations authorized to be issued pursuant to paragraph (4) of this subsection. Such trustor shall make timely payments to the trustee from such appropriations, subject to and in accord with the trust instrument.

CAPITALIZATION

SEC. 303. (a) The Association shall have nonvoting common stock; and initially shall also have nonvoting preferred stock to which the Secretary of the Treasury shall subscribe as provided in subsections (d) and (e) of this section. All stock of the Association shall have a par value of \$100 per share, and shall not be transferable except on the books of the Association. At the option of the Association all such stock shall be retireable at par value at any time, except that retirements of common stock shall not be made if, as a consequence, the amount thereof remaining outstanding would be less than \$100,000,000. With respect to the preferred stock held by him, the Secretary of the Treasury shall be entitled to cumulative dividends for each fiscal year or portion thereof, from the date or dates the capital represented by such preferred stock is initially utilized until such preferred stock is retired, at rates determined by him at the beginning of each such fiscal year, taking into consideration the current average interest rate on outstanding marketable obligations of the United States as of the last day of the preceding fiscal year. The Secretary of the Treasury shall permit the retirement of the preferred stock held by him in the manner provided in this section. Funds of the capital surplus and the general surplus accounts of the Association shall be available to retire the preferred stock held by the Secretary of the Treasury as rapidly as the Association shall deem feasible. Concurrently with the retirement of the last of such outstanding shares of preferred stock, the Association

shall pay to the Secretary of the Treasury for covering into miscellaneous receipts an amount equal to that part of the general surplus and reserves of the Association (other than reserves established to provide for any depreciation in value of its assets, including mortgages) which shall be deemed to have been earned through the use of the capital represented by the shares held by him from time to time. The amount of such payment shall be determined by applying to such surplus and reserves that percentage which is equivalent to the proportion borne by the employed capital represented by the Secretary's stock to the total employed capital of the Association, computed monthly for the period from the cutoff date determined pursuant to section 303(d) of this title to the aforesaid retirement of the last of the outstanding shares of preferred stock of the Association.

(b) The Association shall accumulate funds for its capital surplus account from private and other sources by requiring each mortgage seller to make payments of nonrefundable capital contributions, equal to not more than 2 per centum nor less than 1 per centum of the unpaid principal amounts of mortgages purchased or to be purchased by the Association from such seller under section 304, as determined from time to time by the Association, taking into consideration conditions in the mortgage market and the general economy; and by requiring each borrower to make such payments, equal to not more than one-half of 1 per centum of the amount lent by the Association to such borrower under section 304. In addition, the Association may impose charges or fees for its services with the objective that all costs and expenses of its operations should be within its income derived from such operations and that such operations should be fully self-supporting. All earnings from the operations of the Association shall annually be transferred to its general surplus account. At any time, funds of the general surplus account may, in the discretion of the board of directors, be transferred to reserves. All dividends shall be charged against the general surplus account. This subsection (b) shall be subject to the exceptions set forth in section 307 of this title.

(c) The Association shall issue from time to time, to each mortgage seller or borrower, its common stock (only in denominations of \$100 or multiples thereof) evidencing any capital contributions (adjusted by reason of any payments into surplus required by the Association) made by such seller or borrower pursuant to subsection (b) of this section. Such dividends as may be declared by the board of directors in its discretion shall be paid by the Association to the holders of its common stock, but in any one fiscal year the general surplus account of the Association shall not be reduced through the payment of dividends applicable to such common stock which exceed in the aggregate 5 per centum of the par value of the outstanding common stock of the Association: *Provided*, That pending the retirement of all the outstanding preferred stock of the Association such percentage with respect to any one fiscal year shall not exceed the percentage rate of the cumulative dividend applicable to the preferred stock of the Association for that fiscal year.

(d) Within ninety days following the effective date of the Housing Act of 1954, as of the day following a cutoff date to be deter-

mined by the Association, the Association is authorized and directed to issue and deliver to the Secretary of the Treasury, and the Secretary of the Treasury is authorized and directed to accept, preferred stock of the Association having an aggregate par value equal to the sum of (1) the amount of \$21,000,000 (being an amount of the original subscription for capital stock of \$20,000,000 and paid-in surplus of \$1,000,000 of the Association) and (2) an amount equal to the Association's surplus, surplus reserves, and undistributed earnings, computed as of the close of the cutoff date. In addition to the preferred stock provided for in the first sentence of this subsection, the Association is authorized and directed to issue and deliver to the Secretary of the Treasury, and the Secretary of the Treasury is authorized and directed to accept, preferred stock of the Association having an aggregate par value equal to \$115,000,000.

(e) The preferred stock of the Association delivered to the Secretary of the Treasury pursuant to the first sentence of subsection (d) of this section shall be in exchange for (1) the note or notes evidencing the aforesaid original \$21,000,000 (upon which the accrued interest shall have been paid through the cutoff date referred to in subsection (d) of this section), and (2) the release to the Association of any and all rights or claims which the United States might otherwise have or claim in and to the Association's capital, surplus, surplus reserves, and undistributed earnings, computed as of the close of the aforesaid cutoff date. The preferred stock of the Association delivered to the Secretary of the Treasury pursuant to the second sentence of subsection (d) of this section shall be in exchange for a note or notes of the Association, aggregating \$115,000,000 in principal amount (and upon which the accrued interest shall have been paid through the date of delivery), held by the Secretary of the Treasury pursuant to the authority contained in section 304(c).

(f) Notwithstanding any other provision of law, any institution, including a national bank or State member bank of the Federal Reserve System or any member of the Federal Deposit Insurance Corporation, trust company, or other banking organization, organized under any law of the United States, including the laws relating to the District of Columbia, shall be authorized to make payments to the Association of the nonrefundable capital contributions referred to in subsection (b) of this section, to receive stock of the Association evidencing such capital contributions, and to hold or dispose of such stock, subject to the provisions of this title.

(g) As promptly as practicable after all of the preferred stock of the Association held by the Secretary of the Treasury has been retired, the [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* shall transmit to the President for submission to the Congress recommendations for such legislation as may be necessary or desirable to make appropriate provisions to transfer to the owners of the outstanding common stock of the Association the assets and liabilities of the Association in connection with, and the control and management of, the secondary market operations of the Association under section 304 of this title in order that such operations may thereafter be carried out by a privately owned and privately financed corporation.

SECONDARY MARKET OPERATIONS

SEC. 304. (a) (1) To carry out the purposes set forth in paragraph (a) of section 301, the operations of the Association under this section shall be confined, so far as practicable, to mortgages which are deemed by the Association to be of such quality, type, and class as to meet, generally, the purchase standards imposed by private institutional mortgage investors and the Association shall not purchase any mortgage insured or guaranteed prior to the effective date of the Housing Act of 1954. In the interest of assuring sound operation, the prices to be paid by the Association for mortgages purchased in its secondary market operations under this section, should be established, from time to time, within the range of market prices for the particular class of mortgages involved, as determined by the Association. The volume of the Association's purchases and sales, and the establishment of the purchase prices, sale prices, and charges or fees, in its secondary market operations under this section, should be determined by the Association from time to time, and such determinations should be consistent with the objectives that such purchases and sales should be effected only at such prices and on such terms as will reasonably prevent excessive use of the Association's facilities, and that the operations of the Association under this section should be within its income derived from such operations and that such operations should be fully self-supporting. Notwithstanding any other provision of this section, advance commitments to purchase mortgages in secondary market operations under this section shall be issued only at prices which are sufficient to facilitate home financing, but which are sufficiently below the price then offered by the Association for immediate purchase to prevent excessive sales to the Association pursuant to such commitments.

(2) In the further interest of assuring sound operation, any loan made by the Association in its secondary market operations under this section, and any extension or renewal thereof, shall not exceed 90 per centum of the unpaid principal balances of the mortgages securing the loan, and shall bear interest at a rate consistent with general loan policies established from time to time by the Association's board of directors. Any such loan shall mature in not more than twelve months and the term of any extension or renewal shall not exceed twelve months. The volume of the Association's lending activities and the establishment of its loan ratios, interest rates, maturities, and charges or fees, in its secondary market operations under this section, should be determined by the Association from time to time; and such determinations, in conjunction with determinations made under paragraph (1), should be consistent with the objectives that the lending activities should be conducted on such terms as will reasonably prevent excessive use of the Association's facilities, and that the operations of the Association under this section should be within its income derived from such operations and that such operations should be fully self-supporting. Notwithstanding any Federal, State, or other law to the contrary, the Association is hereby empowered, in connection with any loan under this section, whether before or after any default, to provide by contract with the borrower for the settlement or extinguishment, upon default, of any redemption, equitable, legal, or other right, title,

or interest of the borrower in any mortgage or mortgages that constitute the security for the loan; and with respect to any such loan, in the event of default and pursuant otherwise to the terms of the contract, the mortgages that constitute such security shall become the absolute property of the Association.

(b) For the purposes of this section, the Association is authorized to issue, upon the approval of the Secretary of the Treasury, and have outstanding at any one time obligations having such maturities and bearing such rate or rates of interest as may be determined by the Association with the approval of the Secretary of the Treasury, to be redeemable at the option of the Association before maturity in such manner as may be stipulated in such obligations; but the aggregate amount of obligations of the Association under this subsection outstanding at any one time shall not exceed ten times the sum of its capital surplus, general surplus, reserves, and undistributed earnings, and in no event shall any such obligations be issued if, at the time of such proposed issuance, and as a consequence thereof, the resulting aggregate amount of its outstanding obligations under this subsection would exceed the amount of the Association's ownership pursuant to this section, free from any liens or encumbrances, of cash, mortgages or other security holdings, and obligations of the United States or guaranteed thereby, or obligations, participations, or other instruments which are lawful investments for fiduciary, trust, or public funds. The Association shall insert appropriate language in all of its obligations issued under this subsection clearly indicating that such obligations, together with the interest thereon, are not guaranteed by the United States and do not constitute a debt or obligation of the United States or of any agency or instrumentality thereof other than the Association. The Association is authorized to purchase in the open market any of its obligations outstanding under this subsection at any time and at any price.

(c) The Secretary of the Treasury is authorized in his discretion to purchase any obligations issued pursuant to subsection (b) of this section, as now or hereafter in force, and for such purpose the Secretary of the Treasury is authorized to use as a public debt transaction the proceeds of the sale of any securities hereafter issued under the Second Liberty Bond Act, as now or hereafter in force, and the purposes for which securities may be issued under the Second Liberty Bond Act, as now or hereafter in force, are extended to include such purchases. The Secretary of the Treasury shall not at any time purchase any obligations under this subsection if (1) all of the preferred stock of the Association held by the Secretary of the Treasury has been retired, or (2) such purchase would increase the aggregate principal amount of his then outstanding holdings of such obligations under this subsection to an amount greater than \$2,250,000,000. Each purchase of obligations by the Secretary of the Treasury under this subsection shall be upon such terms and conditions as to yield a return at a rate determined by the Secretary of the Treasury, taking into consideration the current average rate on outstanding marketable obligations of the United States as of the last day of the month preceding the making of such purchase. The Secretary of the Treasury may, at any time, sell, upon such terms and conditions and at such

price or prices as he shall determine, any of the obligations acquired by him under this subsection. All redemptions, purchases, and sales by the Secretary of the Treasury of such obligations under this subsection shall be treated as public debt transactions of the United States.

(d) Repealed.

SPECIAL ASSISTANCE FUNCTIONS

SEC. 305. (a) To carry out the purposes set forth in paragraph (b) of section 301, the President, after taking into account (1) the conditions in the building industry and the national economy and (2) conditions affecting the home mortgage investment market, generally, or affecting various types or classifications of home mortgages, or both, and after determining that such action is in the public interest, may under this section authorize the Association, for such period of time and to such extent as he shall prescribe, to exercise its powers to make commitments to purchase and to purchase such types, classes, or categories of home mortgages (including participations therein) as he shall determine.

(b) The operations of the Association under this section shall be confined, so far as practicable, to mortgages (including participations) which are deemed by the Association to be of such quality as to meet, substantially and generally, the purchase standards imposed by private institutional mortgage investors but which, at the time of submission of the mortgages to the Association for purchase, are not necessarily readily acceptable to such investors. Subject to the provisions of this section, the prices to be paid by the Association for mortgages purchased in its operations under this section shall be established from time to time by the Association. The Association shall impose charges or fees for its service; under this section with the objective that all costs and expenses of its operations under this section should be within its income derived from such operations and that such operations should be fully self-supporting.

(c) The total amount of purchases and commitments authorized by the President pursuant to subsection (a) of this section shall not exceed \$1,700,000,000 outstanding at any one time, which limit shall be increased by \$100,000,000 on the date of the enactment of the Housing and Urban Development Act of 1965, by \$550,000,000 on July 1, 1967, and \$525,000,000 on July 1, 1968.

(d) The Association may issue to the Secretary of the Treasury its obligations in an amount outstanding at any one time sufficient to enable the Association to carry out its functions under this section, such obligations to mature not more than five years from their respective dates of issue, to be redeemable at the option of the Association before maturity in such manner as may be stipulated in such obligations. Each such obligation shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the current average rate on outstanding marketable obligations of the United States as of the last day of the month preceding the issuance of the obligation of the Association. The Secretary of the Treasury is authorized to purchase any obligations of the Association to be issued under this section, and for such purpose the Secretary of the Treasury is authorized to use as a public debt transaction the proceeds from the

sale of any securities issued under the Second Liberty Bond Act, as now or hereafter in force, and the purposes for which securities may be issued under the Second Liberty Bond Act, as now or hereafter in force, are extended to include any purchases of the Association's obligations hereunder.

(e) Notwithstanding any other provision of this Act, the Association is authorized to enter into advance commitment contracts and purchase transactions which do not exceed \$200,000,000 outstanding at any one time, if such commitments or transactions relate to mortgages with respect to which the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* shall have issued pursuant to section 213 either a commitment to insure or a statement of eligibility; but such commitments in any one State shall not exceed \$20,000,000 outstanding at any one time: *Provided*, That (1) of the total amount of advance commitment contracts and purchase transactions authorized by this subsection, the amount of \$50,000,000 shall be available solely for commitments or purchases of mortgages where the management or sales-type cooperative involved is certified by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* as a consumer cooperative, and (2) of the commitments in any one State, not more than \$15,000,000 shall be outstanding at any one time for mortgages with respect to cooperative projects which are not of the type described in clause (1) of this proviso. On and after the date of enactment of the Housing Act of 1959, the Association is authorized to enter into advance commitment contracts and purchase transactions (in addition to those authorized by the preceding sentence) relating to mortgages with respect to which the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* shall have issued pursuant to section 213 a commitment to insure or a statement of eligibility, without regard to any of the limitations contained in the preceding sentence; except that the total amount of the additional advance commitment contracts and purchase transactions authorized by this sentence which may be outstanding at any one time shall not exceed \$25,000,000, of which the amount of \$12,500,000 shall be available solely for commitments or purchases of mortgages where the management or sales-type cooperative involved is certified by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* as a consumer cooperative and the amount of \$12,500,000 shall be available solely for commitments or purchases of mortgages where the cooperative involved is a builder-sponsor cooperative. Without regard to any of the limitations of this subsection except the total amount of authorizations available, the Association is authorized to enter into advance commitment contracts and purchase transactions on supplementing [sic] cooperative loans with respect to which the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* shall have issued, pursuant to section 213(j), either a commitment to insure or a statement of eligibility; but such commitments and purchases shall be made solely where there is a management-type cooperative involved which is certified by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* as a consumer cooperative.

(f) Notwithstanding any other provision of this Act, the Association is authorized to make commitments to purchase and to purchase,

service, or sell, any mortgage (or participation therein) which is insured under title VIII of this Act, as amended on or after August 11, 1955: *Provided*, That the total amount of purchases and commitments authorized by this subsection shall not exceed \$500,000,000 outstanding at any one time: *Provided further*, That of the amount authorized in the preceding proviso not less than \$58,750,000 shall be available for such purchases and commitments with respect to mortgages insured under section 809: *Provided further*, That any portion of the total amount of authority set forth in the first proviso of this subsection, which (1) is not required under the second proviso of this subsection to be kept available for purchases and commitments with respect to mortgages insured under section 809, and (2), on the date of enactment of the Housing and Urban Development Act of 1965 and on each July 1 thereafter, would otherwise be available for making new purchases and commitments pursuant to this subsection, shall be transferred to and merged with the authority granted by subsection (a) and added to the amount of such authority which is available, as of the date of the transfer, for purchases and commitments under subsection (c); and the total amount of authority as set forth in the first proviso of this subsection shall progressively be reduced by the amount of each such transfer.

(g) With a view to further carrying out the purposes set forth in section 301(b), and notwithstanding any other provision of this Act, the Association is authorized to make commitments to purchase and to purchase, service, or sell any mortgages which are insured under title II of this Act or guaranteed under the Servicemen's Readjustment Act of 1944, if the original principal obligation thereof does not exceed \$13,500: *Provided*, That the total amount of purchases and commitments authorized by this subsection shall not exceed \$1,000,000,000 outstanding at any one time: *Provided further*, That applicants for such commitments shall be required to certify that construction of the housing to be covered by the mortgages has not commenced: *Provided further*, That the authority of the Association to make purchases and commitments under this subsection shall terminate on the date of enactment of the Housing Act of 1961, and any portion of the total amount of such authority as specified in the first proviso in this subsection which on such date would otherwise be available for making such purchases and commitments shall be transferred to and merged with the authority granted by subsection (a) and added to the amount of such authority as specified in subsection (c).

(h) Notwithstanding clause (2) of section 302(b) and any provision of this Act which is inconsistent with this subsection, the Association is authorized (subject to Presidential action as provided in subsection (a), as limited by subsection (c)) to purchase pursuant to commitments or otherwise, and to service, sell, or otherwise deal in, mortgages insured under the provisions of section 221(d)(3) of this Act.

MANAGEMENT AND LIQUIDATING FUNCTIONS

SEC. 306. (a) To carry out the purposes set forth in paragraph (c) of section 301, the Association is authorized and directed, as of the close of the cutoff date determined by the Association pursuant to section 303(d) of this title, to establish separate accountability for all

of its assets and liabilities (exclusive of capital, surplus, surplus reserves, and undistributed earnings to be evidenced by preferred stock as provided in section 303(d) hereof, but inclusive of all rights and obligations under any outstanding contracts), and to maintain such separate accountability for the management and orderly liquidation of such assets and liabilities as provided in this section.

(b) For the purposes of this section and to assure that, to the maximum extent, and as rapidly as possible, private financing will be substituted for Treasury borrowings otherwise required to carry mortgages held under the aforesaid separate accountability, the Association is authorized to issue, upon the approval of the Secretary of the Treasury, and have outstanding at any one time obligations having such maturities and bearing such rate or rates of interest as may be determined by the Association with the approval of the Secretary of the Treasury, to be redeemable at the option of the Association before maturity in such manner as may be stipulated in such obligations; but in no event shall any such obligations be issued if, at the time of such proposed issuance, and as a consequence thereof, the resulting aggregate amount of its outstanding obligations under this subsection would exceed the amount of the Association's ownership under the aforesaid separate accountability, free from any liens or encumbrances, of cash, mortgages, and obligations of the United States or guaranteed thereby, or obligations, participations, or other instruments which are lawful investments for fiduciary, trust, or public funds. The proceeds of any private financing effected under this subsection shall be paid to the Secretary of the Treasury in reduction of the indebtedness of the Association to the Secretary of the Treasury under the aforesaid separate accountability. The Association shall insert appropriate language in all of its obligations issued under this subsection clearly indicating that such obligations, together with the interest thereon, are not guaranteed by the United States and do not constitute a debt or obligation of the United States or of any agency or instrumentality thereof other than the Association. The Association is authorized to purchase in the open market any of its obligations outstanding under this subsection at any time and at any price.

(c) No mortgage shall be purchased by the Association in its operations under this section except pursuant to and in accordance with the terms of a contract or commitment to purchase the same made prior to the cutoff date provided for in section 303(d), which contract or commitment became a part of the aforesaid separate accountability, and the total amount of mortgages and commitments held by the Association under this section shall not, in any event, exceed \$3,350,000,000: *Provided*, That such maximum amount shall be progressively reduced by the amount of cash realizations on account of principal of mortgages held under the aforesaid separate accountability and by cancellation of any commitments to purchase mortgages thereunder, as reflected by the books of the Association, with the objective that the entire aforesaid maximum amount shall be eliminated with the orderly liquidation of all mortgages held under the aforesaid separate accountability: *And provided further*, That nothing in this subsection shall preclude the Association from granting such usual and customary in-

creases in the amounts of outstanding commitments (resulting from increased costs or otherwise) as have theretofore been covered by like increases in commitments granted by the agencies of the Federal Government insuring or guaranteeing the mortgages. There shall be excluded from the total amounts set forth in this subsection the amounts of any mortgages which, subsequent to May 31, 1954, are transferred by law to the Association and held under the aforesaid separate accountability.

(d) The Association may issue to the Secretary of the Treasury its obligations in an amount outstanding at any one time sufficient to enable the Association to carry out its functions under this section, such obligations to mature not more than five years from their respective dates of issue, to be redeemable at the option of the Association before maturity in such manner as may be stipulated in such obligations. Each such obligation shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the current average rate on outstanding marketable obligations of the United States as of the last day of the month preceding the issuance of the obligation of the Association. The Secretary of the Treasury is authorized to purchase any obligations of the Association to be issued under this section, and for such purpose the Secretary of the Treasury is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as now or hereafter in force, and the purposes for which securities may be issued under the Second Liberty Bond Act, as now or hereafter in force, are extended to include any purchases of the Association's obligations hereunder.

(e) Notwithstanding any other provision of law, the Association is authorized, under the aforesaid separate accountability, to make commitments to purchase, and to purchase, service, or sell any obligations offered to it by the [Housing and Home Finance Agency or its Administrator, or by such Agency's constituent units or agencies or the heads thereof] *Secretary of Housing and Urban Development* or any mortgages covering residential property offered to it by any Federal instrumentality, or the head thereof. There shall be excluded from the total amounts set forth in subsection (c) the amounts of any obligations or mortgages purchased by the Association pursuant to this subsection.

(f) Notwithstanding any of the provisions of this Act or of any other law, an amount equal to the net decrease for the preceding fiscal year in the aggregate principal amount of all mortgages owned by the Association under this section shall, as of July 1 of each of the years 1961 through 1964, be transferred to and merged with the authority provided under section 305(a), and the amount of such authority as specified in section 305(c) shall be increased by any amounts so transferred.

SEPARATE ACCOUNTABILITY

SEC. 307. (a) The Association shall establish and at all times maintain separate accountability for (1) its secondary market operations authorized by section 304 hereof, (2) its special assistance functions authorized by section 305 hereof, and (3) its management and liquidating functions authorized by section 306 hereof.

(b) With respect to the functions or operations of the Association under sections 305 and 306, respectively, of this title, (1) there shall be no recourse to the capitalization of the Association provided for by section 303 of this title, and (2) mortgage sellers shall not be required to make payment to the Association of the capital contributions provided for by section 303(b) of this title.

(c) All of the benefits and burdens incident to the administration of the functions and operations of the Association under sections 305 and 306, respectively, of this title, after allowance for related obligations of the Association, its prorated expenses, and the like, including amounts required for the establishment of such reserves as the board of directors of the Association shall deem appropriate, shall inure solely to the Secretary of the Treasury, and such related earnings or other amounts as become available shall be paid annually by the Association to the Secretary of the Treasury for covering into miscellaneous receipts.

BOARD OF DIRECTORS

SEC. 308. (a) The Association shall have a Board of Directors consisting of five persons, one of whom shall be the [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* as Chairman of the Board, and four of whom shall be appointed by [said Administrator] *the Secretary* from among the officers or employees of the Association, of the immediate office of [said Administrator] *the Secretary*, or (with the consent of the head of such department or agency) of any other department or agency of the Federal Government. The board of directors shall meet at the call of its chairman, who shall require it to meet not less often than once each month. Within the limitations of law, the board shall determine the general policies which shall govern the operations of the Association. The chairman of the board shall select and effect the appointment of qualified persons to fill the offices of president and vice president, and such other offices as may be provided for in the bylaws, with such executive functions, powers, and duties as may be prescribed by the bylaws or by the board of directors, and such persons shall be the executive officers of the Association and shall discharge all such executive functions, powers, and duties. The members of the board, as such, shall not receive compensation for their services.

GENERAL POWERS

SEC. 309. (a) The Association shall have power to adopt, alter, and use a corporate seal, which shall be judicially noticed; by its board of directors, to adopt, amend, and repeal bylaws governing the performance of the powers and duties granted to or imposed upon it by law; to enter into and perform contracts, leases, cooperative agreements, or other transactions, on such terms as it may deem appropriate, with any agency or instrumentality of the United States, or with any State, Territory, or possession, or the Commonwealth of Puerto Rico, or with any political subdivision thereof, or with any person, firm, association, or corporation; to execute, in accordance with its bylaws, all instruments necessary or appropriate in the exercise of any of its powers; in its corporate name, to sue and to be sued, and to complain and to defend, in any court of competent jurisdiction, State

or Federal, but no attachment, injunction, or other similar process, mesne or final, shall be issued against the property of the Association or against the Association with respect to its property; to conduct its business in any State of the United States, including the District of Columbia, the Commonwealth of Puerto Rico, and the Territories and possessions of the United States; to lease, purchase, or acquire any property, real, personal, or mixed, or any interest therein, to hold, rent, maintain, modernize, renovate, improve, use, and operate such property, and to sell, for cash or credit, lease, or otherwise dispose of the same, at such time and in such manner as and to the extent that the Association may deem necessary or appropriate; to prescribe, repeal, and amend or modify, rules, regulations, or requirements governing the manner in which its general business may be conducted; to accept gifts or donations of services, or of property, real, personal, or mixed, tangible, or intangible, in aid of any of the purposes of the Association; and to do all things as are necessary or incidental to the proper management of its affairs and the proper conduct of its business.

(b) Except as may be otherwise provided in this title, in the Government Corporation Control Act, or in other laws specifically applicable to Government corporations, the Association shall determine the necessity for and the character and amount of its obligations and expenditures and the manner in which they shall be incurred, allowed, paid, and accounted for.

(c) The Association, including its franchise, capital, reserves, surplus, mortgages or other security holdings, and income shall be exempt from all taxation now or hereafter imposed by the United States, by any territory, dependency, or possession thereof, or by any State, county, municipality, or local taxing authority, except that (1) any real property of the Association shall be subject to State, territorial, county, municipal, or local taxation to the same extent according to its value as other real property is taxed, and (2) the Association shall, with respect to its secondary market operations under section 304 after the cutoff date referred to in section 303(d) of this title, pay annually to the Secretary of the Treasury, for covering into miscellaneous receipts, an amount equivalent to the amount of Federal income taxes for which it would be subject if it were not exempt from such taxes with respect to such secondary market operations.

(d) The Chairman of the Board shall have power to select and appoint or employ such officers, attorneys, employees, and agents, to vest them with such powers and duties, and to fix and to cause the Association to pay such compensation to them for their services, as he may determine, subject to the civil service and classification laws. Bonds may be required for the faithful performance of their duties, and the Association may pay the premiums therefor. With the consent of any Government corporation or Federal Reserve bank, or of any board, commission, independent establishment, or executive department of the Government, the Association may avail itself on a reimbursable basis of the use of information, services, facilities, officers, and employees thereof, including any field service thereof, in carrying out the provisions of this title.

(e) No individual, association, partnership, or corporation, except the body corporate created by section 302 of this title, shall hereafter use the words "Federal National Mortgage Association" or any combination of such words, as the name or a part thereof under which he

or it shall do business. Every individual, partnership, association, or corporation violating this prohibition shall be guilty of a misdemeanor and shall be punished by a fine of not exceeding \$100 or imprisonment not exceeding thirty days, or both, for each day during which such violation is committed or repeated.

(f) In order that the Association may be supplied with such forms of obligations or certificates as it may need for issuance under this title, the Secretary of the Treasury is authorized, upon request of the Association, to prepare such forms as shall be suitable and approved by the Association, to be held in the Treasury subject to delivery, upon order of the Association. The engraved plates, dies, bed pieces, and other material executed in connection therewith shall remain in the custody of the Secretary of the Treasury. The Association shall reimburse the Secretary of the Treasury for any expenses incurred in the preparation, custody, and delivery of such forms.

(g) The Federal Reserve banks are authorized and directed to act as depositaries, custodians, and fiscal agents for the Association in the general performance of its powers, and the Association shall reimburse such Federal Reserve banks for such services in such manner as may be agreed upon.

INVESTMENT OF FUNDS

SEC. 310. Moneys of the Association not in vested in mortgages or other security holdings or in operating facilities shall be kept in cash on hand or on deposit, or invested in obligations of the United States or guaranteed thereby, or in obligations, participations, or other instruments which are lawful investments for fiduciary, trust, or public funds.

OBLIGATIONS OF ASSOCIATION LEGAL INVESTMENTS

SEC. 311. All obligations, participations, or other instruments issued by the Association shall be lawful investments, and may be accepted as security for all fiduciary, trust, and public funds, the investment or deposit of which shall be under the authority and control of the United States or any officer or officers thereof.

SHORT TITLE

SEC. 312. This title III may be referred to as the "Federal National Mortgage Association Charter Act".

PENALTIES

SEC. 512. Notwithstanding any other provision of law, the [Commissioner] *Secretary* is authorized to refuse the benefits of participation (either directly as an insured lender or as a borrower, or indirectly as a builder, contractor, or dealer, or salesman or sales agent for a builder, contractor or dealer) under title I, II, VI, VII, VIII, or IX of this Act to any person or firm (including but not limited to any individual, partnership, association, trust, or corporation) if the [Commissioner] *Secretary* has determined that such person or firm (1) has knowingly or willfully violated any provision of this Act or of title III of the Servicemen's Readjustment Act of 1944, as amended, or of chapter 37 of title 38, United States Code, or of any regulation issued by the [Commissioner] *Secretary* under this Act or by the Administrator of Veterans' Affairs under said title III, or chapter 37, or (2) has, in connection with any construction, alteration, repair or improvement work financed with assistance under this Act or under said title III, or chapter 37, or in connection with contracts or financing relating to such work, violated any Federal or State penal statute, or (3) has failed materially to properly carry out contractual obligations with respect to the completion of construction, alteration, repair, or improvement work financed with assistance under this Act or under title III of the Servicemen's Readjustment Act of 1944, as amended, or of chapter 37 of title 38, United States Code. Before any such determination is made any person or firm with respect to whom such a determination is proposed shall be notified in writing by the [Commissioner] *Secretary* and shall be entitled, upon making a written request to the [Commissioner] *Secretary* to a written notice specifying charges in reasonable detail and an opportunity to be heard and to be represented by counsel. Determinations made by the [Commissioner] *Secretary* under this section shall be based on the preponderance of the evidence. For the purposes of compliance with this section the [Commissioner's] *Secretary's* notice of a proposed determination under this section shall be considered to have been received by the interested person or firm if the notice is properly mailed to the last known address of such person or firm.

SEC. 513. (a) The Congress hereby declares that it has been its intent since the enactment of the National Housing Act that housing built with the aid of mortgages insured under that Act is to be used principally for residential use; and that this intent excludes the use of such housing for transient or hotel purposes while such insurance on the mortgage remains outstanding.

(b) Notwithstanding any other provisions of this Act, no new, existing, or rehabilitated multifamily housing with respect to which a mortgage is insured under this Act shall be operated for transient or hotel purposes unless (1) on or before May 28, 1954, the [Commissioner] *Secretary* has agreed in writing to the rental of all or a portion of the accommodations in the project for transient or hotel purposes (in which case no accommodations in excess of the number so agreed to by the [Commissioner] *Secretary* shall be rented on such basis), or (2) the project covered by the insured mortgage is located in an area which the [Commissioner] *Secretary* determines to be a resort area, and the [Commissioner] *Secretary* finds that prior to May 28, 1954, a portion

of the accommodations in the project had been made available for rent for transient or hotel purposes (in which case no accommodations in excess of the number of which had been made available for such use shall be rented on such basis).

(c) Notwithstanding any other provisions of this Act, no mortgage with respect to multifamily housing shall be insured under this Act (except pursuant to a commitment to insure issued prior to the effective date of the Housing Act of 1954), and (except as to housing coming within the provisions of clause (1) or clause (2) of the preceding subsection) no mortgage with respect to multifamily housing shall be insured for an additional term, unless (1) the mortgagor certifies under oath that while such insurance remains outstanding he will not rent, or permit the rental of, such housing or any part thereof for transient or hotel purposes, and (2) the **[Commissioner]** *Secretary* has entered into such contract with, or purchased such stock of, the mortgagor as the **[Commissioner]** *Secretary* deems necessary to enable him to prevent or terminate any use of such property or project for transient or hotel purposes while the mortgage insurance remains outstanding.

(d) The Commissioner is hereby authorized and directed to enforce the provisions of this section by all appropriate means at his disposal,

(d) The **[Commissioner]** *Secretary* is hereby authorized and directed to enforce the provisions of this section by all appropriate means at his disposal, as to all existing multifamily housing with respect to which a mortgage was insured under this Act prior to the effective date of the Housing Act of 1954 as well as to all multifamily housing with respect to which a mortgage is hereafter insured under this Act: *Provided*, That no criminal penalty shall, by reason of enactment of this section, be applicable to the rental or operation of any such existing multifamily housing in violation of any provision of subsection (b) of this section at any time prior to the effective date of the Housing Act of 1954.

(e) As used in this section, (1) the term "rental for transient or hotel purposes" shall have such meaning as prescribed by the **[Commissioner]** *Secretary* but rental for any period less than thirty days shall in any event constitute rental for such purposes, and (2) the term "multifamily housing" shall mean (i) a property held by a mortgagor upon which there are located five or more single family dwellings, or upon which there is located a two-, three-, or four-family dwelling, or (ii) a property or project covered by mortgage insured or to be insured under section 207, under section 213 with respect to any property or project of a corporation or trust of the character described in paragraph numbered (1) of subsection (a) thereof, under section 220 if the mortgage is within the provisions of paragraph (3) (B) of subsection (d) thereof, under section 221 if the mortgage is within the provisions of paragraph (3) of subsection (d) thereof, under section 608, under section 803, or under section 908, or (iii) a project with respect to which an insurance contract pursuant to title VII is outstanding.

(f) Promptly after receipt of written notice that any portion of any building is being rented or operated in violation of any provision of this section or of any rule or regulation lawfully issued thereunder, the **[Commissioner]** *Secretary* shall investigate the existence of the facts

alleged in the written notice and shall order such violation, if found to exist, to cease forthwith.

(g) If such violation does not cease in accordance with such order, the **【Commissioner】** *Secretary* shall forward the complaint to the Attorney General of the United States for prosecution of such civil or criminal action, if any, which the Attorney General may find to be involved in such violation.

(h) Whenever he finds a violation of any provision of this section has occurred or is about to occur, the Attorney General shall petition the district court of the United States or the district court of any Territory or other place subject to United States jurisdiction within whose jurisdictional limits the person doing or committing the acts or practices constituting the alleged violation of this section shall be found, for an order enjoining such acts or practices, and upon a showing by the Attorney General that such acts or practices constituting such violation have been engaged in or are about to be engaged in, a permanent or temporary injunction, restraining order, or other order, with or without such injunction or restraining order, shall be granted without bond.

(i) Any person owning or operating a hotel within a radius of fifty miles of a place where a violation of any provision of this section has occurred or is about to occur, or any group or association of hotel owners or operators within said fifty-mile radius, at his or their sole charge or cost, may petition any district court of the United States or the district court of any Territory or other place subject to United States jurisdiction within whose jurisdictional limits the person doing or committing the acts or practices constituting the alleged violation of this section shall be found, for an order enjoining such acts or practices, and, upon a showing that such acts or practices constituting such violation have been engaged in or are about to be engaged in, a permanent or temporary injunction, restraining order, or other order, with or without such injunction or restraining order, shall be granted.

(j) The several district courts of the United States and the several district courts of the Territories of the United States or other place subject to United States jurisdiction, within whose jurisdictional limits the person doing or committing the acts or practices constituting the alleged violation shall be found, shall, wheresoever such acts or practices may have been done or committed, have full power and jurisdiction to hear, try, and determine such matter under subsection (h) and (i) of this section.

SEPARABILITY PROVISION

SEC. 513. If any provision of this Act, or the application thereof to any person or circumstances, is held invalid, the remainder of the Act, and the application of such provision to other persons or circumstances, shall not be affected thereby.

APPLICABILITY OF OTHER ACTS

SEC. 514. The provisions of section 10 (a) 1 and 10b of the Federal Home Loan Bank Act, as amended (49 Stat. 294, 295); paragraph seventh of section 5136 of the Revised Statutes, as amended (49 Stat.

709); section 24 of the Federal Reserve Act, as amended (49 Stat. 706); subsection (n) of section 77B of the Bankruptcy Act, as amended (49 Stat. 664); section 5(c) of the Act approved January 31, 1935, continuing and extending the functions of the Reconstruction Finance Corporation (49 Stat. 1); and all other provisions of law establishing rights under mortgages insured in accordance with the provisions of the National Housing Act, shall be held to apply to such Act, as amended.

SEC. 515. At any time prior to final endorsement for insurance, the **[Commissioner]** *Secretary*, in his discretion, may amend, extend, or increase the amount of any commitment, provided the mortgage, as finally endorsed for insurance is eligible for insurance under the provisions of this Act, and the rules and regulations thereunder, in effect at the time the original commitment to insure was issued.

SEC. 516. The following funds shall be deemed an indebtedness to the United States of the particular insurance fund involved, and the **[Commissioner]** *Secretary* is authorized and directed to pay the amount of such indebtedness to the Secretary of the Treasury, with simple interest thereon from the date the funds were advanced to the date of final payment at a rate determined by the Secretary of the Treasury, taking into consideration the average rate on outstanding marketable obligations of the United States from the date the funds were advanced until the date of final payment—

(1) funds made available to the **[Commissioner]** *Secretary* pursuant to the provisions of sections 4 and 202, exclusive of amounts heretofore refunded, (a) for carrying out title II with respect to mortgages insured under section 203 where such funds were credited to the general reinsurance account in the Mutual Mortgage Insurance Fund, and (b) for the payment of salaries and expenses with respect to mortgage insurance under sections 207 and 210 where such funds were credited to the Housing Insurance Fund;

(2) funds made available to the **[Commissioner]** *Secretary* pursuant to sections 602 and 802; and

(3) funds available to the **[Commissioner]** *Secretary* by the Secretary of the Treasury pursuant to section 710.

Payments to the Secretary of the Treasury under this section shall be made in such amounts and at such times as the **[Commissioner]** *Secretary* determines, after consultations with the Secretary of the Treasury, that funds are available for that purpose, taking into consideration the continued solvency of the funds involved. All payments made pursuant to this section shall be covered into the Treasury as miscellaneous receipts.

PREPAYMENT OF MORTGAGES BY NONPROFIT EDUCATIONAL INSTITUTIONS

SEC. 517. (a) Notwithstanding any other provision of this Act, no adjusted premium charge shall be collected in connection with the payment in full, prior to maturity, of any mortgage insured under this Act, if the mortgagor certifies to the **[Commissioner]** *Secretary* that the loan was paid in full by or on behalf of a nonprofit educational institution which intends to use the property for educational purposes.

(b) The **【Commissioner】** *Secretary* shall refund any adjusted premium charge collected subsequent to July 1, 1962, and prior to the date of the enactment of the Housing Act of 1964, in connection with the payment in full, prior to maturity, of any mortgage insured under this Act, if the mortgagor under such mortgage makes the certification prescribed by subsection (a).

EXPENDITURES TO CORRECT OR COMPENSATE FOR SUBSTANTIAL DEFECTS IN MORTGAGED HOMES

SEC. 518. (a) The **【Commissioner】** *Secretary* is authorized, with respect to any property improved by a one- to four-family dwelling approved for mortgage insurance prior to the beginning of construction which he finds to have structural defects, to make expenditures for (1) correcting such defects, (2) paying the claims of the owner of the property arising from such defects, or (3) acquiring title to the property: *Provided*, That such authority of the **【Commissioner】** *Secretary* shall exist only (A) if the owner has requested assistance from the **【Commissioner】** *Secretary* not later than four years (or such shorter time as the **【Commissioner】** *Secretary* may prescribe) after insurance of the mortgage, and (B) if the property is encumbered by a mortgage which is insured under this Act after the date of enactment of the Housing Act of 1964.

(b) The **【Commissioner】** *Secretary* shall by regulations prescribe the terms and conditions under which expenditures and payments may be made under the provisions of this section, and his decisions regarding such expenditures or payments, and the terms and conditions under which the same are approved or disapproved, shall be final and conclusive and shall not be subject to judicial review.

ESTABLISHMENT OF GENERAL INSURANCE FUND

SEC. 519. (a) There is hereby created a General Insurance Fund which shall be used by the **【Commissioner】** *Secretary*, on and after the date of the enactment of the Housing and Urban Development Act of 1965, as a revolving fund for carrying out all the insurance provisions of this Act with the exception of those specified in subsection (e). All mortgages or loans insured under this Act pursuant to commitments issued on or after the date of the enactment of the Housing and Urban Development Act of 1965, except those specified in subsection (e), and all loans reported for insurance under section 2 on or after the date of the enactment of the Housing and Urban Development Act of 1965, shall be insured under the General Insurance Fund. The **【Commissioner】** *Secretary* shall transfer to the General Insurance Fund—

(1) the assets and liabilities of all insurance accounts and funds, except the Mutual Mortgage Insurance Fund, existing under this Act immediately prior to the enactment of the Housing and Urban Development Act of 1965;

(2) all outstanding commitments for insurance issued prior to the date of the enactment of the Housing and Urban Development Act of 1965, except those specified in subsection (e);

(3) the insurance on all mortgages and loans insured prior to the date of the enactment of the Housing and Urban Develop-

ment Act of 1965, except insurance specified in subsection (e); and

(4) the insurance of all loans made by approved financial institutions pursuant to section 2 prior to the date of the enactment of the Housing and Urban Development Act of 1965.

(b) The general expenses of the operations of the **[Federal Housing Administration]** *Department of Housing and Urban Development* relating to mortgages and loans which are the obligation of the General Insurance Fund may be charged to the General Insurance Fund.

(c) Moneys in the General Insurance Fund not needed for the current operations of the **[Federal Housing Administration]** *Department of Housing and Urban Development* with respect to mortgages and loans which are the obligation of the General Insurance Fund shall be deposited with the Treasurer of the United States to the credit of such Fund, or invested in bonds or other obligations of, or in bonds or other obligations guaranteed as to principal and interest by, the United States. The **[Commissioner]** *Secretary* may, with the approval of the Secretary of the Treasury, purchase in the open market debentures issued as obligations of the General Insurance Fund or issued prior to the enactment of the Housing and Urban Development Act of 1965 under other provisions of this Act, except debentures issued under the Mutual Mortgage Insurance Fund. Such purchases shall be made at a price which will provide an investment yield of not less than the yield obtainable from other investments authorized by this section. Debentures so purchased shall be canceled and not reissued.

(d) Premium charges, adjusted premium charges, and appraisal and other fees received on account of the insurance of any mortgage or loan which is the obligation of the General Insurance Fund, the receipts derived from the property covered by such mortgages and loans and from the claims, debts, contracts, property, and security assigned to the **[Commissioner]** *Secretary* in connection therewith, and all earnings on the assets of the Fund shall be credited to the General Insurance Fund. The principal of, and interest paid and to be paid on, debentures which are the obligation of such Fund, cash insurance payments and adjustments, and expenses incurred in the handling, management, renovation, and disposal of properties acquired, in connection with mortgages and loans which are the obligation of such Fund, shall be charged to such Fund.

(e) The General Insurance Fund shall not be used for carrying out the provisions of sections 203(b), 203(h), and 203(i), or the provisions of section 213 to the extent that they involve mortgages the insurance for which is the obligation of the Cooperative Management Housing Insurance Fund created by section 213(k); and nothing in this section shall apply to or affect any mortgages, loans, commitments, or insurance under such provisions.

OPTIONAL CASH PAYMENT OF INSURANCE BENEFITS

SEC. 520. (a) Notwithstanding any other provisions of this Act with respect to the payment of insurance benefits, the **[Commissioner]** *Secretary* is authorized, in his discretion, to pay in cash or in debentures any insurance claim or part thereof which is paid on or after the date of

the enactment of the Housing and Urban Development Act of 1965 on a mortgage or a loan which was insured under any section of this Act either before or after such date. If payment is made in cash, it shall be in an amount equivalent to the face amount of the debentures that would otherwise be issued plus an amount equivalent to the interest which the debentures would have earned, computed to a date to be established pursuant to regulations issued by the [Commissioner] *Secretary*.

(b) The [Commissioner] *Secretary* is authorized to borrow from the Treasury from time to time such amounts as the [Commissioner] *Secretary* shall determine are necessary to make payments in cash (in lieu of issuing debentures guaranteed by the United States, as provided in this Act) pursuant to the provisions of this section. Notes or other obligations issued by the [Commissioner] *Secretary* in borrowing under this subsection shall be subject to such terms and conditions as the Secretary of the Treasury may prescribe. Each sum borrowed pursuant to this subsection shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the average market yield on outstanding marketable obligations of the United States of comparable maturities during the month preceding the issuance of such notes or other obligations.

APPROVAL OF TECHNICALLY SUITABLE MATERIALS

SEC. 521. The [Commissioner] *Secretary* shall adopt a uniform procedure for the acceptance of materials and products to be used in structures approved for mortgages or loans insured under this Act. Under such procedure any material or product which the [Commissioner] *Secretary* finds is technically suitable for the use proposed shall be accepted. Acceptance of a material or product as technically suitable shall not be deemed to restrict the discretion of the [Commissioner] *Secretary* to determine that a structure, with respect to which a mortgage is executed, is economically sound or an acceptable risk.

WATER AND SEWER FACILITIES

SEC. 522. Notwithstanding any other provision of this Act, no mortgage which covers new construction shall be approved for insurance under this Act (except pursuant to a commitment made prior to the date of the enactment of the Housing and Urban Development Act of 1965) if the mortgaged property includes housing which is not served by a public or adequate community water and sewerage system: *Provided*, That this limitation shall be applicable only to property which is not served by a system approved by the [Commissioner] *Secretary* pursuant to title X of this Act and which is situated in an area certified by appropriate local officials to be an area where the establishment of public or adequate community water and sewerage systems is economically feasible: *Provided further*, That for purposes of this section the economic feasibility of establishing such public or adequate community water and sewerage systems shall be determined without regard to whether such establishment is authorized by law or is subject to approval by one or more local governments or public bodies.

TITLE VI—WAR HOUSING INSURANCE

SEC. 601. As used in this title—

(a) The term “mortgage” means a first mortgage on real estate, in fee simple, or on a leasehold (1) under a lease for not less than ninety-nine years which is renewable; or (2) under a lease having a period of not less than fifty years to run from the date the mortgage was executed; and the term “first mortgage” means such classes of first liens as are commonly given to secure advances on, or the unpaid purchase price of, real estate, under the laws of the State in which the real estate is located, together with the credit instruments, if any, secured thereby.

(b) The term “mortgagee” includes the original lender under a mortgage, and his successors and assigns approved by the [Commissioner] *Secretary*; and the term “mortgagor” includes the original borrower under a mortgage and his successors and assigns.

(c) The term “maturity date” means the date on which the mortgage indebtedness would be extinguished if paid in accordance with periodic payments provided for in the mortgage.

(d) The term “State” includes the several States, and Puerto Rico, the District of Columbia, Guam, and the Virgin Islands.

SEC. 602.

SEC. 603. (a) In order to assist in relieving the acute shortage of housing which now exists and to increase the supply of housing accommodations available to veterans of World War II at prices within their reasonable ability to pay, the [Commissioner] *Secretary* is authorized, upon application by the mortgagee, to insure as hereinafter provided any mortgage which is eligible for insurance as hereinafter provided, and, upon such terms as the [Commissioner] *Secretary* may prescribe, to make commitments for the insuring of such mortgages prior to the date of their execution or disbursement thereon: *Provided*, That the aggregate amount of principal obligations of all mortgages insured under this title shall not exceed \$6,150,000,000 except that with the approval of the President such aggregate amount may be increased to not to exceed \$6,650,000,000: *Provided further*, That no mortgage shall be insured under section 603 of this title after April 30, 1948, except (A) pursuant to a commitment to insure issued on or before April 30, 1948, or (B) a mortgage given to refinance an existing mortgage insured under section 603 of this title and which does not exceed the original principal amount and unexpired term of such existing mortgage, and no mortgage shall be insured under section 608 of this title after March 1, 1950, except (i) pursuant to a commitment to insure issued on or before March 1, 1950, or (ii) a mortgage given to refinance an existing mortgage insured under section 608 of this title and which does not exceed the original principal amount and unexpired term of such existing mortgage: *Provided further*, That no mortgage shall be insured under section 608 of this title unless the mortgagor certifies under oath that in selecting tenants for the property covered by the mortgage he will not discriminate against any family by reason of the fact that there are children in the family, and that he will not sell the property while the insurance is in effect unless the purchaser so certifies, such certifications to be filed with the [Commissioner] *Secretary*; and violation of any such certification shall be a misdemeanor punishable by a fine of

not to exceed \$500: *And provided further*, That the **[Commissioner]** *Secretary* shall, in his discretion, have power to require the availability for rental purposes of properties covered by mortgages insured under this title, in such instances and for such periods of time as he may prescribe.

Notwithstanding the first proviso of this subsection, mortgages may be insured under section 609 and section 611 of this title if the aggregate amounts of principal obligations of mortgages insured under said sections plus the aggregate amount of principal obligations of mortgages insured under section 610 of this title do not exceed the limitation contained in said section 610 upon the aggregate amount of principal obligations of mortgages insured pursuant to said section.

Notwithstanding the second proviso of this subsection, mortgages otherwise eligible for insurance under section 608 of this title may be hereafter insured thereunder if the application for such insurance was received **[in any field office of]** *by* the **[Federal Housing Administration]** *Department of Housing and Urban Development* on or before March 1, 1950, and for such purpose the aggregate amount of principal obligations authorized to be insured under section 608 of this title is increased by not to exceed \$500,000,000.

(b) To be eligible for insurance under this section a mortgage shall—

(1) have been made to, and be held by, a mortgagee approved by the **[Commissioner]** *Secretary* as responsible and able to service the mortgage properly;

(2) involve a principal obligation (including such initial service charges, appraisal, inspection, and other fees as the **[Commissioner]** *Secretary* shall approve) in an amount not to exceed 90 per centum of the **[Commissioner's]** *Secretary's* estimate of the value (as of the date the mortgage is accepted for insurance), except that as to applications received by the **[Commissioner]** *Secretary* on or before March 31, 1948, the mortgage may involve a principal obligation in an amount not to exceed 90 per centum of the **[Commissioner's]** *Secretary's* estimate of the necessary current cost (including the land and such initial service charges and such appraisal, inspection, and other fees as the **[Commissioner]** *Secretary* shall approve); of a property, urban, suburban, or rural, upon which there is located a dwelling designed principally for residential use for not more than four families in the aggregate, which is approved for mortgage insurance prior to the beginning of construction. The principal obligation of such mortgage shall in no event, however, exceed—

(A) \$5,400 if such dwelling is designed for a single-family residence, or

(B) \$7,500 if such dwelling is designed for a two-family residence, or

(C) \$9,500 if such dwelling is designed for a three-family residence, or

(D) \$12,000 if such dwelling is designed for a four-family residence: *Provided*, That the **[Commissioner]** *Secretary* may, if he finds that at any time or in any particular geographical area it is not feasible, within such limitations of maximum mortgage amounts to construct dwellings without

sacrifice of sound standards of construction, design, or livability, prescribe by regulation or otherwise higher maximum mortgage amounts not to exceed—

(A) \$8,100 if such dwelling is designed for a single-family residence, or

(B) \$12,500 if such dwelling is designed for a two-family residence, or

(C) \$15,750 if such dwelling is designed for a three-family residence, or

(D) \$18,000 if such dwelling is designed for a four-family residence.

(3) have a maturity satisfactory to the **[Commissioner]** *Secretary* but not to exceed twenty-five years from the date of the insurance of the mortgage;

(4) contain complete amortization provisions satisfactory to the **[Commissioner]** *Secretary*;

(5) bear interest (exclusive of premium charges for insurance) at not to exceed 4 per centum per annum on the amount of the principal obligation outstanding at any time.

(6) provide, in a manner satisfactory to the **[Commissioner]** *Secretary*, for the application of the mortgagor's periodic payments (exclusive of the amount allocated to interest and to the premium charge which is required for mortgage insurance as herein provided) to amortization of the principal of the mortgage; and

(7) contain such terms and provisions with respect to insurance, repairs, alterations, payment of taxes, default reserves, delinquency charges, foreclosure proceedings, anticipation of maturity, additional and secondary liens, and other matters as the **[Commissioner]** *Secretary* may in his discretion prescribe.

(c) The **[Commissioner]** *Secretary* is authorized to fix a premium charge for the insurance of mortgages under this title but in the case of any mortgage such charge shall not be less than an amount equivalent to one-half of 1 per centum per annum nor more than an amount equivalent to 1½ per centum per annum of the amount of the principal obligation of the mortgage outstanding at any time, without taking into account delinquent payment or prepayments. Such premium charges shall be payable by the mortgagee, either in cash, or in debentures issued by the **[Commissioner]** *Secretary* under this title at par plus accrued interest, in such manner as may be prescribed by the **[Commissioner]** *Secretary*: *Provided*, That the **[Commissioner]** *Secretary* may require the payment of one or more such premium charges at the time the mortgage is insured, at such discount rate as he may prescribe not in excess of the interest rate specified in the mortgage. If the **[Commissioner]** *Secretary* finds, upon the presentation of a mortgage for insurance and the tender of the initial premium charge and such other charges as the **[Commissioner]** *Secretary* may require, that the mortgage complies with the provisions of this title, such mortgage may be accepted for insurance by endorsement or otherwise as the **[Commissioner]** *Secretary* may prescribe; but no mortgage shall be accepted for insurance under this title unless the **[Commissioner]** *Secretary* finds that the project with respect

to which the mortgage is executed is an acceptable risk in view of the shortage of housing referred to in this section. In the event that the principal obligation of any mortgage accepted for insurance under this title is paid in full prior to the maturity date, the **[Commissioner]** *Secretary* is further authorized in his discretion to require the payment by the mortgagee of an adjusted premium charge in such amount as the **[Commissioner]** *Secretary* determines to be equitable, but not in excess of the aggregate amount of the premium charges that the mortgagee would otherwise have been required to pay if the mortgage had continued to be insured under this title, until such maturity date; and in the event that the principal obligation is paid in full as herein set forth, the **[Commissioner]** *Secretary* is authorized to refund to the mortgagee for the account of the mortgagor all, or such portion as he shall determine to be equitable, of the current unearned premium charges theretofore paid. The **[Commissioner]** *Secretary* shall prescribe such procedures as in his judgment are necessary to secure to veterans of World War II, and their immediate families, and to hardship cases as defined by the **[Commissioner]** *Secretary*, preference or priority of opportunity to purchase or rent properties covered by mortgages insured under this title.

(d) Any contract of insurance heretofore or hereafter executed by the **[Commissioner]** *Secretary* under this title shall be conclusive evidence of the eligibility of the mortgage for insurance, and the validity of any contract of insurance so executed shall be incontestable in the hands of an approved mortgagee from the date of the execution of such contract, except for fraud or misrepresentation on the part of such approved mortgagee.

SEC. 604. (a) In any case in which the mortgagee under a mortgage insured under section 603 shall have foreclosed and taken possession of the mortgaged property, in accordance with regulations of, and within a period to be determined by, the **[Commissioner]** *Secretary* or shall, with the consent of the **[Commissioner]** *Secretary* have otherwise acquired such property from the mortgagor after default, the mortgagee shall be entitled to receive the benefit of the insurance as hereinafter provided, upon (1) the prompt conveyance to the **[Commissioner]** *Secretary* of title to the property which meets the requirements of rules and regulations of the **[Commissioner]** *Secretary* in force at the time the mortgage was insured, and which is evidenced in the manner prescribed by such rules and regulations; and (2) the assignment to him of all claims of the mortgagee against the mortgagor or others, arising out of the mortgage transaction or foreclosure proceedings, except such claims as may have been released with the consent of the **[Commissioner]** *Secretary*. Upon such conveyance and assignment the obligation of the mortgagee to pay the premium charges for insurance shall cease and the **[Commissioner]** *Secretary* shall, subject to the cash adjustment hereinafter provided, issue to the mortgagee debentures having a total face value equal to the value of the mortgage and a certificate of claim, as hereinafter provided. For the purposes of this subsection, the value of the mortgage shall be determined, in accordance with rules and regulations prescribed by the **[Commissioner]** *Secretary*, by adding to the amount of the original principal obligation of the mortgage which was unpaid on the

date of the institution of foreclosure proceedings, or on the date of the acquisition of the property after default other than by foreclosure, the amount of all payments which have been made by the mortgagee for taxes, ground rents, and water rates, which are liens prior to the mortgage, special assessments which are noted on the application for insurance or which become liens after the insurance of the mortgage, insurance of the mortgaged property, and any mortgage insurance premiums and by deducting from such total amount any amount received on account of the mortgage after either of such dates, and any amount received as rent or other income from the property, less reasonable expenses incurred in handling the property, after either of such dates: *Provided*, That with respect to mortgages which are foreclosed before there shall have been paid on account of the principal obligation of the mortgage a sum equal to 10 per centum of the appraised value of the property as of the date the mortgage was accepted for insurance, there may be included in the debentures issued by the **[Commissioner]** *Secretary*, on account of the cost of foreclosure (or of acquiring the property by other means) actually paid by the mortgagee and approved by the **[Commissioner]** *Secretary* an amount—

(1) not in excess of 2 per centum of the unpaid principal of the mortgage as of the date of the institution of foreclosure proceedings and not in excess of \$75; or

(2) not in excess of two-thirds of such cost, whichever is the greater: *Provided further*, That with respect to any debentures issued on or after the date of enactment of the Housing Act of 1964, the **[Commissioner]** *Secretary* may, with the consent of the mortgagee (in lieu of issuing a certificate of claim as provided in subsection (e)), include in debentures, in addition to amounts otherwise allowed for such costs, an amount not to exceed one-third of the total foreclosure, acquisition, and conveyance costs actually paid by the mortgagee and approved by the **[Commissioner]** *Secretary*, but in no event may the total allowance for such costs exceed the amount actually paid by the mortgagee: *And provided further*, That with respect to mortgages to which the provisions of sections 302 and 306 of the Soldiers' and Sailors' Civil Relief Act of 1940, as now or hereafter amended, apply and which are insured under section 603 of the National Housing Act, as now or hereafter amended, and subject to such regulations and conditions as the **[Commissioner]** *Secretary* may prescribe, there shall be included in the debentures an amount which the **[Commissioner]** *Secretary* finds to be sufficient to compensate the mortgagee for any loss which it may have sustained on account of interest on debentures and the payment of insurance premiums by reason of its having postponed the institution of foreclosure proceedings or the acquisition of the property by other means during any part or all of the period of such military service and three months thereafter.

(b) The **[Commissioner]** *Secretary* may at any time, under such terms and conditions as he may prescribe, consent to the release of the mortgagor from his liability under the mortgage or the credit instrument secured thereby, or consent to the release of parts of the mortgaged property from the lien of the mortgage: *Provided*, That the

mortgagor shall not be released from such liability in any case until the **[Commissioner]** *Secretary*, is satisfied that the mortgaged property has been sold to a purchaser satisfactory to the **[Commissioner]** *Secretary*, and that such purchaser has paid on account of the purchase price, in cash or its equivalent, at least 10 per centum of the **[Commissioner's]** *Secretary's* estimate of the value as of the date the mortgage is accepted for insurance.

(c) Debentures issued under this title shall be in such form and denominations in multiples of \$50, shall be subject to such terms and conditions, and shall include such provisions for redemption, if any, as may be prescribed by the **[Commissioner]** *Secretary* with the approval of the Secretary of the Treasury, and may be in coupon or registered form. Any difference between the value of the mortgage determined as herein provided and the aggregate face value of the debentures issued, not to exceed \$350, shall be adjusted by the payment of cash by the **[Commissioner]** *Secretary* to the mortgagee from the General Insurance Fund.

(d) The debentures issued under this section to any mortgagee shall be executed in the name of the General Insurance Fund as obligor, shall be signed by the **[Commissioner]** *Secretary* by either his written or engraved signature, and shall be negotiable. All such debentures shall be dated as of the date foreclosure proceedings were instituted, or the property was otherwise acquired by the mortgagee after default, except that debentures issued pursuant to claims for insurance filed on or after the date of enactment of the Housing Act of 1964, shall be dated as of the date of default or as of such later date as the **[Commissioner]** *Secretary*, in his discretion, may establish by regulation. The debentures shall bear interest from such date at a rate determined by the **[Commissioner]** *Secretary*, with the approval of the Secretary of the Treasury, at the time the mortgage was accepted for insurance, but not to exceed 3 per centum per annum, payable semiannually on the 1st day of January and the 1st day of July of each year. Such debentures as are issued in exchange for property covered by mortgages accepted for insurance under this section on or after the date of enactment of the National Housing Act Amendments of 1942, shall mature ten years after the date thereof. Such debentures as are issued in exchange for property covered by mortgages accepted for insurance under this section prior to the date of the enactment of the National Housing Act Amendments of 1942, shall mature three years after the 1st day of July following the maturity date of the mortgage on the property in exchange for which the debentures were issued: *Provided*, That any mortgagee entitled to receive such debentures may elect to receive in lieu thereof debentures which shall mature ten years after the date thereof. Such debentures shall be exempt, both as to principal and interest, from all taxation (except surtaxes, estate, inheritance, and gift taxes) now or hereafter imposed by any Territory, dependency, or possession of the United States, or by the District of Columbia, or by any State, county, municipality, or local taxing authority, and shall be paid out of the General Insurance Fund, which shall be primarily liable therefor, and they shall be fully and unconditionally guaranteed as to principal and interest by the United States, and such guaranty shall be expressed on the face of the debentures.

In the event that the General Insurance Fund fails to pay upon demand, when due, the principal of or interest on any debentures issued under this title, the Secretary of the Treasury shall pay to the holders the amount thereof which is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, and thereupon to the extent of the amount so paid the Secretary of the Treasury shall succeed to all the rights of the holders of such debentures.

(e) The certificate of claim issued by the **[Commissioner]** *Secretary* to any mortgagee shall be for an amount which the **[Commissioner]** *Secretary* determines to be sufficient, when added to the face value of the debentures issued and the cash adjustment paid to the mortgagee, to equal the amount which the mortgagee would have received if, at the time of the conveyance to the **[Commissioner]** *Secretary* of the property covered by the mortgage, the mortgagor had redeemed the property and paid in full all obligations under the mortgage and a reasonable amount for necessary expenses incurred by the mortgagee in connection with the foreclosure proceedings, or the acquisition of the mortgaged property otherwise, and the conveyance thereof to the **[Commissioner]** *Secretary*. Each such certificate of claim shall provide that there shall accrue to the holder of such certificate with respect to the face amount of such certificate, an increment at the rate of 3 per centum per annum which shall not be compounded. The amount to which the holder of any such certificate shall be entitled shall be determined as provided in subsection (f).

(f)(1) If, after deducting (in such manner and amount as the **[Commissioner]** *Secretary* shall determine to be equitable and in accordance with sound accounting practice) and expenses incurred by the **[Commissioner]** *Secretary*, the net amount realized from any property conveyed to the **[Commissioner]** *Secretary* under this section and the claims assigned therewith exceed the face value of the debentures issued and the cash paid in exchange for such property plus all interest paid on such debentures, such excess shall be divided as follows:

(i) If such excess is greater than the total amount payable under the certificate of claim issued in connection with such property, the **[Commissioner]** *Secretary* shall pay to the holder of such certificate the full amount so payable, and any excess remaining thereafter shall be paid to the mortgagor of such property: *Provided*, That on and after the date of enactment of the Housing Act of 1964, any excess remaining after payment to the holder of the full amount of the certificate of claim shall be retained by the **[Commissioner]** *Secretary* and credited to the General Insurance Fund; and

(ii) If such excess is equal to or less than the total amount payable under such certificate of claim, the **[Commissioner]** *Secretary* shall pay to the holder of such certificate the full amount of such excess.

(2) Notwithstanding any other provisions of this section, the **[Commissioner]** *Secretary* is authorized, with the consent of the mortgagee or mortgagor, as the case may be, to effect the settlement of certificates of claim and refunds at any time after the sale or transfer of title to the property conveyed to the **[Commissioner]** *Secretary*

under this section and without awaiting the final liquidation of such property for the purpose of determining the net amount to be realized therefrom: *Provided*, That the settlement authority created by the Housing Amendments of 1955 shall be terminated with respect to any certificate of claim outstanding as of the date of enactment of the Housing Act of 1964.

(3) With the consent of the holder thereof, the **[Commissioner]** *Secretary* is authorized to settle, without awaiting the final liquidation of the **[Commissioner's]** *Secretary's* interest in the property, any certificate of claim issued pursuant to subsection (e), with respect to which a settlement had not been effected prior to the date of enactment of the Housing Act of 1964, by making payment in cash to the holder thereof of such amount, not exceeding the face amount of the certificate of claim, together with the accrued interest increment thereon, as the **[Commissioner]** *Secretary* may consider appropriate: *Provided*, That in any case where the certificate of claim is settled in accordance with the provisions of this paragraph, any amounts realized after the date of enactment of the Housing Act of 1964, in the liquidation of the **[Commissioner's]** *Secretary's* interest in the property, shall be retained by the **[Commissioner]** *Secretary* and credited to the applicable insurance fund.

(g) Notwithstanding any other provision of law relating to the acquisition, handling, or disposal of real property by the United States, the **[Commissioner]** *Secretary* shall have power to deal with, complete, rent, renovate, modernize, insure, make contracts or establish suitable agencies for the management of, or sell for cash or credit, in his discretion, any properties conveyed to him in exchange for debentures and certificates of claim as provided in this title; and notwithstanding any other provision of law, the **[Commissioner]** *Secretary* shall also have power to pursue to final collection, by way of compromise or otherwise, all claims against mortgagors assigned by mortgagees to the **[Commissioner]** *Secretary* as provided in this title, except that no suit or action shall be commenced by the **[Commissioner]** *Secretary* against any such mortgagor on account of any claim so assigned with respect to mortgages insured under section 603 unless such suit or action is commenced within six months after the assignment of such claim to the **[Commissioner]** *Secretary*, or within six months after the last payment was made to the **[Commissioner]** *Secretary* with respect to the claim so assigned, whichever is later: *Provided*, That section 3709 of the Revised Statutes shall not be construed to apply to any contract for hazard insurance, or to any purchase or contract for services or supplies on account of such property if the amount thereof does not exceed \$1,000. The power to convey and to execute in the name of the **[Commissioner]** *Secretary* deeds of conveyances, deeds of release, assignments, and satisfactions of mortgages, and any other written instrument relating to real property or any interest therein heretofore or hereafter acquired by the **[Commissioner]** *Secretary* pursuant to the provisions of this Act, may be exercised by the **[Commissioner]** *Secretary* or by any **[Assistant Commissioner]** *an officer* appointed by him, without the execution of any express delegation of power or power of attorney: *Provided*, That nothing in this subsection shall be construed to prevent the **[Commis-**

sioner] *Secretary* from delegating such power by order or by power of attorney in his discretion, to any officer, agent, or employee he may appoint.

(h) No mortgagee or mortgagor shall have and no certificate of claim shall be construed to give to any mortgagee or mortgagor, any right or interest in any property conveyed to the [Commissioner] *Secretary* or in any claim assigned to him; nor shall the [Commissioner] *Secretary* owe any duty to any mortgagee or mortgagor with respect to the handling or disposal of any such property or the collection of any such claim.

SEC. 605.

SEC. 606. Nothing in this title shall be construed to exempt any real property acquired and held by the [Commissioner] *Secretary* under this title from taxation by any State or political subdivision thereof, to the same extent, according to its value, as other real property is taxed.

SEC. 607. The [Commissioner] *Secretary* is authorized and directed to make such rules and regulations as may be necessary to carry out the provision of this title.

SEC. 608. (a) In addition to mortgages insured under section 603 of this title, the [Commissioner] *Secretary* is authorized to insure mortgages as defined in section 601 of this title (including advances on such mortgages during construction) which are eligible for insurance as hereinafter provided.

(b) To be eligible for insurance under this section a mortgage shall meet the following conditions:

(1) The mortgaged property shall be held by a mortgagor approved by the [Commissioner] *Secretary*. The [Commissioner] *Secretary* may, in his discretion, require such mortgagor to be regulated or restricted as to rents or sales, charges, capital structure, rate of return, and methods of operation. The [Commissioner] *Secretary* may make such contracts with, and acquire for not to exceed \$100 stock or interest in any such mortgagor, as the [Commissioner] *Secretary* may deem necessary to render effective such restrictions or regulation. Such stock or interest shall be paid for out of the General Insurance Fund, and shall be redeemed by the mortgagor at par upon the termination of all obligations of the [Commissioner] *Secretary* under the insurance.

(2) Preference or priority of opportunity in the occupancy of the mortgaged property for veterans of World War II and their immediate families, and for hardship cases as defined by the [Commissioner] *Secretary*, shall be provided under such regulations and procedures as may be prescribed by the [Commissioner] *Secretary*.

(3) The mortgage shall involve a principal obligation in an amount—

(A) not to exceed \$5,000,000; and

(B) not to exceed 90 per centum of the amount which the [Commissioner] *Secretary* estimates will be the necessary current cost of the completed property or project, including the land; the proposed physical improvements; utilities within the boundaries of the property or project; architects' fees; taxes and interest accruing during construction; and other miscellaneous charges

incidental to construction and approved by the **[Commissioner] Secretary**: *Provided*, That such mortgage shall not in any event exceed the amount which the **[Commissioner] Secretary** estimates will be the cost of the completed physical improvements on the property or project, exclusive of off-site public utilities and streets, and organization and legal expenses: *And provided further*, That the principal obligation of the mortgage shall not, in any event, exceed 90 per centum of the **[Commissioner's] Secretary's** estimate of the replacement cost of the property or project on the basis of the costs prevailing on December 31, 1947, for properties or projects of comparable quality in the locality where such property or project is to be located; and

(C) not to exceed \$8,100 per family unit for such part of such property or project as may be attributable to dwelling use.

The mortgage shall provide for complete amortization by periodic payments within such terms as the **[Commissioner] Secretary** shall prescribe, and shall bear interest (exclusive of premium charges for insurance) at not to exceed $4\frac{1}{2}$ per centum per annum on the amount of the principal obligation outstanding at any time. The **[Commissioner] Secretary** may consent to the release of a part or parts of the mortgaged property from the lien of the mortgage upon such terms and conditions as he may prescribe and the mortgage may provide for such release.

(c) The failure of the mortgagor to make any payment due under or provided to be paid by the terms of a mortgage insured under this section shall be considered a default under such mortgage, and if such default continues for a period of thirty days, the mortgagee shall be entitled to receive the benefits of the insurance as hereinafter provided, upon assignment, transfer, and delivery to the **[Commissioner] Secretary**, within a period and in accordance with rules and regulations to be prescribed by the **[Commissioner] Secretary** of (1) all rights and interest arising under the mortgage so in default; (2) all claims of the mortgagee against the mortgagors or others, arising out of the mortgage transaction; (3) all policies of title or other insurance or surety bonds or other guaranties and any and all claims thereunder; (4) any balance of the mortgage loan not advanced to the mortgagor; (5) any cash or property held by the mortgagee, or to which it is entitled; as deposits made for the account of the mortgagor and which have not been applied in reduction of the principal of the mortgage indebtedness; and (6) all records, documents, books, papers, and accounts relating to the mortgage transaction. Upon such assignment, transfer, and delivery the obligation of the mortgagee to pay the premium charges for mortgage insurance shall cease, and the **[Commissioner] Secretary** shall, subject to the cash adjustment provided for in section 604(c), issue to the mortgagee debentures having a total face value equal to the value of the mortgage, and a certificate of claim as hereinafter provided. For the purposes of this subsection, the value of the mortgage shall be determined in accordance with rules and regulations prescribed by the **[Commissioner] Secretary**, by adding to the amount of the original principal obligation of the mortgage which was unpaid on the date of default, the amount the mortgagee may have paid for (A) taxes, special assessments, and water rates, which are liens prior

to the mortgage; (B) insurance on the property; and (C) reasonable expenses for the completion and preservation of the property and any mortgage insurance premiums paid after default; less the sum of (i) an amount equivalent to 1 per centum of the unpaid amount of such principal obligation on the date of default; (ii) any amount received on account of the mortgage after such date; and (iii) any net income received by the mortgagee from the property after such date: *Provided*, That the mortgagee in the event of a default under the mortgage may, at its option and in accordance with regulations of, and in a period to be determined by the **[Commissioner]** *Secretary*, proceed to foreclose on and obtain possession of or otherwise acquire such property from the mortgagor after default, and receive the benefits of the insurance as herein provided, upon (1) the prompt conveyance to the **[Commissioner]** *Secretary* of title to the property which meets the requirements of the rules and regulations of the **[Commissioner]** *Secretary* in force at the time the mortgage was insured, and which is evidenced in the manner prescribed by such rules and regulations; and (2) the assignment to him of all claims of the mortgagee against the mortgagor or others, arising out of the mortgage transaction or foreclosure proceedings, except such claims that may have been released with the consent of the **[Commissioner]** *Secretary*. Upon such conveyance and assignment, the obligation of the mortgagee to pay the premium charges for insurance shall cease and the mortgagee shall be entitled to receive the benefits of the insurance as provided in this subsection, except that in such event the 1 per centum deduction, set out in (i) hereof, shall not apply.

(d) The certificate of claim issued by the **[Commissioner]** *Secretary* to any mortgagee in connection with the insurance of mortgages under this section shall be for an amount determined in accordance with subsections (e) and (f) of section 604 of this title, except that any amount remaining after the payment of the full amount under the certificate of claim shall be retained by the **[Commissioner]** *Secretary* and credited to the General Insurance Fund.

(e) Debentures issued under this section shall be issued in accordance with the provisions of section 604(d) except that such debentures shall be dated as of the date of default as determined in subsection (c) of this section, and shall bear interest from such date.

(f) The provisions of section 207(k) of this Act shall be applicable to mortgages insured under this section, except that, as applied to such mortgages, the reference therein to subsection (g) shall be construed to refer to subsection (c) of this section.

(g) The **[Commissioner]** *Secretary* shall also have power to insure under this title, title I, title II, title VIII, or title IX any mortgage executed in connection with the sale by him of any property acquired under any of such titles without regard to limitations upon eligibility, time, or aggregate amount contained therein.

SEC. 609. (a) In order to assist in relieving the acute shortage of housing which now exists and to promote the production of housing for veterans of World War II at moderate prices or rentals within their reasonable ability to pay, through the application of modern industrial processes, the **[Commissioner]** *Secretary* is authorized to insure loans to finance the manufacture of housing (including advances

on such loans) when such loans are eligible for insurance as hereinafter provided.

(b) Loans for the manufacture of houses shall be eligible for insurance under this section if at the time of such insurance, the **Commissioner** *Secretary* determines they meet the following conditions:

(1) The manufacturer shall establish that binding purchase contracts have been executed satisfactory to the **Commissioner** *Secretary* providing for the purchase and delivery of the houses to be manufactured, which contracts shall provide for the payment of the purchase price at such time as may be agreed to by the parties thereto, but, in no event, shall the purchase price be payable on a date in excess of thirty days after the date of delivery of such houses, unless not less than 20 per centum of such purchase price is paid on or before the date of delivery and the lender has accepted and discounted or has agreed to accept and discount, pursuant to subsection (i) of this section a promissory note or notes, executed by the purchaser, representing the unpaid portion of such purchase price, in which event such unpaid portion of the purchase price may be payable on a date not in excess of one hundred and eighty days from the date of delivery of such houses;

(2) Such houses to be manufactured shall meet such requirements of sound quality, durability, livability, and safety as may be prescribed by the **Commissioner** *Secretary*;

(3) The borrower shall establish to the satisfaction of the **Commissioner** *Secretary* that he has or will have adequate plant facilities, sufficient capital funds, taking into account the loan applied for, and the experience necessary, to achieve the required production schedule;

(4) The loan shall involve a principal obligation in an amount not to exceed 90 per centum of the amount which the **Commissioner** *Secretary* estimates will be the necessary current cost, exclusive of profit, of manufacturing the houses, which are the subject of such purchase contracts assigned to secure the loan, less any sums paid by the purchaser under said purchase contracts prior to the assignment thereof. The loan shall be secured by an assignment of the aforesaid purchase contracts and of all sums payable thereunder on or after the date of such assignment, with the right in the assignee to proceed against such security in case of default as provided in the assignment, which assignment shall be in such form and contain such terms and conditions, as may be prescribed by the **Commissioner** *Secretary*; and the **Commissioner** *Secretary* may require such other agreements and undertakings to further secure the loan as he may determine, including the right, in case of default or at any time necessary to protect the lender, to compel delivery to the lender of any houses then owned and in the possession of the borrower. The loan shall have a maturity not in excess of one year from the date of the note, except that any such loan may be refinanced and extended in accordance with such terms and conditions as the **Commissioner** *Secretary* may prescribe for an additional term not to exceed one year, and shall bear interest (exclusive of premium charges for insurance) at not to exceed 4 per centum per annum on the amount of the principal obligation outstanding at any time.

(c) The **Commissioner** *Secretary* may consent to the release of a part or parts of the property assigned or delivered as security for the

loan, upon such terms and conditions as he may prescribe and the security documents may provide for such release.

(d) The failure of the borrower to make any payment due under or provided to be paid by the terms of a loan under this section, or the failure to perform any other covenant or obligation contained in any assignment, agreement, or undertaking executed by the borrower in connection with such loan shall be considered as a default under this section, and if such default continues for a period of thirty days, the lender shall be entitled to receive the benefits of the insurance hereinafter provided upon assignment, transfer, and delivery to the **Commissioner** *Secretary* within a period and in accordance with the rules and regulations prescribed by the **Commissioner** *Secretary* of (1) all rights and interest arising with respect to the loan so in default; (2) all claims of the lender against the borrower or others arising out of the loan transaction; (3) any cash or property held by the lender, or to which it is entitled, as deposits made for the account of the borrower and which have not been applied in reduction of the principal of the loan; and (4) all records, documents, books, papers, and accounts relating to the loan transaction. Upon such assignment, transfer, and delivery, the **Commissioner** *Secretary*, shall, subject to the cash adjustment provided for in section 604(c) issue to the lender debentures having a face value equal to the unpaid principal balance of the loan.

(e) Debentures issued under this section shall be issued in accordance with the provisions of section 604(d) except that such debentures shall be dated as of the date of default as determined in subsection (d) of this section and shall bear interest from such date.

(f) The provisions of sections 207(k) and 603(a) of this Act shall be applicable to loans insured under this section, except that as applied to such loans (1) the reference in section 207(k) to "subsection (g)" shall be construed to refer to "subsection (d)" of this section; (2) the references in section 207(k) to insured mortgages shall be construed to refer to the assignment or other security for loans insured under this section; and (3) the references in section 603(a) to a mortgage or mortgages shall be construed to include a loan or loans under this section. The provisions of section 603(d) shall also be applicable to loans insured under this section and the reference in said section 603(d) to a mortgage shall be construed to include a loan or loans with respect to which a contract of insurance is issued pursuant to this section.

(g) Notwithstanding any other provision of law, the **Commissioner** *Secretary* shall have the power to assign or sell at public or private sale, or otherwise dispose of, any evidence of debt, contract, claim, personal property, or security assigned to or held by him in connection with the payment of insurance heretofore or hereafter granted under this section, and to collect or compromise all obligations assigned to or held by him and all legal or equitable rights accruing to him in connection with the payment of such insurance until such time as such obligations may be referred to the Attorney General for suit or collection.

(h) The **Commissioner** *Secretary* shall fix a premium charge for the insurance granted under this section, but such premium charge shall not exceed an amount equivalent to 1 per centum of the original

principal of such loan, and such premium charge shall be payable in advance by the financial institution and shall be paid at such time and in such manner as may be prescribed by the **[Commissioner]** *Secretary*. In addition to the premium charge herein provided for, the **[Commissioner]** *Secretary* is authorized to charge and collect such amounts as he may deem reasonable for examining and processing applications for the insurance of loans under this section, including such additional inspections as the **[Commissioner]** *Secretary* may deem necessary.

(i) (1) In addition to the insurance of the principal loan to finance the manufacture of housing, as provided in this section, and in order to provide short-term financing in the sale of houses to be delivered pursuant to the purchase contract or contracts assigned as security for such principal loan, the **[Commissioner]** *Secretary* is authorized, under such terms and conditions and subject to such limitations as he may prescribe, to insure the lender against any losses it may sustain resulting from the acceptance and discount of a promissory note or notes executed by a purchaser of any such houses representing an unpaid portion of the purchase price of any such house. No such promissory note or notes accepted and discounted by the lender pursuant to this subsection shall involve a principal obligation in excess of 80 per centum of the purchase price of the manufactured house or houses; have a maturity in excess of one hundred and eighty days from the date of the note or bear interest in excess of 4 per centum per annum; nor may the principal amount to such promissory notes, with respect to any individual principal loan, outstanding and unpaid at any one time, exceed in the aggregate an amount prescribed by the **[Commissioner]** *Secretary*.

(2) The **[Commissioner]** *Secretary* is authorized to include in any contract of insurance executed by him with respect to the insurance of a loan to finance the manufacture of houses, provisions to effectuate the insurance against any such losses under this subsection.

(3) The failure of the purchaser to make any payment due under or provided to be paid by the terms of any note or notes executed by the purchaser and accepted and discounted by the lender under the provisions of this subsection, shall be considered as a default under this subsection, and if such default continues for a period of thirty days, the lender shall be entitled to receive the benefits of the insurance, as provided in subsection (d) of this section except that debentures issued pursuant to this subsection shall have a face value equal to the unpaid principal balance of the loan plus interest at the rate of 4 per centum per annum from the date of default to the date the application is filed for the insurance benefits.

(4) Debentures issued with respect to the insurance granted under this subsection shall be issued in accordance with the provisions of section 604(d) except that such debentures shall be dated as of the date application is filed for the insurance benefits and shall bear interest from such date.

(5) The **[Commissioner]** *Secretary* is authorized to fix a premium charge for the insurance granted under this subsection, in addition to the premium charge authorized under subsection (h) of this section. Such premium charge shall not exceed an amount equivalent to 1 per centum of the original principal of such promissory note or notes and

shall be paid at such time and in such manner as may be prescribed by the [Commissioner] *Secretary*.

SEC. 610. Notwithstanding any of the provisions of this title, the [Commissioner] *Secretary* is authorized, upon application by the mortgagee, to insure or to make commitments to insure under section 603 or section 608 of this title any mortgage executed in connection with the sale by the Government, or any agency or official thereof, of any housing acquired or constructed under Public Law 849, Seventy-sixth Congress, as amended; Public Law 781, Seventy-sixth Congress, as amended; or Public Laws 9, 73, or 353, Seventy-seventh Congress, as amended (including any property acquired, held or constructed in connection with such housing or to serve the inhabitants thereof), without regard to—

(1) any limit as to the time when any mortgage may be insured under this title;

(2) any limit as to the aggregate amount of principal obligations of all mortgages insured under this title, but the aggregate amount of principal obligations of all mortgages insured pursuant to this section shall not exceed \$750,000,000;

(3) any requirement that the obligation be approved for mortgage insurance prior to the beginning of construction or that the construction be new construction;

(4) any of the provisions of section 603(b)(2) or section 603(b)(5) or paragraphs (B) and (C) of the first sentence of section 608(b)(3): *Provided*, That such mortgage shall (1) otherwise be eligible for insurance under section 603 or section 608, as the case may be, (2) have a maturity not exceeding twenty-five years from the date of insurance, (3) involve a principal obligation (including such initial service charges, appraisal, inspection, and other fees as the [Commissioner] *Secretary* shall approve) in an amount not exceeding 90 per centum of the appraised value of the mortgage property as determined by the [Commissioner] *Secretary*, and (4) bear interest (exclusive of premium charges) at not to exceed 5 per centum per annum on the amount of the principal obligation outstanding at any time if such mortgage covers property on which there is located a dwelling designed principally for residential use for not more than four families in the aggregate, irrespective of whether such dwelling or dwellings have a party wall or are otherwise physically connected with another dwelling or dwellings, or bear interest at not to exceed 4½ per centum per annum on the amount of the principal obligation outstanding at any time if such mortgage covers property upon which there is located a dwelling or dwellings designed principally for residential use for more than four families.

The [Commissioner] *Secretary* is further authorized to insure or to make commitments to insure in accordance with the provisions of this section any mortgage executed in connection with the sale by the [Public Housing Administration] *Secretary*, or by any public housing agency with the approval of the [said Administration] *Secretary*, of any housing (including any property acquired, held, or constructed in connection with such housing or to serve the inhabitants thereof) owned or financially assisted pursuant to the provisions of Public Law 671, Seventy-sixth Congress.

The **[Commissioner]** *Secretary* is further authorized to insure or to make commitments to insure in accordance with the provisions of this section any mortgage executed in connection with the sale by the Government, or any agency or official thereof, of any of the so-called Greenbelt towns, or parts thereof, including projects, or parts thereof, known as Greenhills, Ohio; Greenbelt, Maryland; and Greendale, Wisconsin, developed under the Emergency Relief Appropriation Act of 1935, or of any of the village properties under the jurisdiction of the Tennessee Valley Authority, and any mortgage executed in connection with the first resale, within two years from the date of its acquisition from the Government, of any portion of a project or property of the character described in this section.

The **[Commissioner]** *Secretary* is further authorized to insure or to make commitments to insure under section 608 of this title in accordance with the provisions of this section any mortgage executed in connection with the sale by a State or municipality, or an agency, instrumentality, or body politic of either, of any permanent housing (including any property acquired, held, or constructed in connection therewith or to serve the inhabitants thereof), constructed by or on behalf of such State, municipality, agency, instrumentality, or body politic, for the occupancy of veterans of World War II, their families, and others: *Provided*, That the principal obligation of any such mortgage does not exceed either 85 per centum of the appraised value of the mortgage property as determined by the **[Commissioner]** *Secretary* of \$8,100 per family unit for such part of such property as may be attributable to dwelling use.

SEC. 611. (a) In addition to mortgages insured under other sections of this title, and in order to assist and encourage the application of cost-reduction techniques through large-scale modernized site construction of housing and the erection of houses produced by modern industrial processes, the **[Commissioner]** *Secretary* is authorized to insure mortgages (including advances on such mortgages during construction) which are eligible for insurance as hereinafter provided.

(b) To be eligible for insurance under this section, a mortgage shall—

(1) have been made to and be held by a mortgagee approved by the **[Commissioner]** *Secretary* as responsible and able to service the mortgage properly;

(2) cover property held by a mortgagor approved by the **[Commissioner]** *Secretary*, upon which there is to be constructed or erected dwelling units for not less than twenty-five families consisting of a group of single-family dwellings approved by the **[Commissioner]** *Secretary* for mortgage insurance prior to the beginning of construction: *Provided*, That during the course of construction there may be located upon the mortgaged property a plant for the fabrication or storage of such dwellings or sections or parts thereof, and the **[Commissioner]** *Secretary* may consent to the removal or release of such plant from the lien of the mortgage upon such terms and conditions as he may approve;

(3) involve a principal obligation in an amount—

(A) not to exceed 85 per centum of the amount which the **[Commissioner]** *Secretary* estimates will be the value of the

completed property or project, exclusive of any plant of the character described in paragraph (2) of this subsection located thereon, and

(B) not to exceed a sum computed on the individual dwelling comprising the total project as follows: \$5,950 or 85 per centum of the valuation, whichever is the lower amount, with respect to each single-family dwelling: *Provided*, That if the **[Commissioner]** *Secretary* finds that it is not feasible, within the dollar amount limitation in clause (B) on the principal obligation of the mortgage, to construct dwellings containing three or four bedrooms without sacrifice of sound standards of construction, design, and livability, he may increase such dollar amount limitation by not exceeding \$850 for each additional bedroom (as defined by the **[Commissioner]** *Secretary*) in excess of two contained in each such dwelling if he finds that such dwelling meets sound standards of design and livability as a three-bedroom unit or a four-bedroom unit, as the case may be, but the amount computed under clause (B) for each such dwelling shall not exceed, in any event, \$7,650.

With respect to the insurance of advances during construction, the **[Commissioner]** *Secretary* is authorized to approve advances by the mortgagee to cover the cost of materials delivered upon the mortgaged property and labor performed in the fabrication or erection thereof;

(4) provide for complete amortization by periodic payments within such term as the **[Commissioner]** *Secretary* shall prescribe and shall bear interest (exclusive of premium charges for insurance) at not to exceed 4 per centum per annum on the amount of the principal obligation outstanding at any time: *Provided*, That the **[Commissioner]** *Secretary*, with the approval of the Secretary of the Treasury, may prescribe by regulation a higher maximum rate of interest, not exceeding 4½ per centum per annum on the amount of the principal obligation outstanding at any time, if he finds that the mortgage market demands it. The **[Commissioner]** *Secretary* may consent to the release of a part or parts of the mortgaged property from the lien of the mortgage upon such terms and conditions as he may prescribe and the mortgage may provide for such release, and the mortgage may provide that, upon the completion of the construction of the project, such mortgage may be replaced by individual mortgages covering each individual dwelling in the project. Each such individual mortgage may be insured under this section with the mortgagor being either the builder who constructed the dwellings or the owner and occupant of the dwelling at the time, and where the mortgagor is the owner and occupant, may involve a principal obligation in such amount and have such maturity and interest rate as a mortgage eligible for insurance under section 203(b) (2) (D) of this Act.

(c) Preference or priority of opportunity in the occupancy of the mortgaged property for veterans of World War II and their immediate families and for hardship cases as defined by the **[Commissioner]**

Secretary shall be provided under such regulations and procedures as may be prescribed by the [Commissioner] *Secretary*.

(d) The provisions of subsections (c), (d), (e), and (f) of section 608 shall be applicable to mortgages insured under this section covering a project described in subsection (b) of this section, and the provisions of subsections (a), (b), (c), (d), (e), (f), and (h) of section 604 shall be applicable to the individual mortgages insured pursuant to subsection (b) (4) of this section covering individual dwellings in the project.

SEC. 612. Notwithstanding any other provision of this title, no mortgage or loan shall be insured under any section of this title after the effective date of the Housing Act of 1954 except pursuant to a commitment to insure issued on or before such date.

TITLE VII—INSURANCE FOR INVESTMENTS IN RENTAL HOUSING FOR FAMILIES OF MODERATE INCOME

AUTHORITY TO INSURE

SEC. 701. The purpose of this title is to supplement the existing systems of mortgage insurance for rental housing under this Act by a special system of insurance designed to encourage equity investment in rental housing at rents within the capacity of families of moderate income. To effectuate this purpose, the [Commissioner] *Secretary* is authorized, upon application by the investor, to insure as hereinafter provided, and, prior to the execution of insurance contracts and upon such terms as the [Commissioner] *Secretary* shall prescribe, to make commitments to insure, the minimum annual amortization charge and an annual return on the outstanding investment of such investor in any project which is eligible for insurance as hereinafter provided in an amount (herein called the "insured annual return") equal to such rate of return, not exceeding $2\frac{3}{4}$ per centum per annum, on such outstanding investment as shall, after consultation with the Secretary of the Treasury, be fixed in the insurance contract or in the commitment to insure: *Provided*, That any insurance contract made pursuant to this title expire as of the first day of the operating year for which the outstanding investment amounts to not more than 10 per centum of the established investment.

ELIGIBILITY

SEC. 702. (a) To be eligible for insurance under this title, a project shall meet the following conditions:

(1) The [Commissioner] *Secretary* shall be satisfied that there is, in the locality or metropolitan area of such project, a need for new rental dwellings at rents comparable to the rents proposed to be charged for the dwellings in such project.

(2) Such project shall be economically sound, and the dwellings in such project shall be acceptable to the [Commissioner] *Secretary* as quality, design, size, and type.

(b) Any insurance contract executed by the [Commissioner] *Secretary* under this title shall be conclusive evidence of the eligibility of the project and the investor for such insurance, and the validity of any insurance contract so executed shall be incontestable in the hands of

an investor from the date of the execution of such contract, except for fraud or misrepresentation on the part of such investor.

(c) After completion of the project the investor must establish in a manner satisfactory to the [Commissioner] *Secretary* that the project is free and clear of liens and that there are no other outstanding unpaid obligations contracted in connection with the construction of the project, except taxes and such other liens and obligations as may be approved or prescribed by the [Commissioner] *Secretary*. Debentures issued by the investor which are payable out of net income from the project and from the benefits of the insurance contract shall not be construed as "unpaid obligations" as such term is used in this subsection.

PREMIUMS AND FEES

SEC. 703. (a) For insurance granted pursuant to this title the [Commissioner] *Secretary* shall fix and collect a premium charge in an amount not exceeding one-half of 1 per centum of the outstanding investment for the operating year for which such premium charge is payable without taking into account the excess earnings, if any, applied, in addition to the minimum annual amortization charge, to amortization of the outstanding investment. Such premium charge shall be payable annually in advance by the investor, either in cash or in debentures issued by the [Commissioner] *Secretary* under this title at par plus accrued interest: *Provided*, That, if in any operating year the gross income shall be less than the operating expenses, the premium charge payable during such operating year shall be waived, but only to the extent of the amount of the difference between such expenses and such income and subject to subsequent payment out of any excess earnings as hereinafter provided.

(b) With respect to any project offered for insurance under this title, the [Commissioner] *Secretary* is authorized to charge and collect reasonable fees for examination, and for inspection during the construction of the project: *Provided*, That such fees shall not aggregate more than one-half of 1 per centum of the estimated investment.

RENTS

SEC. 704. The [Commissioner] *Secretary* shall require that the rents for the dwellings in any project insured under this title shall be established in accordance with a rent schedule approved by the [Commissioner] *Secretary*, and that the investor shall not charge or collect rents for any dwellings in the project in excess of the appropriate rents therefor as shown in the latest rent schedule approved pursuant to this section. Prior to approving the initial or any subsequent rent schedule pursuant to this section, the [Commissioner] *Secretary* shall find that such schedule affords reasonable assurance that the rents to be established thereunder are (1) not lower than necessary, together with all other income to be derived from or in connection with the project, to produce reasonably stable revenues sufficient to provide for the payment of the operating expenses, the minimum annual amortization charge, and the minimum annual return; and (2) not higher than necessary to meet the need for dwellings for families of moderate income.

EXCESS EARNINGS

SEC. 705. For all of the purposes of any insurance contract made pursuant to this title, 50 per centum of the excess earnings, if any, for any operating year may be applied, in addition to the minimum annual return, to return on the outstanding investment but only to the extent that such application thereof does not result in an annual return of more than 5 per centum of the outstanding investment for such operating year, and the balance of any such excess earnings shall be applied, in addition to the minimum annual amortization charge, to amortization of the outstanding investment: *Provided*, That if in any preceding operating years the gross income shall have been less than the operating expenses, such excess earnings shall be applied to the extent necessary in whole or in part, first, to the reimbursement of the amount of the difference between such expenses (exclusive of any premium charges previously waived hereunder) and such income, and, second, to the payment of any premium charges previously waived hereunder.

FINANCIAL STATEMENTS

SEC. 706. With respect to each project insured under this title, the **【Commissioner】** *Secretary* shall provide that, after the close of each operating year, the investor shall submit to him for approval a financial and operating statement covering such operating year. If any such financial and operating statement shall not have been submitted or, for proper cause, shall not have been approved by the **【Commissioner】** *Secretary*, payment of any claim submitted by the investor may, at the option of the **【Commissioner】** *Secretary*, be withheld, in whole or in part, until such statement shall have been submitted and approved.

PAYMENT OF CLAIMS

SEC. 707. If in any operating year the net income of a project insured under this title is less than the aggregate of the minimum annual amortization charge and the insured annual return, the **【Commissioner】** *Secretary*, upon submission by the investor of a claim for the payment of the amount of the difference between such net income and the aggregate of the minimum annual amortization charge and the insured annual return and after proof of the validity of such claim, shall pay to the investor, in cash from the General Insurance Fund, the amount of such difference, as determined by the **【Commissioner】** *Secretary*, but not exceeding, in any event, an amount equal to the aggregate of the minimum annual amortization charge and the insured annual return. Nothing contained in this title or any other provision of law shall be construed as preventing or restricting an investor from assigning, pledging, or otherwise transferring or disposing of, subject to rules and regulations of the **【Commissioner】** *Secretary*, any or all rights, claims, or other benefits under any insurance contract made pursuant to this title to an assignee, pledgee, or other transferee, including the holders (or the trustee for such holders) of any debentures issued by the investor in connection with the project to which such insurance contract relates, and the **【Commissioner】** *Secretary* is authorized to pay claims or issue debentures in accordance with the

provisions of this section and section 708 of this title to any such assignee, pledgee, or other transferee.

DEBENTURES

SEC. 708. (a) If the aggregate of the amounts paid to the investor pursuant to section 707 hereof with respect to a project insured under this title shall at any time equal or exceed 15 per centum of the established investment, the **【Commissioner】** *Secretary* thereafter shall have the right, after written notice to the investor of his intentions so to do, to acquire, as of the first day of any operating year, such project in consideration of the issuance and delivery to the investor of debentures having a total face value equal to 90 per centum of the outstanding investment for such operating year. In any such case the investor shall be obligated to convey to said **【Commissioner】** *Secretary* title to the project which meets the requirements of the rules and regulations of the **【Commissioner】** *Secretary* in force at the time the insurance contract was executed and which is evidenced in the manner prescribed by such rules and regulations, and, in the event that the investor fails so to do, said **【Commissioner】** *Secretary* may, at his option, terminate the insurance contract.

(b) If in any operating year the aggregate of the differences between the operating expenses (exclusive of any premium charges previously waived hereunder) and the gross income for the preceding operating years, less the aggregate of any deficits in such operating expenses reimbursed from excess earnings as hereinbefore provided, shall at any time equal or exceed 5 per centum of the established investment, the investor shall thereafter have the right, after written notice to the **【Commissioner】** *Secretary* of his intentions so to do, to convey to the **【Commissioner】** *Secretary*, as of the first day of any operating year, title to the project which meets the requirements of the rules and regulations of the **【Commissioner】** *Secretary* in force at the time the insurance contract was executed and which is evidenced in the manner prescribed by such rules and regulations, and to receive from the **【Commissioner】** *Secretary* debentures having a total face value equal to 90 per centum of the outstanding investment for such operating year.

(c) Any difference, not exceeding \$50, between 90 per centum of the outstanding investment for the operating year in which a project is acquired by the **【Commissioner】** *Secretary* pursuant to this section and the total face value of the debentures to be issued and delivered to the investor pursuant to this section shall be adjusted by the payment of cash by the **【Commissioner】** *Secretary* to the investor from the General Insurance Fund.

(d) Upon the acquisition of a project by the **【Commissioner】** *Secretary* pursuant to this section, the insurance contract shall terminate.

(e) Debentures issued under this title to any investor shall be executed in the name of the General Insurance Fund as obligor, shall be signed by the **【Commissioner】** *Secretary*, by either his written or engraved signature, and shall be negotiable. Such debentures shall be dated as of the first day of the operating year in which the project for which such debentures were issued was acquired by the **【Commissioner】** *Secretary*, shall bear interest at a rate to be determined by the

【Commissioner】 *Secretary*, with the approval of the Secretary of the Treasury, at the time the insurance contract was executed, but not to exceed $2\frac{3}{4}$ per centum per annum, payable semiannually on the 1st day of January and the 1st day of July of each year, and shall mature on the 1st day of July in such calendar year or years, not later than the fortieth following the date of the issuance thereof, as shall be determined by the 【Commissioner】 *Secretary* and stated on the face of such debentures.

(f) Such debentures shall be in such form and in such denominations in multiples of \$50, shall be subject to such terms and conditions, and may include such provisions for redemption as shall be prescribed by the 【Commissioner】 *Secretary*, with the approval of the Secretary of the Treasury, and may be issued in either coupon or registered form.

(g) Such debentures shall be exempt, both as to principal and interest, from all taxation (except surtaxes, estate, inheritance, and gift taxes) now or hereafter imposed by any Territory, dependency, or possession of the United States, or by the District of Columbia, or by any State, county, municipality, or local taxing authority, shall be payable out of the General Insurance Fund, which shall be primarily liable therefor, and shall be fully and unconditionally guaranteed, as to both the principal thereof and the interest thereon, by the United States, and such guaranty shall be expressed on the face thereof. In the event that the General Insurance Fund fails to pay upon demand, when due, the principal of or the interest on any debentures so guaranteed, the Secretary of the Treasury shall pay to the holders the amount thereof, which is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, and thereupon, to the extent of the amount so paid, the Secretary of the Treasury shall succeed to all the rights of the holders of such debentures.

(h) Notwithstanding any other provisions of law relating to the acquisition, handling, or disposal of real and other property by the United States, the 【Commissioner】 *Secretary* shall have power, for the protection of the General Insurance Fund, to pay out of said Fund all expenses or charges in connection with, and to deal with, complete, reconstruct, rent, renovate, modernize, insure, make contracts for the management of, or establish suitable agencies for the management of, or sell for cash or credit or lease in his discretion, in whole or in part, any project acquired pursuant to this title; and, notwithstanding any other provisions of law, the 【Commissioner】 *Secretary* shall also have power to pursue to final collection by way of compromise or otherwise all claims acquired by, or assigned or transferred to him in connection with the acquisition or disposal of any project pursuant to this title: *Provided*, That section 3709 of the Revised Statutes shall not be construed to apply to any contract for hazard insurance, or to any purchase or contract for services or supplies on account of any project acquired pursuant to this title if the amount of such purchase or contract does not exceed \$1,000.

TERMINATION

SEC. 709. The investor, after written notice to the 【Commissioner】 *Secretary* of his intention so to do, may terminate, as of the close of any operating year, any insurance contract made pursuant to this title.

The **Commissioner** *Secretary* shall prescribe the events and conditions under which said **Commissioner** *Secretary* shall have the option to terminate any insurance contract made pursuant to this title, and the events and conditions under which said **Commissioner** *Secretary* may reinstate any insurance contract terminated pursuant to this section or section 708(a). If any insurance contract is terminated pursuant to this section, the **Commissioner** *Secretary* may require the investor to pay an adjusted premium charge in such amount as the **Commissioner** *Secretary* determines to be equitable, but not in excess of the aggregate amount of the premium charges which such investor otherwise would have been required to pay if such insurance contract had not been so terminated.

INSURANCE FUND

SEC. 710.

TAXATION PROVISIONS

SEC. 711. Nothing in this title shall be construed to exempt any real property acquired and held by the **Commissioner** *Secretary* under this title from taxation by any State or political subdivision thereof, to the same extent, according to its value, as other real property is taxed.

RULES AND REGULATIONS

SEC. 712. The **Commissioner** *Secretary* may make such rules and regulations as may be necessary or desirable to carry out the provisions of this title, including, without limiting the foregoing, rules and regulations relating to the maintenance by the investor of books, records, and accounts with respect to the project and the examination of such books, records, and accounts by representatives of the **Commissioner** *Secretary*; the submission of financial and operating statements and the approval thereof; the submission of claims for payments under insurance contracts, the proof of the validity of such claims, and the payment or disallowance thereof; the increase of the established investment if the investor shall make capital improvements or additions to the project; the decrease of the established investment if the investor shall sell part of the project; and the reduction of the outstanding investment for the appropriate operating year or operating years pending the restoration of dwelling or nondwelling facilities damaged by fire or other casualty. With respect to any investor which is subject to supervision or regulation by a State banking, insurance, or other State department or agency, the **Commissioner** *Secretary* may, in carrying out any of his supervisory and regulatory functions with respect to projects insured under this title, utilize, contract with, and act through such department or agency and without regard to section 3709 of the Revised Statutes.

DEFINITIONS

SEC. 713. The following terms shall have the meanings, respectively, ascribed to them below, and, unless the context clearly indicates otherwise, shall include the plural as well as the singular number:

(a) "Investor" shall mean (1) any natural person; (2) any group of not more than ten natural persons; (3) any corporation, company,

association, trust, or other legal entity; or (4) any combination of two or more corporations, companies, associations, trusts, or other legal entities, having all the powers necessary to comply with the requirements of this title, which the [Commissioner] *Secretary* (i) shall find to be qualified by business experience and facilities, to afford assurance of the necessary continuity of long-term investment, and to have available the necessary capital required for long-term investment in the project, and (ii) shall approve as eligible for insurance under this title.

(b) "Project" shall mean a project (including all property, real and personal, contracts, rights, and choses in action acquired, owned, or held by the investor in connection therewith) of an investor designed and used primarily for the purpose of providing dwellings the occupancy of which is permitted by the investor in consideration of agreed charges: *Provided*, That nothing in this title shall be construed as prohibiting the inclusion in a project of such stores, offices, or other commercial facilities, recreational or community facilities, or other non-dwelling facilities as the [Commissioner] *Secretary* shall determine to be necessary or desirable appurtenances to such project.

(c) "Estimated investment" shall mean the estimated cost of the development of the project, as stated in the application submitted to the [Commissioner] *Secretary* for insurance under this title.

(d) "Established investment" shall mean the amount of the reasonable costs, as approved by the [Commissioner] *Secretary*, incurred by the investor in, and necessary for, carrying out all works and undertakings for the development of a project and shall include the premium charge for the first operating year and the cost of all necessary surveys, plans and specifications, architectural, engineering, or other special services, land acquisition, site preparation, construction, and equipment; a reasonable return on the funds of the investor paid out in the course of the development of the project, up to and including the initial occupancy date; necessary expenses in connection with the initial occupancy of the project; and the cost of such other items as the [Commissioner] *Secretary* shall determine to be necessary for the development of the project, (1) less the amount by which the rents and revenues derived from the project up to and including the initial occupancy date exceeded the reasonable and proper expenses, as approved by the [Commissioner] *Secretary*, incurred by the investor in, and necessary for, operating and maintaining said project up to and including the initial occupancy date, or (2) plus the amount by which such expenses exceeded such rents and revenues, as the case may be.

(e) "Physical completion date" shall mean the last day of the calendar month in which the [Commissioner] *Secretary* determines that the construction of the project is substantially completed and substantially all of the dwellings therein are available for occupancy.

(f) "Initial occupancy date" shall mean the last day of the calendar month in which 90 per centum in number of the dwellings in the project on the physical completion date shall have been occupied, but shall in no event be later than the last day of the sixth calendar month next following the physical completion date.

(g) "Operating year" shall mean the period of twelve consecutive calendar months next following the initial occupancy date and each succeeding period of twelve consecutive calendar months, and the

period of the first twelve consecutive calendar months next following the initial occupancy date shall be the first operating year.

(h) "Gross income" for any operating year shall mean the total rents and revenues and other income derived from, or in connection with, the project during such operating year.

TITLE VIII—ARMED SERVICES HOUSING MORTGAGE INSURANCE

SEC. 801. As used in this title—

(a) The term "mortgage" means a first mortgage on real estate, in fee simple, or on a leasehold (1) under a lease for not less than ninety-nine years which is renewable; or (2) under a lease for a period of not less than fifty years to run from the date the mortgage was executed; and the term "first mortgage" means such classes of first liens as are commonly given to secure advances on, or the unpaid purchase price of, real estate, under the laws of the State in which the real estate is located, together with the credit instruments, if any, secured hereby.

(b) The term "mortgagee" includes the original lender under a mortgage, and his successors and assigns approved by the [Commissioner] *Secretary*; and the term "mortgagor" includes the original borrower under a mortgage, his successors and assigns.

(c) The term "maturity date" means the date on which the mortgage indebtedness would be extinguished if paid in accordance with periodic payments provided for in the mortgage.

(d) The term "housing accommodations" means housing designed for occupancy by military personnel and their dependents, assigned to duty at or near the military installation where such housing units are constructed.

(e) The term "personnel" shall include military and civilian personnel approved by the Secretary of Defense, or his designee, and the dependents of all such personnel.

(f) The term "military" includes Army, Navy, Marine Corps, Air Force, and Coast Guard.

(g) The term "State" includes the several States, and Puerto Rico, the District of Columbia, Guam, the Virgin Islands, the Canal Zone, and Midway Island."

SEC. 802.

SEC. 803. (a) In order to assist in relieving the acute shortage and urgent need for family housing which now exists at or in areas adjacent to military installations because of uncertainty as to the permanency of such installations and to increase the supply of necessary family housing accommodations for personnel at such installations, the [Commissioner] *Secretary* is authorized, upon application of the mortgagee, to insure mortgages (including advances on such mortgages during construction) which are eligible for insurance as hereinafter provided, and, upon such terms as the [Commissioner] *Secretary* may prescribe, to make commitments for so insuring such mortgages prior to the date of their execution or disbursement thereon: *Provided*, That the aggregate amount of principal obligations of all mortgages insured under this title (except mortgages insured pursuant to the provisions of this title in effect prior to the enactment of the Housing

Amendments of 1955) shall not exceed \$2,300,000,000: *And provided further*, That the limitation in section 217 of this Act shall not apply to this title: *And provided further*, That no more mortgages shall be insured under this section after October 1, 1962, except pursuant to a commitment to insure before such date, and not more than twenty-eight thousand family housing units shall be contracted for after June 30, 1959, pursuant to any mortgage insured under this section after such date.

(b) To be eligible for insurance under this title a mortgage shall meet the following conditions:

(1) The mortgaged property shall be held by a mortgagor approved by the **[Commissioner]** *Secretary*. The **[Commissioner]** *Secretary* may, in his discretion, require such mortgagor to be regulated or restricted as to capital structure, and methods of operation. The **[Commissioner]** *Secretary* may make such contracts with, and acquire for not to exceed \$100 stock or interest in, any such mortgagor, as the **[Commissioner]** *Secretary* may deem necessary to render effective such restriction or regulation. Such stock or interest shall be paid for out of the General Insurance Fund, and shall be redeemed by the mortgagor at par upon the termination of all obligations of the **[Commissioner]** *Secretary* under the insurance.

(2) The mortgaged property shall be designed for use for residential purposes by personnel of the armed services and situated at or near a military installation, and the **[Secretary or his designee]** *Secretary of Defense or his designee* shall have certified that there is no intention, so far as can reasonably be foreseen, to substantially curtail the personnel assigned or to be assigned to such installation, and (i) shall have determined that for reasons of safety, security, or other essential military requirements, it is necessary that the personnel involved reside in public quarters (*Provided, however*, That for the purposes of this subsection housing covered by a mortgage insured, or for which a commitment to insure has been issued under section 803 prior to the enactment of the "Housing Amendments of 1955" may be considered the same as available quarters), and (ii) with the approval of the **[Commissioner]** *Secretary*, shall have determined that adequate housing is not available for such personnel at reasonable rentals within reasonable commuting distance of the installation and that the mortgaged property will not, so far as can reasonably be foreseen, substantially curtail occupancy in existing housing covered by mortgages insured under this Act. The housing accommodations shall comply with such standards and conditions as the **[Commissioner]** *Secretary* may prescribe to establish the acceptability of such property for mortgage insurance, except that the certification of the Secretary of Defense or his designee shall (for purposes of mortgage insurance under this title) be conclusive evidence to the **[Commissioner]** *Secretary* of the existence of the need for such housing. However, if the **[Commissioner]** *Secretary* does not concur in the housing needs as **[certified by the Secretary]** *certified by the Secretary of Defense*, the **[Commissioner]** *Secretary* may **[require the Secretary]** *require the Secretary of Defense* to guarantee the General Insurance Fund against loss with respect to the mortgage covering such housing. The **[Commissioner]** *Secretary* shall report to the Committees on Banking and Currency of the Senate and the House of Representatives

each instance in which he has required the **Secretary** *Secretary of Defense to guarantee* the General Insurance Fund, with reasons therefor. There are hereby authorized to be appropriated such sums as may be necessary to provide for payment to meet losses arising from such guaranty.

(3) The mortgage shall involve a principal obligation in an amount—

(A) not to exceed the amount which the **Commissioner** *Secretary* estimates will be the replacement cost of the property or project when the proposed improvements are completed (the cost of the property or project as such term is used in this paragraph may include the cost of the land, the physical improvements, and utilities within the boundaries of the property or project);

(B) not to exceed an average of \$16,500 per family unit for such part of such property or project (including ranges, refrigerators, shades, screens, and fixtures) as may be attributable to dwelling use: *Provided*, That the replacement cost of the property or project as determined by the **Commissioner** *Secretary*, including the estimated value of any usable utilities within the boundaries of the property or project where owned by the United States and not provided for out of the proceeds of the mortgage, shall not exceed an average of \$16,500 per family unit: *Provided further*, That should the financing of housing to be constructed pursuant to a single invitation for bids be accomplished by two or more mortgages, the principal obligation of any single mortgage may exceed an average of \$16,500 per family unit if the sum of the principal obligations of all mortgages for such housing does not exceed an average of \$16,500 per family unit: *And provided further*, That subject to the limitations of this paragraph no family unit included in any mortgaged property shall be contracted for after the date of enactment of the Military Construction Act of 1960 if the cost of such unit exceeds \$19,800; and

(C) not to exceed the bid of the eligible bidder with respect to the property or project under section 403 of the Housing Amendments of 1955.

The mortgage shall provide for complete amortization by periodic payments within such terms as the **Commissioner** *Secretary* shall prescribe, but not to exceed thirty years from the beginning of amortization of the mortgage, and shall bear interest (exclusive of premium charges for insurance) at not to exceed 4½ per centum per annum of the amount of the principal obligation outstanding at any time. The **Commissioner** *Secretary* may consent to the release of a part or parts of the mortgaged property from the lien of the mortgage upon such terms and conditions as he may prescribe and the mortgage may provide for such release. The property or project may include such non-dwelling facilities as the **Commissioner** *Secretary* deems adequate to serve the occupants.

(c) The **Commissioner** *Secretary* is authorized to fix a premium charge for the insurance of mortgages under this title but in the case of any mortgage such charge shall not be less than an amount equivalent to one-half of 1 per centum per annum nor more than an amount equivalent to 1½ per centum per annum of the amount of the principal obligation of the mortgage outstanding at any time, without taking

into account delinquent payments or prepayments. Such premium charges shall be payable by the mortgagee, either in cash, or in debentures issued by the [Commissioner] *Secretary* under this title at par plus accrued interest, in such manner as may be prescribed by the [Commissioner] *Secretary*: *Provided*, That the [Commissioner] *Secretary* mortgagee for insurance and the tender of the initial premium charge at the time the mortgage is insured, at such discount rate as he may prescribe not in excess of the interest rate specified in the mortgage. If the [Commissioner] *Secretary* finds, upon, the presentation of a mortgage for insurance and the tender of the initial premium charge and such other charges as the [Commissioner] *Secretary* may require that the mortgage complies with the provisions of this title, such mortgage may be accepted for insurance by endorsement or otherwise as the [Commissioner] *Secretary* may prescribe. In the event that the principal obligation of any mortgage accepted for insurance under this title is paid in full prior to the maturity date, the [Commissioner] *Secretary* is authorized to refund to the mortgagee for the account of the mortgagor all, or such portion as he shall determine to be equitable, of the current unearned premium charges theretofore paid. The [Commissioner] *Secretary* may reduce the payment of premium provided for herein. The [Commissioner] *Secretary* is further authorized to reduce the amount of the premium charge below one-half of 1 per centum per annum with respect to any mortgage on property acquired by the Secretary of Defense or his designee if the mortgage is insured pursuant to the provisions of this title as in effect prior to August 11, 1955.

(d) The failure of the mortgagor to make any payment due under or provided to be paid by the terms of a mortgage insured under this title shall be considered a default under such mortgage, and, if such default continues for a period of thirty days, the mortgagee shall be entitled to receive the benefits of the insurance as hereinafter provided, upon assignment, transfer, and delivery to the [Commissioner] *Secretary*, within a period and in accordance with rules and regulations to be prescribed by the [Commissioner] *Secretary* of (1) all rights and interest arising under the mortgage so in default; (2) all claims of the mortgagee against the mortgagor or others, arising out of the mortgage transactions; (3) all policies of title or other insurance or surety bonds or other guaranties and any and all claims thereunder; (4) any balance of the mortgage loan not advanced to the mortgagor; (5) any cash or property held by the mortgagee, or to which it is entitled, as deposits made for the account of the mortgagor and which have not been applied in reduction of the principal of the mortgage indebtedness; and (6) all records, documents, books, papers, and accounts relating to the mortgage transaction. Upon such assignment, transfer, and delivery, the obligation of the mortgagee to pay the premium charges for mortgage insurance shall cease, and the [Commissioner] *Secretary* shall, subject to the cash adjustment provided for in subsection (e) of this section, issue to the mortgagee debentures having a total face value equal to the value of the mortgage, and a certificate of claim as hereinafter provided. For the purposes of this subsection, the value of the mortgage shall be determined in accordance with rules and regulations prescribed by the [Commissioner]

Secretary, by adding to the amount of the original principal obligation of the mortgage which was unpaid on the date of default, the amount the mortgagee may have paid for (A) taxes, special assessments, and water rates, which are liens prior to the mortgage; (B) insurance on the property; and (C) reasonable expenses for the completion and preservation of the property and any mortgage insurance premiums paid after default; less the sum of (i) any amount received on account of the mortgage after such date; and (ii) any net income received by the mortgagee from the property after such date.

(e) Debentures issued under this title shall be in such form and denominations in multiples of \$50, shall be subject to such terms and conditions, and shall include such provisions for redemption, if any, as may be prescribed by the **[Commissioner]** *Secretary* with the approval of the Secretary of the Treasury, and may be in coupon or registered form. Any difference between the value of the mortgage determined as herein provided and the aggregate face value of the debentures issued, not to exceed \$50, shall be adjusted by the payment of cash by the **[Commissioner]** *Secretary* to the mortgagee from the General Insurance Fund.

(f) Debentures issued under this title shall be executed in the name of the General Insurance Fund as obligor, shall be signed by the **[Commissioner]** *Secretary*, by either his written or engraved signature, and shall be negotiable. All such debentures shall be dated as of the date of default as determined in accordance with subsection (d) of this section, and shall bear interest from such date at a rate established by the **[Commissioner]** *Secretary* pursuant to section 224, payable semiannually on the 1st day of January and the 1st day of July of each year, and shall mature twenty years after the date thereof. Such debentures shall be exempt, both as to principal and interest, from all taxation (except surtaxes, estate, inheritance, and gift taxes) now or hereafter imposed by any Territory, dependency, or possession of the United States or by the District of Columbia, or by any State, county, municipality, or local taxing authority. They shall be paid out of the General Insurance Fund, which shall be primarily liable therefor, and they shall be fully and unconditionally guaranteed as to principal and interest by the United States, and such guaranty shall be expressed on the face of the debentures. In the event the General Insurance Fund fails to pay upon demand, when due, the principal of or interest on any debentures so guaranteed, the Secretary of the Treasury shall pay to the holders the amount thereof which is hereby authorized to be appropriated, and thereupon to the extent of the amount so paid the Secretary of the Treasury shall succeed to all the rights of the holders of such debentures.

(g) The certificate of claim issued by the **[Commissioner]** *Secretary* to any mortgagee in connection with the insurance of mortgages under this title shall be for an amount determined in accordance with subsections (e) and (f) of section 604 of this Act, except that any amount remaining after the payment of the full amount under the certificate of claim shall be retained by the **[Commissioner]** *Secretary* and credited to the General Insurance Fund.

(h) The provisions of section 207(k) and section 207(1) of this Act shall be applicable to mortgages insured under this title and to property acquired by the **[Commissioner]** *Secretary* hereunder, except

that, as applied to such mortgages and property, the reference in section 207(k) to subsection (g) shall be construed to refer to subsection (d) of this section.

(i) The **Commissioner** *Secretary* shall also have power to insure under this title or title II any mortgage executed in connection with the sale by him of any property acquired under this title without regard to any limit as to eligibility, time or aggregate amount contained in this title or title II.

(j) Any contract of insurance executed by the **Commissioner** *Secretary* under this title shall be conclusive evidence of the eligibility of the mortgage for insurance and the validity of any contract of insurance so executed shall be incontestable in the hands of an approved mortgagee from the date of the execution of such contract, except for fraud or misrepresentation on the part of such approved mortgagee.

(k) The **Commissioner** *Secretary* shall not insure any mortgage under this section unless the principal contractor or contractors engaged in the construction of the project involved file a certificate or certificates (at such times, in the course of construction or otherwise, as the **Commissioner** *Secretary* may prescribe) certifying that the laborers and mechanics employed in the construction of such project have been paid not less than one and one-half times the regular rate of pay for employment in excess of eight hours in any one day or in excess of forty hours in any one week.

SEC. 804.

SEC. 805. Whenever the Secretary of the Army, Navy, or Air Force determines that it is necessary to lease any land held by the United States on or near a military installation to effectuate the purposes of this title, he may lease such land upon such terms and conditions as will, in his opinion, best serve the national interest. The authority conferred by this section shall be in addition to and not in derogation of any other power or authority of the Secretary of the Army, Navy, or Air Force.

SEC. 806. The second sentence of section 214 of the National Housing Act, as amended, relating to housing in the State¹ of Alaska, shall not apply to mortgages insured under this title on property in said State.

SEC. 807. The **Commissioner** *Secretary* is authorized and directed to make such rules and regulations as may be necessary to carry out the provisions of this title. **[In the performance of, and with respect to, the functions, powers, and duties vested in him by this title, the Commissioner, notwithstanding the provisions of any other law, shall appoint a Special Assistant for Armed Services Housing for Mortgage Insurance, and provide the Special Assistant with adequate staff, whose whole responsibility will be to expedite operations under this title and to eliminate administrative obstacles to the full utilization of this title under the direction and supervision of the Commissioner.]**

SEC. 808. Except in the case of mortgages on multifamily rental housing projects insured under section 810, the cost certification required under section 227 of this Act shall not be required with respect to mortgages insured under the provisions of this title as amended by the Housing Amendments of 1955.

SEC. 809. (a) Notwithstanding any other provisions of this title and in addition to mortgages insured under section 803, the **Commis-**

sioner] *Secretary* may insure any mortgage under this section which meets the eligibility requirements set forth in section 203(b) of this Act: *Provided*, That a mortgage insured under this section shall have been executed by a mortgagor who at the time of insurance is the owner of the property and either occupies the property or certifies that his failure to do so is the result of a change in his employment by the Armed Forces or a contractor thereof and to whom the [Secretary or his designee] *Secretary of Defense or his designee* has issued a certificate indicating that such person requires housing and is at the date of the certificate a civilian employee at a research or development installation of one of the military departments of the United States or a contractor thereof and is considered by such military department to be an essential, nontemporary employee at such date. Such certificate shall be conclusive evidence to the [Commissioner] *Secretary* of the employment status of the mortgagor and of the mortgagor's need for housing.

(b) No mortgage shall be insured under this section unless the [Secretary or his designee] *Secretary of Defense or his designee* shall have certified to the [Commissioner] *Secretary* that the housing is necessary to provide adequate housing for such civilians employed in connection with such a research or development installation and that there is no present intention to substantially curtail the number of such civilian personnel assigned or to be assigned to such installation. Such certification shall be conclusive evidence to the [Commissioner] *Secretary* of the need for such housing but if the [Commissioner] *Secretary* determines that insurance of mortgages on such housing is not an acceptable risk, he may require the [Secretary to guarantee] *Secretary of Defense to guarantee* the General Insurance Fund from loss with respect to mortgages insured pursuant to this section. There are hereby authorized to be appropriated such sums as may be necessary to provide for payment to meet losses arising from such guaranty.

(c) The [Commissioner] *Secretary* may accept any mortgage for insurance under this section without regard to any requirement in any other section of this Act, that the project or property be economically sound or an acceptable risk.

(d) Any mortgagee under a mortgage insured under this section is entitled to the benefits of insurance as provided in section 204(a) with respect to mortgages insured under section 203.

(e) The provisions of subsections (b), (c), (d), (e), (f), (g), (h), (j), and (k) of section 204 shall apply to mortgages insured under this section except that as applicable to those mortgages: (1) all references to the "Fund" or "Mutual Mortgage Insurance Fund" shall refer to the "General Insurance Fund" and (2) all references to section 203 shall refer to this section.

(f) The provisions of sections 801, 802, 803(c), 803(i), 803(j), 804(a), 804(b), and 807 and the provisions of section 803(a) relating to the aggregate amount of all mortgages insured under this title, shall be applicable to mortgages insured under this section. No more mortgages shall be insured under this section after October 1, 1969, except pursuant to a commitment to insure before such date.

(g) (1) A mortgage secured by property which is intended to provide housing for a person (i) employed or assigned to duty at or in connection with any research or development installation of the Na-

tional Aeronautics and Space Administration and which is located at or near such installation, or (ii) employed at any research or development installation of the Atomic Energy Commission and which is located at or near such installation, may (if the mortgage otherwise meets the requirements of this section) be insured by the **[Commissioner]** *Secretary* under the provisions of this section. The Administrator of the National Aeronautics and Space Administration (or his designee), in the case of any mortgage secured by property intended to provide housing for any person employed or assigned to duty at any such installation of the National Aeronautics and Space Administration, or the Chairman of the Atomic Energy Commission (or his designee), in the case of any mortgage secured by property intended to provide housing for any person employed at such installation of the Atomic Energy Commission, is authorized to guarantee and indemnify the General Insurance Fund against loss to the extent required by the **[Commissioner]** *Secretary* in accordance with the provisions of subsection (b) of this section.

(2) For purposes of this subsection—

(i) The terms “Armed Forces”, “one of the military departments of the United States”, “military department”, **[“Secretary or his designee”, and “Secretary”]** *“Secretary of Defense or his designee”, and “Secretary of Defense”*, when used in subsections (a) and (b) of this section, shall be deemed to refer to the National Aeronautics and Space Administration (or the Administrator thereof), or the Atomic Energy Commission (or the Chairman thereof), as may be appropriate;

(ii) The term “Secretary of the Army, Navy, or Air Force”, when used in section 805, shall be deemed to refer to the National Aeronautics and Space Administration or the Administrator thereof, as may be appropriate;

(iii) The terms “civilian employee”, “civilans”, and “civilian personnel”, as used in this section, shall be deemed to refer to (A) employees of **[such Administration]** *National Aeronautics and Space Administration* or a contractor thereof or to military personnel assigned to duty at an installation of **[such Administration]** *National Aeronautics and Space Administration*, or (B) persons employed at or in connection with any research or development installation of the Atomic Energy Commission, as the case may be; and

(iv) The term “military installation” when used in section 805 shall be deemed to refer to an installation of the National Aeronautics and Space Administration.

SEC. 810. (a) Notwithstanding any other provision of this title, the **[Commissioner]** *Secretary* may insure and make commitments to insure any mortgage under this section which meets the eligibility requirements hereinafter set forth.

(b) No mortgage shall be insured under this section unless (1) the housing which is covered by the insured mortgage is necessary in the interest of national security in order to provide adequate housing for (A) military personnel and essential civilian personnel serving or employed in connection with any installation of one of the armed services of the United States, or (B) essential personnel employed or as-

signed to duty at or in connection with any research or development installation of the National Aeronautics and Space Administration or of the Atomic Energy Commission, (2) there is no present intention to curtail substantially the number of such personnel assigned or to be assigned to the installation, (3) adequate housing is not available for such personnel at reasonable rentals within reasonable commuting distances of such installation, and (4) the mortgaged property will not so far as can be reasonably foreseen substantially curtail occupancy in any existing housing in the vicinity of the installation which is covered by mortgages insured under this Act.

(c) The **【Commissioner】** *Secretary* may accept any mortgage for insurance under this section without regard to any requirement in any other section of this Act that the property or project be economically sound.

(d) The **【Commissioner】** *Secretary* shall require each project covered by a mortgage insured under this section to be held for rental for a period of not less than five years after the project or dwelling is made available for initial occupancy or until he finds that the housing may be released from such rental condition. The **【Commissioner】** *Secretary* shall prescribe such procedures as in his judgment are necessary to secure reasonable preference or priority in the sale or rental of dwellings covered by a mortgage insured under this section for military personnel and essential civilian employees of the armed services, employees of contractors for the armed services and persons described in clause (1) (B) of subsection (b) of this section.

(e) For the purpose of providing multifamily rental housing projects or housing projects consisting of individual single-family dwellings for sale, the **【Commissioner】** *Secretary* is authorized to insure mortgages (including advances on such mortgages during construction) which cover property held by a private corporation, association, cooperative society, or trust. Any such mortgagor shall possess powers necessary therefore and incidental thereto and shall until the termination of all obligations of the **【Commissioner】** *Secretary* under such insurance be regulated or restricted as to rents or sales, charges, capital structure, rate of return, and methods of operation to such extent and in such manner as to provide reasonable rentals to tenants and a reasonable return on the investment. The **【Commissioner】** *Secretary* may make such contracts with, and acquire for not to exceed \$100 such stock or interest in, any such corporation, association, cooperative society, or trust as he may deem necessary to render effective such restriction or regulation. Such stock or interest shall be paid for out of the General Insurance Fund, and shall be redeemed by the corporation, association, cooperative society, or trust at par upon the termination of all obligations of the **【Commissioner】** *Secretary* under the insurance.

(f) To be eligible for insurance under this section, a mortgage on any multifamily rental property or project shall involve a principal obligation in an amount (1) not to exceed \$5,000,000 or (2) not to exceed, for such part of such property or project as may be attributable to dwelling use, \$9,000 per family unit without a bedroom, \$12,500 per family unit with one bedroom, \$15,000 per family unit with two bedrooms, and \$18,500 per family unit with three or more bedrooms and

not to exceed 90 per centum of the estimated value of the property or project when the proposed physical improvements are completed. The **[Commissioner]** *Secretary* may, by regulation, increase any of the foregoing dollar amount limitations contained in this paragraph by not to exceed 45 per centum in any geographical area where he finds that cost levels so require.

(g) To be eligible for insurance under this section a mortgage on any property or project constructed for eventual sale of single-family dwellings shall involve a principal obligation in an amount not to exceed \$5,000,000 and not to exceed a sum computed on the basis of a separate mortgage for each single-family dwelling (irrespective of whether such dwelling has a party wall or is otherwise physically connected with another dwelling or dwellings) comprising the property or project equal to the total of each of the maximum principal obligations of such mortgages which would meet the requirements of section 203(b) (2) of this Act if the mortgagor were the owner and occupant who had made the required payment on account of the property prescribed in such paragraph.

(h) Any mortgage insured under this section shall provide for complete amortization by periodic payments within such terms as the **[Commissioner]** *Secretary* may prescribe but not to exceed the maximum term applicable to mortgages under section 207 of this Act and shall bear interest (exclusive of premium charges for insurance) at not to exceed the rate applicable to mortgages insured under section 207, except that individual mortgages of the character described in subsection (g) covering the individual dwellings in the project may have a term not in excess of the maximum term applicable to mortgages insured under section 203 of this Act or the unexpired term of the project mortgage at the time of the release of the mortgaged property from such project mortgage, whichever is the greater, and shall bear interest at not to exceed the rate applicable to mortgages insured under section 203. The **[Commissioner]** *Secretary* may consent to the release of a part or parts of the mortgaged property from the lien of the mortgage upon such terms and conditions as he may prescribe and the mortgage may provide for such release, and a mortgage of the character described in subsection (g) of this section may provide that, at any time after the release of the project from the rental period prescribed by subsection (d), such mortgage may be replaced, in whole or in part, by individual mortgages covering each individual dwelling in the project in amounts not to exceed the unpaid balance of the blanket mortgage allocable to the individual property. Each such individual mortgage may be insured under this section. Property covered by a mortgage insured under this section may include eight or more family units and may include such commercial and community facilities as the **[Commissioner]** *Secretary* deems adequate to serve the occupants.

(i) The aggregate number of dwelling units (including all units in multifamily projects or individual dwellings) covered by outstanding commitments to insure and mortgages insured under this section shall at no time exceed five thousand dwelling units.

(j) The provisions of subsections (d), (e), (g), (h), (i), (j), (k), (l), and (n) of section 207 of this title shall be applicable to mortgages

insured under this section except individual mortgages of the character described in subsection (g) of this section covering the individual dwellings in the project, and as to such individual mortgages the provisions of subsections (a), (c), (d), (e), (f), (g), (h), (j), and (k) of section 204 shall be applicable: *Provided*, That wherever the words "Fund", or "Mutual Mortgage Insurance Fund" appear in section 204, such reference shall refer to the General Insurance Fund with respect to mortgages insured under this section.

(k) The provisions of section 801, 802, 803(c), 803(i), 803(j), 804(a), 804(b), and 807 and the provisions of section 803(a) relating to the aggregate amount of all mortgages insured under this title shall be applicable to mortgages insured under this section. No more mortgages shall be insured under this section after October 1, 1969, except pursuant to a commitment to insure before such date.

(l) Repealed.

SEC. 811. (a) The **【Commissioner】** *Secretary* is authorized to make payments in lieu of taxes on any real property to which title has been or is hereafter acquired by him in fee under section 803 as effective prior to August 11, 1955, and on which taxes or payments in lieu of such taxes were payable or paid prior to acquisition by the **【Commissioner】** *Secretary*. Such payments may be made in connection with tax years occurring prior to or subsequent to the date of the enactment of this section. The amount of any such payments shall not exceed taxes on similar property and shall not include interest or penalties. If the **【Commissioner】** *Secretary* has acquired or hereafter acquires title in fee to real property by foreclosure or by transfer from some other department or agency of the Government or otherwise during a tax year, he may make a payment in lieu of taxes prorated for that portion of the year remaining after his acquisition of title. This subsection shall not authorize any lien against property held by the **【Commissioner】** *Secretary*, nor the payment of any tax, nor any payment in lieu of any tax, on any interest of the **【Commissioner】** *Secretary* as lessee or mortgagee.

(b) Nothing in this title shall be construed to exempt any real property which has been or is hereafter acquired and held by the **【Commissioner】** *Secretary* under section 809 or 810 from taxation by any State or political subdivision thereof, to the same extent, according to its value, as other real property is taxed.

TITLE IX—NATIONAL DEFENSE HOUSING INSURANCE

SEC. 901. As used in this title, the terms "mortgage," "first mortgage," "mortgagee," "mortgagor," "maturity date," and "State" shall have the same meaning as in section 201 of this Act.

SEC. 902.

SEC. 903. (a) This title is designed to supplement systems of mortgage insurance under other provisions of the National Housing Act in order to assist in providing adequate housing in areas which the President, pursuant to section 101 of the Defense Housing and Community Facilities and Services Act of 1951, shall have determined to be critical defense housing areas. The **【Commissioner】** *Secretary* is authorized upon application by the mortgagee, to insure under this

section or section 908 as hereinafter provided any mortgage which is eligible for insurance as hereinafter provided and upon such terms as the **[Commissioner]** *Secretary* may prescribe to make commitments for the insuring of such mortgages prior to the date of their execution or disbursement thereon: *Provided*, That the property covered by the mortgage is in an area which the President, pursuant to section 101 of the Defense Housing and Community Facilities and Services Act of 1951, shall have determined to be a critical defense housing area, and that the total number of dwelling units in properties covered by mortgages insured under this title in any such area does not exceed the number authorized by the **[Housing and Home Finance Administrator]** *Secretary of Housing and Urban Development* from time to time as needed in such area for defense purposes and to be insured pursuant to this title: *Provided further*, That in the event the **[Commissioner]** *Secretary* has issued a commitment to insure a mortgage under section 903 of this title, which commitment was in force and effect on June 1, 1953, and the **[Commissioner]** *Secretary* determines that, because of changes in defense requirements, there is reasonable doubt that such housing is needed for defense purposes and that it is probable that the mortgage would become immediately in default and claim made for payment under the mortgage insurance contract if the unit or units are completed and the mortgage insured, the **[Commissioner]** *Secretary* is authorized, in the interest of conserving the General Insurance Fund, to pay (in cash from the General Insurance Fund) to the mortgagee for the account of the mortgagor such amount as the **[Commissioner]** *Secretary* shall determine to be necessary to reimburse the mortgagor the amounts paid or to be paid by the mortgagor on account of labor performed and materials in place, less the **[Commissioner's]** *Secretary's* estimate of the reasonable salvage value of such materials, plus an allowance for the development costs equal to 4 per centum of the principal amount of the mortgage specified in such commitment, and no payments shall be made pursuant to this proviso unless a claim therefor is filed not later than six months from date of the determination of lack of need and the claim is in such form and contains such supporting information, documents, and data as the **[Commissioner]** *Secretary* may require: *Provided further*, That the aggregate amount of principal obligations of all mortgages insured under this title shall not exceed such sum as may be authorized by the President from time to time for the purposes of this title pursuant to his authority under section 217 hereof: *Provided further*, That the **[Commissioner]** *Secretary* shall have power to require properties covered by mortgage insured under this title to be held for rental for such periods of time and at such rentals or other charges as he may prescribe; and, with respect to such properties being held for rental, (1) to require that the property be held by a mortgagor approved by him, and (2) to prescribe such requirements as he deems to be reasonable governing the method of operation and prohibiting or restricting sales of such properties or interests therein or agreements relating to such sales: *Provided further*, That the **[Commissioner]** *Secretary* shall require each dwelling covered by a mortgage insured under this section, for which a commitment to insure is issued after the effective date of the Housing Act of 1954, to be held for rental for a period of not less than three years after the dwelling is made available for initial

occupancy: *And provided further*, That no mortgage shall be insured under this title unless the mortgagor certifies under oath that in selecting tenants for any property covered by the mortgage he will not discriminate against any family by reason of the fact that there are children in the family, and that he will not sell the property while the insurance is in effect unless the purchaser so certifies, such certification to be filed with the **[Commissioner]** *Secretary*. Violation of any such certification shall be a misdemeanor punishable by a fine of not to exceed \$500.

(b) To be eligible for insurance under this section a mortgage shall—

(1) have been made to, and be held by, a mortgagee approved by the **[Commissioner]** *Secretary* as responsible and able to service the mortgage properly;

(2) involve a principal obligation (including such initial service charges, appraisal, inspection, and other fees as the **[Commissioner]** *Secretary* shall approve) in an amount not to exceed 90 per centum of the appraised value (as of the date the mortgage is accepted for insurance) of a property, urban, suburban, or rural, upon which there is located a dwelling designed principally for residential use for not more than two families in the aggregate, which is approved for mortgage insurance prior to the beginning of construction, the construction of which is begun after the date of enactment of this title. The principal obligation of such mortgage shall not, however, exceed \$8,100 if such dwelling is designed for a single-family residence, or \$15,000 if such dwelling is designed for a two-family residence except that the **[Commissioner]** *Secretary* may by regulation increase these amounts to not to exceed \$9,000 and \$16,000, respectively, in any geographical area where he finds that cost levels so require: *Provided*, That if the **[Commissioner]** *Secretary* finds that it is not feasible within the aforesaid dollar amount limitations to construct dwellings containing three or four bedrooms per family unit without sacrifice of sound standards of construction, design, and livability, he may increase such dollar amount limitations by not exceeding \$1,080 for each additional bedroom (as defined by the **[Commissioner]** *Secretary*) in excess of two contained in such family unit if he finds that such unit meets sound standards of livability as a three-bedroom or a four-bedroom unit, as the case may be;

(3) have a maturity satisfactory to the **[Commissioner]** *Secretary* but not to exceed thirty years from the date of the insurance of the mortgage;

(4) contain complete amortization provisions satisfactory to the **[Commissioner]** *Secretary*;

(5) bear interest (exclusive of premium charges for insurance) at not to exceed $4\frac{1}{2}$ per centum per annum on the amount of the principal obligation outstanding at any time;

(6) provide, in a manner satisfactory to the **[Commissioner]** *Secretary*, for the application of the mortgagor's periodic payments (exclusive of the amount allocated to interest and to the premium charge which is required for mortgage insurance as

herein provided) to amortization of the principal of the mortgage; and

(7) contain such terms and provisions with respect to insurance, repairs, alterations, payment of taxes, default reserves, delinquency charges, foreclosure proceedings, anticipation of maturity, additional and secondary liens, and other matters as the **[Commissioner]** *Secretary* may in his discretion prescribe.

(c) The **[Commissioner]** *Secretary* is authorized to fix a premium charge for the insurance of mortgages under this title but in the case of any mortgage such charge shall not be less than an amount equivalent to one-half of 1 per centum per annum nor more than an amount equivalent to $1\frac{1}{3}$ per centum per annum of the amount of the principal obligation of the mortgage outstanding at any time, without taking into account delinquent payments or prepayments. Such premium charges shall be payable by the mortgagee, either in cash or in debentures issued by the **[Commissioner]** *Secretary* under this title at par plus accrued interest, in such manner as may be prescribed by the **[Commissioner]** *Secretary*: *Provided*, That the **[Commissioner]** *Secretary* may require the payment of one or more such premium charges at the time the mortgage is insured, at such discount rate as he may prescribe not in excess of the interest rate specified in the mortgage. If the **[Commissioner]** *Secretary* finds upon the presentation of a mortgage for insurance and the tender of the initial premium charge or charges so required that the mortgage complies with the provisions of this title, such mortgage may be accepted for insurance by endorsement or otherwise as the **[Commissioner]** *Secretary* may prescribe; but no mortgage shall be accepted for insurance under this title unless the **[Commissioner]** *Secretary* finds that the project with respect to which the mortgage is executed is an acceptable risk in view of the needs of national defense. In the event the principal obligation of any mortgage accepted for insurance under the title is paid in full prior to the maturity date, the **[Commissioner]** *Secretary* is further authorized in his discretion to require the payment by the mortgagee of an adjusted premium charge in such amount as the **[Commissioner]** *Secretary* determines to be equitable, but not in excess of the aggregate amount of the premium charges that the mortgagee would otherwise have been required to pay if the mortgage had continued to be insured under this title until such maturity date; and in the event that the principal obligation is paid in full as herein set forth the **[Commissioner]** *Secretary* is authorized to refund to the mortgagee for the account of the mortgagor all, or such portion as he shall determine to be equitable, of the current unearned premium charges theretofore paid. Upon application of the mortgagee with the consent of the mortgagor of a mortgage for which a commitment to insure has been issued pursuant to section 203 of this Act covering property on which the construction of the dwellings thereon was begun prior to the enactment of this title and the determination of prevailing wages in the locality in accordance with section 212, the **[Commissioner]** *Secretary* is authorized, notwithstanding such beginning of construction, to convert such commitment to a commitment under section 908; any charges or fees paid to the **[Commissioner]** *Secretary* with respect to such insurance under section 203 shall be credited to charges or fees due the **[Commissioner]** *Secretary* with respect to such insurance under section 908; and the determination of prevailing wages in

the locality for purposes of section 212 may be made by the Secretary of Labor at any time prior to the insurance under section 908: *Provided*, That such mortgage, or the mortgage covering the same property executed in substitution therefor, is otherwise eligible for insurance under section 908.

(d) Notwithstanding any other provisions of this or any other Act, except provisions of law enacted hereafter expressly referring to this paragraph (d), the [Commissioner, with the approval of the Housing and Home Finance Administrator,] *Secretary* is further authorized to prescribe such procedures as are necessary to secure to persons engaged or to be engaged in national defense activities preference or priority of opportunity to purchase or rent properties, or interests therein, covered by mortgages insured under this title.

(e) Any contract of insurance heretofore or hereafter executed by the [Commissioner] *Secretary* under this title shall be conclusive evidence of the eligibility of the mortgage for insurance, and the validity of any contract of insurance so executed shall be incontestable in the hands of an approved mortgagee from the date of the execution of such contract, except for fraud or misrepresentation on the part of such approved mortgagee.

SEC. 904. (a) In any case in which the mortgagee under a mortgage insured under section 903 shall have foreclosed and taken possession of the mortgaged property, in accordance with regulations of, and within a period to be determined by, the [Commissioner] *Secretary*, or shall, with the consent of the [Commissioner] *Secretary*, have otherwise acquired such property from the mortgagor after default, the mortgagee shall be entitled to receive the benefit of the insurance as hereinafter provided, upon (1) the prompt conveyance to the [Commissioner] *Secretary* of title to the property which meets the requirements of rules and regulations of the [Commissioner] *Secretary* in force at the time the mortgage was insured, and which is evidenced in the manner prescribed by such rules and regulations; and (2) the assignment to him of all claims of the mortgagee against the mortgagor or others, arising out of the mortgage transaction or foreclosure proceedings, except such claims as may have been released with the consent of the [Commissioner] *Secretary*. Upon such conveyance and assignment the obligation of the mortgagee to pay the premium charges for insurance shall cease and the [Commissioner] *Secretary* shall, subject to the cash adjustment hereinafter provided, issue to the mortgagee debentures having a total face value equal to the value of the mortgage and a certificate of claim, as hereinafter provided. For the purposes of this subsection, the value of the mortgage shall be determined, in accordance with rules and regulations prescribed by the [Commissioner] *Secretary*, by adding to the amount of the original principal obligation of the mortgage which was unpaid on the date of the institution of foreclosure proceedings, or on the date of the acquisition of the property after default other than by foreclosure, the amount of all payments which have been made by the mortgagee for taxes, ground rents, and water rates, which are liens prior to the mortgage, special assessments which are noted on the application for insurance or which become liens after the insurance of the mortgage, insurance of the mortgaged property, and any mortgage

insurance premiums and by deducting from such total amount any amount received on account of the mortgage after either of such dates and any amount received as rent or other income from the property, less reasonable expenses, incurred in handling the property, after either of such dates: *Provided*, That with respect to mortgages which are foreclosed before there shall have been paid on account of the principal obligation of the mortgage a sum equal to 10 per centum of the appraised value of the property as of the date the mortgage was accepted for insurance, they may be included in the debentures issued by the **[Commissioner]** *Secretary*, on account of the cost of foreclosure (or of acquiring the property by other means) actually paid by the mortgagee and approved by the **[Commissioner]** *Secretary* an amount—

(1) not in excess of 2 per centum of the unpaid principal of the mortgage as of the date of the institution of foreclosure proceedings and not in excess of \$75; or

(2) not in excess of two-thirds of such cost, whichever is the greater: *Provided further*, That with respect to any debentures issued on or after the date of enactment of the Housing Act of 1964, the **[Commissioner]** *Secretary* may, with the consent of the mortgagee (in lieu of issuing a certificate of claim as provided in subsection (e)), include in debentures, in addition to amounts otherwise allowed for such costs, an amount not to exceed one-third of the total foreclosure, acquisition, and conveyance costs actually paid by the mortgagee and approved by the **[Commissioner]** *Secretary*, but in no event may the total allowance for such costs exceed the amount actually paid by the mortgagee: *And provided further*, That with respect to mortgages to which the provisions of sections 302 and 306 of the Soldiers' and Sailors' Civil Relief Act of 1940, as now or hereafter amended, apply and which are issued under section 903, and subject to such regulations and conditions as the **[Commissioner]** *Secretary* may prescribe, there shall be included in the debentures an amount which the **[Commissioner]** *Secretary* finds to be sufficient to compensate the mortgagee for any loss which it may have sustained on account of interest on debentures and the payment of insurance premiums by reason of its having postponed the institution of foreclosure proceedings or the acquisition of the property by other means during any part or all of the period of such military service and three months thereafter.

(b) The **[Commissioner]** *Secretary* may at any time, under such terms and conditions as he may prescribe, consent to the release of the mortgagor from his liability under the mortgage or the credit instrument secured thereby, or consent to the release of parts of the mortgaged property from the lien of the mortgage.

(c) Debentures issued under this title shall be in such form and denominations in multiples of \$50, shall be subject to such terms and conditions, and shall include such provisions for redemption, if any, as may be prescribed by the **[Commissioner]** *Secretary* with the approval of the Secretary of the Treasury, and may be in coupon or registered form. Any difference between the amount of debentures to which the mortgagee is entitled under this section or section 908

of this Act and the aggregate face value of the debentures issued, not to exceed \$350, shall be adjusted by the payment of cash by the **[Commissioner]** *Secretary* to the mortgagee from the General Insurance Fund.

(d) The debentures issued under this section to any mortgagee shall be executed in the name of the General Insurance Fund as obligor, shall be signed by the **[Commissioner]** *Secretary* by either his written or engraved signature, and shall be negotiable. All such debentures shall be dated as of the date foreclosure proceedings were instituted, or the property was otherwise acquired by the mortgagee after default, except that debentures issued pursuant to claims for insurance filed on or after the date of enactment of the Housing Act of 1964 shall be dated as of the date of default or as of such later date as the **[Commissioner]** *Secretary*, in his discretion, may establish by regulation. The debentures shall bear interest from such date at a rate determined by the **[Commissioner]** *Secretary*, with the approval of the Secretary of the Treasury, at the time the mortgage was accepted for insurance, but not to exceed 3 per centum per annum, payable semiannually on the 1st day of January and the 1st day of July of each year. Such debentures shall mature twenty years after the date thereof. Such debentures shall be exempt, both as to principal and interest, from all taxation (except surtaxes, estate, inheritance, or gift taxes) now or hereafter imposed by any Territory, dependency, or possession of the United States, or by the District of Columbia, or by any State, county, municipality, or local taxing authority, and shall be paid out of the General Insurance Fund, which shall be primarily liable therefor, and they shall be fully and unconditionally guaranteed as to principal and interest by the United States, and such guaranty shall be expressed on the face of the debentures. In the event that the General Insurance Fund fails to pay upon demand, when due, the principal of or interest on any debentures issued under this title, the Secretary of the Treasury shall pay to the holders the amount thereof which is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, and thereupon to the extent of the amounts so paid the Secretary of the Treasury shall succeed to all the rights of the holders of such debentures.

(e) The certificate of claim issued by the **[Commissioner]** *Secretary* to any mortgagee under this section shall be for an amount determined in accordance with, and shall contain provisions and shall be paid in accordance with, the provisions of section 204(e) and section 204(f) of this Act.

(f) Notwithstanding any other provision of law relating to the acquisition, handling, or disposal of real property by the United States, the **[Commissioner]** *Secretary* shall have power to deal with, complete, rent, renovate, modernize, insure, make contracts or establish suitable agencies for the management of, or sell for cash or credit, in his discretion, any properties conveyed to him in exchange for debentures and certificates of claim as provided in this section; and notwithstanding any other provision of law, the **[Commissioner]** *Secretary* shall also have power to pursue to final collection, by way of compromise or otherwise, all claims against mortgagors assigned by mortgagees to the **[Commissioner]** *Secretary* as provided in this title: *Provided*, That section 3709 of the Revised Statutes shall not be con-

strued to apply to any purchase or contract for services or supplies on account of such property if the amount thereof does not exceed \$1,000. The power to convey and to execute in the name of the [Commissioner] *Secretary* deeds of conveyances, deeds of release, assignments, and satisfactions of mortgages, and any other written instrument relating to real property or any interest therein heretofore or hereafter acquired by the [Commissioner] *Secretary* pursuant to the provisions of this Act, may be exercised by [the Commissioner or by any Assistant Commissioner] *an officer* appointed by him, without the execution of any express delegation or power of attorney: *Provided*, That nothing in this subsection shall be construed to prevent the [Commissioner] *Secretary* from delegating such power by order or by power of attorney in his discretion, to any officer, agent, or employee he may appoint.

(g) No mortgagee or mortgagor shall have, and no certificate of claim shall be construed to give to any mortgagee or mortgagor, any right or interest in any property conveyed to the [Commissioner] *Secretary* or in any claim assigned to him; nor shall the [Commissioner] *Secretary* owe any duty to any mortgagee or mortgagor with respect to the handling or disposal of any such property or the collection of any such claim.

SEC. 905.

SEC. 906. Nothing in this title shall be construed to exempt any real property acquired and held by the [Commissioner] *Secretary* under this title from taxation by any State or political subdivision thereof, to the same extent, according to its value, as other real property is taxed.

SEC. 907. The [Commissioner] *Secretary* is authorized and directed to make such rules and regulations as may be necessary to carry out the provisions of this title.

SEC. 908. (a) In addition to mortgages insured under section 903 of this title, the [Commissioner] *Secretary* is authorized to insure mortgages as defined in section 901 of this title (including advances on such mortgages during construction) which are eligible for insurance as hereinafter provided.

(b) To be eligible for insurance under this section a mortgage shall meet the following conditions:

(1) The mortgaged property shall be held by a mortgagor approved by the [Commissioner] *Secretary*. The [Commissioner] *Secretary* may, in his discretion, require such mortgagor to be regulated or restricted as to rents or sales, charges, capital structure, rate of return, and methods of operation. The [Commissioner] *Secretary* may make such contracts with, and acquire for not to exceed \$100 stock or interest in any such mortgagor, as the [Commissioner] *Secretary* may deem necessary to render effective such restriction or regulation. Such stock or interest shall be paid for out of the General Insurance Fund, and shall be redeemed by the mortgagor at par upon the termination of all obligations of the [Commissioner] *Secretary* under the insurance.

(2) The mortgage shall involve a principal obligation in an amount—

(A) not to exceed \$5,000,000; and

(B) not to exceed 90 per centum of the amount which the [Commissioner] *Secretary* estimates will be the value of the prop-

erty or project when the proposed improvements are completed: *Provided*, That such mortgage shall not in any event exceed the amount which the [Commissioner] *Secretary* estimates will be the cost of the completed physical improvements on the property or project exclusive of off-site public utilities and streets and organization and legal expenses; and

(C) not to exceed \$8,100 per family unit (or \$7,200 per family unit if the number of rooms in such property or project does not equal or exceed four per family unit) for such part of such property or project as may be attributable to dwelling use: *Provided*, That the [Commissioner] *Secretary* may by regulation increase such dollar amount limitations by not exceeding \$900 in any geographical area where he finds that cost levels so require.

The mortgagor shall enter into the agreement required by section 227 of this Act, as amended.

The mortgage shall provide for complete amortization by periodic payments within such term as the [Commissioner] *Secretary* shall prescribe, and shall bear interest (exclusive of premium charges for insurance) at not to exceed 4½ per centum per annum on the amount of the principal obligation outstanding at any time. The [Commissioner] *Secretary* may consent to the release of a part or parts of the mortgaged property from the lien of the mortgage upon such terms and conditions as he may prescribe and the mortgage may provide for such release.

(c) The mortgagee shall be entitled to receive debentures in connection with mortgages insured under this section in the amount and under the conditions specified in subsection (g) of section 207 of this Act, and the references in said subsection (g) to the cash adjustment provided for in subsection (j) of section 207 and to the certificate of claim provided for in subsection (h) of section 207 shall be deemed to refer respectively to the cash adjustment provided for in subsection (c) of section 904 of this Act and to the certificate of claim provided for in subsection (d) of this section.

(d) The certificate of claim issued by the [Commissioner] *Secretary* to any mortgagee under this section shall be for an amount determined in accordance with, and shall contain provisions and shall be paid in accordance with, the provisions of section 207(h) of this Act.

(e) Debentures issued under this section shall be issued in accordance with the provisions of section 904 (c) and (d) except that such debentures shall be dated as of the date of default as determined in subsection (c) of this section, and shall bear interest from such date.

(f) The provisions of section 207(k) and section 207(1) of this Act shall be applicable to mortgages insured under this section and to property acquired by the [Commissioner] *Secretary* hereunder, except that, as applied to such mortgages and property, the reference therein to subsection (g) shall be construed to refer to subsection (c) of this section.

(g) In any case where an application for insurance under section 608 of this Act was received by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* on or before March 1, 1950, and has not been rejected or committed upon, the mortgagee upon reapplication for insurance of a mortgage under this section 908

with respect to the same property shall receive credit for any application fees paid in connection with the prior application: *Provided*, That this subsection shall not constitute a waiver of any requirements otherwise applicable to the insurance of mortgages under this section.

(h) The **【Commissioner】** *Secretary* shall grant preference to applications for insurance under this title to mortgages covering housing of lower rents.

TITLE X—MORTGAGE INSURANCE FOR LAND DEVELOPMENT

DEFINITIONS

SEC. 1001. As used in this title—

(a) the term “mortgage” means a lien or liens on real estate in fee simple, or on a leasehold (1) under a lease for not less than ninety-nine years which is renewable, or (2) under a lease having a period of not less than fifty years to run from the date the mortgage was executed;

(b) the term “first mortgage” includes such classes of first liens as are commonly given to secure advances (including but not limited to advances during construction) on, or the unpaid purchase price of, real estate under the laws of the State in which the real estate is located, together with the credit instrument or instruments, if any, secured thereby, and may be in the form of trust mortgages or mortgage indentures or deeds of trusts securing notes, bonds, or other credit instruments;

(c) the terms “mortgage”, “mortgagor”, and “State” have the same meaning as in section 207 of this Act;

(d) the term “improvements” means waterlines and water supply installations, sewerlines and sewerage disposal installations, roads, streets, curbs, gutters, sidewalks, storm drainage facilities, and other installations or work, whether on or off the site, which the **【Commissioner】** *Secretary* deems necessary or desirable to prepare land primarily for residential and related uses or to provide facilities for public or common use; but such term shall not include any building unless it is (1) a building which is needed in connection with a water supply or sewage disposal installation or (2) a building, other than a school, which is to be owned and maintained jointly by the property owners; and

(e) the term “land development” means the process of making, installing, or constructing improvements.

BASIC CONDITIONS FOR INSURANCE

SEC. 1002. (a) The **【Commissioner】** *Secretary* is authorized (1) to insure upon such terms and conditions as he may prescribe, any first mortgage (including advances on such mortgage) in accordance with the provisions of this title, and (2) to make a commitment for the insurance of such mortgage prior to the date of execution of such mortgage or prior to the date of disbursement of the mortgage proceeds. No mortgage shall be insured under this title after October 1,

1969, except pursuant to a commitment to insure issued before such date.

(b) The mortgage shall—

(1) be executed by a mortgagor, other than a public body, approved by the [Commissioner] *Secretary*;

(2) be made to and held by a mortgagee approved by the [Commissioner] *Secretary*; and

(3) cover the land to be developed and the improvements to be made with the assistance of the mortgage insurance under this title, except facilities intended for public use and in public ownership.

(c) The principal obligation of the mortgage shall (1) not exceed 75 per centum of the [Commissioner's] *Secretary's* estimate of the value of the property upon completion of the land development, and (2) not exceed the sum of 50 per centum of the [Commissioner's] *Secretary's* estimate of the value of the land before development and 90 per centum of his estimate of the cost of such development. The outstanding principal obligations of mortgages involving a single land development undertaking, as defined by the [Commissioner] *Secretary*, shall at no time exceed \$10,000,000.

(d) The mortgage shall—

(1) have a maturity not to exceed seven years or such longer maturity as the [Commissioner] *Secretary* deems reasonable in the case of a privately owned system for water or sewerage, and contain repayment provisions satisfactory to the [Commissioner] *Secretary*;

(2) bear interest at a rate satisfactory to the [Commissioner] *Secretary*, and such interest shall be exclusive of premium charges for mortgage insurance and such service charges and fees as may be approved by the [Commissioner] *Secretary*; and

(3) contain such terms and provisions with respect to protection of the security, payment of taxes, delinquency charges, prepayment, additional and secondary liens, and other matters as the [Commissioner] *Secretary* may in his discretion prescribe.

(e) A property or project to be financed by a mortgage insured under this title shall—

(1) represent a good mortgage insurance risk; and

(2) involve improvements that comply with all applicable State and local governmental requirements and with minimum standards approved by the [Commissioner] *Secretary*.

LAND PLANNING

SEC. 1003. (a) The land development covered by a mortgage insured under this title shall be undertaken pursuant to a schedule, conforming to such requirements and procedures as the [Commissioner] *Secretary* may prescribe, that will assure the use of the land for the purposes for which it is to be developed within the shortest reasonable period consistent with the objectives of sound and economic community growth or urban development.

(b) The land development shall be undertaken in accordance with an overall development plan, appropriate to the scope and character of the undertaking, which—

(1) has received all governmental approvals required by State or local law or by the **[Commissioner]** *Secretary*;

(2) is acceptable to the **[Commissioner]** *Secretary* as providing reasonable assurance that the land development will contribute to good living conditions in the area being developed, which area (A) will have a sound economic base and a long economic life, (B) will be characterized by sound land-use patterns, and (C) will include or be served by such shopping, school, recreational, transportation, and other facilities as the **[Commissioner]** *Secretary* deems adequate or necessary; and

(3) is consistent with a comprehensive plan which covers, or with comprehensive planning being carried on for, the area in which the land is situated, and which meets criteria established by the **[Housing and Home Finance Administrator]** *Secretary* for such plans or planning.

ENCOURAGEMENT OF SMALL BUILDERS AND MODERATE COST HOUSING

SEC. 1004. The **[Commissioner]** *Secretary* shall adopt such requirements as he deems necessary in land development covered by mortgages insured under this title to encourage the maintenance of a diversified local homebuilding industry, broad participation by builders, and the inclusion of a proper balance of housing for families of moderate or low income.

WATER AND SEWERAGE FACILITIES

SEC. 1005. After development of the land it shall be served by public systems for water and sewerage which are consistent with other existing or prospective systems within the area, except that the **[Commissioner]** *Secretary* may approve an adequate privately or cooperatively owned system which will be regulated in a manner acceptable to him with respect to user rates and charges, capital structure, methods of operation, rate of return, and conditions and terms of any sale or transfer.

RELEASES

SEC. 1006. The **[Commissioner]** *Secretary* may, on such terms and conditions as he may prescribe, consent to the release or subordination of a part or parts of the mortgaged property from the lien of the mortgage.

PREMIUMS AND FEES

SEC. 1007. The **[Commissioner]** *Secretary* shall collect reasonable premiums for the insurance of any mortgage under this title and make such charges as he determines are reasonable for the analysis of the land development plan and the appraisal and inspection of the property and improvements. On or before January 1, 1967, the **[Commissioner]** *Secretary* shall make a report to the Congress concerning the premium rates and other charges under this title that he estimates will be adequate to provide income sufficient for a self-supporting program.

INSURANCE BENEFITS

SEC. 1008. The provisions of subsections (e), (g), (h), (i), (j) (k), (l), and (n) of section 207 of this Act shall be applicable to mortgages insured under this title, except that as applied to such mortgages (1) any reference therein to section 207 shall be deemed to refer to this title, and (2) any reference to an annual premium shall be deemed to refer to such premiums as the **[Commissioner]** *Secretary* may designate under this title.

INCONTESTABILITY PROVISIONS

SEC. 1009. Any contract of insurance executed by the **[Commissioner]** *Secretary* under this title shall be conclusive evidence of the eligibility of the mortgage for insurance, and the validity of any contract of insurance so executed shall be incontestable in the hands of an approved mortgagee from the date of the execution of such contract, except for fraud or material misrepresentation on the part of such approved mortgagee.

RULES AND REGULATIONS

SEC. 1010. The **[Commissioner]** *Secretary* is authorized to make such rules and regulations and to require such agreements as he may deem necessary or desirable to carry out the provisions of this title.

TAXATION PROVISIONS

SEC. 1011. Nothing in this title shall be construed to exempt any real property acquired and held by the **[Commissioner]** *Secretary* under this title from taxation by any State or political subdivision thereof to the same extent, according to its value, as other real property is taxed.

COST CERTIFICATION

SEC. 1012. (a) The **[Commissioner]** *Secretary* shall adopt such requirements as he determines necessary to assure, at reasonable intervals of time during land development and upon completion of such development, that the amount of the mortgage loan outstanding at each such interval does not exceed with respect to that portion of the land remaining under the lien of the mortgage (1) 50 per centum of the **[Commissioner's]** *Secretary's* estimate of the value of such remaining land before development, plus (2) 90 per centum of the actual costs of the development allocated by the **[Commissioner]** *Secretary* to such remaining land.

(b) From time to time during, and upon completion of, the development, the **[Commissioner]** *Secretary* shall require the mortgagor to certify as to the actual costs of development of the land.

(c) Certifications required pursuant to this section shall be accompanied by such data and records as the **[Commissioner]** *Secretary* shall prescribe.

(d) A mortgagor's certification approved by the **[Commissioner]** *Secretary* shall be final and incontestable except for fraud or material misrepresentation on the part of the mortgagor.

(e) As used in this section, the term "actual costs" means the costs (exclusive of kickbacks, rebates, or trade discounts) to the mortgagor of the improvements involved. These costs may include amounts paid for labor, materials, construction contracts, land planning, engineers' and architect's fees, surveys, taxes, and interest during development, organizational and legal expenses, such allocation of general overhead expenses as are acceptable to the [Commissioner] *Secretary*, and other items of expense incidental to development which may be approved by the [Commissioner] *Secretary*. If the [Commissioner] *Secretary* determines there is an identity of interest between the mortgagor and the contractor, there may be included an allowance for contractor's profit in an amount deemed reasonable by the [Commissioner] *Secretary*.

Approved June 27, 1934.

UNITED STATES HOUSING ACT OF 1937

[Public Law 412, 75th Congress; 50 Stat. 888; 42 U.S.C. 1401 et seq.]

AN ACT to provide financial assistance to the States and political subdivisions thereof for the elimination of unsafe and insanitary housing conditions, for the eradication of slums, for the provisions of decent, safe, and sanitary dwellings for families of low income, and for the reduction of unemployment and the stimulation of business activity, to create a United States Housing Authority, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

DECLARATION OF POLICY

SEC. 1. It is hereby declared to be the policy of the United States to promote the general welfare of the Nation by employing its funds and credit, as provided in this Act, to assist the several States and their political subdivisions to alleviate present and recurring unemployment and to remedy the unsafe and insanitary housing conditions and the acute shortage of decent, safe, and sanitary dwellings for families of low income, in urban and rural nonfarm areas, that are injurious to the health, safety, and morals of the citizens of the Nation.

In the development of low-rent housing it shall be the policy of the United States to make adequate provision for larger families and for families consisting of elderly persons. It is the policy of the United States to vest in the local public housing agencies the maximum amount of responsibility in the administration of the low-rent housing program, including responsibility for the establishment of rents and eligibility requirements (subject to the approval of the Authority), with due consideration to accomplishing the objectives of this Act while effecting economies.

DEFINITIONS

SEC. 2. When used in this Act—

(1) The term "low-rent housing" means decent, safe, and sanitary dwellings within the financial reach of families of low income, and developed and administered to promote serviceability, efficiency, economy, and stability, and embraces all necessary appurtenances thereto.

The dwellings in low-rent housing shall be available solely for families of low income.

Except as otherwise provided in section 23, income limits for occupancy and rents shall be fixed by the public housing agency and approved by the Authority after taking into consideration (A) the family size, composition, age, physical handicaps, and other factors which might affect the rent-paying ability of the family, and (B) the economic factors which affect the financial stability and solvency of the project.

(2) The term "families of low income" means families (including elderly and displaced families) who are in the lowest income group and who cannot afford to pay enough to cause private enterprise in their locality or metropolitan area to build an adequate supply of decent, safe, and sanitary dwellings for their use. The term "families" includes families consisting of a single person in the case of elderly families and displaced families, and includes the remaining member of a tenant family. The term "elderly families" means families whose heads (or their spouses), or whose sole members, have attained the age at which an individual may elect to receive an old-age benefit under title II of the Social Security Act, or are under a disability as defined in section 223 of that Act, or are handicapped within the meaning of section 202 of the Housing Act of 1959. The term "displaced families" means families displaced by urban renewal or other governmental action, or families whose present or former dwellings are situated in areas determined by the Small Business Administration, subsequent to April 1, 1965, to have been affected by a natural disaster, and which have been extensively damaged or destroyed as the result of such disaster.

(3) The term "slum" means any area where dwellings predominate which, by reason of dilapidation, overcrowding, faulty arrangement or design, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health, or morals.

(4) The term "slum clearance" means the demolition and removal of buildings from any slum area.

(5) The term "development" means any or all undertakings necessary for planning, land acquisition, demolition, construction, or equipment, in connection with a low-rent housing project. The term "development cost" shall comprise the costs incurred by a public housing agency in such undertakings and their necessary financing (including the payment of carrying charges, but not beyond the point of physical completion), and in otherwise carrying out the development of such project. Construction activity in connection with a low-rent housing project may be confined to the reconstruction, remodeling, or repair of existing buildings. In cases where the public housing agency is also the local public agency for the purposes of title I of the Housing Act of 1949, or in cases where the public housing agency and the local public agency for purposes of such title I operate under a combined central administrative office staff, an administration building included in a low-rent housing project to provide central administrative office facilities may also include sufficient facilities for the administration of the functions of such local public agency, and in such case, the Authority shall require that an economic rent shall be charged for the

facilities in such building which are used for the administration of the functions of such local public agency, and shall be paid from funds derived from sources other than the low-rent housing projects of such public housing agency.

(6) The term "administration" means any or all undertakings necessary for management, operation, maintenance, or financing in connection with a low-rent-housing or slum-clearance project, subsequent to physical completion.

(7) The term "Federal project" means any project owned or administered by the Authority.

(8) The term "acquisition cost" means the amount prudently required to be expended by a public housing agency in acquiring a low-rent-housing or slum-clearance project.

(9) The term "non-dwelling facilities" shall include site development, improvements and facilities located outside building walls (including streets, sidewalks, and sanitary, utility, and other facilities).

(10) The term "going Federal rate" means the annual rate of interest (or, if there shall be two or more such rates of interest, the highest thereof) specified in the most recently issued bonds of the Federal Government having a maturity of ten years or more, determined, in the case of loans or annual contributions, respectively, at the date of Presidential approval of the contract pursuant to which such loans or contributions are made: *Provided*, That, with respect to any loans or annual contributions made pursuant to a contract approved by the President after the first annual rate has been specified as provided in this proviso, the term "going Federal rate" means the annual rate of interest which the Secretary of the Treasury shall specify as applicable to the six-month period (beginning with the six-month period ending December 31, 1953) during which the contract is approved by the President, which applicable rate for each six-month period shall be determined by the Secretary of the Treasury by estimating the average yield to maturity, on the basis of daily closing market bid quotations or prices during the month of May or the month of November, as the case may be, next preceding such six-month period, on all outstanding marketable obligations of the United States having a maturity date of fifteen or more years from the first day of such month of May or November, and by adjusting such estimated average annual yield to the nearest one-eighth of one per centum: *And provided further*, That for the purposes of this Act, the going Federal rate shall be deemed to be not less than $2\frac{1}{2}$ per centum.

(11) The term "public housing agency" means any State, county, municipality, or other governmental entity or public body (excluding the Authority), which is authorized to engage in the development or administration of low-rent housing or slum clearance. The Authority shall enter into contracts for financial assistance with a State or State agency where such State or State agency makes application for such assistance for an eligible project which, under the applicable laws of the State, is to be developed and administered by such State or State agency.

(12) The term "State" includes the States of the Union, the District of Columbia, and the Territories, dependencies, and possessions of the United States.

(13) The term "Authority" means the United States Housing Authority created by section 3 of this Act.

(14) The term "initiated" when used in reference to the date on which a project was initiated refers to the date of the first contract interest (or, if there shall be two or more such rates of interest, the Authority and the public housing agency).

SEC. 3. (a) There is hereby created in the [Department of the Interior] *Department of Housing and Urban Development* and under the general supervision of the Secretary thereof a body corporate of perpetual duration to be known as the United States Housing Authority, which shall be an agency and instrumentality of the United States.

(b) The powers of the Authority shall be vested in and exercised by [an Administrator, who shall be appointed by the President, by and with the advice and consent of the Senate. The Administrator shall serve for a term of five years and shall be removable by the President upon notice and hearing for neglect of duty or malfeasance but for no other cause.] *the Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary")*.

(c) [The Administrator shall receive a salary of \$10,000 a year, shall be eligible for reappointment, and shall not engage in any other business, vocation, or employment.] [Neither the Administrator nor any] *No officer or employee of the Authority shall participate in any matter affecting his personal interests or the interest of any corporation, partnership, or association in which he is directly or indirectly interested.*

SEC. 4. [(a) The Administrator is authorized, subject to the civil-service laws and the Classification Act of 1923, as amended, to appoint and fix the compensation of such employees as may be necessary for the proper performance of the duties of the Authority under this Act; except that without regard to the civil-service laws he may appoint such officers, attorneys and experts, and such employees whose compensation is in excess of \$1,980 per annum, as may be necessary to carry out the purposes of this Act.

(b) Appointment to positions made under the provisions of this Act the annual salary of which is in excess of \$7,500 per annum shall be subject to confirmation by the Senate.]

[(c)] (a) The [Administrator] *Secretary* may accept and utilize such voluntary and uncompensated services and with the consent of the agency concerned may utilize such officers, employees, equipment, and information of any agency of the Federal, State, or local governments as he finds helpful in the performance of the duties of the Authority. In connection with the utilization of such services, the Authority may make reasonable payments for necessary traveling and other expenses.

[(d)] (b) The President may at any time in his discretion transfer to the Authority any right, interest, or title held by any department or agency of the Federal Government in any housing or slum-clearance projects (constructed or in process of construction on the date of enactment of this Act), any assets, contracts, records, libraries, research materials, and other property held in connection with any such housing or slum-clearance projects or activities, any unexpended balance of funds allocated to such department or agency for the development,

administration or assistance of any housing or slum-clearance projects or activities, and any employees who have been engaged in work connected with housing or slum clearance. The Authority may continue any or all activities undertaken in connection with projects so transferred, subject to the provisions of this Act.

SEC. 5. (a) The principal office of the Authority shall be in the District of Columbia, but it may establish branch offices or agencies in any State, and may exercise any of its powers at any place within the United States. The Authority may, by one or more of its officers or employees or by such agents or agencies as it may designate, conduct hearings or negotiations at any place.

(b) The Authority [shall sue] *may sue* and be sued in its own name, and shall be represented in all litigated matters by the Attorney General or such attorney or attorneys as he may designate.

[(c) The Authority shall have an official seal, which shall be judicially noticed.]

[d] (c) The Authority shall be granted the free use of the mails in the same manner as the executive departments of the Government.

[e] (d) The Authority, including but not limited to its franchise, capital, reserves, surplus, loans, income, assets, and property of any kind, shall be exempt from all taxation now or hereafter imposed by the United States or by any State, county, municipality, or local taxing authority. Obligations, including interest thereon, issued by public housing agencies in connection with low-rent-housing or slum-clearance projects, and the income derived by such agencies from such projects, shall be exempt from all taxation now or hereafter imposed by the United States.

SEC. 6. (a) The Authority may make such expenditures, subject to audit under the general law, for the acquisition and maintenance of adequate administrative agencies, offices, vehicles, furnishings, equipment, supplies, books, periodicals, printing and binding, for attendance at meetings, for any necessary traveling expenses within the United States, its Territories, dependencies, or possessions, and for such other expenses as may from time to time be found necessary for the proper administration of this Act. Such financial transactions of the Authority as the making of loans, annual contributions, and capital grants, and the acquisition, sale, exchange, lease, or other disposition of real and personal property, and vouchers approved by the [Administrator] *Secretary* in connection with such financial transactions, shall be final and conclusive upon all officers of the Government; except that all such financial transactions of the Authority shall be audited by the General Accounting Office at such times and in such manner as the Comptroller General of the United States may by regulation prescribe.

(b) Repealed.

(c) The use of funds made available for the purposes of this Act shall be subject to the provisions of section 2 of title 3 of the Treasury and Post Office Appropriation Act for the fiscal year 1934 (47 Stat. 1489), and to make such provisions effective every contract or agreement of any kind pursuant to this Act shall contain a provision identical to the one prescribed in section 3 of title 3 of such Act.

(d) No annual contribution, grant, or loan, and no contract for any annual contribution, grant, or loan, under this Act, shall be undertaken by the Authority except with the approval of the President.

(e) With respect to all projects under title II of Public Law 671, Seventy-sixth Congress, approved June 28, 1940, references therein to the United States Housing Act of 1937, as amended, shall include all amendments to said Act made by the Housing Act of 1949 or by any other law thereafter enacted.

SEC. 7. (a) The Authority may publish and disseminate information pertinent to the various aspects of housing.

(b) The annual report of the [Housing and Home Finance Administrator] *Secretary* to the President for submission to the Congress on the operations of the [Housing and Home Finance Agency] *Department of Housing and Urban Development* shall include a report on the operations and expenses of the Authority, including loans, contributions, and grants made or contracted for, low-rent housing and slum clearance projects undertaken, and the assets and liabilities of the Authority. Such report shall include operating statements of all projects under the jurisdiction of or receiving the assistance of the Authority, including summaries of the incomes of occupants, sizes of families, rentals, and other related information.

SEC. 8. The Authority may from time to time make, amend, and rescind such rules and regulations as may be necessary to carry out the provisions of this Act.

LOANS FOR LOW-RENT-HOUSING AND SLUM-CLEARANCE PROJECTS

SEC. 9. The Authority may make loans to public-housing agencies to assist the development, acquisition, or administration of low-rent-housing or slum-clearance projects by such agencies. Where capital grants are made pursuant to section 11 the total amount of such loans outstanding on any one project and in which the Authority participates shall not exceed the development or acquisition cost of such project less all such capital grants, but in no event shall said loans exceed 90 per centum of such cost. In the case of annual contributions in assistance of low rentals as provided in section 10 the total of such loans outstanding on any one project and in which the Authority participates shall not exceed 90 per centum of the development or acquisition cost of such project. Such loans shall bear interest at such rate not less than the applicable going Federal rate, plus one-half of one per centum, shall be secured in such manner, and shall be repaid within such period not exceeding sixty years, as may be deemed advisable by the Authority: *Provided*, That in the case of projects initiated after March 1, 1949, with respect to which annual contributions are contracted for pursuant to this Act, loans shall not be made for a period exceeding forty years from the date of the bonds evidencing the loan: *And provided further*, That, in the case of such projects or any other projects with respect to which the contracts (including contracts which amend or supersede contracts previously made) provide for loans for a period not exceeding forty years from the date of the bonds evidencing the loan and for annual contributions for a period not exceeding forty years from the date the first annual contribution for the project is paid, such loans shall bear interest at a rate not less than the applicable going Federal rate.

ANNUAL CONTRIBUTIONS IN ASSISTANCE OF LOW RENTALS

SEC. 10. (a) The Authority may make annual contributions to public housing agencies to assist in achieving and maintaining the low-rent character of their housing projects. The annual contributions for any such project shall be fixed in uniform amounts, and shall be paid in such amounts over a fixed period of years. The Authority shall embody the provisions for such annual contributions in a contract guaranteeing their payment over such fixed period: *Provided*, That the Authority may, in addition to the payments guaranteed under the contract, pay not to exceed \$120 per annum per dwelling unit occupied by an elderly family, or a displaced family if such family was displaced by an urban renewal or low-rent housing project on or after January 27, 1964, on the last day of the project fiscal year where such amount, in the determination of the Authority, was necessary to enable the public housing agency to lease the dwelling unit to an elderly or displaced family at a rental it could afford and to operate the project on a solvent basis, and, in the case of displaced families, if and to the extent that the average or estimated average rental for units so occupied by such families was less than the rental which the Authority determines, on the basis of the average or estimated average project rentals, would have been established in leasing the units to families which were neither elderly nor similarly displaced. The Authority shall not make any contract for loans (other than preliminary loans) or for annual contributions or for capital grants pursuant to this Act with respect to any low-rent housing project initiated after March 1, 1949, unless the governing body of the locality involved has entered into an agreement with the public housing agency providing that, subsequent to the initiation of the low-rent housing project and within five years after the completion thereof, there has been or will be elimination, as certified by the local governing body, by demolition, condemnation, effective closing, or compulsory repair or improvement, of unsafe or insanitary dwelling units situated in the locality or metropolitan area substantially equal in number to the number of newly constructed dwelling units provided by such project: *Provided, however*, That where more than one family is living in an unsafe or insanitary dwelling unit the elimination of such unit shall count as the elimination of units equal to the number of families accommodated therein: *Provided further*, That such elimination may, in the discretion of the Authority be deferred in any locality or metropolitan area where there is an acute shortage of decent, safe, or sanitary housing available to families of low income: *And provided further*, That this requirement shall not apply in the case of any low-rent housing project located in a rural nonfarm area, or to any low-rent housing project developed on the site of a slum cleared subsequent to the date of enactment of the Housing Act of 1949 and that the dwelling units which had been eliminated by the clearance of the site of such project shall not be counted as elimination for any other low-rent project.

(b) Annual contributions shall be strictly limited to the amounts and periods necessary, in the determination of the Authority, to assure the low-rent character of the housing projects involved. Toward this end the Authority may prescribe regulations fixing the maximum

contributions available under different circumstances, giving consideration to cost, location, size, rent-paying ability of prospective tenants, or other factors bearing upon the amounts and periods of assistance needed to achieve and maintain low rentals. Such regulations may provide for rates of contribution based upon development, acquisition or administration cost, number of dwelling units, number of persons housed, or other appropriate factors: *Provided*, That the fixed contribution payable annually under any contract shall in no case exceed a sum equal to the annual yield, at the applicable going Federal rate plus 1 per centum, upon the development or acquisition cost of the low-rent housing or slum-clearance project involved.

(c) Every contract for annual contributions shall provide that whenever in any year the receipts of a public housing agency in connection with a low-rent housing project exceed its expenditures (including debt service, administration, maintenance, establishment of reserves, and other costs and charges), an amount equal to such excess shall be applied, or set aside for application, to purposes which, in the determination of the Authority, will effect a reduction in the amount of subsequent annual contributions. In no case shall any contract for annual contributions be made for a period exceeding sixty years: *Provided*, That, in the case of projects initiated after March 1, 1949, contracts for annual contributions shall not be made for a period exceeding forty years from the date the first annual contribution for the project is paid: *Provided further*, That, in the case of such projects or any other projects with respect to which the contracts for annual contributions (including contracts which amend or supersede contracts previously made) provide for annual contributions for a period not exceeding forty years from the date the first annual contribution for the project is paid, the fixed contribution may exceed the amount provided in the first proviso of subsection (b) of this section by 1 per centum of development or acquisition cost: *And provided further*, That the amount of the fixed annual contribution which would be established under this Act for a newly constructed project by a public housing agency designed to accommodate a number of families of a given size and kind may be established, as a maximum annual contribution in lieu of any other guaranteed contribution authorized under this section, for a project by such public housing agency which would provide housing for the comparable number, sizes, and kinds of families through the acquisition, acquisition and rehabilitation, or use under lease of existing structures which are suitable for low-rent housing use and obtainable in the local market.

(d) All payments of annual contributions pursuant to this section shall be made out of any funds available to the Authority when such payments are due, except that its capital and its funds obtained through the issuance of obligations pursuant to section 20 (including repayments or other realizations of the principal of loans made out of such capital and funds) shall not be available for the payment of such annual contributions.

(e) The Authority is authorized to enter into contracts for annual contributions aggregating not more than \$366,250,000 per annum, which limit shall be increased by \$47,000,000 on the date of the enactment of the Housing and Urban Development Act of 1965, and by

further amounts of \$47,000,000 on July 1 in each of the years 1966, 1967, and 1968, respectively, but any such contracts for additional units for any one State shall not, after the date of enactment of the Housing Act of 1961, be entered into for more than 15 per centum of the aggregate amount not already guaranteed under contracts for annual contributions on such date: *Provided*, That subject to any contractual obligation outstanding on the date of the enactment of the Housing and Urban Development Act of 1965, any units not under construction within five years from the date they were reserved to a public housing agency may be reserved, allocated, or placed under contract for annual contributions in any State without limitation as to the aggregate amount of units which may be placed under contract for annual contributions in any one State: *Provided further*, That no such new contract for additional housing units shall be entered into after the date of enactment of the Housing Act of 1961 except with respect to low-rent housing for a locality respecting which the [Administrator] *Secretary* has made the determination and certification relating to a workable program as prescribed in section 101(c) of the Housing Act of 1949, and the Authority shall enter into only such new contracts for preliminary loans as are consistent with the number of dwelling units for which contracts for annual contributions may be entered into. Without further authorization from Congress, no new contracts for annual contributions beyond those herein authorized shall be entered into by the Authority. The faith of the United States is solemnly pledged to the payment of all annual contributions contracted for pursuant to this section, and there is hereby authorized to be appropriated in each fiscal year, out of any money in the Treasury not otherwise appropriated, the amounts necessary to provide for such payments.

(f) Payments under annual contributions contracts shall be pledged, if the Authority so requires, as security for any loans obtained by a public housing agency to assist the development or acquisition of the housing project to which the annual contributions relate.

(g) Every contract for annual contributions for any low-rent housing project shall provide that—

(1) the maximum income limits fixed by the public housing agency shall be subject to the prior approval of the Authority and the Authority may require the agency to review and revise such limits if the Authority determines that changed conditions in the locality make such revisions necessary in achieving the purposes of the Act;

(2) the public housing agency shall adopt and promulgate regulations establishing admission policies which shall give full consideration to its responsibility for the rehousing of displaced families, to the applicant's status as a serviceman or veteran or relationship to a serviceman or veteran or to a disabled serviceman or veteran, and to the applicant's age or disability, housing conditions, urgency of housing need, and source of income: *Provided*, That in establishing such admission policies the public housing agency shall accord to families of low income such priority over single persons as it determines to be necessary to avoid undue hardship; and

(3) the public housing agency shall determine, and so certify to the Authority, that each family in the project was admitted in accordance with duly adopted regulations and approved income limits; and the public housing agency shall make periodic reexaminations of the incomes of families living in the project and shall require any family whose income has increased beyond the approved maximum income limits for continued occupancy to move from the project unless the public housing agency determines that, due to special circumstances, the family is unable to find decent, safe and sanitary housing within its financial reach although making every reasonable effort to do so, in which event such family may be permitted to remain for the duration of such a situation if it pays an increased rent consistent with such family's increased income.

(h) Every contract made pursuant to this Act for annual contributions for any low-rent housing project initiated after March 1, 1949, shall provide that no annual contributions by the Authority shall be made available for such project unless such project (exclusive of any part thereof covered by a contract or conveyed pursuant to paragraph (9) of section 15, and exclusive of any portion thereof which is not assisted by annual contributions under this Act) is exempt from all real and personal property taxes levied or imposed by the State, city, county, or other political subdivisions, but such contract shall require the public housing agency to make payments in lieu of taxes equal to 10 per centum of the annual shelter rents charged in such project or such lesser amount as (i) is prescribed by State law, or (ii) is agreed to by the local governing body in its agreement for local cooperation with the public housing agency required under subsection 15 (7) (b) (i) of this Act, or (iii) is due to failure of a local public body or bodies other than the public housing agency to perform any obligation under such agreement: *Provided*, That, with respect to any such project which is not exempt from all real and personal property taxes levied or imposed by the State, city, county, or other political subdivisions, such contract shall provide, in lieu of the requirement for tax exemption and payments in lieu of taxes, that no annual contributions by the Authority shall be made available for such project unless and until the State, city, county, or other political subdivisions in which such project is situated shall contribute, in the form of cash or tax remission, the amount by which the taxes paid with respect to the project exceed 10 per centum of the annual shelter rents charged in such project: *Provided further*, That, prior to execution of the contract for annual contributions the public housing agency shall, in the case of a tax-exempt project, notify the governing body of the locality of its estimate of the annual amount of such payments in lieu of taxes and of the amount of taxes which would be levied if the property were privately owned, or, in the case where the project is taxed, its estimate of the annual amount of the local cash contribution, and shall thereafter include the actual amounts of such payments or contributions in its annual report. Contracts for annual contributions entered into prior to the effective date of the Housing Act of 1964 may be amended in accordance with the first sentence of this subsection.

(i) Notwithstanding any other provision of law or any contract or other arrangement made pursuant thereto, any public housing agency which utilizes public services and facilities of a municipality or other local governmental agency making charges therefor separate from real and personal property taxes shall be authorized by the Authority (without any amendment to the contract for annual contributions or deductions from payments in lieu of taxes otherwise payable) to pay to such municipality or other local governmental agency the amount that would be charged private persons or dwellings similarly situated for such facilities and services.

(j) Repealed.

(k) All expenditures of appropriations for the payment of annual contributions shall be subject to audit and final settlement by the Comptroller General of the United States under the provisions of the Budget and Accounting Act of 1921, as amended.

(l) In any community where it has been determined by resolution or ordinance, or by referendum, that a project shall be liquidated by sale thereof to private ownership, such community may negotiate with the Federal Government with respect to the sale of the project, and the Authority shall agree that sale of the project may be made, subject to any outstanding contracts made pursuant to paragraph (9) of section 15, after public advertisement to the highest bidder upon (1) payment and retirement of all outstanding obligations (together with any interest payable thereon and any premiums prescribed for the redemption of any bonds, notes, or other obligations prior to maturity) in connection with the project, and (2) payment of any proceeds received from the sale of the project in excess of the amounts required to comply with the requirements of the preceding clause numbered (1) to the Authority and to local public bodies in proportion to the aggregate contribution which the Authority and such local public bodies have made to the project.

(m) Repealed.

CAPITAL GRANTS IN ASSISTANCE OF LOW RENTALS

SEC. 11. (a) As an alternative method of assistance to that provided in section 10, when any public housing agency so requests and demonstrates to the satisfaction of the Authority that such alternative method is better suited to the purpose of achieving and maintaining low rentals and to the other purposes of this Act, capital grants may be made to such agency for such purposes. The capital grants thus made for any low-rent-housing or slum-clearance project shall be paid in connection with its development or acquisition, and shall be strictly limited to the amounts necessary, in the determination of the Authority, to assure its low-rent character.

(b) Pursuant to subsection (a) of this section, the Authority may make a capital grant for any low-rent housing or slum-clearance project, which shall in no case exceed 25 per centum of its development or acquisition cost.

(c) All payments of capital grants by the Authority pursuant to subsection (b) of this section shall be made out of any funds available to the Authority, except that its capital and its funds obtained through the issuance of obligations pursuant to section 20 (including repay-

ments or other realizations of the principal of loans made out of such capital and funds) shall not be available for the payment of such capital grants.

(d) The Authority is authorized, on or after the date of the enactment of this Act to make capital grants (pursuant to subsection (b) of this section) aggregating not more than \$10,000,000, on or after July 1, 1938, to make additional capital grants aggregating not more than \$10,000,000, and on or after July 1, 1939, to make additional capital grants aggregating not more than \$10,000,000. Without further authorization from Congress, no capital grants beyond those herein authorized shall be made by the Authority.

(e) To supplement any capital grant made by the Authority in connection with the development of any low-rent-housing or slum-clearance project, the President may allocate to the Authority, from any funds available for the relief of unemployment, an additional capital grant to be expended for payment of labor used in such development: *Provided*, That such additional capital grant shall not exceed 15 per centum of the development cost of the low-rent-housing or slum-clearance project involved.

(f) No capital grant pursuant to this section shall be made for any low-rent-housing or slum-clearance project unless the public housing agency receiving such capital grant shall also receive, from the State political subdivision thereof, or otherwise, a contribution for such project (in the form of cash, land, or the value, capitalized at the going Federal rate of interest, of community facilities or services for which a charge is usually made, or tax remissions or tax exemptions) in an amount not less than 20 per centum of its development or acquisition cost.

DISPOSAL OF FEDERAL PROJECTS

SEC. 12. (a) It is hereby declared to be the purpose of Congress to provide for the orderly disposal of any low-rent-housing projects hereafter transferred to or acquired by the Authority through the sale or leasing of such projects as hereinafter provided; and, in order to continue the relief of Nation-wide unemployment and in order to avoid waste pending such sale or lease, to provide for the completion and temporary administration of such projects by the Authority.

(b) As soon as practicable the Authority shall sell its Federal projects or divest itself of their management through leases.

(c) The Authority may sell a Federal project only to a public housing agency or to a nonprofit body for use as low-rent housing. Any such sale shall be for a consideration, in whatever form may be satisfactory to the Authority, equal at least to the amount which the Authority determines to be the fair value of the project for housing purposes of a low-rent character (making such adjustment as the Authority deems advisable for any annual contributions which may hereafter be given hereunder in aid of the project), less such allowance for depreciation as the Authority shall fix. Such project shall then become eligible for loans pursuant to section 9, and either annual contributions pursuant to section 10 or a capital grant pursuant to section 11. Any obligation of the purchaser accepted by the Authority as part of the consideration for the sale of such project shall be deemed a loan pursuant to section 9.

(d) The Authority may lease any Federal low-rent-housing project, in whole or in part, to a public housing agency. The lessee of any project, pursuant to this paragraph, shall assume and pay all management, operation, and maintenance costs, together with payments, if any, in lieu of taxes, and shall pay to the Authority such annual sums as the Authority shall determine are consistent with maintaining the low-rent character of such project. The provisions of section 321 of the Act of June 30, 1932 (U.S.C. 1934 edition, title 40, sec. 303b), shall not apply to any lease pursuant to this Act.

(e) In the administration of any Federal low-rent-housing project pending sale or lease, the Authority shall fix the rentals at the amounts necessary to pay all management, operation, and maintenance costs, together with payments, if any, in lieu of taxes, plus such additional amounts as the Authority shall determine are consistent with maintaining the low-rent character of such project.

(f) There is hereby transferred to the Authority, effective not later than sixty days after the effective date of the Housing Act of 1950, all right, title, and interest, including contractual rights and reversionary interests, held by the Federal Government in and with respect to all labor supply centers, labor homes, labor camps, and facilities held in connection therewith and heretofore administered by the Secretary of Agriculture, for use as low-rent housing projects for families and persons of low income. Such projects when so transferred shall (notwithstanding any other provision of law) be low-rent housing projects subject to the provisions of this Act, except as otherwise provided in this subsection. Such projects shall be operated for the principal purpose of housing persons engaged in agricultural work, and preference for occupancy in such projects shall be given to agricultural workers and their families; the rents in such projects shall not be higher than the rents which such tenants can afford; and the provisions of the second, third, and fourth sentences of subsection 2(1) of this Act shall not be applicable to such projects. The Authority is authorized to enter into contracts for disposal of said projects by any of the methods provided in this Act, including disposal of any such project to a public housing agency for a consideration consisting of the payment by the public housing agency to the Authority during a term of not less than twenty years of all income therefrom after deduction of the amounts necessary for (i) reasonable and proper costs of management, operation, maintenance, and improvement of such project; (ii) payments in lieu of taxes not in excess of 10 per centum of shelter rents; (iii) establishment and maintenance of reasonable and proper reserves; and (iv) the payment of currently maturing installments of principal and interest on any indebtedness incurred in connection with such project by the public housing agency with the approval of the Authority. Pending sale or lease of said projects to public housing agencies, the Authority may continue present leases and permits, or may enter into new leases with public bodies or nonprofit organizations for the operation of such projects. Pending sale of such projects the Authority may make any necessary improvements thereto and may pay any deficits incurred in their improvement and administration out of any of the funds available to it under this Act. Appropriations to reimburse the Authority for any amounts expended pursuant to

this subsection, in excess of the funds transferred with such projects, are hereby authorized.

Notwithstanding any other provision of law, upon the filing of a request therefor within eighteen months after the date of the enactment of this sentence, the Authority shall relinquish, transfer, and convey, without monetary consideration, all of its rights, title, and interest in and with respect to any such project or any part thereof (including such land as is determined by the Authority to be reasonably necessary to the operation of such project, and including contractual rights to revenues, reserves, and other proceeds therefrom), (1) in the case of any State other than Florida, to any public housing agency whose area of operation includes the project, upon a finding and certification by the public housing agency (which shall be conclusive upon the Authority) that the project is needed to house persons and families of low income and that preference for occupancy in the project will be given first to low-income agricultural workers and their families and second to other low-income persons and their families; and (2) in the case of Florida, to any public housing agency in the State whenever, under the laws of the State, such agency (A) is authorized to acquire and operate such project, (B) is required to give preference for occupancy in such project, first, to low-income agricultural workers and their families, and second, to other low-income persons and their families, (C) is required, in the event of the disposition of such project by sale or otherwise, to use the proceeds thereof and any available accumulated earnings to construct facilities (which shall be subject to the same preferences as those specified in clause (B)) for occupancy by low-income agricultural workers and their families in the same area, and (D) is required, so long as it continues to own or operate such project, to have on its managing board one or more members whose principal occupation is farming. Upon the relinquishment and transfer of any such project it shall cease to be a low-rent project within the meaning of this Act, and the Authority shall have no further jurisdiction over it, except that in any conveyance under the preceding sentence the Authority may reserve to the United States any mineral rights of whatsoever nature upon, in, or under the property, including such rights of access to and the use of such parts of the surface of the property as may be necessary for mining and saving the minerals. Any project, or part thereof not relinquished and conveyed pursuant to this subsection or under a contract for disposal pursuant to this subsection within eighteen months after the date of the enactment of this sentence shall be disposed of by the Authority pursuant to subsection (e) of section 13 of this Act, notwithstanding the parenthetical clause in such subsection.

GENERAL POWERS OF THE AUTHORITY

SEC. 13. (a) The Authority may foreclose on any property or commence any action to protect or enforce any right conferred upon it by any law, contract, or other agreement. The Authority may bid for and purchase at any foreclosure by any party or at any other sale, or (pursuant to section 22 or otherwise) acquire or take possession of any project which it previously owned or in connection with which it

has made a loan, annual contribution, or capital grant; and in such event the Authority may complete, administer, pay the principal of and interest on any obligations issued in connection with such project, dispose of, and otherwise deal with, such projects or parts thereof, subject, however, to the limitations elsewhere in this Act governing their administration and disposition.

(b) The acquisition by the Authority of any real property pursuant to this Act shall not deprive any State or political subdivision thereof of its civil and criminal jurisdiction in and over such property, or impair the civil rights under the State or local law of the inhabitants on such property; and, insofar as any such jurisdiction may have been taken away or any such rights impaired by reason of the acquisition of any property transferred to the Authority pursuant to section **[4(d)]** 4(b), such jurisdiction and such rights are hereby fully restored.

(c) The Authority may enter into agreements to pay annual sums in lieu of taxes to any State or political subdivision thereof with respect to any real property owned by the Authority. The amount so paid for any year upon any such property shall not exceed the taxes that would be paid to the State or subdivision, as the case may be, upon such property if it were not exempt from taxation thereby.

(d) The Authority may procure insurance against any loss in connection with its property and other assets (including mortgages), in such amounts, and from such insurers, as it deems desirable.

(e) The Authority may sell or exchange at public or private sale, or lease, any real property (except low-rent-housing projects, the disposition of which is governed elsewhere in this Act) or personal property, and sell or exchange any securities or obligations, upon such terms as it may fix. The Authority may borrow on the security of any real or personal property owned by it, or on the security of the revenues to be derived therefrom, and may use the proceeds of such loans for the purposes of this Act.

SEC. 14. Subject to the specific limitations or standards in this Act governing the terms of sales, rentals, leases, loans, contracts for annual contributions, contracts for capital grants, or other agreements, the Authority may, whenever it deems necessary or desirable in the fulfillment of the purposes of this Act, consent to the modification, with respect to rate of interest, time of payment of any installment of principal or interest, security, amount of annual contribution, or any other term, of any contract or agreement of any kind to which the Authority is a party or which has been transferred to it pursuant to this Act. When the Authority finds that it would promote economy or be in the financial interest of the Federal Government, any contract heretofore or hereafter made for annual contributions, loans, or both, may, with Presidential approval, be amended or superseded by a contract of the Authority so that the going Federal rate on the basis of which such annual contributions or interest rate on the loans, or both, respectively, are fixed shall mean the going Federal rate, as herein defined, on the date of Presidential approval of such amending or superseding contract: *Provided*, That contracts may not be amended or superseded in a manner which would impair the rights of the holders of any outstanding obligations of the public housing agency involved for which

annual contributions have been pledged. Any rule of law contrary to this provision shall be deemed inapplicable.

SEC. 15. In order to insure that the low-rent character of housing projects will be preserved, and that the other purposes of this Act will be achieved, it is hereby provided that—

(1) When a loan is made pursuant to section 9 for a low-rent-housing project the Authority may retain the right, in the event of a substantial breach of the condition (which shall be embodied in the loan agreement) providing for the maintenance of the low-rent character of the housing project involved or in the event of the acquisition (except pursuant to paragraph (9) of section 15) of such project by a third party in any manner including a bona-fide foreclosure under a mortgage or other lien held by a third party, to increase the interest payable thereafter on the balance of said loan then held by the Authority to a rate not in excess of the going Federal rate (at the time of such breach or acquisition) plus 2 per centum per annum or to declare the unpaid principal on said loan due forthwith.

(2) When a loan is made pursuant to section 9 for a slum-clearance project the Authority shall retain the right, in the event of the leasing or acquisition (except ⁴⁵ pursuant to paragraph (9) of section 15) of such project by a third party in any manner including a bona-fide foreclosure under a mortgage or other lien held by a third party, to increase the interest payable thereafter on the balance of said loan then held by the Authority to a rate not in excess of the going Federal rate (at the time of such leasing or acquisition) plus 2 per centum per annum or to declare the unpaid principal on said loan due forthwith.

(3) When a contract for annual contributions is made pursuant to section 10, the Authority shall retain the right, in the event of a substantial breach of the condition (which shall be embodied in such contract) providing for the maintenance of the low-rent character of the housing project involved, to reduce or terminate the annual contributions payable under such contract. In the event of the acquisition (except ⁴⁶ pursuant to paragraph (9) of section 15) of such project by a third party in any manner including a bona-fide foreclosure under a mortgage or other lien held by a third party, such annual contributions shall terminate.

(4) The Authority may also insert in any contract for loans, annual contributions, capital grants, sale, lease, mortgage, or any other agreement or instrument made pursuant to this Act, such other covenants, conditions, or provisions as it may deem necessary in order to insure the low-rent character of the housing project involved: *Provided*, That any such contract for a substantial loan may contain a condition requiring the maintenance of an open space or playground in connection with the housing project involved if deemed necessary by the Authority for the safety or health of children.

(5) Every contract made pursuant to this Act for loans (other than preliminary loans), annual contributions, or capital grants for any low-rent housing project completed after January 1, 1948, shall provide that the cost for construction and equipment of such project (excluding land, demolition, and nondwelling facilities) on which the computation of any annual contributions under this Act may be based

shall not exceed \$2,400 per room (\$3,500 per room in the case of Alaska, or in the case of accommodations designed specifically for elderly families \$3,500 per room and \$4,000 per room in the case of Alaska) : *Provided*, That if the [Administrator] *Secretary* finds that in the geographical area of any project (i) it is not feasible under the aforesaid cost limitations to construct the project without sacrifice of sound standards of construction, design, and livability, and (ii) there is an acute need for such housing, he may prescribe in such contract cost limitations which may exceed by not more than \$750 per room the limitations that would otherwise be applicable to such project hereunder. Every contract made pursuant to this Act for loans (other than preliminary loans), annual contributions, or capital grants with respect to any low-rent housing project initiated after March 1, 1949, shall provide that such project shall be undertaken in such a manner that it will not be of elaborate or extravagant design or materials, and economy will be promoted both in construction and administration. In order to attain the foregoing objective, every such contract shall provide that no award of the main construction contract for such project shall be made unless the Authority, taking into account the level of construction costs prevailing in the locality where such project is to be located, shall have specifically approved the amount of such main construction contract. Every contract made pursuant to this Act for loans, annual contributions, or capital grants, with respect to a project for which the preparation of plans, drawings, and specifications has not been started or contracted for prior to the date of enactment of the Housing Act of 1957, shall require that such plans, drawings, and specifications follow the principle of modular measure in every case deemed feasible by the public housing agency, in order that the housing may be built by conventional construction, on-site fabrication, factory pre-cutting, factory fabrication, or any combination of these construction methods.

(6) Any contract for loans or annual contributions, or both, entered into by the Authority with a public housing agency, may cover one or more than one low-rent housing project owned by said public housing agency; in the event such contract covers two or more projects, such projects may, for any of the purposes of this Act and of such contract (including, but not limited to, the determination of the amount of the loan, annual contributions, or payments in lieu of taxes, specified in such contract), be treated collectively as one project.

(7) In recognition that there should be local determination of the need for low-rent housing to meet needs not being adequately met by private enterprise—

(a) The Authority shall not make any contract with a public housing agency for preliminary loans (all of which shall be repaid out of any moneys which become available to such agency for the development of the projects involved) for surveys and planning in respect to any low-rent housing projects initiated after March 1, 1949, (i) unless the governing body of the locality involved has by resolution approved the application of the public housing agency for such preliminary loan; and (ii) unless the public housing agency has demonstrated to the satisfaction of the Authority that there is a need for such low-rent housing which is not being met by private enterprise; and

(b) the Authority shall not make any contract for loans (other than preliminary loans) or for annual contributions pursuant to this Act with respect to any low-rent housing project initiated after March 1, 1949, (i) unless the governing body of the locality involved has entered into an agreement with the public housing agency providing for the local cooperation required by the Authority pursuant to this Act; (ii) unless the public housing agency has demonstrated to the satisfaction of the Authority that a gap of at least 20 per centum (except in the case of a displaced family or an elderly family) has been left between the upper rental limits for admission to the proposed low-rent housing and the lowest rents at which private enterprise unaided by public subsidy is providing (through new construction and available existing structures) a substantial supply of decent, safe, and sanitary housing toward meeting the need of an adequate volume thereof; and (iii) unless the public housing agency has demonstrated to the satisfaction of the Authority that there is a feasible method for the temporary relocation of the individuals and families displaced from the project site, and that there are or are being provided, in the project area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of such individuals and families, decent, safe, and sanitary dwellings equal in number to the number of and available to such individuals and families and reasonably accessible to their places of employment.

(8) The Authority may authorize the cost of relocation payments made by public housing agencies to be included with the development or acquisition cost of any project for purposes of determining the amount of loans and annual contributions authorized to be made with respect to such project under sections 9 and 10, but such costs shall be separately stated as relocation costs. For purposes of this paragraph, a "relocation payment" is a payment (i) which is made to an individual, family, business concern, or nonprofit organization displaced on or after January 27, 1964, from a low-rent housing project site as a result of the acquisition of real property by a public housing agency, (ii) which is not otherwise authorized under any Federal law, and (iii) which is made only on such terms and conditions, and subject to such limitations, as are authorized (as of the time such payment is approved) under section 114 (b), (c), and (d) of the Housing Act of 1949 for relocation payments made to individuals, families, business concerns, or nonprofit organizations, as the case may be.

(9) Notwithstanding any other provisions of this Act, but subject to the provisions of any contract with the Authority, any public housing agency may permit any member of a tenant family to enter into a contract (either individually or as a member of a group) for the acquisition of a dwelling unit in any project of the public housing agency which is suitable by reason of its detached or semidetached construction for sale and for occupancy by such purchaser or a member or members of his family, upon the following terms:

(A) The purchaser shall pay at least (i) a pro rata share cost of any services furnished him by the public agency, including but

not limited to, administration, maintenance, repairs, utilities, insurance, provision of reserves, and other expenses, (ii) local taxes on his dwelling unit, and (iii) monthly payments of interest and principal sufficient to amortize a sales price, equal to the greater of the unamortized debt or the appraised value (at the time such purchase contract is entered into) of the dwelling unit, in not more than forty years: *Provided*, That the public housing agency may, under terms and conditions to be prescribed by it, permit a purchaser to apply an amount equal to the net rent paid for his dwelling unit, over a period not exceeding three years prior to the entering into of any such contract, toward the purchase price of such unit;

(B) The interest rate shall be fixed at not less than the average interest cost of loans outstanding on the project, except that in the case of a project on which bonds are not outstanding the interest rate shall be fixed at not less than the going Federal rate applicable to such project;

(C) The principal payments shall be not less than one-half of 1 per centum per annum of the sales price during the first five years after purchase, 1 per centum per annum during the next five years, $1\frac{1}{2}$ per centum per annum during the third five years, and thereafter not less than the principal payments resulting from a level debt service of interest and principal over the balance of the payment period; and

(D) If at any time (i) a purchaser fails to carry out his contract with the public housing agency and if no member of his family who resides in the dwelling assumes such contract, or (ii) the purchaser or a member of his family who assumes the contract does not reside in the dwelling, the public housing agency shall have an option to acquire his interest under such contract upon payment to him or his estate of an amount equal to his aggregate principal payments plus the value to the public housing agency of any improvements made by him, less an amount equal to $2\frac{1}{2}$ per centum of the sales price.

(10)

SEC. 16. In order to protect labor standards—

(1) The provisions of the Act of August 30, 1935, entitled "An Act to amend the Act approved March 3, 1931, relating to the rate of wages for laborers and mechanics employed by contractors and subcontractors on public buildings" (49 Stat. 1011), and of the Act of August 24, 1935, entitled "An Act requiring contracts for the construction, alteration, and repair of any public building or public work of the United States to be accompanied by a performance bond protecting the United States and by an additional bond for the protection of persons furnishing material and labor for the construction, alteration, or repair of said public buildings or public work" (U.S.C., 1934 edition, Supp. II, title 40, secs. 270a to 270d, inclusive) shall apply to contracts in connection with the development or administration of Federal projects and the furnishing of materials and labor for such projects: *Provided*, That [suits shall] *suits may* be brought in the name of the Authority and that the Authority shall itself perform the duties prescribed by section 3(a) of the Act of August 30, 1935, and section 3 of the Act of August 24, 1935.

(2) Any contract for loans, annual contributions, capital grants, sale, or lease pursuant to this Act shall contain a provision requiring that not less than the salaries or wages prevailing in the locality, as determined or adopted (subsequent to a determination under applicable State or local law) by the Authority, shall be paid to all architects, technical engineers, draftsmen, and technicians, employed in the development and to all maintenance laborers and mechanics employed in the administration of the low-rent housing or slum-clearance project involved; and shall also contain a provision that not less than the wages prevailing in the locality, as predetermined by the Secretary of Labor pursuant to the Davis-Bacon Act (49 Stat. 1011), shall be paid to all laborers and mechanics employed in the development of the project involved; and the Authority shall require certification as to compliance with the provisions of this paragraph prior to making any payment under such contract.

[(3) The Act entitled "An Act limiting the hours of daily services of laborers and mechanics employed upon work done for the United States, or for any Territory, or for the District of Columbia, and for other purposes", as amended (37 Stat. 137), shall apply to contracts of the Authority for work in connection with the development and administration of Federal projects.]

[(4) The benefits of the Act entitled "An Act to provide compensation for employees of the United States suffering injuries while in the performance of their duties, and for other purposes" (39 Stat. 742), shall extend to officers and employees of the Authority.]

[5] (3) The provisions of sections 1 and 2 of the Act of June 13, 1934 (U.S.C., 1934 edition, title 40, secs. 276b and 276c), shall apply to any low-rent-housing or slum-clearance project financed in whole or in part with funds made available pursuant to this Act.

(6) Repealed.

FINANCIAL PROVISIONS

SEC. 17. The Authority shall have a capital stock of \$1,000,000, which shall be subscribed by the United States and paid by the Secretary of the Treasury out of any available funds. Receipts for such payment shall be issued to the Secretary of the Treasury by the Authority and shall evidence the stock ownership of the United States of America.

SEC. 18. There is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, the sum of \$26,000,000 for the fiscal year ending June 30, 1938, of which \$1,000,000 shall be available to pay the subscription to the capital stock of the Authority. Such sum, and all receipts and assets of the Authority, shall be available for the purposes of this Act until expended.

SEC. 19. Any funds available under any Act of Congress for allocation for housing or slum clearance may, in the discretion of the President, be allocated to the Authority for the purposes of this Act.

SEC. 20. The Authority may issue and have outstanding at any one time notes and other obligations for purchase by the Secretary of the Treasury in an amount not to exceed \$1,500,000,000. Such notes or other obligations shall be in such forms and denominations, shall have such maturities, and shall be subject to such terms and conditions as may be prescribed by the Authority with the approval of the Secretary of the Treasury. Such notes or other obligations shall bear interest

at a rate determined by the Secretary of the Treasury, taking into consideration the current average rate on outstanding marketable obligations of the United States as of the last day of the month preceding the issuance of the notes or other obligations by the Authority. The Secretary of the Treasury is authorized and directed to purchase any notes or other obligations of the Authority issued hereunder and for such purpose is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as amended, and the purposes for which securities may be issued under such Act, as amended, are extended to include any purchases of such obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this section. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as public debt transactions of the United States.

SEC. 21. (a) Any money of the Authority not otherwise employed may be deposited, subject to check, with the Treasurer of the United States or in any Federal Reserve bank, or may be invested in obligations of the United States or used in the purchase or retirement or redemption of any obligations issued by the Authority.

(b) The Federal Reserve banks are authorized and directed to act as depositories, custodians, and fiscal agents for the Authority in the general exercise of its powers, and the Authority may reimburse any such bank for its services in such manner as may be agreed upon.

(c) The Authority may be employed as a financial agent of the Government. When designated by the Secretary of the Treasury, and subject to such regulations as he may prescribe, the Authority shall be a depository of public money, except receipts from customs.

(d) Repealed.

PRIVATE FINANCING

SEC. 22. To facilitate the enlistment of private capital through the sale by public housing agencies of their bonds and other obligations to others than the Authority, in financing low-rent housing projects, and to maintain the low-rent character of housing projects—

(a) Every contract for annual contributions (including contracts which amend or supersede contracts previously made) may provide that—

(1) upon the occurrence of a substantial default in respect to the covenants or conditions to which the public housing agency is subject (as such substantial default shall be defined in such contract), the public housing agency shall be obligated at the option of the Authority, either to convey title in any case where, in the determination of the Authority (which determination shall be final and conclusive), such conveyance of title is necessary to achieve the purposes of this Act, or to deliver possession to the Authority of the project, as then constituted, to which such contract relates: *Provided*, That such conveyance or delivery of title shall be subject to the rights of third parties vested pursuant to paragraph (9) of section 15;

(2) the Authority shall be obligated to reconvey or to redeliver possession of the project, as constituted at the time of reconveyance or redelivery, to such public housing agency or to its successor (if such public housing agency or a successor exists) upon

such terms as shall be prescribed in such contract and as soon as practicable: (i) after the Authority shall be satisfied that all defaults with respect to the project have been cured, and that the project will, in order to fulfill the purposes of this Act, thereafter be operated in accordance with the terms of such contract; or (ii) after the termination of the obligation to make annual contributions available unless there are any obligations or covenants of the public housing agency to the Authority which are then in default. Any prior conveyances and reconveyances, deliveries and redeliveries of possession shall not exhaust the right to require a conveyance or delivery of possession of the project to the Authority pursuant to subparagraph (1), upon the subsequent occurrence of a substantial default.

(b) Whenever such contract for annual contributions shall include provisions which the Authority, in said contract, determines are in accordance with subsection (a) hereof, and the annual contributions, pursuant to such contract, have been pledged by the public housing agency as security for the payment of the principal and interest on any of its obligations, the Authority (notwithstanding any other provisions of this Act) shall continue to make annual contributions available for the project so long as any of such obligations remain outstanding, and may covenant in such contract (in lieu of the provision required by the first sentence of subsection 15(3) of this Act and notwithstanding any other provisions of law) that in any event such annual contributions shall in each year be at least equal to an amount which, together with such income or other funds as are actually available from the project for the purpose at the time such annual contribution is made, will suffice for the payment of all installments, falling due within the next succeeding twelve months, of principal and interest on the obligations for which the annual contributions provided for in the contract shall have been pledged as security: *Provided*, That such annual contributions shall not be in excess of the maximum sum determined pursuant to the [first] proviso of subsection 10 (b), or, where applicable, the second proviso of subsection 10 (c); and in no case shall such annual contributions be in excess of the maximum sum specified in the contract involved, nor for longer than the remainder of the maximum period fixed by the contract.

(c) Obligations of a public housing agency which (1) are secured either (A) by a pledge of a loan under an agreement between such public housing agency and the Authority, or (B) by a pledge of annual contributions under an annual contributions contract between such public housing agency and the Authority, and (2) bear, or are accompanied by, a certificate of the Authority that such obligations are so secured, shall be incontestable in the hands of a bearer, and the full faith and credit of the United States is pledged to the payment of all amounts agreed to be paid by the Authority as security for such obligations.

LOW-RENT HOUSING IN PRIVATE ACCOMMODATIONS

SEC. 23. (a)(1) For the purpose of providing a supplementary form of low-rent housing which will aid in assuring a decent place to live for every citizen and promote efficiency and economy in the program under this Act by taking full advantage of vacancies or potential

vacancies in the private housing market, each public housing agency shall, to the maximum extent consistent with the achievement of the objectives of this Act, provide low-rent housing under this Act in the form of low-rent housing in private accommodations in accordance with this section where such housing in private accommodations can be provided at a cost equal to or less than housing in projects assisted under other provisions of this Act.

(2) The provisions of this section shall not apply to any locality unless the governing body of the locality has by resolution approved the application of such provisions to such locality.

(3) As used in this section, the term "low-rent housing in private accommodations" means dwelling units in an existing structure, leased from a private owner, which provide decent, safe, and sanitary dwelling accommodations and related facilities effectively supplementing the accommodations and facilities in low-rent housing assisted under the other provisions of this Act in a manner calculated to meet the total housing needs of the community in which they are located; and the term "owner" means any person or entity having the legal right to lease or sublease property containing one or more dwelling units as described in this section.

(b) Beginning as soon as practicable after the date of the enactment of this section, each public housing agency shall conduct a continuing survey and listing of the available dwelling units within the community or communities under its jurisdiction which provide decent, safe, and sanitary dwelling accommodations and related facilities and are, or may be made, suitable for use as low-rent housing in private accommodations under this section.

(c) Each public housing agency, by notification to the owners of housing listed under subsection (b), or by publication or advertisement, or otherwise, shall from time to time make known to the public in the community or communities under its jurisdiction the anticipated need for dwelling units in such community or communities to be used as low-rent housing in private accommodations under this section, inviting the owners of such dwelling units to make available for purposes of this section one or more of such units (not exceeding 10 per centum of the units in any single structure except to the extent that the agency, because of the limited number of units in the structure or for any other reason, determines that such limit should not be applied). The public housing agency shall conduct appropriate inspections of the units offered to be made available in any residential structure by the owner thereof in response to such invitation, and if—

(1) it finds that such units are, are may be made, suitable for use as low-rent housing in private accommodations within the meaning of subsection (a) (3), and

(2) the rentals to be charged for such units, as negotiated and agreed to by the agency and the owner of the structure in a manner consistent with subsection (d) (2), are within the financial range of families of low income,

such agency may approve such units for use as low-rent housing in private accommodations in accordance with (and subject to the applicable limitations contained in) this section. Each public housing agency shall maintain and keep current a list of units approved by it

under this subsection, including such information with respect to each such unit as it may consider necessary or appropriate.

(d) To the extent of contracts for annual contributions entered into by the Authority with a public housing agency under section 10(e), such agency may enter into contracts with the owners of structures containing dwelling units approved under subsection (c) for the use of such units in accordance with this section. Each such contract with an owner shall provide (with respect to any unit) that—

(1) the selection of tenants for such unit shall be the function of the owner, subject to the provisions of the contract between the Authority and the agency;

(2) the rental and other charges to be received by the owner shall be negotiated and agreed to by the agency and the owner, and the rental and other charges to be paid by the tenant shall be determined in accordance with the standards applicable to units in low-rent housing projects assisted under the other provisions of this Act;

(3) the agency shall have the sole right to give notice to vacate, with the owner having the right to make representations to the agency for termination of a tenancy;

(4) maintenance and replacements (including redecoration) shall be in accordance with the standard practice for the building concerned, as established by the owner and agreed to by the agency; and

(5) the agency and the owner shall carry out such other appropriate terms and conditions as may be mutually agreed to by them. Each contract between a public housing agency and an owner entered into under this subsection shall be for a term of not less than twelve months nor more than thirty-six months, and shall be renewable by such agency and owner at the expiration of such term.

(e) The annual contribution under this Act for a project of a public housing agency for low-rent housing in private accommodations under this section in lieu of any other guaranteed contribution authorized by section 10 shall not exceed the amount of the fixed annual contribution which would be established under this Act for a newly constructed project by such public housing agency designed to accommodate the comparable number, sizes, and kinds of families. The period over which payments will be made to a public housing agency for a project of low-rent housing in private accommodations under this section, and the aggregate amount of such payments, under a contract for annual contributions, shall be determined on the basis of the number of units in the community or communities under the jurisdiction of such agency which are in use (or can reasonably be expected to be placed in use) as low-rent housing in private accommodations under this section, taking into account the terms of the leases under which such units are (or will be) so used. In addition, contracts for financial assistance entered into by the Authority with a public housing agency pursuant to this section shall provide for reimbursement of reasonable and necessary expenses incurred by such agency in conducting surveys, listings, and inspections described in subsections (b) and (c).

(f) The provisions of sections 10(h) and 15(7) of this Act, and the workable program requirement in section 10(e) of this Act and section

101(c) of the Housing Act of 1949, shall not apply to low-rent housing in private accommodations provided under this section.

PENALTIES

SEC. 24. All general penal statutes relating to the larceny, embezzlement, or conversion or to the improper handling, retention, use, or disposal of public moneys or property of the United States shall apply to the moneys and property of the Authority and to moneys and properties of the United States entrusted to the Authority.

SEC. 25. Repealed.

SEC. 26. Repealed.

SEC. 27. Repealed.

SEC. 28. Wherever the application of the provisions of this Act conflicts with the application of the provisions of Public Numbered 837, approved June 29, 1936 (49 Stat. 2025), Public Numbered 845, approved June 29, 1936 (49 Stat. 2035), or any other Act of the United States dealing with housing or slum clearance, or any Executive order, regulation, or other order thereunder, the provisions of this Act shall prevail.

SEC. 29. The President is hereby authorized to make available to the Alley Dwelling Authority, from any funds appropriated or otherwise provided to carry out the purposes of this Act, such sums as he deems necessary to carry out the purposes of the District of Columbia Alley Dwelling Act, approved June 12, 1934 (Public Numbered 307, Seventy-third Congress). Such sums shall be deposited in the Conversion of Inhabited Alleys Fund and thereafter shall remain immediately available for the purposes of the District of Columbia Alley Dwelling Act.

SEC. 30. Notwithstanding any other evidences of the intention of Congress, it is hereby declared to be the controlling intent of Congress that if any provision of this Act, or the application thereof to any person or circumstance, is held invalid, the remainder of this Act, or the application of such provision to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby.

SEC. 31. This Act may be cited as the "United States Housing Act of 1937."

Approved, September 1, 1937.

HOUSING ACT OF 1948

[Public Law 901, 80th Congress; 62 Stat. 1268, 1276, 12 U.S.C. 1701e (1946 ed., Supp. III)]

* * *

TITLE III

SEC. 301. The [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* shall—

(a) Undertake and conduct a program with respect to technical research and studies concerned with the development, demonstration, and promotion of the acceptance and application of new and improved techniques, materials, and methods which will permit progressive reductions in housing construction and maintenance costs, and stimulate the increased and sustained production of housing, and concerned with

housing economics and other housing market data. Such program may be concerned with improved and standardized building codes and regulations and methods for the more uniform administration thereof, standardized dimensions and methods for the assembly of home-building materials and equipment, improved residential design and construction, new and improved types of housing components, building materials and equipment, and methods of production, distribution, assembly, and construction, and sound techniques for the testing thereof and for the determination of adequate performance standards, and may relate to appraisal, credit, and other housing market data, housing needs, demand and supply, finance and investment, land costs, use and improvement, site planning and utilities, zoning and other laws, codes, and regulations as they apply to housing, other factors affecting the cost of housing, and related technical and economic research. Contracts may be made by the [Administrator] *Secretary* for technical research and studies authorized by this subsection for work to continue not more than four years from the date of any such contract. Notwithstanding the provisions of section 5 of the Act of June 20, 1874, as amended (31 U.S.C. 713), any unexpended balances of appropriations properly obligated by contracting with an organization as provided in this subsection may remain upon the books of the Treasury for not more than five fiscal years before being carried to the surplus fund and covered into the Treasury. All contracts made by the [Administrator] *Secretary* for technical research and studies authorized by this or any other Act shall contain requirements making the results of such research or studies available to the public through dedication, assignment to the Government, or such other means as the [Administrator] *Secretary* shall determine. The [Administrator] *Secretary* shall disseminate, and without regard to the provisions of 39 United States Code 321n, the results of such research and studies in such form as may be most useful to industry and to the general public. [Notwithstanding any other provisions of law except provisions enacted expressly in limitation hereof, the Administrator is authorized to consolidate, with the functions and activities performed under this subsection, any functions or activities now being performed or which, otherwise, would be performed by any constituent agency of the Housing and Home Finance Agency with respect to housing market data, and with respect to any other function or activity which the Administrator is authorized to perform by this subsection, if he determines that such consolidation is practicable and will promote more effective administration. The Administrator shall utilize the authority under this subsection with respect to housing market data to secure such information and data as may be required in connection with the functions of the constituent agencies within the Housing and Home Finance Agency and his supervision and coordination of the functions of said agencies, and in connection with determinations and approvals under section 15(7)(b)(ii) and section 15(8)(a) of the United States Housing Act of 1937, as amended: *Provided*, That this sentence shall not be construed as a limitation upon the authority conferred upon the Administrator by this subsection.]

(b) Prepare and submit to the President and to the Congress estimates of national urban and rural nonfarm housing needs and reports with respect to the progress being made toward meeting such

needs, and correlate and recommend proposals for such executive action or legislation as may be necessary or desirable for the furtherance of the national housing objective and policy established by this Act, with respect to urban and rural nonfarm housing, together with such other reports or information as may be required of the [Administrator] *Secretary* by the President or the Congress.

(c) Encourage localities to make studies of their own housing needs and markets, along with surveys and plans for housing, urban land use and related community development, and provide, where requested and needed by the localities, technical advice and guidance in the making of such studies, surveys, and plans. To facilitate the cooperation of Federal agencies in carrying out such studies or surveys, such Federal agencies are hereby authorized to accept funds and reimburse their appropriation for the cost of such studies or surveys.

SEC. 302. In carrying out research and studies under this title, the [Administrator] *Secretary* shall utilize, to the fullest extent feasible, the available facilities of other departments, independent establishments, and agencies of the Federal Government, and shall consult with, and make recommendations to, such departments, independent establishments, and agencies with respect to such action as may be necessary and desirable to overcome existing gaps and deficiencies in available housing data or in the facilities available for the collection of such data. The [Administrator] *Secretary* is further authorized, for the purposes of this title, to undertake research and studies cooperatively with industry and labor, and with agencies of State or local governments, and educational institutions and other nonprofit organizations. For the purpose of entering into contracts with any State or local public agency or instrumentality, or educational institution or other nonprofit agency or organization, in carrying out any research or studies authorized by this title, the [Administrator] *Secretary* may exercise any of the powers vested in him by section 502(c) of the Housing Act of 1948.

SEC. 303. There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of this title.

[SEC. 304. The Administrator shall appoint a Director to administer the provisions of this title under the direction and supervision of the Administrator, and the basic rate of compensation of such position shall be the same as the basic rate of compensation established for the heads of the constituent agencies of the Housing and Home Finance Agency.]

* * *

TITLE V—ADMINISTRATIVE AND MISCELLANEOUS PROVISIONS

ADMINISTRATIVE PROVISIONS

* * *

SEC. 502. In carrying out their respective functions, powers, and duties—

(a) The [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* may appoint such officers and employees as he may find necessary, which appointments shall be subject to the civil-service laws and the Classification Act of 1923,

as amended. The [Administrator] *Secretary* may make such expenditures as may be necessary to carry out his functions, powers, and duties, and there are hereby authorized to be appropriated to the [Administrator] *Secretary*, out of any moneys in the Treasury not otherwise appropriated, such sums as may be necessary to carry out such functions, powers, and duties and for administrative expenses in connection therewith. The [Administrator] *Secretary*, without in any way relieving himself from final responsibility, may delegate any of his functions and powers to such officers, agents, or employees as he may designate, may authorize such successive redelegations of such functions and powers, as he may deem desirable, and may make such rules and regulations as may be necessary to carry out his functions, powers, and duties. [The Administrator shall cause to be prepared for the Housing and Home Finance Agency an official seal of such device as he shall approve, and judicial notice shall be taken of said seal.] The Secretary of Commerce or his designee shall hereafter be included in the membership of the National Housing Council.

(b) The [Public Housing Administration shall sue] *United States Housing Authority may sue* and be sued only with respect to its functions under the United States Housing Act of 1937, as amended, and title II of Public Law 671, Seventy-sixth Congress, approved June 28, 1940, as amended. [The Public Housing Commissioner may appoint such officers and employees as he may find necessary, which appointments, notwithstanding the provisions of any other law, shall hereafter be made hereunder, and shall be subject to the civil-service laws and the Classification Act of 1923, as amended; delegate any of his functions and powers to such officers, agents, or employees of the Public Housing Administration as he may designate; and make such rules and regulations as he may find necessary to carry out his functions, powers, and duties.] Funds made available for carrying out the functions, powers, and duties of the [Administration] *Authority* (including appropriations therefor, which are hereby authorized) shall be available, in such amounts as may from year to year be authorized by the Congress, for the administrative expenses of the [Administration] *Authority*. Notwithstanding any other provisions of law except provisions of law hereafter enacted expressly in limitation hereof, the [Public Housing Administration] *United States Housing Authority*, or any State or local public agency administering a low-rent housing project assisted pursuant to the United States Housing Act of 1937 or title II of Public Law 671, Seventy-sixth Congress, approved June 28, 1940, shall continue to have the right to maintain an action or proceeding to recover possession of any housing accommodations operated by it where such action is authorized by the statute or regulations under which such housing accommodations are administered, and, in determining net income for the purposes of tenant eligibility with respect to low-rent housing projects assisted pursuant to said Acts, the [Public Housing Administration] *United States Housing Authority* is authorized, where it finds such action equitable and in the public interest, to exclude amounts or portions thereof paid by the United States Government for disability or death occurring in connection with military service.

(c) The [Housing and Home Finance Administrator, the Home Loan Bank Board] *Secretary of Housing and Urban Development and the Federal Home Loan Bank Board* (which term as used in this section shall also include and refer to the Federal Savings and Loan Insurance Corporation, the Home Owners' Loan Corporation, and the Chairman of the [Home Loan Bank Board], the Federal Housing Commissioner, and the Public Housing Commissioner] *Federal Home Loan Bank Board*, respectively, may, in addition to and not in derogation of any powers and authorities conferred elsewhere in this Act—

(1) with the consent of the agency or organization concerned, accept and utilize equipment, facilities, or the services of employees of any State or local public agency or instrumentality, educational institution, or nonprofit agency or organization and, in connection with the utilization of such services, may make payments for transportation while away from their homes or regular places of business and per diem in lieu of subsistence en route and at place of such service, in accordance with the provisions of 5 U.S.C. 73b-2;

(2) utilize, contract with, and act through, without regard to section 3709, of the Revised Statutes, any Federal, State, or local public agency or instrumentality, educational institution, or nonprofit agency or organization with the consent of the agency or organization concerned, and any funds available to said officers for carrying out their respective functions, powers, and duties shall be available to reimburse or pay any such agency or organization; and, whenever in the judgment of any such officer necessary, he may make advance, progress, or other payments with respect to such contracts without regard to the provisions of section 3648 of the Revised Statutes;

(3) make expenditures for all necessary expenses, including preparation, mounting, shipping, and installation of exhibits; purchase and exchange of technical apparatus; and such other expenses as may, from time to time, be found necessary in carrying out their respective functions, powers, and duties: *Provided*, That funds made available for administrative expenses in carrying out the functions, powers, and duties imposed upon the [Housing and Home Finance Administrator, the Home Loan Bank Board, the Federal Housing Commissioner, and the Public Housing Commissioner] *Secretary of Housing and Urban Development and the Federal Home Loan Bank Board*, respectively, by or pursuant to law may at their option be consolidated into single administrative expense fund accounts of [said officers or agencies] *such officer or agency* for expenditure by them, respectively, in accordance with the provisions hereof.

(d) The [Housing and Home Finance Administrator, the Federal Housing Commissioner, and the Public Housing Commissioner, respectively, may utilize funds made available to them] *Secretary of Housing and Urban Development may utilize funds made available to him* for salaries and expenses for payment in advance for dues or fees for library memberships in organizations (or for membership of the individual librarians [of the respective agencies] in organizations which will not accept library membership) whose publications are

available to members only, or to members at a price lower than to the general public, and for payment in advance for publications available only upon that basis or available at a reduced price on prepublication order.

HOUSING ACT OF 1949

[Public Law 171, 81st Congress; 63 Stat. 413; 42 U.S.C. 1441 (1946 ed., Supp. III)]

* * *

DECLARATION OF NATIONAL HOUSING POLICY

SEC. 2. The Congress hereby declares that the general welfare and security of the Nation and the health and living standards of its people require housing production and related community development sufficient to remedy the serious housing shortage, the elimination of substandard and other inadequate housing through the clearance of slums and blighted areas, and the realization as soon as feasible of the goal of a decent home and a suitable living environment for every American family, thus contributing to the development and redevelopment of communities and to the advancement of the growth, wealth, and security of the Nation. The Congress further declares that such production is necessary to enable the housing industry to make its full contribution toward an economy of maximum employment, production, and purchasing power. The policy to be followed in attaining the national housing objective hereby established shall be: (1) private enterprise shall be encouraged to serve as large a part of the total need as it can; (2) governmental assistance shall be utilized where feasible to enable private enterprise to serve more of the total need; (3) appropriate local public bodies shall be encouraged and assisted to undertake positive programs of encouraging and assisting the development of well-planned, integrated residential neighborhoods, the development and redevelopment of communities, and the production, at lower costs, of housing of sound standards of design, construction, livability, and size for adequate family life; (4) governmental assistance to eliminate substandard and other inadequate housing through the clearance of slums and blighted areas, to facilitate community development and redevelopment, and to provide adequate housing for urban and rural nonfarm families with incomes so low that they are not being decently housed in new or existing housing shall be extended to those localities which estimate their own needs and demonstrate that these needs are not being met through reliance solely upon private enterprise, and without such aid; and (5) governmental assistance for decent, safe, and sanitary farm dwellings and related facilities shall be extended where the farm owner demonstrates that he lacks sufficient resources to provide such housing on his own account and is unable to secure necessary credit for such housing from other sources on terms and conditions which he could reasonably be expected to fulfill. [The Housing and Home Finance Agency and its constituent agencies] *The Department of Housing and Urban Development*, and any other departments or agencies of the Federal Government having powers, functions, or duties with respect to housing,

shall exercise their powers, functions, and duties under this or any other law, consistently with the national housing policy declared by this Act and in such manner as will facilitate sustained progress in attaining the national housing objective hereby established, and in such manner as will encourage and assist (1) the production of housing of sound standards of design, construction, livability, and size for adequate family life; (2) the reduction of the costs of housing without sacrifice of such sound standards; (3) the use of new designs, materials, techniques, and methods in residential construction, the use of standardized dimensions and methods of assembly of home-building materials and equipment, and the increase of efficiency in residential construction and maintenance; (4) the development of well-planned, integrated, residential neighborhoods and the development and redevelopment of communities; and (5) the stabilization of the housing industry at a high annual volume of residential construction.

* * *

TITLE I—SLUM CLEARANCE AND URBAN RENEWAL

URBAN RENEWAL FUND

SEC. 100. The authorizations, funds, and appropriations available pursuant to sections 102 and 103 hereof shall constitute a fund, to be known as the "Urban Renewal Fund", and shall be available for advances, loans, and grants to local public agencies for urban renewal projects in accordance with the provisions of this title, and all contracts, obligations, assets, and liabilities existing under or pursuant to said sections prior to the enactment of the Housing Act of 1954 are hereby transferred to said Fund.

LOCAL RESPONSIBILITIES

SEC. 101. (a) In entering into any contract for advances for surveys, plans, and other preliminary work for projects under this title or for grants pursuant to section 103(d), the [Administrator] *Secretary* shall give consideration to the extent to which appropriate local public bodies have undertaken positive programs (through the adoption, modernization, administration, and enforcement of housing, zoning, building and other local laws, codes and regulations relating to land use and adequate standards of health, sanitation, and safety for buildings, including the use and occupancy of dwellings) for (1) preventing the spread or recurrence in the community of slums and blighted areas, and (2) encouraging housing cost reductions through the use of appropriate new materials, techniques, and methods in land and residential planning, design, and construction, the increase of efficiency in residential construction, and the elimination of restrictive practices which unnecessarily increase housing costs.

(b) In the administration of this title, the [Administrator] *Secretary* shall encourage the operations of such local public agencies as are established on a State, or regional (within a State), or unified metropolitan basis or as are established on such other basis as permits such agencies to contribute effectively toward the solution of community development or redevelopment

problems on a State or regional (within a State), or unified metropolitan basis. The [Administrator] *Secretary* shall particularly encourage the utilization of local public agencies established by the States to operate on a statewide basis in behalf of smaller communities within the State which are undertaking or propose to undertake urban renewal programs whenever that arrangement facilitates the undertaking of an urban renewal program by any such community, or provides an effective solution to community development or redevelopment problems in such communities, and is approved by resolution or ordinance of the governing bodies of the affected communities.

(c) No contract shall be entered into for any loan or capital grant under this title, or for annual contributions or capital grants pursuant to the United States Housing Act of 1937, as amended, for any project or projects not constructed or covered by a contract for annual contributions prior to August 1, 1956, and no mortgage shall be insured, and no commitment to insure a mortgage shall be issued, under section 220 or section 221(d)(3) of the National Housing Act, as amended, unless (1) there is presented to the [Administrator] *Secretary* by the locality a workable program for community improvement (which shall include an official plan of action, as it exists from time to time, for effectively dealing with the problem of urban slums and blight within the community and for the establishment and preservation of a well-planned community with well-organized residential neighborhoods of decent homes and suitable living environment for adequate family life) for utilizing appropriate private and public resources to eliminate, and prevent the development or spread of, slums and urban blight, to encourage needed urban rehabilitation, to provide for the redevelopment of blighted, deteriorated, or slum areas, or to undertake such of the aforesaid activities or other feasible community activities as may be suitably employed to achieve the objectives of such a program, and (2) on the basis of his review of such program, the [Administrator] *Secretary* determines that such program meets the requirements of this subsection and certifies [to the constituent agencies affected] that the Federal assistance may be made available in such community: *Provided*, That this sentence shall not apply to the insurance of, or commitment to insure, a mortgage under (i) section 220 of the National Housing Act, as amended, if the mortgaged property is in an area referred to in clause (A)(i) of paragraph (1) of section 220(d) of the National Housing Act, or (ii) section 221(d)(3) of the National Housing Act if payments with respect to the mortgaged property are made or are to be made under section 101 of the Housing and Urban Development Act of 1965, except that no such mortgage shall be insured, and no commitment to insure such a mortgage shall be issued, with respect to property in any community for which a workable program for community improvement was required and in effect at the time a contract for a loan or capital grant was entered into under this title, or a contract for annual contributions or capital grants was entered into pursuant to the United States Housing Act of 1937, unless there is a workable program for community improvement which meets the requirements of this subsection in effect in such community at the time of such insurance or commitment: *Provided further*, That commencing three years after the date of enactment of the Hous-

ing Act of 1964, no workable program shall be certified or re-certified unless (A) the locality has had in effect, for at least six months prior to such certification or re-certification, a minimum standards housing code, related but not limited to health, sanitation, and occupancy requirements, which is deemed adequate by the [Administrator] *Secretary*, and (B) the [Administrator] *Secretary* is satisfied that the locality is carrying out an effective program of enforcement to achieve compliance with such housing code. Notwithstanding any other provision of law, in the case of a contract with an Indian tribe, band, or nation (or a public housing or other public agency for such tribe, band, or nation established under State or tribal law), the workable program and minimum standards housing code, referred to in the preceding sentence, may be presented to the [Administrator] *Secretary* by such tribe, band, or nation, and it shall be subject to the requirements of law with respect to such program and code only to the extent that such tribe, band, or nation has the legal jurisdiction and power to carry out such requirements.

(d) The [Administrator] *Secretary* is authorized to establish facilities (1) for furnishing to communities, at their request, an urban renewal service to assist them in the preparation of a workable program as referred to in the preceding subsection and to provide them with technical and professional assistance for planning and developing local urban renewal programs (including rehabilitation projects requiring no additional assistance under this title or self-liquidation redevelopment projects), and (2) for the assembly, analysis and reporting of information pertaining to such programs.

(e) No loan or grant contract may be entered into by the [Administrator] *Secretary* for an urban renewal project unless he determines that (1) the workable program for community improvement presented by the locality pursuant to subsection (c) is of sufficient scope and content to furnish a basis for evaluation of the need for the urban renewal project; and (2) such project is in accord with the program.

LOANS

SEC. 102. (a) To assist local communities in the elimination of slums and blighted or deteriorated or deteriorating areas, in preventing the spread of slums, blight or deterioration, and in providing maximum opportunity for the redevelopment, rehabilitation, and conservation of such areas by private enterprise, the [Administrator] *Secretary* may make temporary and definitive loans to local public agencies in accordance with the provisions of this title for the undertaking of urban renewal projects. Such loans (outstanding at any one time) shall be in such amounts not exceeding the estimated expenditures to be made by the local public agency for such purposes, bear interest at such rate (not less than the applicable going Federal rate), be secured in such manner, and be repaid within such period (not exceeding, in the case of definitive loans, forty years from the date of the bonds or other obligations evidencing such loans), as may be deemed advisable by the [Administrator] *Secretary*. In any case where, in connection with its undertaking

and carrying out of an urban renewal project, a local public agency is authorized (under the circumstances in which the temporary loan herein provided is requested) to acquire real property in the urban renewal area, the [Administrator] *Secretary*, in addition to all other authority under this title and notwithstanding any other provisions of this title, regardless of the stage of development of the urban renewal plan and whether before or after the approval thereof, may make a temporary loan or loans to any such local public agency to finance the acquisition of such real property: *Provided*, That no loan for such purpose shall be made unless (1) the governing body of the locality involved shall have approved by resolution or ordinance the acquisition of real property in the urban renewal area, and (2) either (A) the [Administrator] *Secretary* shall have determined that such loan is reasonably secured by a first mortgage or other prior lien upon such real property or is otherwise reasonably secured, or (B) the governing body of the locality shall have assumed the responsibility to bear any loss that may arise as the result of such acquisition in the event that the property so acquired is not used for urban renewal purposes because the urban renewal plan for the project is not approved, or is amended to omit any of the acquired property, or is abandoned for any reason: *Provided further*, That the [Administrator] *Secretary* may, in his discretion and subject to such conditions as he may impose, permit any structure so acquired to be demolished and removed, and may include in any loan authorized by this section the cost of such demolition and removal, together with administrative, relocation, and other related costs and payments, if the approval of the local governing body extends to such demolition and removal: *And provided further*, That the loan contract shall provide that the local public agency shall not dispose of such real property (except in lieu of foreclosure) until the local governing body of the locality involved shall have either approved the urban renewal plan for the project or consented to the disposal of such real property. Notwithstanding any other provision of this title, the [Administrator] *Secretary* may make a temporary loan, as described in the first two sentences of this subsection, for two or more urban renewal projects being carried out by the same local public agency. The principal amount of any such loan which is outstanding at any one time shall not exceed the estimated expenditures to be made by the local public agency for such projects.

(b) In connection with any project on land which is open or predominantly open, the [Administrator] *Secretary* may make temporary loans to municipalities or other public bodies for the provision of public buildings or facilities necessary to serve or support the new uses of such land in the project area. Such temporary loans shall be in such amounts not exceeding the expenditures to be made for such purpose, bear interest at such rate (not less than the applicable going Federal rate), be secured in such manner, and be repaid within such period (not exceeding ten years from the date of the obligations evidencing such loans), as may be deemed advisable by the [Administrator] *Secretary*.

(c) Loans made pursuant to subsection (a) or (b) hereof may be made subject to the condition that, if at any time or times or for any

period or periods during the life of the loan contract the local public agency can obtain loan funds from sources other than the Federal Government at interest rates lower than provided in the loan contract, it may do so with the consent of the [Administrator] *Secretary* at such times and for such periods without waiving or surrendering any rights to loan funds under the contract for the remainder of the life of such contract, and, in any such case, the [Administrator] *Secretary* is authorized to consent to a pledge by the local public agency of the loan contract, and any or all of its rights thereunder, as security for the repayment of the principal of and the interest on the loan funds so obtained from other sources. In connection with any such pledge of a loan contract, including loan payments thereunder, as security for the repayment of obligations of the local public agency held by other than the Federal Government, the [Administrator] *Secretary* is authorized to agree to pay, through operations of a paying agent or agents, and to pay or cause to be paid when due, from funds obtained pursuant to subsection (e) of this section, to the holders of such obligations (or to their agents or designees) the principal of and the interest on such obligations, subject to such conditions as the [Administrator] *Secretary* may determine but without regard to any other condition or requirement. Notwithstanding any other provision of law, any contract or other instrument executed by the [Administrator] *Secretary* which, by its terms, includes an obligation of the [Administrator] *Secretary* to make payment pursuant to this subsection shall be construed by all officers of the United States separate and apart from the loan contract and shall be incontestable in the hands of a bearer and the full faith and credit of the United States is pledged to the payment of all amounts agreed to be paid by the [Administrator] *Secretary* pursuant to this subsection.

(d) The [Administrator] *Secretary* may make advances of funds to local public agencies for surveys of urban areas to determine whether the undertaking of urban renewal projects therein may be feasible and for surveys and plans for urban renewal projects which may be assisted under this title, including, but not limited to, (i) plans for carrying out a program of voluntary repair and rehabilitation of buildings and improvements, (ii) plans for the enforcement of State and local laws, codes, and regulations relating to the use of land and the use and occupancy of buildings and improvements, and to the compulsory repair, rehabilitation, demolition, or removal of buildings and improvements, and (iii) appraisals, title searches, and other preliminary work necessary to prepare for the acquisition of land in connection with the undertaking of such projects. The contract for any such advance of funds shall be made upon the condition that such advance of funds shall be repaid, with interest at not less than the applicable going Federal rate, out of any moneys which become available to the local public agency for the undertaking of the project involved. No contract for any such advances of funds for surveys and plans for urban renewal projects which may be assisted under this title shall be made unless the governing body of the locality involved has by resolution or ordinance approved the undertaking of such surveys and plans and the submission by the local public agency of an application for such advance of funds. Notwithstanding section 110(h) or the use in any

other provision of this title of the term "local public agency" or "local public agencies" the [Administrator] *Secretary* may make advances of funds under this subsection for surveys and plans for an urban renewal project (including General Neighborhood Renewal Plans as hereinafter defined) to a single local public body which has the authority to undertake and carry out a substantial portion, as determined by the [Administrator] *Secretary*, of the surveys and plans or the project respecting which such surveys and plans are to be made: *Provided*, That the application for such advances shows, to the satisfaction of the [Administrator] *Secretary*, that the filing thereof has been approved by the public body or bodies authorized to undertake the other portions of the surveys and plans or of the project which the applicant is not authorized to undertake.

In order to facilitate proper preliminary planning for the attainment of the urban renewal objectives of this title, the [Administrator] *Secretary* may also make advances of funds (in addition to those authorized above) to local public agencies for the preparation of General Neighborhood Renewal Plans (as herein defined). A General Neighborhood Renewal Plan may be prepared for an area consisting of an urban renewal area or areas, together with any adjoining areas having specially related problems, and which is of such size that the urban renewal activities in the urban renewal area or areas may have to be initiated in stages, consistent with the capacity and resources of the respective local public agency or agencies, over an estimated period of not more than eight years.

No contract for advances for the preparation of a General Neighborhood Renewal Plan may be made unless the [Administrator] *Secretary* has determined that:

- (1) in the interest of sound community planning, it is desirable that the urban renewal activities proposed for the area be planned in their entirety;

- (2) the local public agency proposes to undertake promptly an urban renewal project embracing at least 10 per centum of such area, upon completion of the General Neighborhood Renewal Plan and the preparation of an urban renewal plan for such project; and

- (3) the governing body of the locality has by resolution or ordinance (i) approved the undertaking of the General Neighborhood Renewal Plan and the submission of an application for such advance and (ii) represented that such plan will be used to the fullest extent feasible as a guide for the provision of public improvements in such area and that the plan will be considered in formulating codes and other regulatory measures affecting property in the area and in undertaking other local governmental activities pertaining to the development, redevelopment, rehabilitation, and conservation of the area.

The contract for any such advance of funds for a General Neighborhood Renewal Plan shall be made upon the condition that such advance shall be repaid, with interest at not less than the applicable Federal rate, out of any moneys which become available to the local public agency for the undertaking of the first urban renewal project in such area: *Provided*, That in the event of the undertaking:

of any other project or projects in such area an appropriate allocation of the amount of the advance, with interest, may be effected to the end that each such project may bear its proper allocable part, as determined by the [Administrator] *Secretary* of the cost of the General Neighborhood Renewal Plan. As used herein, a General Neighborhood Renewal Plan means a preliminary plan (conforming in the determination of the governing body of the locality, to the general plan of the locality as a whole and to the workable program of the community meeting the requirements of section 101) which outlines the urban renewal activities proposed for the area involved, provides a framework for the preparation of urban renewal plans and indicates generally, to the extent feasible in preliminary planning, the land uses, population density, building coverage, prospective requirements for rehabilitation and improvement of property, and any portions of the area contemplated for clearance and redevelopment.

(e) The total amount of loan contracts outstanding at any one time under this title shall not exceed the aggregate of the estimated expenditures to be made by local public agencies as part of the gross project cost of the projects assisted by such contracts. To obtain funds for advance and loan disbursements under this title, the [Administrator] *Secretary* may issue and have outstanding at any one time notes and obligations for purchase by the Secretary of the Treasury in an amount which shall not, unless authorized by the President exceed \$1,000,000,000. For the purpose of establishing unpaid obligations as of a given date against the authorization contained in the preceding sentence, the [Administrator] *Secretary* shall estimate the maximum amount to be required to be borrowed from the Treasury and outstanding at any one time with respect to loan commitments in effect on such date.

(f) Notes or other obligations issued by the [Administrator] *Secretary* under this title shall be in such forms and denominations, have such maturities, and be subject to such terms and conditions as may be prescribed by the [Administrator] *Secretary*, with the approval of the Secretary of the Treasury. Such notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the current average rate on outstanding marketable obligations of the United States as of the last day of the month preceding the issuance of such notes or other obligations. The Secretary of the Treasury is authorized and directed to purchase any notes and other obligations of the [Administrator] *Secretary* issued under this title and for such purpose is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as amended, and the purposes for which securities may be issued under such Act, as amended, are extended to include any purchases of such notes and other obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this section. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as public debt transactions of the United States.

(g) Obligations, including interest thereon, issued by local public agencies for projects assisted pursuant to this title, and income derived

by such agencies from such projects, shall be exempt from all taxation now or hereafter imposed by the United States.

CAPITAL GRANTS

SEC. 103. (a) (1) The **[Administrator]** *Secretary* may make capital grants to local public agencies in accordance with the provisions of this title for urban renewal projects: *Provided*, That the **[Administrator]** *Secretary* shall not make any contract for capital grant with respect to a project which consists of open land.

(2) The aggregate of such capital grants with respect to all of the projects of a local public agency (or of two or more local public agencies in the same municipality) on which contracts for capital grants have been made under this title shall not exceed the total of—

(A) two-thirds of the aggregate net project costs of all such projects to which neither subparagraph (B) nor subparagraph (C) applies, and

(B) three-fourths of the aggregate net project costs of any such projects which are located in (i) a municipality having a population of fifty thousand or less according to the most recent decennial census, or (ii) a municipality situated in a labor market area which, at the time the contract or contracts involved are entered into or at such earlier time as the **[Administrator]** *Secretary* may specify in order to avoid hardship, is designated as a redevelopment area under the second sentence of section 5(a) of the Area Redevelopment Act or any other legislation enacted after the date of the enactment of the Housing and Urban Development Act of 1965 containing standards for designation as a redevelopment area generally comparable to those set forth in the second sentence of section 5(a) of the Area Redevelopment Act, and

(C) three-fourths of the aggregate net project costs of any of such projects (not falling within subparagraph (B)) which the **[Administrator]** *Secretary*, upon request, may approve on a three-fourths capital grant basis.

(3) A capital grant with respect to any individual project shall not exceed the difference between the net project cost and the local grants-in-aid actually made with respect to the project.

(b) The **[Administrator]** *Secretary* may, with the approval of the President, contract to make grants under this title aggregating not to exceed \$4,700,000,000, which amount shall be increased by \$675,000,000 on the date of the enactment of the Housing and Urban Development Act of 1965, by \$725,000,000 on July 1, 1966, and by \$750,000,000 on July 1 in each of the years 1967 and 1968. Such grants shall not be used for major long-term capital improvement; shall not exceed two-thirds of the cost, as determined or estimated by the **[Administrator]** *Secretary*, of the project for which the grant is made; and shall be subject to such other terms and conditions as he may prescribe. The **[Administrator]** *Secretary* is authorized, notwithstanding the provisions of section 3648 of the Revised Statutes, as amended, to make advance or progress payments on account of any grant contracted to be made pursuant to this section. The faith of the United States is solemnly pledged to the payment of all grants

contracted for under this title, and there are hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, the amounts necessary to provide for such payments: *Provided*, That any amounts so appropriated shall also be available for repaying to the Secretary of the Treasury, for application to notes of the [Administrator] *Secretary*, the principal amounts of any funds advanced to local public agencies under this title which the [Administrator] *Secretary* determines to be uncollectible because of the termination of activities for which such advances were made, together with the interest paid or accrued to the Secretary of the Treasury (as determined by him) attributable to notes given by the [Administrator] *Secretary* in connection with such advances, but all such repayments shall constitute a charge against the authorization to make contracts for grants contained in this section: *Provided further*, That no such determination of the [Administrator] *Secretary* shall be construed to prejudice the rights of the United States with respect to any such advance.

(c) Notwithstanding any other provision of this or any other Act, if financial assistance authorized by this title to be made available to a locality or local public agency may be made available to any locality or local public agency within the limitations provided in sections 102(e), 103(b), and 106(e), and the second paragraph following the paragraph numbered (6) of section 110(c), the amount of such financial assistance made available to any locality or local public agency upon submission and processing of proper application therefor shall not otherwise be restricted except on the basis of (1) urgency of need, and (2) feasibility, as determined by the [Administrator] *Secretary*.

(d) The [Administrator] *Secretary* may contract to make grants for the preparation or completion of community renewal programs, which may include, without being limited to, (1) the identification of slum areas or blighted, deteriorated, or deteriorating areas in the community, (2) the measurement of the nature and degree of blight and blighting factors within such areas, (3) determination of the financial, relocation, and other resources needed and available to renew such areas, (4) the identification of potential project areas and, where feasible, types of urban renewal action contemplated within such areas, and (5) scheduling or programming of urban renewal activities. Such programs shall conform, in the determination of the governing body of the locality, to the general plan of the locality as a whole. The [Administrator] *Secretary* may establish reasonable requirements respecting the scope and content of such programs. No contract for a grant pursuant to this subsection shall be made unless the governing body of the locality involved has approved the preparation or completion of the community renewal program and the submission by the local public agency of an application for such a grant. Notwithstanding section 110(h) or the use in any other provision of this title of the term "local public agency" or "local public agencies," the [Administrator] *Secretary* may make grants pursuant to this subsection for the preparation or completion of a community renewal program to a single local public body authorized to perform the planning work necessary to such preparation or completion. No grant made pursuant to this subsection shall exceed

two-thirds of the cost (as such cost is determined or estimated by the [Administrator] *Secretary* of the preparation or completion of the community renewal program for which such grant is made.

REQUIREMENTS FOR LOCAL GRANTS-IN-AID

SEC. 104. Every contract for capital grants under this title shall require local grants-in-aid in connection with the project involved. Such local grants-in-aid, together with the local grants-in-aid to be provided in connection with all other projects of the local public agency (or two or more local public agencies in the same municipality) on which contracts for capital grants have theretofore been made, shall be at least equal to the total of one-third of the aggregate net project costs of such projects undertaken on a two-thirds capital grant basis and one-fourth of the aggregate net project costs of such projects undertaken on a three-fourths capital grant basis.

LOCAL DETERMINATIONS

SEC. 105. Contracts for loans or capital grants shall be made only with a duly authorized local public agency and shall require that—

(a) The urban renewal plan for the urban renewal area be approved by the governing body of the locality in which the project is situated, and that such approval include findings by the governing body that (i) the financial aid to be provided in the contract is necessary to enable the project to be undertaken in accordance with the urban renewal plan; (ii) the urban renewal plan will afford maximum opportunity, consistent with the sound needs of the locality as a whole, for the rehabilitation or redevelopment of the urban renewal area by private enterprise; (iii) the urban renewal plan conforms to a general plan for the development of the locality as a whole; and (iv) the urban renewal plan gives due consideration to the provision of adequate park and recreational areas and facilities, as may be desirable for neighborhood improvement with special consideration for the health, safety, and welfare of children residing in the general vicinity of the site covered by the plan;

(b) When real property acquired or held by the local public agency in connection with the project is sold or leased, the purchasers or lessees and their assignees shall be obligated (i) to devote such property to the uses specified in the urban renewal plan for the project area; (ii) to begin within a reasonable time any improvements on such property required by the urban renewal plan; and (iii) to comply with such other conditions as the [Administrator] *Secretary* finds, prior to the execution of the contract for loan or capital grant pursuant to this title, are necessary to carry out the purposes of this title: *Provided*, That clause (ii) of this subsection shall not apply to mortgagees and others who acquire an interest in such property as the result of the enforcement of any lien or claim thereon: *And provided further*, That, with respect to any improvements of a type which it is otherwise authorized to undertake, any Federal agency (as defined in section 3(b) of the Federal Property and Administrative Services Act of 1949, as amended, and also including the District of Columbia or any agency thereof) is hereby authorized to become obligated in

accordance with this subsection, except that clause (ii) of this subsection shall apply to such Federal agency only to the extent that it is authorized (and funds have been made available) to make the improvements involved;

(c) (1) There shall be a feasible method for the temporary relocation of individuals and families displaced from the urban renewal area, and there are or are being provided, in the urban renewal area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the individuals and families displaced from the urban renewal area, decent, safe, and sanitary dwellings equal in number to the number of and available to such displaced individuals and families and reasonably accessible to their places of employment. The **[Administrator]** *Secretary* shall issue rules and regulations to aid in implementing the requirements of this subsection and in otherwise achieving the objectives of this title. Such rules and regulations shall require that there be established, at the earliest practicable time, for each urban renewal project involving the displacement of individuals, families, and business concerns occupying property in the urban renewal area, a relocation assistance program which shall include such measures, facilities, and services as may be necessary or appropriate in order (A) to determine the needs of such individuals, families, and business concerns for relocation assistance; (B) to provide information and assistance to aid in relocation and otherwise minimize the hardships of displacement, including information as to real estate agencies, brokers, and boards in or near the urban renewal area which deal in residential or business property that might be appropriate for the relocating of displaced individuals, families, and business concerns; and (C) to assure the necessary coordination of relocation activities with other project activities and other planned or proposed governmental actions in the community which may affect the carrying out of the relocation program, particularly planned or proposed low-rent housing projects to be constructed in or near the urban renewal area.

(2) As a condition to further assistance after the enactment of this paragraph with respect to each urban renewal project involving the displacement of individuals and families, the **[Administrator]** *Secretary* shall require, within a reasonable time prior to actual displacement, satisfactory assurance by the local public agency that decent, safe, and sanitary dwellings as required by the first sentence of this subsection are available for the relocation of each such individual or family.

(d) No land for any project to be assisted under this title shall be acquired by the local public agency except after public hearing following notice of the date, time, place, and purpose of such hearing.

(e) No understanding with respect to, or contract for, the disposition of land within an urban renewal area shall be entered into by a local public agency unless the local public agency shall have first made public, in such form and manner as may be prescribed by the **[Administrator]** *Secretary*, (1) the name of the redeveloper, together with the names of its officers and principal members, shareholders and investors, and other interested parties, (2) the redeveloper's estimate

of the cost of any residential redevelopment and rehabilitation, and (3) the redeveloper's estimate of rentals and sales prices of any proposed housing involved in such redevelopment and rehabilitation: *Provided*, That nothing in this subsection shall constitute a basis for contesting the conveyance of, or title to, such land.

GENERAL PROVISIONS

SEC. 106. (a) In the performance of, and with respect to, the functions, powers, and duties vested in him by this title, the [Administrator] *Secretary*, notwithstanding the provisions of any other law, shall—

[(1)] appoint a Director to administer the provisions of this title under the direction and supervision of the Administrator and the basic rate of compensation of such position shall be the same as the basic rate of compensation established for the heads of the constituent agencies of the Housing and Home Finance Agency;]

[(2)] (1) prepare annually and submit a budget program as provided for wholly owned Government corporations by the Government Corporation Control Act, as amended;

[(3)] (2) maintain an integral set of accounts which shall be audited annually by the General Accounting Office in accordance with the principles and procedures applicable to commercial transactions as provided by the Government Corporation Control Act, as amended, and no other audit shall be required: *Provided*, That such financial transactions of the [Administrator] *Secretary* as the making of advances of funds, loans, or grants and vouchers approved by the [Administrator] *Secretary* in connection with such financial transactions shall be final and conclusive upon all officers of the Government.

(b) Funds made available to the [Administrator] *Secretary* pursuant to the provisions of this title shall be deposited in a checking account or accounts with the Treasurer of the United States. Receipts and assets obtained or held by the [Administrator] *Secretary* in connection with the performance of his functions under this title shall be available for any of the purposes of this title (except for grants pursuant to section 103 hereof), and all funds available for carrying out the functions of the [Administrator] *Secretary* under this title (including appropriations therefor, which are hereby authorized), shall be available, in such amounts as may from year to year be authorized by the Congress, for the administrative expenses of the [Administrator] *Secretary* in connection with the performance of such functions: *Provided*, That necessary expenses of inspections and audits, and of providing representatives at the site, of projects being planned or undertaken by local public agencies pursuant to this title shall be compensated by such agencies by the payment of fixed fees which in the aggregate will cover the costs of rendering such services, and such expenses shall be considered nonadministrative; and for the purpose of providing such inspections and audits and of providing representatives at the sites, the [Administrator] *Secretary* may utilize any agency and such agency may accept reimbursement or

payment for such services from such local public agencies or the [Administrator] *Secretary*, and credit such amounts to the appropriations or funds against which such charges have been made.

(c) In the performance of, and with respect to, the functions, powers, and duties vested in him by this title, the [Administrator] *Secretary*, notwithstanding the provisions of any other law, may—

(1) sue and be sued;

(2) foreclose on any property or commence any action to protect or enforce any right conferred upon him by any law, contract, or other agreement, and bid for and purchase at any foreclosure or any other sale any project or part thereof in connection with which he has made a loan or capital grant pursuant to this title. In the event of any such acquisition, the [Administrator] *Secretary* may, notwithstanding any other provision of law relating to the acquisition, handling, or disposal of real property by the United States, complete, administer, dispose of, and otherwise deal with, such project or part thereof: *Provided*, That any such acquisition of real property shall not deprive any State or political subdivision thereof of its civil jurisdiction in and over such property or impair the civil rights under the State or local laws of the inhabitants on such property;

(3) enter into agreements to pay annual sums in lieu of taxes to any State or local taxing authority with respect to any real property so acquired or owned, and such sums shall approximate the taxes which would be paid upon such property to the State or local taxing authority, as the case may be, if such property were not exempt from taxation;

(4) sell or exchange at public or private sale, or lease, real or personal property, and sell or exchange any securities or obligations, upon such terms as he may fix;

(5) obtain insurance against loss in connection with property and other assets held;

(6) subject to the specific limitations in this title, consent to the modification, with respect to rate of interest, time of payment of any installment of principal or interest, security, amount of grant, or any other term, of any contract or agreement to which he is a party or which has been transferred to him pursuant to this title;

(7) include in any contract or instrument made pursuant to this title such other covenants, conditions, or provisions (including such covenants, conditions, or provisions as, in the determination of the [Administrator] *Secretary*, are necessary or desirable to prevent the payment of excessive prices for the acquisition of land in connection with projects assisted under this title) as he may deem necessary to assure that the purposes of this title will be achieved. No provision of this title shall be construed or administered to permit speculation in land holding; and

(8) make advance or progress payments on account of any grant contracted to be made pursuant to this title, notwithstanding the provisions of section 3648 of the Revised Statutes, as amended, or any other provisions of this title.

(d) Section 3709, as amended, of the Revised Statutes shall not apply to any contract for services or supplies on account of any prop-

erty acquired pursuant to this title if the amount of such contract does not exceed \$1,000.

(e) Not more than 12½ per centum of the grant funds provided for in this title shall be expended in any one State: *Provided*, That the [Administrator] *Secretary*, without regard to such limitation, may enter into contracts for grants aggregating not to exceed \$100,000,000 (subject to the total authorization provided in section 103(b) of this title) with local public agencies in States where more than two-thirds of the maximum grants permitted in the respective State under this subsection has been obligated.

(f)

(g) No provision permitting the new construction of hotels or other housing for transient use in the redevelopment of any urban renewal area under this title shall be included in the urban renewal plan unless the community in which the project is located, under regulations prescribed by the [Administrator] *Secretary*, has caused to be made a competent independent analysis of the local supply of transient housing and as a result thereof has determined that there exists in the area a need for additional units of such housing.

(h) Notwithstanding any other provision of this title, no contract shall be entered into for any loan or capital grant under this title with any local public agency unless the local public agency establishes, by evidence satisfactory to the [Administrator] *Secretary*, that any urban renewal project with respect to which such local public agency has received a loan or capital grant under this title has been, or will be, undertaken and carried out in substantial accordance with the urban renewal plan, and any amendments thereto, approved with respect to such project, and the terms of the contract for loan or capital grant covering such project.

PROPERTY TO BE USED FOR PUBLIC HOUSING OR HOUSING FOR MODERATE INCOME FAMILIES

SEC. 107. (a) Upon approval of the [Administrator] *Secretary* and subject to such conditions as he may determine to be in the public interest, any real property held as part of an urban renewal project may be made available to (1) a limited dividend corporation, nonprofit corporation or association, cooperative, or public body or agency, or (2) a purchaser who would be eligible for a mortgage insured under section 221(d)(3) or (d)(4) of the National Housing Act, for purchase at fair value for use by such purchaser in the provision of new or rehabilitated rental or cooperative housing for occupancy by families or individuals of moderate income.

(b) When it appears in the public interest that real property acquired as part of an urban renewal project should be used in whole or in part for a low-rent housing project assisted under the United States Housing Act of 1937, or under a State or local program found by the [Administrator] *Secretary* to have the same general purposes as the Federal program under such Act, the property shall be made available to the public housing agency undertaking the low-rent housing project at a price equal to its fair value, as determined in accordance with subsection (a), and such amount shall be included as part of

the development cost of such low-rent housing project: *Provided*, That the local contribution in the form of tax exemption or tax remission required by section 10(h) of such Act, or by analogous provisions in legislation authorizing such State or local program, with respect to the low-rent housing project into which such property was incorporated on or after September 23, 1959, shall (if covered by a contract which, in the determination of the [Public Housing Commissioner] *Secretary of Housing and Urban Development*, will assure that such local contribution will be made during the entire period that the project is used as low-rent housing within the meaning of such Act, or by provisions found by the [Administrator] *Secretary* to give equivalent assurance in the case of State or local programs) be accepted as a local grant-in-aid equal in amount, as determined by the [Administrator] *Secretary*, to one-half (or one-third in the case of an urban renewal project on a three-fourths capital grant basis) of the difference between the cost of such property (including costs of land, clearance, site improvements, and a share, prorated on an area basis, of administrative, interest, and other project costs) and its sales price, and shall be considered a local grant-in-aid furnished in a form other than cash within the meaning of section 110(d) of this Act.

SURPLUS FEDERAL REAL PROPERTY

SEC. 108. The President may at any time in his discretion, transfer or cause to be transferred, to the [Administrator] *Secretary* any right, title, or interest held by the Federal Government or any department or agency thereof in any land (including buildings thereon) which is surplus to the needs of the Government and which a local public agency certifies will be within the area of a project being planned by it. When such land is sold to the local public agency by the [Administrator] *Secretary*, it shall be sold at a price equal to its fair market value, and the proceeds from such sale shall be covered into the Treasury as miscellaneous receipts.

PROTECTION OF LABOR STANDARDS

SEC. 109. In order to protect labor standards—

(a) any contract for loan or capital grant pursuant to this title shall contain a provision requiring that not less than the salaries prevailing in the locality, as determined or adopted (subsequent to a determination under applicable State or local law) by the [Administrator] *Secretary*, shall be paid to all architects, technical engineers, draftsmen, and technicians employed in the development of the project involved and shall also contain a provision that not less than the wages prevailing in the locality, as predetermined by the Secretary of Labor pursuant to the Davis-Bacon Act (49 Stat. 1011), shall be paid to all laborers and mechanics, except such laborers or mechanics who are employees of municipalities or other local public bodies, employed in the development of the project involved for work financed in whole or in part with funds made available pursuant to this title; and the [Administrator] *Secretary* shall require certification as to compliance with provisions of this paragraph prior to making any payment under such contract; and

(b) the provisions of title 18, United States Code, section 874, and of title 40, United States Code, section 276c, shall apply to work financed in whole or in part with funds made available for the development of a project pursuant to this title.

DEFINITIONS

SEC. 110. The following terms shall have the meanings, respectively, ascribed to them below, and, unless the context clearly indicates otherwise, shall include the plural as well as the singular number :

(a) "Urban renewal area" means a slum area or a blighted, deteriorated, or deteriorating area in the locality involved which the [Administrator] *Secretary* approves as appropriate for an urban renewal project.

(b) "Urban renewal plan" means a plan, as it exists from time to time, for an urban renewal project, which plan (1) shall conform to the general plan of the locality as a whole and to the workable program referred to in section 101 hereof and shall be consistent with definite local objectives respecting appropriate land uses, improved traffic, public transportation, public utilities, recreational and community facilities, and other public improvements; and (2) shall be sufficiently complete to indicate, to the extent required by the [Administrator] *Secretary* for the making of loans and grants under this title, such land acquisition, demolition and removal of structures, redevelopment, improvements, and rehabilitation as may be proposed to be carried out in the urban renewal area, zoning and planning changes, if any, land uses, maximum densities, and building requirements.

(c) "Urban renewal project" or "project" may include undertakings and activities of a local public agency in an urban renewal area for the elimination and for the prevention of the development or spread of slums and blight, and may involve slum clearance and redevelopment in an urban renewal area, or rehabilitation or conservation in an urban renewal area, or any combination or part thereof, in accordance with such urban renewal plan. Such undertakings and activities may include—

(1) acquisition of (i) a slum area or a deteriorated or deteriorating area, or (ii) land which is predominantly open and which because of obsolete platting, diversity of ownership, deterioration of structures or of site improvements, or otherwise, substantially impairs or arrests the sound growth of the community, or (iii) open land necessary for sound community growth which is to be developed for predominantly residential uses, or (iv) air rights in an area consisting principally of land in highways, railway or subway tracks, bridge or tunnel entrances, or other similar facilities which have a blighting influence on the surrounding area and over which air rights sites are to be developed for the elimination of such blighting influences and for the provision of housing (and related facilities and uses) designed specifically for, and limited to, families and individuals of low or moderate income: *Provided*. That the requirement in paragraph (a) of this section that the area be a slum area or a blighted, deteriorated or deteriorating area shall not be applicable in the case of projects under clauses (iii) and (iv) hereof: *Provided further*, That the

aggregate amount of capital grants for projects under clause (iv) shall not exceed 5 per centum of the aggregate amount of grants authorized by this title to be contracted for after the date of enactment of the Housing Act of 1964;

(2) demolition and removal of buildings and improvements;

(3) installation, construction, or reconstruction of streets, utilities, parks, playgrounds, and other improvements necessary for carrying out in the urban renewal area the urban renewal objectives of this title in accordance with the urban renewal plan;

(4) disposition of any property acquired in the urban renewal area (including sale, leasing or retention by the local public agency itself) at its fair value for uses in accordance with the urban renewal plan or as provided in section 107;

(5) carrying out plans for programs of code enforcement or voluntary repair and rehabilitation of buildings or other improvements in accordance with the urban renewal plan.

(6) acquisition of any other real property in the urban renewal area where necessary to eliminate unhealthful, insanitary or unsafe conditions, lessen density, eliminate obsolete or other uses detrimental to the public welfare, or otherwise to remove or prevent the spread of blight or deterioration, or to provide land for needed public facilities;

(7) construction of foundations and platforms necessary for the provision on air rights sites of housing (and related facilities and uses) designed specifically for, and limited to, families and individuals of low or moderate income;

(8) acquisition and repair or rehabilitation for guidance purposes, and resale by the local public agency, of structures which are located in the urban renewal area and which, under the urban renewal plan, are to be repaired or rehabilitated for dwelling use or related facilities: *Provided*, That the local public agency shall not acquire for such purposes, in any urban renewal area, structures which contain or will contain more than (A) one hundred dwelling units, or (B) 5 per centum of the total number of dwelling units in such area which, under the urban renewal plan, are to be repaired or rehabilitated, whichever is the lesser; and

(9) relocating within the project area a structure which the local public agency determines to be of historic value and which will be disposed of to a public body or a private nonprofit organization which will renovate and maintain such structure for historic purposes.

Notwithstanding any other provision of this title, (A) no contract shall be entered into for any loan or capital grant under this title for any project which provides for demolition and removal of buildings and improvements unless the [Administrator] *Secretary* determines that the objectives of the urban renewal plan could not be achieved through rehabilitation of the project area, and (B) not less than 10 per centum of the aggregate amount of (i) grants authorized to be contracted for under this title by the Housing and Urban Development Act of 1965 and subsequent Acts, and (ii) loans authorized to be made under section 312 of the Housing Act of 1964, shall be available for projects assisted with such grants or loans which involve primarily code enforcement and rehabilitation.

For the purposes of this title, the term "project" shall not include (except as provided in paragraphs (7), (8), and (9) above) the construction or improvement of any building, and the term "redevelopment" and derivatives thereof shall mean development as well as redevelopment. For any of the purposes of section 109 hereof, the term "project" shall not include any donations or provisions made as local grants-in-aid and eligible as such pursuant to clauses (2) and (3) of section 110(d) hereof.

Financial assistance shall not be extended under this title with respect to any urban renewal area which is not predominantly residential in character and which, under the urban renewal plan therefor, is not to be redeveloped for predominantly residential uses: *Provided*, That, if the governing body of the local public agency determines that the redevelopment of such an area for predominantly nonresidential uses is necessary for the proper development of the community, the [Administrator] *Secretary* may extend financial assistance under this title for such a project: *Provided further*, That the aggregate amount of capital grants contracted to be made pursuant to this title with respect to such projects after the date of the enactment of the Housing Act of 1959 shall not exceed 30 per centum of the aggregate amount of grants authorized by this title to be contracted for after such date: *And provided further*, That the aggregate amount of capital grants made available under this title with respect to such projects after the date of the enactment of the Housing and Urban Development Act of 1965 may be in an amount not to exceed (in addition to amounts previously available for such projects) 35 per centum of the amount of additional capital grants authorized under this title by such Act.

In addition to all other powers hereunder vested, where land within the purview of clause (1) (ii) or (1) (iii) of the first paragraph of this subsection (whether it be predominantly residential or nonresidential in character) is to be redeveloped for predominantly nonresidential uses, loans and advances under this title may be extended therefor if the governing body of the local public agency determines that such redevelopment for predominantly nonresidential uses is necessary and appropriate to facilitate the proper growth and development of the community in accordance with sound planning standards and local community objectives and to afford maximum opportunity for the redevelopment of the project area by private enterprise: *Provided*, That loans and outstanding advances to any local public agency pursuant to the authorization of this sentence shall not exceed 2½ per centum of the estimated gross project costs of the projects undertaken under other contracts with such local public agency pursuant to this title.

(d) "Local grants-in-aid" shall mean assistance by a State, municipality, or other public body, or (in the case of cash grants or donations of land or other real property) any other entity, in connection with any project on which a contract for capital grant has been made under this title, in the form of (1) cash grants to defray expenditures within the purview of section 110(e) (1) hereof; (2) donations, at cash value, of land or other real property (exclusive of land in streets, alleys, and other public rights-of-way which may be vacated in connection with the project, or of air rights over streets, alleys, and other

public rights-of-way) in the urban renewal area, and demolition, removal, or other work or improvements in the urban renewal area, at the cost thereof, of the types described in clause (2) and clause (3) of the second sentence of section 110 (c); and (3) the provision, at their cost, of public buildings or other public facilities (other than publicly owned housing and revenue producing public utilities the capital cost of which is wholly financed with local bonds or obligations payable solely out of revenues derived from service charges) which are necessary for carrying out in the area the urban renewal objectives of this title in accordance with the urban renewal plan: *Provided*, That in any case where, in the determination of the [Administrator] *Secretary*, any park, playground, public building, or other public facility is of direct benefit both to the urban renewal area and to other areas, and the approximate degree of the benefit to such other areas is estimated by the [Administrator] *Secretary* at 20 per centum or more of the total benefits, the [Administrator] *Secretary* shall provide that, for the purpose of computing the amount of the local grants-in-aid for the project, there shall be included only such portion of the cost of such facility as the [Administrator] *Secretary* estimates to be proportionate to the approximate degree of the benefit of such facility to the urban renewal area: *And provided further*, That for the purpose of computing the amount of local grants-in-aid under this section 110(d) with respect to any project covered by a Federal-aid contract under this title, the estimated cost (as determined by the [Administrator] *Secretary*) of parks, playgrounds, public buildings, or other public facilities may be deemed to be the actual cost thereof if (i) the construction or provision thereof is not completed at the time of final disposition of land in the project to be acquired and disposed of under the urban renewal plan, and (ii) the [Administrator] *Secretary* has received assurance satisfactory to him that such park, playground, public building, or other public facility will be constructed or completed when needed and within a time prescribed by him: *And provided further*, That in any case where a public facility furnished as a local grant-in-aid is financed in whole or in part by special assessments against real property in the project area acquired by the local public agency as part of the project, an amount equal to the total special assessments against such real property (or, in the case of a computation pursuant to the proviso immediately preceding, the estimated amount of such total special assessments) shall be deducted from the cost of such facility for the purpose of computing the amount of the local grants-in-aid for the project. With respect to any demolition or removal work, improvement or facility for which a State, municipality, or other public body has received or has contracted to receive any grant or subsidy from the United States, or any agency or instrumentality thereof, the portion of the cost thereof defrayed or estimated by the [Administrator] *Secretary* to be defrayed with such subsidy or grant shall not be eligible for inclusion as a local grant-in-aid.

Notwithstanding any other provision of this subsection, no donation or provision of a public improvement or public facility of a type falling within the purview of this subsection shall be deemed to be ineligible as a local grant-in-aid for any project solely on the basis that the construction of such improvement or facility was commenced with-

out notification to the [Administrator] *Secretary* or prior to Federal recognition of such project, if such construction was commenced not more than three years prior to the authorization by the [Administrator] *Secretary* of a contract for loan or capital grant for the project.

Where a project in any municipality includes an area affected by an underground mine fire or by a coal mine subsidence and where it is necessary in such project to remove any underlying coal deposits in order to stabilize the soil or to control the underground mine fire, then any royalties received by the project from the removal and sale of such coal deposits shall be credited to the project as a local grant-in-aid made by such municipality.

(e) "Gross project cost" shall comprise (1) the amount of the expenditures by the local public agency with respect to any and all undertakings necessary to carry out the project (including the payment of carrying charges, but not beyond the point where the project is completed), and (2) the amount of such local grants-in-aid as are furnished in forms other than cash. There may be included as part of the gross project cost, under any contract for loan or grant heretofore or hereafter executed under this title, with respect to moneys of the local public agency which are actually expended and outstanding for undertakings (other than in the form of local grants-in-aid) necessary to carry out the project, in the absence of carrying charges on such moneys, an amount in lieu of carrying charges which might otherwise have been payable thereon for the period such moneys are expended and outstanding but not beyond the point where the project is completed, computed for each six-month period or portion thereof, at an interest rate to be determined by the [Administrator] *Secretary* after taking into consideration for each preceding six-month period the average interest rate borne by any obligations of local public agencies for short-term funds obtained from sources other than the Federal Government in the manner provided in section 102(c) : *Provided*, That such amount may be computed on the net total of all such moneys of the local public agency remaining expended and outstanding, less other moneys received from the project undertaken in excess of project expenditures, in all projects of the local public agency under this title and allocated, as the [Administrator] *Secretary* may determine, to each of such projects. With respect to a project for which a contract for capital grant has been executed on a three-fourths basis pursuant to section 103(a) (2) (C), gross project cost shall include, in lieu of the amount specified in clause (1) above, the amount of the expenditures by the local public agency with respect to the following undertakings and activities necessary to carry out such project :

(i) acquisition of land (but only to the extent of the consideration paid to the owner and not title, appraisal, negotiating, legal, or any other expenditures of the local public agency incidental to acquiring land), disposition of land, staff services in connection with programs of code enforcement and voluntary rehabilitation and repair (including community organization), demolition and removal of buildings and improvements, and site preparation and improvements, all as provided in paragraphs (1), (2), (3), (4), (5), (6), (7), (8), and (9) of subsection (c) ; and

(ii) the payment of carrying charges related to the undertakings in clause (i) (including amounts in lieu of carrying charges

as determined above), exclusive of taxes and payments in lieu of taxes, but not beyond the point where such project is completed; but not the cost of any other undertakings and activities (including, but without being limited to, the cost of surveys and plans, legal services of any kind, and all administrative and overhead expenses of the local public agency) with respect to such project. Where real property in the project area is acquired and is owned as part of the project by the local public agency and such property is not subject to ad valorem taxes by reason of its ownership by the local public agency and payments in lieu of taxes are not made on account of such property, there may (with respect to any project for which a contract of Federal assistance under this title is in force or is hereafter executed, other than a project on which a contract for capital grant is made on a three-fourths basis pursuant to section 103(a)(2)(C)) be included, at the discretion of the [Administrator] *Secretary*, in gross project cost an amount equal to the ad valorem taxes which would have been levied upon such property if it had been subject to ad valorem taxes, but in all cases prorated for the period during which such property is owned by the local public agency as part of the project, and such amount shall also be considered a cash local grant-in-aid within the purview of section 110(d) hereof. Such amount, and the amount of taxes or payments in lieu of taxes included in gross project cost, shall be subject to the approval of the [Administrator] *Secretary* and such rules, regulations, limitations, and conditions as he may prescribe.

Where a project includes the acquisition of property which has been damaged because of the collapse or subsidence of underlying coal mines, or underground mine fires, and the property is to be acquired from an individual, family, business concern, or nonprofit organization which was the owner of such property at the time the damage first occurred, the amount otherwise allowable as the acquisition price of such property may be increased by an amount equal to so much of any diminution in the value of such property as is determined to be reasonably attributable to such damage and to represent an otherwise uncompensated and (but for such acquisition) uncompensable loss actually sustained by such owner.

(f) "Net project cost" shall mean the difference between the gross project cost and the aggregate of (1) the total sales prices of all land or other property sold, and (2) the total capital values (i) imputed, on a basis approved by the [Administrator] *Secretary*, to all land or other property leased, and (ii) used as a basis for determining the amounts to be transferred to the project from other funds of the local public agency to compensate for any land or other property retained by it for use in accordance with the urban renewal plan.

(g) "Going Federal rate" means (with respect to any contract for a loan or advance entered into after the first annual rate has been specified as provided in this sentence) the annual rate of interest which the Secretary of the Treasury shall specify as applicable to the six-month period (beginning with the six-month period ending December 31, 1953) during which the contract for loan or advance under this title is authorized by the [Administrator] *Secretary*, which applicable rate for each six-month period shall be determined by the Secretary of the Treasury by estimating the average yield to maturity,

on the basis of daily closing market bid quotations or prices during the month of May or the month of November, as the case may be, next preceding such six-month period, on all outstanding marketable obligations of the United States having a maturity date of fifteen or more years from the first day of such month of May or November, and by adjusting such estimated average annual yield to the nearest one-eighth of 1 per centum. Any contract for a loan or advance, authorized by the **[Administrator]** *Secretary* after the date of enactment of the Housing Act of 1964, shall provide for a single interest rate which shall be applicable also to future amendments of the contract which provide additional funds thereunder, and shall further provide for a periodic revision of the interest rate on the balance outstanding or to be outstanding on such loan or advance based on the going Federal rate on the date of such revision: *Provided*, That any contract for a loan or advance authorized prior to the date of enactment of the Housing Act of 1964 shall be amended (with the first amendment to such contract authorized after the date of enactment of such Act) to provide for such a single interest rate (based on the going Federal rate at the time such amendment is authorized) and for periodic revision thereof.

(h) "Local public agency" means any State, county, municipality, or other governmental entity or public body, or two or more such entities or bodies, authorized to undertake the project for which assistance is sought. "State" includes the several States, the District of Columbia, the Commonwealth of Puerto Rico, and the Territories and possessions of the United States.

(i) "Land" means any real property, including improved or unimproved land, structures, improvements, easements, incorporeal hereditaments, estates, and other rights in land, legal or equitable.

(j) "**[Administrator]** *Secretary*" means the **[Housing and Home Finance Administrator]** *Secretary of Housing and Urban Development*.

(k) "Federal recognition" means execution of any contract for financial assistance under this title or concurrence by the **[Administrator]** *Secretary* in the commencement, without such assistance, of survey and plans.

DISASTER AREAS

SEC. 111. Where the local governing body certifies, and the **[Administrator]** *Secretary* finds, that an urban area is in need of redevelopment or rehabilitation as a result of a flood, fire, hurricane, earthquake, storm, or other catastrophe which the President, pursuant to section 2(a) of the Act entitled "An Act to authorize Federal assistance to State and local governments in major disasters, and for other purposes" (Public Law 875, Eighty-first Congress, approved September 30, 1950), as amended, has determined to be a major disaster, the **[Administrator]** *Secretary* is authorized to extend financial assistance under this title for an urban renewal project with respect to such area without regard to the following:

(1) the "workable program" requirement in section 101(c), except that any contract for temporary loan or capital grant pursuant to this section shall obligate the local public agency to

comply with the "workable program" requirement in section 101 (c) by a future date determined to be reasonable by the [Administrator] *Secretary* and specified in such contract;

(2) the requirements in section 105(a) (iii) and section 110(b) (1) that the urban renewal plan conform to a general plan of the locality as a whole and to the workable program referred to in section 101(c);

(3) the "relocation" requirements in section 105(c): *Provided*, That the [Administrator] *Secretary* finds that the local public agency has presented a plan for the encouragement, to the maximum extent feasible, of the provision of dwellings suitable for the needs of families displaced by the catastrophe or by redevelopment or rehabilitation activities;

(4) the "public hearing" requirement in section 105(d);

(5) the requirements in sections 102 and 110 that the urban renewal area be a slum area or a blighted, deteriorated, or deteriorating area; and

(6) the requirements in section 110 with respect to the predominantly residential character or predominantly residential re-use of urban renewal areas.

In the preparation of the urban renewal plan with respect to a project aided under this section, the local public agency shall give due regard to the removal or relocation of dwellings from the site of recurring floods or other recurring catastrophes in the project area.

URBAN RENEWAL AREAS INVOLVING COLLEGES, UNIVERSITIES, OR HOSPITALS

SEC. 112. (a) In any case where an educational institution or a hospital is located in or near an urban renewal project area and the governing body of the locality determines that, in addition to the elimination of slums and blight from such area, the undertaking of an urban renewal project in such area will further promote the public welfare and the proper development of the community (1) by making land in such area available for disposition, for uses in accordance with the urban renewal plan, to such educational institution or hospital for redevelopment in accordance with the use or uses specified in the urban renewal plan, (2) by providing, through the redevelopment of the area in accordance with the urban renewal plan, a cohesive neighborhood environment compatible with the functions and needs of such educational institution or hospital, or (3) by any combination of the foregoing, the [Administrator] *Secretary* is authorized to extend financial assistance under this title for an urban renewal project in such area without regard to the requirements in section 110 hereof with respect to the predominantly residential character or predominantly residential re-use of urban renewal areas. The aggregate expenditures made by any such institution or hospital (directly or through a private redevelopment corporation or municipal or other public corporation) for the acquisition within, adjacent to, or in the immediate vicinity of the project area, of land, buildings, and structures to be redeveloped or rehabilitated by such institution for educational uses or by such hospital for hospital uses in accordance with the urban renewal plan (or with a development plan proposed by such

institution, hospital, or corporation, found acceptable by the [Administrator] *Secretary* after considering the standards specified in section 110(b), and approved under State or local law after public hearing) and for the demolition of such buildings and structures if, pursuant to such urban renewal or development plan, the land is to be cleared and redeveloped, and for the relocation of occupants from buildings and structures to be demolished or rehabilitated, as certified by such institution or hospital to the local public agency and approved by the [Administrator] *Secretary*, shall be a local grant-in-aid in connection with such urban renewal project: *Provided*, That no such expenditure shall be eligible as a local grant-in-aid in any case where the property involved is acquired by such educational institution or hospital from a local public agency which, in connection with its acquisition or disposition of such property, has received, or contracted to receive, a capital grant pursuant to this title.

(b) No expenditure made by any educational institution or hospital, as provided in subsection (a), shall be deemed ineligible as a local grant-in-aid (1) in connection with any urban renewal project if made not more than seven years prior to the authorization by the [Administrator] *Secretary* of a contract for a loan or capital grant for such project, or (2) in connection with any such project for which the [Administrator] *Secretary*, prior to September 25, 1963, has authorized a loan or capital grant contract if made not more than five years prior to the submission of an application for financial assistance under this title for such urban renewal project.

(c) The aggregate expenditures made by any public authority, established by any State, for acquisition, demolition, and relocation in connection with land, buildings, and structures acquired by such public authority and leased to an educational institution for educational uses or to a hospital for hospital uses shall be deemed a local grant-in-aid to the same extent as if such expenditures had been made directly by such educational institution or hospital.

(d) As used in this section—

(1) the term “educational institution” means any educational institution of higher learning, including any public educational institution or any private educational institution, no part of the net earnings of which inures to the benefit of any private shareholder or individual; and

(2) the term “hospital” means any hospital licensed by the State in which such hospital is located, including any public hospital, or any nonprofit hospital, no part of the net earnings of which inures to the benefit of any private shareholder or individual.

REDEVELOPMENT AREAS UNDER THE AREA REDEVELOPMENT ACT

SEC. 113. (a) Whenever the Secretary of Commerce certifies to the [Administrator] *Secretary* (1) that any county, city, or other municipality (in this section referred to as a “municipality”) is situated in an area designated under section 5 of the Area Redevelopment Act as a redevelopment area, and (2) that there is a reasonable probability that with assistance provided under such Act and other undertakings

the area will be able to achieve more than temporary improvement in its economy, the [Administrator] *Secretary* is authorized to provide financial assistance to a local public agency in any such municipality under this title and the provisions of this section.

(b) Subject to the provisions of subsection (e) of this section, the [Administrator] *Secretary* may provide such financial assistance under this section without regard to the requirement or limitations of section 110(c) that the project area be predominantly residential in character or be redeveloped for predominantly residential uses under the urban renewal plan, and without regard to any of the limitations of that section on the undertaking of projects for predominantly non-residential uses.

(c) Notwithstanding any other provision of this title, a contract for financial assistance under this section may include provisions permitting the disposition of any land in the project area designated under the urban renewal plan for industrial or commercial uses to any public agency or nonprofit corporation for subsequent disposition as promptly as practicable by such public agency or corporation for the redevelopment of the land in accordance with the urban renewal plan: *Provided*, That any disposition of such land to such public agency or corporation under this section shall be made at its fair value for uses in accordance with the urban renewal plan: *And provided further*, That only the purchaser from or lessees of such public agency or corporation, and their assignees, shall be required to assume the obligations relating to the commencement of improvements imposed under section 105(b) hereof.

(d) Following the execution of any contract for financial assistance under this section with respect to any project, the [Administrator] *Secretary* may exercise the authority vested in him under this section as well as other provisions of this title for the completion of such projects, notwithstanding any determination made after the execution of such contract that the area in which the project is located is no longer a redevelopment area under the Area Redevelopment Act.

(e) Not more than 10 per centum of the funds authorized for capital grants under section 103 after the date of the enactment of the Area Redevelopment Act shall be used for the purpose of providing financial assistance under this section. Amounts used for such purpose shall not be taken into account for the purpose of the limitation contained in the second proviso of the fifth sentence of section 110(c).

RELOCATION

SEC. 114. (a) Notwithstanding any other provision of this title, an urban renewal project may include the making of payments as prescribed in this section to displaced individuals, families, business concerns, and nonprofit organizations; and any contract for financial assistance under this title shall provide that the capital grant otherwise payable for the project shall be increased by an amount equal to such payments and that no part of the amount of such payments shall be required to be contributed as part of the local grant-in-aid. As used in this section, "displaced" refers to displacement from an urban renewal area made necessary by (1) the acquisition of real property by

a local public agency or by any other public body, (2) code enforcement activities undertaken in connection with an urban renewal project, or (3) a program of voluntary rehabilitation of buildings or other improvements in accordance with an urban renewal plan.

(b) A local public agency may pay to any displaced business concern or nonprofit organization—

(1) its reasonable and necessary moving expenses and any actual direct losses of property except goodwill or profit (which are incurred on and after August 7, 1956, and for which reimbursement or compensation is not otherwise made): *Provided*, That such payment shall not exceed \$3,000 (or, if greater, the total certified actual moving expenses); and

(2) an additional \$2,500 in the case of a private business concern with average annual net earnings of less than \$10,000 per year which (A) was doing business in a location in the urban renewal area on the date of local approval of the urban renewal plan (or of acquisition of real property under the third sentence of section 102(a)); (B) is displaced on or after January 27, 1964, and (C) is not part of an enterprise having establishments outside the urban renewal area.

Notwithstanding the provisions of clause (1) of the preceding sentence, a business concern which is not being displaced from an urban renewal area shall be eligible for payments under such clause (1) of its certified actual moving expenses with respect to its outdoor advertising displays being removed from the urban renewal area in the same manner as though such business concern were being displaced.

(c) (1) A local public agency may pay to any displaced individual or family his or its reasonable and necessary moving expenses and any actual direct losses of property (which are incurred on and after August 7, 1956, and for which reimbursement or compensation is not otherwise made): *Provided*, That such payment shall not exceed \$200: *And provided further*, That the [Administrator] *Secretary* may authorize payment to individuals and families of fixed amounts (not to exceed \$200 in any case) in lieu of their respective reasonable and necessary moving expenses and actual direct losses of property.

(2) A local public agency may pay (in addition to any amount under paragraph (1)), on behalf of any displaced family or any displaced individual sixty-two years of age or over, during the first five months after displacement, a relocation adjustment payment, not to exceed \$500, to assist such displaced individual or family to acquire a decent, safe, and sanitary dwelling. The relocation adjustment payment shall be an amount which, when added to 20 per centum of the annual income of the displaced individual or family at the time of displacement, equals the average rental required, for a 12-month period, for such a decent, safe, and sanitary dwelling of modest standards adequate in size to accommodate the displaced individual or family (in the urban renewal area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities): *Provided*, That such payment shall be made only to an individual or family who is unable to secure a dwelling unit in a low-rent housing project assisted under the United States Housing Act of 1937, or under a State or local program found by the [Administrator] *Secretary* to have the same gen-

eral purposes as the Federal program under such act, or a dwelling unit assisted under section 101 of the Housing and Urban Development Act of 1965: *Provided further*, That payments under this paragraph shall be available only in the case of families, and individuals sixty-two years of age or over, displaced on or after January 27, 1964.

(d) In addition to payments authorized to be made under subsections (b) and (c), a local public agency may pay to any displaced individual, family, business concern, or nonprofit organization reasonable and necessary expenses incurred for (1) recording fees, transfer taxes, and similar expenses incidental to conveying real property to a project assisted under this title, (2) penalty costs for prepayment of any mortgage encumbering such real property, and (3) the pro rata portion of real property taxes allocable to a period subsequent to the date of vesting of title or the effective date of the acquisition of such real property by such agency, whichever is earlier.

(e) The [Administrator] *Secretary* is authorized to establish such rules and regulations as he may deem appropriate in carrying out the provisions of this section and may provide in any contract with a local public agency, or in regulations promulgated by the [Administrator] *Secretary*, that determinations of any duly designated officer or agency as to eligibility for and the amount of relocation assistance authorized by this section shall be final and conclusive for any purposes and not subject to redetermination by any court or any other officer. Such regulations shall include provisions to assure that relocation payments, as authorized by this section, shall be made as promptly as possible to all families, individuals, business concerns, and nonprofit organizations found to be eligible for such payments by reason of their having been displaced from property in the urban renewal area, without regard to any subsequent proceedings, determinations, or events relating to such property which do not bear upon whether such displacement in fact occurred.

REHABILITATION GRANTS

SEC. 115. (a) Notwithstanding any other provision of this title, the [Administrator] *Secretary* may authorize a local public agency to make grants (and the urban renewal project may include the making of such grants) as prescribed in this section. Any such grant may be made only to an individual or family, as described in subsection (b), who owns and occupies a structure in an urban renewal area, and only for the purpose of covering the cost of repairs and improvements necessary to make such structure conform to public standards for decent, safe, and sanitary housing as required by applicable codes or other requirements of the urban renewal plan for the area. Any contract for financial assistance under this title shall provide that the capital grant otherwise payable for the project shall be increased by an amount equal to the total amount of the grants under this section and that no part of the total amount of such grants shall be required to be contributed as part of the local grant-in-aid.

(b) A grant authorized by this section may be made to an individual or family whose income does not exceed \$3,000 a year, and such grant may be in the amount which does not exceed the lesser of (1) the actual (and approved) cost of the repairs and improvements involved, or

(2) \$1,500. In case the income of the individual or family exceeds \$3,000 a year, a grant may be made under this section, subject to the limitations specified in clauses (1) and (2) of the preceding sentence, but only in an amount not to exceed that portion of the cost of the repairs and improvements which cannot be paid for with any available loan that can be amortized as part of such individual's or family's monthly housing expense without requiring such monthly housing expense to exceed 25 per centum of such individual's or family's monthly income.

DEMOLITION

SEC. 116. (a) Notwithstanding any other provision of this title, the [Administrator] *Secretary* is authorized to enter into contracts to make, and to make, grants as provided in this section (payable from any grant funds provided under section 103(b)) to cities, other municipalities, and counties to assist in financing the cost of demolishing structures which under State or local law have been determined to be structurally unsound or unfit for human habitation, and which such city, municipality, or county has authority to demolish. The amount of any grant under this section shall not exceed two-thirds of the cost of the demolition of such structures.

(b) No grant shall be made under this section unless the structures to be demolished are located in an urban renewal area, or, in the case of structures outside an urban renewal area, (1) the locality involved has an approved workable program for community improvement in accordance with the requirements of section 101(c), as determined by the [Administrator] *Secretary*, (2) the demolition to be assisted will be on a planned neighborhood basis and will further the over-all renewal objectives of such locality, (3) there is in such locality a program of enforcement of existing local housing and related codes, (4) the structures to be demolished constitute a public nuisance and a serious hazard to the public health or welfare, and (5) the governing body of such locality has determined that other available legal procedures have been exhausted to secure remedial action by the owner of the structures involved and that demolition by governmental action is required.

CODE ENFORCEMENT

SEC. 117. Notwithstanding any other provision of this title, the [Administrator] *Secretary* is authorized to enter into contracts to make, and to make, grants as provided in this section (payable from any grant funds provided under section 103(b)) to cities, other municipalities, and counties for the purpose of assisting such localities in carrying out programs of concentrated code enforcement in deteriorated or deteriorating areas in which such enforcement, together with those public improvements to be provided by the locality, may be expected to arrest the decline of the area. Such grants shall not exceed two-thirds (or three-fourths in the case of any city, other municipality, or county having a population of 50,000 or less according to the most recent decennial census) of the cost of planning and carrying out such programs which may include the provision and repair of necessary streets, curbs, sidewalks, street lighting, tree planting, and similar improvements within such areas. The [Adminis-

trator] *Secretary* shall not make any grant under this section unless he has obtained adequate assurances (1) that the locality will maintain during the period of the contract, in addition to its expenditures for planning and carrying out any program assisted under this section, a level of expenditures for code enforcement activities at not less than its normal expenditures for such activities prior to the execution of such contract, and (2) that the locality has a satisfactory program for the provision of all necessary public improvements for such areas. The provisions of sections 101(c), 106, 114, and 115 shall be applicable to activities and undertakings assisted under this section to the same extent as if such activities and undertakings were being carried out in an urban renewal area as part of an urban renewal project.

* * * * *

TITLE V—FARM HOUSING

SEC. 501. (a) The Secretary of Agriculture (hereinafter referred to as the “Secretary”) is authorized, subject to the terms and conditions of this title, to extend financial assistance, through the Farmers Home Administration, (1) to owners of farms in the United States and in Puerto Rico and the Virgin Islands, to enable them to construct, improve, alter, repair, or replace dwellings and other farm buildings on their farms, and to purchase [previously occupied] buildings and land constituting a minimum adequate site, in order to provide them, their tenants, lessees, share croppers, and laborers with decent, safe, and sanitary living conditions and adequate farm buildings as specified in this title, and (2) to owners of other real estate in rural areas for the construction, improvement, alteration, or repair of dwellings, related facilities, and farm buildings and to rural residents for such purposes and for the purchase of [previously occupied] buildings and the purchase of land constituting a minimum adequate site, in order to enable them to provide dwelling and related facilities for their own use and buildings adequate for their farming operations, and (3) to elderly persons who are or will be the owners of land in rural areas for the construction, improvement, alteration, or repair of dwellings and related facilities, the purchase of previously occupied dwellings and related facilities, the purchase of [previously occupied] dwellings and quate site, in order to provide them with adequate dwellings and related facilities for their own use.

(b) (1) For the purpose of this title, the term “farm” shall mean a parcel or parcels of land operated as a single unit which is used for the production of one or more agricultural commodities and which customarily produces or is capable of producing such commodities for sale and for home use of a gross annual value of not less than the equivalent of a gross annual value of \$400 in 1944, as determined by the Secretary. The Secretary shall promptly determine whether any parcel or parcels of land constitute a farm for the purposes of this title whenever requested to do so by any interested Federal, State, or local public agency, and his determination shall be conclusive.

(2) For the purposes of this title, the terms “owner”, “farm”, and “mortgage” shall be deemed to include, respectively, the lessee of, the land included in, and other security interest in, any leasehold interest which the Secretary determines has an unexpired term (A) in the case

of a loan, for a period sufficiently beyond the repayment period of the loan to provide adequate security and a reasonable probability of accomplishing the objectives for which the loan is made, and (B) in the case of a grant for a period sufficient to accomplish the objectives for which the grant is made.

(3) For the purposes of this title, the term "elderly persons" means persons who are 62 years of age or over.

(c) In order to be eligible for the assistance authorized by paragraph (a), the applicant must show (1) that he is the owner of a farm which is without a decent, safe, and sanitary dwelling for himself and his family and necessary resident farm labor, or for the family of the operating tenant, lessee, or sharecropper, or without other farm buildings adequate for the type of farming in which he engages or desires to engage, or that he is the owner of other real estate in a rural area or a rural resident without an adequate dwelling or related facilities for his own use or buildings adequate for his farming operations, or that he is an elderly person in a rural area without an adequate dwelling or related facilities for his own use; (2) that he is without sufficient resources to provide the necessary housing and buildings on his own account; and (3) that he is unable to secure the credit necessary for such housing and buildings from other sources upon terms and conditions which he could reasonably be expected to fulfill.

(d) As used in this title (except in sections 503 and 504(b)), the terms "farm," "farm dwelling," and "farm housing" shall include dwellings or other essential buildings of eligible applicants.

LOANS FOR HOUSING AND BUILDINGS ON ADEQUATE FARMS

SEC. 502. (a) If the Secretary determines that an applicant is eligible for assistance as provided in section 501 and that the applicant has the ability to repay in full the sum to be loaned, with interest, giving due consideration to the income and earning capacity of the applicant and his family from the farm and other sources, and the maintenance of a reasonable standard of living for the owner and the occupants of said farm, a loan may be made by the Secretary to said applicant for a period of not to exceed thirty-three years from the making of the loan with interest, in the case of applicants described in clauses (1) and (2) of section 501(a), at a rate not to exceed 5 per centum per annum on the unpaid balance of principal, and, in the case of applicants described in clause (3) of section 501(a) and applicants under sections 503 and 504, at a rate not to exceed 4 per centum per annum on such unpaid balance. Loans made or insured under this title shall be conditioned on the borrower paying such fees and other charges as the Secretary may require. [In cases of applicants who are elderly persons, the] The Secretary may accept the personal liability of any person with adequate repayment ability who will cosign the applicant's note to compensate for any deficiency in the applicant's repayment ability.

(b) The instruments under which the loan is made and the security given shall—

(1) provide for security upon the applicant's equity in the farm or such other security or collateral, if any, as may be found

necessary by the Secretary reasonably to assure repayment of the indebtedness;

(2) provide for the repayment of principal and interest in accordance with schedules and repayment plans prescribed by the Secretary;

(3) contain the agreement of the borrower that he will, at the request of the Secretary, proceed with diligence to refinance the balance of the indebtedness through cooperative or other responsible private credit sources whenever the Secretary determines, in the light of the borrower's circumstances, including his earning capacity and the income from the farm, that he is able to do so upon reasonable terms and conditions;

(4) be in such form and contain such covenants as the Secretary shall prescribe to secure the payment of the loan with interest, protect the security, and assure that the farm will be maintained in repair and that waste and exhaustion of the farm will be prevented.

LOANS FOR HOUSING AND BUILDINGS ON POTENTIALLY ADEQUATE FARMS

SEC. 503. If the Secretary determines (a) that, because of the inadequacy of the income of an eligible applicant from the farm to be improved and from other sources, said applicant may not reasonably be expected to make annual repayments of principal and interest in an amount sufficient to repay the loan in full within the period of time prescribed by the Secretary as authorized in this title; (b) that the income of the applicant may be sufficiently increased within a period of not to exceed five years by improvement or enlargement of the farm or an adjustment of the farm practices or methods; and (c) that the applicant has adopted and may reasonably be expected to put into effect a plan of farm improvement, enlargement, or adjusted practices or production which, in the opinion of the Secretary, will increase the applicant's income from said farm within a period of not to exceed five years to the extent that the applicant may be expected thereafter to make annual repayments of principal and interest sufficient to repay the balance of the indebtedness less payments in cash and credits for the contributions to be made by the Secretary as hereinafter provided, the Secretary may make a loan in an amount necessary to provide adequate farm dwellings and buildings on said farm under the terms and conditions prescribed in section 502. In addition, the Secretary may agree with the borrower to make annual contributions during the said five-year period in the form of credits on the borrower's indebtedness in an amount not to exceed the annual installment of interest and 50 per centum of the principal payments accruing during any installment year up to and including the fifth installment year, subject to the conditions that the borrower's income is, in fact, insufficient to enable the borrower to make payments in accordance with the plan or schedule prescribed by the Secretary and that the borrower pursues his plan of farm reorganization and improvements or enlargement with due diligence.

This agreement with respect to credits or principal and interest upon the borrower's indebtedness shall not be assignable nor accrue

to the benefit of any third party without the written consent of the Secretary and the Secretary shall have the right, at his option, to cancel the agreement upon the sale of the farm or the execution or creation of any lien thereon subsequent to the lien given to the Secretary, or to refuse to release the lien given to the Secretary except upon payment in cash of the entire original principal plus accrued interest thereon less actual cash payments of principal and interest when the Secretary determines that the release of the lien would permit the benefits of this section to accrue to a person not eligible to receive such benefits.

OTHER SPECIAL LOANS AND GRANTS FOR MINOR IMPROVEMENTS
TO FARM HOUSING AND BUILDINGS

SEC. 504. (a) In the event the Secretary determines that an eligible applicant cannot qualify for a loan under the provisions of sections 502 and 503 and that repairs or improvements should be made to a farm dwelling occupied by him, in order to make such dwelling safe and sanitary and remove hazards to the health of the occupant, his family, or the community, and that repairs should be made to farm buildings in order to remove hazards and make such buildings safe, the Secretary may make a grant or a combined loan and grant, to the applicant to cover the cost of improvements or additions, such as repairing roofs, providing toilet facilities, providing a convenient and sanitary water supply, supplying screens, repairing or providing structural supports, or making other similar repairs or improvements. No assistance shall be extended to any one individual under this subsection in the form of a loan, grant or combined loan and grant in excess of **[\$1,000]** \$1,500. Any portion of the sums advanced to the borrower treated as a loan shall be secured and be repayable in accordance with the principles and conditions set forth in this title. Sums made available by grant may be made subject to the conditions set out in this title for the protection of the Government with respect to contributions made on loans by the Secretary.

(b) In order to encourage adequate family-size farms the Secretary may make loans under this section and section 503 to any applicant whose farm needs enlargement or development in order to provide income sufficient to support decent, safe, and sanitary housing and other farm buildings, and may use the funds made available under clause (b) of section 513 for such purposes.

MORATORIUM ON PAYMENTS UNDER LOANS

SEC. 505. During any time that any such loan is outstanding, the Secretary is authorized under regulations to be prescribed by him to grant a moratorium upon the payment of interest and principal on such loan for so long a period as he deems necessary, upon a showing by the borrower that due to circumstances beyond his control, he is unable to continue making payments of such principal and interest when due without unduly impairing his standard of living. In cases of extreme hardship under the foregoing circumstances, the Secretary is further authorized to cancel interest due and payable on such loans during the moratorium. Should any foreclosure of such a mortgage

securing such a loan upon which a moratorium has been granted occur, no deficiency judgment shall be taken against the mortgagor if he shall have faithfully tried to meet his obligation.

TECHNICAL SERVICES AND RESEARCH

SEC. 506. (a) In connection with financial assistance authorized in this title the Secretary shall require that all new buildings and repairs financed under this title shall be substantially constructed and in accordance with such building plans and specifications as may be required by the Secretary. Buildings and repairs constructed with funds advanced pursuant to this title shall be supervised and inspected, as may be required by the Secretary, by competent employees of the Secretary. In addition to the financial assistance authorized in this title the Secretary is authorized to furnish, through such agencies as he may determine, to any person, including a person eligible for financial assistance under this title, without charge or at such charges as the Secretary may determine, technical services such as building plans, specifications, construction supervision and inspection, and advice and information regarding farm dwellings and other buildings.

(b) The Secretary is further authorized to conduct research and technical studies including the development, demonstration, and promotion of construction of adequate farm dwellings and other buildings for the purpose of stimulating construction, improving the architectural design and utility of such dwellings and buildings, and utilizing new and native materials, economies in materials and construction methods, and new methods of production, distribution, assembly, and construction, with a view to reducing the cost of farm dwellings and buildings and adapting and developing fixtures and appurtenances for more efficient and economical farm use.

(c) The Secretary is further authorized to carry out a program of research, study, and analysis of farm housing in the United States to develop data and information on—

- (1) the adequacy of existing farm housing;
- (2) the nature and extent of current and prospective needs for farm housing, including needs for financing and for improved design, utility, and comfort, and the best methods of satisfying such needs;
- (3) problems faced by farmers and other persons eligible under section 501 in purchasing, constructing, improving, altering, repairing, and replacing farm housing;
- (4) the interrelation of farm housing problems and the problems of housing in urban and suburban areas; and
- (5) any other matters bearing upon the provision of adequate farm housing.

(d) To the extent determined by him to be advisable, the Secretary may carry out the research and study programs authorized by subsections (b) and (c) through grants made by him on such terms, conditions, and standards as he may prescribe to land-grant colleges established pursuant to the Act of July 2, 1862 (7 U.S.C. 301-308) or through such other agencies as he may select.

(e) The Secretary of Agriculture shall prepare and submit to the President and to the Congress estimates of national farm housing needs

and reports with respect to the progress being made toward meeting such needs, and correlate and recommend proposals for such executive action or legislation necessary or desirable for the furtherance of the national housing objective and policy established by this Act with respect to farm housing, together with such other reports or information as may be required of the Secretary by the President or the Congress.

PREFERENCE FOR VETERANS AND FAMILIES OF DECEASED SERVICEMEN

SEC. 507. As between eligible applicants seeking assistance under sections 501 to 504, inclusive, the Secretary shall give preference to veterans and the families of deceased servicemen. As used herein, a "veteran" shall mean a person who served in the military forces of the United States during any war between the United States and any other nation or during the period beginning June 27, 1950, and ending on such date as shall be determined by Presidential proclamation or concurrent resolution of Congress and who was discharged or released therefrom on conditions other than dishonorable. "Deceased servicemen" shall mean persons who served in the military forces of the United States during any war between the United States and any other nation or during the period beginning June 27, 1950, and ending on such date as shall be determined by Presidential proclamation or concurrent resolution of Congress and who died in service before the termination of such war or such period.

LOCAL COMMITTEES TO ASSIST SECRETARY

SEC. 508. (a) For the purposes of this subsection and subsection (b) of this section, the Secretary may use the services of any existing committee of farmers operating (pursuant to laws or regulations carried out by the Department of Agriculture) in any county or parish in which activities are carried on under this title. In any county or parish in which activities are carried on under this title and in which no existing satisfactory committee is available, the Secretary is authorized to appoint a committee composed of three persons residing in the county or parish. Each member of such existing or new appointed committee shall be allowed compensation at the rate determined by the Secretary while engaged in the performance of duties under this title and, in addition, shall be allowed such amounts as the Secretary may prescribe for necessary traveling and subsistence expenses. One member of the committee shall be designated by the Secretary as chairman. The Secretary shall prescribe rules governing the procedures of the committees, furnish forms and equipment necessary for the performance of their duties, and authorize and provide for the compensation of such clerical assistance as he deems may be required by any committee.

(b) The committees utilized or appointed pursuant to this section shall examine applications of persons desiring to obtain the benefits of this title and shall submit recommendations to the Secretary with respect to each applicant as to whether the applicant is eligible to receive the benefits of this title, whether by reason of his character, ability, and experience, he is likely successfully to carry out under-

takings required of him under a loan or grant under this title, and whether the farm with respect to which the application is made is of such character that there is a reasonable likelihood that the making of the loan or grant requested will carry out the purposes of this title. The committees shall also certify to the Secretary as to the amount of the loan or grant. The committees shall, in addition, perform such other duties under this title as the Secretary may require.

GENERAL POWERS OF SECRETARY

SEC. 509. (a) The Secretary, for the purposes of this title, shall have the power to determine and prescribe the standards of adequate farm housing and other buildings, by farms or localities, taking into consideration, among other factors, the type of housing which will provide decent, safe, and sanitary dwelling for the needs of the family using the housing, the type and character of the farming operations to be conducted, and the size and earning capacity of the land.

(b) The Secretary may require any recipient of a loan or grant to agree that the availability of improvements constructed or repaired with the proceeds of the loan or grant under this title shall not be a justification for directly or indirectly changing the terms or conditions of the lease or occupancy agreement with the occupants of such farms to the latter's disadvantage without the approval of the Secretary.

ADMINISTRATIVE PROVISIONS

SEC. 510. In carrying out the provisions of this title, the Secretary shall have the power to—

(a) make contracts for services and supplies without regard to the provisions of section 3709 of the Revised Statutes, as amended, when the aggregate amount involved is less than \$300;

(b) enter into subordination, subrogation, or other agreements satisfactory to the Secretary;

(c) compromise claims and obligations arising out of sections 502 to 505, inclusive, of this title and adjust and modify the terms of mortgages, leases, contracts, and agreements entered into as circumstances may require, including the release from personal liability, without payments of further consideration, of—

(1) borrowers who have transferred their farms to other approved applicants for loans who have agreed to assume the outstanding indebtedness to the Secretary under this title; and

(2) borrowers who have transferred their farms to other approved applicants for loans who have agreed to assume that portion of the outstanding indebtedness to the Secretary under this title which is equal to the earning capacity value of the farm at the time of the transfer, and borrowers whose farms have been acquired by the Secretary, in cases where the Secretary determines that the original borrowers have cooperated in good faith with the Secretary, have farmed in a workmanlike manner, used due diligence to maintain the security against loss, and otherwise fulfilled the covenants incident to their loans, to the best of their abilities;

(d) collect all claims and obligations arising out of or under any mortgage, lease, contract, or agreement entered into pursuant to this title and, if in his judgment necessary and advisable, to pursue the same to final collection in any court having jurisdiction: *Provided*, That the prosecution and defense of all litigation under this title shall be conducted under the supervision of the Attorney General and the legal representation shall be by the United States attorneys for the districts, respectively, in which such litigation may arise and by such other attorney or attorneys as may, under law, be designated by the Attorney General;

(e) bid for and purchase at any foreclosure or other sale or otherwise to acquire the property pledged or mortgaged to secure a loan or other indebtedness owing under this title, to accept title to any property so purchased or acquired, to operate or lease such property for such period as may be necessary or advisable, to protect the interest of the United States therein and to sell or otherwise dispose of the property so purchased or acquired by such terms and for such considerations as the Secretary shall determine to be reasonable and to make loans as provided herein to provide adequate farm dwellings and buildings for the purchasers of such property;

(f) utilize with respect to the indebtedness arising from loans and payments made under this title, all the powers and authorities given to him under the Act approved December 20, 1944, entitled "An Act to authorize the Secretary of Agriculture to compromise, adjust, or cancel certain indebtedness, and for other purposes" (58 Stat. 836), as such Act now provides or may hereafter be amended;

(g) make such rules and regulations as he deems necessary to carry out the purposes of this title.

LOAN FUNDS

SEC. 511. The Secretary may issue notes and other obligations for purchase by the Secretary of the Treasury for the purpose of making direct loans under this title. The total principal amount of such notes and obligations issued pursuant to this section during the period beginning July 1, 1956, and ending October 1, 1969, shall not exceed \$850,000,000. The notes and obligations issued by the Secretary shall be secured by the obligations of borrowers and the Secretary's commitments to make contributions under this title and shall be repaid from the payment of principal and interest on the obligations of the borrowers and from funds appropriated hereunder. The notes and other obligations issued by the Secretary shall be in such forms and denominations, shall have such maturities, and shall be subject to such terms and conditions as may be prescribed by the Secretary with the approval of the Secretary of the Treasury. Each such note or other obligation shall bear interest at the average rate, as determined by the Secretary of the Treasury, payable by the Treasury upon its marketable public obligations outstanding at the beginning of the fiscal year in which such note or other obligation is issued, which are neither due nor callable for redemption for 15 years from their date of issue. The Secretary of the Treasury is authorized and directed

to purchase any notes and other obligations of the Secretary issued hereunder and for such purpose is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as amended, and the purposes for which securities may be issued under such Act are extended to include any purchases of such obligations. The Secretary of the Treasury may at any time sell any of the notes or obligations acquired by him under this section. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or obligations shall be treated as public debt transactions of the United States.

CONTRIBUTIONS

SEC. 512. In connection with loans made pursuant to section 503, the Secretary is authorized to make commitments for contributions aggregating not to exceed \$10,000,000 during the period beginning July 1, 1956, and ending October 1, 1969.

SEC. 513. There is hereby authorized to be appropriated to the Secretary (a) such sums as may be necessary to meet payments on notes or other obligations issued by the Secretary under section 511 equal to (i) the aggregate of the contributions made by the Secretary in the form of credits on principal due on loans made pursuant to section 503, and (ii) the interest due on a similar sum represented by notes or other obligations issued by the Secretary; (b) not to exceed \$50,000,000 for grants pursuant to section 504(a) and loans pursuant to section 504(b) during the period beginning July 1, 1956, and ending October 1, 1969; (c) not to exceed \$50,000,000 for financial assistance pursuant to section 516 for the period ending October 1, 1969; (d) not to exceed \$250,000 per year for research and study programs pursuant to subsections (b), (c), and (d) of section 506 during the period beginning July 1, 1961, and ending October 1, 1969; and (e) such further sums as may be necessary to enable the Secretary to carry out the provisions of this title.

INSURANCE OF LOANS FOR THE PROVISION OF HOUSING AND RELATED FACILITIES FOR DOMESTIC FARM LABOR

SEC. 514. (a) The Secretary is authorized to insure and make commitments to insure loans made by lenders other than the United States to the owner of any farm, any association of farmers, any State or political subdivision thereof, or any public or private nonprofit organization for the purpose of providing housing and related facilities for domestic farm labor in accordance with terms and conditions substantially identical with those specified in section 502; except that—

(1) no such loan shall be insured in an amount in excess of the value of the farm involved less any prior liens in the case of a loan to an individual owner of a farm, or the total estimated value of the structures and facilities with respect to which the loan is made in the case of any other loan;

(2) no such loan shall be insured if it bears interest at a rate in excess of 5 per centum per annum;

(3) out of interest payments by the borrower the Secretary shall retain a charge in an amount not less than one-half of 1 per

centum per annum of the unpaid principal balance of the loan;

(4) the insurance contracts and agreements with respect to any loan may contain provisions for servicing the loan by the Secretary or by the lender, and for the purchase by the Secretary of the loan if it is not in default, on such terms and conditions as the Secretary may prescribe; and

(5) the Secretary may take mortgages creating a lien running to the United States for the benefit of the insurance fund referred to in subsection (b) notwithstanding the fact that the note may be held by the lender or his assignee.

(b) The Secretary shall utilize the insurance fund created by section 11 of the Bankhead-Jones Farm Tenant Act (7 U.S.C. 1005a) and the provisions of section 13 (a), (b), and (c) of such Act (7 U.S.C. 1005c (a), (b), and (c)) to discharge obligations under insurance contracts made pursuant to this section, and

(1) the Secretary may utilize the insurance fund to pay taxes, insurance, prior liens, and other expenses to protect the security for loans which have been insured hereunder and to acquire such security property at foreclosure sale or otherwise;

(2) the notes and security therefor acquired by the Secretary under insurance contracts made pursuant to this section shall become a part of the insurance fund. Loans insured under this section may be held in the fund and collected in accordance with their terms or may be sold and reinsured. All proceeds from such collections, including the liquidation of security and the proceeds of sales, shall become a part of the insurance fund; and

(3) of the charges retained by the Secretary out of interest payments by the borrower, amounts not less than one-half of 1 per centum per annum of the unpaid principal balance of the loan shall be deposited in and become a part of the insurance fund. The remainder of such charges shall be deposited in the Treasury of the United States and shall be available for administrative expenses of the Farmers Home Administration, to be transferred annually to and become merged with any appropriation for such expenses.

(c) Any contract of insurance executed by the Secretary under this section shall be an obligation of the United States and incontestable except for fraud or misrepresentation of which the holder of the contract has actual knowledge.

(d) The aggregate amount of the principal obligations of the loans insured under this section shall not exceed \$25,000,000 in any one fiscal year.

(e) Amounts made available pursuant to section 513 of this Act shall be available for administrative expenses incurred under this section.

(f) As used in this section—

(1) the term "housing" means (A) new structures suitable for dwelling use by domestic farm labor, and (B) existing structures which can be made suitable for dwelling use by domestic farm labor by rehabilitation, alteration, conversion, or improvement; and

(2) the term "related facilities" means (A) new structures suitable for use as dining halls, community rooms or buildings,

or infirmaries, or for other essential services facilities, and (B) existing structures which can be made suitable for the above uses by rehabilitation, alteration, conversion, or improvement; and

(3) the term "domestic farm labor" means persons who receive a substantial portion (as determined by the Secretary) of their income as laborers on farms situated in the United States and either (A) are citizens of the United States or (B) reside in the United States after being legally admitted for permanent residence therein.

* * *

**DIRECT AND INSURED LOANS TO PROVIDE HOUSING AND RELATED FACILITIES
FOR ELDERLY PERSONS AND FAMILIES IN RURAL AREAS**

SEC. 515. (a) The Secretary is authorized to make loans to private nonprofit corporations and consumer cooperatives to provide rental housing and related facilities for elderly persons and elderly families of low or moderate income *or other persons and families of low income* in rural areas, in accordance with terms and conditions substantially identical with those specified in section 502; except that—

(1) no such loan shall exceed the development cost or the value of the security, whichever is less;

(2) such loans shall bear interest at rates determined by the Secretary, not to exceed the maximum rate provided in section 202(a) (3) of the Housing Act of 1959; and

(3) such a loan may be made for a period of up to fifty years from the making of the loan.

There is authorized to be appropriated not to exceed \$50,000,000, which shall constitute a revolving fund to be used by the Secretary in carrying out this subsection.

(b) The Secretary is authorized to insure and make commitments to insure loans made to any individual, corporation, association, trust, or partnership to provide rental housing and related facilities for elderly persons and elderly families in rural areas, in accordance with terms and conditions substantially identical with those specified in section 502; except that—

(1) no such loan shall exceed \$300,000 or the development cost or the value of the security, whichever is least;

(2) such loans shall bear interest at rates determined by the Secretary, not to exceed the maximum rate provided in section 202(b) (5) of the National Housing Act;

(3) provide for complete amortization by periodic payments within such term as the Secretary may prescribe;

(4) for insuring such loans, the Secretary shall utilize the Agricultural Credit Insurance Fund subject to all the provisions of section 309 and the second and third sentences of section 308 of the Consolidated Farmers Home Administration Act of 1961, including the authority in section 309(f) (1) of that Act to utilize the insurance fund to make, sell, and insure loans which could be insured under this subsection; but the aggregate of the principal amounts of such loans made by the Secretary and not disposed of shall not exceed \$10,000,000 outstanding at any one time; and the

Secretary may take liens running to the United States though the notes may be held by other lenders; and

(5) no loan shall be insured under this subsection after October 1, 1969.

(c) No loan shall be made or insured under subsection (a) or (b) unless the Secretary finds that the construction involved will be undertaken in an economical manner and will not be of elaborate or extravagant design or materials.

(d) As used in this section—

(1) the term “housing” means new or existing housing suitable for dwelling use by [elderly persons or elderly families] *occupants eligible under this section*;

(2) the term “related facilities” includes cafeterias or dining halls, community rooms or buildings, appropriate recreation facilities, and other essential service facilities;

(3) the term “elderly persons” means persons who are 62 years of age or over; and the term “elderly families” means families the head of which (or his spouse) is 62 years of age or over; and

(4) the term “development cost” means the costs of constructing, purchasing, improving, altering, or repairing new or existing housing and related facilities and purchasing and improving the necessary land, including necessary and appropriate fees and charges approved by the Secretary.

(e) Amounts made available pursuant to section 513 of this Act shall be available for administrative expenses incurred under this section.

FINANCIAL ASSISTANCE TO PROVIDE LOW-RENT HOUSING FOR DOMESTIC FARM LABOR

SEC. 516. (a) Upon the application of any State or political subdivision thereof, or any public or private nonprofit organization, the Secretary is authorized to provide financial assistance for the provision of low-rent housing and related facilities for domestic farm labor, if he finds that—

(1) the housing and related facilities for which financial assistance is requested will fulfill a pressing need in the area in which such housing and facilities will be located, and there is reasonable doubt that the same can be provided without financial assistance under this section;

(2) the applicant will contribute, from its own resources or from funds borrowed under section 514 or elsewhere, at least one-third of the total development cost;

(3) the types of housing and related facilities to be provided are most practical, giving due consideration to the purposes to be served thereby and the needs of the occupants thereof; and

(4) the construction will be undertaken in an economical manner, and the housing and related facilities will not be of elaborate or extravagant design or material.

(b) The amount of any financial assistance provided under this section for low-rent housing and related facilities shall not exceed two-thirds of the total development cost thereof, as determined by the Secretary, less such amount as the Secretary determines can be prac-

tically obtained from other sources (including a loan under section 514).

(c) No financial assistance for low-rent housing and related facilities shall be made available under this section unless, to any extent and for any periods required by the Secretary, the applicant agrees—

(1) that the rentals charged domestic farm labor shall not exceed such amounts as may be approved by the Secretary, giving due consideration to the income and earning capacity of the tenants, and the necessary costs of operating and maintaining such housing;

(2) that such housing shall be maintained at all times in a safe and sanitary condition in accordance with such standards as may be prescribed by State or local law, or, in the absence of such standards, in accordance with such minimum requirements as the Secretary shall prescribe; and

(3) an absolute priority will be given at all times in granting occupancy of such housing and facilities to domestic farm labor.

(d) The Secretary may make payments pursuant to any contract for financial assistance under this section at such times and in such manner as may be specified in the contract. In each contract, the Secretary shall include such covenants, conditions, or provisions as he deems necessary to insure that the housing and related facilities, for which financial assistance is made available, be used only in conformity with the provisions of this section.

(e) The Secretary shall prescribe regulations to insure that Federal funds expended under this section are not wasted or dissipated.

(f) All laborers and mechanics employed by contractors or subcontractors on projects assisted by the Secretary which are undertaken by approved applicants under this section shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5). The Secretary shall not extend any financial assistance under this section for any project without first obtaining adequate assurance that these labor standards will be maintained on the construction work; except that compliance with such standards may be waived by the Secretary in cases or classes of cases where laborers or mechanics, not otherwise employed at any time on the project, voluntarily donate their services without compensation for the purpose of lowering the costs of construction and the Secretary determines that any amounts thereby saved are fully credited to the person, corporation, association, organization, or other entity undertaking the project. The Secretary of Labor shall have, with respect to the labor standards specified in this section, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15), and section 2 of the Act of June 13, 1934, as amended (40 U.S.C. 276c).

(g) As used in this section—

(1) the term “low-rent housing” means rental housing within the financial reach of families of low income consisting of (A) new structures suitable for dwelling use by domestic farm labor, and (B) existing structures which can be made suitable for dwelling use by domestic farm labor by rehabilitation, alteration, conversion, or improvement;

- (2) the terms "related facilities" and "domestic farm labor" shall have the meaning assigned to them in section 514(f); and
- (3) the term "development cost" shall have the meaning assigned to it in section 515(d)(4).

INSURED RURAL HOUSING LOANS

SEC. 517. (a) The Secretary may insure loans meeting the requirements of section 502, and may make loans in accordance with the requirements of such section to be sold and insured; except that such loans shall—

(1) if the borrowers are persons of low or moderate income (as defined by the Secretary), (A) not exceed amounts necessary to provide adequate housing, modest in size, design, and cost (as determined by the Secretary), (B) bear interest at a rate not to exceed 5 per centum per annum, and (C) not exceed in the aggregate \$300,000,000 of new loans made or insured in any one fiscal year; and

(2) if the borrowers are persons other than those described in clause (1), bear interest and provide for insurance or service charges at rates comparable to the combined rate of interest and premium charges in effect under section 203 of the National Housing Act, as determined by the Secretary.

(b) The Secretary may insure loans in accordance with the requirements of sections 514 (exclusive of subsections (a)(3), (a)(5), and (b)) and 515 (exclusive of subsections (a) and (b)(4)), and may make loans meeting such requirements to be sold and insured. Upon the expiration of ninety days after the original capitalization of the Rural Housing Insurance Fund, created by subsection (e) of this section, no new loans shall be made or insured under section 514 or 515(b), except in conformity with this section.

(c) The Secretary may use the Rural Housing Insurance Fund for the purpose of making loans to be sold and insured under this section, but the aggregate of such loans which are held by the Secretary at any one time shall not exceed \$100,000,000.

(d) The Secretary may, in conformity with subsections (a) and (b), insure the payment of principal and interest as it becomes due on loans made by lenders other than the United States, and on loans made from the Rural Housing Insurance Fund which are sold by the Secretary. Any contract of insurance executed by the Secretary hereunder shall be an obligation supported by the full faith and credit of the United States, and shall be incontestable except for fraud or material misrepresentation of which the holder has actual knowledge. In connection with loans insured under this section, the Secretary may take liens running to the United States notwithstanding the fact that the notes evidencing such loans may be held by lenders other than the United States. Notes evidencing such loans shall be freely assignable, but the Secretary shall not be bound by any such assignment until notice thereof is given to and acknowledged by him.

(e) There is hereby created the Rural Housing Insurance Fund (hereinafter referred to as the "Fund") which shall be used by the Secretary as a revolving fund for carrying out the provisions of this

section. There are authorized to be appropriated to the Secretary such sums as may be necessary for the purposes of the Fund.

(f) Money in the Fund not needed for current operations shall be invested in direct obligations of the United States or obligations guaranteed by the United States.

(g) All funds, claims, notes, mortgages, contracts, and property acquired by the Secretary under this section, and all collections and proceeds therefrom, shall constitute assets of the Fund; and all liabilities and obligations of such assets shall be liabilities and obligations of the Fund. Loans may be held in the Fund and collected in accordance with their terms or may be sold by the Secretary with or without agreements for insurance thereof. The Secretary is authorized to make agreements with respect to servicing loans held or insured by him under this section and purchasing such insured loans on such terms and conditions as he may prescribe.

(h) The Secretary is authorized to issue notes to the Secretary of the Treasury to obtain funds necessary for discharging obligations under this section and for authorized expenditures out of the Fund, but, except as may be authorized in appropriation Acts, not for the original or any additional capital of the Fund. Such notes shall be in such form and denominations and have such maturities and be subject to such terms and conditions as may be prescribed by the Secretary with the approval of the Secretary of the Treasury. Each note shall bear interest at the average rate, as determined by the Secretary of the Treasury, payable by the Treasury upon its marketable public obligations outstanding at the beginning of the fiscal year in which such note is issued, which are neither due nor callable for redemption for fifteen years from their date of issue. The Secretary of the Treasury is authorized and directed to purchase any notes of the Secretary issued hereunder, and for that purpose the Secretary of the Treasury is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as amended, and the purposes for which such securities may be issued under such Act are extended to include purchases of notes issued by the Secretary. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes shall be treated as public debt transactions of the United States. The notes issued by the Secretary to the Secretary of the Treasury shall constitute obligations of the Fund.

(i) The Secretary may retain out of interest payments by the borrower an annual charge in an amount specified in the insurance or sale agreement applicable to the loan. Of the charges retained by the Secretary, if any, not to exceed 1 per centum per annum of the unpaid balance of the loan shall be deposited in the Fund. Any retained charges not deposited in the Fund shall be available for administrative expenses in carrying out the provisions of this title, to be transferred annually, and become merged with any appropriation for administrative expenses of the Farmers Home Administration, when and in such amounts as may be authorized in appropriation Acts.

(j) The Secretary may also utilize the Fund—

(1) to pay amounts to which the holder of the note is entitled in accordance with an insurance or sale agreement under

this section accruing between the date of any prepayment by the borrower to the Secretary and the date of transmittal of any such prepayments to the holder of the note; and in the discretion of the Secretary, prepayments other than final payments need not be remitted to the holder until due;

(2) to pay the holder of any note insured under this section any defaulted installment or, upon assignment of the note to the Secretary at the Secretary's request, or pursuant to a purchase agreement, the entire balance outstanding on the note; and

(3) to pay taxes, insurance, prior liens, expenses necessary to make fiscal adjustments in connection with the application and transmittal of collections, and other expenses and advances to protect the security for loans which are insured under this section or held in the Fund, and to acquire such security property at foreclosure sale or otherwise.

RURAL HOUSING DIRECT LOAN ACCOUNT

SEC. 518. (a) There is hereby created the Rural Housing Direct Loan Account (hereinafter referred to as the "Account") which shall be used by the Secretary for carrying out the provisions of this section. There are authorized to be appropriated to the Secretary such sums as may be necessary for the purposes of the Account.

(b) There are transferred to the Account (1) all funds, claims, notes, mortgages, contracts, and property, and all collections and proceeds therefrom, held by the Secretary under the direct loan provisions of this title, including those securing notes issued by the Secretary to the Secretary of the Treasury under section 511 and any unexpended balance of amounts borrowed upon such notes, and (2) all unexpended balances of appropriations for direct loans under this title, including the fund authorized by section 515(a). All amounts hereafter borrowed by the Secretary from the Secretary of the Treasury under section 511 shall be deposited in the Account. All collections and proceeds from assets acquired by the Account shall be deposited in the Account.

(c) When and in such amounts as may be authorized in appropriation Acts, the Secretary may issue notes to the Secretary of the Treasury to obtain funds to be deposited in the Account. The form, denominations, maturities, and other terms and conditions of such notes shall be prescribed by the Secretary with the approval of the Secretary of the Treasury. Each note shall bear interest at the average rate determined by the Secretary of the Treasury, payable by the Treasury upon its marketable public obligations outstanding at the beginning of the fiscal year in which such note is issued, which are neither due nor callable for redemption for fifteen years from their date of issue. The Secretary of the Treasury is authorized and directed to purchase any notes of the Secretary issued hereunder, and for that purpose the Secretary of the Treasury is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as amended, and the purposes for which such securities may be issued under such Act are extended to include the purchase of notes issued by the Secretary. All redemptions, pur-

chases, and sales by the Secretary of the Treasury of such notes shall be treated as public debt transactions of the United States.

(d) The Account shall remain available to the Secretary for the payment of interest and principal on notes issued by the Secretary to the Secretary of the Treasury under section 511 or this section, and for direct loans and related advances under this title in such amounts as are now authorized by law and in such further amounts as shall be authorized in appropriation Acts. Amounts so authorized for such loans and advances shall remain available until expended.

SUMS EXCESS TO THE NEEDS OF THE RURAL HOUSING INSURANCE FUND OR THE RURAL HOUSING DIRECT LOAN ACCOUNT

SEC. 519. Any sums in the Rural Housing Insurance Fund or the Rural Housing Direct Loan Account which the Secretary determines are in excess of amounts needed to meet the obligations and carry out the purposes of such Fund or Account shall be returned to miscellaneous receipts of the Treasury.

DEFINITION OF RURAL AREA

SEC. 520. As used in this title, the terms "rural" and "rural area" mean any open country, or any place, town, village, or city which is not part of or associated with an urban area and which (1) has a population not in excess of 2,500 inhabitants, or (2) has a population in excess of 2,500 but not in excess of 5,500 if it is rural in character.

* * *

TITLE VI—MISCELLANEOUS PROVISIONS

ADVISORY COMMITTEES

SEC. 601. The [Housing and Home Finance Administrator and the head of each constituent agency of the Housing and Home Finance Agency] *Secretary of Housing and Urban Development* is hereby authorized to establish such advisory committee or committees as [each] he may deem necessary in carrying out any of his functions, powers and duties under this or any other Act or authorization. Persons serving without compensation as members of any such committee may be paid transportation expenses and not to exceed \$25 per diem in lieu of subsistence, as authorized by section 5 of the Act of August 2, 1946 (5 U.S.C. 73b-2).

* * *

[DEPUTY HOUSING AND HOME FINANCE ADMINISTRATOR]

[SEC. 605. The Housing and Home Finance Administrator shall appoint a Deputy Housing and Home Finance Administrator, and the basic rate of compensation of such position shall be the same as the basic rate of compensation established for the heads of the constituent agencies of the Housing and Home Finance Agency. The Deputy Administrator shall act as Administrator during the absence or dis-

ability of the Administrator or in the event of a vacancy in that office, and shall perform such other duties as the Administrator shall direct.】

* * * * *

GENERAL PROVISIONS

SEC. 612. No part of any appropriation, loan, fund, or expenditure authorized by or provided pursuant to this Act, shall be used directly or indirectly to pay the salary or wages of any officer or employee of the [Housing and Home Finance Agency] *Department of Housing and Urban Development* or the Department of Agriculture who engages in a strike against the Government of the United States or who is a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or who advocates, or is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided*, That for the purposes hereof an affidavit shall be considered prima facie evidence that the officer or employee making the affidavit has not contrary to the provisions of this section engaged in a strike against the Government of the United States, is not a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or that such officer or employee does not advocate, and is not a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided further*, That any person who engages in a strike against the Government of the United States or who is a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence and accepts an office or employment in the [Housing and Home Finance Agency] *Department of Housing and Urban Development* or the Department of Agriculture the salary or wages for which are paid from any appropriation, loan, fund, or expenditure authorized by or provided pursuant to this Act shall be guilty of a felony and, upon conviction, shall be fined not more than \$1,000 or imprisoned for not more than one year, or both: *Provided further*, That the above penalty clause shall be in addition to, and not in substitution for, any other provisions of existing law.

HOUSING ACT OF 1950

[Public Law 475, 81st Congress, 64 Stat. 48, 77, 12 U.S.C. 1749]

* * *

TITLE IV—HOUSING FOR EDUCATIONAL INSTITUTIONS

FEDERAL LOANS

SEC. 401. (a) To assist educational institutions in providing housing and other educational facilities for students and faculties, the [Administrator] *Secretary* may make loans of funds to such institutions for the construction of such facilities: *Provided*, That (1) no

such loan shall be made unless the educational institution shows that it is unable to secure the necessary funds for such construction from other sources upon terms and conditions equally as favorable as the terms and conditions applicable to loans under this title, and (2) no such loan shall be made unless the **[Administrator]** *Secretary* finds that the construction will be undertaken in an economical manner, and that it will not be of elaborate or extravagant design or materials.

(b) Any educational institution which, prior to the date of enactment of this Act, has contracted for housing or other educational facilities may, in connection therewith, receive loans authorized under this title, as the **[Administrator]** *Secretary* may determine: *Provided*, That no such loan shall be made for any housing or other educational facilities, the construction of which was begun prior to the effective date of this Act, or completed prior to the filing of an application under this title.

(c) A loan to an educational institution may be in an amount not exceeding the total development cost of the facility, as determined by the **[Administrator]** *Secretary*; shall be secured in such manner and be repaid within such period, not exceeding fifty years, as may be determined by him; and with respect to loan contracts under which loan funds have not been fully disbursed prior to the date of enactment of the College Housing Amendments of 1955 shall bear interest at a rate determined by the **[Administrator]** *Secretary* which shall be not more than the lower of (1) 3 per centum per annum, or (2) the total of one-quarter of 1 per centum per annum added to the rate of interest paid by the **[Administrator]** *Secretary* on funds obtained from the Secretary of the Treasury as provided in subsection (e) of this section.

(d) To obtain funds for loans under subsection (a) of this section, the **[Administrator]** *Secretary* may issue and have outstanding at any one time notes and obligations for purchase by the Secretary of the Treasury in an amount not to exceed \$1,675,000,000, which amount shall be increased by \$300,000,000 on July 1 in each of the years 1961 through 1968: *Provided*, That the amount outstanding for other educational facilities, as defined herein, shall not exceed \$175,000,000, which limit shall be increased by \$30,000,000 on July 1 in each of the years 1961 through 1968: *Provided further*, That the amount outstanding for hospitals, referred to in clause (2) of section 404(b) of this title, shall not exceed \$100,000,000, which limit shall be increased by \$30,000,000 on July 1 in each of the years 1961 through 1968.

(e) Notes or other obligations issued by the **[Administrator]** *Secretary* under this title shall be in such forms and denominations, have such maturities, and be subject to such terms and conditions as may be prescribed by the **[Administrator]** *Secretary*, with the approval of the Secretary of the Treasury. Such notes or other obligations issued to obtain funds for loan, contracts entered into after the effective date of the College Housing Amendments of 1955 shall bear interest at a rate determined by the Secretary of the Treasury which shall be not more than the lower of (1) $2\frac{3}{4}$ per centum per annum, or (2) the average annual interest rate on all interest-bearing obligations of the United States then forming a part of the public debt as computed at the end of the fiscal year next preceding the issuance by

the [Administrator] *Secretary* and adjusted to the nearest one-eighth of 1 per centum. The Secretary of the Treasury is authorized and directed to purchase any notes and other obligations of the [Administrator] *Secretary* issued under this title and for such purpose is authorized to use as a public-debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as amended, and the purposes for which securities may be issued under such Act, as amended, are extended to include any purchases of such notes and other obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this section. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as public-debt transactions of the United States.

(f) There are hereby authorized to be appropriated to the [Administrator] *Secretary* such sums as may be necessary, together with loan principal and interest payments made by educational institutions assisted hereunder, for payments on notes or other obligations issued by the [Administrator] *Secretary* under this section.

(g) Except as otherwise provided in the second paragraph of section 404(b), in the case of any loan made under this section to a non-profit student housing cooperative corporation referred to in clause (5) of section 404(b), the [Administrator] *Secretary* shall require that the note securing such loan be co-signed by the educational institution (referred to in clause (1) of such section) at which such corporation is located; and in the event of the dissolution of such corporation, title to the housing constructed with such loan shall vest in such educational institution.

GENERAL PROVISIONS

SEC. 402. (a) In the performance of, and with respect to, the functions, powers, and duties vested in him by this title, the [Administrator] *Secretary*, notwithstanding the provisions of any other law, shall—

(1) prepare annually and submit a budget program as provided for wholly owned Government corporations by the Government Corporation Control Act, as amended; and

(2) maintain an integral set of accounts which shall be audited annually by the General Accounting Office in accordance with the principles and procedures applicable to commercial transactions as provided by the Government Corporation Control Act, as amended, and no other audit shall be required: *Provided*, That such financial transactions of the [Administrator] *Secretary* as the making of loans and vouchers approved by the [Administrator] *Secretary* in connection with such financial transactions shall be final and conclusive upon all officers of the Government.

(b) Funds made available to the [Administrator] *Secretary* pursuant to the provisions of this title shall be deposited in a checking account or accounts with the Treasurer of the United States. Receipts and assets obtained or held by the [Administrator] *Secretary* in connection with the performance of his functions under this title, and all funds available for carrying out the functions of the [Administrator] *Secretary* under this title (including appropriations therefor, which

are hereby authorized), shall be available, in such amounts as may from year to year be authorized by the Congress, for the administrative expenses of the [Administrator] *Secretary* in connection with the performance of such functions.

(c) in the performance of, and with respect to, the functions, powers, and duties vested in him by this title, the [Administrator] *Secretary*, notwithstanding the provisions of any other law, may—

(1) prescribe such rules and regulations as may be necessary to carry out the purposes of this title;

(2) consult with and secure the advice and recommendations of the Office of Education in the [Federal Security Agency] *Department of Health, Education, and Welfare*;

(3) sue and be sued;

(4) foreclose on any property or commence any action to protect or enforce any right conferred upon him by any law, contract, or other agreement, and bid for and purchase at any foreclosure or any other sale any property in connection with which he has made a loan pursuant to this title. In the event of any such acquisition, the [Administrator] *Secretary* may, notwithstanding any other provision of law relating to the acquisition, handling, or disposal of real property by the United States, complete, administer, remodel and convert, dispose of, lease and otherwise deal with, such property: *Provided*, That any such acquisition of real property shall not deprive any State or political subdivision thereof of its civil or criminal jurisdiction in and over such property or impair the civil rights under the State or local laws of the inhabitants on such property;

(5) enter into agreements to pay annual sums in lieu of taxes to any State or local taxing authority with respect to any real property so acquired or owned;

(6) sell or exchange at public or private sale, or lease, real or personal property, and sell or exchange any securities or obligations, upon such terms as he may fix;

(7) obtain insurance against loss in connection with property and other assets held;

(8) subject to the specific limitations in this title, consent to the modification, with respect to the rate of interest, time of payment of any installment of principal or interest, security, or any other term of any contract or agreement to which he is a party or which has been transferred to him pursuant to this title; and

(9) include in any contract or instrument made pursuant to this title such other covenants, conditions, or provisions as he may deem necessary to assure that the purposes of this title will be achieved.

(d) Section 3709 of the Revised Statutes shall not apply to any contract for services or supplies on account of any property acquired pursuant to this title if the amount of such contract does not exceed \$1,000.

(e) The provisions of section 309 of the Independent Offices Appropriation Act, 1950 (63 Stat. 662), which are applicable to corporations or agencies subject to the Government Corporation Control Act, shall also be applicable to the activities of the [Administrator] *Secretary* under this title.

(f) The [Administrator] *Secretary* shall take such action as may be necessary to insure that all laborers and mechanics employed by contractors or subcontractors on any project assisted under this title, the construction or rehabilitation of which was commenced after the date of enactment of the Housing Act of 1959, (1) shall be paid wages at rates not less than those prevailing on the same type of work on similar construction in the immediate locality as determined by the Secretary of Labor in accordance with the Act of March 3, 1931 (Davis-Bacon Act), as amended, and (2) shall be employed not more than forty hours in any one week unless the employee receives wages for his employment in excess of the hours specified above at a rate not less than one and one-half times the regular rate at which he is employed; but the [Administrator] *Secretary* may waive the application of this subsection in cases or classes of cases where laborers or mechanics, not otherwise employed at any time in the construction of such project, voluntarily donate their services without full compensation for the purpose of lowering the costs of construction and the [Administrator] *Secretary* determines that any amounts saved thereby are fully credited to the educational institution undertaking the construction.

APPORTIONMENT

SEC. 403. Not more than 12½ per centum of the funds provided for in this title in the form of loans shall be made available to educational institutions within any one State.

DEFINITIONS

SEC. 404. For the purposes of this title, the following terms shall have the meanings, respectively, ascribed to them below:

(a) "Housing" means (1) new structures suitable for dwelling use, including single-room dormitories and apartments, and (2) dwelling facilities provided by rehabilitation, alteration, conversion, or improvement of existing structures which are otherwise inadequate for the proposed dwelling use.

(b) "Educational institution" means (1) (A) any educational institution which offers, or provides satisfactory assurance to the Administrator that it will offer within a reasonable time after completion of a facility for which assistance is requested under this title, at least a two-year program acceptable for full credit toward a baccalaureate degree (including any public educational institution, or any private educational institution no part of the net earnings of which inures to the benefit of any private shareholder or individual), or (B) any public educational institution which (i) is administered by a college or university which is accredited by a nationally recognized accrediting agency or association, (ii) offers technical or vocational instruction, and (iii) provides residential facilities for some or all of the students receiving such instruction, (2) any hospital operating a school of nursing beyond the level of high school approved by the appropriate State authority, or any hospital approved for internships by recognized authority, if such hospital is either a public hospital or a private hospital, no part of the net earnings of which inures to the

benefit of any private shareholder or individual, (3) any corporation (no part of the net earnings of which inures to the benefit of any private shareholder or individual) (A) established for the sole purpose of providing housing or other educational facilities for students or students and faculty of one or more institutions included in clause (1) of this subsection without regard to their membership in or affiliation with any social, fraternal, or honorary society or organization, and (B) upon dissolution of which all title to any property purchased or built from the proceeds of any loan secured under this title will pass to such institution (or to any one or more of such institutions) unless it is shown to the satisfaction of the [Administrator] *Secretary* that such property or the proceeds from its sale will be used for some other nonprofit educational purpose, (4) any agency, public authority, or other instrumentality of any State established for the purpose of providing or financing housing or other educational facilities for students or faculty of any public educational institution included in clause (1) of this subsection, but nothing herein contained shall require an institution included in clause (1) of this subsection to obtain loans through any instrumentality included in this clause of this subsection, and (5) any nonprofit student housing cooperative corporation established for the purpose of providing housing for students or students and faculty of any institution included in clause (1) of this subsection.

In the case of any loan made under section 401 to a corporation described in clause (3) of this subsection which was not established by the institution or institutions for whose students or students and faculty it would provide housing, or to a student housing cooperative corporation described in clause (5) of this subsection, the [Administrator] *Secretary* shall require that the note securing such loan be cosigned by such institution (or by any one or more of such institutions: *Provided*, That where the law of any State in effect on the date of enactment of the Housing Act of 1964 prevents the institution or institutions, for whose students or students and faculty the housing is to be provided, from cosigning the note, the [Administrator] *Secretary* shall require the corporation and the proposed project to be approved by such institution (or by any one or more of such institutions) in lieu of such cosigning.

(c) "Development cost" means costs of the construction of the housing or other educational facilities and the land on which it is located, including necessary site improvements to permit its use for housing or other educational facilities.

(d) "Faculties" means members of the faculty and their families.

(e) "State" shall include the several States, the District of Columbia, and the Territories and possessions of the United States.

[(f) "Administrator" means the Housing and Home Finance Administrator.]

(f) "*Secretary*" means the *Secretary of Housing and Urban Development*.

(g) "Construction" means erection of new structures, or rehabilitation, alteration, conversion, or improvement of existing structures.

(h) "Other educational facilities" means (1) new structures suitable for use as cafeterias or dining halls, student centers or student

unions, infirmaries or other inpatient or outpatient health facilities, or for other essential service facilities, and (2) structures suitable for the above uses provided by rehabilitation, alteration, conversion, or improvement of existing structures which are otherwise inadequate for such uses.

* * *

TITLE V—MISCELLANEOUS PROVISIONS

* * *

SEC. 507. Notwithstanding the provisions of any other law, except provisions of law hereafter enacted expressly in limitation hereof, receipts of the National Capital Housing Authority from leases, sales, or other sources under title I of the District of Columbia Alley Dwelling Act are and shall remain available to the Authority for the purposes of said title I, subject to approval by the [Public Housing Administration] *Secretary of Housing and Urban Development* of budgets for maintenance and operation of properties administered under title I in the same manner as budgets are approved by said [Administration] *Department* with respect to maintenance and operation of projects under title II of said Act.

SEC. 508. It is the intent of Congress that no sale of a dwelling on which a mortgage is insured under the National Housing Act, as amended, shall be financed, while such mortgage is so insured, at an interest rate higher than that prescribed by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development*. It is the further intent of Congress that no such sale shall be made, while such mortgage is so insured, on terms less favorable to the purchaser as to amortization, retirement, foreclosure, or forfeiture than those contained in such mortgage.

* * *

HOUSING ACT OF 1954

[Public Law 560, 83rd Congress]

* * *

TITLE I—FEDERAL HOUSING ADMINISTRATION

* * *

SEC. 125. Title II of said Act, as amended, is hereby further amended by adding at the end thereof the following new section to transfer to title II the mortgage insurance program in connection with the sale of certain publicly owned property as contained in section 610 of title VI; the insurance of mortgages to refinance existing loans insured under section 608 of title VI and sections 903 and 908 of title IX; and to authorize the insurance under title II of mortgages assigned to the [Commissioner] *Secretary of Housing and Urban Development* under insurance contracts and mortgages held by the [Commissioner] *Secretary of Housing and Urban Development* in connection with the sale of property acquired under insurance contracts:

"MISCELLANEOUS HOUSING INSURANCE

"SEC. 223. (a) [For this section of the National Housing Act, see above.]

* * *

TITLE III—SLUM CLEARANCE AND URBAN RENEWAL

* * *

SEC. 312. Notwithstanding the amendments of this title to title I of the Housing Act of 1949, as amended, the [Administrator] *Secretary*, with respect to any project covered by any Federal aid contract executed, or prior approval granted, by him under said title I before the effective date of this Act, upon request of the local public agency, shall continue to extend financial assistance for the completion of such project in accordance with the provisions of said title I in force immediately prior to the effective date of this Act.

* * *

SEC. 314. (a) The [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* is authorized to make grants, subject to such terms and conditions as he shall prescribe, to public bodies, including cities and other political subdivisions, to assist them in developing, testing, and reporting methods and techniques, and carrying out demonstrations and other activities for the prevention and the elimination of slums and urban blight. No such grant shall exceed two-thirds of the cost, as determined or estimated by said [Administrator] *Secretary*, of such activities or undertakings, but such a grant may in addition cover the full cost of writing and publishing the reports on such activities and undertakings. In administering this section, said [Administrator] *Secretary* shall give preference to those activities and undertakings which in his judgment can reasonably be expected to (1) contribute most significantly to the improvement of methods and techniques for the elimination and prevention of slums and blight, and (2) best serve to guide renewal programs in other communities.

(b) The [Administrator] *Secretary* is further authorized to pay for the cost of (1) writing and publishing reports on activities and undertakings financed by grants made under this section, as well as reports on similar activities and undertakings, not so financed, which are of significant value in furthering the purposes of this section, and (2) writing and publishing summaries and other informational material on such reports.

(c) The aggregate amount of grants made under subsection (a), and other costs incurred pursuant to subsection (b), shall not exceed \$10,000,000 and shall be payable from the grant funds provided under and authorized by section 103(b) of the Housing Act of 1949. The [Administrator] *Secretary* may make advance or progress payments on account of any contract entered into pursuant to this section, notwithstanding the provisions of section 3648 of the Revised Statutes, as amended.

* * *

TITLE VII—URBAN PLANNING AND RESERVE OF
PLANNED PUBLIC WORKS

URBAN PLANNING

SEC. 701. (a) In order to assist State and local governments in solving planning problems resulting from the increasing concentration of population in metropolitan and other urban areas, including smaller communities; to facilitate comprehensive planning for urban development, including coordinated transportation systems, on a continuing basis by such governments; and to encourage such governments to establish and improve planning staffs, the [Administrator] *Secretary* is authorized to make planning grants to—

(1) State planning agencies, or (in States where no such planning agency exists) to agencies or instrumentalities of State government designated by the Governor of the State and acceptable to the [Administrator] *Secretary* as capable of carrying out the planning functions contemplated by this section, for the provision of planning assistance to (A) cities and other municipalities having a population of less than 50,000 according to the latest decennial census, and counties without regard to population: *Provided*, That grants shall be made under this paragraph for planning assistance to counties having a population of 50,000 or more, according to the latest decennial census, which are within metropolitan areas, only if (i) the [Administrator] *Secretary* finds that planning and plans for such county will be coordinated with the program of comprehensive planning, if any, which is being carried out for the metropolitan area of which the county is a part, and (ii) the aggregate amount of the grants made subject to this proviso does not exceed 15 per centum of the aggregate amount appropriated, after the date of enactment of the Housing Act of 1964, for the purposes of this section, (B) any group of adjacent communities, either incorporated or unincorporated, having a total population of less than 50,000 according to the latest decennial census and having common or related urban planning problems, (C) cities, other municipalities, and counties, referred to in paragraph (3) of this subsection and areas referred to in paragraph (4) of this subsection, and (D) Indian reservations;

(2) official State, metropolitan, and regional planning agencies, or other agencies and instrumentalities designated by the Governor (or Governors in the case of interstate planning) and acceptable to the [Administrator] *Secretary*, empowered under State or local laws or interstate compact to perform metropolitan or regional planning;

(3) cities, other municipalities, and counties which (A) are situated in areas designated by the Secretary of Commerce under section 5 of the Area Redevelopment Act as redevelopment areas or (B) have suffered substantial damage as a result of a catastrophe which the President, pursuant to section 2(a) of "An Act to authorize Federal assistance to States and local governments in major disasters, and for other purposes" has determined to be a major disaster;

(4) to official governmental planning agencies for areas where rapid urbanization has resulted or is expected to result from the establishment or rapid and substantial expansion of a Federal installation, *or for areas where rapid urbanization is expected to result on land acquired or to be acquired by land development agencies with assistance under section 202(b)(1) of the Housing Amendments of 1955, or on land developed or to be developed as a new community approved under section 1004 of the National Housing Act;*

(5) State planning agencies for State and interstate comprehensive planning (as defined in subsection (d)) and for research and coordination activity related thereto;

(6) metropolitan and regional planning agencies, with the approval of the State planning agency or (in States where no such planning agency exists) of the Governor of the State, for the provision of planning assistance within the metropolitan area or region to cities, other municipalities, counties, groups of adjacent communities, or Indian reservations described in clauses (A), (B), (C), and (D) of paragraph (1) of this subsection;

(7) to official governmental planning agencies for any area where there has occurred a substantial reduction in employment opportunities as the result of (A) the closing (in whole or in part) of a Federal installation, or (B) a decline in the volume of Government orders for the procurement of articles or materials produced or manufactured in such area;

(8) tribal planning councils or other tribal bodies designated by the Secretary of the Interior for planning for an Indian reservation to which no State planning agency or other agency or instrumentality is empowered to provide planning assistance under clause (D) of paragraph (1) above; and

(9) the Appalachian Regional Commission, established by the Appalachian Regional Development Act of 1965, for comprehensive planning for the Appalachian region as defined by section 403 of such Act.

Planning assisted under this section shall, to the maximum extent feasible, cover entire urban areas having common or related urban development problems. The [Administrator] *Secretary* shall encourage cooperation in preparing and carrying out plans among all interested municipalities, political subdivisions, public agencies, and other parties in order to achieve coordinated development of entire areas. To the maximum extent feasible, pertinent plans and studies already made for areas shall be utilized so as to avoid unnecessary repetition of effort and expense. Planning which may be assisted under this section includes the preparation of comprehensive urban transportation surveys, studies, and plans to aid in solving problems of traffic congestion, facilitating the circulation of people and goods in metropolitan and other urban areas and reducing transportation needs. Funds available under this section shall be in addition to and may be used jointly with funds available for planning surveys and investigations under other Federally-aided programs, and nothing contained in this section shall be construed as affecting the authority of the Secretary of Commerce under section 307 of title 23, United States Code.

(b) A planning grant made under this section shall not exceed two-thirds of the estimated cost of the work for which the grant is made: *Provided*, That such a grant may be in an amount not exceeding three-fourths of such estimated cost to an official governmental planning agency for an area described in subsection (a) (7), or for planning being carried out for a city, other municipality, county, group of adjacent communities, or Indian reservation in an area designated by the Secretary of Commerce as a redevelopment area under section 5 of the Area Redevelopment Act, (or under any Act supplementary thereto) to States participating in planning for Appalachian regional programs, for expenses incurred in the course of such planning, or to the Appalachian Regional Commission. All grants made under this section shall be subject to terms and conditions prescribed by the [Administrator] *Secretary*. No portion of any grant made under this section shall be used for the preparation of plans for specific public works. The [Administrator] *Secretary* is authorized, notwithstanding the provisions of section 3648 of the Revised Statutes, as amended, to make advance or progress payments on account of any grant made under this section. There is hereby authorized to be appropriated not exceeding \$230,000,000, to carry out the purposes of this section, and any amounts so appropriated shall remain available until expended: *Provided*, That not to exceed 5 per centum of any funds so appropriated may be used by the [Administrator] *Secretary* for studies, research, and demonstration projects, undertaken independently or by contract, for the development and improvement of techniques and methods for comprehensive planning and for the advancement of the purposes of this section, *and for grants to assist in the conduct of studies and research relating to needed revisions in State statutes which create, govern, or control local governments and local governmental operations.*

(c) The [Administrator] *Secretary* is authorized, in areas embracing several municipalities or other political subdivisions, to encourage planning on a unified metropolitan basis and to provide technical assistance for such planning and the solution of problems relating thereto.

(d) It is the further intent of this section to encourage comprehensive planning, including transportation planning, for States, cities, counties, metropolitan areas, urban regions, and Indian reservations and the establishment and development of the organizational units needed therefor. The [Administrator] *Secretary* is authorized to provide technical assistance to State and local governments and their agencies and instrumentalities, and to Indian tribal bodies, undertaking such planning and, by contract or otherwise, to make studies and publish information on related problems. In extending financial assistance under this section, the [Administrator] *Secretary* may require such assurances as he deems adequate that the appropriate State and local agencies are making reasonable progress in the development of the elements of comprehensive planning. Comprehensive planning, as used in this section, includes the following, to the extent directly related to urban needs: (1) preparation, as a guide for long-range development, of general physical plans with respect to the pattern and intensity of land use and the provision of public facilities, including

transportation facilities, together with long-range fiscal plans for such development; (2) programming of capital improvements based on a determination of relative urgency, together with definitive financing plans for the improvements to be constructed in the earlier years of the program; (3) coordination of all related plans of the departments or subdivisions of the government concerned; (4) intergovernmental coordination of all related planned activities among the State and local governmental agencies concerned; and (5) preparation of regulatory and administrative measures in support of the foregoing.

(e) In the exercise of his function of encouraging comprehensive planning by the States, the [Administrator] *Secretary* shall consult with those officials of the Federal Government responsible for the administration of programs of Federal assistance to the States and municipalities for various categories of public facilities.

(f) The consent of the Congress is hereby given to any two or more States to enter into agreements or compacts, not in conflict with any law of the United States, for cooperative efforts and mutual assistance in the comprehensive planning for the physical growth and development of interstate, metropolitan, or other urban areas, and to establish such agencies, joint or otherwise, as they may deem desirable for making effective such agreements and compacts.

(g) In addition to the planning grants authorized by subsection (a), the [Administrator] *Secretary* is further authorized to make grants to organizations composed of public officials whom he finds to be representative of the political jurisdictions within a metropolitan area or urban region for the purpose of assisting such organizations to undertake studies, collect data, develop regional plans and programs, and engage in such other activities as the [Administrator] *Secretary* finds necessary or desirable for the solution of the metropolitan or regional problems in such areas or regions. To the maximum extent feasible, all grants under this subsection shall be for activities relating to all the developmental aspects of the total metropolitan area or urban region, including, but not limited to, land use, transportation, housing, economic development, natural resources development, community facilities, and the general improvement of living environments. A grant under this subsection shall not exceed two-thirds of the estimated cost of the work for which the grant is made.

RESERVE OF PLANNED PUBLIC WORKS

SEC. 702. (a) In order (1) to encourage municipalities and other public agencies and Indian tribes to maintain at all times a current and adequate reserve of planned public works the construction of which can rapidly be commenced, particularly when the national or local economic situation makes such action desirable, and (2) to help attain maximum economy and efficiency in the planning and construction of public works, the [Administrator] *Secretary* is hereby authorized to make advances to public agencies and Indian tribes (notwithstanding the provisions of section 3648 of the Revised Statutes, as amended) to aid in financing the cost of engineering and architectural surveys, designs, plans, working drawings, specifications, or other action preliminary to and in preparation for the construction of pub-

lic works, including, in the case of public works to be constructed in connection with the development of a medical center, a general plan for the development of such center: *Provided*, That the making of advances hereunder shall not in any way commit the Congress to appropriate funds to assist in financing the construction of any public works so planned: *And provided further*, That advances outstanding to public agencies and Indian tribes in any one State shall at no time exceed 12½ per centum of the aggregate then authorized to be appropriated to the revolving fund established pursuant to subsection (e) of this section.

(b) No advance shall be made hereunder with respect to any individual project, including a regional or metropolitan or other area-wide project, unless (1) it is planned to be constructed within or over a reasonable period of time considering the nature of the project, (2) it conforms to an overall State, local, or regional plan approved by a competent State, local, or regional authority, and (3) the public agency or Indian tribe formally contracts with the Federal Government to complete the plan preparation promptly and to repay such advance or part thereof when due.

(c) Advances under this section to any public agency or Indian tribe shall be repaid without interest by such agency or tribe when the construction of the public works is undertaken or started: *Provided*, That in the event repayment is not made promptly such unpaid sum shall bear interest at the rate of 4 per centum per annum from the date of the Government's demand for repayment to the date of payment thereof by the public agency or Indian tribe.

(d) The [Administrator] *Secretary* is authorized to prescribe rules and regulations to carry out the purpose of this section.

(e) In order to provide moneys for advances in accordance with this section, the [Administrator] *Secretary* is hereby authorized to establish a revolving fund which shall comprise (1) all moneys heretofore or hereafter appropriated pursuant to this section, together with all repayments and other receipts heretofore or hereafter received in connection with advances made under this section, and (2) all repayments and other receipts received after June 30, 1964, and all advances (and claims in connection with advances) outstanding as of such date, under title V of the War Mobilization and Reconversion Act of 1944 (58 Stat. 791) and the Act of October 13, 1949 (63 Stat. 841-2). There are authorized to be appropriated to such revolving fund, in addition to amounts authorized to be appropriated for the purposes of this section prior to the date of the enactment of the Housing Act of 1964, such sums, not exceed \$70,000,000, as may be necessary to carry out the purposes of this section.

(f) The [Administrator] *Secretary* is authorized to use during any fiscal year not to exceed \$100,000 of the moneys in the revolving fund (established under subsection (e)) to conduct surveys of the status and current volume of State and local public works planning and surveys of estimated requirements for State and local public works: *Provided*, That the [Administrator] *Secretary*, in conducting any such survey, may utilize or act through any Federal department or agency with its consent.

(g) Notwithstanding any other provision of this section, no advance made under this section for the planning of any public works

project shall be required to be repaid if construction of such project is initiated as a result of a grant-in-aid made from an allocation made by the President under the Public Works Acceleration Act.

(h) (1) Notwithstanding any other provision of law, if a public agency or Indian tribe undertakes to construct only a portion of a public work planned with an advance under this section, under title V of the War Mobilization and Reconversion Act of 1944, or under the Act of October 13, 1949, it shall repay only such proportionate amount of the advance relating to the public work as the [Administrator] *Secretary* determines to be equitable.

(2) The [Administrator] *Secretary* is authorized to terminate, upon such terms and conditions as he shall deem equitable, all or a portion of the liability for repayment of any advance made under this section, title V of the War Mobilization and Reconversion Act of 1944, or the Act of October 13, 1949. Whenever the [Administrator] *Secretary* determines that there is no reasonable likelihood that the public work, or a portion of the public work, planned with such advance will be constructed, he may terminate the agreement for the advance. Such determination shall be conclusive and shall be based on standards prescribed by regulations to be issued by the [Administrator] *Secretary*.

DEFINITIONS

SEC. 703. As used in this title, (1) the term "State" shall mean any State, the District of Columbia, the Commonwealth of Puerto Rico, and any territory or possession of the United States; [(2) the term "Administrator" shall mean the Housing and Home Finance Administrator;] (2) *the term "Secretary" shall mean the Secretary of Housing and Urban Development*; (3) the term "public works" shall include any public works other than housing; and (4) the term "public agency" or "public agencies" shall mean any State, as herein defined, or any public agency or political subdivision therein.

TITLE VIII—MISCELLANEOUS PROVISIONS

SEC. 801. (a) The [Federal Housing Commissioner] *Secretary of Housing and Urban Development* is hereby authorized and directed to require that, in connection with any property upon which there is located a dwelling designed principally for not more than a four-family residence and which is approved for mortgage insurance prior to the beginning of construction, the seller or builder, and such other person as may be required by the said [Commissioner] *Secretary* to become warrantor, shall deliver to the purchaser or owner of such property a warranty that the dwelling is constructed in substantial conformity with the plans and specifications (including any amendments thereof, or changes and variations therein, which have been approved in writing by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development*) on which the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* based his valuation of the dwelling: *Provided*, That the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* shall deliver to the builder, seller, or other warrantor his written approval (which shall be conclusive evidence of such approval) of any amend-

ment of, or change or variation in, such plans and specifications which the **[Commissioner]** *Secretary* deems to be a substantial amendment thereof, or change or variation therein, and shall file a copy of such written approval with such plans and specifications: *Provided further*, That such warranty shall apply only with respect to such instances of substantial nonconformity to such approved plans and specifications (including any amendment thereof, or changes or variations therein, which have been approved in writing, as provided herein, by the **[Federal Housing Commissioner]** *Secretary of Housing and Urban Development*) as to which the purchaser or homeowner has given written notice to the warrantor within one year from the date of conveyance of title to, or initial occupancy of, the dwelling, whichever first occurs: *Provided further*, That such warranty shall be in addition to, and not in derogation of, all other rights and privileges which such purchaser or owner may have under any other law or instrument: *And provided further*, That the provisions of this section shall apply to any such property covered by a mortgage insured by the **[Federal Housing Commissioner]** *Secretary of Housing and Urban Development* on and after October 1, 1954, unless such mortgage is insured pursuant to a commitment therefor made prior to October 1, 1954.

(b) The **[Federal Housing Commissioner]** *Secretary of Housing and Urban Development* is further directed to permit copies of the plans and specifications (including written approvals of any amendments thereof, or changes or variations therein, as provided herein) for dwellings in connection with which warranties are required by subsection (a) of this section to be made available in their appropriate local offices for inspection or for copying by any purchaser, homeowner, or warrantor during such hours or periods of time as the said **[Commissioner]** *Secretary* may determine to be reasonable.

SEC. 802. (a) The **[Housing and Home Finance Administrator]** *Secretary of Housing and Urban Development* shall, as soon as practicable during each calendar year, make a report to the President for submission to the Congress on all operations and programs (including but not limited to the **[FHA]** insurance, urban renewal, public housing, and rent supplement programs) under the jurisdiction of the **[Housing and Home Finance Agency]** *Department of Housing and Urban Development* during the previous calendar year. Such report shall contain recommendations for strengthening or improving such programs, or, when necessary to implement more effectively Congressional policies and purposes, for establishing new or alternative programs.

* * *

SEC. 811. The **[Housing and Home Finance Agency]**, including its constituent agencies *Department of Housing and Urban Development*, and any other departments or agencies of the Federal Government having powers, functions, or duties with respect to housing under this or any other law shall exercise such powers, functions, or duties in such manner as, consistent with the requirements thereof, will facilitate progress in the reduction of the vulnerability of congested urban areas to enemy attack.

* * *

RECORDS

SEC. 814. Every contract between the [Housing and Home Finance Agency (or any official or constituent thereof)] *Department of Housing and Urban Development* and any person or local body (including any corporation or public or private agency or body) for a loan, advance, grant, or contribution under the United States Housing Act of 1937, as amended, the Housing Act of 1949, as amended, or any other Act shall provide that such person or local body shall keep such records as the [Housing and Home Finance Agency (or such official or constituent thereof)] *Department of Housing and Urban Development* shall from time to time prescribe, including records which permit a speedy and effective audit and will fully disclose the amount and the disposition by such person or local body of the proceeds of the loan, advance, grant, or contribution, or any supplement thereto, the capital cost of any construction project for which any such loan, advance, grant, or contribution is made, and the amount of any private or other non-Federal funds used or grants-in-aid made for or in connection with any such project. No mortgage covering new or rehabilitated multifamily housing (as defined in section 227 of the National Housing Act, as amended) shall be insured unless the mortgagor certifies that he will keep such records as are prescribed by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* at the time of the certification and that they will be kept in such form as to permit a speedy and effective audit. The [Housing and Home Finance Agency or any official or constituent agency thereof] *Department of Housing and Urban Development* and the Comptroller General of the United States shall have access to and the right to examine and audit such records. This section shall become effective on the first day after the first full calendar month following the date of approval of the Housing Act of 1961.

* * *

AUDITS UNDER PUBLIC HOUSING ACT OF 1937; COMPTROLLER GENERAL

SEC. 816. Every contract for loans or annual contributions under the United States Housing Act of 1937 as amended shall provide that the [Public Housing Commissioner] *Secretary of Housing and Urban Development* and the Comptroller General of the United States, or any of their duly authorized representatives, shall, for the purpose of audit and examination, have access to any books, documents, papers, and records of the public housing agency entering into such contract that are pertinent to its operations with respect to financial assistance under the United States Housing Act of 1937, as amended.

REPORT TO CONGRESS OF INFORMATION ON HOUSING

SEC. 817. The annual report made by the [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* to the President for submission to the Congress on all operations provided for by section 802 hereof shall contain pertinent information with respect to all projects for which any loan, contribu-

tion, or grant has been made by the [Housing and Home Finance Agency] *Department of Housing and Urban Development*, including the amount of loans, contributions and grants contracted for, and shall also contain pertinent information with respect to all builders' cost certifications required by section 227 of the National Housing Act, as amended, including information as to the amounts paid by mortgagors to mortgagees for application to the reduction of the principal obligations of the mortgages pursuant to that section.

[SEC. 113. Effective upon the date of enactment of this Act the basic rate of compensation of the Community Facilities Commissioner of the Housing and Home Finance Agency shall be the same as the basic rate of compensation established for the heads of the constituent agencies of the Housing and Home Finance Agency.]

TITLE II—PUBLIC FACILITY LOANS

DECLARATION OF POLICY

SEC. 201. It has been the policy of the Congress to assist wherever possible the States and their political subdivisions, and Indian tribes to provide the services and facilities essential to the health and welfare of the people of the United States.

The Congress finds that in many instances municipalities, or other political subdivisions of States, and ¹ Indian tribes, which seek to provide essential public works or facilities (including mass transportation facilities and equipment), are unable to raise the necessary funds at reasonable interest rates.

It is the purpose of this title (subject to the limitations contained herein) to authorize the extension of credit to assist in the provision of certain essential public works or facilities by States, municipalities, or other political subdivisions of States, and ¹ Indian tribes, where such credit is not otherwise available on reasonable terms and conditions.

FEDERAL LOANS

SEC. 202. (a) The [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development*, is authorized (1) to purchase the securities and obligations of, or make loans to, municipalities and other political subdivisions and instrumentalities of one or more States (including public agencies and instrumentalities of one or more municipalities or other political subdivision of one or more States), and Indian tribes to finance specific projects for public works or facilities under State, municipal, or other applicable law, and (2) to purchase the securities and obligations of, or make loans to, States, municipalities and other political subdivisions of States, public agencies and instrumentalities of one or more States, municipalities and political subdivisions of States, and public corporations, boards, and commissions established under the laws of any State, to finance the acquisition, construction, reconstruction, and improvement of facilities and equipment for use, by operation or lease or otherwise, in mass transportation service in urban areas, and for use in coordinating highway, bus, surface-rail, underground, parking and other transportation facilities in such areas. The facilities and equipment referred to in clause (2) may include land, but not public highways, and any other real or personal property needed for an economic, efficient, and coordinated mass transportation system. No such purchase or loan shall be made for payment of ordinary governmental or nonproject operating expenses.

(b) (1) *In order to encourage and assist in the timely acquisition of open or predominantly undeveloped land to be utilized in connection with the development of well-planned residential neighborhoods, subdivisions, and communities, the Secretary is authorized to purchase the securities and obligations of, or make loans to, land development agencies to finance the acquisition of a fee simple or other interest in such land for subsequent sale in accordance with this subsection. A loan under this subsection may be in an amount which shall not exceed the total cost, as approved by the Secretary, of acquiring such interest; shall be reasonably secured; shall be repaid in such manner and within such period, not exceeding fifteen years, as may be determined by the Secretary; and shall bear interest at the rate prescribed for financial assistance extended under subsection (a) of this section. As used in this subsection, "land development agencies" means public corporations, including municipalities, authorized to carry out, and created or designated by or pursuant to State law for the purpose of carrying out, the functions for which financial assistance is available under this subsection.*

(2) *The Secretary shall not extend any financial assistance for the acquisition of land under this subsection unless he determines that (A) the financial assistance applied for is not otherwise available on reasonable terms, (B) the development of a well-planned residential neighborhood, subdivision, or community on such land would be consistent with a comprehensive plan or comprehensive planning, meeting criteria established by the Secretary, for the area in which the land is located, and (C) a preliminary development plan for the use of the land meets criteria established by the Secretary for such preliminary plans.*

(3) *Land acquired with financial assistance under this subsection shall be disposed of for development in accordance with a current development plan for the land which has been approved by the Secretary as consistent with provisions of the loan agreement, and shall not be sold or otherwise disposed of for less than its fair value for uses in accord with such development plan. Such plan shall, wherever feasible in the light of current conditions, encourage the provision of sites providing a proper balance of types of housing to serve families having a broad range of incomes. The Secretary shall adopt such requirements as he deems necessary to encourage the maintenance of a diversified local homebuilding industry and broad participation by builders, particularly small builders.*

[(b)] (c) The powers granted in subsection (a) of this section shall be subject to the following restrictions and limitations:

(1) No financial assistance shall be extended under this section unless the financial assistance applied for is not otherwise available on reasonable terms, and all securities and obligations purchased and all loans made under this section shall be of such sound value or so secured as reasonably to assure retirement or repayment, and such loans may be made either directly or in cooperation with banks or other lending institutions through agreements to participate or by the purchase of participations or otherwise.

(2) No securities or obligations shall be purchased, and no loans shall be made, including renewals or extensions thereof, which have maturity dates in excess of forty years. Subject to such maximum maturity, the **[Administrator]** *Secretary* in his discretion may provide for the postponement of the payment of interest on not more than 50 per centum of any financial assistance extended to an applicant under this section for a period up to ten years where (A) such assistance does not exceed 50 per centum of the development cost of the project involved, and (B) it is determined by the **[Administrator]** *Secretary* that such applicant will experience above-average population growth and the project would contribute to orderly community development, economy, and efficiency; and any amounts so postponed shall be payable with interest in annual installments during the remaining maturity of such assistance.

(3) Financial assistance extended under this section shall bear interest at a rate determined by the **[Administrator]** *Secretary* which shall be not more than the higher of (A) 3 per centum per annum, or (B) the total of one-half of 1 per centum per annum added to the rate of interest paid by the **[Administrator]** *Secretary* on funds obtained from the Secretary of the Treasury as provided in section 203(a).

(4) No financial assistance shall be extended under clause (1) of subsection (a) of this section (A) to any municipality or other political subdivision having a population of fifty thousand or more (one hundred fifty thousand or more in the case of a community situated in an area designated as a redevelopment area under the Area Redevelopment Act or any Act supplementary thereto) according to the most recent decennial census, or; (B) to any public agency or instrumentality serving one or more municipalities, political subdivisions, or unincorporated areas in one or more States, unless each mu-

municipality, political subdivision, or unincorporated area to be served by the specific public work or facility for which assistance is sought under this section has a population less than the applicable figure under clause (A) according to such census. This paragraph shall not apply to any financial assistance to be extended under subsection (a) of this section for the purpose of financing any project for public works or facilities (i) in a community in or near which is located a research or development installation of the National Aeronautics and Space Administration, or (ii) to be initiated or accelerated as the result of a grant-in-aid from an allocation made by the President under section 9 of the Public Works Acceleration Act, or (iii) to be provided in connection with the establishment of a new community approved under section 1004 of the National Housing Act.

[(c)] (d) In the processing of applications for financial assistance under clause (1) of subsection (a) of this section the [Administrator] Secretary shall give priority to applications of smaller municipalities for assistance in the construction of basic public works (including works for the storage, treatment, purification, or distribution of water; sewage, sewage treatment, and sewer facilities; and gas distribution systems) for which there is an urgent and vital public need. As used in this section, a "smaller municipality" means an incorporated or unincorporated town, or other political subdivision of a State, which had a population of less than ten thousand inhabitants at the time of the last Federal census, or an Indian tribe. Notwithstanding any other provision of this title, the [Administrator] Secretary may extend financial assistance, as otherwise authorized by clause (1) of subsection (a) of this section, to any private nonprofit corporation to finance the construction of works for the storage, treatment, purification, or distribution of water or the construction of sewage, sewage treatment, and sewer facilities, if such works or facilities are needed to serve a smaller municipality or rural area, and there is no existing public body able to construct and operate such works or facilities.

[d] (e) No loans may be made for transportation facilities or equipment, pursuant to clause (2) of subsection (a) of this section, unless the [Administrator] Secretary determines (1) that there is being actively developed (or has been developed) for the urban or other metropolitan area served by the applicant a program, meeting criteria established by him, for the development of a comprehensive and coordinated mass transportation system; (2) that the proposed facilities or equipment can reasonably be expected to be required for such a system; and (3) if such program has not been completed, that there is an urgent need for the provision of the facilities or equipment to be commenced prior to the time that the program could reasonably be expected to be completed: *Provided*, That no such loan shall be made, except under a prior commitment, after June 30, 1963.

[e] (f) The [Administrator] Secretary is authorized to make a grant-in-aid from any allocation made for such purpose by the President under section 9 of the Public Works Acceleration Act to any public entity described in clause (1) of subsection (a) of this section of not to exceed 50 per centum of the cost of construction of any project for public works or facilities, if such project would be eligible (without regard to the restrictions and limitations of subsections (b) and

(c) of this section) for financial assistance under clause (1) of subsection (a) of this section in accordance with the rules and regulations of the [Administrator] *Secretary* (as in effect on the date of enactment of this subsection) relating to the types of public works and facilities to which such assistance may be extended.

FINANCING

SEC. 203 (a) In order to finance activities under this title, the [Administrator] *Secretary* is authorized and empowered to issue to the Secretary of the Treasury, from time to time and to have outstanding at any one time, notes and other obligations in an amount not to exceed \$650,000,000: *Provided*, That, of the funds obtained through the issuance of such notes and other obligations, \$600,000,000 shall be available only for purchases and loans pursuant to clause (1) of [section 202(a)] *Section 202(a) and pursuant to section 202(b)* of this title and \$50,000,000 shall be available only for purchases and loans pursuant to clause (2) [of such section] *of section 202(a)*. Such obligations shall be in such forms and denominations, have such maturities and be subject to such terms and conditions as may be prescribed by the [Administrator] *Secretary*, with the approval of the Secretary of the Treasury. Such notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury which shall be not more than the higher of (1) $2\frac{1}{2}$ per centum, per annum, or (2) the average annual interest rate on all interest-bearing obligations of the United States then forming a part of the public debt as computed at the end of the fiscal year next preceeding the issuance by the [Administrator] *Secretary* and adjusted to the nearest one-eighth of 1 per centum..

The Secretary of the Treasury is authorized and directed to purchase any notes and other obligations of the [Administrator] *Secretary* to be issued hereunder and for such purpose the Secretary of the Treasury is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as amended, and the purposes for which securities may be issued under such Act, as amended, are extended to include any purchases of such notes and obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired by him under this section. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as public debt transactions of the United States.

(b) Funds borrowed under this section and any proceeds shall constitute a revolving fund which may be used by the [Administrator] *Secretary* in the exercise of his functions under this title.

GENERAL PROVISIONS

SEC. 204. In the performance of, and with respect to, the functions, powers, and duties vested in him by this title the [Administrator] *Secretary* shall (in addition to any authority otherwise vested in him) have the functions, powers, and duties set forth in section 402, except subsection (c) (2), of the Housing Act of 1950. Funds obtained or held by the [Administrator] *Secretary* in connection with the performance of his functions under this title shall be available for the

administrative expenses of the [Administrator] *Secretary* in connection with the performance of such functions.

* * *

SEC. 206. As used in this title, the term "States" means the several States, the District of Columbia, the Commonwealth of Puerto Rico, and the Territories and possessions of the United States.

SEC. 207. The [Administrator] *Secretary* is authorized to establish technical advisory services to assist municipalities and other political subdivisions and instrumentalities, and Indian tribes, in the budgeting, financing, planning, and construction of community facilities. There are hereby authorized to be appropriated such sums as may be necessary, together with any fees that may be charged, to cover the cost of such services.

* * *

TITLE IV—ARMED SERVICES HOUSING MORTGAGE INSURANCE

* * *

SEC. 403. (a) The Secretary of Defense or his designee is hereby authorized to enter into contracts with any eligible bidder to provide for the construction of urgently needed housing on lands owned or leased by the United States and situated on or near a military reservation or installation for the purpose of providing suitable living accommodations for military personnel of the armed services assigned to duty at the military installation at or in the area where the housing is situated. Any such contract shall provide that each housing unit in the project shall be placed under the control of the Secretary of Defense, or his designee, as soon as the unit is available for occupancy as determined by the [Commissioner] *Secretary of Housing and Urban Development*. Any such contract shall also provide that, except for stock held by the [Commissioner] *Secretary of Housing and Urban Development*, the capital stock of the mortgagor (where the mortgagor is a corporation) be transferred to the Secretary of Defense, or his designee, when the housing has been completed as determined by the [Commissioner] *Secretary of Housing and Urban Development*. Any such contract shall contain such terms and conditions as the Secretary of Defense may determine to be necessary to protect the interests of the United States. Any such contract shall provide for the furnishing by the contractor of a performance bond and a payment bond with a surety or sureties satisfactory to the Secretary of Defense, or his designee, and the furnishing of such bonds shall be deemed a sufficient compliance with the provisions of section 1 of the Act of August 24, 1935 (49 Stat. 793), and no additional bonds shall be required under such section. Before the Secretary of Defense shall enter into any contract as authorized by this section for the construction of housing, he shall invite the submission of competitive bids after advertising in the manner prescribed in section 3 of the Armed Services Procurement Act of 1947.

(b) For the purposes of this title, the term "eligible bidder" means a person, partnership, firm, or corporation determined by the Secretary

of Defense after consultation with the [Commissioner] *Secretary of Housing and Urban Development* (1) to be qualified by experience and financial responsibility to construct housing of the type described in subsection (a) of this section, and (2) to have submitted the lowest acceptable bid.

(c) Notwithstanding any other provision of law, the Secretary of Defense or his designee is authorized to acquire the capital stock of mortgagors holding property covered by a mortgage insured under title VIII of the National Housing Act, as amended by the Housing Amendments of 1955, and to exercise the rights as holders of such capital stock during the life of such mortgage and, upon the termination of the mortgage, to dissolve the corporation; to guarantee the payment of notes or other legal instruments required by the [Commissioner] *Secretary of Housing and Urban Development* of such mortgagors; to make payments thereon; and to guarantee and indemnify the Armed Services Housing Mortgage Insurance Fund against loss in cases where so required. All housing facilities placed under the control of the Secretary of Defense pursuant to the provisions of this title shall be deemed to be housing facilities under the jurisdiction of the military department to which they are assigned.

(d) On request by the Secretary of Defense, the Attorney General shall furnish to the Secretary of Defense, or his designee, an opinion as to the sufficiency of title to any property on which it is proposed to construct housing, or on which housing has been constructed, under this section. If the opinion of the Attorney General is that the title to any such property is good and sufficient, the Secretary of Defense is authorized to guarantee, or enter into a commitment to guarantee, the mortgage, under a mortgage on such property which is insured under title VIII of the National Housing Act, against any losses that may thereafter arise from adverse claims to title. None of the proceeds of any mortgage loan hereafter insured under such title VIII shall be used for title search and title insurance costs: *Provided*, That if the Secretary of Defense, or his designee, determines in the case of any housing project, that the financing of the construction of such project is impossible unless title insurance is provided, the Secretary may provide for the payment of the reasonable costs necessary for obtaining title search and title insurance. Any payments by the Secretary of Defense hereunder shall be made from the revolving fund established under section 404(g). Any determination by the Secretary of Defense under the foregoing proviso shall be set forth in writing, together with the reasons therefor. The Committees on Armed Services of the Senate and House of Representatives shall be promptly notified of each such determination, and of the amount of any payment made by the Secretary of Defense for title search and title insurance costs.

SEC. 404. (a) Whenever the Secretary of Defense or his designee deems it necessary for the purpose of this title, he may acquire, by purchase, donation, condemnation, or other means of transfer, any land or (with the approval of the [Federal Housing Commissioner] *Secretary of Housing and Urban Development*) (1) any housing financed with mortgages insured under title VIII of the National Housing Act as in effect prior to August 11, 1955, or (2) any housing situ-

ated adjacent to a military installation which was (A) completed prior to July 1, 1952, (B) certified by the Department of Defense, prior to construction, as being necessary to meet an existing military family housing need and considered as military housing by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development*, and (C) financed with mortgages insured under section 207 of the National Housing Act, or (3) any housing situated on or adjacent to a military installation which was (A) completed prior to July 1, 1952, (B) considered by the Department of Defense, prior to construction, as being necessary to meet an existing military family housing need and considered as military housing by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development*, and (C) financed with mortgages insured under section 608 of the National Housing Act, including adjacent property constructed primarily to provide commercial facilities for the occupants of such housing. The purchase price of any such housing shall not exceed the [Federal Housing Commissioner's] *Secretary of Housing and Urban Development's* estimate of the replacement cost of such housing and related property (not including the value of any improvements installed or constructed with appropriated funds) as of the date of final endorsement for mortgage insurance reduced by an appropriate allowance representing the estimated cost of repairs and replacements necessary to restore the property to sound physical condition, as determined by the Secretary of Defense or his designee upon the advice of the [Commissioner] *Secretary of Housing and Urban Development*: *Provided*, That in any case where the Secretary of Defense or his designee acquires a project held by the [Commissioner] *Secretary of Housing and Urban Development*, the price paid shall not exceed the face value of the debentures (plus accrued interest thereon) which the [Commissioner] *Secretary of Housing and Urban Development* issued in acquiring such project.

(b) Notwithstanding any provision of subsection (a) to the contrary, the Secretary of Defense or his designee shall, in the manner provided in subsection (a), acquire by purchase, donation, or other means of transfer or, if the parties cannot agree upon terms for acquisition by such means, by condemnation, any housing described in clause (1) or (2) of subsection (a) of this section which is located at or near a military installation where the construction of housing under the Armed Services Housing Mortgage Insurance Program has been approved by the Secretary.

(c)(1) Condemnation proceedings instituted pursuant to this section shall be conducted in accordance with the provision of the Act of August 1, 1888 (25 Stat. 357; 40 U.S.C. 257), as amended, or any other applicable Federal statute. Before any such condemnation proceedings are instituted, an effort shall be made to acquire the property involved by negotiation. In any such condemnation proceedings, and in the interests of expedition, the issue of just compensation may be determined by a commission of three qualified, disinterested persons to be appointed by the court. Any commission appointed hereunder shall give full consideration to all elements of value in accordance with existing law, and shall have the powers of a master provided in subdivision (c) of rule 53 of the Federal Rules of Civil Procedure and proceedings before it shall be governed by the provisions of para-

graphs (1) and (2) of subdivision (d) of such rule. Its action and report shall be determined by a majority and its findings and report shall have the effect, and be dealt with by the court in accordance with the practice prescribed in paragraph (2) of subdivision (e) of such rule. Trial of all issues, other than just compensation, shall be by the court.

(2) In any condemnation proceedings instituted to acquire any such housing, or interest therein, the court shall not order the party in possession to surrender possession in advance of final judgment unless a declaration of taking has been filed, and a deposit of the amount estimated to be just compensation has been made, under the first section of the Act of February 26, 1931 (46 Stat. 1421). The amount of such deposit for the purpose of this section shall not in any case be less than an amount equal to the actual cost of the housing (not including the value of any improvements installed or constructed with appropriated funds) as certified by the sponsor or owner of the project to the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* pursuant to any statute or any regulation issued by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development*, reduced by the amount of the principal obligation of the mortgage outstanding at the time possession is surrendered, but any such deposit shall not include any excess mortgage proceeds or "windfalls," kickbacks and rebates received in connection with the construction of said housing as determined by the Department of Defense, or any other Federal agency. The amount of such deposit in any case where the sponsor or owner has not certified the cost of the project to the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* at the time of the enactment of the Military Construction Act of 1959 shall be determined by the Secretary of Defense, or his designee, in accordance with the Act of February 26, 1931 (46 Stat. 1421), with a view toward accurately estimating the equity of the sponsor or owner: *Provided*, That in the event there is withdrawn from the registry of the court by the owner or sponsor a sum of money in excess of the final award of just compensation, this excess shall be repaid to the United States plus a sum equal to 4 per centum per annum on such excess from the time such sum is deposited in the registry of the court: *Provided further*, That any court in which money is deposited as provided in this section shall require the furnishing of security by the owner to protect the United States from any loss by reason of a final award of just compensation of less than the amount deposited: *And provided further*, That the deposit required to be made by this section shall be without prejudice to any party in the determination of just compensation. Unless title is in dispute, the court, upon application and subject to the foregoing provisions of this subsection, shall promptly pay to the owner at least 75 per centum of the amount so deposited, but such payment shall be made without prejudice to any party to the proceeding. In the event that condemnation proceedings are instituted in accordance with procedures under such Act of February 26, 1931, the court shall order that the amount deposited shall be paid in a lump sum or over a period not exceeding five years in accordance with stipulations executed by the parties in the proceedings. In connection with condemnation proceedings which do not utilize the procedures under such

Act, the Secretary of Defense or his designee, after final judgment of the court may pay or agree to pay in a lump sum or, in accordance with stipulations executed by the parties to the proceedings, over a period not exceeding five years the difference between the outstanding principal obligation, plus accrued interest, and the price for the property fixed by the court. Unless such payment is made in a lump sum, the unpaid balance thereof shall bear interest at the rate of 4 per centum per annum.

(d) Property acquired under this section may be occupied, used, and improved for the purposes of this section prior to the approval of title by the Attorney General as required by section 355 of the Revised Statutes, as amended.

(e) The Secretary of Defense or his designee may, in the case of any housing acquired or to be acquired under this section, make arrangements with the mortgagee whereby such mortgagee will agree to release and waive all requirements of accruals for reserves for replacement, taxes, and hazard insurance provided for under the corporate charter and indenture agreement with respect to such housing, upon the execution of a written agreement by the Secretary or his designee that the purposes for which such reserves and other funds were accrued will be carried out.

(f) Repealed.

(g) Repealed.

(h) Repealed.

SEC. 405. The Secretary of Defense or his designee is authorized to maintain and operate any housing acquired under this title and assign quarters therein to military and civilian personnel and their dependents. Appropriations for quarters allowances or appropriate allotments, and rental charges to civilian personnel, may be utilized by the military department concerned for the payment of principal, interest, and other obligations, except those of maintenance and operation, of the mortgagor corporation with respect to such housing projects. Such payments shall not exceed an average of \$90 a month per housing unit and total payments for all housing so acquired shall not exceed \$21,000,000 per month: *Provided*, That, in case of the United States Coast Guard, total payments for all housing so acquired shall not exceed \$90,000 per month.

SEC. 406. Whenever the Secretary of Defense or his designee determines that it is desirable in order to effectuate the purposes of this title, the Secretary is authorized, without regard to the civil service and classification laws, to procure, by negotiation or otherwise, the services of architects and engineers, or organizations thereof, under such arrangements as he deems desirable, but at an expense not in excess of that permissible under the schedule of fees allowed from time to time by the [Public Housing Administration] *Secretary of Housing and Urban Development* in connection with projects assisted under the United States Housing Act of 1937, as amended. Such services may include the development of plans, drawings, and specifications for family housing under this title and other services in connection therewith: *Provided*, That such plans, drawings, and specifications may include the use on any project to be constructed under this title of alternate materials or alternate types of construction, including prefabrication,

that provide substantially equal value and conform to standards established by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development*: *Provided further*, That such plans, drawings, and specifications, when developed pursuant to arrangements made under this section after the date of the enactment of the Housing Act of 1956 shall follow the principle of modular measure, in order that the housing may be built by conventional construction, on-site fabrication, factory precutting, factory fabrication, or any combination of these construction methods: *Provided further*, That the *Secretary of Defense* may designate certain sites or parts thereof for family housing to be furnished from prefabricated houses or housing components. Such arrangements may include provision for advance or progress payments, for payment by third parties, for payment by the Government of any such compensation as it not paid for by third parties, and shall include provision for reimbursement by third parties to the Government of any compensation or other expenses paid by the Government pursuant to this section, and may include other provisions for compensation. Any public works appropriations now or hereafter available to the Departments of the Army, Navy, or Air Force or the Coast Guard may be obligated by the respective departments or the Coast Guard for these purposes. Reimbursements to the Government on account of payments made pursuant to this section shall be made to appropriations against which such payments were charged. The *Secretary of Defense* is further authorized to advance or pay to the [Federal Housing Administration] *Secretary of Housing and Urban Development* its "Appraisal and Eligibility Statement" fees in connection with such family housing. The *Secretary of Defense* is further authorized to enter into arrangements by contract or otherwise for eventual acquisition by the Government, without cost to the Government of all right, title, and interest in sites on which housing is constructed pursuant to this title and improvements thereon.

SEC. 407. (a) There are hereby authorized to be appropriated such sums as may be necessary to carry out the provisions of sections 403 through 406 of this Act.

(b) Any funds heretofore or hereafter authorized to be expended by any of the military departments or the Coast Guard for the payment of allowances for quarters for military personnel may be used for the purposes specified in subsection (a) above.

SEC. 408. Notwithstanding the provisions of section 401 of this Act, the provisions of title VIII of the National Housing Act in effect prior to the enactment of the Housing Amendments of 1955 shall continue in full force and effect with respect to all mortgages insured pursuant to a certification by the *Secretary of Defense* or his designee made on or before June 30, 1955, and a commitment to insure issued on or before June 30, 1956 or pursuant to a certification by the Atomic Energy Commission or its designee made on or before June 30, 1956, except that the maximum dollar amount for each such mortgage shall be \$12,500,000. Nothing contained in the provisions of title VIII of the National Housing Act in effect prior to August 11, 1955, or any related provision of law, shall be construed to exempt from State or local taxes or assessments the interest of a lessee from the Federal Government in or with respect to any property covered by a mortgage insured under such provisions of title VIII: *Provided*, That, no such taxes or assessments (not paid or encumbering such property or in-

terest prior to June 15, 1956) on the interest of such lessee shall exceed the amount of taxes or assessments on other similar property of similar value, less such amount as the Secretary of Defense or his designee determines to be equal to (1) any payments made by the Federal Government to the local taxing or other public agencies involved with respect to such property, plus (2) such amount as may be appropriate for any expenditures made by the Federal Government or the lessee for the provision or maintenance of streets, sidewalks, curbs, gutters, sewers, lighting, snow removal or any other services or facilities which are customarily provided by the State, county, city, or other local taxing authority with respect to such other similar property: *And provided further*, That the provisions of this section shall not apply to properties leased pursuant to the provisions of section 805 of the National Housing Act as amended on or after August 11, 1955, which properties shall be exempt from State or local taxes or assessments.

SEC. 409. (a) Wherever the terms "Secretary of Defense" [or "Secretary"] or "Secretary of the Army, Navy, or Air Force" appear in this title or in title VIII of the National Housing Act, as amended by the Housing Amendments of 1955, they shall be deemed to mean the Secretary of the Treasury in the case of the application of the provisions of this title or of title VIII of the National Housing Act, as amended by the Housing Amendments of 1955, for the benefit of the United States Coast Guard.

(b) Wherever the term "armed services" appears in this title it shall be deemed to include the United States Coast Guard.

SEC. 410. In the construction of housing under the authority of this title and title VIII of the National Housing Act, as amended, the maximum limitations on net floor area for each unit shall be the same as the net floor area limitations prescribed by law (at the time plans and specifications for such construction are begun) for public quarters built with appropriated funds under military construction authority.

HOUSING OF THE ELDERLY

SEC. 104. * * *

(d) The Housing and [Home Finance Administrator] *Secretary of Housing and Urban Development* shall establish, in accordance with the provisions of section 601 of the Housing Act of 1949, as amended, an advisory committee on matters relating to housing for elderly persons.

* * * * *

RESEARCH

SEC. 602. (a) The [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* is authorized and directed to undertake such programs of investigation, analysis, and research as he determines to be necessary and appropriate in the exercise

of his responsibilities, including the formulation and carrying out of national housing policies and programs. Without limiting such authority, such programs shall develop and supply data and information on—

(1) the housing inventory of the Nation and the production, use, and demolition and conversion of residential structures, and such other factors as affect the total supply of housing; ¹

(2) mortgage market problems;

(v) the extent to which adequate housing is available to the low-income and middle-income families of the Nation through public and private means;

(4) housing for elderly persons;

(5) residential design, assembly methods, and materials use in relation to cost, utility, and comfort; and

(6) characteristics of current and prospective housing market demand.

(b) (1) In order to permit the **Administrator** *Secretary* to carry out the functions vested in him by subsection (a) of this section, he is hereby authorized to enter into contracts with agencies of State and local governments and educational institutions and other nonprofit organizations and into working agreements with departments and independent establishments and agencies of the Federal Government in accordance with paragraph (3) of this subsection: *Provided*, That the total amount of such contracts and working agreements shall not exceed \$500,000 during the fiscal year 1957, which amount shall be increased by further amounts of \$1,000,000 on July 1, 1957, and July 1, 1958, respectively.

(2) There are hereby authorized to be appropriated out of any money in the Treasury not otherwise appropriated such sums as may be necessary to carry out the purposes of this section including administrative expenses which are hereby authorized, and amounts necessary to make payments pursuant to contracts or working agreements authorized under subsection (b) (1) of this section.

(3) The provisions of the third and fourth sentences of subsection (a) of section 301 of the Housing Act of 1948 and of subsection (c) of section 502 of such Act shall apply to contracts and appropriations pursuant to this section.

(c) The **Administrator** *Secretary* may disseminate (without regard to the provisions of section 306 of the Penalty Mail Act of 1948 (39 U.S.C. 321n)) any data or information acquired or held under this section, including related data and information otherwise available to the **Administrator** *Secretary* through the operation of the programs and activities of the **Housing and Home Finance Agency** *Department of Housing and Urban Development*, in such form as he shall determine to be most useful to departments, establishments, and agencies of the Federal Government or State or local governments, to industry and to the general public.

(d) In carrying out the provisions of this section, the **Administrator** *Secretary* is hereby authorized to request and receive such information or data as he deems appropriate from private individuals, organizations, and other public agencies. Any such information or data shall be used only for the purposes for which it is supplied, and

no publication shall be made by the **[Administrator]** *Secretary* whereby the information or data furnished by any particular person or establishment can be identified, except with the consent of such person or establishment.

(e) Nothing contained in this section shall limit any authority of the **[Administrator]** *Secretary* under title III of the Housing Act of 1948, as amended, or any other provision of law.

HOUSING ACT OF 1957

[Public Law 85-104]

* * * * *

SEC. 104. **[The Federal Housing Commissioner]** *Secretary of Housing and Urban Development*, in establishing maximum loan-to-value ratios for mortgages insured by him under the National Housing Act, as amended by sections 101, 102, and 103 of this Act, shall determine that such ratios are in the public interest after taking into consideration (1) the effect of such ratios on the national economy and on conditions in the building industry, and (2) the availability or unavailability of residential mortgage credit assisted under the Servicemen's Readjustment Act of 1944, as amended.

* * * * *

EXCHANGE OF DATA

SEC. 604. The **[Housing and Home Finance Administrator]** *Secretary of Housing and Urban Development* shall exchange data relating to housing and urban planning and development with other nations where such exchange is deemed by him to be beneficial to the programs of the **[Housing and Home Finance Agency]** *Department of Housing and Urban Development*.

DISCOUNT CONTROL

SEC. 605. The **[Federal Housing Commissioner]** *Secretary of Housing and Urban Development* shall fix reasonable limits on the charges, fees, and discounts imposed upon the builder, seller, or purchaser in connection with the financing of the construction or sale of any housing covered by a mortgage insured under the National Housing Act, whether or not such charges, fees, and discounts are imposed in connection with the financing under such mortgage. The Administrator of Veterans' Affairs shall fix reasonable limits on the charges, fees, and discounts imposed upon the builder, seller, or purchaser in connection with the financing of the construction or sale of any housing which is built or purchased with a home loan insured or guaranteed under the Servicemen's Readjustment Act of 1944, whether or not such charges, fees, and discounts are imposed in connection with such home loan. Such limits may vary in accordance with the terms of the mortgage involved, the geographical area in which the housing is located, and such other pertinent factors as the **[Commissioner]** *Secretary* or the Administrator deems advisable.

As a condition of eligibility for such guaranty or insurance, the lender shall certify that no charge, fee, or discount has been imposed by it in excess of the limits fixed pursuant to this section.

LOAN PROGRAM

SEC. 202. (a) (1) The purpose of this section is to assist private non-profit corporations, consumer cooperatives, or public bodies or agencies to provide housing and related facilities for elderly or handicapped families.

(2) In order to carry out the purpose of this section, the [Administrator] *Secretary* may make loans to any corporation (as defined in subsection (d) (2)), to any consumer cooperative, or to any public body or agency for the provisions of rental or cooperative housing and related facilities for elderly or handicapped families, except that (A) no such loan shall be made unless the applicant shows that it is unable to secure the necessary funds from other sources upon terms and conditions equally as favorable as the terms and conditions applicable to loans under this section, (B) no such loan shall be made unless the [Administrator] *Secretary* finds that the construction will be undertaken in an economical manner and that it will not be of elaborate or extravagant design or materials, and (C) no such loan shall be made to a public body or agency unless it certifies that it is not receiving financial assistance from the United States exclusively pursuant to the United States Housing Act of 1937.

(3) A loan under this section may be in an amount not exceeding the total development cost (as defined in subsection (d) (3)), as determined by the [Administrator] *Secretary*; shall be secured in such manner and be repaid within such period, not exceeding fifty years, as may be determined by him; and shall bear interest at a rate determined by him which shall be not more than the lower of (A) 3 per centum per annum, or (B) the total of one-quarter of 1 per centum added to the average annual interest rate on all interest-bearing obligations of the United States then forming a part of the public debt as computed at the end of the fiscal year next preceding the date on which the loan is made and adjusted to the nearest one-eighth of 1 per centum.

(4) There is authorized to be appropriated not to exceed \$500,000,-000 which shall constitute a revolving fund to be used by the [Administrator] *Secretary* in carrying out this section.

(b) In the performance of, and with respect to, the functions, powers, and duties vested in him by this section by the [Administrator] *Secretary* shall (in addition to any authority otherwise vested in

him) have the functions, powers, and duties set forth in section 402 (except subsection (c) (2)) of the Housing Act of 1950.

(c)(1) Housing constructed with a loan made under this section shall not be used for transient or hotel purposes while such loan is outstanding.

(2) As used in paragraph (1), the term "transient or hotel purposes" shall have such meaning as may be prescribed by the [Administrator] *Secretary*, but rental for any period less than thirty days shall in any event constitute use for such purposes. The provisions of subsections (f) through (j) of section 513 of the National Housing Act (as added by section 132 of the Housing Act of 1954) shall apply in the case of violations of paragraph (1) as though the housing described in such subsection were multifamily housing (as defined in section 513(e)(2) of the National Housing Act) with respect to which a mortgage is insured under such Act, except that for purposes of this subsection the Administrator shall perform the functions vested in the Commissioner by such section 513].

(3) The [Administrator] *Secretary* shall take such action as may be necessary to insure that all laborers and mechanics employed by contractors and subcontractors in the construction of housing assisted under this section shall be paid wages at rates not less than those prevailing in the locality involved for the corresponding classes of laborers and mechanics employed on construction of a similar character, as determined by the Secretary of Labor in accordance with the Act of March 3, 1931, as amended (the Davis-Bacon Act); but the [Administrator] *Secretary* may waive the application of this paragraph in cases or classes of cases where laborers or mechanics, not otherwise employed at any time in the construction of such housing, voluntarily donate their services without full compensation for the purpose of lowering the costs of construction and the [Administrator] *Secretary* determines that any amounts saved thereby are fully credited to the corporation, cooperative, or public body or agency undertaking the construction.

(d) As used in this section—

(1) The term "housing" means structures suitable for dwelling use by elderly or handicapped families which are (A) new structures, or (B) provided by rehabilitation, alteration, conversion, or improvement of existing structures which are otherwise inadequate for proposed dwelling use by such families.

(2) The term "corporation" means any incorporated private institution or foundation no part of the net earnings of which inures to the benefit of any private shareholder, contributor, or individual, if such institution or foundation is approved by the Administrator as to financial responsibility.

(3) The term "development cost" means costs of construction of housing and of other related facilities, and of the land on which it is located, including necessary site improvement.

(4) The term "elderly or handicapped families" means families which consist of two or more persons and the head of which (or his spouse) is sixty-two years of age or over or is handicapped, and such term also means a single person who is sixty-two years of age or over or is handicapped. A person shall be considered handicapped if such person is determined, pursuant to regulations issued by the [Administrator] *Secretary*, to have a physical im-

pairment which (A) is expected to be a long-continued and indefinite duration, (B) substantially impedes his ability to live independently, and (C) is of such a nature that such ability could be improved by more suitable housing conditions. The [Administrator] *Secretary* shall prescribe such regulations as may be necessary to prevent abuses in determining, under the definitions contained in this paragraph, the eligibility of families and persons for admission to and occupancy of housing constructed with assistance under this section.

(5) The term "State" includes the several States, the District of Columbia, the Commonwealth of Puerto Rico, and the possessions of the United States.

[(6) The term "Administrator" means the Housing and Home Finance Administrator.]

"(6) *The term 'Secretary' means the Secretary of Housing and Urban Development.*"

(7) The term "construction" means erection of new structures or rehabilitation, alteration, conversion, or improvement of existing structures.

(8) The term "related facilities" means (A) new structures suitable for use by elderly or handicapped families as cafeterias or dining halls, community rooms or buildings, workshops, or infirmaries or other inpatient or outpatient health facilities, or other essential service facilities, and (B) structures suitable for the above uses provided by rehabilitation, alteration, conversion, or improvement of existing structures which are other wise inadequate for such uses.

(e) Nothing in this section or in regulations promulgated under this section shall prevent a corporation or consumer cooperative from obtaining a loan under this section for the provision of housing and related facilities for elderly or handicapped families, notwithstanding the fact that such corporation or cooperative has theretofore obtained a commitment from the Federal Housing Administration for mortgage insurance under section 231 of the National Housing Act with respect to the housing involved, if (1) such corporation or cooperative is otherwise eligible for such loan under this section, (2) such commitment was obtained prior to the date of enactment of the Housing Act of 1961, and (3) the [Administrator] *Secretary* determines that the financing of such housing through a loan under this section rather than through mortgage insurance under such section 231 is necessary or desirable in order to avoid hardship for the elderly or handicapped families who are the prospective tenants of such housing.

TITLE III—FEDERAL NATIONAL MORTGAGE ASSOCIATION

* * * * *

SEC. 306. (a) * * *

(b) In connection with the sale of any mortgages to the Federal National Mortgage Association pursuant to section 306(e) of the Federal National Mortgage Association Charter Act, the [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* is authorized, and any other official, unit, or agency selling

such mortgages thereunder is directed, to transfer to the Association from time to time, from authorizations, limitations, and funds available for administrative expenses of such official, unit, or agency in connection with the same mortgages, such amounts thereof as said **[Administrator]** *Secretary* determines to be required for administrative expenses of the Association in connection with the purchase, servicing, and sale of such mortgages: *Provided*, That no such transfer shall be made after a budget estimate of the Association with respect to the same mortgages has been submitted to and finally acted upon by the Congress.

* * * * *

TITLE VIII—MISCELLANEOUS

* * * * *

DISPOSAL OF PASSYUNK AND NEWPORT WAR HOUSING PROJECTS

SEC. 802. (a) The use of projects PA-36011 and PA-36012 (which were conveyed to the Housing Authority of Philadelphia, Pennsylvania, under section 406(c) of the Housing Act of 1956) for the housing of military personnel and civilians employed in defense activities without regard to their income and the giving of a preference in respect of 700 dwelling units in such projects for such military personnel as the Secretary of Defense or his designee prescribes, for a period of five years after the date of the conveyance of such projects, is hereby authorized; and such use and the giving of such preferences shall not deprive such projects of their status as "low-rent housing" as that term is used and defined in the United States Housing Act of 1937 and within the meaning of that term as used in section 606(b) of the Act entitled "An Act to expedite the provision of housing in connection with national defense, and for other purposes", approved October 14, 1940, as amended. **[The Housing and Home Finance Administrator]** *Secretary of Housing and Urban Development* is authorized and directed to agree to any amendments to the instruments of conveyance which may be required to give effect to the purposes of this section.

(b) Section 406(c) of the Housing Act of 1956 is amended by striking out "three years" in the first proviso and inserting in lieu thereof "five years".

* * * * *

DISPOSAL OF PROJECT

SEC. 808. Notwithstanding any other provision of law, the **[Housing and Home Finance Administrator]** *Secretary of Housing and Urban Development* may, whenever he deems it desirable, in the public interest, and in the fulfillment of the purposes of title VI of the Act of October 14, 1940, as amended (42 U.S.C. 1587), with respect to a housing project known as the Southmore Mutual Housing Corporation Project of South Bend, Indiana, consent to the modification, with respect to purchase price, repayment period, rate of interest, time of payment of any installment on principal or interest, security,

or any other term, of any contract, sale, mortgage, or other agreement with respect to such project or any part thereof.

* * * * * *

HOUSING ACT OF 1961

[Public Law 87-70]

* * * * * *

TITLE II—HOUSING FOR ELDERLY PERSONS AND LOW INCOME FAMILIES

* * * * * *

DEMONSTRATION PROGRAMS

SEC. 207. The [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* is authorized to enter into contracts to make grants, not exceeding \$15,000,000 to public or private bodies or agencies, subject to such terms and conditions as he shall prescribe, for the purposes of developing and demonstrating new or improved means of providing housing for low income persons and families, and of demonstrating the types of housing and the means of providing housing that will assist low income persons or families who qualify as handicapped families as defined in section 202 of the Housing Act of 1959. Advances and progress payments may be made, under any contract to make grants under this section, without regard to the provisions of section 3648 of the Revised Statutes.

TITLE III—URBAN RENEWAL AND PLANNING

* * * * * *

CREDIT FOR COST OF SCHOOL CONSTRUCTION

SEC. 312. No public facility, the provision of which is otherwise eligible as a local grant-in-aid for any urban renewal project receiving assistance under title I of the Housing Act of 1949 in the city of Roanoke, Virginia, and the construction of which was commenced prior to January 1, 1961, shall be deemed to be ineligible as a local grant-in-aid because of any change in the urban renewal plan for such project which is determined by the [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* to have resulted from the proposed location within the urban renewal area in which such project was undertaken of a Federally-aided highway. For the purpose of computing the portion of the cost of any such facility which may be allowed as a local grant-in-aid, the degree of benefit of the facility to such urban renewal area shall be based on the latest estimate of benefit submitted by the local public agency and accepted by the [Administrator] *Secretary* prior to such change in the urban renewal plan.

* * * * * *

TITLE VII—OPEN SPACE LAND AND URBAN BEAUTIFICATION AND IMPROVEMENT

FINDINGS AND PURPOSE

SEC. 701. (a) The Congress finds that a combination of economic, social, governmental, and technological forces have caused a rapid expansion of the Nations urban areas, which has created critical problems of service and finance for all levels of government and which, combined with a rapid population growth in such areas, threatens severe problems of urban and suburban living, including the loss of valuable open-space land in such areas, for the preponderant majority of the Nations present and future population.

(b) The Congress further finds that there is an urgent need both for the additional provision of parks and other open-space areas in the developed portions of the Nation's urban areas, *for the development and redevelopment of existing parks and other open space*, and for greater and better coordinated local efforts to beautify and improve open space and other public land throughout urban areas to facilitate their increased use and enjoyment by the Nation's urban population.

(c) It is the purpose of this title to help curb urban sprawl and prevent the spread of urban blight and deterioration, to encourage more economic and desirable urban development, and to help provide necessary recreational, conservation, and scenic areas by assisting State and local governments in taking prompt action to (1) provide, preserve, and develop open-space land which is essential to the proper long-range development and welfare of the Nation's urban areas, in accordance with plans for the allocation of such land for open-space uses, and (2) beautify and improve open space and other public urban land, in accordance with programs to encourage and coordinate local public and private efforts toward this end.

GRANTS FOR PRESERVATION AND DEVELOPMENT OF OPEN-SPACE LAND

SEC. 702. (a) In order to encourage and assist in the timely acquisition and development of land to be used as permanent open-space land, as defined herein, the [Housing and Home Finance Administrator (hereinafter referred to as the "Administrator")] *Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary")* is authorized to enter into contracts to make grants to States and local public bodies to help finance the acquisition of title to, or other permanent interests in, such land, and the development, for open-space uses, of land acquired under this title, *or the development or redevelopment, for open-space uses, of existing open-space land*. The amount of any such grant shall not exceed 50 per centum of the total cost, as approved by the [Administrator] *Secretary*, of such acquisition and development *or such development or redevelopment*. The faith of the United States is pledged to the payment of all grants contracted for under this title.

(b) The [Administrator] *Secretary* may enter into contracts to make grants under this title aggregating not to exceed \$310,000,000: *Provided*, That of such sum the [Administrator] *Secretary* may contract to make grants under section 705 aggregating not to exceed

\$64,000,000, and grants under section 706 aggregating not to exceed \$36,000,000. There are hereby authorized to be appropriated, out of any moneys in the Treasury not otherwise appropriated, the amounts necessary to provide for the payment of such grants as well as to carry out all other purposes of this title. All funds so appropriated shall remain available until expended.

(c) No grants under this title shall be used to defray ordinary State or local governmental expenses, or to help finance the acquisition by a public body of land located outside the urban area for which it exercises (or participates in the exercise of) responsibilities consistent with the purpose of this title.

(d) The [Administrator] *Secretary* may set such further terms and conditions for assistance under this title as he determines to be desirable.

(e) The [Administrator] *Secretary* shall consult with the Secretary of the Interior on the general policies to be followed in reviewing applications for grants. To assist the [Administrator] *Secretary* in such review, the Secretary of the Interior shall furnish him appropriate information on the status of recreational planning for the areas to be assisted with the grants. The [Administrator] *Secretary* shall provide current information to the [Secretary from time to time] *Secretary of the Interior from time to time* on significant program developments.

(f) *No grant under this title shall be made to any community having a median family income of over \$15,000.*

PLANNING REQUIREMENTS

SEC. 703. (a) The [Administrator] *Secretary* shall enter into contracts to make grants under sections 702 and 705 of this title only if he finds that such assistance is needed for carrying out a unified or officially coordinated program, meeting criteria established by him, for the provision and development of open-space land as part of the comprehensively planned development of the urban area.

(b) In extending financial assistance under this title, the [Administrator] *Secretary* shall take such action as he deems appropriate to assure that local governing bodies are preserving a maximum of open-space land, with a minimum of cost, through the use of existing public land; the use of special tax, zoning, and subdivision provisions; and the continuation of appropriate private use of open-space land through acquisition and leaseback, the acquisition of restrictive easements, and other available means.

CONVERSIONS TO OTHER USES

SEC. 704. No open-space land for the acquisition of which a grant has been made under this title shall, without the approval of the [Administrator] *Secretary*, be converted to uses other than those originally approved by him. The [Administrator] *Secretary* shall approve no conversion of land from open-space use unless he finds that such conversion is essential to the orderly development and growth of the urban area involved and is in accord with the then applicable comprehensive plan, meeting criteria established by him. The [Admin-

istrator] *Secretary* shall approve any such conversion only upon such conditions as he deems necessary to assure the substitution of other open-space land of at least equal fair market value and of as nearly as feasible equivalent usefulness and location.

GRANTS FOR PROVISION OF OPEN-SPACE LAND IN BUILT-UP URBAN AREAS

SEC. 705. The [Administrator] *Secretary* is further authorized to enter into contracts to make grants to States and local public bodies to help finance the acquisition of title to, or other permanent interests in, developed land in built-up portions of urban areas to be cleared and used as permanent open-space land. The [Administrator] *Secretary* shall make such grants only where the local governing body determines that adequate open-space land cannot effectively be provided through the use of existing undeveloped or predominantly undeveloped land. Grants under this section shall not exceed 50 per centum of the cost of acquiring such interests and of necessary demolition and removal of improvements.

GRANTS FOR URBAN BEAUTIFICATION AND IMPROVEMENT

SEC. 706. The [Administrator] *Secretary* is authorized to enter into contracts to make grants, as herein provided, to States and local public bodies to assist in carrying out local programs for the greater use and enjoyment of open-space and other public land in urban areas. The [Administrator] *Secretary* shall establish criteria for such programs to assure that each program (1) represents significant and effective efforts, involving all available public and private resources, for the beautification of such land and its improvement for open-space uses; and (2) is important to the comprehensively planned development of the locality. Grants made under this section shall not exceed 50 per centum of the amount by which the cost of the activities carried on by an applicant during a fiscal year under an approved program exceeds its usual expenditures for comparable activities: *Provided, That*, notwithstanding any other provision of this section, the [Administrator] *Secretary* may use not to exceed \$5,000,000 of the sum authorized for contracts under this section for the purpose of entering into contracts to make grants in amounts not to exceed 90 per centum of the cost of activities which he determines have special value in developing and demonstrating new and improved methods and materials for use in carrying out the purposes of this section.

LABOR STANDARDS

SEC. 707. (a) The [Administrator] *Secretary* shall take such action as may be necessary to insure that all laborers and mechanics employed by contractors or subcontractors in the performance of construction work financed with the assistance of grants under this title shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended. The [Administrator] *Secretary* shall not approve any such grant without first

obtaining adequate assurance that these labor standards will be maintained upon the construction work.

(b) The Secretary of Labor shall have, with respect to the labor standards specified in subsection (a), the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276c).

TECHNICAL ASSISTANCE, STUDIES, AND PUBLICATION OF INFORMATION

SEC. 708. In order to carry out the purpose of this title the [Administrator] *Secretary* is authorized to provide technical assistance to State and local public bodies and to undertake such studies and publish such information, either directly or by contract, as he shall determine to be desirable.

The [Administrator] *Secretary* is authorized to use during any fiscal year not to exceed \$50,000 of the funds available for grants under this title to undertake such studies and publish such information. Nothing contained in this section shall limit any authority of the [Administrator] *Secretary* under any other provision of law.

DEFINITIONS

SEC. 709. As used in this title—

(1) The term “open-space land” means any undeveloped or predominantly undeveloped land in an urban area which has value for (A) park and recreational purposes, (B) conservation of land and other natural resources, or (C) historic or scenic purposes.

(2) The term “urban area” means any area which is urban in character, including those surrounding areas which, in the judgment of the [Administrator] *Secretary*, form an economic and socially related region, taking into consideration such factors as present and future population trends and patterns of urban growth, location of transportation facilities and systems, and distribution of industrial, commercial, residential, governmental, institutional, and other activities.

(3) The term “State” means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, and Guam.

(4) The term “open-space uses” means any use of open-space land for (A) park and recreational purposes, (B) conservation of land and other natural resources, or (C) historic or scenic purposes.

SENIOR CITIZENS HOUSING ACT OF 1962

[Public Law 87-723]

*

*

*

*

*

*

*

SEC. 2. The Congress finds that there is a large and growing need for suitable housing for older people both in urban and rural areas. Our older citizens face special problems in meeting their housing needs because of the prevalence of modest and limited incomes among the elderly, their difficulty in obtaining liberal long-term home mortgage credit, and their need for housing planned and designed to include features necessary to the safety and convenience of the occupants in a suitable neighborhood environment. The Congress further finds that the present programs for housing the elderly under the [Housing and Home Finance Agency] *Department of Housing and Urban Development* have proven the value of Federal credit assistance in this field and at the same time demonstrated the urgent need for an extended and more comprehensive effort to meet our responsibilities to our senior citizens.

TITLE III—URBAN RENEWAL

* * * * *

REHABILITATION LOANS

SEC. 312. (a) To assist rehabilitation in an urban renewal area or an area in which a program of concentrated code enforcement activities is being carried out pursuant to section 117 of the Housing Act of 1949 and thereby reduce the need for demolition and removal of structures, the [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* is hereby authorized, through the utilization of local public and private agencies where feasible, to make loans as herein provided to the owners or tenants of property in such area to finance rehabilitation required to make the property conform to applicable code requirements or to carry out the objectives of the urban renewal plan for the area. No loan shall be made under this section unless the [Administrator] *Secretary* finds (1) that the applicant is unable to secure the necessary funds from other sources upon comparable terms and conditions, and (2) the loan is an acceptable risk taking into consideration the need for the rehabilitation, the security available for the loan, and the ability of the applicant to repay the loan.

(b) For the purposes of this section—

(1) the term “rehabilitation” means the improvement or repair of a structure or facilities in connection with a structure, and may include the provision of such sanitary or other facilities as are required by applicable codes or the urban renewal plan to be provided by the owner or tenant of the property;

(2) the term “urban renewal area” means a slum area or a blighted, deteriorated, or deteriorating area as defined in section 110(a) of the Housing Act of 1949;

(3) the term “tenant” means a person or organization who is occupying a structure under a lease having a period to run at the time a rehabilitation loan is made under this section of not less than the term of the loan; and

[(4) the term “Administrator” means the Housing and Home Finance Administrator.] (4) the term “Secretary” means the *Secretary of Housing and Urban Development*.

(c) A rehabilitation loan made under this section shall be subject to the following limitations:

(1) The loan shall be subject to such terms and conditions as may be prescribed by the [Administrator] *Secretary*.

(2) The term of the loan may not exceed twenty years or three-fourths of the remaining economic life of the structure after rehabilitation, whichever is less.

(3) The loan shall bear interest at such rate as the [Administrator] *Secretary* determines to be appropriate but not to exceed 3 per centum per annum of the amount of the principal outstanding at any time, and the [Administrator] *Secretary* may prescribe such other charges as he finds necessary, including service charges and appraisal, inspection, and other fees.

(4) The amount of the loan may not exceed—

(A) in the case of residential property, the amount of a loan which could be insured by the **[Federal Housing Commissioner]** *Secretary of Housing and Urban Development* under section 220 (h) of the National Housing Act: *Provided*, That, within the limitations otherwise applicable on the amount of a loan under such section, the loan may exceed the cost of rehabilitation in order to include an amount approved by the **[Administrator]** *Secretary* to refinance existing indebtedness secured by such property if such refinancing is necessary to enable the applicant to amortize, with a monthly payment of not more than 20 per centum of his average monthly income, such loan and any other indebtedness secured by his property; and

(B) in the case of nonresidential property, whichever of the following is the least: \$50,000, or the cost of rehabilitation, or an amount which when added to any outstanding indebtedness related to the property securing the loan creates a total outstanding indebtedness that the **[Administrator]** *Secretary* determines could be reasonably secured by a first mortgage on the property.

(5) A loan shall be secured as determined by the **[Administrator]** *Secretary*.

(d) There is authorized to be appropriated not to exceed \$100,000,000 for each fiscal year which shall constitute a revolving fund to be used by the **[Administrator]** *Secretary* in carrying out this section. All moneys in such revolving fund shall be available for necessary expenses of serving loans made pursuant to this section, including reimbursement or payment for services and facilities of the Federal National Mortgage Association and of any public or private agency for the servicing of such loans.

(e) In the performance of, and with respect to, the functions, powers, and duties vested in him by this section, the **[Administrator]** *Secretary* shall have (in addition to any authority otherwise vested in him) the functions, powers, and duties set forth in section 402 of the Housing Act of 1950 (except subsection (c) (2)).

(f) The **[Administrator]** *Secretary* is authorized to delegate to or use as his agent any Federal or local public or private agency or organization to the extent he determines appropriate and desirable to carry out the objectives of this section in the area involved.

(g) The **[Administrator]** *Secretary* is authorized to issue such rules and regulations and impose such requirements and conditions (in addition to those specified in this section) as he determines to be desirable to carry out the objectives of this section, including limitations on the amount of a loan and restrictions on the use of the property involved.

(h) No loan shall be made under the authority of this section after October 1, 1969, except pursuant to a contract, commitment, or other obligation entered into pursuant to this section before that date.

* * * * *

PLANNING PROBLEMS RESULTING FROM CHAMIZAL TREATY OF 1963

SEC. 318. Notwithstanding the provisions of section 701 of the Housing Act of 1954 with respect to the eligibility of a city for a grant thereunder, the **[Housing and Home Finance Administrator]** *Secre-*

tary of Housing and Urban Development is authorized to make planning grants to the city of El Paso, Texas, for the purpose of assisting it to solve those urban planning problems that have resulted or are expected to result from the Chamizal Treaty of 1963 between the United of America and the Republic of Mexico. Any such grants shall be subject to all other conditions and requirements contained in such section 701.

* * * * *

TITLE VIII—TRAINING AND FELLOWSHIP PROGRAMS

PART 1—FEDERAL-STATE TRAINING PROGRAMS

FINDINGS AND PURPOSE

SEC. 801. (a) The Congress finds that the rapid expansion of the Nation's urban areas and urban population has caused severe problems in urban and suburban development and created a national need to (1) provide special training in skills needed for economic and efficient community development and (2) support research in new or improved methods of dealing with community development problems.

(b) It is the purpose of this part to assist and encourage the States, in cooperation with public or private universities and colleges and urban centers, to (1) organize, initiate, develop, and expand programs which will provide special training in skills needed for economic and efficient community development to those technical and professional people who are, or are training to be, employed by a governmental or public body which has responsibility for community development; and (2) support State and local research that is needed in connection with housing programs and needs, public improvement programing, code problems, efficient land use, urban transportation, and similar community development problems.

MATCHING GRANTS TO STATES

SEC. 802. (a) Subject to the provisions of this part and in accordance with regulations prescribed by him, the [Administrator] *Secretary* may make matching grants to States to assist in—

(1) organizing, initiating, developing, or expanding programs to provide special training in skills needed for economic and efficient community development to those technical and professional people who are, or are training to be, employed by a governmental or public body which has responsibilities for community development; and

(2) supporting State and local research that is needed in connection with housing programs and needs, public improvement programing, code problems, efficient land use, urban transportation, and similar community development problems, and collecting, collating, and publishing statistics and information relating to such research.

(b) No grants may be made to a State under this part unless the [Administrator] *Secretary* has approved a plan for the State which—

(1) sets forth the proposed use of the funds and the objectives to be accomplished;

(2) explains the method by which the required amounts from non-Federal sources will be obtained;

(3) provides such fiscal control and fund accounting procedures as may be reasonably necessary to assure proper disbursement of, and accounting for, Federal funds paid to the State under this part;

(4) designates an officer or agency of the State government who has responsibility and authority for the administration of a statewide research and training program as the officer or agency with responsibility and authority for the execution of the State program under this part; and

(5) provides that such officer or agency will make such reports to the [Administrator] *Secretary*, in such form, and containing such information, as may be reasonably necessary to enable the [Administrator] *Secretary* to perform his duties under this part.

(c) No grant may be made under this part for any use unless an amount at least equal to such grant is made available from non-Federal sources for the same purpose and for concurrent use.

(d) There is authorized to be appropriated for grants under this part, without fiscal year limitation, not to exceed \$30,000,000.

STATE LIMIT

SEC. 803. Not more than 10 per centum of the total amount appropriated for the purposes of this part may be used for making grants to any one State.

TECHNICAL ASSISTANCE, STUDIES, AND PUBLICATION OF INFORMATION

SEC. 804. In order to carry out the purpose of this part, the [Administrator] *Secretary* is authorized to provide technical assistance to State and local governmental or public bodies and to undertake such studies and publish and distribute such information, either directly or by contract, as he shall determine to be desirable. Nothing contained in this part shall limit any authority of the [Administrator] *Secretary* under any other provision of law.

MISCELLANEOUS

SEC. 805. (a) As used in this part, the term "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and the Virgin Islands; and the term ["Administrator"] *Secretary* means the Housing and Home Finance Administrator] "*Secretary*" means the *Secretary of Housing and Urban Development*.

(b) There are authorized to be appropriated such sums as may be necessary for administrative and other expenses in carrying out this part.

* * * * *

PART 2—FELLOWSHIPS FOR CITY PLANNING AND URBAN STUDIES

SEC. 810. (a) There is hereby authorized to be appropriated not to exceed \$500,000 annually, for a three-year period commencing on July 1, 1964, to be used by the [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* for the purpose

of providing fellowships for the graduate training of professional city planning and urban and housing technicians and specialists as herein provided. Persons shall be selected for such fellowships solely on the basis of ability and upon the recommendation of the Urban Studies Fellowship Advisory Board established pursuant to subsection (b). Fellowships shall be solely for training in public and private nonprofit institutions of higher education having programs of graduate study in the field of city planning or in related fields (including architecture, civil engineering, economics, municipal finance, public administration, and sociology), which programs are oriented to training for careers in city and regional planning, housing, urban renewal, and community development.

(b) There is hereby established the Urban Studies Fellowship Advisory Board (hereinafter referred to as the "Board"), which shall consist of nine members to be appointed by the [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* as follows: Three from public institutions of higher learning, and three from private nonprofit institutions of higher education, who are the heads of departments which provide academic courses appropriately related to the fields referred to in subsection (a), and three from national organizations which are directly concerned with problems relating to urban, regional, and community development. The Board shall meet upon the request of the [Administrator] *Secretary* and shall make recommendations to him with respect to persons to be selected for fellowships under this section. Members of the Board shall be entitled to receive transportation expenses and a per diem in lieu of subsistence as authorized for members of advisory committees created pursuant to section 601 of the Housing Act of 1949.

* * * * *

TITLE X—MISCELLANEOUS

* * * * *

FOREST HILLS PROJECT IN PADUCAH, KENTUCKY

SEC. 1005. The [Federal Housing Commissioner] *Secretary of Housing and Urban Development* is authorized and directed to sell to the Paducah-McCracken County Development Council, Incorporated, of Paducah, Kentucky, for use as a public facility (including such use by the Paducah Junior College as may be deemed appropriate by such Council), and for a total price of \$1,000,000, all right, title, and interest of the United States in and to the housing project in Paducah known as Forest Hills (a project constructed under title VIII of the National Housing Act as in effect prior to August 11, 1955, and subsequently acquired by the [Federal Housing Administration] *Department of Housing and Urban Development*).

PAYMENT IN LIEU OF TAXES BY HAWAII HOUSING AUTHORITY

SEC. 1006. Notwithstanding the provisions of any other law or any contract or rule of law, the [Public Housing Commissioner] *Secretary of Housing and Urban Development* shall approve a payment in lieu of taxes to be made for the fiscal year ended June 30, 1959, in the

amount of \$24,167.78, by the Hawaii Housing Authority to the city and county of Honolulu.

TRANSFER OF LAND FOR URBAN RENEWAL PURPOSES BY PHILADELPHIA HOUSING AUTHORITY

SEC. 1007. (a) Notwithstanding the provisions of title I of the Housing Act of 1949 and the United States Housing Act of 1937, the [Housing and Home Finance Administrator and the Public Housing Commissioner are] *Secretary of Housing and Urban Development* is authorized and directed to consent to the transfer by the Philadelphia Housing Authority to the Philadelphia Redevelopment Authority of all property acquired by the Housing Authority for low-rent housing project numbered Pennsylvania 2-51, on condition that (1) an amount which, together with any funds of the Housing Authority available for the purpose, is sufficient to pay and discharge all obligations incurred by the Housing Authority in connection with such low-rent housing project and owing at the time of transfer, will be paid by the Redevelopment Authority to the [Public Housing Administration] *Secretary* to be applied in satisfaction of the Housing Authority's obligations which it cannot meet with its own funds available for the purpose, and (2) the total amount so paid by the Redevelopment Authority will be included in the gross project cost of its Whitman urban renewal project, Pennsylvania R-35.

(b) The [Housing and Home Finance Administrator and the Public Housing Commissioner are] *Secretary of Housing and Urban Development* is authorized to modify any contracts heretofore entered into and to take any other appropriate action necessary to carry out the provisions of subsection (a).

* * * * *

HOUSING AND URBAN DEVELOPMENT ACT OF 1965

[Public Law 89-117]

TITLE I—SPECIAL PROVISIONS FOR DISADVANTAGED PERSONS

FINANCIAL ASSISTANCE TO ENABLE CERTAIN PRIVATE HOUSING TO BE AVAILABLE FOR LOWER INCOME FAMILIES WHO ARE ELDERLY, HANDICAPPED, DISPLACED, VICTIMS OF A NATURAL DISASTER, OR OCCUPANTS OF SUBSTANDARD HOUSING

SEC. 101. (a) The [Housing and Home Finance Administrator (hereinafter referred to as the "Administrator")] *Secretary of Housing and Urban Development* (hereinafter referred to as the "Secretary") is authorized to make, and contract to make, annual payments to a "housing owner" on behalf of "qualified tenants", as those terms are defined herein, in such amounts and under such circumstances as are prescribed in or pursuant to this section. In no case shall a contract provide for such payments with respect to any housing for a

period exceeding forty years. The aggregate amount of the contracts to make such payments shall not exceed amounts approved in appropriation Acts and payments pursuant to such contracts shall not exceed \$30,000,000 per annum prior to July 1, 1966, which maximum dollar amount shall be increased by \$35,000,000 on July 1, 1966, by \$40,000,000 on July 1, 1967, and by \$45,000,000 on July 1, 1968.

(b) As used in this section, the term "housing owner" means a private nonprofit corporation or other private nonprofit legal entity, a limited dividend corporation or other limited dividend legal entity, or a cooperative housing corporation, which is a mortgagor under section 221(d)(3) of the National Housing Act and which, after the enactment of this section, has been approved for mortgage insurance thereunder and has been approved for receiving the benefits of this section: *Provided*, That, except as provided in subsection (j), no payments under this section may be made with respect to any property financed with a mortgage receiving the benefits of the interest rate provided for in the proviso in section 221(d)(5) of that Act. Subject to the limitations provided in subsection (j), the term "housing owner" also has the meaning prescribed in such subsection.

(c) As used in this section, the term "qualified tenant" means any individual or family who has, pursuant to criteria and procedures established by the [Administrator] *Secretary*, been determined—

(1) to have an income below the maximum amount which can be established in the area, pursuant to the limitations prescribed in sections 2(2) and 15(7)(b)(ii) of the United States Housing Act of 1937, for occupancy in public housing dwellings; and

(2) to be one of the following—

- (A) displaced by governmental action;
- (B) sixty-two years of age or older (or, in the case of a family to have a head who is, or whose spouse is, sixty-two years of age or over);
- (C) physically handicapped (or, in the case of a family, to have a head who is, or whose spouse is, physically handicapped);
- (D) occupying substandard housing; or
- (E) an occupant or former occupant of a dwelling which is (or was) situated in an area determined by the Small Business Administration, subsequent to April 1, 1965, to have been affected by a natural disaster, and which has been extensively damaged or destroyed as the result of such disaster.

The terms "qualified tenant" and "tenant" include a member of a cooperative who satisfies the foregoing requirements and who, upon resale of his membership to the cooperative, will not be reimbursed for any equity increment accumulated through payments under this section. With respect to members of a cooperative, the terms "rental" and "rental charges" mean the charges under the occupancy agreements between such members and the cooperative.

(d) The amount of the annual payment with respect to any dwelling unit shall not exceed the amount by which the fair market rental for such unit exceeds one-fourth of the tenant's income as determined by the [Administrator] *Secretary* pursuant to procedures and regulations established by him.

(e) (1) For purposes of carrying out the provisions of this section, the **[Administrator]** *Secretary* shall establish criteria and procedures for determining the eligibility of occupants and rental charges, including criteria and procedures with respect to periodic review of tenant incomes and periodic adjustment of rental charges. The **[Administrator]** *Secretary* shall issue, upon the request of a housing owner, certificates as to the following facts concerning the individuals and families applying for admission to, or residing in, dwellings of such owner:

(A) the income of the individual or family; and

(B) whether the individual or family was displaced by governmental action, is elderly, is physically handicapped, or is (or was) occupying substandard housing or housing extensively damaged or destroyed as the result of a natural disaster.

(2) Procedures adopted by the **[Administrator]** *Secretary* hereunder shall provide for recertifications of the incomes of occupants, except the elderly, at intervals of two years (or at shorter intervals in cases where the **[Administrator]** *Secretary* may deem it desirable) for the purpose of adjusting rental charges and annual payments on the basis of occupants' incomes, but in no event shall rental charges adjusted under this section for any dwelling exceed the fair market rental of the dwelling.

(3) The **[Administrator]** *Secretary* may enter into agreements, or authorize housing owners to enter into agreements, with public or private agencies for services required in the selection of qualified tenants, including those who may be approved, on the basis of the probability of future increases in their incomes, as lessees under an option to purchase (which will give such approved qualified tenants an exclusive right to purchase at a price established or determined as provided in the option) dwellings, and in the establishment of rentals. The **[Administrator]** *Secretary* is authorized (without limiting his authority under any other provision of law) to delegate to any such public or private agency his authority to issue certificates pursuant to this subsection.

(4) No payments under this section may be made with respect to any property for which the costs of operation (including wages and salaries) are determined by the **[Administrator]** *Secretary* to be greater than similar costs of operation of similar housing in the community where the property is situated.

(f) * * *

(g) The **[Administrator]** *Secretary* is authorized to make such rules and regulations, to enter into such agreements, and to adopt such procedures as he may deem necessary or desirable to carry out the provisions of this section. **[Nothing contained in this section shall affect the authority of (1) the Federal Housing Commissioner with respect to any housing assisted under this section and under sections 221(d)(3) and 231(c)(3) of the National Housing Act, or (2) the Housing and Home Finance Administrator with respect to any housing assisted under this section and under section 202 of the Housing Act of 1959, including the authority to prescribe occupancy**

requirements under other provisions of law or to determine the portion of any such housing which may be occupied by qualified tenants.】
Nothing contained in this section shall affect the authority of the Secretary of Housing and Urban Development with respect to any housing assisted under this section, section 221(d)(5), or 231(c)(3) of the National Housing Act, or section 202 of the Housing Act of 1959, including the authority to prescribe occupancy requirements under other provisions of law or to determine the portion of such housing which may be occupied by qualified tenants.

(h) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this section, including, but not limited to, such sums as may be necessary to make annual payments as prescribed in this section, pay for services provided under (or pursuant to agreements entered into under) subsection (e), and provide administrative expenses.

(i) * * *

(j) (1) For the purpose of assisting housing under this section on an experimental basis, subject to the limitations of this subsection, the term "housing owner" (in addition to the meaning prescribed in subsection (b)) includes—

(A) a private nonprofit corporation or other private nonprofit legal entity, a limited dividend corporation or other limited dividend legal entity, or a cooperative housing corporation, which is a mortgagor under a mortgage which receives the benefits of the interest rate provided for in the proviso in section 221(d)(5) of the National Housing Act and which, after the date of the enactment of this Act, has been approved for mortgage insurance under section 221(d)(3) of the National Housing Act and has been approved for receiving the benefits of this section;

(B) a private nonprofit corporation or other private nonprofit legal entity which is a mortgagor under a mortgage insured under section 231(c)(3)⁴ of the National Housing Act and which, after the date of the enactment of this Act, has obtained final endorsement of such mortgage for mortgage insurance and has been approved for receiving the benefits of this section; and

(C) a private nonprofit corporation, a public body or agency, or a cooperative housing corporation, which is a borrower under section 202 of the Housing Act of 1959 and has been approved for receiving the benefits of this section: *Provided*, That, with respect to properties financed with loans under such section made on or before the date of the enactment of this Act, payments shall not be made with respect to more than 20 per centum of the dwelling units in any property so financed.

(2) Of the amounts approved in appropriation Acts pursuant to subsection (a) for payments under this section in any year, not more than 5 per centum in the aggregate shall be paid with respect to properties of housing owners as defined in paragraph (1)(A) of this subsection, and not more than 5 per centum in the aggregate shall be paid with respect to properties of housing owners as defined in paragraphs (1)(B) and (1)(C) of this subsection.

DIRECT LOANS TO PROVIDE HOUSING FOR THE ELDERLY OR HANDICAPPED

SEC. 105. (a) Section 202(a)(4) of the Housing Act of 1959 is amended by striking out “\$350,000,000” and inserting in lieu thereof “\$500,000,000”.

(b) (1) [Effective with respect to loans made on or after the date of the enactment of this Act, section] *Section 202 (a) (3) of such Act is amended by striking out “the higher of (A) 2¾ per centum per annum, or” and inserting in lieu thereof “the lower of (A) 3 per centum per annum, or”.*

(2) The interest rate provided by the amendment made in paragraph (1) shall be applicable (A) with respect to any loan made on or after August 10, 1965, and (B) with respect to any loan made prior to such date if construction of the housing or related facilities to be assisted by such loan was not commenced prior to such date, and not completed prior to the filing of an application for the benefits of such interest rate.

* * * * *

MORTGAGE RELIEF FOR HOMEOWNERS WHO ARE UNEMPLOYED AS THE RESULT OF THE CLOSING OF A FEDERAL INSTALLATION

SEC. 107. (a) For the purposes of this section—

(1) The term “mortgage” means a mortgage which (A) is insured under the National Housing Act, or (B) secures a home loan guaranteed or insured under the Servicemen’s Readjustment Act of 1944 or chapter 37 of title 38, United States Code.

(2) The term “Federal mortgage agency” means—

(A) the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* when used in connection with mortgages insured under the National Housing Act, and

(B) the Administrator of Veterans’ Affairs when used in connection with mortgages securing home loans guaranteed or insured under the Servicemen’s Readjustment Act of 1944 or chapter 37 of title 38, United States Code.

(3) The term “distressed mortgagor” means an individual who—

(A) is unemployed, although willing to work, as the result of the closing (in whole or in part) of a Federal installation, and

(B) is the owner-occupant of a dwelling upon which there is a mortgage securing a loan which is in default because of the inability of such individual to make payments of principal and/or interest under such mortgage.

(b) (1) Any distressed mortgagor, for the purpose of avoiding foreclosure of his mortgage, may apply to the appropriate Federal mortgage agency for a determination that suspension of his obligation to make payments of principal and/or interest under such mortgage during a temporary period is necessary in order to avoid such foreclosure.

(2) Upon receipt of an application made under this subsection by a distressed mortgagor, the Federal mortgage agency shall issue to such mortgagor a certificate of moratorium if it determines, after consultation with the interested mortgagee, that—

(A) the mortgagor is not in default with respect to any condition or covenant of the mortgage other than that requiring the payment of installments of principal and/or interest under the mortgage, and

(B) such action is the only available means whereby a foreclosure of such mortgage can be avoided.

(3) Prior to the issuance to any distressed mortgagor of a certificate of moratorium under paragraph (2), the Federal mortgage agency shall require such mortgagor to enter into a binding agreement under which he will be required to make payments to such agency, after the expiration of such certificate, in an aggregate amount equal to the amount paid by such agency on behalf of such mortgagor as provided in subsection (c). The manner and time in which such payments shall be made shall be determined by the Federal mortgage agency having due regard to the purposes sought to be achieved by this section.

(4) Any certificate of moratorium issued under this subsection shall expire on whichever of the following dates is the earliest—

(A) one year from the date on which such certificate is issued;

(B) thirty days after the date on which the mortgagor to whom such certificate is issued ceases to be a distressed mortgagor as defined in subsection (a); or

(C) the date on which such mortgagor becomes in default with respect to any condition or covenant in his mortgage other than that requiring the payment by him of installments of principal and/or interest under the mortgage.

(c) (1) Whenever a Federal mortgage agency issues a certificate of moratorium to any distressed mortgagor with respect to any mortgage, it shall transmit to the mortgagee a copy of such certificate, together with a notice stating that, while such certificate is in effect, such agency will assume the obligation of such mortgagor to make payments of principal, and, if so specified in the certificate, of interest, under the mortgage.

(2) Payments made by any Federal mortgage agency pursuant to a certificate of moratorium issued under this section with respect to the mortgage of any distressed mortgagor shall include, in addition to the payments referred to in paragraph (1), an amount equal to the unpaid principal and interest charges which had accrued under such mortgage prior to the issuance of such certificate and subsequent to the date on which such mortgagor became a distressed mortgagor as defined in subsection (a).

(3) While any certificate of moratorium issued under this section is in effect with respect to the mortgage of any distressed mortgagor, no further payments of principal, and, if so specified in the certificate, of interest, under the mortgage shall be required of such mortgagor, and no action (legal or otherwise) shall be taken or maintained by the mortgagee to enforce or collect such payments. Upon the expiration of such certificate, the mortgagor shall again be liable for the payment of all amounts due under the mortgage in accordance with its terms.

(4) Each Federal mortgage agency shall give prompt notice in writing to the interested mortgagor and mortgagee of the expiration of any certificate of moratorium issued by it under this section.

(d) The Federal mortgage agencies are authorized to issue such individual and joint regulations as may be necessary to carry out this section and to insure the uniform administration thereof.

(e) There shall be in the Treasury (1) a fund which shall be available to the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* for the purpose of extending financial assistance in behalf of distressed mortgagors as provided in subsection (c), and (2) a fund which shall be available to the Administrator of Veterans' Affairs for the same purpose. The capital of each such fund shall consist of such sums as may, from time to time, be appropriated thereto, and any sums so appropriated shall remain available until expended. Receipts arising from the programs of assistance under subsection (c) shall be credited to the fund from which such assistance was extended. Moneys in either of such funds not needed for current operations, as determined by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development*, or the Administrator of Veterans' Affairs, as the case may be, shall be invested in bonds or other obligations of the United States, or paid into the Treasury as miscellaneous receipts.

(f) Section 1816 of title 38, United States Code, is amended by inserting "(a)" before the text of such section, and by adding at the end thereof a new subsection as follows:

"(b) With respect to any loan made under section 1811 which has not been sold as provided in subsection (g) of such section, if the Administrator finds, after there has been a default in the payment of any installment of principal or interest owing on such loan, that the default was due to the fact that the veteran who is obligated under the loan has become unemployed as the result of the closing (in whole or in part) of a Federal installation, he shall (1) extend the time for curing the default to such time as he determines is necessary and desirable to enable such veteran to complete payments on such loan, including an extension of time beyond the stated maturity thereof, or (2) modify the terms of such loan for the purpose of changing the amortization provisions thereof by recasting, over the remaining term of the loan, or over such longer period as he may determine, the total unpaid amount then due with the modification to become effective currently or upon the termination of an agreed-upon extension of the period for curing the default."

ACQUISITION OF CERTAIN PROPERTIES SITUATED AT OR NEAR MILITARY
BASES WHICH HAVE BEEN ORDERED TO BE CLOSED

SEC. 108. (a) The Secretary of Defense is authorized to acquire title to any property, improved with a one- or two-family dwelling, which is situated at or near a military base or installation which the Department of Defense has, subsequent to November 1, 1964, ordered to be closed in whole or in part, if he determines—

(1) that the owner of such property is, or has been, employed or performing military service, at such base or installation;

(2) that the closing of such base or installation, in whole or in part, has required or will require the termination of such owner's employment or service at such base or installation; and

(3) that as the result of the actual or pending closing of such base or installation there is no present market for the sale of such property upon reasonable terms and conditions.

(b) The purchase price of any property which is situated at or near a military base or installation and is acquired under this section shall be equal to an amount determined by the Secretary of Defense to be the average price at which properties, similar in size, construction, condition, and location to that of the property to be acquired, were sold during a representative period, as determined by the Secretary, prior to the announcement of the intention of the Department of Defense to close all or part of such base or installation.

(c) The title to any property acquired under this section shall be free and clear of any outstanding liens or encumbrances and shall conform to such requirements as the Secretary of Defense shall by regulation require. Such regulations shall also prescribe the terms and conditions under which payments may be made under this section, and decisions by the Secretary regarding such payments, and the terms and conditions under which the same are approved or disapproved, shall be final and conclusive and shall not be subject to judicial review.

(d) Properties acquired under this section shall be transferred to the [Federal Housing Commissioner, and the Federal Housing Commissioner] *Secretary of Housing and Urban Development, and the Secretary* shall have power to deal with, rent, renovate, or sell for cash or credit any properties so transferred. Receipts from the management or sale of any such properties may be utilized by [the Commissioner] *the Secretary* to defray expenses arising in connection with the management of such properties, and any part of such receipts not required for such expenses shall be covered into the Treasury as miscellaneous receipts.

(e) *In any case in which a property could have been acquired by the Secretary of Defense in accordance with the preceding provisions of this section, but the owner of such property had instead sold it to another person (after the announcement of the intention of the Department of Defense to close all or part of the base or installation) at a price less than its fair market value immediately prior to such announcement or lost it through foreclosure (after such announcement), the Secretary of Defense shall upon application pay to such owner as partial compensation for losses sustained in such sale or as a result of such foreclosure an amount equal to the difference between the fair market value of the property immediately prior to such announcement and the fair market value of the property at the time of such sale or foreclosure.*

[(e)] (f) * * *

[(f)] (g) Such sums as may be necessary to carry out the provisions of this section are hereby authorized to be appropriated, and any sums so appropriated shall remain available until expended.

* * * * *

TITLE III—URBAN RENEWAL

STUDY OF HOUSING AND BUILDING CODES, ZONING, TAX POLICIES, AND
DEVELOPMENT STANDARDS

SEC. 301. (a) The Congress finds that the general welfare of the Nation requires that local authorities be encouraged and aided to prevent slums, blight, and sprawl, preserve natural beauty, and provide for decent, durable housing so that the goal of a decent home and a suitable living environment for every American family may be realized as soon as feasible. The Congress further finds that there is a need to study housing and building codes, zoning, tax policies, and development standards in order to determine how (1) local property owners and private enterprise can be encouraged to serve as large a part as they can of the total housing and building need, and (2) Federal, State, and local governmental assistance can be so directed as to place greater reliance on local property owners and private enterprise and enable them to serve a greater share of the total housing and building need. The [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* is therefore directed to study the structure of (1) State and local urban and suburban housing and building laws, standards, codes, and regulations and their impact on housing and building costs, how they can be simplified, improved, and enforced, at the local level, and what methods might be adopted to promote more uniform building codes and the acceptance of technical innovations including new building practices and materials; (2) State and local zoning and land use laws, codes, and regulations, to find ways by which States and localities may improve and utilize them in order to obtain further growth and development; and (3) Federal, State, and local tax policies with respect to their effect on land and property cost and on incentives to build housing and make improvements in existing structures.

(b) The [Administrator] *Secretary* shall submit a report based on such study to the President and to the Congress within 18 months after the date of the enactment of the Housing and Urban Development Act of 1965 or the appropriation of funds for the study, whichever is later.

(c) There are authorized to be appropriated such funds as may be necessary to carry out the purposes of this section. Any funds so appropriated shall remain available until expended.

* * * * *

ELIGIBILITY OF COMMUNITIES IN DEPRESSED AREAS FOR URBAN RENEWAL
ASSISTANCE

SEC. 313. (a) * * *

(b) The amendment made by subsection (a) shall apply only with respect to urban renewal projects placed under contract for capital grant on or after the date of the enactment of this Act, except that such amendment shall apply with respect to all urban renewal projects in the city of Providence, Rhode Island, placed under contract for capital grant during the period Providence was designated as a re-

development area under section (5a) of the Area Redevelopment Act (or at such earlier time as the [Administrator] *Secretary* may specify in order to avoid hardship) and not completed prior to the date of the enactment of this Act.

* * * * *

SPECIFIC URBAN RENEWAL PROJECTS

SEC. 315. (a) * * *

(8) Expenses incurred in the construction of the Glenn Duncan Elementary School and the Fred W. Traner Junior High School in Reno, Nevada, shall not be deemed to be ineligible as a local grant-in-aid in connection with the Northeast Urban Renewal Project (Nevada R-2) because of any change in the urban renewal plan for such project which is determined by the [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* to have resulted from the proposed location of a federally-aided highway within or adjacent to the urban renewal area in which such project was undertaken. For the purpose of computing the portion of the cost of such schools which may be allowed as a local grant-in-aid, the degree of benefit of the schools to such urban renewal area shall be based on the latest estimate of benefit submitted by the local public agency and accepted by the [Administrator] *Secretary* prior to such change in the urban renewal plan.

* * * * *

(b)(1) Notwithstanding the provisions of title I of the Housing Act of 1949 and the United States Housing Act of 1937, the [Housing and Home Finance Administrator and the Public Housing Commissioner are] *Secretary of Housing and Urban Development* is authorized and directed to consent to the transfer by the Housing Authority of the City of Macon, Georgia, to the Urban Renewal Department of the City of Macon, Georgia, of all property acquired by the Housing Authority for low-rent housing project numbered Georgia 7-8, on conditions that (A) an amount which, together with any funds of the Housing Authority available for the purpose, is sufficient to pay and discharge all obligations incurred by the Housing Authority in connection with such low-rent housing project and owing at the time of transfer, will be paid by the Urban Renewal Department of the City of Macon to the [Public Housing Administration] *Secretary* to be applied in satisfaction of the Housing Authority's obligations which it cannot meet with its own funds available for the purpose, and (B) the total amount so paid by the Urban Renewal Department of the City of Macon will be included in the gross project cost of its Coliseum Urban Renewal Project, Georgia R-95.

(2) The [Housing and Home Finance Administrator and the Public Housing Commissioner are] *Secretary of Housing and Urban Development* is authorized to modify any contracts heretofore entered into and to take any other appropriate action necessary to carry out the provisions of paragraph (1).

* * * * *

TITLE IV—COMPENSATION OF CONDEMNEDS

DEFINITIONS

SEC. 401. For the purposes of this title—

(1) the term “development program” means any program established by or conducted under any of the following provisions of law:

(A) the United States Housing Act of 1937;

(B) title I of the Housing Act of 1949;

(C) the Urban Mass Transportation Act of 1964;

(D) title II of the Housing Amendments of 1955;

(E) title VII of the Housing Act of 1961; and

(F) title VII of the Housing and Urban Development Act of 1965;

(2) the term “Federal assistance” means a grant, loan, contract of guaranty, annual contribution, or other assistance provided by the United States;

(3) the term “applicant” means any public body or other agency authorized to receive Federal assistance under a development program;

(4) the term “real property” means any land, or any interest in land, and (A) any building, structure, or other improvements embedded in or affixed to land, and any article so affixed or attached to such building, structure, or improvement as to be an essential or integral part thereof; (B) any article affixed or attached to such real property in such manner that it cannot be removed without material injury to itself or the real property; and (C) any article so designed, constructed, or specially adapted to the purpose for which such real property is used that (i) it is an essential accessory or part of such real property, (ii) it is not capable of use elsewhere, and (iii) it would lose substantially all its value if removed from the real property; and

[(5) the term “Administrator” means the Housing and Home Finance Administrator] (5) the term “Secretary” means the Secretary of Housing and Urban Development.

SEC. 402. As a condition of eligibility for Federal assistance pursuant to a development program, each applicant for such assistance shall satisfy the [Administrator] Secretary that the following policies will be followed in connection with the acquisition of real property by eminent domain in the course of such program—

(1) the applicant shall make every reasonable effort to acquire the real property by negotiated purchase;

(2) no owner shall be required to surrender possession of real property before the applicant pays to the owner (A) the agreed purchase price arrived at by negotiation, or (B) in any case where only the amount of the payment to the owner is in dispute, not

less than 75 per centum of the appraised fair value of such property as approved by the applicant; and

(3) the construction or development of any public improvements shall be so scheduled that no person lawfully occupying the real property shall be required to surrender possession on account of such construction or development without at least 90 days' written notice from the applicant of the date on which such construction or development is scheduled to begin.

FUNDS FOR CERTAIN PAYMENTS IN EMINENT DOMAIN

SEC. 403. Notwithstanding any other provision of law, financial assistance under any federally assisted development program may include amounts necessary for financing, in the same manner that other costs of a project assisted under such program are financed, the payments described in paragraph (2) (B) of section 402 of this Act.

RELOCATION PAYMENTS UNDER FEDERALLY ASSISTED DEVELOPMENT PROGRAMS

SEC. 404. (a) To the extent not otherwise authorized under any Federal law, financial assistance extended to an applicant under any federally assisted development program may include grants for relocation payments, as herein defined. Such grants may be in addition to other financial assistance under such federally assisted development programs, and may cover the full amount of such relocation payments. Any funds available for any such program may be used for such grants. The term "relocation payments" means payments by the applicant, to a displaced individual, family, business concern, or non-profit organization, which are made on such terms and conditions and subject to such limitations (to the extent applicable, but not including the date of displacement) as are provided for relocation payments, at the time such payments are approved, by sections 114 (b), (c), and (d) of the Housing Act of 1949 with respect to projects assisted under title I thereof. Relocation payments authorized by this subsection shall be made subject to such rules and regulations as may be prescribed by the [Administrator] *Secretary*.

* * * * *

TITLE VII—COMMUNITY FACILITIES

PURPOSE

SEC. 701. The purpose of this title is to assist and encourage the communities of the Nation fully to meet the needs of their citizens by making it possible, with Federal grant assistance, for their governmental bodies (1) to construct adequate basic water and sewer facilities needed to promote the efficient and orderly growth and development of our communities, (2) to construct neighborhood facilities needed to enable them to carry on programs of necessary social services, and (3) to acquire, in a planned and orderly fashion, land to be utilized in connection with the future construction of public works and facilities.

GRANTS FOR BASIC WATER AND SEWER FACILITIES

SEC. 702. (a) The [Housing and Home Financing Administrator (hereinafter in this title referred to as the "Administrator")] *Secretary of Housing and Urban Development (hereinafter in this title referred to as the "Secretary")* is authorized to make grants to local public bodies and agencies to finance specific projects for basic public water facilities (including works for the storage, treatment, purification, and distribution of water), and for basic public sewer facilities (other than "treatment works" as defined in the Federal Water Pollution Control Act) : *Provided*, That no grants shall be made under this section for any sewer facilities unless the Secretary of Health, Education, and Welfare certifies to the [Administrator] *Secretary* that any waste material carried by such facilities will be adequately treated before it is discharged into any public waterway so as to meet applicable Federal, State, interstate, or local water quality standards.

(b) The amount of any grant made under the authority of this section shall not exceed 50 per centum of the development cost of the project: *Provided*, That in the case of a community having a population of less than ten thousand, according to the most recent decennial census, which is situated within a metropolitan area, the [Administrator] *Secretary* may increase the amount of a grant for a basic public sewer facility assisted under this section to not more than 90 per centum of the development cost of such facility, if the community is unable to finance the construction of such facility without the increased grant authorized under this subsection, and if in such community (1) there does not exist a public or other adequate sewer facility which serves a substantial portion of the inhabitants of the community, and (2) the rate of unemployment is, and has been continuously for the preceding calendar year, 100 per centum above the national average: *And provided further*, That the limitations and restrictions contained in subsection (c) of this section shall not be applicable to any community applying for an increased grant under this subsection.

(c) No grant shall be made under this section in connection with any project unless the [Administrator] *Secretary* determines that the project is necessary to provide adequate water or sewer facilities for, and will contribute to the improvement of the health or living standards of, the people in the community to be served, and that the project is (1) designed so that an adequate capacity will be available to serve the reasonably foreseeable growth needs of the area; (2) consistent with a program meeting criteria, established by the [Administrator] *Secretary*, for a unified or officially coordinated areawide water or sewer facilities system as part of the comprehensively planned development of the area, except that prior to July 1, 1968, grants may, in the discretion of the [Administrator] *Secretary*, be made under this section when such a program for an areawide water and sewer facilities system is under active preparation, although not yet completed, if the facility or facilities for which assistance is sought can reasonably be expected to be required as a part of such program, and there is urgent need for the facility or facilities; and (3) necessary to orderly community development.

GRANTS FOR NEIGHBORHOOD FACILITIES

SEC. 703. (a) In accordance with the provisions of this section, the [Administrator] *Secretary* is authorized to make grants to any local public body or agency to assist in financing specific projects for neighborhood facilities.. Any such project may be undertaken by such body or agency directly or through a nonprofit organization approved by it: *Provided*, That no grant shall be provided under this section for any project to be undertaken through a nonprofit organization unless the [Administrator] *Secretary* determines (1) that such organization has or will have the legal, financial, and technical capacity to carry out the project, and (2) that the public body or agency to which the grant is made will have satisfactory continuing control over the use of the proposed facilities.

(b) The amount of any grant made under the authority of this section shall not exceed $66\frac{2}{3}$ per centum of the development cost of the project for which the grant is made (or 75 per centum of such cost in the case of a project located in an area which at the time the grant is made is designated as a redevelopment area under the Area Redevelopment Act or any Act supplementary thereto).¹

(c) No grant shall be made under this section for any project unless the [Administrator] *Secretary* determines that the project will provide a neighborhood facility which is (1) necessary for carrying out a program of health, recreational, social, or similar community service (including a community action program approved under title II of the Economic Opportunity Act of 1964)² in the area, (2) consistent with comprehensive planning for the development of the community, and (3) so located as to be available for use by a significant portion (or number in the case of large urban places) of the area's low- or moderate-income residents.

(d) For a period of twenty years after a grant has been made under this section for a neighborhood facility, such facility shall not, without the approval of the [Administrator] *Secretary*, be converted to uses other than those proposed by the applicant in its application for a grant. The [Administrator] *Secretary* shall not approve any conversion in the use of such a neighborhood facility during such twenty-year period unless he finds that such conversion is in accordance with the then applicable program of health, recreational, social, or similar community services in the area and consistent with comprehensive planning for the development of the community in which the facility is located. In approving any such conversion, the [Administrator] *Secretary* may impose such additional conditions and requirements as he deems necessary.

(e) The [Administrator] *Secretary* shall give priority to applications for projects designed primarily to benefit members of low-income families or otherwise substantially further the objectives of a community action program approved under title II of the Economic Opportunity Act of 1964.

ADVANCE ACQUISITION OF LAND

SEC. 704. (a) In order to encourage and assist in the timely acquisition of land planned to be utilized in connection with the future construction of public works or facilities, the [Administrator] *Secretary*

is authorized to make grants to local public bodies and agencies to assist in financing the acquisition of a fee simple estate or other interest in such land.

(b) The amount of any grant made under the authority of this section shall not exceed the aggregate amount of reasonable interest charges on the loan or other financial obligation incurred to finance the acquisition of such land for a period not exceeding the lesser of (1) five years from the date such loan was made or such financial obligation was incurred, or (2) the period of time between the date such loan was made or such financial obligation was incurred and the date construction is begun on the public work or facility for which the land acquired was planned to be utilized.

(c) No grant shall be made under this section for any project for the acquisition of land unless the [Administrator] *Secretary* determines that the public work or facility for which such land is to be utilized is planned to be constructed or initiated within a reasonable period of time (not to exceed five years after a contract to make such grant is entered into) and that construction of such public work or facility will contribute to economy, efficiency, and the comprehensively planned development of the area.

(d) As a condition to providing assistance under this section, the [Administrator] *Secretary* may, under terms and conditions prescribed by him, require an applicant to agree to repay such assistance, if (1) the land purchased with such assistance is not utilized within five years after the agreement is entered into in connection with the construction of the public work or facility for which such land was acquired, or (2) such land is diverted to other uses.

GENERAL PROVISIONS

SEC. 705. (a) In the performance of, and with respect to, the functions, powers, and duties vested in him by this title, the [Administrator] *Secretary* shall (in addition to any authority otherwise vested in him) have the functions, powers, and duties set forth in section 402, except subsections (a), (c)(2), and (f) of the Housing Act of 1950.

(b) The [Administrator] *Secretary* is authorized, notwithstanding the provisions of section 3648 of the Revised Statutes, to make advance or progress payments on account of any grant made pursuant to this title. No part of any grant authorized to be made by the provisions of this title shall be used for the payment of ordinary governmental operating expenses.

DEFINITIONS

SEC. 706. As used in this title—

(a) The term “State” means the several States, the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States.

(b) The term “local public bodies and agencies” includes public corporate bodies or political subdivisions; public agencies or instrumentalities of one or more States, municipalities, or political subdivisions of one or more States (including public agencies and instrumentalities of one of more municipalities or other political subdivisions of one or more States); Indian tribes; and boards or commissions

established under the laws of any State to finance specific capital improvement projects.

(c) The term "development cost" means the cost of constructing the facility and of acquiring the land on which it is located, including necessary site improvements to permit its use as a site for the facility.

LABOR STANDARDS

SEC. 707. All laborers and mechanics employed by contractors or subcontractors on projects assisted under sections 702 and 703 shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5). No such project shall be approved without first obtaining adequate assurance that these labor standards will be maintained upon the construction work. The Secretary of Labor shall have, with respect to the labor standards specified in this section, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276c).

APPROPRIATIONS

SEC. 708. (a) There are authorized to be appropriated for each fiscal year commencing after June 30, 1965, and ending prior to July 1, 1969, not to exceed (1) \$200,000,000 for grants under section 702, (2) \$50,000,000 for grants under section 703, and (3) \$25,000,000 for grants under section 704.

(b) Any amounts appropriated under this section shall remain available until expended, and any amounts authorized for any fiscal year under this section but not appropriated may be appropriated for any succeeding fiscal year commencing prior to July 1, 1969.

* * * * *

TITLE XI—MISCELLANEOUS

* * * * *

STUDY CONCERNING RELIEF OF HOMEOWNERS IN PROXIMITY TO AIRPORTS

SEC. 1113. (a) The [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* shall undertake a study to determine feasible methods of reducing the economic loss and hardship suffered by homeowners as the result of the depreciation in the value of their properties following the construction of airports in the vicinity of their homes, including a study of feasible methods of insulating such homes from the noise of aircraft. Findings and recommendations resulting from such study shall be reported to the President for transmission to the Congress at the earliest practicable date, but in no event later than [one year after the date of the enactment of this Act] *six months after the date of the enactment of the Housing and Urban Development Act of 1966.*

(b) *There is authorized to be appropriated the sum of \$100,000 to carry out subsection (a).*

SECTION 5136 OF THE REVISED STATUTES

SEC. 5136. Upon duly making and filing articles of association and an organization certificate a national banking association shall become, as from the date of the execution of its organization certificate, a body corporate, and as such, and in the name designated in the organization certificate, it shall have power—

* * * * *

Seventh. To exercise by its board of directors or duly authorized officers or agents, subject to law, all such incidental powers as shall be necessary to carry on the business of banking; by discounting and negotiating promissory notes, drafts, bills of exchange, and other evidences of debt; by receiving deposits; by buying and selling exchange, coin, and bullion; by loaning money on personal security; and by obtaining, issuing and circulating notes according to the provisions of this chapter. The business of dealing in securities and stock by the association shall be limited to purchasing and selling such securities and stock without recourse, solely upon the order, and for the account of, customers, and in no case for its own account, and the association shall not underwrite any issue of securities or stock: *Provided*, That the association may purchase for its own account investment securities under such limitations and restrictions as the Comptroller of the Currency may by regulation prescribe. In no event shall the total amount of the investment securities of any one obligor or maker, held by the association for its own account, exceed at any time 10 per centum of its capital stock actually paid in and unimpaired and 10 per centum of its unimpaired surplus fund, except that this limitation shall not require any association to dispose of any securities lawfully held by it on August 23, 1935. As used in this section the term "investment securities" shall mean marketable obligations, evidencing indebtedness of any person, copartnership, association, or corporation in the form of bonds, notes and/or debentures commonly known as investment securities under such further definition of the term "investment securities" as may by regulation be prescribed by the Comptroller of the Currency. Except as hereinafter provided or otherwise permitted by law, nothing herein contained shall authorize the purchase by the association for its own account of any shares of stock of any corporation. The limitations and restrictions herein contained as to dealing in, underwriting and purchasing for its account, investment securities shall not apply to obligations of the United States, or general obligations of any State or of any political subdivision thereof, or obligations issued under authority of the Federal Farm Loan Act, as amended, or issued by the thirteen banks for co-operatives of any of them or the Federal Home Loan Banks, *or obligations which are insured by the Secretary of Housing and Urban Development under title XI of the National Housing Act* or obligations which are insured by the [Federal Housing Administrator] *Secretary of Housing and Urban Development (hereafter in this sentence referred to as the "Secretary")* pursuant to section 1713 of this title, if the debentures to be issued in payment of such insured obligations are guaranteed as to principal and interest by the United States, or obligations, participations, or other instruments of or issued by the Federal National Mortgage Association, or such obligations of any

local public agency (as defined in section 1460(h) of Title 42) as are secured by an agreement between the local public agency and the [Housing and Home Finance Administrator] *Secretary* in which the local public agency agrees to borrow from said [Administrator] *Secretary*, and said [Administrator] *Secretary* agrees to lend to said local public agency monies in an aggregate amount which (together with any other monies irrevocably committed to the payment of interest on such obligations) will suffice to pay, when due, the interest on and all installments (including the final installment) of the principal of such obligations, which monies under the terms of said agreement are required to be used for such payments, or such obligations of a public housing agency (as defined in the United States Housing Act of 1937, as amended) as are secured either (1) by an agreement between the public housing agency and the [Public Housing Administration] *Secretary* in which the public housing agency agrees to borrow from the [Public Housing Administration] *Secretary*, and the [Public Housing Administration] *Secretary* agrees to lend to the public housing agency, prior to the maturity of such obligations (which obligations shall have a maturity of not more than eighteen months), monies in an amount which (together with any other monies irrevocably committed to the payment of interest on such obligations) will suffice to pay the principal of such obligations with interest to maturity thereon, which monies under the terms of said agreement are required to be used for the purpose of paying the principal of and the interest on such obligations at their maturity, or (2) by a pledge of annual contributions under an annual contributions contract between such public housing agency and the [Public Housing Administration] *Secretary* if such contract shall contain the covenant by the [Public Housing Administration] *Secretary* which is authorized by section 1421a(b) of Title 42, and if the maximum sum and the maximum period specified in such contract pursuant to section 1421a(b) of Title 42 shall not be less than the annual amount and the period for payment which are requisite to provide for the payment when due of all installments of principal and interest on such obligations: *Provided*, That in carrying on the business commonly known as the safe-deposit business the association shall not invest in the capital stock of a corporation organized under the law of any State to conduct a safe-deposit business in an amount in excess of 15 per centum of the capital stock of the association actually paid in and unimpaired and 15 per centum of its unimpaired surplus. The limitations and restrictions herein contained as to dealing in and underwriting investment securities shall not apply to obligations issued by the International Bank for Reconstruction and Development or the Inter-American Development Bank which are at the time eligible for purchase by a national bank for its own account, nor to bonds, notes and other obligations issued by the Tennessee Valley Authority: *Provided*, That no association shall hold obligations issued by any of said organizations as a result of underwriting, dealing, or purchasing for its own account (and for this purpose obligations as to which it is under commitment shall be deemed to be held by it) in a total amount exceeding at any one time 10 per centum of its capital stock actually paid in and unimpaired and 10 per centum of its unimpaired surplus fund.

SECTION 5200 OF THE REVISED STATUTES

SEC. 5200. The total obligations to any national banking association of any person, copartnership, association, or corporation shall at no time exceed 10 per centum of the amount of the capital stock of such association actually paid in and unimpaired and 10 per centum of its unimpaired surplus fund. The term "obligations" shall mean the direct liability of the maker or acceptor of paper discounted with or sold to such association and the liability of the indorser, drawer, or guarantor who obtains a loan from or discounts paper with or sells paper under his guaranty to such association and shall include in the case of obligations of a copartnership or association the obligations of the several members thereof and shall include in the case of obligations of a corporation all obligations of all subsidiaries thereof in which such corporation owns or controls a majority interest. Such limitation of 10 per centum shall be subject to the following exceptions:

* * * * *

(11) Obligations of a local public agency (as defined in section 1460(h) of Title 42) or of a public housing agency (as defined in the United States Housing Act of 1937, as amended) which have a maturity of not more than eighteen months shall not be subject under this section to any limitation, if such obligations are secured by an agreement between the obligor agency and the [Housing and Home Finance Administrator or the Public Housing Administration] *Secretary of Housing and Urban Development* in which the agency agrees to borrow from the [Administrator or Administration] *Secretary*, and the [Administrator or Administration] *Secretary* agrees to lend to the agency, prior to the maturity of such obligations, monies in an amount which (together with any other monies irrevocably committed to the payment of interest on such obligations) will suffice to pay the principal of such obligations with interest to maturity, which monies under the terms of said agreement are required to be used for that purpose.

* * * * *

SECTION 24 OF THE FEDERAL RESERVE ACT

LOANS ON FARM LANDS

SEC. 24. Any national banking association may make real estate loans secured by first liens upon improved real estate, including improved farmland and improved business and residential properties. A loan secured by real estate within the meaning of this section shall be in the form of an obligation or obligations secured by a mortgage, trust deed, or other instrument upon real estate, which shall constitute a first lien on real estate in fee simple or, under such rules and regulations as may be prescribed by the Comptroller of the Currency, on a leasehold under a lease which does not expire for at least 10 years beyond the maturity date of the loan, and any national banking association may purchase any obligation so secured when the entire amount of such obligation is sold to the association. The amount of any such loan hereafter made shall not exceed 50 per centum of the ap-

praised value of the real estate offered as security and no such loan shall be made for a longer term than five years; except that (1) any such loan may be made in an amount not to exceed $66\frac{2}{3}$ per centum of the appraised value of the real estate offered as security and for a term not longer than ten years if the loan is secured by an amortized mortgage, deed of trust, or other such instrument under the terms of which the installment payments are sufficient to amortize 40 per centum or more of the principal of the loan within a period of not more than ten years (2) any such loan may be made in an amount not to exceed $66\frac{2}{3}$ per centum of the appraised value of the real estate offered as security and for a term not longer than twenty years if the loan is secured by an amortized mortgage, deed of trust, or other such instrument under the terms of which the installment payments are sufficient to amortize the entire principal of the loan within a period of not more than twenty years, and (3) any such loan may be made in an amount not to exceed 80 per centum of the appraised value of the real estate offered as security and for a term not longer than twenty-five years if the loan is secured by an amortized mortgage, deed of trust, or other such instrument under the terms of which the installment payments are sufficient to amortize the entire principal of the loan within the period ending on the date of its maturity, and (4) the foregoing limitations and restrictions shall not prevent the renewal or extension of loans heretofore made and shall not apply to real estate loans which are insured under the provisions of sections 1707—1715, 1715b—1715r, 1736—1746a, 1748—1748h, 1706c of this title, or subchapter X of chapter 13 of this title or which are insured by the Secretary of Agriculture pursuant to sections 1001—1005d of title 7, or sections 590r to 590x-3 of title 16, or sections 1471—1484 of title 42, *or which are insured by the Secretary of Housing and Urban Development pursuant to title XI of the National Housing Act*, and shall not apply to real estate loans which are fully guaranteed or insured by a State, or by a State authority for the payment of the obligations of which the faith and credit of the State is pledged, if under the terms of the guaranty or insurance agreement the association will be assured of repayment in accordance with the terms of the loan. Notwithstanding the foregoing limitations and restrictions in this section, any national banking association may make loans for land development which are secured by mortgages insured under title X of the National Housing Act. No such association shall make such loans in an aggregate sum in excess of the amount of the capital stock of such association paid in and unimpaired plus the amount of its unimpaired surplus fund, or in excess of 70 per centum of the amount of its time and savings deposits, whichever is the greater. Any such association may continue hereafter as heretofore to receive time and savings deposits and to pay interest on the same, but the rate of interest which such association may pay upon such time deposits or upon savings or other deposits shall not exceed the maximum rate authorized by law to be paid upon such deposits by State banks or trust companies organized under the laws of the State in which such association is located.

Any national banking association may make real estate loans secured by first liens upon forest tracts which are properly managed

in all respects. Such loans shall be in the form of an obligation or obligations secured by mortgage, trust deed, or other such instrument; and any national banking association may purchase any obligation so secured when the entire amount of such obligation is sold to the association. The amount of any such loan shall not exceed 60 per centum of the appraised fair market value of the growing timber, lands, and improvements thereon offered as security and the loan shall be made upon such terms and conditions as to assure that at no time shall the loan balance exceed 60 per centum of the original appraised total value of the property then remaining. No such loan shall be made for a longer term than three years; except that any such loan may be made for a term not longer than fifteen years if the loan is secured by an amortized mortgage, deed of trust, or other such instrument under the terms of which the installment payments are sufficient to amortize the principal of the loan within a period of not more than fifteen years and at a rate of at least $6\frac{2}{3}$ per centum per annum. All such loans secured by first liens upon forest tracts shall be included in the permissible aggregate of all real estate loans prescribed in the preceding paragraph, but no national banking association shall make forest-tract loans in an aggregate sum in excess of 50 per centum of its capital stock paid in and unimpaired plus 50 per centum of its unimpaired surplus fund.

Loans made to finance the construction of industrial or commercial buildings and having maturities of not to exceed twenty-four months where there is a valid and binding agreement entered into by a financially responsible lender to advance the full amount of the bank's loan upon completion of the buildings and loans made to finance the construction of residential or farm buildings and having maturities of not to exceed twenty-four months, shall not be considered as loans secured by real estate within the meaning of this section but shall be classed as ordinary commercial loans whether or not secured by a mortgage or similar lien on the real estate upon which the building or buildings are being constructed: *Provided*, That no national banking association shall invest in, or be liable on, any such loans in an aggregate amount in excess of 100 per centum of its actually paid-in and unimpaired capital plus 100 per centum of its unimpaired surplus fund. Notes representing loans made under this section to finance the construction of residential or farm buildings and having maturities of not to exceed nine months shall be eligible for discount as commercial paper within the terms of section 343 of this title if accompanied by a valid and binding agreement to advance the full amount of the loan upon the completion of the building entered into by an individual, partnership, association, or corporation acceptable to the discounting bank.

Loans made to established industrial or commercial businesses (a) which are in whole or in part discounted or purchased or loaned against as security by a Federal Reserve bank under the provisions of section 352a of this title, (b) for any part of which a commitment shall have been made by a Federal Reserve bank under the provisions of said section, (c) in the making of which a Federal Reserve bank participates under the provisions of said section, or (d) in which the Reconstruction Finance Corporation or the [Housing and Home Fi-

nance Administrator] *Secretary of Housing and Urban Development* cooperates or purchases a participation under the provisions of the Reconstruction Finance Corporation Act, as amended, or of section 1701g or 1701g—1 of this title, shall not be subject to the restrictions or limitations of this section upon loans secured by real estate. Loans in which the Small Business Administration cooperates through agreements to participate on an immediate or deferred basis under the Small Business Act shall not be subject to the restrictions or limitations of this section imposed upon loans secured by real estate. Home improvement loans which are insured under the provisions of section 1709(k) or 1715(h) of this title may be made without regard to the first lien requirements of this section.

Loans made to manufacturing and industrial businesses where the association looks for repayment out of the operations of the borrower's business, relying primarily on the borrower's general credit standing and forecast of operations, with or without other security, but wishes to take a mortgage on the borrower's real estate as a precaution against contingencies, shall not be considered as real estate loans within the meaning of this section but shall be classed as ordinary commercial loans.

SECTION 304(a) OF THE TRUST INDENTURE ACT OF 1939

EXEMPTED SECURITIES AND TRANSACTIONS

SEC. 304. (a) The provisions of this title shall not apply to any of the following securities:

(1) any security other than (A) a note, bond, debenture, or evidence of indebtedness, whether or not secured, or (B) a certificate of interest or participation in any such note, bond, debenture, or evidence of indebtedness, or (C) a temporary certificate for, or guarantee of, any such note, bond, debenture, evidence of indebtedness, or certificate;

(2) any certificate of interest or participation in two or more securities having substantially different rights and privileges, or a temporary certificate for any such certificate;

(3) any security which, prior to or within six months after the enactment of this title, has been sold or disposed of by the issuer or bona fide offered to the public, but this exemption shall not apply to any new offering of any such security by an issuer subsequent to such six months;

(4) any security exempted from the provisions of the Securities Act of 1933, as heretofore amended, by paragraph (2), (3), (4), (5), (6), (7), (8), or (11) of subsection 3 (a) thereof;

(5) any security issued under a mortgage indenture as to which a contract of insurance under the National Housing Act is in effect; and any such security shall be deemed to be exempt from the provisions of the Securities Act of 1933 to the same extent as though such security were specifically enumerated in section 3 (a) (2) of such Act;

(6) any note, bond, debenture, or evidence of indebtedness issued or guaranteed by a foreign government or by a subdivision, department, municipality, agency, or instrumentality thereof;

(7) any guarantee of any security which is exempted by this subsection;

(8) any security which has been or is to be issued otherwise than under an indenture, but this exemption shall not be applied within a period of twelve consecutive months to more than \$250,000 aggregate principal amount of any securities of the same issuer; **[or]**

(9) any security which has been or is to be issued under an indenture which limits the aggregate principal amount or securities at any time outstanding thereunder to \$1,000,000 or less, but this exemption shall not be applied within a period of thirty-six consecutive months to more than \$1,000,000 aggregate principal amount of securities of the same issuer **[.]**; or

(10) *any security issued under a mortgage or trust deed indenture as to which a contract of insurance under title XI of the National Housing Act is in effect; and any such security shall be deemed to be exempt from the provisions of the Securities Act of 1933 to the same extent as though such security were specifically enumerated in section 3(a)(2), as amended, of the Securities Act of 1933 (15 U.S.C. 77c (a)(2)).*

In computing the aggregate principal amount of securities to which the exemptions provided by paragraphs (8) and (9) may be applied, securities to which the provisions of sections 305 and 306 would not have applied, irrespective of the provisions of these paragraphs, shall be disregarded.

SECTION 263 OF THE BANKRUPTCY ACT

SEC. 263. Nothing contained in this chapter shall be deemed to affect or apply to the creditors of any corporation under a mortgage insured pursuant to the National Housing Act and Acts amendatory thereof and supplementary thereto. *Nothing contained in this chapter shall be deemed to affect or apply to the creditors of any corporation under a mortgage insured pursuant to title XI of the National Housing Act.*

SECTION 2 OF THE ACT OF AUGUST 10, 1949

SEC. 2. **[The land]** (a) *Except as provided in subsection (b) of this section, the land authorized to be conveyed by the first section of this Act shall be used by the grantee for purposes of a site for a National Guard Armory and for training the National Guard or for other military purposes, and the conveyance of such land shall contain the express condition that if the grantee shall fail or cease to use such land for such purposes, or shall alienate or attempt to alienate such land, title thereto shall, at the option of the United States, revert to the United States.*

(b) *The Secretary of Housing and Urban Development shall execute the necessary instrument or instruments to provide that a certain portion of land, not to exceed two acres, on the easterly side of the land described in the first section of this Act, as more particularly determined and designated by the Secretary of the Army, may be used for civil defense or other emergency preparedness purposes or the purposes stated in subsection (a) and that such use shall not cause the reverter clause set forth herein to become operable.*

SECTION 20 OF THE DISTRICT OF COLUMBIA REDEVELOPMENT ACT OF 1945

SEC. 20. (a) As an alternative method of financing its authorized operations and functions under the provisions of this Act (in addition to that provided in section 16 of this Act), the Agency is hereby authorized and empowered to accept financial assistance from the [Housing and Home Finance Administrator (hereafter in this section referred to as the Administrator)] *Secretary of Housing and Urban Development (hereinafter in this section referred to as the Secretary)*, in the form of advances of funds, loans, and capital grants pursuant to title I of the Housing Act of 1949, as amended, to assist the Agency in acquiring real property for redevelopment of project areas and carrying out any functions authorized under this Act for which advances of funds, loans, or capital grants may be made to a local public agency under title I of the Housing Act of 1949, as amended, and the Agency, subject to the approval of the District Commissioners and subject to such terms, covenants, and conditions as may be prescribed by the [Administrator] *Secretary* pursuant to title I of the Housing Act of 1949, as amended, may enter into such contracts and agreements as may be necessary, convenient, or desirable for such purposes.

(b) Subject to the approval of the District Commissioners, the Agency is authorized to accept from the [Administrator] *Secretary* advances of funds for surveys and plans in preparation of a project or projects authorized by this Act which may be assisted under title I of the Housing Act of 1949, as amended, and the Agency is authorized to transfer to the Planning Commission so much of the funds so advanced as the District Commissioners shall determine to be necessary for the Planning Commission to carry out its functions under this Act with respect to the project or projects to be assisted under title I of the Housing Act of 1949 as amended.

(c) The District Commissioners are authorized to include in their annual estimates of appropriations items for administrative expenses which, in addition to loan or other funds available therefor, are necessary for the Agency in carrying out its functions under this section.

(d) Notwithstanding the limitation contained in the last sentence of section 110(d) or in any other provision of title I of the Housing Act of 1949, as amended, the [Administrator] *Secretary* is authorized to allow and credit to the Agency such local grants-in aid as are approvable pursuant to said section 110(d), with respect to any project or projects undertaken by the Agency under a contract or contracts

entered into under this section and assisted under title I of the Housing Act of 1949, as amended. In the event of such local grants-in-aid as are so allowed by the [Administrator] *Secretary* are not sufficient to meet the requirements for local grants-in-aid pursuant to title I of the Housing Act of 1949, as amended, the District Commissioners are hereby authorized to enter into agreements with the Agency, upon which agreements the [Administrator] *Secretary* may rely, to make cash payments of such deficiencies from funds of the District of Columbia. The District Commissioners shall include items for such cash payments in their annual estimates of appropriations, and there are hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, the amounts necessary to provide for such cash payments. Any amounts due the [Administrator] *Secretary* pursuant to any such agreements shall be paid promptly from funds appropriated for such purpose.

(e) All receipts of the Agency in connection with any project or projects financed in accordance with this section with assistance under title I of the Housing Act of 1949, as amended, whether in the form of advances of funds, loans, or capital grants made by the [Administrator] *Secretary* to the Agency, or in the form of proceeds, rentals, or revenues derived by the Agency from any such project or projects, shall be deposited in the Treasury of the United States to the credit of a special fund or funds, and all moneys in such special fund or funds are hereby made available for carrying out the purposes of this Act with respect to such project or projects, including the payment of any advances of funds or loans, together with interest thereon, made by the [Administrator] *Secretary* or by private sources to the Agency. Expenditures from such fund shall be audited, disbursed, and accounted for as are other funds of the District of Columbia.

(f) With respect to any project or projects undertaken by the Agency which are financed in accordance with this section with assistance under title I of the Housing Act of 1949, as amended—

(1) sections 3(f), 3(k), and 7(g), and the last sentence of section 6(b)(2) of this Act shall not be applicable to those pieces of real property which in accordance with the approved project area redevelopment plan, are to be devoted to public housing to be undertaken under Public Law 307, Seventy-third Congress, approved June 12, 1934, as amended;

(2) the site and use plan for the redevelopment of the area, included in the redevelopment plan of the project area pursuant to section 6(b)(2) of this Act, shall include the approximate extent and location of any land within the area which is proposed to be used for public housing to be undertaken under Public Law 307, Seventy-third Congress, approved June 12, 1934, as amended;

(3) notwithstanding any other provisions of this Act, the Agency, pursuant to section 7(a) of this Act, shall have power to transfer to and shall at a practicable time or times transfer by deeds to the National Capital Housing Authority those pieces of real property which, in accordance with the approved project area redevelopment plan, are to be devoted to public housing to be undertaken under Public Law 307, Seventy-third Congress, approved June 12, 1934, as amended, and, in accordance with the

requirements of section 107 of the Housing Act of 1949, as amended, the National Capital Housing Authority shall pay for the same out of any of its funds available for such acquisition.

(g) It is the purpose and intent of this section to authorize the District Commissioners and the appropriate agencies operating within the District of Columbia to do any and all things necessary to secure financial aid under title I of the Housing Act of 1949, as amended. The District of Columbia Redevelopment Land Agency is hereby declared to be a local public agency for all of the purposes of title I of the Housing Act of 1949, as amended. As such a local public agency for all of the purposes of title I of the Housing Act of 1949, as amended, the Agency is also authorized to borrow money from the [Administrator] *Secretary* or from private sources as contemplated by title I of the Housing Act of 1949, as amended, to issue its obligations evidencing such loans, and to pledge as security for the payment of such loans, and the interest thereon, the property, income, revenues, and other assets acquired in connection with the project or projects financed in accordance with this section with assistance under title I of the Housing Act of 1949, as amended, but such obligations or such pledge shall not constitute a debt or obligation of either the United States or of the District of Columbia.

(h) Nothing contained in this section or in any other section of this Act shall relieve the [Administrator] *Secretary* of his responsibilities and duties under section 105(c) or any other section of the Housing Act of 1949, as amended. The [Administrator] *Secretary* shall not enter into any contract of financial assistance under title I of this Act with respect to any project of the District of Columbia Redevelopment Land Agency for which a budget estimate of appropriation was transmitted pursuant to law and for which no appropriation was made by the Congress.

(i) In addition to its authority under any other provision of this Act, the Agency is hereby authorized to plan and undertake urban renewal projects (as such projects are defined in title I of the Housing Act of 1949, as amended), and in connection therewith the Agency, the District Commissioners, the National Capital Planning Commission, and the other appropriate agencies operating within the District of Columbia shall have all of the rights and powers which they have with respect to a project or projects financed in accordance with the preceding subsection of this section: *Provided*, That for the purpose of this subsection the word "redevelopment" wherever found in this Act (except in section 3(n)) shall mean "urban renewal", and the references in section 6 to the acquisition, disposition, or assembly of real property for a project shall mean the undertaking of an urban renewal project.

(j) The District Commissioners are hereby authorized to prepare a workable program as prescribed by section 101(c) of the Housing Act of 1949, as amended, and are also authorized to request the necessary funds for the preparation of said workable program. The Commissioners may request the participation of the Agency in the preparation of said workable program and may include in their annual estimates of appropriations such funds as may be required by the Commissioners or the Agency, or both, for this purpose. The District Commissioners are hereby authorized, with or without reimbursement,

to cooperate with the Agency in carrying out urban renewal projects and to utilize for that purpose the facilities and personnel of the District of Columbia under agreement with the Agency.

SECTION 101 OF THE GOVERNMENT CORPORATION CONTROL ACT

TITLE I—WHOLLY OWNED GOVERNMENT CORPORATIONS

SEC. 101. As used in this Act the term "wholly owned Government corporation" means the Commodity Credit Corporation; Regional Agricultural Credit Corporations; Farmers Home Corporation; Federal Crop Insurance Corporation; Federal Surplus Commodities Corporation; Reconstruction Finance Corporation; Defense Plant Corporation; Defense Supplies Corporation; Metals Reserve Company; Rubber Reserve Company; War Damage Corporation; Federal National Mortgage Association; the RFC Mortgage Company; Disaster Loan Corporation; Inland Waterways Corporation; Warrior River Terminal Company; Virgin Islands Corporation; Federal Prison Industries, Incorporated; United States Spruce Production Corporation; Development Loan Fund; Institute of Inter-American Affairs; Institute of Inter-American Transportation; Inter-American Educational Foundation, Incorporated; Inter-American Navigation Corporation; Prencin-radio, Incorporated; Cargoes, Incorporated; Export-Import Bank of Washington; Petroleum Reserves Corporation; Rubber Development Corporation; U. S. Commercial Company; Smaller War Plants Corporation; [Federal Public Housing Authority (or Public Housing Administration)] *United States Housing Authority* and including public housing projects financed from appropriated funds and operations thereof; Defense Homes Corporation; Federal Savings and Loan Insurance Corporation; Home Owner's Loan Corporation; United States Housing Corporation; Federal Housing Administration; Saint Lawrence Seaway Development Corporation; Panama Canal Company; Tennessee Valley Authority; and Tennessee Valley Associated Cooperatives, Incorporated.

SECTION 602(d) OF THE FEDERAL PROPERTY AND ADMINISTRATIVE SERVICES ACT OF 1949

REPEAL AND SAVING PROVISIONS

SEC. 602. (a) * * *

* * * * *

(d) Nothing in this Act shall impair or affect any authority of—

* * * * *

(11) the [Housing and Home Finance Agency, or any officer or constituent agency therein,] *Department of Housing and Urban Development or any officer thereof* with respect to the dis-

posals of residential property, or of other property (real or personal) held as part of or acquired for or in connection with residential property, or in connection with the insurance of mortgages, loans, or savings and loan accounts under the National Housing Act;

* * * * *

SECTION 304 OF THE TERRITORIAL ENABLING ACT OF 1950

TITLE III—SLUM CLEARANCE, URBAN REDEVELOPMENT, URBAN RENEWAL, AND LOW-RENT HOUSING IN THE VIRGIN ISLANDS

* * * * *

SEC. 304. Notwithstanding the limitation contained in the last sentence of section 110(d) or in any other provision of title I of the Housing Act of 1949 (Public Law 171, Eighty-first Congress), as amended, the [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* is hereby authorized to allow and credit to such authority as may be created for the Virgin Islands under this Act, as amended, (1) such local grants-in-aid as are otherwise approvable pursuant to the first sentence of said section 110(d) with respect to any slum clearance and urban redevelopment or urban renewal project or projects undertaken by such authority with Federal assistance made available under title I of the Housing Act of 1949, as amended, and (2) such grants-in-aid made or assistance given to the local community by any Federal department or agency pursuant to authority of law other than the Housing Act of 1949 which would, if made or given by a State or local community, be approvable pursuant to said first sentence of section 110(d) with respect to any such project or projects so undertaken.

SECTIONS 32 AND 62 OF THE ATOMIC ENERGY COMMUNITY ACT OF 1955

SEC. 32. APPRAISALS.—The Commission shall proceed to secure appraisals of all property at the community which is to be sold pursuant to this Act. The appraisals shall be made by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* or his designee. The [Federal Housing Commissioner] *Secretary of Housing and Urban Development* shall be reimbursed from the Community Disposal Operations Fund for the cost of such appraisals. Appraisals made under this section shall be the appraisals on which the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* may insure any mortgage or loan under the National Housing Act until such time as he finds that the appraisal values generally in the community no longer represent the fair market values of the properties.

* * * * *

SEC. 62. COMMISSION FINANCING.—

a. In the event that the Commission finds that financing on reasonable terms is not available from other sources, the Commission may, in order to facilitate the sale of residential property under chapter 5 of this Act, accept, in partial payment of the purchase price of any such property notes secured by first mortgages on such terms and conditions as the Commission shall deem appropriate. In the case of houses and apartment buildings, the maturity and percentage of appraised value in connection with such notes and mortgages shall not exceed those prescribed under section 223(a) of the National Housing Act, as amended, and the interest rate shall equal the interest rate plus the premium being charged (and any periodic service charge being authorized by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* for properties of similar character) under section 223(a) of the National Housing Act, as amended, at the effective date of such notes and mortgages.

b. In connection with the sale of residential property financed under section 62a. of this Act, the Commission is authorized to make advances for necessary repairs, or for the rehabilitation, modernization, rebuilding or enlargement of single and duplex residential properties to priority purchasers, and to include such advances in the amount of the note secured by the mortgage on such property.

c. In the event that the Commission finds that financing on reasonable terms is not available from other sources, the Commission may, in order to facilitate the sale of commercial property under chapter 5 of this Act, accept, in partial payment of the purchase price of any commercial property notes secured by first mortgages on such terms and conditions as the Commission shall deem appropriate.

d. The Commission may sell any notes and mortgages acquired under subsections a. and c. of this section on terms set by the Commission. Notwithstanding any other provisions of law and without regard to the provisions of section 3709 of the Revised Statutes, the Commission may, in accordance with such terms and conditions as it may prescribe, (1) enter into contracts for servicing any of the notes and mortgages it has acquired, and (2) sell or enter into contracts to sell to a servicer any notes and mortgages with respect to which a servicing contract has been entered into by the servicer with the Commission: *Provided*, That with respect to sales of notes and mortgages under (2) the Commission shall comply with section 3709 of the Revised Statutes unless it determines that such compliance would not be feasible.

SECTIONS 52, 53, AND 56 OF THE ALASKA OMNIBUS ACT

SEC. 52. The [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* is authorized to compromise or release such portion of any note or other obligation held by him with respect to property in Alaska pursuant to title II of the Housing

Amendments of 1955 or included within the revolving fund for liquidating programs established by the Independent Offices Appropriation Act of 1955, as he finds necessary because of loss, destruction, or damage to facilities securing such obligations by the 1964 earthquake and subsequent seismic waves.

URBAN RENEWAL

SEC. 53. The [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* is authorized to enter into contracts for grants not exceeding \$25,000,000 for urban renewal projects in Alaska, including open land projects, under section 111 of the Housing Act of 1949 which he determines will aid the communities in which they are located in reconstruction and redevelopment made necessary by the 1964 earthquake and subsequent seismic waves. Such authorization shall be in addition to and separate from any grant authorization contained in section 103(b) of said Act.

The [Administrator] *Secretary* may increase the capital grant for a project assisted under this section to not more than 90 per centum of net project cost where he determines that a major portion of the project area has either been rendered unusable as a result of the 1964 earthquake and subsequent seismic waves or is needed in order adequately to provide, in accordance with the urban renewal plan for the project, new locations for persons, businesses, and facilities displaced by the earthquake.

* * *

PURCHASE OF ALASKA STATE BONDS

SEC. 56. The [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* is authorized to purchase, in accordance with the provisions of sections 202(b), 203, and 204 of title II of the Housing Amendments of 1955, the securities and obligations of, or make loans to, the State of Alaska to finance any part of the programs needed to carry out the reconstruction activities in Alaska related to the 1964 earthquake and subsequent seismic waves or to complete capital improvements begun prior to the earthquake: *Provided*, That the aggregate amount of such purchase or loan shall not exceed \$25,000,000.

SECTION 5 OF THE ACT OF SEPTEMBER 8, 1950

[Public Law 86-736]

SEC. 5. Notwithstanding the preceding provisions of this Act, if any of the real property transferred to the Agency under the authority of this Act is not leased by the Agency in accordance with an urban renewal plan approved by the Commissioners, or otherwise disposed of, on or before the date the [Housing and Home Finance Administrator] *Secretary of Housing and Urban Development* makes the final Federal capital grant payment to the Agency for the project pursuant to title I of the Housing Act of 1949, as amended, then the right,

title, and interest in and to so much of the said real property as is not so leased or otherwise disposed of by such date shall revert to the United States, subject to the exclusive control and jurisdiction of the Commissioners of the District of Columbia, and subject to the provisions of the Act approved May 20, 1932 (47 Stat. 161; secs. 8-115 and 8-116, D.C. Code, 1951 edition).

URBAN MASS TRANSPORTATION ACT OF 1964

* * *

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Urban Mass Transportation Act of 1964".

FINDINGS AND PURPOSES

SEC. 2. (a) The Congress finds—

(1) that the predominant part of the Nation's population is located in its rapidly expanding metropolitan and other urban areas, which generally cross the boundary lines of local jurisdictions and often extend into two or more States;

(2) that the welfare and vitality of urban areas, the satisfactory movement of people and goods within such areas, and the effectiveness of housing, urban renewal, highway, and other federally aided programs are being jeopardized by the deterioration or inadequate provision of urban transportation facilities and services, the intensification of traffic congestion, and the lack of coordinated transportation and other development planning on a comprehensive and continuing basis; and

(3) that Federal financial assistance for the development of efficient and coordinated mass transportation systems is essential to the solution of these urban problems.

(b) The purposes of this Act are—

(1) to assist in the development of improved mass transportation facilities, equipment, techniques, and methods, with the cooperation of mass transportation companies both public and private;

(2) to encourage the planning and establishment of areawide urban mass transportation systems needed for economical and desirable urban development, with the cooperation of mass transportation companies both public and private; and

(3) to provide assistance to State and local governments and their instrumentalities in financing such systems, to be operated by public or private mass transportation companies as determined by local needs.

FEDERAL FINANCIAL ASSISTANCE

SEC. 3. (a) In accordance with the provisions of this Act, the [Administrator] *Secretary* is authorized to make grants or loans (directly, through the purchase of securities or equipment trust certificates, or otherwise) to assist States and local public bodies and agencies thereof

in financing the acquisition, construction, reconstruction, and improvement of facilities and equipment for use, by operation or lease or otherwise, in mass transportation service in urban areas and in coordinating such service with highway and other transportation in such areas. Eligible facilities and equipment may include land (but not public highways), buses and other rolling stock, and other real or personal property needed for an efficient and coordinated mass transportation system. No grant or loan shall be provided under this section unless the **[Administrator]** *Secretary* determines that the applicant has or will have (1) the legal, financial, and technical capacity to carry out the proposed project, and (2) satisfactory continuing control, through operation or lease or otherwise, over the use of the facilities and equipment. No such funds shall be used for payment of ordinary governmental or nonproject operating expenses.

(b) No loan shall be made under this section for any project for which a grant is made under this section, except grants made for relocation payments in accordance with section 7(b). Loans under this section shall be subject to the restrictions and limitations set forth in paragraphs (1), (2), and (3) of section 202(b) of the Housing Amendments of 1955. The authority provided in section 203 of such Amendments to obtain funds for loans under clause (2) of section 202 (a) of such Amendments shall (except for undisbursed loan commitments) hereafter be exercised by the **[Administrator]** *Secretary* (without regard to the proviso in section 202(d) of such Amendments) solely to obtain funds for loans under this section.

(c) No financial assistance shall be provided under this Act to any State or local public body or agency thereof for the purpose, directly or indirectly, of acquiring any interest in, or purchasing any facilities or other property of, a private mass transportation company, or for the purpose of constructing, improving, or reconstructing any facilities or other property acquired (after the date of the enactment of this Act) from any such company, or for the purpose of providing by contract or otherwise for the operation of mass transportation facilities or equipment in competition with, or supplementary to, the service provided by an existing mass transportation company, unless (1) the **[Administrator]** *Secretary* finds that such assistance is essential to a program, proposed or under active preparation, for a unified or officially coordinated urban transportation system as part of the comprehensively planned development of the urban area, (2) the **[Administrator]** *Secretary* finds that such program, to the maximum extent feasible, provides for the participation of private mass transportation companies, (3) just and adequate compensation will be paid to such companies for acquisition of their franchises or property to the extent required by applicable State or local laws, and (4) the Secretary of Labor certifies that such assistance complies with the requirements of section 10(c) of this Act.

LONG-RANGE PROGRAM

SEC. 4. (a) Except as specified in section 5, no Federal financial assistance shall be provided pursuant to section 3 unless the **[Administrator]** *Secretary* determines that the facilities and equipment for which the assistance is sought are needed for carrying out a program,

meeting criteria established by him, for a unified or officially coordinated urban transportation system as a part of the comprehensively planned development of the urban area, and are necessary for the sound, economic, and desirable development of such area. Such program shall encourage to the maximum extent feasible the participation of private enterprise. Where facilities and equipment are to be acquired which are already being used in mass transportation service in the urban area, the program must provide that they shall be so improved (through modernization, extension, addition, or otherwise) that they will better serve the transportation needs of the area. The **[Administrator]** *Secretary*, on the basis of engineering studies, studies of economic feasibility, and data showing the nature and extent of expected utilization of the facilities and equipment, shall estimate what portion of the cost of a project to be assisted under section 3 cannot be reasonably financed from revenues—which portion shall hereinafter be called “net project cost”. The Federal grant for such a project shall not exceed two-thirds of the net project cost. The remainder of the net project cost shall be provided, in cash, from sources other than Federal funds, and no refund or reduction of that portion so provided shall be made at any time unless there is at the same time a refund of a proportional amount of the Federal grant.

(b) To finance grants under this Act there is hereby authorized to be appropriated at any time after its enactment not to exceed \$75,000,000 for fiscal year 1965; \$150,000,000 for fiscal year 1966; and \$150,000,000 for fiscal year 1967. Any amount so appropriated shall remain available until expended; and any amount authorized but not appropriated for any fiscal year may be appropriated for any succeeding fiscal year. The **[Administrator]** *Secretary* is authorized, notwithstanding the provisions of section 3648 of the Revised Statutes, as amended, to make advance or progress payments on account of any grant made pursuant to this Act.

EMERGENCY PROGRAM

SEC. 5. Prior to July 1, 1967, Federal financial assistance may be provided pursuant to section 3 where (1) the program for the development of a unified or officially coordinated urban transportation system, referred to in section 4(a), is under active preparation although not yet completed, (2) the facilities and equipment for which the assistance is sought can reasonably be expected to be required for such a system, and (3) there is an urgent need for their preservation or provision. The Federal grant for such a project shall not exceed one-half of the net project cost: *Provided*, That where a Federal grant is made on such a one-half basis, and the planning requirements specified in section 4(a) are fully met within a three-year period after the execution of the grant agreement, an additional grant may then be made to the applicant equal to one-sixth of the net project cost. The remainder of the net project cost shall be provided, in cash, from sources other than Federal funds, and no refund or reduction of that portion so provided shall be made at any time unless there is at the same time a refund of a proportional amount of the Federal grant.

RESEARCH, DEVELOPMENT, AND DEMONSTRATION PROJECTS

SEC. 6. (a) The [Administrator] *Secretary* is authorized to undertake research, development, and demonstration projects in all phases of urban mass transportation (including the development, testing, and demonstration of new facilities, equipment, techniques, and methods) which he determines will assist in the reduction of urban transportation needs, the improvement of mass transportation service, or the contribution of such service toward meeting total urban transportation needs at minimum cost. He may undertake such projects independently or by contract (including working agreements with other Federal departments and agencies). In carrying out the provisions of this section, the [Administrator] *Secretary* is authorized to request and receive such information or data as he deems appropriate from public or private sources.

(b) The [Administrator] *Secretary* may make available to finance projects under this section not to exceed \$10,000,000 of the mass transportation grant authorization provided in section 4(b), which limit shall be increased to \$20,000,000 on July 1, 1965, and to \$30,000,000 on July 1, 1966.

(c) Nothing contained in this section shall limit any authority of the [Administrator] *Secretary* under section 602 of the Housing Act of 1956 or any other provision of law.

RELOCATION REQUIREMENTS AND PAYMENTS

SEC. 7. (a) No financial assistance shall be extended to any project under section 3 unless the [Administrator] *Secretary* determines that an adequate relocation program is being carried on for families displaced by the project and that there are being or will be provided (in the same area or in other areas generally not less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the displaced families) an equal number of decent, safe, and sanitary dwellings available to those displaced families and reasonably accessible to their places of employment.

(b) Notwithstanding any other provision of this Act, financial assistance extended to any project under section 3 may include grants for relocation payments, as herein defined. Such grants may be in addition to other financial assistance for the project under section 3, and no part of the amount of such relocation payments shall be required to be contributed as a local grant. The term "relocation payments" means payments by the applicant to individuals, families, business concerns, and nonprofit organizations for their reasonable and necessary moving expenses and any actual direct losses of property, except goodwill or profit, for which reimbursement or compensation is not otherwise made, resulting from their displacement by the project. Such payments shall be made subject to such rules and regulations as may be prescribed by the [Administrator] *Secretary*, and shall not exceed \$200 in the case of an individual or family, or \$3,000 (or if greater, the total certified actual moving expenses) in the

case of a business concern or nonprofit organization. Such rules and regulations may include provisions authorizing payment to individuals and families of fixed amounts (not to exceed \$200 in any case) in lieu of their respective reasonable and necessary moving expenses and actual direct losses of property.

COORDINATION OF FEDERAL ASSISTANCE FOR HIGHWAYS AND FOR MASS TRANSPORTATION FACILITIES

SEC. 8. In order to assure coordination of highway and railway and other mass transportation planning and development programs in urban areas, particularly with respect to the provision of mass transportation facilities in connection with federally assisted highways, the **[Administrator]** *Secretary* and the Secretary of Commerce shall consult on general urban transportation policies and programs and shall exchange information on proposed projects in urban areas.

GENERAL PROVISIONS

SEC. 9. (a) In the performance of, and with respect to, the functions, powers, and duties vested in him by this Act, the **[Administrator]** *Secretary* shall (in addition to any authority otherwise vested in him) have the functions, powers, and duties set forth in section 402, except subsections (c) (2) and (f), of the Housing Act of 1950. Funds obtained or held by the **[Administrator]** *Secretary* in connection with the performance of his functions under this Act shall be available for the administrative expenses of the **[Administrator]** *Secretary* in connection with the performance of such functions.

(b) All contracts for construction, reconstruction, or improvement of facilities and equipment in furtherance of the purposes for which a loan or grant is made under this Act, entered into by applicants under other than competitive bidding procedures as defined by the Administrator, shall provide that the **[Administrator]** *Secretary* and the Comptroller General of the United States, or any of their duly authorized representatives, shall, for the purpose of audit and examination, have access to any books, documents, papers, and records of the contracting parties that are pertinent to the operations or activities under such contracts.

(c) As used in this Act—

(1) the term “States” means the several States, the District of Columbia, the Commonwealth of Puerto Rico, and the possessions of the United States;

(2) the term “local public bodies” includes municipalities and other political subdivisions of States; public agencies and instrumentalities of one or more States, municipalities, and political subdivisions of States; and public corporations, boards, and commissions established under the laws of any State;

[(3) the term “Administrator” means the Housing and Home Finance Administrator;]

(3) the term “Secretary” means the Secretary of Housing and Urban Development;

(4) the term "urban area" means any area that includes a municipality or other built-up place which is appropriate, in the judgment of the [Administrator] *Secretary*, for a public transportation system to serve commuters or others in the locality taking into consideration the local patterns and trends of urban growth; and

(5) the term "mass transportation" means transportation by bus or rail or other conveyance, either publicly or privately owned, serving the general public (but not including school buses or charter or sightseeing service) and moving over prescribed routes.

(d) There are hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, the funds necessary to carry out all functions under this Act except loans under section 3. All funds appropriated under this Act for other than administrative expenses shall remain available until expended.

(e) None of the provisions of this Act shall be construed to authorize the [Administrator] *Secretary* to regulate in any manner the mode of operation of any mass transportation system with respect to which a grant is made under section 3 or, after such grant is made, to regulate the rates, fares, tolls, rentals, or other charges fixed or prescribed for such system by any local public or private transit agency; but nothing in this subsection shall prevent the [Administrator] *Secretary* from taking such actions as may be necessary to require compliance by the agency or agencies involved with any undertakings furnished by such agency or agencies in connection with the application for the grant.

LABOR STANDARDS

SEC. 10. (a) The [Administrator] *Secretary* shall take such action as may be necessary to insure that all laborers and mechanics employed by contractors or subcontractors in the performance of construction work financed with the assistance of loans or grants under this Act shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended. The [Administrator] *Secretary* shall not approve any such loan or grant without first obtaining adequate assurance that required labor standards will be maintained upon the construction work.

(b) The Secretary of Labor shall have, with respect to the labor standards specified in subsection (a), the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276c).

(c) It shall be a condition of any assistance under this Act that fair and equitable arrangements are made, as determined by the Secretary of Labor, to protect the interests of employees affected by such assistance. Such protective arrangements shall include, without being limited to, such provisions as may be necessary for (1) the preservation of rights, privileges, and benefits (including continuation of pension rights and benefits) under existing collective bargaining agreements or otherwise; (2) the continuation of collective bargaining rights; (3) the protection of individual employees against a worsening of their

positions with respect to their employment; (4) assurances of employment to employees of acquired mass transportation systems and priority of reemployment of employees terminated or laid off; and (5) paid training or retraining programs. Such arrangements shall include provisions protecting individual employees against a worsening of their positions with respect to their employment which shall in no event provide benefits less than those established pursuant to section 5(2)(f) of the Act of February 4, 1887 (24 Stat. 379), as amended. The contract for the granting of any such assistance shall specify the terms and conditions of the protective arrangements.

AIR POLLUTION CONTROL

SEC. 11. In providing financial assistance to any project under section 3, the [Administrator] *Secretary* shall take into consideration whether the facilities and equipment to be acquired, constructed, reconstructed, or improved will be designed and equipped to prevent and control air pollution in accordance with any criteria established for this purpose by the Secretary of Health, Education, and Welfare.

STATE LIMITATION

SEC. 12. Grants made under section 3 (other than grants for relocation payments in accordance with section 7(b)) for projects in any one State shall not exceed in the aggregate 12½ per centum of the aggregate amount of grant funds authorized to be appropriated pursuant to section 4(b).

SECTION 501 OF THE MILITARY CONSTRUCTION AUTHORIZATION ACT, 1966

TITLE V

MILITARY FAMILY HOUSING

SEC. 501. The Secretary of Defense, or his designee, is authorized to construct, at the locations hereinafter named, family housing units and trailer court facilities, in the numbers hereinafter listed, but no family housing construction shall be commenced at any such locations in the United States, until the Secretary shall have consulted with the [Administrator, Housing and Home Finance Agency] *Secretary of Housing and Urban Development*, as to the availability of adequate private housing at such locations. If the Secretary and the [Administrator] *Secretary of Housing and Urban Development* are unable to reach agreement with respect to the availability of adequate private housing at any location, the Secretary shall immediately notify the Committee on Armed Services of the House of Representatives and the Senate, in writing, of such difference of opinion, and no contract for construction at such location shall be entered into for a period of thirty days after such notification has been given. This authority shall include the authority to acquire land, and interests in land, by gift, purchase, exchange of Government-owned land, or otherwise.

TITLE 18, UNITED STATES CODE

* * * * *

Chapter 25.—COUNTERFEITING AND FORGERY

* * * * *

§ 493. Bonds and obligations of certain lending agencies.

Whoever falsely makes, forges, counterfeits or alters any note, bond, debenture, coupon, obligation, instrument, or writing in imitation or purporting to be in imitation of, a note, bond, debenture, coupon, obligation, instrument or writing, issued by the Reconstruction Finance Corporation, Federal Deposit Insurance Corporation, Home Owners' Loan Corporation, Farm Credit Administration, [Federal Housing Administration] *Department of Housing and Urban Development*, or any land bank, intermediate credit bank, bank for cooperatives or any lending, mortgage, insurance, credit or savings and loan corporation or association authorized or acting under the laws of the United States, shall be fined not more than \$10,000 or imprisoned not more than five years, or both.

Whoever passes, utters, or publishes, or attempts to pass, utter or publish any note, bond, debenture, coupon, obligation, instrument or document knowing the same to have been falsely made, forged, counterfeited or altered, contrary to the provisions of this section, shall be fined not more than \$10,000 or imprisoned not more than five years, or both.

Chapter 31.—EMBEZZLEMENT AND THEFT

* * * * *

§ 657. Lending, credit and insurance institutions.

Whoever, being an officer, agent or employee of or connected in any capacity with the Reconstruction Finance Corporation, Federal Deposit Insurance Corporation, Home Owners' Loan Corporation, Farm Credit Administration, [Federal Housing Administration] *Department of Housing and Urban Development*, Federal Crop Insurance Corporation, Farmers' Home Corporation, the Secretary of Agriculture acting through the Farmers' Home Administration, or any land bank, intermediate credit bank, bank for cooperatives or any lending, mortgage, insurance, credit or savings and loan corporation or association authorized or acting under the laws of the United States or any institution the accounts of which are insured by the Federal Savings and Loan Insurance Corporation, or any small business investment company, and whoever, being a receiver of any such institution, or agent or employee of the receiver, embezzles, abstracts, purloins or willfully misapplies any moneys, funds, credits, securities or other things of value belonging to such institution, or pledged or otherwise intrusted to its care, shall be fined not more than \$5,000 or imprisoned not more than five years, or both; but if the amount or value embezzled, abstracted, purloined or misapplied does not exceed \$100, he shall be fined not more than \$1,000 or imprisoned not more than one year, or both.

* * * * *

Chapter 33.—EMBLEMS, INSIGNIA AND NAMES

* * * * *

§ 709. False advertising or misuse of names to indicate Federal agency.

Whoever, except as permitted by the laws of the United States, uses the words “national”, “Federal”, “United States”, “reserve”, or “Deposit Insurance” as part of the business or firm name of a person, corporation, partnership, business trust, association or other business entity engaged in the banking, loan, building and loan, brokerage, factorage, insurance, indemnity, savings or trust business; or

Whoever falsely advertises or represents, or publishes or displays any sign, symbol or advertisement reasonably calculated to convey the impression that a nonmember bank, banking association, firm or partnership is a member of the Federal reserve system; or

Whoever, except as expressly authorized by Federal law, uses the words “Federal Deposit”, “Federal Deposit Insurance”, or “Federal Deposit Insurance Corporation” or a combination of any three of these words, as the name or a part thereof under which he or it does business, or advertises or otherwise represents falsely by any device whatsoever that his or its deposit liabilities, obligations, certificates, or shares are insured or guaranteed by the Federal Deposit Insurance Corporation, or by the United States or by any instrumentality thereof, or whoever advertises that his or its deposits, shares, or accounts are federally insured, or falsely advertises or otherwise represents by any device whatsoever the extent to which or the manner in which the deposit liabilities of an insured bank or banks are insured by the Federal Deposit Insurance Corporation; or

Whoever, not being organized under chapter 7 of Title 12, advertises or represents that it makes Federal Farm loans or advertises or offers for sale as Federal Farm loan bonds any bond not issued under chapter 7 of Title 12, or uses the word “Federal” or the words “United States” or any other words implying Government ownership, obligation or supervision in advertising or offering for sale any bond, note, mortgage or other security not issued by the Government of the United States under the provisions of said chapter 7 or some other Act of Congress; or

Whoever uses the words “Federal Home Loan Bank” or any combination or variation of these words alone or with other words as a business name or part of a business name, or falsely publishes, advertises or represents by any device or symbol or other means reasonably calculated to convey the impression that he or it is a Federal Home Loan Bank or member of or subscriber for the stock of a Federal Home Loan Bank; or

Whoever uses the words “National Agricultural Credit Corporation” as part of the business or firm name of a person, corporation, partnership, business trust, association or other business entity not organized under the laws of the United States as a National Agricultural Credit Corporation; or

Whoever uses the words “Federal intermediate credit bank” as part of the business or firm name for any person, corporation, partnership, business trust, association or other business entity not organized as

an intermediate credit bank under the laws of the United States; or

Whoever uses as a firm or business name the words "Housing and Home Finance Agency", "Federal Housing Administration", "Federal National Mortgage Association", or "Public Housing Administration" or the letters "FHA" or any combination or variation of those words or the letters, "FHA" alone or with other words or letters reasonably calculated to convey the false impression that such name or business has some connection with, or authorization from, the Housing and Home Finance Agency, the Federal Housing Administration, the Federal National Mortgage Association, the Public Housing Administration, the Government of the United States or any agency thereof, which does not in fact exist, or falsely claims that any repair, improvement, or alteration of any existing structure is required or recommended by the Housing and Home Finance Agency, the Federal Housing Administration, the Federal National Mortgage Association, the Public Housing Administration, the Government of the United States or any agency thereof, for the purpose of inducing any person to enter into a contract for the making of such repairs, alterations, or improvements, or falsely advertises or falsely represents by any device whatsoever that any housing unit, project, business, or product has been in any way endorsed, authorized, inspected, appraised, or approved by the Housing and Home Finance Agency, the Federal Housing Administration, the Federal National Mortgage Association, the Public Housing Administration, the Government of the United States or any agency thereof; or]

Whoever uses as a firm or business name the words "Department of Housing and Urban Development", "Housing and Home Finance Agency", "Federal Housing Administration", "Federal National Mortgage Association", "United States Housing Authority", or "Public Housing Administration" or the letters "HUD", "FHA", "PHA", or "USHA", or any combination or variation of those words or the letters "HUD", "FHA", "PHA", or "USHA" alone or with other words or letters reasonably calculated to convey the false impression that such name or business has some connection with, or authorization from, the Department of Housing and Urban Development, the Housing and Home Finance Agency, the Federal Housing Administration, the Federal National Mortgage Association, the United States Housing Authority, the Public Housing Administration, the Government of the United States or any agency thereof, which does not in fact exist, or falsely claims that any repair, improvement, or alteration of any existing structure is required or recommended by the Department of Housing and Urban Development, the Housing and Home Finance Agency, the Federal Housing Administration, the Federal National Mortgage Association, the United States Housing Authority, the Public Housing Administration, the Government of the United States or any agency thereof, for the purpose of inducing any person to enter into a contract for the making of such repairs, alterations, or improvements, or falsely advertises or falsely represents by any device whatsoever that any housing unit, project, business, or product has been in any way endorsed, authorized, inspected, appraised, or approved by the Department of Housing and Urban Development, the Housing and Home Finance Agency, the Federal Housing Administration, the Fed-

eral National Mortgage Association, the United States Housing Authority, the Public Housing Administration, the Government of the United States or any agency thereof; or

Whoever, except with the written permission of the Director of the Federal Bureau of Investigation, knowingly uses the words "Federal Bureau of Investigation" or the initials "F.B.I.," or any colorable imitation of such words or initials, in connection with any advertisement, circular, book, pamphlet or other publication, play, motion picture, broadcast, telecast, or other production, in a manner reasonably calculated to convey the impression that such advertisement, circular, book, pamphlet or other publication, play, motion picture, broadcast, telecast, or other production, is approved, endorsed, or authorized by the Federal Bureau of Investigation; or

Whoever uses as a firm or business name the words "Reconstruction Finance Corporation" or any combination or variation of these words—

Shall be punished as follows: a corporation, partnership, business trust, association, or other business entity, by a fine of not more than \$1,000; an officer or member thereof participating or knowingly acquiescing in such violation or any individual violating this section, by a fine of not more than \$1,000 or imprisonment for not more than one year, or both.

This section shall not make unlawful the use of any name or title which was lawful on the date of enactment of this title.

This section shall not make unlawful the use of the word "national" as part of the name of any business or firm engaged in the insurance or indemnity business, whether such firm was engaged in the insurance or indemnity business prior or subsequent to the date of enactment of this paragraph.

A violation of this section may be enjoined at the suit of the United States Attorney, upon complaint by any duly authorized representative of any department or agency of the United States.

§ 1006. Federal credit institution entries, reports and transactions.

Whoever, being an officer, agent or employee of or connected in any capacity with the Reconstruction Finance Corporation, Federal Deposit Insurance Corporation, Home Owner's Loan Corporation, Farm Credit Administration, [Federal Housing Administration] *Department of Housing and Urban Development*, Federal Crop Insurance Corporation, Farmers' Home Corporation, the Secretary of Agriculture acting through the Farmers' Home Administration, or any land bank, intermediate credit bank, bank for cooperatives or any lending, mortgage, insurance, credit or savings and loan corporation or association authorized or acting under the laws of the United States or any institution the accounts of which are insured by the Federal Savings and Loan Insurance Corporation, or any small business investment company, with intent to defraud any such institution or any other company, body politic or corporate, or any individual, or to deceive any officer, auditor, examiner or agent of any such institution or of department or agency of the United States, makes any false entry in any book, report or statement of or to any such institution, or without being duly authorized, draws any order or bill of exchange, makes any acceptance, or issues, puts forth or assigns any note, debenture, bond or other obligation, or draft, bill of exchange, mortgage, judgment, of decree, or, with intent to defraud the United States or any agency thereof, or any corporation, institution, or association referred to in this section, participates or shares in or receives directly or indirectly any money, profit, property, or benefits through any transaction, loan, commission, contract, or any other act of any such corporation, institution, or association, shall be fined not more than \$10,000 or imprisoned not more than five years, or both.

* * * * *

§ 1010. [Federal Housing Administration transactions.] *Department of Housing and Urban Development and Federal Housing Administration transactions.*

Whoever, for the purpose of obtaining any loan or advance of credit from any person, partnership, association, or corporation with the intent that such loan or advance of credit shall be offered to or accepted by the [Federal Housing Administration] *Department of*

Housing and Urban Development for insurance, or for the purpose of obtaining any extension or renewal of any loan, advance of credit, or mortgage insured by such [Administration] *Department*, or the acceptance, release, or substitution of any security on such a loan, advance of credit, or for the purpose of influencing in any way the action of such [Administration] *Department*, makes, passes, utters, or publishes any statement, knowing the same to be false, or alters, forges, or counterfeits any instrument, paper, or document, or utters, publishes, or passes as true any instrument, paper, or document, knowing it to have been altered, forged, or counterfeited, or willfully overvalues any security, asset, or income, shall be fined not more than \$5,000 or imprisoned not more than two years, or both.

* * * * *

§ 1012. [Public Housing Administration transactions.] *Department of Housing and Urban Development transactions.*

Whoever, with intent to defraud, makes any false entry in any book of the [Public Housing Administration] *Department of Housing and Urban Development* or makes any false report or statement to or for such [Administration] *Department*; or

Whoever receives any compensation, rebate, or reward, with intent to defraud such [Administration] *Department* or with intent unlawfully to defeat its purposes; or

Whoever induces or influences such [Administration] *Department* to purchase or acquire any property or to enter into any contract and willfully fails to disclose any interest which he has in such property or in the property to which such contract relates, or any special benefit which he expects to receive as a result of such contract—

Shall be fined not more than \$1,000 or imprisoned not more than one year, or both.

TITLE 38, UNITED STATES CODE

* * * * *

§ 1802. Basic entitlement

* * * * *

(d) Loans will be automatically guaranteed under this chapter only if made (1) by any Federal land bank, national bank, State bank, private bank, building and loan association, insurance company, credit union, or mortgage and loan company, that is subject to examination and supervision by an agency of the United States or of any State, (2) by any State, or (3) by any [Federal Housing Administration approved mortgagee designated by the Federal Housing Commissioner] *mortgagee approved by the Secretary of Housing and Urban Development and designated by him* as a certified agent and which is acceptable to the Administrator. Any loan proposed to be made to a veteran pursuant to this chapter by any lender not of a class specified in the preceding sentence may be guaranteed by the Administrator if he finds that it is in accord otherwise with the provisions of this chapter.

* * * * *

§ 1804. Restrictions on loans

(a) No loan for the purchase or construction of residential property shall be financed through the assistance of this chapter unless the property meets or exceeds minimum requirements for planning, construction, and general acceptability prescribed by the Administrator; however, this subsection shall not apply to a loan for the purchase of residential property on which construction is fully completed more than one year before such loan is made.

(b) The Administrator may refuse to appraise any dwelling or housing project owned, sponsored, or to be constructed by any person identified with housing previously sold to veterans under this chapter as to which substantial deficiencies have been discovered, or as to which there has been a failure or indicated inability to discharge contractual liabilities to veterans, or as to which it is ascertained that the type of contract of sale or the methods or practices pursued in relation to the marketing of such properties were unfair or unduly prejudicial to veteran purchasers. The Administrator may also refuse to appraise any dwelling or housing project owned, sponsored, or to be constructed by any person refused the benefits of participation under the National Housing Act pursuant to a determination of the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* under section 512 of that Act.

(c) No loan for the purchase or construction of residential property shall be financed through the assistance of this chapter unless the veterans applicant, at the time that he applies for the loan, and also at the time that the loan is closed, certifies in such form as the Administrator may require, that he intends to occupy the property as his home. No loan for the repair, alteration, or improvement of residential property shall be financed through the assistance of the provisions of this chapter unless the veteran applicant, at the time that he applies to the lender for the loan, and also at the time that the loan is closed, certifies, in such form as may be required by the Administrator, that he occupies the property as his home. For the purposes of this chapter the requirement that the veteran recipient of a guaranteed or direct home loan must occupy or intend to occupy the property as his home means that the veteran as of the date of his certification actually lives in the property personally as his residence or actually intends upon completion of the loan and acquisition of the dwelling unit to move into the property personally within a reasonable time and to utilize such property as his residence. Notwithstanding the foregoing requirements of this subsection, the provisions for certification by the veteran at the time he applies for the loan and at the time the loan is closed shall be considered to be satisfied if the Administrator finds that (1) in the case of a loan for repair, alteration, or improvement the veteran in fact did occupy the property at such times, or (2) in the case of a loan for construction or purchase the veteran intended to occupy the property as his home at such times and he did in fact so occupy it when, or within a reasonable time after, the loan was closed.

(d) Whenever the Administrator finds with respect to guaranteed or insured loans that any lender or holder has failed to maintain adequate loan accounting records, or to demonstrate proper ability to

service loans adequately or to exercise proper credit judgment or has willfully or negligently engaged in practices otherwise detrimental to the interest of veterans or of the Government, he may refuse either temporarily or permanently to guarantee or insure any loans made by such lender or holder and may bar such lender or holder from acquiring loans guaranteed or insured under this chapter; however, the Administrator shall not refuse to pay a guaranty or insurance claim on loans theretofore entered into in good faith between a veteran and such lender. The Administrator may also refuse either temporarily or permanently to guarantee or insure any loans made by a lender or holder refused the benefits of participation under the National Housing Act pursuant to a determination of the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* under section 512 of that Act.

(e) No loan for the purchase or construction of new residential property (other than property served by a water and sewerage system approved by the [Federal Housing Commissioner] *Secretary of Housing and Urban Development* pursuant to title X of the National Housing Act) shall be financed through the assistance of this chapter, except pursuant to a commitment made prior to the date of the enactment of the Housing and Urban Development Act of 1965, if such property is not served by a public or adequate community water and sewerage system and is located in an area where the appropriate local officials certify that the establishment of such systems is economically feasible. For purposes of this subsection, the economic feasibility of establishing public or adequate community water and sewerage systems shall be determined without regard to whether such establishment is authorized by law or is subject to approval by one or more local governments or public bodies.

SECTIONS 12 AND 18 OF THE FEDERAL HOME LOAN BANK ACT

INCORPORATION OF BANKS, AND CORPORATE POWERS

SEC. 12. The directors of each Federal Home Loan Bank shall, in accordance with such rules and regulations as the board may prescribe, make and file with the board at the earliest practicable date after the establishment of such bank, an organization certificate which shall contain such information as the board may require. Upon the making and filing of such organization certificate with the board, such bank shall become, as of the date of the execution of its organization certificate, a body corporate, and as such and in its name as designated by the board it shall have power to adopt, alter, and use a corporate seal; to make contracts; to purchase or lease and hold or dispose of such real estate as may be necessary or convenient for the transaction of its business [but no bank building shall be bought or erected to house any such bank, nor shall any such bank make any lease] *but, except with the prior approval of the board, no bank building shall be bought or erected to house any such bank, or leased by such bank under any lease,* for such purpose which has a term of more than ten years; to

sue and be sued, to complain, and to defend, in any court of competent jurisdiction, State, or Federal; to select, employ, and fix the compensation of such officers, employees, attorneys, and agents as shall be necessary for the transaction of its business, subject to the approval of the board; to define their duties, require bonds of them and fix the penalties thereof, and to dismiss at pleasure such officers, employees, attorneys, and agents; and, by its board of directors, to prescribe, amend, and repeal by-laws, rules, and regulations governing the manner in which its affairs may be administered; and the powers granted to it by law may be exercised and enjoyed to the approval of the board. The president of a Federal Home Loan Bank may also be a member of the board of directors thereof, but no other officer, employee, attorney, or agent of such bank, who receives compensation, may be a member of the board of directors. Each such bank shall have all such incidental powers, not inconsistent with the provisions of this Act, as are customary and usual in corporations generally.

* * * * *

ADMINISTRATIVE EXPENSES

SEC. 18. (a) There is hereby authorized to be appropriated the sum of not to exceed \$300,000 for salaries, travel and subsistence expenses, rents, printing and binding, furniture and equipment, law books, books of reference, periodicals, newspapers, maps, contract stenographic reporting services, telephone and telegraph services, and all other necessary expenses of the board, together with expenses preliminary to the organization and establishment of the banks created hereunder, until the end of the fiscal year 1933.

(b) The board shall have power to levy semiannually upon the Federal Home Loan Banks, and they shall pay, on such equitable basis as the board shall determine, an assessment sufficient in its judgment to provide for the payment of its estimated expenses for the half year succeeding the levying of each such assessment, beginning with the second half of the calendar year 1933. All expenses of the board incurred in carrying out the provisions of this Act, as determined by it, beginning July 1, 1933, shall be paid from the proceeds of such assessments, and if any deficiency shall occur in such fund at any time between such semiannual assessments the board shall have power to make an immediate assessment against the banks to cover such deficiency on the same basis as the original assessment. If any surplus shall remain from any assessment after the expiration of the semiannual period for which it was levied, such surplus may be deducted from the next following assessment. *Such assessments may include such amounts as the board may deem advisable for carrying out the provisions of subsection (c) of this section.*

(c) (1) *The board, utilizing the services of the Administrator of General Services (hereinafter referred to as the "Administrator"), and subject to any limitation hereon which may hereafter be imposed in appropriation Acts, is hereby authorized—*

(A) *to acquire, in the name of the United States, real property in the District of Columbia, for the purposes set forth in this subsection;*

(B) to construct, develop, furnish, and equip such buildings thereon and such facilities as in its judgment may be appropriate to provide, to such extent as the board may deem advisable, suitable and adequate quarters and facilities for the board and the agencies under its administration or supervision;

(C) to enlarge, remodel, or reconstruct any of the same; and

(D) to make or enter into contracts for any of the foregoing.

(2) The board may require of the respective banks, and they shall make to the board, such advances of funds for the purposes set out in paragraph (1) as in the sole judgment of the board may from time to time be advisable. Such advances shall be in addition to the assessments authorized in subsection (b) and shall be apportioned by the board among the banks in proportion to the total assets of the respective banks, determined in such manner and as of such times as the board may prescribe. Each such advance shall bear interest at the rate of $4\frac{1}{2}$ per centum per annum from the date of the advance and shall be repaid by the board in such installments and over such period, not longer than twenty-five years from the making of the advance, as the board may determine. Payments of interest and principal upon such advances shall be made from receipts of the board or from other sources which may from time to time be available to the board. The obligation of the board to make any such payment shall not be regarded as an obligation of the United States. To such extent as the board may prescribe any such obligation shall be regarded as a legal investment for the purposes of subsections (g) and (h) of section 11 and for the purposes of section 16.

(3) The plans and designs for such buildings and facilities and for any such enlargement, remodeling, or reconstruction shall, to such extent as the chairman of the board may request, be subject to his approval.

(4) Upon the making of arrangements mutually agreeable to the board and the Administrator, which arrangements may be modified from time to time by mutual agreement between them and may include but shall not be limited to the making of payments by the board and such agencies to the Administrator and by the Administrator to the board, the custody, management, and control of such buildings and facilities and of such real property shall be vested in the Administrator in accordance therewith. Until the making of such arrangements such custody, management, and control, including the assignment and allotment and the reassignment and reallocation of building and other space, shall be vested in the board.

(5) Any proceeds (including advances) received by the board in connection with this subsection, and any proceeds from the sale or other disposition of real or other property acquired by the board under this subsection, shall be considered as receipts of the board, and obligations and expenditures of the board and such agencies in connection with this subsection shall not be considered as administrative expenses. As used in this subsection, the term "property" shall include interests in property.

(6) With respect to its functions under this subsection the board shall (A) annually prepare and submit a budget program as provided in title I of the Government Corporation Control Act with regard to

wholly owned Government corporations, and for purposes of this sentence, the terms "wholly owned Government corporations" and "Government corporations", wherever used in such title, shall include the board, and (B) maintain an integral set of accounts which shall be audited annually by the General Accounting Office in accordance with the principles and procedures applicable to commercial corporate transactions as provided in such title, and no other audit, settlement, or adjustment shall be required with respect to transactions under this subsection or with respect to claims, demands, or accounts by or against any person arising thereunder. Except as otherwise provided in this subsection or by the board, the provisions of this subsection and the functions thereby or thereunder subsisting shall be applicable and exercisable notwithstanding and without regard to the Act of June 20, 1938 (D.C. Code, secs. 5-413—5-428), except that the proviso of section 16 thereof shall apply to any building constructed under this subsection, and section 306 of the Act of July 30, 1947 (61 Stat. 584), or any other provision of law relating to the construction, alteration, repair, or furnishing of public or other buildings or structures or the obtaining of sites therefor, but any person or body in whom any such function is vested may provide for delegation or redelegation of the exercise of such function.

(7) No obligation shall be incurred and no expenditure, except in liquidation of obligation, shall be made pursuant to the first two subparagraphs of paragraph (1) of this subsection if the total amount of all obligations incurred pursuant thereto would thereupon exceed \$13,200,000 or such greater amount as may be provided in an appropriation Act or other law.

89TH CONGRESS
2D SESSION

H. R. 15890

[Report No. 1699]

IN THE HOUSE OF REPRESENTATIVES

JUNE 23, 1966

Mr. PATMAN introduced the following bill; which was referred to the Committee on Banking and Currency

JULY 15, 1966

Reported with amendments, committed to the Committee of the Whole House on the State of the Union, and ordered to be printed

[Omit the part struck through and insert the part printed in italic]

A BILL

To assist city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in these areas, to improve and amend our housing programs, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*
3 That this Act may be cited as the "Housing and Urban
4 Development Act of 1966".

5 TITLE I—DEMONSTRATION CITIES PROGRAM

6 FINDINGS AND DECLARATION OF PURPOSE

7 SEC. 101. The Congress hereby finds and declares that
8 improving the quality of urban life is the most critical do-
9 mestic problem facing the United States. The persistence

1 of widespread urban slums and blight, the concentration of
2 persons of low income in older urban areas, and the unmet
3 needs for additional housing and community facilities and
4 services arising from rapid expansion of our urban popula-
5 tion have resulted in a marked deterioration in the environ-
6 ment of large numbers of our people while the Nation as a
7 whole prospers.

8 The Congress further finds and declares that cities, both
9 large and small, do not have adequate resources to deal
10 effectively with the critical problems facing them, and that
11 additional Federal assistance is essential to enable cities to
12 plan, develop, and conduct programs to improve their physi-
13 cal environment, increase their supply of adequate housing
14 for low- and moderate-income people, and provide educa-
15 tional and social services vital to health and welfare.

16 It is the purpose of this title to provide additional finan-
17 cial and technical assistance to enable cities, both large and
18 small, to plan, develop, and carry out programs to rebuild
19 or revitalize large slum and blighted areas and expand and
20 improve public programs and services available to the people
21 who live in such areas.

22 It is further the purpose of this title to provide the
23 additional financial aid needed to enable cities to participate
24 more effectively in existing Federal assistance programs.

25 It is further the purpose of this title to assist cities to

1 coordinate activities aided under existing Federal programs
2 with other public and private actions in order to provide
3 the most effective and economical concentration of Federal,
4 State, local, and private efforts to improve the quality of
5 urban life.

6 BASIC AUTHORITY

7 SEC. 102. The Secretary of Housing and Urban Devel-
8 opment (hereinafter referred to as the "Secretary") is
9 authorized to make grants and provide technical assistance,
10 as provided by this title, to enable city demonstration agen-
11 cies (as herein defined) to plan, develop, and carry out
12 comprehensive city demonstration programs.

13 COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

14 SEC. 103. (a) A "comprehensive city demonstration
15 program" is a locally prepared and scheduled program for
16 rebuilding or restoring entire sections and neighborhoods of
17 slum and blighted areas through the concentrated and
18 coordinated use of all available Federal aids and local private
19 and governmental resources, including citywide aids and
20 resources necessary to improve the general welfare of the
21 people living or working in the areas.

22 (b) A comprehensive city demonstration program is
23 eligible for assistance under sections 105, 106, and 107 only
24 if the Secretary determines that—

25 (1) the program is of sufficient magnitude in both

1 physical and social dimensions (i) to remove or arrest
2 blight and decay in entire sections or neighborhoods,
3 (ii) to provide a substantial increase in the supply of
4 standard housing of low and moderate cost, (iii) to
5 make marked progress in serving the poor and disad-
6 vantaged people living in slum and blighted areas with
7 a view to reducing educational disadvantages, disease,
8 and enforced idleness, and (iv) to make a substantial
9 impact on the sound development of the entire city;

10 (2) the rebuilding or restoration of sections or
11 neighborhoods in accordance with the program will
12 contribute to a well-balanced city with adequate public
13 facilities (including those needed for transportation, edu-
14 cation, and recreation), commercial facilities adequate
15 to serve the residential areas, good access to industrial
16 or other centers of employment, and housing for all
17 income levels;

18 (3) the program provides for educational and social
19 services necessary to serve the poor and disadvantaged
20 in the area, widespread citizen participation in the pro-
21 gram, maximum opportunities for employing residents
22 of the area in all phases of the program, and enlarged
23 opportunity for work and training;

24 (4) adequate local resources are, or will be, avail-
25 able for the completion of the program as scheduled;

(5) administrative machinery is available for carrying out the program on a consolidated and coordinated basis, the local governing body has approved the program, and local agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation;

(6) there exists a relocation plan meeting the requirements of the regulations referred to in section 107;

(7) the program is designed to assure maximum opportunity in the choice of housing accommodations by all citizens; and

(8) the program meets such additional requirements as the Secretary may establish to carry out the purposes of this title.

(c) In making the determinations under subsection (b), the Secretary shall give maximum consideration to whether—

(1) substantive local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program;

(2) the program will enhance neighborhoods by applying a high standard of design and will, as appropriate, maintain distinctive natural, historical, and cultural characteristics;

(3) the program is designed to make maximum

1 use of new and improved technology and design, includ-
2 ing cost reduction techniques;

3 (4) the program will encourage good community
4 relations and counteract the segregation of housing by
5 race or income; and

6 (5) the program is consistent with comprehensive
7 planning for the entire urban or metropolitan area.

8 FINANCIAL ASSISTANCE FOR PLANNING COMPREHENSIVE
9 CITY DEMONSTRATION PROGRAMS

10 SEC. 104. (a) The Secretary is authorized to make
11 grants to, and to contract with, city demonstration agencies
12 to pay 80 per centum of the costs of planning and developing
13 comprehensive city demonstration programs.

14 (b) Financial assistance will be provided under this sec-
15 tion only if (1) the application for such assistance has been
16 approved by the local governing body of the city, and (2)
17 the Secretary has determined that there exist (i) administra-
18 tive machinery through which coordination of all related
19 planning activities of local agencies can be achieved, and
20 (ii) evidence that necessary cooperation of agencies engaged
21 in related local planning can be obtained.

1 FINANCIAL ASSISTANCE FOR APPROVED COMPREHENSIVE
2 CITY DEMONSTRATION PROGRAMS

3 SEC. 105. (a) The Secretary shall review plans for com-
4 prehensive city demonstration programs in order to deter-
5 mine that (1) such plans satisfy the criteria for such pro-
6 grams set forth in section 103, and (2) the various projects
7 or activities to be undertaken in connection with such pro-
8 grams are scheduled to be initiated within a reasonably short
9 period of time.

10 (b) The Secretary is authorized to make grants to, and
11 to contract with, city demonstration agencies to pay 80 per
12 centum of the cost of administering approved comprehensive
13 city demonstration programs, but not the cost of administer-
14 ing any project or activity assisted under a Federal grant-
15 in-aid program.

16 (c) To assist the city to carry out the projects or activi-
17 ties included within an approved comprehensive city demon-
18 stration program, the Secretary is authorized to make grants
19 to the city demonstration agency of not to exceed 80 per
20 centum of the aggregate amount of non-Federal contributions
21 otherwise required to be made to all projects or activities

1 assisted by Federal grant-in-aid programs (as hereinafter
2 defined which are undertaken in connection with such dem-
3 onstration program: *Provided*, That the specific amount of
4 any such grant shall take into account the number and
5 intensity of the economic and social pressures in the sections
6 or neighborhoods involved, such as those involving or result-
7 ing from population density, crime rate, public welfare par-
8 ticipation, delinquency rate, poverty levels, unemployment
9 rate, educational levels, health and disease characteristics,
10 and degree of substandard and dilapidated housing: *Pro-*
11 *vided further*, That the amount of non-Federal contribution
12 required for each project in a Federal grant-in-aid program
13 shall be certified to the Secretary by the Federal department
14 or agency (other than the Department of Housing and Urban
15 Development) administering such program, and the Secre-
16 tary shall accept such determination in computing the grants
17 hereunder.

18 (d) Grant funds provided pursuant to subsection (c) of
19 this section shall be used for projects or activities assisted
20 under a Federal grant-in-aid program which are undertaken
21 as part of an approved comprehensive city demonstration
22 program, or for other projects or activities undertaken as part
23 of such demonstration program. If used for projects or ac-
24 tivities assisted under a Federal grant-in-aid program which

1 are undertaken as part of such demonstration program, funds
2 provided pursuant to subsection (c) shall be credited as part
3 or all of the required non-Federal contribution to such proj-
4 ects or activities.

5 (e) The Secretary shall not make any grant under this
6 section unless he has obtained satisfactory assurances that
7 the locality will maintain, during the period and approved
8 comprehensive city demonstration program is being carried
9 out, a level of aggregate expenditures for activities similar
10 to those being assisted under this section not less than the
11 level of aggregate expenditures for such activities prior to
12 initiation of the comprehensive city demonstration program.

13 TECHNICAL ASSISTANCE

14 SEC. 106. The Secretary is authorized to undertake such
15 activities as he determines to be desirable to provide, either
16 directly or by contracts or other arrangements, technical
17 assistance to city demonstration agencies to assist such
18 agencies in planning, developing, and administering compre-
19 hensive city demonstration programs.

20 RELOCATION REQUIREMENTS AND PAYMENTS

21 SEC. 107. (a) A comprehensive city demonstration pro-
22 gram must include a plan for the relocation of individuals,
23 families, business concerns, and nonprofit organizations dis-

1 placed or to be displaced in carrying out the city demonstra-
2 tion program. The relocation plan shall be consistent with
3 regulations prescribed by the Secretary to assure that (1)
4 the provisions and procedures included in the plan meet
5 relocation standards equivalent to those prescribed under
6 section 105 (c) of the Housing Act of 1949 with respect
7 to urban renewal projects assisted under title I of that Act,
8 and (2) relocation activities are coordinated to the maxi-
9 mum extent feasible with the increase in the supply of
10 decent, safe, and sanitary housing for families and individuals
11 of low or moderate income, as provided under the compre-
12 hensive city demonstration program, or otherwise, in order
13 to best maintain the available supply of such housing for all
14 such families and individuals throughout the city.

15 (b) (1) To the extent not otherwise authorized under
16 any Federal law, financial assistance extended to a compre-
17 hensive city demonstration agency under section 105 shall
18 include grants to cover the full cost of relocation payments,
19 as herein defined. Such grants shall be in addition to other
20 financial assistance extended to such agency under section
21 105.

22 (2) The term "relocation payments" means payments
23 by a comprehensive city demonstration agency to a displaced
24 individual, family, business concern, or nonprofit organiza-
25 tion which are made on such terms and conditions and

1 subject to such limitations (to the extent applicable, but not
2 including the date of displacement) as are provided for relo-
3 cation payments, at the time such payments are approved,
4 by sections 114 (b), (c), (d), and (e) of the Housing
5 Act of 1949 with respect to projects assisted under title I
6 thereof.

7 (c) Subsection (b) shall not be applicable with respect
8 to any displacement occurring prior to the date of the
9 enactment of this Act.

10 CONTINUED AVAILABILITY OF FEDERAL GRANT-IN-AID
11 PROGRAM

12 SEC. 108. Notwithstanding any other provision of law,
13 unless hereafter enacted expressly in limitation of the provi-
14 sions of this section, funds appropriated for a Federal grant-
15 in-aid program which are reserved for any projects or
16 activities assisted under such grant-in-aid program under-
17 taken in connection with an approved comprehensive city
18 demonstration program shall remain available until expended
19 when so provided in appropriation Acts.

20 CONSULTATION

21 SEC. 109. In carrying out the provisions of this title,
22 including the issuance of regulations, the Secretary shall
23 consult with other Federal departments and agencies admin-
24 istering Federal grant-in-aid programs. The Secretary shall

1 consult with each Federal department and agency affected
2 by each comprehensive city demonstration program before
3 entering into a commitment to make grants for such pro-
4 gram under section 105.

5 LABOR STANDARDS

6 SEC. 110. (a) All laborers and mechanics employed
7 by contractors or subcontractors on projects assisted directly
8 or indirectly under this title shall be paid wages at rates
9 not less than those prevailing on similar construction in
10 the locality as determined by the Secretary of Labor in
11 accordance with the Davis-Bacon Act, as amended (40
12 U.S.C. 276a—276a-5), *and each such laborer or mechanic*
13 *shall receive compensation at a rate not less than one and one-*
14 *half times his basic rate of pay for all hours worked in any*
15 *workweek in excess of eight hours in any workday or forty*
16 *hours in the workweek, as the case may be.* No assistance
17 provided for under this title shall be approved without first
18 obtaining adequate assurance that these labor standards will
19 be maintained upon the construction work.

20 (b) The Secretary of Labor shall have, with respect to
21 the labor standards specified in subsection (a), the authority
22 and functions set forth in Reorganization Plan Numbered 14
23 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15),
24 and section 2 of the Act of June 13, 1934, as amended
25 (48 Stat. 948; 40 U.S.C. 276c).

APPROPRIATIONS

SEC. 111. (a) There are authorized to be appropriated for the purpose of financial assistance under section 104 the sum of \$12,000,000 for the fiscal year ending June 30, 1967, and such sums as may be necessary for the fiscal year ending June 30, 1968.

(b) There are authorized to be appropriated for the purpose of financial assistance under section 105 such sums as may be necessary for the fiscal year ending June 30, 1968, and succeeding fiscal years. It is the sense of the Congress that appropriations pursuant to this subsection shall be made only on the basis of need demonstrated by plans submitted for comprehensive city demonstration programs, and that any such appropriation shall take into account the budgetary situation existing at the time it is made.

(c) There are authorized to be appropriated for the other purposes of this title such sums as may be necessary.

(d) Appropriations authorized under this section shall remain available until expended when so provided in appropriation Acts.

DEFINITIONS

SEC. 112. As used in this title—

(a) “Federal grant-in-aid program” means a program of Federal financial assistance other than loans and other than the assistance provided by this title.

1 (b) "City demonstration agency" means the city or any
2 local public agency established or designated by the local
3 governing body to administer the comprehensive city demon-
4 stration program.

5 (c) "City" means any municipality (or two or more
6 municipalities acting jointly) or, with respect to urban areas
7 outside of incorporated municipalities, any county or other
8 public body (or two or more acting jointly) having general
9 governmental powers.

10 (d) "Local" agencies include State agencies and instru-
11 mentalities providing services or resources to a city or local-
12 ity, and "local" resources include those provided to a city
13 or locality by a State or its agency or instrumentality.

14 TERMINATION OF AUTHORITY

15 SEC. 113. (a) This title and all authority conferred
16 thereunder shall terminate at the close of June 30, 1971:
17 *Provided*, That the functions, powers, duties, and authorities
18 vested in the Secretary under this title may be retained by
19 the Secretary for the purpose of liquidating the affairs and
20 functions conducted under this title.

21 (b) The termination of this title shall not affect the
22 disbursement of funds under, or the carrying out of, any
23 contract, commitment, or other obligation entered into pur-
24 suant to this title prior to the date of such termination, or
25 the taking of any action necessary to preserve or protect the

1 interests of the United States in any amounts advanced or
2 paid out in carrying on operations under this title.

3 GRANT AUTHORITY FOR URBAN RENEWAL PROJECTS WHICH
4 ARE PART OF APPROVED COMPREHENSIVE CITY DEMON-
5 STRATION PROGRAMS

6 SEC. 114. Section 103 (b) of the Housing Act of 1949
7 is amended by inserting after the first sentence the following
8 new sentence: "In addition to the authority to make grants
9 provided in the first sentence of this subsection, the Sec-
10 retary may contract to make grants under this title, on or
11 after July 1, 1967, in an amount not to exceed \$600,000,-
12 000: *Provided*, That the authority to contract to make
13 grants provided by this sentence shall be exercised only
14 with respect to an urban renewal project which is identified
15 and scheduled to be carried out as one of the projects or
16 activities included within an approved comprehensive city
17 demonstration program assisted under the provisions of sec-
18 tion 105 (c) of the Housing and Urban Development Act
19 of 1966."

20 TITLE II—GRANTS TO ASSIST IN PLANNED
21 METROPOLITAN DEVELOPMENT

22 FINDINGS AND DECLARATION OF PURPOSE

23 SEC. 201. (a) The Congress hereby finds that the wel-
24 fare of the Nation and of its people is directly dependent
25 upon the effective organization and functioning of the metro-

1 politan areas in which two-thirds of its people live and work.

2 It further finds that the continuing rapid growth of these
3 areas makes it essential that they prepare, keep current, and
4 actually carry out comprehensive plans and programs for
5 their orderly physical development with a view to efficiently
6 meeting all their economic and social needs.

7 It further finds that metropolitan areas are especially
8 handicapped in this task by the complexity and scope of
9 governmental services required in such rapidly growing
10 areas, the multiplicity of political jurisdictions and agencies
11 involved, and the inadequacy of the operational and adminis-
12 trative arrangements available for cooperation among them.

13 It further finds that present requirements for areawide
14 planning and programing in connection with various Federal
15 programs have materially assisted in the solution of metro-
16 politan problems, but that additional participation and
17 cooperation are needed from the States and localities in
18 perfecting and carrying out such areawide efforts.

19 (b) It is the purpose of this title to provide additional
20 encouragement and assistance to States and localities,
21 through supplementary grants for certain federally assisted
22 development projects, for making effective comprehensive
23 metropolitan planning and programing.

24 GRANT AUTHORITY

25 SEC. 202. (a) The Secretary is authorized to make

1 supplementary grants to applicant State and local public
2 bodies and agencies carrying out, or assisting in carrying
3 out, development projects meeting the requirements of this
4 title.

5 (b) Grants may be made under this title only for de-
6 velopment projects in metropolitan areas for which it has
7 been demonstrated, to the satisfaction of the Secretary, that—

8 (1) metropolitanwide comprehensive planning and
9 programing provide an adequate basis for evaluating

10 (A) the location, financing, and scheduling of individ-
11 ual public facility projects (including, but not limited
12 to, sewer, water, and sewage treatment facilities; high-
13 way, mass transit, airport, and other transportation
14 facilities; and recreation and other open-space areas)
15 whether or not federally assisted; and (B) other pro-
16 posed land development or uses, which projects or uses,
17 because of their size, density, type, or location, have
18 public metropolitanwide or interjurisdictional signifi-
19 cance;

20 (2) adequate metropolitanwide institutional or
21 other arrangements exist for coordinating, on the basis
22 of such metropolitanwide comprehensive planning and
23 programing, local public policies and activities affecting
24 the development of the area; and

1 (3) public facility projects and other land develop-
2 ment or uses which have a major impact on the develop-
3 ment of the area are, in fact, being carried out in accord
4 with such metropolitanwide comprehensive planning and
5 programing.

6 (c) (1) Where the applicant for a grant under this title
7 is a county, municipality, or other general-purpose unit of
8 local government, it must demonstrate, to the satisfaction of
9 the Secretary, that taking into consideration the scope of its
10 authority and responsibilities it is adequately assuring that
11 public facility projects and other land development or uses
12 of public metropolitanwide or interjurisdictional significance
13 are being, and will be, carried out in accord with metropoli-
14 tan planning and programing meeting the requirements of
15 subsection (b). In making this determination the Secre-
16 tary shall give special consideration to whether the applicant
17 is effectively assisting in, and conforming to, metropolitan
18 planning and programing through (A) the location and
19 scheduling of public facility projects, whether or not federally
20 assisted; and (B) the establishment and consistent adminis-
21 tration of zoning codes, subdivision regulations, and similar
22 land-use and density controls.

23 (2) Where the applicant for a grant under this title is
24 not a general-purpose unit of local government, both it and
25 the general-purpose unit of local government having jurisdic-

1 tion over the location of the project must meet requirements
2 of this subsection.

3 (d) In making the determinations required under this
4 section, the Secretary shall obtain, and give full consideration
5 to, the comments of the body or bodies (State or local) re-
6 sponsible for planning and programing for the metropolitan
7 area.

8 (e) No grant shall be made under this title with respect
9 to a development project for which a Federal grant has been
10 made, or a contract of assistance has been entered into, under
11 the legislation referred to in paragraph (1) of section 205
12 prior to February 21, 1966, or more than one year prior to
13 the date on which the Secretary has made the determinations
14 required under this section with respect to the applicant and
15 to the area in which the project is located: *Provided*, That in
16 the case of a project for which a contract of assistance under
17 the legislation referred to in paragraph (1) of section 205
18 has been entered into after June 30, 1967, no grant shall be
19 made under this title unless an application for such grant
20 has been made on or before the date of such contract.

21 EXTENT OF GRANT

22 SEC. 203. (a) A grant under this title shall not exceed
23 (1) 20 per centum of the cost of the project for which the
24 grant is made; nor (2) the Federal grant made with respect
25 to the project under the legislation referred to in paragraph

1 (1) of section 205. In no case shall the total Federal con-
2 tributions to the cost of such project be more than 80 per
3 centum. Notwithstanding any other provision of law, includ-
4 ing requirements with respect to non-Federal contributions,
5 grants under this title shall be eligible for inclusion (directly
6 or through refunds or credits) as part of the financing for
7 such projects: *Provided*, That projects or activities on the
8 basis of which assistance is provided under section 105 (c) of
9 this Act shall not be eligible for assistance under this title.

10 (b) There are hereby authorized to be appropriated
11 such sums as may be necessary to carry out the provisions of
12 this title. Appropriations authorized under this title shall
13 remain available until expended when so provided in appro-
14 priations Acts.

15 CONSULTATION AND CERTIFICATION

16 SEC. 204. In carrying out the provisions of this title, in-
17 cluding the issuance of regulations, the Secretary shall con-
18 sult with the Department of the Interior; the Department of
19 Commerce; the Department of Health, Education, and Wel-
20 fare; and the Federal Aviation Agency with respect to de-
21 velopment projects assisted by those departments and agen-
22 cies; and he shall, for the purpose of section 203, accept
23 their respective certifications as to the cost of those projects
24 and the amount of the non-Federal contribution paid or to be
25 paid to that cost.

DEFINITIONS

SEC. 205. As used in this title—

(1) “development project” means a project assisted or to be assisted under section 702 of the Housing and Urban Development Act of 1965; section 8 of the Federal Water Pollution Control Act; section 120 (a) of title 23, United States Code; section 9 of the Federal Airport Act; section 3 of the Urban Mass Transportation Act of 1964; title VII of the Housing Act of 1961; section 5 (e) of the Land and Water Conservation Fund Act of 1965; or section 101 (a) (1) of the Public Works and Economic Development Act of 1965 (for a project of a type which the Secretary determines to be eligible for assistance under other of the provisions listed above) ;

(2) “State” means any State of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, or an agency or instrumentality of any of the foregoing;

(3) “metropolitan area” means a standard metropolitan statistical area as established by the Bureau of the Budget, subject however to such modifications and extensions as the Secretary may determine to be appropriate; and

(4) “Secretary” means the Secretary of Housing and Urban Development.

1 TITLE III—COORDINATION OF FEDERAL ACTIV-
2 ITIES IN METROPOLITAN DEVELOPMENT

3 COOPERATION BETWEEN FEDERAL AGENCIES

4 SEC. 301. In order to insure that all Federal programs
5 related to metropolitan development are carried out in a
6 coordinated manner—

7 (1) the Secretary of Housing and Urban Develop-
8 ment is authorized to call upon other Federal agencies
9 to supply such statistical data, program reports, and
10 other materials as he deems necessary to discharge his
11 responsibilities for metropolitan development, and to
12 assist the President in coordinating the metropolitan
13 development efforts of all Federal agencies; and

14 (2) all Federal agencies which are engaged in
15 administering programs related to metropolitan develop-
16 ment, or which otherwise perform functions relating
17 thereto, shall cooperate with the Secretary in carrying
18 out his duties and responsibilities for metropolitan
19 development.

20 METROPOLITAN EXPEDITERS

21 SEC. 302. The Secretary shall appoint a metropolitan
22 expediter for each metropolitan area which he finds needs and
23 desires it. Such appointments shall be made only after con-
24 sultation with local governmental authorities in such metro-
25 politan area. The metropolitan expediter shall provide

1 information, data, and assistance to local authorities and
2 private individuals and entities within the metropolitan area,
3 and to all relevant Federal departments and agencies, with
4 respect to all programs and activities conducted within such
5 metropolitan area by the Department of Housing and Urban
6 Development, and with respect to other public and private
7 activities and needs within such metropolitan area which
8 relate to the programs and activities of the Department.

9 TITLE IV—LAND DEVELOPMENT AND NEW
10 COMMUNITIES

11 MORTGAGE INSURANCE FOR NEW COMMUNITIES

12 SEC. 401. Title X of the National Housing Act is
13 amended by inserting after section 1003 the following new
14 section 1004 and redesignating the remaining sections
15 accordingly:

16 “NEW COMMUNITIES

17 “SEC. 1004. (a) New communities consisting of de-
18 velopments, satisfying all other requirements under this title,
19 may be approved under this section by the Secretary for
20 mortgage insurance if they meet the requirements of sub-
21 section (b) of this section.

22 “(b) A development shall be eligible for approval as
23 a new community if the Secretary determines it will, in
24 view of its size and scope, make a substantial contribution

1 to the sound and economic growth of the area within which
2 it is located in the form of—

3 “ (1) substantial economies, made possible through
4 large-scale development, in the provision of improved
5 residential sites;

6 “ (2) adequate housing to be provided for those
7 who would be employed in the community or the sur-
8 rounding area;

9 “ (3) maximum accessibility from the new residen-
10 tial sites to industrial or other employment centers and
11 commercial, recreational, and cultural facilities in or near
12 the community; and

13 “ (4) maximum accessibility to any major central
14 city in the area”.

15 MORTGAGE AMOUNT AND TERM

16 SEC. 402. (a) Section 1002 (c) of the National Housing
17 Act is amended by striking out “\$10,000,000” and insert-
18 ing in lieu thereof “\$25,000,000”.

19 (b) Section 1002 (d) (1) of such Act is amended to
20 read as follows:

21 “ (1) contain repayment provisions satisfactory to
22 the Secretary and have a maturity not to exceed seven
23 years, or such longer maturity as the Secretary deems
24 reasonable (A) in the case of a privately owned system

1 for water or sewerage, and (B) in the case of a new
2 community approved under section 1004;”.

3 ENCOURAGEMENT OF SMALL BUILDERS

4 SEC. 403. The section of the National Housing Act re-
5 designated as section 1005 by section 401 of this Act is
6 amended by inserting “particularly small builders,” after
7 “broad participation by builders,”.

8 WATER AND SEWERAGE FACILITIES

9 SEC. 404. The section of the National Housing Act
10 redesignated as section 1006 by section 401 of this Act
11 is amended by adding at the end thereof the following new
12 sentence: “In the case of a new community approved by
13 the Secretary pursuant to section 1004, the land shall be
14 served, after its development, by—

15 “(a) public systems for water and sewerage which
16 are consistent with other existing or prospective systems
17 within the area; or

18 “(b) existing privately or cooperatively owned
19 systems (including reasonable extensions thereto) which
20 are approved as adequate by the Secretary and are
21 regulated in a manner acceptable to him; or

22 “(c) if it is necessary to develop a new system
23 and the Secretary determines that public ownership of

1 such a system is not feasible, an adequate privately or
2 cooperatively owned new system (1) which he finds
3 consistent with other existing or prospective systems
4 within the area; (2) which will be regulated, during
5 the period of such ownership, in a manner acceptable to
6 him with respect to user rates and charges, capital struc-
7 ture, methods of operation, and rate of return; and (3)
8 regarding which he receives assurances, satisfactory to
9 him, with respect to eventual public ownership and
10 operation of the system and with respect to the condi-
11 tions and terms of any sale or transfer.”

12 FEDERAL NATIONAL MORTGAGE ASSOCIATION SPECIAL
13 ASSISTANCE FOR NEW COMMUNITIES

14 SEC. 405. Section 302 (b) of the National Housing Act
15 is amended by inserting after “or title VIII,” in the proviso
16 the following: “or under title X with respect to a new com-
17 munity approved under section 1004 thereof,”.

18 URBAN PLANNING GRANTS

19 SEC. 406. Section 701 (a) (4) of the Housing Act of
20 1954 is amended by inserting before the semicolon at the
21 end thereof the following: “, or for areas where rapid urbani-
22 zation is expected to result on land acquired or to be acquired
23 by land development agencies with assistance under section
24 202 (b) (1) of the Housing Amendments of 1955, or on

1 land developed or to be developed as a new community ap-
2 proved under section 1004 of the National Housing Act”.

3 PUBLIC FACILITY LOANS

4 SEC. 407. Paragraph (4) of the subsection of section
5 202 of the Housing Amendments of 1955 redesignated as
6 subsection (c) by section 408 of this Act is amended by add-
7 ing before the period at the end of the second sentence the
8 following: “, or (iii) to be provided in connection with the
9 establishment of a new community approved under section
10 1004 of the National Housing Act”.

11 LOANS TO LAND DEVELOPMENT AGENCIES

12 SEC. 408. (a) Section 202 of the Housing Amendments
13 of 1955 is amended by inserting after subsection (a) the
14 following new subsection (b) and redesignating the remain-
15 ing subsections accordingly:

16 “(b) (1) In order to encourage and assist in the timely
17 acquisition of open or predominantly undeveloped land to be
18 utilized in connection with the development of well-planned
19 residential neighborhoods, subdivisions, and communities, the
20 Secretary is authorized to purchase the securities and obliga-
21 tions of, or make loans to, land development agencies to
22 finance the acquisition of a fee simple or other interest in such
23 land for subsequent sale in accordance with this subsection.
24 A loan under this subsection may be in an amount which

1 shall not exceed the total cost, as approved by the Secretary,
2 of acquiring such interest; shall be reasonably secured; shall
3 be repaid in such manner and within such period, not exceed-
4 ing fifteen years, as may be determined by the Secretary;
5 and shall bear interest at the rate prescribed for financial
6 assistance extended under subsection (a) of this section. As
7 used in this subsection, 'land development agencies' means
8 public corporations, including municipalities, authorized to
9 carry out, and created or designated by or pursuant to State
10 law for the purpose of carrying out, the functions for which
11 financial assistance is available under this subsection.

12 “(2) The Secretary shall not extend any financial as-
13 sistance for the acquisition of land under this subsection
14 unless he determines that (A) the financial assistance ap-
15 plied for is not otherwise available on reasonable terms, (B)
16 the development of a well-planned residential neighborhood,
17 subdivision, or community on such land would be consistent
18 with a comprehensive plan or comprehensive planning, meet-
19 ing criteria established by the Secretary, for the area in
20 which the land is located, and (C) a preliminary develop-
21 ment plan for the use of the land meets criteria established
22 by the Secretary for such preliminary plans.

23 “(3) Land acquired with financial assistance under this
24 subsection shall be disposed of for development in accordance
25 with a current development plan for the land which has been

1 approved by the Secretary as consistent with provisions of
2 the loan agreement, and shall not be sold or otherwise dis-
3 posed of for less than its fair value for uses in accord with
4 such development plan. Such plan shall, wherever feasible
5 in the light of current conditions, encourage the provision of
6 sites providing a proper balance of types of housing to serve
7 families having a broad range of incomes. The Secretary
8 shall adopt such requirements as he deems necessary to en-
9 courage the maintenance of a diversified local homebuilding
10 industry and broad participation by builders, particularly
11 small builders.”

12 (b) The proviso in section 203 (a) of the Housing
13 Amendments of 1955 is amended—

14 (1) by striking out “section 202 (a)” and inserting
15 in lieu thereof “section 202 (a) and pursuant to section
16 202 (b)”; and

17 (2) by striking out “of such section” and inserting
18 in lieu thereof “of section 202 (a)”.

19 Housing and Urban Development.

20 TITLE V—FHA INSURANCE OPERATIONS

21 FHA MORTGAGE FINANCING FOR VETERANS

22 SEC. 501. The next to last sentence of section 203 (b)
23 (2) of the National Housing Act is amended by striking
24 out “If the mortgagor is a veteran who has not received any
25 direct, guaranteed, or insured loan under laws administered

1 by the Veterans' Administration for the purchase, construc-
 2 tion, or repair of a dwelling (including a farm dwelling)
 3 which was to be owned and occupied by him as his home,"
 4 and inserting in lieu thereof the following: "If the mortgagor
 5 is a veteran,".

6 COOPERATIVE HOUSING INSURANCE FUND

7 SEC. 502. (a) Section 213 (m) of the National Hous-
 8 ing Act is amended by striking out " , but only in cases where
 9 the consent of the mortgagee or lender to the transfer is ob-
 10 tained or a request by the mortgagee or lender for the transfer
 11 is received by the ~~Secretary~~ *Commissioner* within such period
 12 of time after the date of the enactment of this subsection as
 13 the ~~Secretary~~ *Commissioner* shall prescribe".

14 (b) Section 213 (n) of such Act is amended—

15 (1) by striking out "insured under this section and
 16 sections 207, 231, and 232" and inserting in lieu thereof
 17 "the insurance of which is the obligation of either the
 18 Management Fund or the General Insurance Fund";
 19 and

20 (2) by adding at the end thereof the following new
 21 sentence: "Premium charges on the insurance of mort-
 22 gages or loans transferred to the Management Fund or
 23 insured pursuant to commitments transferred to the Man-
 24 agement Fund may be payable in debentures which are

the obligation of either the Management Fund or of the General Insurance Fund.”

(c) (1) The fourth sentence of section 213 (k) of such Act is amended to read as follows: “The Secretary is directed to transfer to the Management Fund from the General Insurance Fund an amount equal to the total of the premium payments theretofore made with respect to the insurance of mortgages and loans transferred to the Management Fund pursuant to subsection (m) minus the total of any administrative expenses theretofore incurred in connection with such mortgages and loans, plus such other amounts as the Secretary determines to be necessary and appropriate.”

(2) The second proviso in section 213 (l) of such Act is amended by striking out “pursuant to subsection (k) or (o)” and inserting in lieu thereof “pursuant to subsection (o)”.

MORTGAGE LIMITS FOR COOPERATIVE HOUSING

SEC. 503. Section 213 (b) (2) of the National Housing Act is amended—

(1) by striking out “\$9,000”, “\$12,500”, “\$15,000”, “\$18,500”, and “\$21,000” in the matter preceding the first proviso and inserting in lieu thereof “\$11,500”, “\$15,000”, “\$17,500”, “\$21,000”, and “\$23,500”, respectively; and

1 (2) by striking out “\$10,500”, “\$15,000”, “\$18,-
2 000”, “\$22,500”, and “\$25,500” in the first proviso
3 and inserting in lieu thereof “\$13,000”, “\$17,500”,
4 “\$20,500”, “\$25,000”, and “\$28,000”, respectively.

5 SUPPLEMENTARY FINANCING FOR COOPERATIVE HOUSING

6 SEC. 504. Section 213 (j) (2) (A) of the National
7 Housing Act is amended by adding at the end thereof the
8 following: “except that, in the case of improvements or
9 additional community facilities, the outstanding indebted-
10 ness may be increased by an amount equal to 97 per centum
11 of the amount which the Secretary estimates will be the
12 value of such improvements or facilities, and the new out-
13 standing indebtedness may exceed the original principal
14 obligation of the mortgage if such new outstanding indebt-
15 edness does not exceed the limitations imposed by subsec-
16 tion (b) ;”.

17 MORTGAGE LIMITS FOR HOMES UNDER SECTION 221(d)(2)

18 SEC. 505. Section 221 (d) (2) (A) of the National
19 Housing Act is amended by striking out “\$11,000” and
20 “\$18,000” and inserting in lieu thereof “\$12,500” and
21 “\$20,000”, respectively.

1 INSURANCE OF MORTGAGES UNDER SECTION 221 TO
2 FINANCE PURCHASE AND REHABILITATION BY NON-
3 PROFIT ORGANIZATIONS OF HOUSING FOR RESALE TO
4 LOW-INCOME PURCHASERS

5 SEC. 506. (a) Section 221 of the National Housing
6 Act is amended by adding at the end thereof the following
7 new subsection:

8 “~~(i)~~ (h) (1) In addition to mortgages insured under the
9 other provisions of this section, the Secretary is authorized,
10 upon application by the mortgagee, to insure under this sub-
11 section as hereinafter provided any mortgage (including
12 advances under such mortgage during rehabilitation) which
13 is executed by a nonprofit organization to finance the pur-
14 chase and rehabilitation of deteriorating or substandard
15 housing for subsequent resale to low-income home purchasers
16 and, upon such terms and conditions as the Secretary may
17 prescribe, to make commitments for the insurance of such
18 mortgages prior to the date of their execution or disburse-
19 ment thereon.

20 “(2) To be eligible for insurance under paragraph (1)
21 of this subsection, a mortgage shall—

1 “(A) be executed by a private nonprofit corpora-
2 tion or association approved for purposes of this subsec-
3 tion by the Secretary, for the purpose of financing the
4 purchase of property (comprising one or more tracts or
5 parcels, whether or not contiguous) upon which there
6 is located deteriorating or substandard housing consisting
7 of five or more single-family dwellings of detached, semi-
8 detached, or row construction and of rehabilitating such
9 dwellings with a view to subsequent resale as hereinafter
10 provided;

11 “(B) be secured by the property which is to be
12 purchased and rehabilitated with the proceeds thereof;

13 “(C) be in a principal amount not exceeding the
14 appraised value of the property at the time of its pur-
15 chase under the mortgage plus the estimated cost of the
16 rehabilitation;

17 “(D) bear interest (exclusive of premium charges
18 for insurance and service charge, if any) at the rate in
19 effect under the proviso in subsection (d) (5) at the
20 time of execution;

21 “(E) provide for complete amortization (subject
22 to paragraph (5) (E)) by periodic payments within
23 such term as the Secretary may prescribe; and

24 “(F) provide for the release of individual single-
25 family dwellings from the lien of the mortgage upon

1 the sale of the rehabilitated dwellings in accordance
2 with paragraph (5).

3 “(3) No mortgage shall be insured under paragraph
4 (1) unless the mortgagor shall have demonstrated to the
5 satisfaction of the Secretary that (A) the property to be
6 rehabilitated is located in a neighborhood which is suf-
7 ficiently stable and contains sufficient public facilities and
8 amenities to support long-term values, or (B) the rehabili-
9 tation to be carried out by the mortgagor plus its related
10 activities and the activities of other owners of housing in
11 the neighborhood, together with actions to be taken by
12 public authorities, will be of such scope and quality as to
13 give reasonable promise that a stable environment will be
14 created in the neighborhood.

15 “(4) The aggregate principal balance of all mortgages
16 insured under paragraph (1) and outstanding at any one
17 time shall not exceed \$20,000,000.

18 “(5) (A) No mortgage shall be insured under para-
19 graph (1) unless the mortgagor enters into an agreement
20 (in form and substance satisfactory to the Secretary) that
21 it will offer to sell the dwellings involved, upon com-
22 pletion of their rehabilitation, to individuals or families
23 (hereinafter referred to as ‘low-income purchasers’) deter-
24 mined by the Secretary to have incomes below the maximum
25 amount specified (with respect to the area involved) in sec-

tion 101(c)(1) of the Housing and Urban Development Act of 1965.

“(B) The Secretary is authorized to insure under this paragraph mortgages executed to finance the sale of individual dwellings to low-income purchasers as provided in subparagraph (A). Any such mortgage shall—

“(i) be in a principal amount equal to that portion of the unpaid balance of the principal mortgage covering the property (insured under paragraph (1)) which is allocable to the individual dwelling involved; and

“(ii) bear interest at the same rate as the principal mortgage, and provide for complete amortization by periodic payments within a term equal to the remaining term (determined without regard to subparagraph (E)) of such principal mortgage.

“(C) The price for which any individual dwelling is sold to a low-income purchaser under this paragraph shall be the amount of the mortgage covering the sale as determined under subparagraph (B), except that the purchaser shall in addition thereto be required to pay on account of the property at the time of purchase such amount (which shall not be less than \$200, but which may be applied in whole or in part toward closing costs) as the Secretary may determine to be reasonable and appropriate in the circumstances.

1 “(D) Upon the sale under this paragraph of any indi-
2 vidual dwelling, such dwelling shall be released from the lien
3 of the principal mortgage, and such mortgage shall there-
4 upon be replaced by an individual mortgage insured under
5 this paragraph to the extent of the portion of its unpaid
6 balance which is allocable to the dwelling covered by such
7 individual mortgage. Until all of the individual dwellings in
8 the property covered by the principal mortgage have been
9 sold, the mortgagor shall hold and operate the dwellings re-
10 maining unsold at any given time as though they constituted
11 rental units in a project covered by a mortgage which is
12 insured under subsection (d) (3) (and which receives the
13 benefits of the interest rate provided for in the proviso in
14 subsection (d) (5)).

15 “(E) Upon the sale under this paragraph of all of the
16 individual dwellings in the property covered by the prin-
17 cipal mortgage, and the release of all individual dwellings
18 from the lien of the principal mortgage, the insurance of
19 the principal mortgage shall be terminated and no adjusted
20 premium charge shall be charged by the Secretary upon
21 such termination.

22 “(F) Any mortgage insured under this paragraph shall
23 contain a provision that if the low-income mortgagor does
24 not continue to occupy the property, the interest rate shall
25 increase to the highest rate permissible under this section

1 and the regulations of the Secretary effective at the time of
2 commitment for insurance of the principal mortgage; except
3 that the increase in interest rate shall not be applicable if
4 the property is sold and the purchaser is (i) the nonprofit
5 organization which executed the principal mortgage, (ii) a
6 public housing agency having jurisdiction under the United
7 States Housing Act of 1937 over the area where the dwelling
8 is located, or (iii) a low-income purchaser approved for the
9 purposes of this paragraph by the Secretary.”

10 (b) (1) Section 221 (g) (1) of such Act is amended
11 by inserting after “paragraph (2) of subsection (d) of this
12 section” the following: “or paragraph (5) of subsection ~~(i)~~
13 *(h)* of this section”.

14 (2) Section 221 (g) (2) of such Act is amended by in-
15 serting after “paragraph (3) or (4) of subsection (d) of
16 this section” the following: “or paragraph (1) of subsection
17 ~~(i)~~ *(h)* of this section”.

18 (c) Section 221 (f) of such Act is amended by inserting
19 after “Housing Act of 1961,” in the fourth sentence “or
20 which meet the requirements of subsection ~~(i)~~ *(h)*,”.

21 (d) Section 305 (h) of such Act is amended by striking
22 out “section 221 (d) (3)” and inserting in lieu thereof “sec-
23 tions 221 (d) (3) and 221~~(i)~~ *(h)*”.

1 APPLICATION OF DAVIS-BACON ACT TO COOPERATIVE HOUS-
 2 ING PROJECTS INSURED UNDER SECTION 221 (d)(3) AND
 3 (d)(4)

4 SEC. 507. The third sentence of section 212 (a) of the
 5 National Housing Act is amended by inserting before the
 6 period at the end thereof the following: “, except that com-
 7 pliance with such provisions may be waived by the Secretary
 8 in cases or classes of cases where laborers or mechanics (not
 9 otherwise employed at any time in the construction of the
 10 project) voluntarily donate their services without compensa-
 11 tion for the purpose of lowering their housing costs in a
 12 cooperative housing project and the Secretary determines
 13 that any amounts saved thereby are fully credited to the
 14 cooperative undertaking the construction”.

15 WAIVER OF DEDUCTION ON ASSIGNMENT OF PROPERTY TO
 16 SECRETARY IN LIEU OF FORECLOSURE

17 SEC. 508. Title V of the National Housing Act is
 18 amended by adding at the end thereof the following new
 19 section:

20 “WAIVER OF DEDUCTION ON ASSIGNMENT OF PROPERTY TO
 21 SECRETARY IN LIEU OF FORECLOSURE

22 “SEC. 523. Notwithstanding any other provision of this
 23 Act, from and after the date of the enactment of the Housing

1 and Urban Development Act of 1966, the Secretary, under
 2 such terms and conditions as he may approve, may waive
 3 all or a part of the 1 per centum deduction otherwise made
 4 from insurance benefits with respect to multifamily housing
 5 or land development mortgages assigned to him, where the
 6 assignment is made at his request in lieu of foreclosure of
 7 the mortgage.”

8 ARMED SERVICES HOUSING MORTGAGE INSURANCE

9 PROGRAM

10 SEC. 509. (a) Section 803 (a) of the National Housing
 11 Act is amended—

12 (1) by striking out “\$2,300,000,000” and inserting
 13 in lieu thereof “\$3,350,000,000”;

14 (2) by striking out “October 1, 1962” and inserting
 15 in lieu thereof “October 1, 1969”; and

16 (3) by striking out “twenty-eight thousand” and
 17 inserting in lieu thereof “eighty-eight thousand”.

18 (b) Section 803 (b) of such Act is amended—

19 (1) by striking out “\$16,500” each place it ap-
 20 pears in paragraph (3) (B) and inserting in lieu thereof
 21 “\$17,500”; and

22 (2) by striking out “4½ per centum” in the sen-
 23 tence following paragraph (3) (C) and inserting in lieu
 24 thereof “5½ per centum”.

1 TITLE VI—MORTGAGE INSURANCE FOR GROUP
2 PRACTICE FACILITIES

3 PURPOSE

4 SEC. 601. It is the purpose of this title to assure the
5 availability of credit on reasonable terms to units or orga-
6 nizations engaged in the group practice of medicine, optom-
7 etry, or dentistry, particularly those in smaller communities
8 and those sponsored by cooperative or other nonprofit
9 organizations, to assist in financing the construction and
10 equipment of group practice facilities.

11 ESTABLISHMENT OF PROGRAM

12 SEC. 602. (a) The National Housing Act is amended
13 by adding at the end thereof the following new title:

14 “TITLE XI—MORTGAGE INSURANCE FOR GROUP
15 PRACTICE FACILITIES

16 “INSURANCE OF MORTGAGES

17 “SEC. 1101. (a) The Secretary is authorized (1) to
18 insure mortgages (including advances on such mortgages
19 during construction), upon such terms and conditions as
20 he may prescribe, in accordance with the provisions of this
21 title, and (2) to make commitments for the insuring of such
22 mortgages prior to the date of their execution or disburse-
23 ment thereon. No mortgage shall be insured under this

1 title after October 1, 1969, except pursuant to a commit-
2 ment to insure issued before that date.

3 “(b) To be eligible for insurance under this title, the
4 mortgage shall (1) be executed by a mortgagor that is
5 a group practice unit or organization, approved by the Sec-
6 retary, (2) be made to and held by a mortgagee ap-
7 proved by the Secretary as responsible and able to service
8 the mortgage properly, and (3) cover a property or project
9 which is approved for mortgage insurance prior to the be-
10 ginning of construction or rehabilitation and is designed for
11 use as a group practice facility which the Secretary finds
12 will be constructed in an economical manner, will not be of
13 elaborate or extravagant design or materials, and will be
14 adequate and suitable for carrying out the purposes of this
15 title. No mortgage shall be insured under this title unless
16 it is shown to the satisfaction of the Secretary that the
17 applicant would be unable to obtain the mortgage loan
18 without such insurance on terms comparable to those speci-
19 fied in subsection (c).

20 “(c) The mortgage shall—

21 “(1) not exceed \$5,000,000;

22 “(2) not exceed 90 per centum of the amount
23 which the Secretary estimates will be the value of the
24 property or project when construction or rehabilitation
25 is completed. The value of the property may include

1 the land and the proposed physical improvements, equip-
2 ment, utilities within the boundaries of the property,
3 architects' fees, taxes, and interest accruing during con-
4 struction or rehabilitation, and other miscellaneous
5 charges incident to construction or rehabilitation and
6 approved by the Secretary;

7 “(3) have a maturity satisfactory to the Secretary
8 but not to exceed twenty-five years, and provide for
9 complete amortization of the principal obligation by
10 periodic payments within such term as the Secretary
11 shall prescribe; and

12 “(4) bear interest (exclusive of premium charges
13 for insurance, and service charges if any) at a rate of
14 not to exceed 5 per centum per annum of the amount of
15 the principal obligation outstanding at any time, or not
16 to exceed such rate (not in excess of 6 per centum per
17 annum) as the Secretary finds necessary to meet the
18 mortgage market.

19 “(d) Any contract of insurance executed by the Secre-
20 tary under this title shall be conclusive evidence of the
21 eligibility of the mortgage for insurance, and the validity of
22 any contract for insurance so executed shall be incontestable
23 in the hands of an approved mortgagee from the date of the
24 execution of such contract, except for fraud or misrepresenta-
25 tion on the part of such approved mortgagee.

1 “(e) Each mortgage insured under this title shall con-
2 tain an undertaking (in accordance with regulations pre-
3 scribed under this title and in force at the time the mortgage
4 is approved for insurance) to the effect that, except as
5 authorized by the Secretary and the mortgagee, the prop-
6 erty will be used as a group practice facility until the
7 mortgage has been paid in full or the contract of insurance
8 otherwise terminated.

9 “(f) No mortgage shall be insured under this title
10 unless the mortgagor and the mortgagee certify (1) that
11 they will keep such records relating to the mortgage trans-
12 action and indebtedness, to the construction of the facility
13 covered by the mortgage, and to the use of such facility as
14 a group practice facility as are prescribed by the Secretary
15 at the time of such certification, (2) that they will make
16 such reports as may from time to time be required by the
17 Secretary pertaining to such matters, and (3) that the
18 Secretary shall have access to and the right to examine and
19 audit such records.

20 “PREMIUMS

21 “SEC. 1102. The Secretary shall fix premium charges
22 for the insurance of mortgages under this title, but such
23 charges shall not be more than 1 per centum per annum
24 of the amount of the principal obligation of the mortgage

1 outstanding at any time, without taking into account delin-
2 quent payments or prepayments. In addition to the pre-
3 mium charge, the Secretary is authorized to charge and col-
4 lect such amounts as he may deem reasonable for the analysis
5 of a proposed project and the appraisal and inspection of
6 the property and improvements. Where the principal obli-
7 gation of any mortgage accepted for insurance under this
8 title is paid in full prior to the maturity date, the Secretary
9 is authorized to require the payment by the mortgagee of
10 an adjusted premium charge. This charge shall be in such
11 amount as the Secretary determines to be equitable, but not
12 in excess of the aggregate amount of the premium charges
13 that the mortgagee would otherwise have been required to
14 pay if the mortgage had continued to be insured until the
15 maturity date. Where such prepayment occurs, the Secre-
16 tary is authorized to refund to the mortgagee for the account
17 of the mortgagor all, or such portion as he shall determine
18 to be equitable, of the current unearned premium charges
19 theretofore paid. Premium charges fixed under this section
20 shall be payable by the mortgagee either in cash, or in
21 debentures which are the obligation of the General Insurance
22 Fund at par plus accrued interest, at such times and in such
23 manner as may be prescribed by the Secretary.

1 “PAYMENT OF INSURANCE BENEFITS

2 “SEC. 1103. The mortgagee shall be entitled to receive
3 the benefits of the insurance under this title in the manner
4 provided in subsection (g) of section 207 with respect to
5 mortgages insured under that section. For such purpose the
6 provisions of subsections (g), (h), (i), (j), (k), (l), and
7 (n) of section 207 shall apply to mortgages insured under
8 this title and all references in such subsections to section
9 207 shall be deemed to refer to this title.

10 “REGULATIONS

11 “SEC. 1104. The Secretary shall prescribe such regu-
12 lations as may be necessary to carry out this title, after con-
13 sulting with the Surgeon General of the Public Health
14 Service with respect to any health or medical aspects of
15 the program under this title which may be involved in
16 such regulations.

17 “ADMINISTRATION

18 “SEC. 1105. (a) At the request of individuals or orga-
19 nizations operating or contemplating the operation of group
20 practice facilities (as defined in section 1106 (1)), the Sec-
21 retary may provide or obtain technical assistance in the
22 planning for and construction of such facilities.

23 “(b) With a view to avoiding unnecessary duplication
24 of existing staffs and facilities of the Federal Government,
25 the Secretary is authorized to utilize available services and

1 facilities of any agency of the Federal Government in carry-
2 ing out the provisions of this title, and to pay for such serv-
3 ices and facilities, either in advance or by way of reimburse-
4 ment, in accordance with an agreement between the Secre-
5 tary and the head of such agency.

6 "DEFINITIONS

7 "SEC. 1106. For the purposes of this title—

8 "(1) The term 'group practice facility' means a facility
9 in a State for the provision of preventive, diagnostic, and
10 treatment services to ambulatory patients (in which patient
11 care is under the professional supervision of persons licensed
12 to practice medicine in the State or, in the case of optometric
13 care or treatment, is under the professional supervision of
14 persons licensed to practice optometry in the State, or, in
15 the case of dental diagnosis or treatment, is under the pro-
16 fessional supervision of persons licensed to practice dentistry
17 in the State) and which is primarily for the provision of such
18 health services by a medical or dental group.

19 "(2) The term 'medical or dental group' means a
20 partnership or other association or group of persons licensed
21 to practice medicine or surgery in the State, or of persons
22 licensed to practice optometry in the State, or of persons
23 licensed to practice dentistry in the State, or of any combi-
24 nation of such persons, who, as their principal professional
25 activity and as a group responsibility, engage or undertake

1 to engage in the coordinated practice of their profession pri-
2 marily in one or more group practice facilities, and who (in
3 this connection) share common overhead expenses (if and to
4 the extent such expenses are paid by members of the group),
5 medical and other records, and substantial portions of the
6 equipment and the professional, technical, and administra-
7 tive staffs, and which partnership or association or group is
8 composed of at least such professional personnel and make
9 available at least such health services as may be provided
10 in regulations prescribed under this title.

11 “(3) The term ‘group practice unit or organization’
12 means—

13 “(A) a private nonprofit agency or organization
14 undertaking to provide, directly or through arrange-
15 ments with a medical or dental group, comprehensive
16 medical care, optometric care, or dental care, or any
17 combination thereof, which may include hospitalization.
18 to members or subscribers primarily on a group practice
19 prepayments basis; or

20 “(B) a private nonprofit agency or organization
21 established for the purpose of improving the availability
22 of medical, optometric, or dental care in the community
23 or having some function or functions related to the
24 provision of such care, which will, through lease or
25 other arrangement, make the group practice facility

1 with respect to which assistance has been requested
2 under this title available to a medical or dental group
3 for use by it.

4 “(4) The term ‘nonprofit organization’ means a corpo-
5 ration, association, foundation, trust, or other organization
6 no part of the net earnings of which inures, or may lawfully
7 inure, to the benefit of any private shareholder or individual
8 except, in the case of an organization the purposes of which
9 include the provision of personal health services to its mem-
10 bers or subscribers or their dependents under a plan of such
11 organization for the provision of such services to them
12 (which plan may include the provision of other services
13 or insurance benefits to them), through the provision of
14 such health services (or such other services or insurance
15 benefits) to such members or subscribers or dependents
16 under such plan.

17 “(5) The term ‘State’ includes the Commonwealth of
18 Puerto Rico, Guam, the Virgin Islands, American Samoa,
19 and the District of Columbia.

20 “(6) The term ‘mortgage’ means a first mortgage on
21 real estate in fee simple, or on the interest of either the
22 lessor or lessee thereof (A) under a lease for not less than
23 ninety-nine years which is renewable, or (B) under a lease
24 having a period of not less than fifty years to run from the

1 date the mortgage was executed. The term ‘first mortgage’
2 means such classes of first liens as are commonly given to
3 secure advances (including but not limited to advances dur-
4 ing construction) on, or the unpaid purchase price of, real
5 estate under the laws of the State in which the real estate is
6 located, together with the credit instrument or instruments,
7 if any, secured thereby, and any mortgage may be in the
8 form of one or more trust mortgages or mortgage indentures
9 or deeds of trust, securing notes, bonds, or other credit in-
10 struments, and, by the same instrument or by a separate in-
11 strument, may create a security interest in initial equipment,
12 whether or not attached to the realty.

13 “(7) The term ‘mortgagee’ means the original lender
14 under a mortgage, and his or its successors and assigns, and
15 includes the holders of credit instruments issued under a
16 trust mortgage or deed of trust pursuant to which such
17 holders act by and through a trustee named therein.

18 “(8) The term ‘mortgagor’ means the original bor-
19 rower under a mortgage and his or its successors and
20 assigns.”

21 (b) The first sentence of section 227 of such Act is
22 amended by inserting after “new or rehabilitated multifamily
23 housing” the following: “or a property or project described
24 in title XI”.

LABOR STANDARDS

SEC. 603. Section 212(a) of the National Housing Act is amended by adding at the end thereof the following new sentence: “The provisions of this section shall also apply to the insurance of any mortgage under title ~~XI~~ XI; and each laborer or mechanic employed on any facility covered by a mortgage insured under such title shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be.”.

AMENDMENTS TO OTHER FEDERAL LAWS

SEC. 604. (a) (1) The sixth sentence of paragraph “Seventh” of section 5136 of the Revised Statutes, as amended (12 U.S.C. 24), is amended by inserting after “Federal Home Loan Banks,” the following: “or obligations which are insured by the Secretary of Housing and Urban Development under title XI of the National Housing Act”.

(2) The third sentence of the first paragraph of section 24 of the Federal Reserve Act, as amended (12 U.S.C. 371), is amended by inserting after “or sections 1471–1484 of title 42,” the following: “or which are insured by the Secretary of Housing and Urban Development pursuant to title XI of the National Housing Act,”.

1 (b) Subsection (a) of section 304 of the Trust Inden-
2 ture Act of 1939 (15 U.S.C. 77ddd) is amended by striking
3 out the word “or” at the end of paragraph (8) ; by striking
4 out the period at the end of paragraph (9) and inserting in
5 lieu thereof a semicolon and the word “or”; and by adding
6 after paragraph (9) a new paragraph as follows:

7 “(10) any security issued under a mortgage or
8 trust deed indenture as to which a contract of insurance
9 under title XI of the National Housing Act is in effect;
10 and any such security shall be deemed to be exempt from
11 the provisions of the Securities Act of 1933 to the same
12 extent as though such security were specifically enumer-
13 ated in section 3 (a) (2) , as amended, of the Securities
14 Act of 1933 (15 U.S.C. 77c (a) (2)).”

15 (c) Section 263 of chapter X of the Bankruptcy Act
16 (11 U.S.C. 663) is amended by adding at the end thereof
17 the following: “Nothing contained in this chapter shall be
18 deemed to affect or apply to the creditors of any corporation
19 under a mortgage insured pursuant to title XI of the National
20 Housing Act.”

21 TITLE VII—RURAL HOUSING

22 SEC. 701. Section 501 (a) of the Housing Act of 1949
23 is amended by striking out “previously occupied” wherever
24 it appears.

1 SEC. 702. Section 502 (a) of the Housing Act of 1949
 2 is amended by striking out “In cases of applicants who are
 3 elderly persons, the” and inserting in lieu thereof “The”.

4 SEC. 703. Section 504 of the Housing Act of 1949 is
 5 amended by striking out “\$1,000” and inserting in lieu
 6 thereof “\$1,500”.

7 SEC. 704. (a) Section 515 (a) of the Housing Act of
 8 1949 is amended by inserting after “income” the following:
 9 “or other persons and families of low income”.

10 (b) Section 515 (d) (1) of such Act is amended by
 11 striking out “elderly persons or elderly families” and insert-
 12 ing in lieu thereof “occupants eligible under this section”.

13 TITLE VIII—MISCELLANEOUS

14 HOUSING FOR THE ELDERLY OR HANDICAPPED

15 SEC. 801. Section 105 (b) of the Housing and Urban
 16 Development Act of 1965 is amended—

17 (1) by inserting “(1)” after “(b)”;

18 (2) by striking out “Effective with respect to loans
 19 made on or after the date of the enactment of this Act,
 20 section” and inserting in lieu thereof “Section”; and

21 (3) by adding at the end thereof a new paragraph
 22 as follows:

23 “(2) The interest rate provided by the amendment
 24 made in paragraph (1) shall be applicable (A) with respect

1 to any loan made on or after August 10, 1965, and (B) with
 2 respect to any loan made prior to such date if construction of
 3 the housing or related facilities to be assisted by such loan
 4 was not commenced prior to such date, and not completed
 5 prior to the filing of an application for the benefits of such
 6 interest rate.”

7 LOW-RENT HOUSING IN PRIVATE ACCOMMODATIONS FOR
 8 DISPLACED FAMILIES—TERM OF LEASE

9 SEC. 802. Section 23 (d) of the United States Housing
 10 Act of 1937 is amended by inserting after “thirty-six
 11 months” the following: “(except that it may be for a term of
 12 up to sixty months in any case in which the public housing
 13 agency determines that the housing to be leased thereunder
 14 is needed for displaced families)”.

15 APPLICATION OF DAVIS-BACON ACT TO LOW-RENT HOUS-
 16 ING PROJECTS CONSISTING OF PRIVATELY BUILT HOUS-
 17 ING

18 SEC. 803. Section 16 (2) of the United States Housing
 19 Act of 1937 is amended by inserting after “the development
 20 of the project involved” the following: “(including a project
 21 for the use of privately built housing in any case where the
 22 public housing agency and the builder or sponsor enter into an
 23 agreement for such use before construction is commenced),
 24 *and that each such laborer or mechanic shall receive com-*
 25 *ensation at a rate not less than one and one-half times his*

1 *basic rate of pay for all hours worked in any workweek in*
2 *excess of eight hours in any workday or forty hours in the*
3 *workweek, as the case may be”.*

4 APPLICATION OF DAVIS-BACON ACT TO MULTIFAMILY
5 HOUSING CONSTRUCTION IN URBAN RENEWAL AREAS

6 SEC. 804. Section 105 of the Housing Act of 1949 is
7 amended by adding at the end thereof the following new
8 subsection:

9 “(f) All laborers and mechanics employed by contrac-
10 tors or subcontractors in the construction of any multifamily
11 housing (as defined for purposes of this subsection by the
12 Secretary of Housing and Urban Development or his
13 designee) which may be involved in the redevelopment of the
14 urban renewal area, and which is not subject to the provisions
15 of section 212 of the National Housing Act or to other pro-
16 visions of Federal law imposing similar standards, will be
17 paid wages at rates not less than those prevailing on similar
18 construction in the locality as determined by the Secretary
19 of Labor in accordance with the Davis-Bacon Act, as
20 amended (40 U.S.C. 276a—276a-5). No contract for loan
21 or capital grant shall be entered into under this title with
22 respect to an urban renewal area whose redevelopment will
23 involve the construction of such housing without first obtain-
24 ing adequate assurance that the labor standards imposed by
25 the preceding sentence (or, in the case of housing which is

1 subject to the provisions of section 212 of the National Hous-
2 ing Act or to other provisions of Federal law imposing
3 similar standards, the labor standards imposed by such pro-
4 visions) will be maintained upon the construction work.
5 The Secretary of Labor shall have, with respect to the labor
6 standards specified in this subsection, the authority and func-
7 tions set forth in Reorganization Plan Numbered 14 of 1950
8 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15), and sec-
9 tion 2 of the Act of June 13, 1934, as amended (48 Stat.
10 948; 40 U.S.C. 276c).”

11 FEDERAL NATIONAL MORTGAGE ASSOCIATION PARTICIPA-
12 TION IN FEDERAL HOUSING ADMINISTRATION-INSURED
13 CONSTRUCTION FINANCING

14 SEC. 805. Section 305 of the National Housing Act
15 is amended by adding at the end thereof the following
16 new subsection:

17 “(i) In any case where the Association makes a com-
18 mitment to purchase under this section a mortgage insured
19 under section 213, or a mortgage executed by a cooperative
20 or a private nonprofit corporation or association and insured
21 under section 221 (d) (3), such commitment may provide
22 for participation by the Association in the making of insured
23 advances on the mortgage during construction. Such par-
24 ticipation shall be limited to 95 per centum of the amount
25 of each of the advances involved, and the mortgagee pro-

1 viding the balance of such amount shall perform all neces-
2 sary servicing and processing of such advances until the
3 final insurance endorsement of the mortgage.”

4 PLANNING GRANTS FOR RESEARCH ON STATE STATUTES
5 AFFECTING LOCAL GOVERNMENTS

6 SEC. 806. Section 701 (b) of the Housing Act of 1954
7 is amended by inserting before the period at the end thereof
8 the following: “, and for grants to assist in the conduct of
9 studies and research relating to needed revisions in State
10 statutes which create, govern, or control local governments
11 and local governmental operations”.

12 USE OF OPEN-SPACE GRANTS FOR DEVELOPMENT OF EXIST-
13 ING OPEN-SPACE LAND

14 SEC. 807. (a) Section 701 (b) of the Housing Act of
15 1961 is amended by inserting “, for the development and re-
16 development of existing parks and other open space,” after
17 “the Nation’s urban areas”.

18 (b) (1) The first sentence of section 702 (a) of such
19 Act is amended by inserting before the period at the end
20 thereof the following: “, or the development or redevelop-
21 ment, for open-space uses, of existing open-space land”.

22 (2) The second sentence of section 702 (a) of such Act
23 is amended by inserting before the period at the end thereof
24 the following: “or such development or redevelopment”.

1 PROHIBITION AGAINST OPEN-SPACE GRANTS TO CERTAIN
2 COMMUNITIES

3 SEC. 808. Section 702 of the Housing Act of 1961 is
4 amended by adding at the end thereof the following new
5 subsection:

6 “(f) No grant under this title shall be made to any
7 community having a median family income of over \$15,000.”

8 APPLYING ADVANCES IN TECHNOLOGY TO HOUSING AND
9 URBAN DEVELOPMENT

10 SEC. 809. (a) To encourage and assist the housing
11 industry to continue to reduce the cost and improve the
12 quality of housing by the application to home construction
13 of advances in technology, and to encourage and assist the
14 application of advances in technology to urban development
15 activities, the Secretary of Housing and Urban Development
16 is directed—

17 (1) to conduct research and studies to test and dem-
18 onstrate new and improved techniques and methods of
19 applying advances in technology to housing construc-
20 tion, rehabilitation, and maintenance, and urban devel-
21 opment activities; and

22 (2) to encourage and promote the acceptance and
23 application of new and improved techniques and methods
24 of constructing, rehabilitating, and maintaining housing
25 and the application of advances in technology to urban

1 development activities by all segments of the housing
2 industry, communities, industries engaged in urban de-
3 velopment activities, and the general public.

4 (b) Research and studies conducted under this section
5 shall be designed to test and demonstrate the applicability
6 to housing construction, rehabilitation, and maintenance, and
7 urban development activities, of advances in technology re-
8 lating to (1) design concepts, (2) construction and rehabil-
9 itation methods, (3) manufacturing processes, (4) materials
10 and products, and (5) building components.

11 (c) The Secretary is authorized to carry out the
12 research and studies authorized by this section either directly,
13 or by contract (for work to continue not more than two
14 years from the date of the contract) with public or private
15 bodies or agencies, or by working agreement with depart-
16 ments and agencies of the Federal Government, as he may
17 determine to be desirable.

18 (d) There are hereby authorized to be appropriated
19 such sums as may be necessary to carry out the provisions of
20 this section. All funds so appropriated shall remain avail-
21 able until expended when so provided in appropriation Acts.

22 (e) Nothing contained in this section shall limit any
23 authority of the Secretary under title III of the Housing
24 Act of 1948, section 602 of the Housing Act of 1956, or
25 any other provision of law.

PAYMENTS WITH RESPECT TO CERTAIN PROPERTIES AT OR
NEAR MILITARY BASES ORDERED TO BE CLOSED

SEC. 810. Section 108 of the Housing and Urban Development Act of 1965 is amended by redesignating subsections (e) and (f) as subsections (f) and (g), respectively, and by inserting after subsection (d) the following new subsection:

“(e) In any case in which a property could have been acquired by the Secretary of Defense in accordance with the preceding provisions of this section, but the owner of such property had instead sold it to another person (after the announcement of the intention of the Department of Defense to close all or part of the base or installation) at a price less than its fair market value immediately prior to such announcement or lost it through foreclosure (after such announcement), the Secretary of Defense shall upon application pay to such owner as partial compensation for losses sustained in such sale or as a result of such foreclosure an amount equal to the difference between the fair market value of the property immediately prior to such announcement and the fair market value of the property at the time of such sale or foreclosure.”

1 STUDY CONCERNING RELIEF OF HOMEOWNERS IN

2 PROXIMITY TO AIRPORTS

3 SEC. 811. Section 1113 of the Housing and Urban
4 Development Act of 1965 is amended—

5 (1) by inserting “(a)” after “SEC. 1113.”;

6 (2) by striking out “one year after the date of the
7 enactment of this Act” and inserting in lieu thereof
8 “six months after the date of the enactment of the Hous-
9 ing and Urban Development Act of 1966”; and

10 (3) by adding at the end thereof the following new
11 subsection:

12 “(b) There is authorized to be appropriated the sum
13 of \$100,000 to carry out subsection (a).”

14 HYDROLOGY RESEARCH FOR URBAN DEVELOPMENT

15 SEC. 812. (a) The Congress finds that there is an
16 increasingly severe impact upon the national economy oc-
17 casioned by storm water damages and costs of storm drainage
18 control in urban and metropolitan areas; that engineering
19 technology directed toward the specialized storm drainage
20 problems of urbanized areas has not kept pace with the
21 growth of drainage problems in such areas; and that effective
22 areawide comprehensive planning requires efficient planning
23 and design of all elements of urban drainage systems.

1 (b) The Secretary of Housing and Urban Development
2 is authorized—

3 (1) by contract with public or private agencies to
4 conduct studies, investigations, research, and demon-
5 strations to develop and improve all aspects of the science
6 and technology of urban hydrology as it relates
7 to storm drainage systems for urban and metropolitan
8 areas and to collection sewers for such areas, and by
9 working agreements with other departments and agen-
10 cies of the Federal Government to conduct studies, in-
11 vestigations, research, and demonstrations to develop
12 and improve all aspects of the science and technology
13 of urban hydrology;

14 (2) to evaluate the studies, investigations, research,
15 and demonstrations authorized by this section; and

16 (3) to make available, through publications and
17 other appropriate means, the information resulting from
18 such studies, investigations, research, and demonstra-
19 tions.

20 (c) The Secretary shall annually submit a report to the
21 President and to the Congress concerning the studies, investi-
22 gations, research, and demonstrations undertaken under this
23 section with such recommendations as he deems desirable for
24 additional legislation to develop the science of urban hydrol-
25 ogy and its application.

1 (d) There are hereby authorized to be appropriated such
2 sums as may be necessary to carry out the provisions of this
3 section. Appropriations authorized under this section shall
4 remain available until expended when so provided in appro-
5 priation Acts.

6 (e) Nothing contained in this section shall limit any
7 authority of the Secretary under title III of the Housing Act
8 of 1948, section 602 of the Housing Act of 1956, or any
9 other provision of law.

10 SPECIFIC URBAN RENEWAL PROJECTS

11 SEC. 813. (a) Notwithstanding any other provision
12 of law, moneys heretofore or hereafter expended by the
13 Massachusetts Institute of Technology for the acquisition
14 of real property (and related expenditures for demolition
15 and relocation) included in the overall development plans
16 proposed by such Institute and utilized, or to be utilized,
17 in connection with new facilities of such Institute within
18 one mile of urban renewal project Mass. R-107 (Kendall
19 Square) shall, if otherwise eligible and if made prior to
20 final payment of the capital grant for such project, be
21 counted as local grants-in-aid toward such project.

22 (b) Notwithstanding the extent to which the munic-
23 ipal police and courts building, the arts center, and the
24 municipal library building, located within or adjacent to
25 the central Little Rock urban renewal project (Arkan-

1 sas R-12) in Little Rock, Arkansas, may benefit areas
2 other than the urban renewal area, and notwithstanding
3 the date of the commencement of construction of each such
4 facility, expenses incurred by the city of Little Rock in
5 constructing such facilities shall, to the extent otherwise
6 eligible, be counted as local grants-in-aid toward such
7 project.

8 (c) Notwithstanding the date of the commencement of
9 construction of the Roosevelt School, Mary Manse College,
10 Mercy Hospital, and Saint Vincent's Hospital, in Toledo,
11 Ohio, local expenditures made in connection with such
12 schools and hospitals shall, to the extent otherwise eligible,
13 be counted as local grants-in-aid toward federally assisted
14 urban renewal projects in Toledo that will be served by such
15 schools and hospitals.

16 (d) Notwithstanding the extent to which the civic cen-
17 ter to be built within the Civic Center urban renewal project
18 (Texas R-83) in San Antonio, Texas, may benefit areas
19 other than the urban renewal area, expenses incurred by the
20 city of San Antonio in constructing such center shall, to the
21 extent otherwise eligible, be counted as local grants-in-aid
22 toward such project.

23 (e) Notwithstanding the extent to which the proposed
24 Community Services Center located within or adjacent to
25 the Buttermilk-Bottoms-North Avenue urban renewal proj-

ect (Ga. R-91) in Atlanta, Georgia, may benefit areas other than the urban renewal area, expenses incurred by the city of Atlanta in constructing such facilities shall, to the extent otherwise eligible, be counted as local grants-in-aid toward such project.

(f) There shall be counted as local grants-in-aid toward the West Central urban renewal project (Michigan R-85), in Albion, Michigan, to the extent otherwise eligible—

(1) local expenditures made in connection with the construction of the Austin Elementary School and the installation of certain water distribution system facilities, in the city of Albion, notwithstanding the date of the commencement of such construction and such installation; and

(2) expenditures made in connection with the construction of a new hospital plant in the city of Albion, notwithstanding the distance between such hospital plant (or the existing hospital in Albion) and the urban renewal project.

(g) Notwithstanding the date of the commencement of construction of the Florence Primary School in Garden City, Michigan, local expenditures made in connection with such school shall, to the extent otherwise eligible, be counted as

1 local grants-in-aid for the Cherry Hill urban renewal proj-
2 ect (Michigan R-46).

3 (h) Notwithstanding the date of the commencement
4 of construction of the Beale Street interceptor sewer in
5 Memphis, Tennessee, local expenditures made in connection
6 with such sewer shall, to the extent otherwise eligible, be
7 counted as local grants-in-aid to the medical center urban
8 renewal area II project (Tennessee R-68), the medical
9 center urban renewal area III project (Tennessee R-75),
10 and the Beale Street urban renewal area project (Ten-
11 nessee R-77).

12 (i) Notwithstanding the extent to which the Portland
13 Public Auditorium, located within or adjacent to the South
14 Auditorium urban renewal project Oregon R-1 in Portland,
15 Oregon, may benefit areas other than the urban renewal
16 area, expenses incurred by the city of Portland in an amount
17 not exceeding \$4,000,000 for rehabilitating that facility
18 shall, to the extent otherwise eligible, be counted as local
19 grants-in-aid toward such project.

20 (j) Notwithstanding the extent to which the civic cen-
21 ter and sports arena proposed to be built in or adjacent to
22 urban renewal project Mass. R-7 (North End) in Spring-
23 field, Massachusetts, may benefit areas other than the urban
24 renewal area, expenses incurred by the city of Springfield
25 in constructing such center and arena shall, to the extent

1 otherwise eligible, be counted as local grants-in-aid toward
2 such project.

3 (k) Notwithstanding the extent to which the Coliseum-
4 Convention Center proposed to be built within the Church
5 Street redevelopment and renewal project (Connecticut
6 R-2) in New Haven, Connecticut, may benefit areas other
7 than the urban renewal area, expenses incurred by the city
8 of New Haven in constructing such Coliseum-Convention
9 Center shall, to the extent otherwise eligible, be counted as
10 a grant-in-aid toward such project.

11 (l) Notwithstanding the extent to which the water
12 works improvement and extension project of the city of
13 Olathe, Kansas, may benefit areas other than the urban
14 renewal area, expenses incurred by the city of Olathe in
15 constructing such project shall, to the extent otherwise eligi-
16 ble, be counted as local grants-in-aid toward the Olathe urban
17 renewal project (Kansas R-31).

18 (m) Notwithstanding the provisions of section 110 (c)
19 of the Housing Act of 1949, the area in Hackensack, New
20 Jersey, hereinafter described shall be eligible for assistance
21 under title I of such Act on the same basis as a built-up
22 blighted area. Such area, known as the University Park
23 urban renewal area and being an area of approximately 185
24 acres, is bounded generally as follows: On the north, by
25 State Highway Route 4; on the east, by the Hackensack

1 River; on the south, by Passaic Street and its prolongation
2 easterly to the Hackensack River; and on the west, by
3 Main Street, the New Jersey-New York Railroad, De Voe
4 Place, and Hackensack Avenue.

5 (n) Notwithstanding the date of the commencement of
6 construction of a certain storm drainage system in Sacra-
7 mento, California, local expenditures made in connection
8 with such storm drainage system shall, to the extent other-
9 wise eligible, be counted as local grants-in-aid toward the
10 Capitol Mall Riverfront urban renewal project (California
11 R-67).

12 (o) Notwithstanding the extent to which the Hampden
13 Bridge may benefit areas other than the area originally desig-
14 nated for the urban renewal project Colorado R-19 (C)
15 (South Platte River) in Sheridan, Colorado, expenses in-
16 curred by the city of Sheridan in repairing such bridge shall,
17 to the extent otherwise eligible, be counted as local grants-
18 in-aid toward any federally assisted urban renewal project
19 undertaken for that same area.

20 (p) Notwithstanding the extent to which the Civic
21 Center and the City-County-Justice Building to be built
22 within the Central Business District Numbered 1 urban
23 renewal project (Michigan R-131) in Saginaw, Michigan,
24 may benefit areas other than the urban renewal area, ex-
25 penses incurred by the city of Saginaw in connection with

1 such center and building shall, to the extent otherwise eligi-
2 ble, be counted as local grants-in-aid toward such project.

3 (q) Notwithstanding the extent to which the down-
4 town civic center, municipal auditorium-music hall, Tivoli
5 Gardens, and cultural complex proposed to be built in
6 the urban renewal project Oklahoma R-26 (GN) (central
7 business district) in Oklahoma City, Oklahoma, may benefit
8 areas other than the urban renewal area, expenses incurred
9 by the city of Oklahoma City in the development and con-
10 struction of such facilities shall, to the extent otherwise eligi-
11 ble, be counted as local grants-in-aid toward such project.

12 (r) Notwithstanding the extent to which the fire and
13 police headquarters within the Slater urban renewal project
14 (Rhode Island R-11) in Pawtucket, Rhode Island, and
15 the public works depot replacing the municipal garage in
16 that project may benefit areas other than the urban renewal
17 area, expenses incurred by the city of Pawtucket in connec-
18 tion with such facilities shall, to the extent otherwise eligible,
19 be counted as local grants-in-aid toward such project: *Pro-*
20 *vided*, That the expenses which may be so counted shall not
21 exceed \$500,000 in connection with such fire and police
22 headquarters and \$250,000 in connection with such public
23 works depot.

24 (s) Notwithstanding the extent to which the Sinclair
25 Community College to be built within urban renewal proj-

1 ects Ohio R-15 and R-58 in Dayton, Ohio, and the Mont-
2 gomery County Courts-Jail Building recently completed ad-
3 jacent to such urban renewal projects, may benefit areas
4 other than the urban renewal areas, expenses incurred by
5 the Montgomery County Community College District and
6 the city of Dayton in constructing such college shall be
7 counted as local grant-in-aid toward any federally assisted
8 urban renewal project in Dayton, and local expenditures
9 made in connection with such building shall be counted as
10 local grants-in-aid toward such projects R-15 and R-58, to
11 the extent such expenses and expenditures are otherwise
12 eligible.

13 USE OF CERTAIN LANDS FOR CIVIL DEFENSE PURPOSES

14 SEC. 814. Section 2 of the Act entitled "An Act to
15 provide for the conveyance of a tract of land in Prince
16 Georges County, Maryland, to the State of Maryland for
17 use as a site for a National Guard Armory and for training
18 the National Guard or for other military purposes", approved
19 August 10, 1949 (63 Stat. 592), is amended by striking
20 out "The land" and inserting in lieu thereof "(a) Except as
21 provided in subsection (b) of this section, the land" and by
22 adding at the end thereof the following new subsection:

23 "(b) The Secretary of Housing and Urban Develop-
24 ment shall execute the necessary instrument or instruments
25 to provide that a certain portion of land, not to exceed two

1 acres, on the easterly side of the land described in the first
 2 section of this Act, as more particularly determined and
 3 designated by the Secretary of the Army, may be used for
 4 civil defense or other emergency preparedness purposes or
 5 the purposes stated in subsection (a) and that such use
 6 shall not cause the reverter clause set forth herein to become
 7 operable.”

8 *QUARTERS AND FACILITIES FOR FEDERAL HOME LOAN*
 9 *BANKS AND THE FEDERAL HOME LOAN BANK BOARD*

10 *SEC. 815. (a) The second sentence of section 12 of the*
 11 *Federal Home Loan Bank Act (12 U.S.C. 1432) is*
 12 *amended by striking out “but no bank building shall be*
 13 *bought or erected to house any such bank, nor shall any*
 14 *such bank make any lease” and inserting in lieu thereof*
 15 *“but, except with the prior approval of the board, no bank*
 16 *building shall be bought or erected to house any such bank,*
 17 *or leased by such bank under any lease”.*

18 *(b) Section 18 of such Act (12 U.S.C. 1438) is*
 19 *amended—*

20 *(1) by adding at the end of subsection (b) the*
 21 *following new sentence: “Such assessments may include*
 22 *such amounts as the board may deem advisable for*
 23 *carrying out the provisions of subsection (c) of this*
 24 *section.”; and*

1 (2) by adding at the end thereof the following new
2 subsection:

3 “(c)(1) The board, utilizing the services of the Ad-
4 ministrators of General Services (hereinafter referred to as
5 the ‘Administrator’), and subject to any limitation hereon
6 which may hereafter be imposed in appropriation Acts, is
7 hereby authorized—

8 “(A) to acquire, in the name of the United States,
9 real property in the District of Columbia, for the pur-
10 poses set forth in this subsection;

11 “(B) to construct, develop, furnish, and equip such
12 buildings thereon and such facilities as in its judgment
13 may be appropriate to provide, to such extent as the
14 board may deem advisable, suitable and adequate quar-
15 ters and facilities for the board and the agencies under
16 its administration or supervision;

17 “(C) to enlarge, remodel, or reconstruct any of the
18 same; and

19 “(D) to make or enter into contracts for any of the
20 foregoing.

21 “(2) The board may require of the respective banks, and
22 they shall make to the board, such advances of funds for the
23 purposes set out in paragraph (1) as in the sole judgment of
24 the board may from time to time be advisable. Such ad-
25 vances shall be in addition to the assessments authorized in

1 subsection (b) and shall be apportioned by the board among
2 the banks in proportion to the total assets of the respective
3 banks, determined in such manner and as of such times as
4 the board may prescribe. Each such advance shall bear
5 interest at the rate of $4\frac{1}{2}$ per centum per annum from the
6 date of the advance and shall be repaid by the board in such
7 installments and over such period, not longer than twenty-
8 five years from the making of the advance, as the board may
9 determine. Payments of interest and principal upon such
10 advances shall be made from receipts of the board or from
11 other sources which may from time to time be available to the
12 board. The obligation of the board to make any such pay-
13 ment shall not be regarded as an obligation of the United
14 States. To such extent as the board may prescribe any such
15 obligation shall be regarded as a legal investment for the
16 purposes of subsections (g) and (h) of section 11 and for
17 the purposes of section 16.

18 “(3) The plans and designs for such buildings and
19 facilities and for any such enlargement, remodeling, or recon-
20 struction shall, to such extent as the chairman of the board
21 may request, be subject to his approval.

22 “(4) Upon the making of arrangements mutually agree-
23 able to the board and the Administrator, which arrangements
24 may be modified from time to time by mutual agreement
25 between them and may include but shall not be limited to the

1 making of payments by the board and such agencies to the
2 Administrator and by the Administrator to the board, the
3 custody, management, and control of such buildings and facil-
4 ities and of such real property shall be vested in the Admin-
5 istrator in accordance therewith. Until the making of such
6 arrangements such custody, management, and control, includ-
7 ing the assignment and allotment and the reassignment and
8 reallocation of building and other space, shall be vested in
9 the board.

10 “(5) Any proceeds (including advances) received by
11 the board in connection with this subsection, and any pro-
12 ceeds from the sale or other disposition of real or other prop-
13 erty acquired by the board under this subsection, shall be
14 considered as receipts of the board, and obligations and ex-
15 penditures of the board and such agencies in connection with
16 this subsection shall not be considered as administrative ex-
17 penses. As used in this subsection, the term ‘property’ shall
18 include interests in property.

19 “(6) With respect to its functions under this subsection
20 the board shall (A) annually prepare and submit a budget
21 program as provided in title I of the Government Corpora-
22 tion Control Act with regard to wholly owned Government
23 corporations, and for purposes of this sentence, the terms
24 ‘wholly owned Government corporations’ and ‘Government
25 corporations’, wherever used in such title, shall include the

1 board, and (B) maintain an integral set of accounts which
2 shall be audited annually by the General Accounting Office
3 in accordance with the principles and procedures applicable
4 to commercial corporate transactions as provided in such
5 title, and no other audit, settlement, or adjustment shall be
6 required with respect to transactions under this subsection or
7 with respect to claims, demands, or accounts by or against
8 any person arising thereunder. Except as otherwise pro-
9 vided in this subsection or by the board, the provisions of this
10 subsection and the functions thereby or thereunder subsisting
11 shall be applicable and exercisable notwithstanding and with-
12 out regard to the Act of June 20, 1938 (D.C. Code, secs.
13 5-413—5-428), except that the proviso of section 16 thereof
14 shall apply to any building constructed under this subsection,
15 and section 306 of the Act of July 30, 1947 (61 Stat. 584),
16 or any other provision of law relating to the construction,
17 alteration, repair, or furnishing of public or other buildings
18 or structures or the obtaining of sites therefor, but any person
19 or body in whom any such function is vested may provide for
20 delegation or redelegation of the exercise of such function.

21 “(7) No obligation shall be incurred and no expendi-
22 ture, except in liquidation of obligation, shall be made pur-
23 suant to the first two subparagraphs of paragraph (1) of this
24 subsection if the total amount of all obligations incurred
25 pursuant thereto would thereupon exceed \$13,200,000 or

1 *such greater amount as may be provided in an appropriation*
 2 *Act or other law.”*

4 striking out “Administrator” in the second paragraph and
5 inserting in lieu thereof “Secretary”.

6 (p) (1) Section 202 of the Housing Act of 1959 is
7 amended—

8 (A) by striking out “Administrator” each place it
9 appears and inserting in lieu thereof “Secretary”;

10 (B) by striking out in subsection (c) (2) “, ex-
11 cept” and all that follows down through and including
12 “section 513”; and

13 (C) by amending subsection (d) (6) to read as
14 follows:

15 “(6) The term ‘Secretary’ means the Secretary of
16 Housing and Urban Development.”

17 (2) Section 306 (b) of such Act is amended—

18 (A) by striking out “Housing and Home Finance
19 Administrator” and inserting in lieu thereof “Secretary
20 of Housing and Urban Development”; and

21 (B) by striking out “Administrator” and inserting
22 in lieu thereof “Secretary”.

23 (3) Sections 802 (a) and 808 of such Act are amended
24 by striking out “Housing and Home Finance Administrator”

1 and inserting in lieu thereof “Secretary of Housing and
2 Urban Development”.

3 (q) Section 5 of the Act of September 8, 1960 (74
4 Stat. 872), is amended by striking out “Housing and Home
5 Finance Administrator” and inserting in lieu thereof “Sec-
6 retary of Housing and Urban Development”.

7 (r) (1) Sections 207 and 312 of the Housing Act of
8 1961 are amended by striking out “Housing and Home
9 Finance Administrator” and inserting in lieu thereof “Secre-
10 tary of Housing and Urban Development”.

11 (2) Section 312 of such Act is further amended by
12 striking out “Administrator” and inserting in lieu thereof
13 “Secretary”.

14 (3) Title VII of such Act is amended by striking out
15 “Administrator” each place it appears and inserting in lieu
16 thereof “Secretary”.

17 (4) Section 702 of such Act is amended—

18 (A) by striking out “Housing and Home Finance
19 Administrator (hereinafter referred to as the ‘Adminis-
20 trator’)” in subsection (a) and inserting in lieu thereof
21 “Secretary of Housing and Urban Development (here-
22 inafter referred to as the ‘Secretary’)”; and

23 (B) by striking out “Secretary from time to time”

1 in subsection (e) and inserting in lieu thereof “Secretary
2 of the Interior from time to time”.

3 (5) Section 905 of such Act is amended—

4 (A) by striking out “Housing and Home Finance
5 Administrator and the Public Housing Administration
6 are” and inserting in lieu thereof “Secretary of Housing
7 and Urban Development is”; and

8 (B) by striking out “Administration” both places
9 it appears and inserting in lieu thereof “Secretary”.

22 amended by striking out “Federal Housing Commissioner”
23 and inserting in lieu thereof “Secretary of Housing and
24 Urban Development”.

25 (2) Section 312 of such Act is amended—

1 (A) by striking out “Administrator” each place it
2 appears and inserting in lieu thereof “Secretary”;

3 (B) by striking out “Housing and Home Finance
4 Administrator” in subsection (a) and inserting in lieu
5 thereof “Secretary of Housing and Urban Develop-
6 ment”;

7 (C) by amending subsection (b) (4) to read as
8 follows:

9 “(4) the term ‘Secretary’ means the Secretary of
10 Housing and Urban Development.”; and

11 (D) by striking out “Federal Housing Commis-
12 sioner” in subsection (c) (4) (A) and inserting in lieu
13 thereof “Secretary of Housing and Urban Develop-
14 ment”.

15 (4) Section 318 of such Act is amended by striking
16 out “Housing and Home Finance Administrator” and in-
17 serting in lieu thereof “Secretary of Housing and Urban
18 Development”.

19 (5) Title VIII of such Act is amended by striking out
20 “Administrator” each place it appears and inserting in lieu
21 thereof “Secretary”.

22 (6) Section 805 (a) of such Act is amended by striking
23 out “‘Administrator’ means the Housing and Home Finance
24 Administrator” and inserting in lieu thereof “‘Secretary’
25 means the Secretary of Housing and Urban Development”.

1 (7) Section 810 of such Act is amended by striking
2 out “Housing and Home Finance Administrator” in subsec-
3 tions (a) and (b) and inserting in lieu thereof “Secretary
4 of Housing and Urban Development”.

5 (8) Section 1005 of such Act is amended—

6 (A) by striking out “Federal Housing Commis-
7 sioner” and inserting in lieu thereof “Secretary of Hous-
8 ing and Urban Development”; and

9 (B) by striking out “Federal Housing Administra-
10 tion” and inserting in lieu thereof “Department of Hous-
11 ing and Urban Development”.

12 (9) Section 1006 of such Act is amended by striking out
13 “Public Housing Commissioner” and inserting in lieu thereof
14 “Secretary of Housing and Urban Development”.

15 (10) Section 1007 of such Act is amended—

16 (A) by striking out “Housing and Home Finance
17 Administrator and the Public Housing Commissioner
18 are” each place it appears and inserting in lieu thereof
19 “Secretary of Housing and Urban Development is”; and

20 (B) by striking out “Public Housing Administra-
21 tion” and inserting in lieu thereof “Secretary”.

22 (v) (1) The Housing and Urban Development Act of
23 1965 is amended by striking out “Administrator” each place
24 it appears in sections 101 (c), (d), (e), and (g); 301 (b);

1 313 (b) ; 315 (a) (8) ; 402; and 404 (a) , and inserting in
2 lieu thereof in each instance “Secretary”.

3 (2) Title VII of such Act is amended by striking out
4 “Administrator” each place it appears and inserting in lieu
5 thereof “Secretary”.

6 (3) Section 101 of such Act is amended—

7 (A) by striking out “Housing and Home Finance
8 Administrator (hereinafter referred to as the ‘Adminis-
9 trator’) ” in subsection (a) and inserting in lieu thereof
10 “Secretary of Housing and Urban Development (here-
11 inafter referred to as the ‘Secretary’) ”; and

12 (B) by striking out all of the second sentence of
13 subsection (g) and inserting in lieu thereof “Nothing
14 contained in this section shall affect the authority of the
15 Secretary of Housing and Urban Development with
16 respect to any housing assisted under this section, sec-
17 tion 221 (d) (3) , or 231 (c) (3) of the National Housing
18 Act, or section 202 of the Housing Act of 1959, includ-
19 ing the authority to prescribe occupancy requirements
20 under other provisions of law or to determine the por-
21 tion of such housing which may be occupied by qualified
22 tenants.”

23 (4) Section 107 of such Act is amended—

24 (A) by striking out “Federal Housing Commis-

1 sioner” in subsection (a) (2) (A) and inserting in lieu
2 thereof “Secretary of Housing and Urban Develop-
3 ment”; and

4 (B) by striking out “Federal Housing Commis-
5 sioner” each place it appears in subsection (e) and in-
6 serting in lieu thereof “Secretary of Housing and Urban
7 Development”.

8 (5) Section 108 (d) of such Act is amended—

9 (A) by striking out “Federal Housing Commis-
10 sioner, and the Federal Housing Commissioner” and
11 inserting in lieu thereof “Secretary of Housing and
12 Urban Development, and the Secretary”; and

13 (B) by striking out “the Commissioner” and in-
14 serting in lieu thereof “the Secretary”.

15 (6) Section 301 of such Act is amended by striking out
16 “Housing and Home Finance Administrator” in the third
17 sentence of subsection (a) and inserting in lieu thereof “Sec-
18 retary of Housing and Urban Development”.

19 (7) Section 315 of such Act is amended—

20 (A) by striking out “Housing and Home Finance
21 Administrator” in subsection (a) (8) and inserting in
22 lieu thereof “Secretary of Housing and Urban Develop-
23 ment”;

24 (B) by striking out “Housing and Home Finance
25 Administrator and Public Housing Commissioner are”

1 in subsections (b) (1) and (b) (2) and inserting in
2 lieu thereof “Secretary of Housing and Urban Develop-
3 ment is”; and

4 (C) by striking out “Public Housing Administra-
5 tion” in subsection (b) (1) and inserting in lieu thereof
6 “Secretary”.

7 (8) Section 401 (5) of such Act is amended to read as
8 follows:

9 “(5) the term ‘Secretary’ means the Secretary of
10 Housing and Urban Development”.

11 (9) Section 702 (a) of such Act is amended by striking
12 out “Housing and Home Finance Administrator (hereinafter
13 in this title referred to as the ‘Administrator’)” and insert-
14 ing in lieu thereof “Secretary of Housing and Urban De-
15 velopment (hereinafter in this title referred to as the
16 ‘Secretary’)”.

17 (10) Section 1113 of such Act is amended by striking
18 out “Housing and Home Finance Administrator” and insert-
19 ing in lieu thereof “Secretary of Housing and Urban De-
20 velopment”.

21 (w) Section 501 of the Military Construction Author-
22 ization Act, 1966, is amended—

23 (1) by striking out “Administrator, Housing and
24 Home Finance Agency” in the first sentence and insert-

1 ing in lieu thereof “Secretary of Housing and Urban
2 Development”; and

3 (2) by striking out “Administrator” in the second
4 sentence and inserting in lieu thereof “Secretary of
5 Housing and Urban Development”.

6 (x) (1) Sections 493, 657, and 1006 of title 18, United
7 States Code, are amended by striking out “Federal Housing
8 Administration” and inserting in lieu thereof “Department
9 of Housing and Urban Development”.

10 (2) The eighth paragraph of section 709 of such title
11 is amended to read as follows:

12 “Whoever uses as a firm or business name the words
13 ‘Department of Housing and Urban Development’, ‘Hous-
14 ing and Home Finance Agency’, ‘Federal Housing Ad-
15 ministration’, ‘Federal National Mortgage Association’,
16 ‘United States Housing Authority’, or ‘Public Housing Ad-
17 ministration’ or the letters ‘HUD’, ‘FHA’, ‘PHA’, or
18 ‘USHA’, or any combination or variation of those words or
19 the letters ‘HUD’, ‘FHA’, ‘PHA’, or ‘USHA’ alone or
20 with other words or letters reasonably calculated to convey
21 the false impression that such name or business has some con-
22 nection with, or authorization from, the Department of Hous-
23 ing and Urban Development, the Housing and Home Finance

1 Agency, the Federal Housing Administration, the Federal
2 National Mortgage Association, the United States Housing
3 Authority, the Public Housing Administration, the Govern-
4 ment of the United States or any agency thereof, which does
5 not in fact exist, or falsely claims that any repair, improve-
6 ment, or alteration of any existing structure is required or
7 recommended by the Department of Housing and Urban De-
8 velopment, the Housing and Home Finance Agency, the
9 Federal Housing Administration, the Federal National Mort-
10 gage Association, the United States Housing Authority, the
11 Public Housing Administration, the Government of the
12 United States or any agency thereof, for the purpose of in-
13 ducing any person to enter into a contract for the making of
14 such repairs, alterations, or improvements, or falsely adver-
15 tises or falsely represents by any device whatsoever that any
16 housing unit, project, business, or product has been in any
17 way endorsed, authorized, inspected, appraised, or approved
18 by the Department of Housing and Urban Development, the
19 Housing and Home Finance Agency, the Federal Housing
20 Administration, the Federal National Mortgage Association,
21 the United States Housing Authority, the Public Housing
22 Administration, the Government of the United States or
23 any agency thereof; or”.

1 (3) Section 1010 of such title is amended—

2 (A) by amending the section heading to read as
3 follows:

4 **“§ 1010. Department of Housing and Urban Development**
5 **and Federal Housing Administration trans-**
6 **actions.”;**

7 (B) by striking out “Federal Housing Administra-
8 tion” and inserting in lieu thereof “Department of Hous-
9 ing and Urban Development”; and

10 (C) by striking out “such Administration” both
11 places it appears and inserting in lieu thereof “such
12 Department”.

13 (4) Section 1012 of such title is amended—

14 (A) by amending the section heading to read as
15 follows:

16 **“§ 1012. Department of Housing and Urban Development**
17 **transactions.”;**

18 (B) by striking out “Public Housing Administra-
19 tion” and inserting in lieu thereof “Department of Hous-
20 ing and Urban Development”; and

21 (C) by striking out “such Administration” each
22 place it appears and inserting in lieu thereof “such
23 Department”.

24 (5) The analysis of chapter 47, title 18, United States
25 Code, immediately preceding section 1001, is amended—

1 (A) by striking out the item relating to section
2 1010 and inserting in lieu thereof

“1010. Department of Housing and Urban Development and Federal
Housing Administration transactions.”;

3 and

4 (B) by striking out the item relating to section
5 1012 and inserting in lieu thereof

“1012. Department of Housing and Urban Development transactions.”

6 (y) Title 38, United States Code, is amended—

7 (1) by striking out “Federal Housing Administra-
8 tion approved mortgagee designated by the Federal
9 Housing Commissioner” in section 1802 (d) and in-
10 serting in lieu thereof “mortgagee approved by the
11 Secretary of Housing and Urban Development and
12 designated by him”.

13 (2) by striking out “Federal Housing Commis-
14 sioner” in subsections (b), (d), and (e) of section
15 1804 and inserting in lieu thereof “Secretary of Hous-
16 ing and Urban Development”.

17 (z) The fourth paragraph of section 24 of the Federal
18 Reserve Act is amended by striking out “Housing and Home
19 Finance Administrator” in the first sentence and inserting
20 in lieu thereof “Secretary of Housing and Urban Develop-
21 ment”.

22 (aa) (1) The penultimate sentence of paragraph

1 Seventh of section 5136 of the Revised Statutes (12 U.S.C.
2 24) is amended—

3 (A) by striking out “Federal Housing Administra-
4 tor” and inserting in lieu thereof “Secretary of Housing
5 and Urban Development (hereafter in this sentence re-
6 ferred to as the ‘Secretary’)”; and

7 (B) by striking out “Housing and Home Finance
8 Administrator” and inserting in lieu thereof “Secre-
9 tary”;

10 (C) by striking out “Administrator” each place it
11 appears and inserting in lieu thereof “Secretary”; and

12 (D) by striking out “Public Housing Administra-
13 tion” each place it appears and inserting in lieu thereof
14 “Secretary”.

15 (2) Paragraph (11) of section 5200 of the Revised
16 Statutes (12 U.S.C. 84) is amended—

17 (A) by striking out “Housing and Home Finance
18 Administrator or the Public Housing Administration”
19 and inserting in lieu thereof “Secretary of Housing and
20 Urban Development”; and

21 (B) by striking out “Administrator or Administra-
22 tion” each place it appears and inserting in lieu thereof
23 “Secretary”.

24 (bb) Any function or authority vested in or exercisable

1 by the Federal Home Loan Bank Board, the Chairman
2 thereof, or the Federal Savings and Loan Insurance Corpora-
3 tion immediately before the enactment of this Act shall not
4 by this section or anything therein be affected or impaired,
5 or subjected to any restriction or limitation to which it was
6 not then subject.

89TH CONGRESS
2^D SESSION

H. R. 15890

[Report No. 1699]

A BILL

To assist city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in these areas, to improve and amend our housing programs, and for other purposes.

By Mr. PATMAN

JUNE 23, 1966

Referred to the Committee on Banking and Currency

JULY 15, 1966

Reported with amendments, committed to the Committee of the Whole House on the State of the Union, and ordered to be printed

July 28, 1966

5. MARKETING. A subcommittee of the Agriculture Committee approved for full committee consideration a clean bill to provide for a check-off for paid advertising for plums, grapes, and pears. p. D688
6. HOUSING. The Banking and Currency Committee submitted an "accompanying document to" H. R. 15890, the demonstration cities bill (H. Rept. 1699, Pt. III). p. 16787
7. CIVIL RIGHTS. Concluded general debate on the civil rights bill and began reading it for amendments. pp. 16693-744, p. 16774
8. RECLAMATION. The Interior and Insular Affairs Committee voted to report (but did not actually report) H. R. 4671, amended, to authorize the construction, operation, and maintenance of the Lower Colorado River Basin Project. p. D688
9. FOREIGN TRADE. The Ways and Means Committee reported with amendment H. R. 8664, to implement the Agreement on the Importation of Educational, Scientific, and Cultural Materials (H. Rept. 1779). p. 16787
Rep. Olsen, Mont., urged expansion of agricultural exports as "the greatest hope" for increasing farm income. pp. 16782-3
Rep. Nelsen urged USDA consideration of "the very real problems posed to American agriculture by the markedly protectionist farm trade policies" adopted by the Common Market countries. He also criticized USDA pork purchasing policies and inserted articles on both subjects. pp. 16746-7
20. FOREIGN AID. Rep. Conte urged the cessation of shipments of wheat and other agricultural commodities to Egypt under Public Law 480. p. 16748
21. RECREATION. Rep. Saylor urged a speeding up of land acquisition for the Delaware Water Gap National Recreation Area because of land speculation in the area and inserted articles on the subject. pp. 16756-58
22. FARM PROGRAM. Rep. Hansen, Iowa, commended and inserted Secretary Freeman's speech at Harlan, Iowa. pp. 16777-79
23. OPINION POLL. Rep. Hamilton inserted the results of a questionnaire, including items of interest to this Department. p. 16780

ITEMS IN APPENDIX

24. CROPLAND ADJUSTMENT. Extension of remarks of Sen. Javits commending this Department's "Greenspan" program, and expressing hope that this is only the beginning of this "very imaginative program." p. A3985
25. DISASTER RELIEF. Extension of remarks of Rep. Roush inserting a comparative chart showing how new omnibus disaster relief legislation would expand the present laws providing relief to disaster victims. pp. A3989-90
26. WATERSHEDS. Extension of remarks of Rep. Berry criticizing the delay in the submission of watershed projects. p. A3990
27. PERSONNEL. Extension of remarks of Rep. Cooley commending Charles S. Murphy on his "30 years of distinguished service in the Federal Government." pp. A3994-

BILLS INTRODUCED

28. LANDS. S. 3672 by Sen. Mundt and H. R. 16633 by Rep. Berry, to give certain Indian tribes the right to cut hay on lands adjacent to certain reservoirs on which such tribes are permitted to graze stock; to Interior and Insular Affairs Committee.
29. CREDIT. H. R. 16643 by Rep. Ullman and H. R. 16651 by Rep. Duncan of Oregon, to amend the Defense Production Act of 1950 to provide standby consumer credit controls; to Banking and Currency Committee. Remarks of Rep. Ullman, pp. 16748-50 and Rep. Duncan, pp. 16750-1
30. MINERALS. H. R. 16641 by Rep. Roncalio, relating to the reinstatement of certain mineral leases; to Interior and Insular Affairs Committee.
H. R. 16660 through 16678 by 19 representatives, to protect the domestic economy, to promote the general welfare, and to assist in the national defense by providing for an adequate supply of lead and zinc for consumption in the United States from domestic and foreign sources; to Ways and Means Committee. Remarks of Rep. Aspinall, pp. 16745-6 and Rep. Skubitz, p. 16755
31. MILK. S. 3662 by Sen. McGovern, to establish a price support level for milk; to Agriculture and Forestry Committee. Remarks of author pp. 16612-3
32. TAXATION. S. 3669 by Sen. Murphy, to amend section 175 of the Internal Revenue Code of 1954 to include expenditures for the installation of tile drains as soil and water conservation expenditures which may be deducted under such section; to Finance Committee. Remarks of author pp. 16613-5
33. WATER. S. 3671 by Sen. Tower, to provide for an investigation and study for the feasibility of diverting water from the Missouri and Columbia Rivers to the western part of the State of Texas; to Public Works Committee. Remarks of author pp. 16616-7
34. HOUSING. H. R. 16615 by Rep. Widnall, to prohibit for 1 year the sale of participations under the Sales Participation Act of 1966 other than for housing mortgages held by the Federal National Mortgage Association and the Veterans' Administration; to Banking and Currency Committee. Remarks of author p. 16693
35. PERSONNEL. H. R. 16617 by Rep. Cunningham, to permit officers and employees of the Federal Government to elect coverage under the old-age, survivors, and disability insurance system; to Ways and Means Committee.
36. RESEARCH. H. R. 16619 by Rep. Downing, to authorize the Secretary of the Interior to develop, through the use of experiment and demonstration plants, practicable and economic means for the production by the commercial fishing industry of fish protein concentrate; to Merchant Marine and Fisheries Committee.
37. DISASTER RELIEF. H. R. 16628 by Rep. Schisler, to provide additional assistance for areas suffering a major disaster; to Public Works Committee.
38. WHEAT. H. R. 16635 by Rep. Findley, to repeal the wheat processing charge, commonly known as the bread tax; to Agriculture Committee. Remarks of author p. 16693

HOUSING AND URBAN DEVELOPMENT ACT OF 1966

JULY 28, 1966.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

Mr. PATMAN, from the Committee on Banking and Currency,
submitted the following

SUPPLEMENTAL REPORT

[To accompany H.R. 15890]

This supplemental report shows changes in existing law made by the bill (H.R. 15890), as reported, which were omitted from part II of the report submitted on July 15, 1966 (H. Rept. 1699, part II). The changes involved are in provisions of the National Housing Act, the United States Housing Act of 1937, title I of the Housing Act of 1949, and section 701 of the Housing Act of 1954. (Certain other changes made by the bill in such provisions, and correctly shown in part II of such report, are necessarily repeated in this supplemental report.)

PART III

FURTHER CHANGES IN EXISTING LAW MADE BY THE BILL, AS REPORTED

In compliance with clause 3 of rule XIII of the Rules of the House of Representatives, the changes in existing law made by the bill, as reported, which are not included in part II of this report, submitted July 15, 1966, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in *italic*, existing law in which no change is proposed is shown in roman) :

NATIONAL HOUSING ACT

[Public Law 479, 73d Congress, 48 Stat. 1246, 12 U.S.C. 1701 et seq.]

AN ACT to encourage improvement in housing standards and conditions, to provide a system of mutual mortgage insurance, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "National Housing Act."

TITLE I—HOUSING RENOVATION AND
MODERNIZATION[CREATION OF FEDERAL HOUSING ADMINISTRATION] ADMINISTRATIVE
PROVISION

SECTION 1. [The President is authorized to create a Federal Housing Administration, all of the powers of which shall be exercised by a Federal Housing Commissioner (hereinafter referred to as the "Commissioner"), who shall be appointed by the President, by and with the advice and consent of the Senate.]

In order to carry out the provisions of this title and titles II, III, V, VI, VII, VIII, IX, [and X] *X, and XI*, the [Commissioner] *Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary")* may establish such agencies, accept, and utilize such voluntary and uncompensated services, utilize such Federal officers and employees, and, with the consent of the State such State and local officers and employees, and appoint such other officers and employees as he may find necessary, and may prescribe their authorities, duties, responsibilities, and tenure and fix their compensation, without regard to the provisions of other laws applicable to the employment or compensation of officers or employees of the United States. The [Commissioner] *Secretary* may delegate any of the functions and powers conferred upon him under this title and titles II, III, V, VI, VII, VIII, IX, [and X] *X, and XI*, to such officers, agents, and employees as he may designate or appoint, and may make such expenditures (including expenditures for personal services and rent at the seat of government and elsewhere, for law books and books of reference, and for paper, printing, and binding) as are necessary to carry out the provisions of this title and titles II, III, V, VI, VII, VIII, IX, [and X] *X, and XI*, without regard to any other provisions of law governing the expenditure of public funds. All such compensation, expenses, and allowances shall be paid out of funds made available by this Act: *Provided*, That notwithstanding any other provisions of law except provisions of law hereafter enacted expressly in limitation hereof, all expenses of the [Federal Housing Administration] *Department of Housing and Urban Development* in connection with the examination and insurance of loans or investments under any title of this Act, all properly capitalized expenditures, and other necessary expenses not attributable to general overhead in accordance with generally accepted accounting principles shall be considered nonadministrative and payable from funds made available by this Act, except that, unless made pursuant to specific authorization by the

Congress therefore, expenditures made in any fiscal year pursuant to this proviso, other than the payment of insurance claims and other than expenditures (including services on a contract or fee basis, but not including other personal services) in connection with the acquisition, protection, completion, operation, maintenance, improvement, or disposition of real or personal property of the **[Administration]** *Department* acquired under authority of this Act, shall not exceed 35 per centum of the income received by the **[Federal Housing Administration]** *Department of Housing and Urban Development* from premiums and fees during the preceding fiscal year. The **[Commissioner]** *Secretary* shall, in carrying out the provisions of this title and titles II, III, V, VI, VII, VIII, IX, **[and X]** *X, and XI*, be authorized, in his official capacity, to sue and be sued in any court of competent jurisdiction, State or Federal.

* * * * *

TITLE II—MORTGAGE INSURANCE

* * * * *

INSURANCE OF MORTGAGES

SEC. 203. (a) * * *

(b) To be eligible for insurance under this section a mortgage shall—

(1) Have been made to, and be held by, a mortgagee approved by the **[Commissioner]** *Secretary* as responsible and able to service the mortgage properly.

(2) Involve a principal obligation (including such initial service charges, appraisal, inspection, and other fees as the **[Commissioner]** *Secretary* shall approve) in an amount not to exceed \$30,000 in the case of property upon which there is located a dwelling designed principally for a one-family residence; or \$32,500 in the case of a two-family residence (whether or not such one- or two-family residence may be intended to be rented temporarily for school purposes); or \$32,500 in the case of a three-family residence; or \$37,500 in the case of a four-family residence; and (except as provided in the next to the last sentence of this paragraph) not to exceed an amount equal to the sum of (i) 97 per centum (but, in any case where the dwelling is not approved for mortgage insurance prior to the beginning of construction unless the construction of the dwelling was completed more than one year prior to the application for mortgage insurance or the dwelling was approved for guaranty, insurance, or direct loan under chapter 37 of title 38, United States Code, prior to the beginning of construction, 90 per centum) of \$15,000 of the appraised value of the property, as of the date the mortgage is accepted for insurance, (ii) 90 per centum of such value in excess of \$15,000 but not in excess of \$20,000, and (iii) 80 per centum of such value in excess of \$20,000. **[If the mortgagor is a veteran who has not received any direct, guaranteed, or insured loan under laws administered by the Veterans' Administration for the purchase, construction, or repair of a dwelling (including a farm dwelling) which was to be owned and occupied by him as his home.]** *If the mortgagor is a veteran*, and the mortgage to be insured under this section covers property upon which there is located a dwelling

designed principally for a one-family residence, the principal obligation may be in an amount equal to the sum of (i) 100 per centum of \$15,000 of the appraised value of the property as of the date the mortgage is accepted for insurance, (ii) 90 per centum of such value in excess of \$15,000 but not in excess of \$20,000, and (iii) 85 per centum of such value in excess of \$20,000. As used herein, the term "veteran" means any person who served on active duty in the Armed Forces of the United States for a period of not less than 90 days (or is certified by the Secretary of Defense as having performed extra-hazardous service), and who was discharged or released therefrom under conditions other than dishonorable.

* * * * *

LABOR STANDARDS

SEC. 212. (a) The **[Commissioner]** *Secretary* shall not insure under section 207 or section 210 of this title, or under section 608 of title VI, pursuant to any application for insurance filed subsequent to the effective date of this section, or under section 213 of this title, or under title VIII pursuant to any application filed subsequent to sixty days after the date of enactment of the Housing Act of 1950, or under section 803 or 810 of title VIII, or under section 908 of title IX, a mortgage or investment which covers property on which there is or is to be placed a dwelling or dwellings, or a housing project, the construction of which was or is to be commenced subsequent to such date, unless the principal contractor files a certificate or certificates (at such times, in course of construction or otherwise, as the **[Commissioner]** *Secretary* may prescribe) certifying that the laborers and mechanics employed in the construction of the dwelling or dwellings or the housing project involved have been paid not less than the wages prevailing in the locality in which the work was performed for the corresponding classes of laborers and mechanics employed on construction of a similar character, as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5), prior to the beginning of construction and after the date of the filing of the application for insurance. The provisions of this section shall also apply to the insurance of any loan or mortgage under section 220 or section 233 which covers property on which there is located a dwelling or dwellings designed principally for residential use for twelve or more families. The provisions of this section shall apply to the insurance under section 221 of any mortgage described in subsection (d) (3), or (d) (4), *except that compliance with such provisions may be waived by the Secretary in cases or classes of cases where laborers or mechanics (not otherwise employed at any time in the construction of the project) voluntarily donate their services without compensation for the purpose of lowering their housing costs in a cooperative housing project and the Secretary determines that any amounts saved thereby are fully credited to the cooperative undertaking the construction.* The provisions of this section shall also apply to the insurance of any mortgage under section 231 or 232 except that compliance with such provisions may be waived by the **[Commissioner]** *Secretary* in cases or classes of cases

where laborers or mechanics, not otherwise employed at any time on the project, voluntarily donate their services without full compensation for the purpose of lowering the costs of construction and the **[Commissioner]** *Secretary* determines that any amounts thereby saved are fully credited to the nonprofit corporation, association, or other organization undertaking the construction. The provisions of this section shall also apply to the insurance of any mortgage under section 234(d). The provisions of this section shall also apply to insurance under title X with respect to laborers and mechanics employed in land development financed with the proceeds of any mortgage insured under that title. *The provisions of this section shall also apply to the insurance of any mortgage under title XI; and each laborer or mechanic employed on any facility covered by a mortgage insured under such title shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be.*

* * * * *

COOPERATIVE HOUSING INSURANCE

SEC. 213. (a) * * *

(b) To be eligible for insurance under this section a mortgage on any property or project of a corporation or trust of the character described in paragraph numbered (1) of subsection (a) of this section shall involve a principal obligation in an amount—

(1) * * *

(2) not to exceed, for such part of the property or project as may be attributable to dwelling use (excluding exterior land improvements as defined by the **[Commissioner]** *Secretary*). **[\$9,000]** \$11,500 per family unit without a bedroom, **[\$12,500]** \$15,000 per family unit with one bedroom, **[\$15,000]** \$17,500 per family unit with two bedrooms, **[\$18,500]** \$21,000 per family unit with three bedrooms, and **[\$21,000]** \$23,500 per family unit with four or more bedrooms, and not to exceed 97 per centum of the amount which the **[Commissioner]** *Secretary* estimates will be the replacement cost of the property or project when the proposed physical improvements are completed: *Provided*. That as to projects to consist of elevator-type structures the **[Commissioner]** *Secretary* may, in his discretion, increase the dollar amount limitations per family unit to not to exceed **[\$10,500]** \$13,000 per family unit without a bedroom, **[\$15,000]** \$17,500 per family unit with one bedroom, **[\$18,000]** \$20,500 per family unit with two bedrooms, **[\$22,500]** \$25,000 per family unit with three bedrooms, and **[\$25,500]** \$28,000 per family unit with four or more bedrooms, as the case may be, to compensate for the higher costs incident to the construction of elevator-type structures of sound standards of construction and design: *Provided further*. That the **[Commissioner]** *Secretary* may, by regulation, increase any of the foregoing dollar amount limitations contained in this paragraph by not to exceed 45 per centum in any geographical area where he finds that cost levels so require. *Provided further*. That in the case of a mortgage of the character described in paragraph (3)

of subsection (a) the mortgage shall involve a principal obligation in an amount not to exceed 90 per centum of the amount which the **[Commissioner]** *Secretary* estimates will be the replacement cost of the property or project when the proposed physical improvements are completed: *And provided further*, That upon the sale of a property or project by a mortgagor of the character described in paragraph (3) of subsection (a) to a nonprofit cooperative ownership housing corporation or trust within two years after the completion of such property or project the mortgage given to finance such sale shall involve a principal obligation in an amount not to exceed the maximum amount computed in accordance with this subsection without regard to the preceding proviso.

* * * * *

(j) (1) * * *

(2) To be eligible for insurance under this subsection, a supplementary cooperative loan shall—

(A) be limited to an amount which, when added to the outstanding mortgage indebtedness on the property, creates a total outstanding indebtedness which does not exceed the original principal obligation of the mortgage; *except that, in the case of improvements or additional community facilities, the outstanding indebtedness may be increased by an amount equal to 97 per centum of the amount which the Secretary estimates will be the value of such improvements or facilities, and the new outstanding indebtedness may exceed the original principal obligation of the mortgage if such new outstanding indebtedness does not exceed the limitations imposed by subsection (b);*

(B) have a maturity satisfactory to the **[Commissioner]** *Secretary* but not to exceed the remaining term of the mortgage;

(C) be secured in such manner as the **[Commissioner]** *Secretary* may require;

(D) contain such other terms, conditions, and restrictions as the Commissioner may prescribe; and

(E) represent the obligation of a borrower of the character described in paragraph (1) of subsection (a).

(k) There is hereby created a Cooperative Management Housing Insurance Fund (hereinafter referred to as the "Management Fund"). The Management Fund shall be used by the **[Commissioner]** *Secretary* as a revolving fund for carrying out the provisions of this section with respect to mortgages or loans insured, on or after the date of the enactment of this subsection, under subsections (a)(1), (a)(3) (if the project is acquired by a cooperative corporation), (i), and (j). The Management Fund shall also be used as a revolving fund for mortgages, loans, and commitments transferred to it pursuant to subsection (m). **[The Commissioner is directed to transfer to the Management Fund from the General Insurance Fund established pursuant to section 519 such amount as the Commissioner determines to be necessary and appropriate.]** *The Secretary is directed to transfer to the Management Fund from the General Insurance Fund an amount equal to the total of the premium payments therefore made with respect to*

the insurance of mortgages and loans transferred to the Management Fund pursuant to subsection (m) minus the total of any administrative expenses theretofore incurred in connection with such mortgages and loans, plus such other amounts as the Secretary determines to be necessary and appropriate. General expenses of the operation of the [Federal Housing Administration] *Department of Housing and Urban Development* relating to mortgages or loans which are the obligation of the Management Fund may be charged to the Management Fund.

(1) The [Commissioner] *Secretary* shall establish in the Management Fund, as of the date of the enactment of this subsection, a General Surplus Account and a Participating Reserve Account. The aggregate net income thereafter received or any net loss thereafter sustained by the Management Fund, in any semiannual period, shall be credited or charged to the General Surplus Account or the Participating Reserve Account or both in such manner and amounts as the [Commissioner] *Secretary* may determine to be in accord with sound actuarial and accounting practice. Upon termination of the insurance obligation of the Management Fund by payment of any mortgage or loan insured under this section, and at such time or times prior to such termination as the [Commissioner] *Secretary* may determine, the [Commissioner] *Secretary* is authorized to distribute to the mortgagor or borrower a share of the Participating Reserve Account in such manner and amount as the [Commissioner] *Secretary* shall determine to be equitable and in accordance with sound actuarial and accounting practice: *Provided*, That in no event shall the amount of the distributable share exceed the aggregate scheduled annual premiums of the mortgagor or borrower to the year of payment of the share less the total amount of any share or shares previously distributed by the [Commissioner] *Secretary* to the mortgagor or borrower: *And provided further*, That in no event may a distributable share be distributed until any funds transferred from the General Insurance Fund to the Management Fund [pursuant to subsection (k) or (o)] *pursuant to subsection (o)* have been repaid in full to the General Insurance Fund. No mortgagor, mortgagee, borrower, or lender shall have any vested right in a credit balance in any such account or be subject to any liability arising out of the mutuality of the Management Fund. The determination of the [Commissioner] *Secretary* as to the amount to be paid by him to any mortgagor or borrower shall be final and conclusive.

(m) The [Commissioner] *Secretary* is authorized to transfer to the Management Fund commitments for insurance issued under subsections (a) (1), (i), and (j) prior to the date of the enactment of this subsection, and to transfer to the Management Fund the insurance of any mortgage or loan insured prior to the date of the enactment of this subsection under subsection (a) (1), (a) (3) (if the project is acquired by a cooperative corporation), (i) (or (j)), [but only in cases where the consent of the mortgagee or lender to the transfer is obtained or a request by the mortgagee or lender for the transfer is received by the Commissioner within such period of time after the date of the enactment of this subsection as the Commissioner shall prescribe]: *Provided*, That the insurance of any mortgage or loan shall not be transferred under the provisions of this subsection if on the date of the

enactment of this subsection the mortgage or loan is in default and the mortgagee or lender has notified the [Commissioner] *Secretary* in writing of its intention to file an insurance claim. Any insurance or commitment not so transferred shall continue to be an obligation of the General Insurance Fund.

(n) Notwithstanding the limitations contained in other provisions of this Act, premium charges for mortgages or loans [insured under this section and sections 207, 231, and 232] *the insurance of which is the obligation of either the Management Fund or the General Insurance Fund* may be payable in debentures issued in connection with mortgages or loans transferred to the Management Fund or in connection with mortgages or loans insured pursuant to commitments transferred to the Management Fund, as provided in subsection (m) of this section. *Premium charges on the insurance of mortgages or loans transferred to the Management Fund or insured pursuant to commitments transferred to the Management Fund may be payable in debentures which are the obligation of either the Management Fund or of the General Insurance Fund.*

* * * * *

HOUSING FOR MODERATE INCOME AND DISPLACED FAMILIES

Sec. 221. (a) * * *

* * * * *

(d) To be eligible for insurance under this section, a mortgage shall—

(1) * * *

(2) be secured by property upon which there is located a dwelling conforming to applicable standards prescribed by the [Commissioner] *Secretary* under subsection (f) of this section, and meeting the requirements of all State laws, or local ordinances or regulations, relating to the public health or safety, zoning, or otherwise, which may be applicable thereto, and shall involve a principal obligation (including such initial service charges, appraisal, inspection, and other fees as the [Commissioner] *Secretary* shall approve) in an amount (A) not to exceed (i) [~~\$11,000~~] *\$12,500* in the case of a property upon which there is located a dwelling designed principally for a single-family residence, (ii) [~~\$18,000~~] *\$20,000* in the case of a property upon which there is located a dwelling designed principally for a two-family residence, (iii) *\$27,000* in the case of a property upon which there is located a dwelling designed principally for a three-family residence, or (iv) *\$33,000* in the case of a property upon which there is located a dwelling designed principally for a four-family residence; *Provided*, That a mortgage secured by property upon which there is located a dwelling designed principally for a two-, three-, or four-family residence shall not be insured under this section except in the case of a dwelling for occupancy by a family displaced from an urban renewal area or as a result of governmental action:

Provided further, That the **【Commissioner】 Secretary** may increase the foregoing amounts to not to exceed \$15,000, \$25,000, \$32,000, and \$38,000, respectively, in any geographical area where he finds that cost levels so require; and (B) not to exceed the appraised value of the property (as of the date the mortgage is accepted for insurance) : *Provided*, That (i) if the mortgagor is the owner and an occupant of the property at the time of insurance, (1) in the case of a family displaced from an urban renewal area or as a result of Government action, he shall have paid on account of the property at least \$200 in the case of a single-family dwelling, \$400 in the case of a two-family dwelling, \$600 in the case of a three-family dwelling, and \$800 in the case of a four-family dwelling, or (2) in the case of any other family, he shall have paid on account of the property at least 3 per centum of the **【Commissioner's】 Secretary's** estimate of its acquisition cost; which amount in either instance may include amounts to cover settlement costs and initial payments for taxes, hazard insurance, mortgage insurance premium, and other prepaid expenses; or (ii) in the case of repair and rehabilitation, the amount of the mortgage shall not exceed the sum of the estimated cost of repair and rehabilitation and the **【Commissioner's】 Secretary's** estimate of the value of the property before repair and rehabilitation, except that in no case involving refinancing shall such mortgage exceed such estimated cost of repair and rehabilitation and the amount (as determined by the **【Commissioner】 Secretary** required to refinance existing indebtedness secured by the property: *Provided further*, That nothing contained herein shall preclude the **【Commissioner】 Secretary** from issuing a commitment to insure, and insuring a mortgage pursuant thereto, where the mortgagor is not the owner and an occupant of the property, if the property is to be built or acquired and repaired or rehabilitated for sale, and the insured mortgage financing is required to facilitate the construction, or the repair or rehabilitation, of the dwelling and to provide financing pending the subsequent sale thereof to a qualified owner who is also an occupant thereof, but in such instances the mortgage shall not exceed 85 per centum of the appraised value; or

* * * * *

(f) The property or project shall comply with such standards and conditions as the **【Commissioner】 Secretary** may prescribe to establish the acceptability of such property for mortgage insurance and may include such commercial and community facilities as the **【Commissioner】 Secretary** deems adequate to serve the occupants. A property or project covered by a mortgage insured under the provisions of subsection (d) (3) or (d) (4) shall include five or more family units. The **【Commissioner】 Secretary** is authorized to adopt such procedures and requirements as he determines are desirable to assure that the dwelling accommodations provided under this section are available to families displaced from urban renewal areas or as a result of governmental action. Notwithstanding any provision of this Act, the **【Commissioner】 Secretary**, in order to assist further the provision of housing

for low and moderate income families, in his discretion and under such conditions as he may prescribe, may insure a mortgage which meets the requirements of subsection (d) (3) of this section as in effect after the date of enactment of the Housing Act of 1961, *or which meet the requirements of subsection (h)*, with no premium charge, with a reduced premium charge, or with a premium charge for such period or periods during the time the insurance is in effect as the [Commissioner] *Secretary* may determine, and there is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, such amounts as may be necessary to reimburse the General Insurance Fund for any net losses in connection with such insurance. No mortgage shall be insured under this section after October 1, 1969, except pursuant to a commitment to insure before that date, or except a mortgage covering property which the [Commissioner] *Secretary* finds will assist in the provision of housing for families displaced from urban renewal areas or as a result of governmental action. Any person who is sixty-two years of age or over, or who is a handicapped person within the meaning of section 202 of the Housing Act of 1959, shall be deemed to be a family within the meaning of the terms "family" and "families" as those terms are used in this section.

(g) The mortgage shall be entitled to receive the benefits of the insurance as hereinafter provided—

(1) as to mortgages meeting the requirements of paragraph (2) of subsection (d) of this section *or paragraph (5) of subsection (h) of this section*, as provided in section 204(a) of this Act with respect to mortgages insured under section 203, and the provisions of subsections (b), (c), (d), (e), (f), (g), (h), (j), and (k) of section 204 of this Act shall be applicable to such mortgages insured under this section, except that all references therein to the Mutual Mortgages Insurance Fund or the Fund shall be construed to refer to the General Insurance Fund and all references therein to section 203 shall be construed to refer to this section; or

(2) as to mortgages meeting the requirements of paragraph (3) or (4) of subsection (d) of this section *or paragraph (1) of subsection (h) of this section*, as provided in section 207(g) of this Act with respect to mortgages insured under said section 207, and the provisions of subsections (h), (i), (j), (k), and (l) of section 207 of this Act shall be applicable to such mortgages insured under this section; or

* * * * *

(h) (1) *In addition to mortgages insured under the other provisions of this section, the Secretary is authorized, upon application by the mortgagee, to insure under this subsection as hereinafter provided any mortgage (including advances under such mortgage during rehabilitation) which is executed by a nonprofit organization to finance the purchase and rehabilitation of deteriorating or substandard housing for subsequent resale to low-income home purchasers and, upon such terms and conditions as the Secretary may prescribe, to make commitments for the insurance of such mortgages prior to the date of their execution or disbursement thereon.*

(2) *To be eligible for insurance under paragraph (1) of this subsection, a mortgage shall—*

(A) be executed by a private nonprofit corporation or association approved for purposes of this subsection by the Secretary, for the purpose of financing the purchase of property (comprising one or more tracts or parcels, whether or not contiguous) upon which there is located deteriorating or substandard housing consisting of five or more single-family dwellings of detached, semi-detached, or row construction and of rehabilitating such dwellings with a view to subsequent resale as hereinafter provided;

(B) be secured by the property which is to be purchased and rehabilitated with the proceeds thereof;

(C) be in a principal amount not exceeding the appraised value of the property at the time of its purchase under the mortgage plus the estimated cost of the rehabilitation;

(D) bear interest (exclusive of premium charges for insurance and service charge, if any) at the rate in effect under the proviso in subsection (d) (5) at the time of execution;

(E) provide for complete amortization (subject to paragraph (5) (E)) by periodic payments within such term as the Secretary may prescribe; and

(F) provide for the release of individual single-family dwellings from the lien of the mortgage upon the sale of the rehabilitated dwellings in accordance with paragraph (5).

(3) No mortgage shall be insured under paragraph (1) unless the mortgagor shall have demonstrated to the satisfaction of the Secretary that (A) the property to be rehabilitated is located in a neighborhood which is sufficiently stable and contains sufficient public facilities and amenities to support long-term values, or (B) the rehabilitation to be carried out by the mortgagor plus its related activities and the activities of other owners of housing in the neighborhood, together with actions to be taken by public authorities, will be of such scope and quality as to give reasonable promise that a stable environment will be created in the neighborhood.

(4) The aggregate principal balance of all mortgages insured under paragraph (1) and outstanding at any one time shall not exceed \$20,000,000.

(5) (A) No mortgage shall be insured under paragraph (1) unless the mortgagor enters into an agreement (in form and substance satisfactory to the Secretary) that it will offer to sell the dwellings involved, upon completion of their rehabilitation, to individuals or families (hereinafter referred to as "low-income purchasers") determined by the Secretary to have incomes below the maximum amount specified (with respect to the area involved) in section 101(c) (1) of the Housing and Urban Development Act of 1965.

(B) The Secretary is authorized to insure under this paragraph mortgages executed to finance the sale of individual dwellings to low-income purchasers as provided in subparagraph (A). Any such mortgage shall—

(i) be in a principal amount equal to that portion of the unpaid balance of the principal mortgage covering the property (insured under paragraph (1)) which is allocable to the individual dwelling involved; and

(ii) bear interest at the same rate as the principal mortgage, and provide for complete amortization by periodic payments

within a term equal to the remaining term (determined without regard to subparagraph (E)) of such principal mortgage.

(C) The price for which any individual dwelling is sold to a low-income purchaser under this paragraph shall be the amount of the mortgage covering the sale as determined under subparagraph (B), except that the purchaser shall in addition thereto be required to pay on account of the property at the time of purchase such amount (which shall not be less than \$200, but which may be applied in whole or in part toward closing costs) as the Secretary may determine to be reasonable and appropriate in the circumstances.

(D) Upon the sale under this paragraph of any individual dwelling, such dwelling shall be released from the lien of the principal mortgage, and such mortgage shall thereupon be replaced by an individual mortgage insured under this paragraph to the extent of the portion of its unpaid balance which is allocable to the dwelling covered by such individual mortgage. Until all of the individual dwellings in the property covered by the principal mortgage have been sold, the mortgagor shall hold and operate the dwellings remaining unsold at any given time as though they constituted rental units in a project covered by a mortgage which is insured under subsection (d)(3) (and which receives the benefits of the interest rate provided for in the proviso in subsection (d)(5)).

(E) Upon the sale under this paragraph of all of the individual dwellings in the property covered by the principal mortgage, and the release of all individual dwellings from the lien of the principal mortgage, the insurance of the principal mortgage shall be terminated and no adjusted premium charge shall be charged by the Secretary upon such termination.

(F) Any mortgage insured under this paragraph shall contain a provision that if the low-income mortgagor does not continue to occupy the property, the interest rate shall increase to the highest rate permissible under this section and the regulations of the Secretary effective at the time of commitment for insurance of the principal mortgage; except that the increase in interest rate shall not be applicable if the property is sold and the purchaser is (i) the nonprofit organization which executed the principal mortgage, (ii) a public housing agency having jurisdiction under the United States Housing Act of 1937 over the area where the dwelling is located, or (iii) a low-income purchaser approved for the purposes of this paragraph by the Secretary.

* * * * *

BUILDER'S COST CERTIFICATION

SEC. 227. Notwithstanding any other provisions of this Act, no mortgage covering new or rehabilitated multifamily housing or a property or project described in title XI shall be insured under this Act unless the mortgagor has agreed (a) to certify, upon completion of the physical improvements on the mortgaged property or project and prior to final endorsement of the mortgage, either (i) that the approved percentage of actual cost (as those terms are herein defined) equaled or exceeded the proceeds of the mortgage loan or (ii) the

amount by which the proceeds of the mortgage loan exceeded such approved percentage of actual cost, as the case may be, and (b) to pay forthwith to the mortgagee, for application to the reduction of the principal obligation of such mortgage, the amount, if any, certified to be in excess of such approved percentage of actual cost. Upon the [Commissioner's] *Secretary's* approval of the mortgagor's certification as required hereunder, such certification shall be final and incontestable, except for fraud or material misrepresentation on the part of the mortgagor. As used in this section—

(a) The term "new or rehabilitated multifamily housing" means a project or property approved for mortgage insurance prior to the construction or the repair and rehabilitation involved and covered by a mortgage insured or to be insured (i) under section 207, (ii) under section 213 with respect to any property or project of a corporation or trust of the character described in paragraph numbered (1) of subsection (a) thereof or with respect to any property or project of a mortgagor of the character described in paragraph (3) of subsection (a) thereof, (iii) under section 220 if the mortgage meets the requirements of paragraph (3)(B) of subsection (d) thereof, (iv) under section 221 if the mortgage meets the requirements of paragraph (3) or paragraph (4) of subsection (d) thereof, (v) under section 231, (vi) under section 233 if the mortgage meets the requirements of [subsection (b)(2)] *subsection (b)*, (vii) under section 810 if the mortgage meets the requirements of subsection (f), or (viii) under section 234(d);

* * * * *

TITLE III—FEDERAL NATIONAL MORTGAGE ASSOCIATION

* * * * *

CREATION OF ASSOCIATION

SEC. 302. (a) * * *

(b) For the purposes set forth in section 301 and subject to the limitations and restrictions of this title, the Association is authorized, pursuant to commitments or otherwise, to purchase, lend (under section 304) on the security of, service, sell, or otherwise deal in any mortgages which are insured under the National Housing Act or title V of the Housing Act of 1949, or which are insured or guaranteed under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code: *Provided*, That (1) no mortgage may be purchased at a price exceeding 100 per centum of the unpaid principal amount thereof at the time of purchase, with adjustments for interest and any comparable items; (2) the Association may not purchase any mortgage, except a mortgage insured under title V of the Housing Act of 1949, if it is offered by, or covers property held by, a State, territorial, or municipal instrumentality; and (3) the Association may not purchase any mortgage under section 305, except a mortgage insured under section 220 or title VIII, or under title X with respect to a new

community approved under section 1004 thereof, or insured under section 213 and covering property located in an urban renewal area, or a mortgage covering property located in Alaska, Guam, or Hawaii, if the original principal obligation thereof exceeds or exceeded \$17,500 for each family residence or dwelling unit covered by the mortgage (plus an additional \$2,500 for each such family residence or dwelling unit which has four or more bedrooms). Notwithstanding the provisions of clause (3) in the preceding sentence, the Association may purchase a mortgage under section 305 with an original principal obligation that exceeds \$17,500 per dwelling unit if the mortgage (1) is a below-market interest rate mortgage insured under section 221(d)(3), and (2) covers property which has the benefit of local tax abatement in an amount determined by the **[Federal Housing Commissioner]** *Secretary of Housing and Urban Development* to be sufficient to make possible rentals not in excess of those that would be approved by the **[Commissioner]** *Secretary* if the mortgage amount did not exceed \$17,500 per dwelling unit and if local tax abatement were not provided. For the purposes of this title, the terms "mortgages" and "home mortgages" shall be inclusive of any mortgages or other loans insured under any of the provisions of the National Housing Act or title V of the Housing Act of 1949.

* * * * *

SPECIAL ASSISTANCE FUNCTIONS

Sec. 305. (a) * * *

* * * * *

(e) Notwithstanding any other provision of this Act, the Association is authorized to enter into advance commitment contracts and purchase transactions which do not exceed \$200,000,000 outstanding at any one time, if such commitments or transactions relate to mortgages with respect to which the **[Federal Housing Commissioner]** *Secretary of Housing and Urban Development* shall have issued pursuant to section 213 either a commitment to insure or a statement of eligibility; but such commitments in any one State shall not exceed \$20,000,000 outstanding at any one time: *Provided*, That (1) of the total amount of advance commitment contracts and purchase transactions authorized by this subsection, the amount of \$50,000,000 shall be available solely for commitments or purchases of mortgages where the management or sales-type cooperative involved is certified by the **[Federal Housing Commissioner]** *Secretary of Housing and Urban Development* as a consumer cooperative, and (2) of the commitments in any one State, not more than \$15,000,000 shall be outstanding at any one time for mortgages with respect to cooperative projects which are not of the type described in clause (1) of this proviso. On and after the date of enactment of the Housing Act of 1959, the Association is authorized to enter into advance commitment contracts and purchase transactions (in addition to those authorized by the preceding sentence) relating to mortgages with respect to which the **[Federal Housing Commissioner]** *Secretary of Housing and Urban Development*

shall have issued pursuant to section 213 a commitment to insure or a statement of eligibility, without regard to any of the limitations contained in the preceding sentence; except that the total amount of the additional advance commitment contracts and purchase transactions authorized by this sentence which may be outstanding at any one time shall not exceed \$25,000,000, of which the amount of \$12,500,000 shall be available solely for commitments or purchases of mortgages where the management or sales-type cooperative involved is certified by the **[Federal Housing Commissioner]** *Secretary of Housing and Urban Development* as a consumer cooperative and the amount of \$12,500,000 shall be available solely for commitments or purchases of mortgages where the cooperative involved is a builder-sponsor cooperative. Without regard to any of the limitations of this subsection except the total amount of authorizations available, the Association is authorized to enter into advance commitment contracts and purchase transactions on **[supplementing]** *supplementary* cooperative loans with respect to which the **[Federal Housing Commissioner]** *Secretary of Housing and Urban Development* shall have issued, pursuant to section 213(j), either a commitment to insure or a statement of eligibility; but such commitments and purchases shall be made solely where there is a management-type cooperative involved which is certified by the **[Federal Housing Commissioner]** *Secretary of Housing and Urban Development* as a consumer cooperative.

* * * * *

(h) Notwithstanding clause (2) of section 302(b) and any provision of this Act which is inconsistent with this subsection, the Association is authorized (subject to Presidential action as provided in subsection (a), as limited by subsection (c)) to purchase pursuant to commitments or otherwise, and to service, sell, or otherwise deal in, mortgages insured under the provision of **[section 221(d)(3)]** *sections 221 (d) (3) and 221 (h)* of this Act.

(i) *In any case where the Association makes a commitment to purchase under this section a mortgage insured under section 213, or a mortgage executed by a cooperative or a private nonprofit corporation or association and insured under section 221(d)(3), such commitment may provide for participation by the Association in the making of insured advances on the mortgage during construction. Such participation shall be limited to 95 per centum of the amount of each of the advances involved, and the mortgagee providing the balance of such amount shall perform all necessary servicing and processing of such advances until the final insurance endorsement of the mortgage.*

* * * * *

BOARD OF DIRECTORS

SEC. 308. **[a]** The Association shall have a Board of Directors consisting of five persons, one of whom shall be the **[Housing and Home Finance Administrator]** *Secretary of Housing and Urban Development* as Chairman of the Board, and four of whom shall be appointed by **[said Administrator]** *the Secretary* from among the officers or

employees of the Association, of the immediate office of [said Administrator] *the Secretary*, or (with the consent of the head of such department or agency) of any other department or agency of the Federal Government. The board of directors shall meet at the call of its chairman, who shall require it to meet not less often than once each month. Within the limitations of law, the board shall determine the general policies which shall govern the operations of the Association. The chairman of the board shall select and effect the appointment of qualified persons to fill the offices of president and vice president, and such other offices as may be provided for in the bylaws, with such executive functions, powers, and duties as may be prescribed by the bylaws or by the board of directors, and such persons shall be the executive officers of the Association and shall discharge all such executive functions, powers, and duties. The members of the board, as such, shall not receive compensation for their services.

* * * * *

TITLE V—MISCELLANEOUS

* * * * *

PENALTIES

SEC. 512. Notwithstanding any other provision of law, the [Commissioner] *Secretary* is authorized to refuse the benefits of participation (either directly as an insured lender or as a borrower, or indirectly as a builder, contractor, or dealer, or salesman or sales agent for a builder, contractor or dealer) under title I, II, VI, VII, VIII, [or IX] IX, X, or XI of this Act to any person or firm (including but not limited to any individual, partnership, association, trust, or corporation) if the [Commissioner] *Secretary* has determined that such person or firm (1) has knowingly or willfully violated any provision of this Act or of title III of the Servicemen's Readjustment Act of 1944, as amended, or of chapter 37 of title 38, United States Code, or of any regulation issued by the [Commissioner] *Secretary* under this Act or by the Administrator of Veterans' Affairs under said title III, or chapter 37, or (2) has, in connection with any construction, alteration, repair or improvement work financed with assistance under this Act or under said title III, or chapter 37, or in connection with contracts or financing relating to such work, violated any Federal or State penal statute, or (3) has failed materially to properly carry out contractual obligations with respect to the completion of construction, alteration, repair, or improvement work financed with assistance under this Act or under title III of the Servicemen's Readjustment Act of 1944, as amended, or of chapter 37 of title 38, United States Code. Before any such determination is made any person or firm with respect to whom such a determination is proposed shall be notified in writing by the [Commissioner] *Secretary* and shall be entitled, upon making a written request to the [Commissioner] *Secretary* to a written notice specifying charges in reasonable detail and an opportunity to be heard and to be represented by counsel. Determinations made by the [Commis-

sioner] *Secretary* under this section shall be based on the preponderance of the evidence. For the purposes of compliance with this section the [Commissioner] *Secretary's* notice of a proposed determination under this section shall be considered to have been received by the interested person or firm if the notice is properly mailed to the last known address of such person or firm.

* * * * *

WAIVER OF DEDUCTION ON ASSIGNMENT OF PROPERTY TO SECRETARY IN LIEU OF FORECLOSURE

SEC. 523. Notwithstanding any other provision of this Act, from and after the date of the enactment of the Housing and Urban Development Act of 1966, the Secretary, under such terms and conditions as he may approve, may waive all or a part of the 1 per centum deduction otherwise made from insurance benefits with respect to multifamily housing or land development mortgages assigned to him, where the assignment is made at his request in lieu of foreclosure of the mortgage.

* * * * *

TITLE VIII—ARMED SERVICES HOUSING MORTGAGE INSURANCE

* * * * *

SEC. 803 (a) In order to assist in relieving the acute shortage and urgent need for family housing which now exists at or in areas adjacent to military installations because of uncertainty as to the permanency of such installations and to increase the supply of necessary family housing accommodations for personnel at such installations, the [Commissioner] *Secretary* is authorized, upon application of the mortgagee, to insure mortgages (including advances on such mortgages during construction) which are eligible for insurance as hereinafter provided, and, upon such terms as the [Commissioner] *Secretary* may prescribe, to make commitments for so insuring such mortgages prior to the date of their execution or disbursement thereon: *Provided*, That the aggregate amount of principal obligations of all mortgages insured under this title (except mortgages insured pursuant to the provisions of this title in effect prior to the enactment of the Housing Amendments of 1955) shall not exceed [\$2,300,000,000] \$3,350,000,000: *And provided further*, that the limitation in section 217 of this Act shall not apply to this title: *And provided further*, That no more mortgages shall be insured under this section after [October 1, 1962] October 1, 1969, except pursuant to a commitment to insure before such date, and not more than [twenty-eight thousand] eighty-eight thousand family housing units shall be contracted for after June 30, 1959, pursuant to any mortgage insured under this section after such date.

(b) To be eligible for insurance under this title a mortgage shall meet the following conditions:

(1) The mortgaged property shall be held by a mortgagor approved by the [Commissioner] *Secretary*. The [Commissioner] *Sec-*

retary may, in his discretion, require such mortgagor to be regulated or restricted as to capital structure, and methods of operation. The **[Commissioner]** *Secretary* may make such contracts with, and acquire for not to exceed \$100 stock or interest in, any such mortgagor, as the **[Commissioner]** *Secretary* may deem necessary to render effective such restriction or regulation. Such stock or interest shall be paid for out of the General Insurance Fund, and shall be redeemed by the mortgagor at par upon the termination of all obligations of the **[Commissioner]** *Secretary* under the insurance.

(2) The mortgaged property shall be designed for use for residential purposes by personnel of the armed services and situated at or near a military installation, and the **[Secretary or his designee]** *Secretary of Defense or his designee* shall have certified that there is no intention, so far as can reasonably be foreseen, to substantially curtail the personnel assigned or to be assigned to such installation, and (i) shall have determined that for reasons of safety, security, or other essential military requirements, it is necessary that the personnel involved reside in public quarters (*Provided, however, That for the purposes of this subsection housing covered by a mortgage insured, or for which a commitment to insure has been issued under section 803 prior to the enactment of the "Housing Amendments of 1955" may be considered the same as available quarters*), and (ii) with the approval of the **[Commissioner]** *Secretary*, shall have determined that adequate housing is not available for such personnel at reasonable rentals within reasonable commuting distance of the installation and that the mortgaged property will not, so far as can reasonably be foreseen, substantially curtail occupancy in existing housing covered by mortgages insured under this Act. The housing accommodations shall comply with such standards and conditions as the **[Commissioner]** *Secretary* may prescribe to establish the acceptability of such property for mortgage insurance, except that the certification of the Secretary of Defense or his designee shall (for purposes of mortgage insurance under this title) be conclusive evidence to the **[Commissioner]** *Secretary* of the existence of the need for such housing. However, if the **[Commissioner]** *Secretary* does not concur in the housing needs as **[certified by the Secretary]** *certified by the Secretary of Defense*, the **[Commissioner]** *Secretary* may **[require the Secretary]** *require the Secretary of Defense* to guarantee the General Insurance Fund against loss with respect to the mortgage covering such housing. The **[Commissioner]** *Secretary* shall report to the Committees on Banking and Currency of the Senate and the House of Representatives each instance in which he has required the **[Secretary to guarantee]** *Secretary of Defense to guarantee* the General Insurance Fund, with reasons therefor. There are hereby authorized to be appropriated such sums as may be necessary to provide for payment to meet losses arising from such guaranty.

(3) The mortgage shall involve a principal obligation in an amount—

(A) not to exceed the amount which the **[Commissioner]** *Secretary* estimates will be the replacement cost of the property or project when the proposed improvements are completed (the cost of the property or project as such term is used in this paragraph may include the cost of the land, the physical improvements, and utilities within the boundaries of the property or project) ;

(B) not to exceed an average of ~~[\$16,500]~~ \$17,500 per family unit for such part of such property or project (including ranges, refrigerators, shades, screens, and fixtures) as may be attributable to dwelling use: *Provided*, That the replacement cost of the property or project as determined by the ~~[Commissioner]~~ *Secretary*, including the estimated value of any usable utilities within the boundaries of the property or project where owned by the United States and not provided for out of the proceeds of the mortgage, shall not exceed an average of ~~[\$16,500]~~ \$17,500 per family unit: *Provided further*, That should the financing of housing to be constructed pursuant to a single invitation for bids be accomplished by two or more mortgages, the principal obligation of any single mortgage may exceed an average of ~~[\$16,500]~~ \$17,500 per family unit if the sum of the principal obligations of all mortgages for such housing does not exceed an average of ~~[\$16,500]~~ \$17,500 per family unit: *And provided further*, That subject to the limitations of this paragraph no family unit included in any mortgaged property shall be contracted for after the date of enactment of the Military Construction Act of 1960 if the cost of such unit exceeds \$19,800; and

(C) not to exceed the bid of the eligible bidder with respect to the property or project under section 403 of the Housing Amendments of 1955.

The mortgage shall provide for complete amortization by periodic payments within such terms as the ~~[Commissioner]~~ *Secretary* shall prescribe, but not to exceed thirty years from the beginning of amortization of the mortgage, and shall bear interest (exclusive of premium charges for insurance) at not to exceed ~~[4½ per centum]~~ 5½ *per centum* per annum of the amount of the principal obligation outstanding at any time. The ~~[Commissioner]~~ *Secretary* may consent to the release of a part or parts of the mortgaged property from the lien of the mortgage upon such terms and conditions as he may prescribe and the mortgage may provide for such release. The property or project may include such nondwelling facilities as the ~~[Commissioner]~~ *Secretary* deems adequate to serve the occupants.

* * * * *

TITLE X—MORTGAGE INSURANCE FOR LAND DEVELOPMENT

DEFINITIONS

SEC. 1001. As used in this title—

* * * * *

(c) the terms “*mortgage*”, “*mortgagor*”, and “*State*” have the same meaning as in section 207 of this Act;

* * * * *

BASIC CONDITIONS FOR INSURANCE

SEC. 1002. (a) * * *

* * * * *

(c) The principal obligation of the mortgage shall (1) not exceed 75 per centum of the [Commissioner's] *Secretary's* estimate of the value of the property upon completion of the land development, and (2) not exceed the sum of 50 per centum of the [Commissioner's] *Secretary's* estimate of the value of the land before development and 90 per centum of his estimate of the cost of such development. The outstanding principal obligations of mortgages involving a single land development undertaking, as defined by the [Commissioner] *Secretary*, shall at no time exceed [\\$10,000,000] *\\$25,000,000*.

(d) The mortgage shall—

(1) [have a maturity not to exceed seven years or such longer maturity as the Commissioner deems reasonable in the case of a privately owned system for water or sewerage, and contain repayment provisions satisfactory to the [Commissioner] *Secretary*;
contain repayment provisions satisfactory to the Secretary and have a maturity not to exceed seven years, or such longer maturity as the Secretary deems reasonable (A) in the case of a privately owned system for water or sewerage, and (B) in the case of a new community approved under section 1004;

(2) bear interest at a rate satisfactory to the [Commissioner] *Secretary*, and such interest shall be exclusive of premium charges for mortgage insurance and such service charges and fees as may be approved by the [Commissioner] *Secretary*; and

(3) contain such terms and provisions with respect to protection of the security, payment of taxes, delinquency charges, prepayment, additional and secondary liens, and other matters as the [Commissioner] *Secretary* may in his discretion prescribe.

* * * * *

LAND PLANNING

Sec. 1003. * * *

NEW COMMUNITIES

SEC. 1004. (a) *New communities consisting of developments, satisfying all other requirements under this title, may be approved under this section by the Secretary for mortgage insurance if they meet the requirements of subsection (b) of this section.*

(b) *A development shall be eligible for approval as a new community if the Secretary determines it will, in view of its size and scope, make a substantial contribution to the sound and economic growth of the area within which it is located in the form of—*

(1) *substantial economies, made possible through large-scale development, in the provision of improved residential sites;*

(2) *adequate housing to be provided for those who would be employed in the community or the surrounding area;*

(3) *maximum accessibility from the new residential sites to industrial or other employment centers and commercial, recreational, and cultural facilities in or near the community; and*

(4) *maximum accessibility to any major central city in the area.*

ENCOURAGEMENT OF SMALL BUILDERS AND MODERATE COST HOUSING

SEC. [1004] 1005. The [Commissioner] *Secretary* shall adopt such requirements as he deems necessary in land development covered by mortgages insured under this title to encourage the maintenance of a diversified local homebuilding industry, broad participation by builders, *particularly small builders*, and the inclusion of a proper balance of housing for families of moderate or low income.

WATER AND SEWERAGE FACILITIES

SEC. [1005] 1006. After development of the land it shall be served by public systems for water and sewerage which are consistent with other existing or prospective systems within the area, except that the [Commissioner] *Secretary* may approve an adequate privately or cooperatively owned system which will be regulated in a manner acceptable to him with respect to user rates and charges, capital structure, methods of operation, rate of return, and conditions and terms of any sale or transfer. *In the case of a new community approved by the Secretary pursuant to section 1004, the land shall be served, after its development, by—*

(a) *public systems for water and sewerage which are consistent with other existing or prospective systems within the area; or*

(b) *existing privately or cooperatively owned systems (including reasonable extensions thereto) which are approved as adequate by the Secretary and are regulated in a manner acceptable to him; or*

(c) *if it is necessary to develop a new system and the Secretary determines that public ownership of such a system is not feasible, an adequate privately or cooperatively owned new system (1) which he finds consistent with other existing or prospective systems within the area; (2) which will be regulated, during the period of such ownership, in a manner acceptable to him with respect to user rates and charges, capital structure, methods of operation, and rate of return; and (3) regarding which he receives assurances, satisfactory to him, with respect to eventual public ownership and operation of the system and with respect to the conditions and terms of any sale or transfer.*

TITLE XI—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

INSURANCE OF MORTGAGES

SEC. 1101. (a) *The Secretary is authorized (1) to insure mortgages (including advances on such mortgages during construction), upon such terms and conditions as he may prescribe, in accordance with the provisions of this title, and (2) to make commitments for the insuring of such mortgages prior to the date of their execution or disbursement thereon. No mortgage shall be insured under this title after October 1, 1969, except pursuant to a commitment to insure issued before that date.*

(b) *To be eligible for insurance under this title, the mortgage shall (1) be executed by a mortgagor that is a group practice unit or organization, approved by the Secretary, (2) be made to and held by a mortgagee approved by the Secretary as responsible and able to service the mortgage properly, and (3) cover a property or project which is approved for mortgage insurance prior to the beginning of construction or rehabilitation and is designed for use as a group practice facility which the Secretary finds will be constructed in an economical manner, will not be of elaborate or extravagant design or materials, and will be adequate and suitable for carrying out the purposes of this title. No mortgage shall be insured under this title unless it is shown to the satisfaction of the Secretary that the applicant would be unable to obtain the mortgage loan without such insurance on terms comparable to those specified in subsection (c).*

(c) *The mortgage shall—*

(1) *not exceed \$5,000,000;*

(2) *not exceed 90 per centum of the amount which the Secretary estimates will be the value of the property or project when construction or rehabilitation is completed. The value of the property may include the land and the proposed physical improvements, equipment, utilities within the boundaries of the property, architects' fees, taxes, and interest accruing during construction or rehabilitation, and other miscellaneous charges indident to construction or rehabilitation and approved by the Secretary;*

(3) *have a maturity satisfactory to the Secretary but not to exceed twenty-five years, and provide for complete amortization of the principal obligation by periodic payments within such term as the Secretary shall prescribe; and*

(4) bear interest (exclusive of premium charges for insurance, and service charges if any) at a rate of not to exceed 5 per centum per annum of the amount of the principal obligation outstanding at any time, or not to exceed such rate (not in excess of 6 per centum per annum) as the Secretary finds necessary to meet the mortgage market.

(d) Any contract of insurance executed by the Secretary under this title shall be conclusive evidence of the eligibility of the mortgage for insurance, and the validity of any contract for insurance so executed shall be incontestable in the hands of an approved mortgagee from the date of the execution of such contract, except for fraud or misrepresentation on the part of such approved mortgagee.

(e) Each mortgage insured under this title shall contain an undertaking (in accordance with regulations prescribed under this title and in force at the time the mortgage is approved for insurance) to the effect that, except as authorized by the Secretary and the mortgagee, the property will be used as a group practice facility until the mortgage has been paid in full or the contract of insurance otherwise terminated.

(f) No mortgage shall be insured under this title unless the mortgagor and the mortgagee certify (1) that they will keep such records relating to the mortgage transaction and indebtedness, to the construction of the facility covered by the mortgage, and to the use of such facility as a group practice facility as are prescribed by the Secretary at the time of such certification, (2) that they will make such reports as may from time to time be required by the Secretary pertaining to such matters, and (3) that the Secretary shall have access to and the right to examine and audit such records.

PREMIUMS

SEC. 1102. The Secretary shall fix premium charges for the insurance of mortgages under this title, but such charges shall not be more than 1 per centum per annum of the amount of the principal obligation of the mortgage outstanding at any time, without taking into account delinquent payments or prepayments. In addition to the premium charge, the Secretary is authorized to charge and collect such amounts as he may deem reasonable for the analysis of a proposed project and the appraisal and inspection of the property and improvements. Where the principal obligation of any mortgage accepted for insurance under this title is paid in full prior to the maturity date, the Secretary is authorized to require the payment by the mortgagee of an adjusted premium charge. This charge shall be in such amount as the Secretary determines to be equitable, but not in excess of the aggregate amount of the premium charges that the mortgagee would otherwise have been required to pay if the mortgage had continued to be insured until the maturity date. Where such prepayment occurs, the Secretary is authorized to refund to the mortgagee for the account of the mortgagor all, or such portion as he shall determine to be equitable, of the current unearned premium charges theretofore paid. Premium charges fixed under this section shall be payable by the mortgagee either in cash, or in debentures which are the obligation of the General Insurance Fund at par plus accrued interest, at such times and in such manner as may be prescribed by the Secretary.

PAYMENT OF INSURANCE BENEFITS

SEC. 1103. The mortgagee shall be entitled to receive the benefits of the insurance under this title in the manner provided in subsection (g) of section 207 with respect to mortgages insured under that section. For such purpose the provisions of subsections (g), (h), (i), (j), (k), (l), and (n) of section 207 shall apply to mortgages insured under this title and all references in such subsections to section 207 shall be deemed to refer to this title.

REGULATIONS

SEC. 1104. The Secretary shall prescribe such regulations as may be necessary to carry out this title, after consulting with the Surgeon General of the Public Health Service with respect to any health or medical aspects of the program under this title which may be involved in such regulations.

ADMINISTRATION

SEC. 1105. (a) At the request of individuals or organizations operating or contemplating the operation of group practice facilities (as defined in section 1106(1)), the Secretary may provide or obtain technical assistance in the planning for and construction of such facilities.

(b) With a view to avoiding unnecessary duplication of existing staffs and facilities of the Federal Government, the Secretary is authorized to utilize available services and facilities of any agency of the Federal Government in carrying out the provisions of this title, and to pay for such services and facilities, either in advance or by way of reimbursement, in accordance with an agreement between the Secretary and the head of such agency.

DEFINITIONS

SEC. 1106. For the purposes of this title—

(1) The term "group practice facility" means a facility in a State for the provision of preventive, diagnostic, and treatment services to ambulatory patients (in which patient care is under the professional supervision of persons licensed to practice medicine in the State or, in the case of optometric care or treatment, is under the professional supervision of persons licensed to practice optometry in the State, or, in the case of dental diagnosis or treatment, is under the professional supervision of persons licensed to practice dentistry in the State) and which is primarily for the provision of such health services by a medical or dental group.

(2) The term "medical or dental group" means a partnership or other association or group of persons licensed to practice medicine or surgery in the State, or of persons licensed to practice optometry in the State, or of persons licensed to practice dentistry in the State, or of any combination of such persons, who, as their principal professional activity and as a group responsibility, engage or undertake to engage in the coordinated practice of their profession primarily in one or more group practice facilities, and who (in this connection) share common overhead expenses (if and to the extent such expenses are paid by members of the group), medical and other records, and substantial portions of the equipment and the professional, technical, and administrative

staffs, and which partnership or association or group is composed of at least such professional personnel and make available at least such health services as may be provided in regulations prescribed under this title.

(3) The term "group practice unit or organization" means—

(A) a private nonprofit agency or organization undertaking to provide, directly or through arrangements with a medical or dental group, comprehensive medical care, optometric care, or dental care, or any combination thereof, which may include hospitalization, to members or subscribers primarily on a group practice prepayments basis; or

(B) a private nonprofit agency or organization established for the purpose of improving the availability of medical, optometric, or dental care in the community or having some function or functions related to the provision of such care, which will, through lease or other arrangement, make the group practice facility with respect to which assistance has been requested under this title available to a medical or dental group for use by it.

(4) The term "nonprofit organization" means a corporation, association, foundation, trust, or other organization no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual except, in the case of an organization the purposes of which include the provision of personal health services to its members or subscribers or their dependents under a plan of such organization for the provision of such services to them (which plan may include the provision of other services or insurance benefits to them), through the provision of such health services (or such other services or insurance benefits) to such members or subscribers or dependents under such plan.

(5) The term "State" includes the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, and the District of Columbia.

(6) The term "mortgage" means a first mortgage on real estate in fee simple, or on the interest of either the lessor or lessee thereof (A) under a lease for not less than ninety-nine years which is renewable, or (B) under a lease having a period of not less than fifty years to run from the date the mortgage was executed. The term "first mortgage" means such classes of first lines as are commonly given to secure advances (including but not limited to advances during construction) on, or the unpaid purchase price of, real estate under the laws of the State in which the real estate is located, together with the credit instrument or instruments, if any, secured thereby, and any mortgage may be in the form of one or more trust mortgages or mortgage indentures or deeds of trust, securing notes, bonds, or other credit instruments, and, by the same instrument or by a separate instrument, may create a security interest in initial equipment, whether or not attached to the reality.

(7) The term "mortgagee" means the original lender under a mortgage, and his or its successors and assigns, and includes the holders of credit instruments issued under a trust mortgage or deed of trust pursuant to which such holders act by and through a trustee named therein.

(8) The term "mortgagor" means the original borrower under a mortgage and his or its successors and assigns.

UNITED STATES HOUSING ACT OF 1937

* * * * *

SEC. 16. In order to protect labor standards—

(1) * * *

(2) Any contract for loans, annual contributions, capital grants, sale, or lease pursuant to this Act shall contain a provision requiring that not less than the salaries or wages prevailing in the locality, as determined or adopted (subsequent to a determination under applicable State or local law) by the Authority, shall be paid to all architects, technical engineers, draftsmen, and technicians, employed in the development and to all maintenance laborers and mechanics employed in the administration of the low-rent housing or slum-clearance project involved; and shall also contain a provision that not less than the wages prevailing in the locality, as predetermined by the Secretary of Labor pursuant to the Davis-Bacon Act (49 Stat. 1011), shall be paid to all laborers and mechanics employed in the development of the project involved (*including a project for the use of privately built housing in any case where the public housing agency and the builder or sponsor enter into an agreement for such use before construction is commenced*), and that each such laborer or mechanic shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be; and the Authority shall require certification as to compliance with the provisions of this paragraph prior to making any payment under such contract.

* * * * *

LOW-RENT HOUSING IN PRIVATE ACCOMMODATIONS

Sec. 23. (a) * * *

* * * * *

(d) To the extent of contracts for annual contributions entered into by the Authority with a public housing agency under section 10(e), such agency may enter into contracts with the owners of structures containing dwelling units approved under subsection (c) for the use of such units in accordance with this section. Each such contract with an owner shall provide (with respect to any unit) that—

(1) the selection of tenants for such unit shall be the function of the owner, subject to the provisions of the contract between the Authority and the agency;

(2) the rental and other charges to be received by the owner shall be negotiated and agreed to by the agency and the owner, and the rental and other charges to be paid by the tenant shall be determined in accordance with the standards applicable to units in low-rent housing projects assisted under the other provisions of this Act;

(3) the agency shall have the sole right to give notice to vacate, with the owner having the right to make representations to the agency for termination of a tenancy;

(4) maintenance and replacements (including redecoration) shall be in accordance with the standard practice for the building concerned, as established by the owner and agreed to by the agency; and

(5) the agency and the owner shall carry out such other appropriate terms and conditions as may be mutually agreed to by them.

Each contract between a public housing agency and an owner entered into under this subsection shall be for a term of not less than twelve months nor more than thirty-six months (*except that it may be for a term of up to sixty months in any case in which the public housing agency determines that the housing to be leased thereunder is needed for displaced families*), and shall be renewable by such agency and owner at the expiration of such term.

* * * * *

HOUSING ACT OF 1949

* * * * *

TITLE I—SLUM CLEARANCE AND URBAN RENEWAL

* * * * *

CAPITAL GRANTS

SEC. 103. (a) * * *

(b) The [Administrator] Secretary may, with the approval of the President, contract to make grants under this title aggregating not to exceed \$4,700,000,000, which amount shall be increased by \$675,000,000 on the date of the enactment of the Housing and Urban Development Act of 1965, by \$725,000,000 on July 1, 1966, and by \$750,000,000 on July 1 in each of the years 1967 and 1968. *In addition to the authority to make grants provided in the first sentence of this subsection, the Secretary may contract to make grants under this title, or on or after July 1, 1967, in an amount not to exceed \$600,000,000: Provided, That the authority to contract to make grants provided by this sentence shall be exercised only with respect to an urban renewal project which is identified and scheduled to be carried out as one of the projects or activities included within an approved comprehensive city demonstration program assisted under the provisions of section 165(c) of the Housing and Urban Development Act of 1966.* Such grants shall not be used for major long-term capital improvement; shall not exceed two-thirds of the cost, as determined or estimated by the [Administrator] Secretary, of the project for which the grant is made; and shall be subject to such other terms and conditions as he may prescribe. The [Administrator] Secretary is authorized, notwithstanding the provisions of section 3648 of the Revised Statutes, as amended, to make advance or progress payments on account of any grant contracted to be made pursuant to this section. The faith of the United States is solemnly pledged to the payment of all grants contracted for under this title, and there are hereby authorized to be appropriated, out of any money in the Treasury not otherwise appro-

priated, the amounts necessary to provide for such payments: *Provided*, That any amounts so appropriated shall also be available for repaying to the Secretary of the Treasury, for application to notes of the [Administrator] *Secretary*, the principal amounts of any funds advanced to local public agencies under this title which the [Administrator] *Secretary* determines to be uncollectible because of the termination of activities for which such advances were made, together with the interest paid or accrued to the Secretary of the Treasury (as determined by him) attributable to notes given by the [Administrator] *Secretary* in connection with such advances, but all such repayments shall constitute a charge against the authorization to make contracts for grants contained in this section: *Provided further*, That no such determination of the [Administrator] *Secretary* shall be construed to prejudice the rights of the United States with respect to any such advance.

* * * * *

LOCAL DETERMINATIONS

SEC. 105. Contracts for loans or capital grants shall be made only with a duly authorized local public agency and shall require that—

* * * * *

(f) *All laborers and mechanics employed by contractors or subcontractors in the construction of any multifamily housing (as defined for purposes of this subsection by the Secretary of Housing and Urban Development or his designee) which may be involved in the redevelopment of the urban renewal area, and which is not subject to the provisions of section 212 of the National Housing Act or to other provisions of Federal law imposing similar standards, will be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5). No contract for loan or capital grant shall be entered into under this title with respect to an urban renewal area whose redevelopment will involve the construction of such housing without first obtaining adequate assurance that the labor standards imposed by the preceding sentence (or, in the case of housing which is subject to the provisions of section 212 of the National Housing Act or to other provisions of Federal law imposing similar standards, the labor standards imposed by such provisions) will be maintained upon the construction work. The Secretary of Labor shall have, with respect to the labor standards specified in this subsection, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276c).*

GENERAL PROVISIONS

SEC. 106. (a) * * *

* * * * *

[(d) Section 3709, as amended, of the Revised Statutes shall not apply to any contract for services or supplies on account of any property acquired pursuant to this title if the amount of such contract does not exceed \$1,000.]

* * * * *

REDEVELOPMENT AREAS UNDER THE AREA REDEVELOPMENT ACT

SEC. 113. (a) Whenever the Secretary of Commerce certifies to the [Administrator] *Secretary* (1) that any county, city, or other municipality (in this section referred to as a "municipality") is situated in an area designated under section 5 of the Area Redevelopment Act (*or under and Act supplementary thereto*) as a redevelopment area, and (2) that there is a reasonable probability that with assistance provided under such Act and other undertakings the area will be able to achieve more than temporary improvement in its economy, the [Administrator] *Secretary* is authorized to provide financial assistance to a local public agency in any such municipality under this title and the provisions of this section.

* * * * *

(d) Following the execution of any contract for financial assistance under this section with respect to any project, the [Administrator] *Secretary* may exercise the authority vested in him under this section as well as other provisions of this title for the completion of such projects, notwithstanding any determination made after the execution of such contract that the area in which the project is located is no longer a redevelopment area under the Area Redevelopment Act (*or Act supplementary thereto*).

SENATE

1. RECREATION. The Interior and Insular Affairs Committee reported with an amendment H. R. 7524, to establish the Oregon Dunes National Seashore (S. Rept. 1437). p. 17813
2. DEMONSTRATION CITIES. The Banking and Currency Committee reported an original bill, S.3708, the demonstration cities and metropolitan development bill (S. Rept. 1439). p. 17813

3. RECLAMATION. Passed as reported S. 553, to consent to the Upper Niobrara River Compact between Wyo. and Nebr. pp. 17819-21
4. WILDLIFE. The Commerce Committee voted to report (but did not actually report) H. R. 9424, to provide for a program of conservation and protection of fish and wildlife threatened with extinction and to consolidate the authorities relating to Interior administration of the national wildlife refuge system. p. D732
5. LANDS. The Commerce Committee voted to report (but did not actually report) S. 476, to increase authorizations for the construction of airports in or in close proximity to national parks, national monuments, and national recreation areas. p. D732
6. CIGARETTE LABELING. Sen. Proxmire was added as a cosponsor of S. 3654, to strengthen the Federal Cigarette Labeling and Advertising Act. p. 17819
7. APPROPRIATIONS. Began debate on H. R. 14921, the independent offices appropriation bill. pp. 17842-78
This bill, as reported (see Digest 127), authorizes 2-year participations in obligations for departments and agencies under the Participation Sales Act, including \$600 million for the Farmers Home Administration. The bill also contains new language creating an indefinite appropriation for payment of participation sales insufficiencies, where payments to the holders of participation certificates exceed the payments received on the loans involved. In addition, the bill includes items for the Office of Emergency Planning, President's disaster relief, Office of Science and Technology, Appalachian Regional Commission, Civil Service Commission, Federal Power Commission, Federal Trade Commission, General Accounting Office, General Services Administration, Interstate Commerce Commission, National Science Foundation, Department of Housing and Urban Development, etc. The committee reduced the estimate for Federal agencies' civil defense and defense mobilization by \$950,000 and said "many of these functions are performed along with the normal functions of the agencies and do not require additional funds."
8. NATIONAL SERVICE. Sen. Javits spoke in favor of establishing a National Service Board to replace the Selective Service System and inserted an article, "The Case for a National Service Corps." pp. 17821-3
9. SCHOOL MILK. Sen. Proxmire expressed concern that rising prices might hurt the school milk program by greatly reducing the amount of milk able to be purchased under the present appropriations bill. p. 17826
10. CONTRACTS. S. Doc. 99, "Operation and Effectiveness of Government Boards of Contract Appeals," is a report which was prepared for the Small Business Committee by Harold C. Petrowitz, an American University professor. The analysis and recommendations do not necessarily reflect the views of Committee members.
11. INFLATION. Sen. Pearson commended and inserted an article, "Why We Must Stop Inflation Now." pp. 17830-2
12. ELECTRIFICATION. Sen. Mundt inserted a letter from the manager of an REA cooperative defending REA cooperatives against Drew Pearson's charges and "inaccuracies." p. 17838

DEMONSTRATION CITIES AND METROPOLITAN
DEVELOPMENT ACT OF 1966

AUGUST 9, 1966.—Ordered to be printed

Mr. MUSKIE, from the Committee on Banking and Currency, submitted the following

REPORT
together with
MINORITY VIEWS

[To accompany S. 3708]

The Committee on Banking and Currency, having considered the same, report favorably a committee bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes, and recommend that the bill do pass.

INTRODUCTION

The Subcommittee on Housing held hearings on April 19, 20, 21, 22, 25, 26, 27, 28, and 29, 1966, to consider approximately 50 bills and amendments relating to the various housing programs and other matters dealing with mortgage finance. Among the bills considered were the proposed Demonstration Cities Act of 1966 and the proposed Urban Development Act. The hearings resulted in a printed record of over 1,200 pages. Subsequently, the subcommittee met in executive session on July 12 and 13 and July 26 and 27 to consider these measures, the testimony received during the hearings, and other matters presented to it in connection with 1966 housing legislation. At the conclusion of these sessions the subcommittee made its recommendations for 1966 housing legislation to the full committee in three separate proposals—Demonstration Cities and Metropolitan Development Act of 1966, amendments to the Urban Mass Transportation Act of 1964, and the Housing and Urban Development Act of 1966. At the executive session on August 3, 1966, the committee considered the subcommittee's recommendations and other proposals, and four original bills were

approved by the committee: FNMA amendments of 1966, Demonstration Cities and Metropolitan Development Act of 1966, amendments to the Urban Mass Transportation Act of 1964, and the Housing and Urban Development Act of 1966.

Despite the numerous Federal programs to help the Nation's cities rebuild and restore slum and blighted areas, the progress has not kept pace with the accelerating problems. Part of the difficulty has been a failure of many cities to take full advantage of available programs and to utilize fully local initiative and resources in conjunction with Federal programs. The other consistent problem has been the shortage of local funds to enable the city to do the kind of comprehensive job needed to clear away the slums, rebuild and restore the area, and provide the services needed to improve the general welfare of the people living in the area. Furthermore, most of the existing Federal housing and urban development programs provide assistance for the physical renewal of the area without sufficient recognition of the necessity for action to improve the welfare of the residents affected by the renewal. The Demonstration Cities and Metropolitan Development Act of 1966 is designed to meet these needs.

WHAT THE BILL WOULD DO

The demonstration cities and metropolitan development bill has three titles—Title I: Comprehensive City Demonstration Programs; title II: Planned Metropolitan Development; and title III: Urban Information and Technical Assistance Services.

All three titles have a consistent purpose of providing additional Federal assistance to help cities and metropolitan areas make effective use of existing housing and urban development programs in order to make more significant progress toward the accomplishment of the national housing policy of a decent home and a suitable living environment for every American family. This would be done by the bill in two ways: (1) Better coordination of existing programs—Federal, State, and local; and (2) additional Federal financial assistance to be used by the locality for activities which supplement existing programs.

Title I of the bill would establish a new city demonstration program of Federal grants and technical assistance to help provide the incentive and the financial means for a city to plan and carry out a program for rebuilding and restoring entire sections or neighborhoods of slum and blight and to improve the general welfare of the people in such areas.

The demonstration city approach places maximum dependence upon the locality and its officials to plan and carry out the program. The Federal Government will help with technical and financial assistance, but it will be limited to those cities presenting imaginative and effective ways of dealing with the physical and social problems of slum and blighted areas.

The financial assistance will be in two forms—planning assistance and program assistance. Planning assistance will be on an 80 percent Federal grant basis with the city making up the other 20 percent of cost. For this purpose the bill authorizes an appropriation of \$12 million a year for each of 2 years, fiscal years 1967 and 1968.

The program assistance would provide supplementary financial aid to cities to carry out activities in addition to those already provided under existing Federal law. The supplementary aid will be computed in each case on a formula related to local contributions to Federal programs involved in the project. Under the committee bill the program assistance for any project would be a maximum of 80 percent of the total non-Federal contributions made on all projects under existing Federal law which are being carried out as part of the city demonstration program. The supplemental grant could not be used to reduce local expenditures on existing projects or activities or to reduce the local effort for similar activities. The bill calls for a 2-year authorization of \$400 million for fiscal 1968 and \$500 million for fiscal 1969. The 2-year authorization is consistent with administration estimates for a 5-year program.

Under this title, the urban renewal grant authority would be increased by \$250 million to be used for projects included within a city demonstration program.

Title II calls for improved coordination of Federal activities in metropolitan areas requires minimum standards of planning and coordination by local governments in such areas, and authorizes supplementary Federal grants to State and local public bodies for metropolitan development projects as incentives for adequate metropolitanwide comprehensive planning and adherence to such planning. The supplementary grant would be authorized only for those metropolitan areas which have met standards for comprehensive planning on a metropolitanwide basis. The grant would be made to the public body sponsoring the metropolitan development project. It would amount to a maximum of 20 percent of the cost of the project. In no case could the total grant (the basic grant plus the supplementary grant) exceed 80 percent of the project cost nor could the supplementary grant exceed the basic grant.

The benefits of this title are for projects in a standard metropolitan statistical area, which is defined by the Bureau of the Budget as the area in and around a city of 50,000 population or more. The projects to be benefited are generally of a public works nature but are listed in detail in the bill. The authorization under the bill is a maximum of \$25 million for fiscal year 1967 and \$50 million for fiscal year 1968.

Title III of the bill is designed to help local communities make better use of Federal urban assistance programs by authorizing Federal grants to States and metropolitan area agencies to help finance information centers and technical assistance centers to serve metropolitan areas and small communities throughout the State. The grant could not exceed 50 percent of the cost of the activity. The bill authorizes an appropriation not to exceed \$5 million for fiscal year 1967 and \$10 million for fiscal year 1968.

MAJOR PROVISIONS OF THE BILL

TITLE I—COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

Title I of the bill would establish a new program of Federal assistance to help cities plan, administer, and carry out coordinated physical and social renewal programs to improve the environment and the general welfare of people living in slum and blighted areas of cities of all sizes in all parts of the country.

THE PROBLEM

The great problems confronting the Nation's cities are well known. Slums and blight are widespread. There are over 7 million homes in urban areas that are run down or deteriorated. More than 3 million do not have adequate plumbing or hot and cold running water. In many of our central cities entire sections and neighborhoods are in need of major surgery to overcome decay.

Increasingly the old, the poor, and the underprivileged are concentrated in these slum and blighted areas of the central city. As slums and blight spread, crime, delinquency, want, and disease follow. While the need for city services grows, the city's ability to provide these services is impaired by the very blight that creates the demand.

More blight, greater demand for city services, decreasing revenues to meet the demand—that is the descending spiral confronting many American cities.

Significantly, the independent efforts of cities to help themselves are in large measure self-defeating. The more determined the city's effort to raise funds to meet the need for increased services, the more likely that effort drives its affluent citizens to the nearby suburbs. Similarly, the greater tax burden the city places on industry within its borders, the less its opportunity to attract and hold the industry and commerce its economy requires. So the city becomes, increasingly, a home for the economically deprived, those least able to bear the cost of municipal services. It is not surprising that the cities with the greatest slum problems often have the least capacity to deal with those problems.

Our cities have made great efforts to cope with their problems. Between 1954 and 1963, municipalities increased their tax revenues by 43 percent, and local government indebtedness increased by 119 percent. With the limited sources of revenue available to them, the cities have waged a heroic battle against problems which are overwhelming them.

But resources needed to solve the problems of slum and blight, ignorance and disease, poverty and despair, crime and delinquency, cannot come from city taxes alone. We must bring to bear national resources. The city plays a critical role in American life. The suc-

cess of the city in providing the physical and social framework through which millions of poor and disadvantaged Americans are prepared to participate fully in the Nation's life is a vital national concern.

We have a long tradition of Federal assistance to our cities. Initially this assistance emphasized physical renewal. Gradually we have learned that physical renewal alone cannot eliminate the hard-core causes of urban poverty and blight. In recent years Congress has developed programs of social renewal and imaginative new approaches to the problems of poverty, disease, ignorance, and despair. But these programs have not been coordinated adequately.

By means of the comprehensive city demonstration programs authorized by title I of this bill, Federal programs of physical and social assistance to our cities can be meshed and coordinated in a comprehensive effort. Through a comprehensive city demonstration program the full arsenal of existing Federal grant-in-aid programs can be brought to bear on urban problems. This should make possible an interaction and focusing of existing Federal grant-in-aid programs which heretofore has been sadly lacking.

Title I of the committee bill reported to the Senate is designed to carry out President Johnson's recommendations for city demonstration programs expressed in his message of January 26, 1966. The bill reported by the committee places additional emphasis on local initiative in developing new and imaginative ways of dealing with the physical and social problems of slum and blighted areas. The bill reported by the committee also stresses the need for cooperation and coordination by Federal departments and agencies in the administration of comprehensive city demonstration programs.

In addition, the bill reported by the committee has considerably tightened the grant formula in the demonstration program to insure that (1) the base for the supplemental grants authorized by the bill will not be distorted by the use of irrelevant projects, (2) supplemental grant funds provided will not be dissipated on projects not essential to the program, (3) supplemental grants will not be used to replace local contributions which had been committed to Federal grant-in-aid projects before application for assistance to plan a comprehensive demonstration program was filed, and (4) supplemental grants will not be used for general administration costs of the city.

In his message to the Congress recommending the demonstration cities program, the President said:

From the experience of three decades, it is clear to me that American cities require a program that will—

Concentrate our available resources—in planning tools, in housing construction, in job training, in health facilities, in recreation, in welfare programs, in education—to improve the conditions of life in urban areas.

Join together all available talent and skills in a coordinated effort.

Mobilize local leadership and private initiative, so that local citizens will determine the shape of their new city * * *.

The demonstration cities program authorized by title I of the bill would make it possible for cities of all sizes, and in all sections of the country, to undertake such a program.

COMPREHENSIVE CITY DEMONSTRATION PROGRAM

A "comprehensive city demonstration program" is a locally prepared and scheduled program for rebuilding or restoring entire sections and neighborhoods of slum and blighted areas by the concentrated and coordinated use of all available Federal aids together with local private and governmental resources. It will include citywide aids and resources necessary to improve the general welfare of the people living or working in these areas. It will make it possible to treat the social needs of people in the slums in conjunction with physical rehabilitation.

This is to be a local program, planned and carried out by local people, and based on local judgment as to the city's needs and its order of priorities in meeting these needs.

The assistance provided by title I of the bill would help cities of all sizes and in all sections of the country to plan, develop, and carry out such comprehensive city demonstration programs. It would provide funds needed for the city to participate in existing Federal assistance programs. It would encourage the cities to focus and coordinate projects and activities for which assistance is now available under existing Federal programs with other public and private actions to provide the most effective and economic concentration of Federal, State, local, and private efforts to improve the quality of urban life.

FEDERAL ASSISTANCE PROVIDED

Federal funds would cover up to 80 percent of the cost of planning and developing comprehensive city demonstration programs. Federal grants would also pay up to 80 percent of the cost of administering every project or activity which is included as part of these programs (but not the cost of administering any project or activity for which Federal financial assistance is provided under an existing grant-in-aid program).

In addition, two types of Federal assistance would be available to help finance projects or activities that are included as part of an approved comprehensive city demonstration program.

First, to the extent such projects or activities are eligible for assistance under an existing Federal grant-in-aid program, they may be financed under that program. This bill contemplates that existing Federal grant-in-aid programs—and funds now available for those programs—will be utilized, where feasible, in carrying out projects or activities that, though part of a comprehensive city demonstration program, are eligible for assistance under existing grant-in-aid programs.

It is expected that the demonstration cities program will stimulate a new and sharper focusing of activities assisted under existing grant-in-aid programs and far greater coordination in their use. More effective use of existing grant-in-aid programs by cities is a key goal of the demonstration cities program.

The fact that a particular project or activity, eligible for assistance under an existing Federal grant-in-aid program, is undertaken as part

of a comprehensive city demonstration program will in no way affect its eligibility requirements for assistance under the existing grant-in-aid program. The city will apply to the agency which administers the grant-in-aid program and the application will be subject to all the existing rules, regulations, and priorities governing that grant-in-aid program.

Second, special grants, supplementing the assistance available under existing grant-in-aid programs, would be provided under the demonstration cities program to—

- (1) Provide funds to carry out new and additional projects or activities that are part of the demonstration program and for which no assistance is presently available under Federal grant-in-aid programs, and

- (2) To the extent that these special grants are not needed to support such new and additional projects and activities, they may be used to assist cities to provide their required share of the cost of projects or activities that are part of the demonstration program and are funded under existing Federal grant-in-aid programs.

The amount of this special—supplemental—demonstration cities grant would be up to 80 percent of the total non-Federal contributions required to be made to all projects or activities assisted by existing Federal grant-in-aid programs which are carried out as part of a comprehensive city demonstration program.

The required non-Federal contribution to every project or activity carried out in connection with an approved comprehensive city demonstration program, and funded under an existing Federal grant-in-aid program, would serve as a base for computing the special supplemental grant under the demonstration cities program. It does not matter whether or not the Federal commitment to assist in financing the particular project or activity under an existing grant-in-aid program occurred sometime before the comprehensive city demonstration program is approved. So long as the activity financed by the existing grant-in-aid program is closely related to the physical and social problems in the area or areas of the city covered by the demonstration program and can reasonably be expected to have a noticeable effect upon such problems, and is carried out in connection with the approved city demonstration program, the non-Federal contribution to that project or activity can serve as a base for the grant computed under the demonstration cities program.

The bill would require that the specific amount of any grant take into account the number and intensity of the economic and social pressures in the sections or neighborhoods involved—such as those involving or resulting from population density, poverty levels, unemployment rate, public welfare participation, educational levels, health and disease characteristics, crime and delinquency rate, and degree of substandard and dilapidated housing.

As in other Federal grant programs, advance payments of the amount of the grant could be made to finance the activities for which the grant is to be provided.

USE OF SUPPLEMENTAL GRANT PROVIDED FOR DEMONSTRATION PROGRAMS

The supplemental grant funds authorized to be paid to comprehensive city demonstration programs are not “earmarked” for any one

specific project or activity carried out as part of the demonstration program. After the amount of the supplemental grant funds available to the city is established under the formula in the bill, the total amount will be available to the city to be used to assist those projects and activities included within the comprehensive city demonstration program which are not otherwise assisted under an existing Federal grant-in-aid program. To the extent that these supplemental grant funds are not necessary to support such projects and activities, they may be used by the cities to provide their required share of the cost of new projects or activities included within the comprehensive city demonstration program and assisted under an existing Federal grant-in-aid program.

MAINTENANCE OF EFFORT

The supplemental grant funds authorized by the bill to be provided for comprehensive city demonstration programs are not to be used for the general administration of local governments, or as a substitute for local funds being used, or already obligated, to rebuild and restore slum and blighted areas and provide community facilities and services to their residents. Accordingly, the bill requires as a condition to receiving assistance for an approved comprehensive city demonstration program, that the city not reduce, during the period an approved program is carried out, its prior level of aggregate expenditures for projects or activities similar to those being assisted under the demonstration program. In addition, supplemental grant funds authorized by the bill may not be used to replace non-Federal contributions obligated, prior to the filing of the application for a grant for planning the demonstration program, to be spent for a project or activity which is included within a comprehensive city demonstration program but for which Federal financial assistance is being provided under an existing Federal grant-in-aid program.

In other words, for the purpose of determining the amount of the supplemental grant funds which may be paid to help carry out the comprehensive city demonstration program, every non-Federal contribution made, or obligated, to a federally assisted project or activity which is carried out in connection with the demonstration program, may be counted as part of the base of non-Federal contributions upon which the supplemental grant is calculated. However, these supplemental grant funds may not be used to replace non-Federal contribution made or obligated to the federally assisted project or activity included within the demonstration program prior to the filing of the application for a grant for planning the demonstration program.

PREPARING A COMPREHENSIVE CITY DEMONSTRATION PROGRAM

A. City demonstration agency

The Federal assistance authorized by the demonstration cities program would be provided to a "city demonstration agency." The "city demonstration agency" may be the city or any local public agency established or designated by the local governing body, including one or more municipalities, counties, or other public bodies having general governmental powers, to administer the comprehensive city demonstration program.

The city demonstration agency, therefore, may be a public agency created for the purpose of administering the demonstration program

or it may be an existing local public agency assigned this responsibility. A very wide range of administrative organizations are permissible so long as the structure serving as the city demonstration agency constitutes a public body which is subject to the control of the local governing body.

Whatever the administrative organization of the city demonstration agency, it must have the endorsement and support of the elected officials of the city and the agency must have sufficient power and authority to undertake the overall administration of the demonstration program.

This does not mean that the city demonstration agency must assume operational control of all projects and activities which are a part of the local demonstration program. The city demonstration agency could utilize the capabilities of other local public and private bodies and agencies. For example, to the extent urban renewal activities are a part of the demonstration, the existing urban renewal agency would carry out such projects. School boards would continue to direct educational activities in the demonstration area. The function of the city demonstration agency would be to obtain the cooperation of all participants and receive their agreement to a concentrated and coordinated effort.

B. Planning and developing the city demonstration program

The city demonstration agency would apply to the Secretary of Housing and Urban Development for a grant to pay 80 percent of the cost of planning and developing the comprehensive city demonstration program. The application for this grant must have the approval of the local governing body of the city and would show in broad and general terms the nature and seriousness of the city's problems and the outlines of what the city intends to do. Before he makes a grant to plan a comprehensive city demonstration program, the Secretary of Housing and Urban Development must determine that there exist (1) administrative machinery through which coordination of all related planning activities of local agencies can be achieved, and (2) evidence that necessary cooperation of agencies engaged in related local planning can be obtained.

The bulk of the effort during the planning and development period would be spent in refining the program elements of the initial proposal and developing their interrelationships, working out organizational arrangements, and scheduling and budgeting program activities. During the hearings before the Housing Subcommittee, the Secretary of Housing and Urban Development testified that the planning and development period will generally not require more than 6 to 8 months, and perhaps less time. Much information in terms of needs identification will already be available. Many cities in a position to qualify as a demonstration city will already have undertaken a community renewal program, will have a community action agency which will have already collected data on social problems and needs, and will have a well-developed physical master plan and capital improvements program.

Completed plans for comprehensive city demonstration programs would be reviewed by the Secretary of Housing and Urban Development to determine that they satisfy the statutory criteria for demonstration programs.

Demonstration programs need not be limited to a single geographically delineated demonstration area in which slum and blight are to be removed or arrested. Rather, there may be several such areas of varying sizes in the city.

In addition, a wide variety of activities that serve the demonstration program, no matter where located, may be included in the demonstration.

For example, a hospital or vocational school which serves the needs of residents of slum and blighted areas may be a part of the city's program though constructed in a section of the community not requiring clearance or rehabilitation treatment. Similarly, in some instances providing housing for families displaced from slum and blighted areas may involve construction activities outside of the slum and blighted areas in a wholly different portion of the community.

Grant funds provided under this legislation will, therefore, be available for certain communitywide activities, and the cities will be expected to study the effect and impact of their programs with a view to the well-being of the entire community.

CONTENT OF DEMONSTRATION PROGRAM

To qualify for assistance under title I of the bill, a city must be prepared to embark on major new undertakings addressed to major urban problems. The demonstration cities program is designed to help those cities willing to face up to their responsibilities, willing and able to bring together all the public and private bodies whose joint action is necessary to solve their problems, willing to fully commit their energy and resources, and willing to undertake actions which will have widespread and substantial effects on the social and physical structure of the city.

A demonstration program must meet the following criteria:

First, the physical and social problems in the area of the city covered by the program must be such that a comprehensive city demonstration program is necessary to improve the physical environment, increase the supply of adequate housing for low- and moderate-income people, and provide educational and social services vital to the public health and welfare.

This requirement is designed to assure that the area selected by the city has physical and social problems the solution of which require the degree of concentrated and coordinated public investment provided by a comprehensive city demonstration program. At least a part of the area should consist of what would generally be regarded as hard-core slums in which low-income families are concentrated. It must be administered with sufficient flexibility to permit a city to concentrate its program in those neighborhoods in which the city believes there exist the best opportunities for helping its disadvantaged people and receiving maximum economic and social returns on its investment.

Second, the demonstration program must be of sufficient magnitude (1) to make a substantial impact on the social and physical problems and to remove or arrest blight and decay in entire sections or neighborhoods; (2) to contribute to the sound development of the entire city; (3) to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness;

and (4) to provide educational, health, and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum employment opportunities for residents of the area in all phases of the program, and enlarged opportunities for work and training.

These criteria will require a demonstration program to deal with sections or neighborhoods which contain a substantial percentage—as much as 15 to 20 percent—of the substandard dwelling units in the city. They will require that the program include the social components necessary to serve the substantial percentage of the cities' poverty households, welfare caseload families, illiterates, and unemployed who reside in the sections or neighborhoods covered by the demonstration program.

Many of the educational and social services which must be part of the demonstration program can be provided under community action programs supported by the Office of Economic Opportunity, and educational and other programs supported by the Department of Health, Education, and Welfare. The development of job skills, and on-the-job training can be provided with the assistance available under the program of the Department of Labor. Opportunities for employing residents in the program can be provided through appropriate arrangements with lending institutions, private construction firms, and labor unions involved and the rehabilitation and construction activities that are part of the program.

Third, the program, including rebuilding or restoration, must contribute to a well-balanced city with a substantial increase in the supply of standard housing of low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all income levels, adequate public facilities (including those needed for education, health and social services, recreation, and transportation), commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment.

Existing Federal grant-in-aid programs can be utilized to help fulfill the requirement of these criteria. For example, the existing Federal grant-in-aid program for neighborhood facilities can help in the provision of physical facilities needed to house many social services and the existing mass transit program may finance needed transportation facilities. The Elementary and Secondary Education Act may provide needed educational services.

These criteria are designed to assure that the demonstration area is not treated as a special enclave apart from the rest of the city. What is done in the demonstration area must be regarded as a part of the overall improvement of the city. A "well-balanced city" is one which contains a mixture of the facilities and services needed to serve the diverse groups living and working in the city. It implies a variety of housing types, sizes, and prices to provide an adequate range of choice for all who want to live in the city. It implies adequate and convenient commercial facilities to serve the needs of the residents. It implies adequate job opportunities and a transportation system to permit ready movement between residence and shopping and working areas. It implies adequate public facilities, including parks and other recreational facilities. In sum, a "well-balanced city" is one which provides the full range of services and opportunities which any citizen can expect as a part of city living.

The substantial increase in the supply of low- and moderate-cost housing required by these criteria will generally involve use of the public housing program and the rent supplement program, as well as a substantial amount of rehabilitation of existing housing. Clearance of structures will play a significant part in many demonstration programs, and considerable new construction of low-income housing will be necessary. However, a great amount of rehabilitation and reconstruction in the area will be essential to provide sufficient additional low-income housing and minimize dislocation of families and businesses.

Very often, rehabilitation and improvement of substandard and deteriorating units can make them suitable. Some units require relatively minor repairs; others require considerable rehabilitation. In some instances rehabilitation can be carried on without any displacement of occupants. In many areas temporary relocation in the neighborhood can be arranged, and in some instances relocation to another neighborhood will be necessary.

Fourth, the city's program must be more than a statement of goals. It must be a definite plan of action. Projects and activities to be undertaken must be scheduled and ready for initiation within a reasonably short period of time. In addition, the criteria require that (1) the local governing body has approved the program and, where appropriate, application for assistance under the program; (2) adequate local resources are, or will be, available for the completion of the program as scheduled; (3) agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation; (4) administrative machinery is available at the local level for carrying out the program on a consolidated and coordinated basis; (5) local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program; (6) the demonstration program include a plan for relocating individuals, families, business concerns, and nonprofit organizations displaced or to be displaced in carrying out the program; and (7) the demonstration program be consistent with comprehensive planning in the entire urban or metropolitan area.

These criteria require that a local proposal for a demonstration program indicates both the resources currently available and those resources which can reasonably be expected to be available during the course of carrying out the demonstration.

Agencies whose cooperation is necessary to the success of the program will be expected to make reasonable commitments to the extent such commitments are feasible. Obviously, a school board could not commit itself to the construction of a school if such construction were dependent upon a future bond election. However, cooperating agencies will be expected to pledge their support of the program and their intent to carry out necessary actions to the fullest extent they can.

No specific administrative structure is necessary to meet the requirements of the criteria. The city is free to devise its own administrative machinery and it is likely that few administrative structures will be exactly the same. All that will be required is that the machinery devised be adequate to carry out the program on a concentrated and coordinated basis and that sufficient authority and power exist to assure that the demonstration program can be carried out as proposed.

The relocation plan required by the criteria must provide concrete evidence that there will be available for families who are displaced decent, safe, and sanitary housing within their economic means. In addition, adequate provision must be made for assistance and relocation payments to families, business concerns, and nonprofit organizations displaced as a consequence of a city demonstration program. The relocation activities are to be coordinated, to the maximum extent feasible, with the contemplated increase in the housing supply for the entire city in order to maintain the available supply of decent, safe, and sanitary housing for people of low and moderate income.

The relocation provisions included in the demonstration cities program would make available to those displaced by any activity undertaken as part of a demonstration program relocation aids and benefits as liberal as those now provided in the urban renewal program. Where relocation payments authorized in existing Federal programs utilized in connection with the demonstration program are less than now authorized in the urban renewal program, demonstration grant funds will supplement the relocation payments authorized in these existing programs to make up the difference.

The requirements imposed by the criteria with respect to comprehensive planning recognize that central cities are the economic and cultural cores of larger urban or metropolitan areas. Their activities affect the entire urban or metropolitan area. And the cities, in turn, are affected by activities undertaken in the entire area. No element of rational urban development is more important than the carrying on of sound comprehensive planning for entire urban and metropolitan areas. Cities will be expected to continue to cooperate with other governmental bodies in the metropolitan area to assure and promote sound community growth.

Fifth, the comprehensive city demonstration program must meet such additional requirements as the Secretary may establish to carry out the purposes of the program authorized by title I of the bill.

This customary general provision has two purposes: (1) To serve as a base for procedural requirements which would be inappropriate for inclusion in legislation; and (2) to permit the closing of unforeseen loopholes. The committee does not intend that this provision be used to impose substantive criteria unrelated to those prescribed in the bill.

ACTIONS EXPECTED OF THE SECRETARY

The bill requires that in implementing the demonstration program, the Secretary of Housing and Urban Development shall—

- (1) Emphasize local initiative in the planning, development, and implementation of comprehensive city demonstration programs;

- (2) Insure, in conjunction with other appropriate Federal departments and agencies and at the direction of the President, maximum coordination of Federal assistance provided in connection with this title, prompt response to local initiative, and maximum flexibility in programing, consistent with the requirements of law and sound administrative practice; and

- (3) Encourage city demonstration agencies to (A) enhance neighborhoods by applying a high standard of design, (B) main-

tain, as appropriate, natural and historic sites and distinctive neighborhood characteristics, and (C) make maximum possible use of new and improved technology and design, including cost reduction techniques.

The committee wish to stress that the demonstration program is based on local initiative, and local responses to local problems. The bill requires, and the committee intends, that a city's comprehensive demonstration program be planned, developed, and carried out by local people. The character and content of the program must be based on local judgment as to the city's needs.

The committee is aware that the demonstration program will require far more effective coordination of existing Federal programs than has been achieved in the past. The committee expects the Secretary to utilize his existing authority to assure that cities' comprehensive demonstration programs are not disrupted by a failure to coordinate activities under existing Federal grant-in-aid programs.

Massive rebuilding and restoration programs provide unique opportunities for applying the fruits of our technological advances to the home building and rehabilitation industries. The committee expects the Secretary to require maximum use of such advances in the construction and rehabilitation of homes and buildings. In addition, the committee expects the Secretary to encourage city demonstration agencies to make greater efforts to make new and existing structures as fresh and attractive as possible.

PARTICIPATION IN THE PROGRAM

The ultimate success of this new program rests upon the ability of local people to assess their own most pressing problems and devise their own solutions to those problems. The cities themselves, by their actions, will determine which of them participate in this program. Those cities which can concentrate their resources, identify their problem areas, and develop sound imaginative solutions will be the first to qualify.

But all cities will benefit from the solutions to urban problems developed through the demonstration cities approach. Your committee is confident that every city will ultimately use this "total attack" approach to solve its urban problems.

The committee intends that the assistance provided by title I of the bill be given to cities of all sizes and in all parts of the country. This will enable the program to demonstrate the wide range of methods available to deal with the diversity of problems that face cities of all sizes throughout the country.

The committee expects the Secretary to take into account the special needs of smaller cities that do not ordinarily have the staff of technicians and experts which would enable them to move quickly under a program of this nature. In reviewing the content of a proposed demonstration program of the smaller cities, the committee expects that the Secretary will understand that, because of the small size and particular circumstances, many cities do not have all of the problems to which the criteria in title I of this bill are directed. The committee expects that the demonstration program of a smaller city will be deemed adequate to meet the criteria of title I of this bill if the program proposed is of such magnitude and includes such social services

and activities, as are appropriate to its size and particular circumstances.

ADDITIONAL URBAN RENEWAL GRANT AUTHORITY

During the hearings on the bill as introduced, it became clear that the urban renewal program would be the principal existing Federal grant-in-aid program utilized in connection with cities' demonstration programs. Fears were expressed by a number of witnesses that cities participating in the demonstration program would drain off large amounts of existing urban renewal grant authorization.

The committee believed that additional urban renewal authorization was justified to assure that the demonstration cities program would not use a disproportionate amount of existing urban renewal grant authority to the detriment of cities which do not participate in the program, particularly small towns. To avoid this the bill authorizes \$250 million in new additional urban renewal grant authority which would be available after July 1, 1967, for urban renewal projects which are identified and scheduled to be carried out as one of the projects or activities included within approved city demonstration programs.

The committee wishes to stress, however, that the comprehensive city demonstration program is not intended to be used simply as a means of accelerating urban renewal projects. The program is designed to place in better balance social and physical renewal programs aimed at meeting the needs of people living in slum and blighted areas.

Your committee also wishes to make very clear its intent that the demonstration cities program will not in any way change the flow of funds, as among cities, under existing grant-in-aid programs. The demonstration cities program does not provide any priority in the use of existing Federal grant-in-aid programs for cities which participate in the demonstration program. The demonstration cities program contemplates that the funds that would normally flow to participating cities from existing grant-in-aid programs, plus the additional—supplemental—grant funds authorized by title I of this bill, will finance the demonstration programs.

COST OF THE PROGRAM

The administration proposed an open end authorization for appropriations of the sums necessary to carry out the demonstration program.

The President's message transmitting the program to the Congress indicated recommended appropriations, over a 6-year period, totaling over \$2.3 billion.

Title I of the bill reported by the committee would authorize appropriations of not to exceed \$12 million for financial assistance for planning comprehensive programs for the fiscal year ending June 30, 1967, and an equal amount for the fiscal year ending June 30, 1968. The committee believes that \$12 million would be adequate to finance planning by 60 to 70 cities which is the estimated number of participants contemplated in the first year of the program. The committee desired to authorize planning funds for those additional cities which may be ready to begin planning demonstration programs during fiscal 1968.

For the purpose of providing the supplemental grants needed to

carry out the comprehensive demonstration programs planned by the cities, the committee has authorized to be appropriated not to exceed \$400 million for the fiscal year ending June 30, 1968, and not to exceed \$500 million for the fiscal year ending June 30, 1969. The committee believes that these authorizations are adequate to fund this program over the next 2 years. The funds authorized are consistent with the expenditure estimates provided by the administration.

During this period, the committee and the Congress will have an opportunity to evaluate the experience under this program. If it is as successful as the committee expects it to be, the committee and the Congress can provide—on the basis of plans submitted by the cities, the progress of activities under demonstration programs being carried out, and the budgetary situation existing at the time—a continued reasonable annual rate of funding for this program.

The committee wishes to stress that (except for \$12 million for planning demonstration programs) the funds authorized by title I of this bill cannot be spent until after July 1, 1967.

PREVAILING WAGE REQUIREMENTS

All projects included within a comprehensive city demonstration program and assisted under an existing grant-in-aid program are subject to those provisions in the statute authorizing the existing grant-in-aid program which require the payment of wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor.

In addition, title I of the bill requires that all laborers and mechanics employed by contractors or subcontractors on projects, the construction, rehabilitation, repair, or alteration of which is assisted with Federal funds provided under the demonstration cities program (and which are not subject to any other provision of Federal law imposing labor standards) shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor. Projects which are not assisted under an existing Federal grant-in-aid program, other than the demonstration cities program, and involving the construction, rehabilitation, alteration, or repair of residential property, are subject to the labor standards provisions of title I of the bill only if such residential property is designed for use for eight or more families.

TITLE II—PLANNED METROPOLITAN DEVELOPMENT

BACKGROUND

Today, 125 million Americans—two-thirds of our total population—live in metropolitan areas. Twenty years from now we will have added, according to conservative estimates, 54 million people to our metropolitan population, the great bulk of them in suburban areas. This is the equivalent of adding 5 New Yorks or 27 Washingtons.

Federal, State, and local governments will be spending, over this period, billions of dollars for basic services for these areas—for schools, highways and other forms of transportation, parks, sewer and water systems, and the other community facilities for which supplementary grants would be provided. Careful and effective planning can greatly reduce the capital costs of these services and can, in addition, make

great contributions to our goal of a suitable living environment for every American family.

Evolution of Federal planning policies

During the past 17 years, the Federal Government has increasingly supported planned urban development.

Under the Housing Act of 1949, slum clearance and urban redevelopment projects were required to be consistent with local plans for the municipality as a whole.

The Housing Act of 1954 established the citywide "workable program" requirement for the expanded urban renewal program, for public housing, and for renewal-related FHA housing programs. The emphasis was placed on total community effort. Planning became an integral workable program element to help guide citywide growth and improvement.

The 1954 act also created the "section 701" urban planning assistance program. Grants were made available to help prepare the comprehensive plans required for local workable programs and renewal activities. Assistance was also provided for metropolitan planning activities, as distinct from citywide planning.

The first requirement for metropolitanwide planning as a condition to Federal assistance was applied to the open-space land program under the Housing Act of 1961. Next, the Federal-Aid Highway Act Amendments of 1962 established the requirement for metropolitan areawide transportation planning carried on cooperatively by States and local communities. In 1964 and 1965 new programs with area-wide planning requirements were established to assist such activities as mass transportation, the provision of basic water and sewer facilities, and land development for subdivisions and neighborhoods.

These requirements have resulted in an increased tempo of metropolitan planning. Much of the planning is, however, still directed toward meeting the specific Federal planning requirements and has not resulted in effective overall planned development. Furthermore, only a few metropolitan areas have developed arrangements to effectively coordinate actions to implement local planning. The proposed new program is needed to encourage the many divergent public bodies in metropolitan areas to overcome these defects.

The proposed new program under title II would meet this problem through better coordination of Federal assistance, minimum requirements for local planning and coordination under existing Federal grant-in-aid programs, and through its special incentives for multipurpose planning and for areawide implementation of plans. It would provide incentive grants only when planning and implementation are found to be satisfactory for all major developments within the area.

SUMMARY OF THE TITLE

Title II of the bill would strengthen Federal policy concerning planned metropolitan development in four ways by—

(1) Authorizing and encouraging cooperation between Federal departments and agencies with respect to programs affecting metropolitan development (sec. 202);

(2) Authorizing the appointment of "metropolitan expeditors" to provide information and assistance concerning programs of the Department of Housing and Urban Development and related

activities, for the benefit of local and Federal agencies and local individuals (sec. 203) ;

(3) Requiring that applications for Federal assistance for metropolitan area development be reviewed and commented upon by areawide comprehensive planning agencies and by affected municipalities or other units of general local government (sec. 204) ; and

(4) Providing additional incentive, through supplemental grants for certain federally assisted development activities, for more thorough and effective implementation of metropolitan plans and programs (secs. 205-207).

PRINCIPAL PROVISIONS OF THE TITLE

Cooperation between Federal agencies

Section 202 of the bill would help assure that all Federal programs related to metropolitan development are carried out in a coordinated manner by specifically authorizing the Secretary of Housing and Urban Development to obtain from other Federal agencies statistical data, program reports, and other material needed to carry out the metropolitan area responsibilities of the Department. Federal agencies carrying out metropolitan area programs would also be directed, to the maximum extent practicable, to consult with and seek advice from all other significantly affected Federal agencies.

These provisions would be of special importance in connection with the functions of the new "metropolitan expeditors," described below. They must, in order effectively to assist localities within metropolitan areas, be able to act as a clearinghouse for general information and advice with regard to all metropolitan area programs, rather than just those of HUD. It will be very important that the other Federal agencies having program responsibilities within such areas work closely with them.

It is not intended, however, that these provisions change the present arrangements for HUD reimbursement of other Federal agencies in providing special materials or other services. Rather, it is intended to emphasize that other agencies are to cooperate fully in providing such services, consistent with their own authority and responsibilities.

Metropolitan expeditors

Section 203 of the bill would authorize the Secretary of Housing and Urban Development, upon the request of authorized local officials and after consultation with local governmental authorities, to appoint for any metropolitan area a "metropolitan expeditor" to provide information, data, and assistance to local authorities, organizations, and persons and to relevant Federal agencies with respect to the Department's programs and activities and other related activities and needs in the area.

Under this authority the expeditor, acting through a staff as necessary, would provide detailed information about, and continued liaison with, programs of the Department of Housing and Urban Development. He would also provide general information with respect to programs of other Federal and State agencies, but his function with respect to such programs would be only as a clearinghouse. The other agencies themselves would be responsible for providing more detailed

information and continuing liaison, as part of their own program operations.

The expediter would also provide information and assistance with respect to other related public and private activities in the area. For example, he could work with local government officials to help resolve conflicts between the planning and programing of federally assisted and other local projects. However, his services would be provided only on local request and his role would be entirely advisory. In no way would he impose Federal control over local decisions affecting urban development.

Coordination of Federal aids in metropolitan areas

Section 204 of the bill would require that all applications for Federal loans or grants to assist in carrying out projects for open-space land, hospitals, airports, libraries, water supply and distribution facilities, sewerage facilities and waste treatment works, highways, transportation facilities, or water development and land conservation within any metropolitan area must, after June 30, 1967, be submitted for review and comments by a metropolitanwide comprehensive planning agency which is, to the greatest extent practicable, responsible to the elected officials of the general local governments. It would further require that such an application by a special purpose unit of local government must also be submitted to any affected general local governments.

The comments would be required to include information concerning the relationship of the proposed project to local and metropolitanwide comprehensive planning. The Federal agency to which the application is submitted would not be required to follow these local comments. It would use them only to assist in determining whether the application is in accord with the provisions of its own enabling legislation.

This proposal is consistent with proposals contained in sections 503 and 504 of S. 561, the intergovernmental cooperation bill approved by the Senate earlier in this Congress. The report of the Senate Committee on Government Operations on that bill (S. Rept. No. 538, 89th Cong.) provides additional details regarding the need for this type of provision and its effect.

Proposed new grant program for planned metropolitan development

Section 205 through 207 of the bill would authorize, within the Department of Housing and Urban Development, a new program of supplementary grants to localities and other public bodies in metropolitan areas as an additional Federal incentive for effective metropolitan planning and development, as recommended by the President in his recent message on city demonstration programs.

The proposed grants would supplement existing Federal assistance to programs for transportation facilities (including mass transit, roads, and airports), water and sewer facilities, recreation and other openspace areas, historic preservation, specialized library facilities, and hospital and medical facilities. Grants would be up for 20 percent of the cost of such projects.

Eligibility of metropolitan areas

Before supplemental grants can be made for projects in a particular metropolitan area, it will have to be shown that (1) metropolitanwide comprehensive planning and programing provide an adequate basis for the location and scheduling of public facilities and land develop-

ments of metropolitanwide or interjurisdictional public significance; (2) adequate areawide arrangements exist to carry out such planned and coordinated development; and (3) public facility projects (whether federally aided or not) and other land developments having a major impact on the development of the area are in fact being carried out in accord with comprehensive planning and programing.

Eligibility of applicant

Not all localities or other public bodies in an eligible metropolitan area could receive supplemental grant assistance under the program. An applicant public body would have to show that public facility projects and other activities over which it has jurisdiction and which are of interjurisdictional or areawide significance are being carried out in accord with the metropolitan planning and programing. The objective would be to further areawide and interjurisdictional coordination where that is needed.

Special attention would be given to whether the applicant is effectively assisting in, and conforming to, metropolitan planning and programing through the location and scheduling of its public facility projects and its establishment and consistent administration of zoning codes, subdivision regulations, and similar land-use and density controls.

This requirement could not, of course, be applied directly to a sewer district or other special-purpose body. If the applicant is not a county, municipality, or other general-purpose government, then the general-purpose government having jurisdiction over the location of the project would also have to qualify under the program.

Role of areawide comprehensive planning agency

The metropolitanwide comprehensive planning agency would be expected to assist materially in making these necessary determinations of eligibility. It would provide comments on the consistency of assisted development projects with areawide planning and programing. It would also report on the overall status of the area's development activity, as it relates to carrying out areawide planning and programing.

Programs receiving supplemental grants

Applicants under 10 Federal grant programs would be eligible to receive supplemental assistance under the new program:

(1) Grants for basic water and sewer facilities, administered by the Department of Housing and Urban Development under the Housing and Urban Act of 1965;

(2) Grants for the construction of libraries, administered by the Department of Health, Education, and Welfare under title II of the Library Services and Construction Act;

(3) Grants for the construction and modernization of hospitals and other medical facilities, administered by the Department of Health, Education, and Welfare under the Public Health Services Act (Hill-Burton Act);

(4) Grants for construction of sewage treatment works, administered by the Department of Interior under the Federal Water Pollution Control Act;

(5) Grants for highway construction (Federal-aid primary and secondary systems and urban extensions, but not the Interstate System) administered by the Department of Commerce;

(6) Grants for airport development, administered by the Federal Aviation Agency under the Federal Airport Act;

(7) Grants for urban mass transportation facilities and equipment, administered by the Department of Housing and Urban Development under the Urban Mass Transportation Act of 1964;

(8) Grants for acquisition and development of open space, for beautification and improvement or for historic preservation administered by the Department of Housing and Urban Development under the Housing Act of 1961 (the historic preservation provisions would be added to the 1961 act by the housing and urban development bill of 1966, a companion to this bill);

(9) Grants for the acquisition and development of lands and waters for recreation purposes, administered by the Department of the Interior under the Land and Water Conservation Fund Act of 1965; and

(10) Grants for public works and facilities in redevelopment areas, administered by the Department of Commerce under the Public Works and Economic Development Act of 1965 (but only if they involve works or facilities of a type which the Secretary of Housing and Urban Development determines to be eligible under items (1) through (9)).

The supplemental assistance provided under this bill is directly keyed to critical types of development projects for which there has already been Federal recognition of need and a commitment to assist in meeting these needs. The supplemented programs all play key roles in well-planned metropolitan development. Transportation facilities, water and sewer systems, and recreation and open-space areas are especially important in knitting together metropolitan regions and helping to shape their growth. A highway or a rapid transit line, for example, can open large areas for suburban development, and influence the scheduling and location of other public facilities to serve such development. Similarly, the location of water and sewer lines and of parks and other open-space areas can greatly affect local subdivisions and other development. If planned inconsistently, these projects can distort urban growth, and one project can greatly reduce, or even negate, the benefits expected from another.

The other programs supplemented by the bill have, in general, less influence in metropolitan growth. However, for them also, areawide development planning and programing is of special importance. Thus, the large capital investments, and the degree of specialization involved in hospital facilities, make them particularly dependent on effective areawide planning for proper scheduling, location, and coordination.

Limitations on grants

A supplemental grant could not exceed 20 percent of project cost. Thus, projects under an eligible program with a 50-percent grant level could receive a total of 70 percent in Federal support.

However, in no case could total Federal contributions exceed 80 percent. Under the mass transportation program, for example, Federal grants could be raised from 66 $\frac{2}{3}$ percent only to a maximum of 80 percent, and not 88 $\frac{2}{3}$ percent.

Also, the grant supplement could in no case exceed the basic grant amount.

Furthermore, no activities are to receive supplemental assistance under both this program and the comprehensive demonstration cities program, under title I of this bill.

Effect on basic grant programs

The supplemental grants provided under the new program would not affect the basic grant programs themselves, which would continue in full force and effect. The new program would merely increase the Federal share of the cost of development projects meeting the standards of metropolitan coordination set out in the bill. In this way, the proposed grants would reward State and local governments which have actually reached, and provide encouragement for others to reach, a high level of metropolitan planning and arrangements for coordinated development.

The amount of a supplementary grant will be based on a certification, by the Federal agency having responsibility for the basic program, of the cost of the assisted projects and of the amount of non-Federal contributions. These certifications and other aspects of administering their own programs will remain under the full control of the individual Federal agencies.

Authorization for appropriations

The title would authorize grant appropriations of up to \$25 million for fiscal year 1967 and \$50 million for fiscal year 1968. These authorizations would remain available until appropriated, and amounts appropriated would remain available until expended.

TITLE III—URBAN INFORMATION AND TECHNICAL ASSISTANCE
SERVICES

PROPOSED NEW GRANT PROGRAM

This title would authorize the Secretary of Housing and Urban Development to make grants to assist programs of States and metropolitan area agencies for the establishment and operation of urban information and technical assistance centers. These would provide data needed for the solution of urban problems, including information to local governments, organizations, and individuals regarding Federal, State, and local urban assistance programs and other resources. In addition, the program would provide technical assistance to small communities (defined as communities of not more than 25,000 persons) relating to urban problems.

This new program seeks particularly to fill the needs of local governments, organizations, and individuals to know more about Federal programs affecting urban development. In recent years the number and size of such programs has grown rapidly as State and local governments have turned increasingly to the Federal Government for assistance in dealing with their problems. There are now about 200 separate programs which annually assist many thousands of projects.

This maze of categorical assistance programs, offered by Federal departments and agencies with differing purposes and methods of operation, has often proved baffling to penetrate. A mere catalog of the programs is of very limited assistance because of the complexity of matching needs to specific programs. Through the use of highly trained personnel, the proposed information centers would be able to

work with the public officials involved and assist them in evaluating alternative courses of action and in making contact with the proper Federal personnel.

Matching needs to Federal programs would be only part of the function of the information centers. Local officials are often unable to deal with their problems because of the lack of access to local data. Thus, each city in a metropolitan complex should be aware of at least the main economic, demographic, and social changes which are taking place in the entire metropolitan area. But this is a type of data which they often cannot gather or analyze with their own resources.

Too often in the past, local decisionmaking has thus had to depend on guesses about the relationship of local activities to activities in the broader area. The proposed information centers would provide a focus for the gathering and dissemination of such information for all of the localities involved.

Small cities have a particularly acute problem of wading through the many government programs without being able to afford the expert professional know-how needed to advise them on how to go about solving their housing and urban problems. There is a definite need for direct personal contact with mayors and other elected officials of the small cities to advise them on the proper procedure to make full use of Federal, State, and other programs in the solution of their urban problems.

EXTENT OF ACTIVITIES

Centers established by metropolitan-area agencies would be required to provide primarily (1) informational services of general metropolitan-wide utility, and (2) informational services and technical assistance of utility to small communities within the metropolitan area. Similarly, centers established by States would be required to provide primarily (1) informational services of general statewide utility, (2) informational services of utility to communities not within metropolitan areas for which information centers have been established under this title, and (3) technical assistance to small communities. These provisions are intended to minimize duplication of effort between State-sponsored and metropolitan-area centers.

OTHER PROGRAM REQUIREMENTS

A program assisted under this title would be required to specify the activities to be carried on and justify their necessity and costs, and to represent substantially increased or improved activities on the part of the applicant. Also, assistance could not be provided for data and information to be used primarily in day-to-day operations, although this would not preclude providing information centers with data from operating agencies, for the benefit of both planning and day-to-day operations.

Large-scale generation of new data would not be supported by this title. Rather, the information centers would concentrate on making existing data more readily accessible to larger numbers of users. Federal agencies would be required to cooperate in making available needed information.

Finally, it is intended that data in the centers not be tied to individual persons or firms in ways which create risk of invasion of individual privacy or business confidentiality.

GRANT LEVEL AND AUTHORIZATION

Federal grants could be made for up to 50 percent of the cost of eligible activities under an approved program. Up to \$5 million would be authorized for fiscal 1967 and up to \$10 million for fiscal 1968. These authorizations would remain available until appropriated, and amounts appropriated would remain available until expended.

SECTION-BY-SECTION SUMMARY

Section 1.—Provides that the bill may be cited as the “Demonstration Cities and Metropolitan Development Act of 1966.”

TITLE I—COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

Findings and declaration of purpose

Section 101.—Sets forth the findings of Congress and the declaration of purposes with respect to this title of the bill.

Basic authority

Section 102.—Authorizes the Secretary of Housing and Urban Development to make grants and provide technical assistance to enable city demonstration agencies to plan, develop, and carry out comprehensive city demonstration programs.

Eligibility for assistance

Section 103(a).—Provides that a comprehensive city demonstration program is eligible for financial assistance to carry out the program only if certain specific criteria are met, including requirements that—

(1) Physical and social problems in the area of the city justify a comprehensive city demonstration program to carry out the purposes of the title;

(2) The program is of sufficient magnitude to make a substantial impact on the physical and social problems and to remove or arrest blight and decay in entire sections or neighborhoods, to contribute to the sound development of the entire city, and to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness;

(3) The program, including rebuilding or restoration, will contribute toward a well-balanced city, with a substantial increase in the supply of standard housing of both low and moderate cost; and

(4) Local administrative procedures are available for carrying out programs on a consolidated and coordinated basis, local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program, a relocation plan meeting the requirements of the Secretary exists, the local governing body has approved the program, agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation, the program is consistent with comprehensive planning in the entire urban or metropolitan area, and the locality will continue to maintain at least the same level of expenditures for activities similar to those being assisted.

Subsection (b) provides that, in implementing title I, the Secretary shall (1) emphasize local initiative, (2) insure maximum coordination of Federal assistance and (3) encourage city demonstration agencies to enhance neighborhoods by applying a high standard of design,

maintain neighborhood characteristics, and make maximum use of new and improved technology and design, including cost reduction techniques.

Financial assistance for planning comprehensive city demonstration programs

Section 104(a).—Authorizes the Secretary to make grants to, or enter into contracts with, city demonstration agencies to pay 80 percent of the costs of planning and developing comprehensive city demonstration programs.

Subsection (b) provides that such financial assistance may be provided only if (1) the application for the assistance has been approved by the local governing body of the city, and (2) the Secretary has determined that administrative machinery exists through which coordination of all related planning activities of local agencies can be achieved.

Financial assistance for approved comprehensive city demonstration programs

Section 105(a).—Authorizes the Secretary to approve comprehensive city demonstration programs if, after review of plans, he determines that the plans satisfy the criteria for such programs set forth in section 103 of the bill.

Subsection (b) authorizes the Secretary to make grants to, and enter into contracts with city demonstration agencies to pay 80 percent of the costs of administering comprehensive cities demonstration programs.

Subsection (c) provides, in addition, that in order to assist the city to carry out the projects or activities included within an approved comprehensive city demonstration program, the Secretary may make grants to the city demonstration agency of not to exceed 80 percent of the aggregate amount of non-Federal contributions required to be made by the locality to all projects or activities assisted by Federal grant-in-aid programs carried out in connection with such comprehensive city demonstration program. The amount of non-Federal contribution required for each such project or activity would be certified to the Secretary by the Federal department or agency administering the grant-in-aid program, and the Secretary would be required to accept such determination in computing the amount of any grant made under this section.

Subsection (d) requires that grant funds provided to assist projects and activities included in an approved comprehensive city demonstration program shall be made available to assist new and additional projects or activities not assisted under a Federal grant-in-aid program. To the extent such funds are not necessary to support fully such new and additional projects and activities, they may be used and credited as part or all of the required non-Federal contribution to projects or activities assisted under a Federal grant-in-aid program, which are a part of an approved comprehensive city demonstration program.

Technical assistance

Section 106.—Authorizes the Secretary to provide technical assistance to city demonstration agencies to assist such agencies in planning, developing, and administering comprehensive city demonstration programs.

Relocation requirements and payments

Section 107(a).—Requires that a comprehensive city demonstration program include a relocation plan for all displaced people and businesses, which assures the availability of adequate housing before people are displaced and requires, to the maximum extent feasible, the coordination of relocation activities with increases in the supply of standard housing suitable for displaced families.

Subsection (b) requires relocation payments as provided in the urban renewal law.

Continued availability of Federal grant-in-aid program funds

Section 108.—Technical.

Consultation

Section 109.—Requires the Secretary, in carrying out the provisions of the title, including the issuance of regulations, to consult with other Federal departments and agencies administering grant-in-aid programs.

Labor standards

Section 110(a).—Provides that the prevailing wage provisions of the Davis-Bacon Act shall apply to projects which are federally assisted under title I if they are not otherwise subject to the provisions of Federal law imposing labor standards on federally assisted construction. Such requirements, however, are to apply to residential property only if such property is designed for residential use for 8 or more families.

Appropriations

Section 111(a).—Authorizes for planning grants and administrative expenses under section 104, appropriations of \$12 million for the fiscal year 1967 and \$12 million for the fiscal year 1968.

Subsection (b) authorizes, for grants and contracts to assist approved comprehensive city demonstration programs under section 105, for technical assistance under section 106, and for relocation assistance under section 107, appropriations for financial assistance and administrative expenses; \$400 million for fiscal year 1968 and \$500 million for fiscal year 1969.

Definitions

Section 112.—Defines terms used in title I.

Grant authority for urban renewal projects which are part of approved comprehensive city demonstration programs

Section 113.—Authorizes \$250 million in additional urban renewal grant authority, to be available after July 1, 1967. This additional authority would be limited to urban renewal projects identified and scheduled to be carried out as one of the projects or activities included within an approved comprehensive city demonstration program.

TITLE II—PLANNED METROPOLITAN DEVELOPMENT

Findings and declaration of purpose

Section 201.—Sets forth congressional findings and declaration of purpose with respect to this title.

Cooperation between Federal agencies

Section 202.—Authorizes the Secretary of Housing and Urban Development to call upon other Federal agencies for data and other materials he needs to carry out his metropolitan development responsibilities and to assist the President in coordinating the metropolitan development efforts of other agencies. Directs all Federal agencies engaged in metropolitan programs, in order to assure full coordination of such programs, to consult with and seek advice from all other significantly affected Federal agencies.

Metropolitan expeditors

Section 203.—Authorizes the Secretary of Housing and Urban Development, upon request of authorized local officials and after consultation with local governmental authorities, to appoint for any metropolitan area a "metropolitan expeditor" to provide information, data, and assistance to local authorities, organizations, and persons and to relevant Federal agencies with respect to the Department's programs and activities and other related activities and needs in the area.

Coordination of Federal aids in metropolitan areas

Section 204(a).—Requires that, after June 30, 1967, all applications for Federal loans or grants to assist in carrying out projects for open space land, hospitals, airports, libraries, water supply and distribution facilities, sewerage facilities and waste treatment works, highways, transportation facilities, or water development and land conservation within any metropolitan area shall be submitted for review to an agency which is designated to perform metropolitan or regional planning for the area within which the assistance is to be used and which is, to the greatest extent practicable, composed of or responsible to the elected officials of the general local governments. Further requires that if such an application is made by a special purpose unit of local government, it must also be submitted to the general local governments with authority to operate in the area within which the project is to be located.

(b) Requires each such application to be accompanied by (1) the comments and recommendations of the areawide agency and general local governments to which the application has been submitted for review, and (2) a statement by the applicant that such comments and recommendations have been considered prior to formal submission of the application.

The application, however, need not be so accompanied if the applicant certifies that a plan or description of the project has lain before an appropriate areawide agency or instrumentality or general local government for 60 days without comments or recommendations thereon having been made.

Grants to assist in planned metropolitan development

Section 205 (a).—Authorizes the Secretary of Housing and Urban Development to make supplementary grants to State and local public bodies and agencies carrying out metropolitan development projects meeting the requirements of this section.

(b) Provides that grants may be made under this section only for projects in metropolitan areas for which it has been demonstrated, to the satisfaction of the Secretary, that (1) metropolitanwide compre-

comprehensive planning and programming provide an adequate basis for evaluating—

(A) The location, financing, and scheduling of individual public facility projects whether or not federally assisted; and

(B) Other proposed land development or uses, where such projects or uses—because of their size, density, type, or location—have public metropolitanwide or interjurisdictional significance;

(2) Adequate metropolitanwide institutional or other arrangements exist for coordinating local public development policies and activities affecting the development of the area; and

(3) Public facility projects, and other land development or uses (public or private) which have a major impact on the development of the area, are in fact being carried out in accord with such metropolitanwide comprehensive planning and programming.

(c) Requires that the applicant for a grant under this section must demonstrate that it is adequately assuring that public facility projects and other land development or uses of public metropolitanwide or interjurisdictional significance are being actually carried out in accord with metropolitan planning and programming meeting the requirements of subsection (b).

(d) Requires the Secretary, in making the determinations required under this section, to obtain and give full consideration to the comments of the State or local bodies responsible for comprehensive planning and programming for the metropolitan area.

Extent of grant

Section 206(a).—Limits a grant under section 205 to the least of (1) 20 percent of project cost, (2) the amount of the basic Federal grant to the project, or (3) the difference between 80 percent of project cost and the total other Federal contributions to the project.

No grants could be provided for projects or activities on the basis of which assistance is for a comprehensive demonstration cities program under the bill.

(b) Authorizes grant appropriations of up to \$25 million for fiscal year 1967 and up to \$50 million for fiscal year 1968.

Consultation and certification

Section 207.—Requires the Secretary (1) in issuing regulations and otherwise carrying out his authority under section 205, to consult with the Departments of the Interior, Commerce, and Health, Education, and Welfare and the Federal Aviation Agency with respect to metropolitan development projects assisted by them; and (2) for the purpose of determining grant amounts, to accept their respective certifications as to the cost of those projects and the amount of the non-Federal contribution paid or to be paid to that cost.

Definitions

Section 208.—Defines certain terms in title II of the bill, including the following:

(1) "Metropolitan development" means all projects or programs for the acquisition, use, and development of open space land; and the planning and construction of hospitals, libraries, airports, water supply and distribution facilities, sewerage facilities and waste treatment works, transportation facilities, highways, water development and land conservation, and other public works facilities.

(2) "Metropolitan development project" (as used in sections 205 and 207) means a project assisted under the following specified Federal programs:

(a) Grants for basic water and sewer facilities, administered by the Department of Housing and Urban Development under section 702 of the Housing and Urban Development Act of 1965;

(b) Grants for library facilities, administered by the Department of Health, Education, and Welfare under title II of the Library Services and Construction Act;

(c) Grants for hospital and medical facilities, administered by the Department of Health, Education, and Welfare under section 606 of the Public Health Services Act;

(d) Grants for construction of sewage treatment works, administered by the Department of the Interior under section 8 of the Federal Water Pollution Control Act;

(e) Grants for highway construction (Federal-aid primary and secondary systems and urban extensions, but not the Interstate System) administered by the Department of Commerce under section 120(a) of title 23, United States Code;

(f) Grants for airport development, administered by the Federal Aviation Agency under section 9 of the Federal Airport Act;

(g) Grants for urban mass transportation facilities and equipment, administered by the Department of Housing and Urban Development under section 3 of the Urban Mass Transportation Act of 1964;

(h) Grants for acquisition and development of open space, for urban beautification and improvement, or for historic preservation, administered by the Department of Housing and Urban Development under title VII of the Housing Act of 1961 (the historic preservation provisions would be added to title VII by title IV of the housing and urban development bill of 1966, a companion to this bill);

(i) Grants for the acquisition and development of lands and waters for recreational purposes, administered by the Department of the Interior under section 5(e) of the Land and Water Conservation Fund Act of 1965; and

(j) Grants for public works and facilities in redevelopment areas, administered by the Department of Commerce under section 101(a)(1) of the Public Works and Economic Development Act of 1965 (but only if they involve works or facilities of a type which the Secretary determines to be eligible under one of the programs listed in paragraphs (a) through (i) above).

TITLE III—URBAN INFORMATION AND TECHNICAL ASSISTANCE SERVICES

Purpose

Section 301.—Declares that the purpose of title III is to assist States and metropolitan-area agencies to make available information and data on urban needs and assistance programs and activities through centers established for this purpose, and to provide technical assistance through such centers to small communities with respect to the solution of urban problems.

Grant authority

Section 302.—Authorizes the Secretary of Housing and Urban Development to make grants to States and metropolitan-area agencies for the establishment and operation of urban information and technical assistance centers. These would provide information and data needed for the solution of urban problems and would provide technical assistance to small communities outside metropolitan areas with respect to the solution of urban problems.

(b) Requires that a program assisted under this section shall (1) specify the activities to be carried on and justify their necessity and costs, and (2) represent substantially increased or improved activities on the part of the applicant.

Extent of activities

Section 303(a).—Requires that a center established under this title by a metropolitan-area agency shall provide primarily (1) informational services of general metropolitanwide utility and (2) informational services and technical assistance of utility to the communities within that metropolitan area.

(b) Requires that a center established under this title by a State shall provide primarily (1) informational services of general statewide utility, (2) informational services of utility to communities not within metropolitan areas, and (3) technical assistance to small community (defined as a municipality or political subdivision having a population of 25,000 or less).

Amount of grant

Section 304(a).—Limits the Federal grant for an urban information and technical assistance program to 50 percent of its cost.

(b) Prohibits the making of grants under this title to assist in assembling data, or providing information, to be used primarily in the day-to-day operations of State or local governing bodies and agencies.

Federal cooperation

Section 305.—Requires Federal departments and agencies to cooperate with States and metropolitan area agencies in providing information to assist them in carrying out urban information and technical assistance programs.

Definitions

Section 306.—Defines certain terms used in this title.

Appropriations

Section 307.—Authorizes grant appropriations of up to \$5 million for fiscal year 1967 and up to \$10 million for fiscal year 1968. These authorizations would remain available until appropriated, and amounts appropriated would remain available until expended.

CORDON RULE

In the opinion of the committee, it is necessary to dispense with the requirements of subsection 4 of rule XXIX of the Standing Rules of the Senate in order to expedite the business of the Senate in connection with this report.

MINORITY VIEWS OF MESSRS. BENNETT, TOWER, THURMOND, AND HICKENLOOPER

"TOO MUCH * * * WHEN THE COST IS HIGHEST"

The investments you are making in your cities are vital to our future. We would like to complete them all at once. But if we attempt to do too much, too soon, we will end by accomplishing less by borrowing our money, by issuing bonds when the cost of money is at the highest point in several years—when costs are skyrocketing and materials and skilled labor are scarce * * *. I ask you to go home and get out your lead pencil—and take a good hard look at your next quarterly budget expenditures.

(President Lyndon B. Johnson before the National Legislative Conference, National League of Cities, March 31, 1966.)

We believe the President's evaluation of the city development problem to be exactly right.

We believe that the President, to be consistent after having expressed this strong opinion, would join us in voting against this bill if he were back in the Senate.

We believe the so-called demonstration cities bill, title I of S. 3708, is an expansion of a faltering urban renewal program which will be financed almost totally with Federal funds.

The facts and figures on urban renewal prove beyond doubt that the program has hit dead center because of the failure to inject some basic thinking into a program that deserved a better fate.

URBAN RENEWAL—AND MORE

Urban renewal was an enticing fantasy that preyed on cities which could not afford all the luxury in a hurry that such a program offered. Much like the human failure of overindulgence at an attractive cafeteria counter.

The cities' one-third share of the project costs has become more and more difficult to meet despite the promising tax profits to be derived from improved property rising on the project sites. One project created another—moving people and businesses to less expensive areas than that to be developed by urban renewal.

Urban renewal, the great promise to the cities, has deteriorated to the point where only \$1.5 billion in Federal funds has been spent since 1949 out of a total of \$7.6 billion authorized during that period. Of course, \$5.6 billion has been committed, but it obviously is much easier to commit than to spend when it is necessary for the cities to raise from their taxpayers the one-third of the cost of a project on which the Federal Government offers to pay two-thirds.

That is why another dreamworld of spending is planned for the cities, but this time the Federal Government's share in the demonstration cities proposal can run as high as 95 percent because under certain conditions the Federal Government would be authorized to contribute 80 percent to the local share of project costs.

TIGHTENING BILL DOES NOT MAKE IT GOOD

The administration sought to have no limit on congressional authorizations for this new program and supported this indefinite money position by professing some indefiniteness in just how many cities would get the benefit of the program and to what extent each fortunate city would benefit.

Nevertheless, administration figures submitted in testimony before the committee made possible the estimation of total costs of approximately \$2.9 billion for a 5-year program.

The committee reduced the program from a 5-year program to a 3-year program and fixed authorization limits at \$12 million for the first year, which is a planning year, and at \$400 million for fiscal 1968 and \$500 million for fiscal 1969, which would be considered the "programing" years, or the years in which the Federal contributions would be made on active projects.

Even so, this change in the bill can hardly be classified as a redeeming improvement in light of the fact that new expenditures are to be committed by Congress at a time when "costs are skyrocketing and materials and skilled labor are scarce," as President Johnson said to the city representatives only last March.

Before our committee on August 4, Gov. J. L. Robertson, of the Federal Reserve Board, testified that recommendations for reducing Federal Government expenditures had been made to President Johnson because of existing inflationary pressures.

WARN OF "BOOM AND BUST"

We believe it is appropriate in this report to go further into the testimony of Governor Robertson, as well as that of Joseph W. Barr, Under Secretary of the Treasury who also appeared before our committee, because the basic issue before us at that time concerned the halting of inflationary pressures.

In testifying on a bill to deal with interest rate regulation, Governor Robertson warned of "boom and bust" dangers and said:

* * * we are in the midst today of an inflationary situation. The inflationary pressures are great. In my opinion the dangers of inflation are much greater than the dangers of high interest rates. The cost to the people of this country is much greater in the case of inflation than in the case of high interest rates.

Governor Robertson told the committee that the continued use of monetary policy and failure to use fiscal policy will put additional upward pressure on interest rates. He also said that recommendations have been made to President Johnson that expenditures be reduced to curb the demand for money.

Secretary Barr said that it would be desirable to "pay something on the Federal debt this year" and that this is the year "we should be in balance or as close to balance as possible, or surplus."

These statements by men charged with a great deal of the responsibility of protecting the economy against extreme and damaging fluctuations only serve to emphasize the President's own words of caution against overspending in the cities during these times of expensive money.

CITIES WILL HAVE PLENTY TO WORK WITH

It should be noted that we have not taken the demonstration cities program apart item-by-item for criticism because there are recognizable needs for assistance in many of our great cities. However, as the President said, too much might be attempted too soon.

As we indicated in this report, the Congress would not be deserting the cities by postponing the expansion of expenditures for city rehabilitation at this time. We have pointed out the inability of the cities to carry out commitments already given for urban renewal projects and much more money will be available throughout the next 3 years. Last July 1, an annual authorization of \$750 million for urban renewal capital grants became effective. Additional authorizations of \$750 million will become effective on July 1, 1967, and July 1, 1968.

Further proof that Congress is fully cognizant of the problems in the Nation's cities and that those problems will be subject to continued consideration is contained in the 1965 approval of an increase in planning grant authorization of \$125 million, which brings the total to \$230 million, to be available until expended.

The city redevelopment program need not stand still for lack of funds either for planning or actual development work in the event that the Congress rejects this proposal authorizing over \$900 million. This is a period in which difficult decisions must be made. With our economic machine running wide open, priorities are necessary.

Expenditures cutbacks have been recommended—and in some cases accomplished—on a few isolated domestic projects. The savings from these cutbacks would be swallowed up, however, by only a fraction of what is sought to expand city redevelopment.

We have one closing comment to make on the demonstration cities section of this bill. Aside from the obligations we face in Vietnam and second-front fighting against inflation in our Nation, the judgment used in planning this demonstration cities program is questionable. With Dr. Robert C. Weaver, Secretary of Housing and Urban Development, admitting that a single city of 1 million population could qualify for more than \$400 million and a city of 50,000 population could qualify for as much as \$23 million, it becomes quite obvious that only a chosen few of the Nation's cities, large or small, would share in the benefits to be derived from the expenditures of additional hundreds of millions of dollars called for in this bill.

PLANNED METROPOLITAN DEVELOPMENT

Title II of the bill providing grants to assist in the orderly development of metropolitan areas has a laudable purpose. We cannot argue that it is undesirable to have orderly development. Certainly planning is essential to orderly development and it is important that the planning, if approved by local civic leaders and a majority of the residents in an area, be followed.

It is no less obvious that the multiplicity of political jurisdictions and agencies involved in metropolitan development make it difficult to achieve the type of overall planning that would fully integrate the efforts of each to meet the economic and social needs of those residing in the subdivisions of a metropolitan area.

While we express accord with the objective of the bill, we cannot support it as a means to that end.

Among other reasons why we withhold our support, is that already voiced about expansion of federally financed programs at a time when our economic machine is already straining its capacity. Even if this proposal contained no objectionable provisions, the economic situation at this time would warrant our opposition.

JURISDICTIONAL PROBLEMS TO CONTINUE

It is suggested that one of the reasons for this legislation is the complexity of metropolitan government and the multiplicity of political jurisdictions and agencies involved. We do not find anything in the bill that would lessen the complexity or reduce the number of jurisdictions. These, we feel, should only be altered by the voice of the people, and as has been evident in case after case, the people have not voted to accept an overall metropolitan government.

The voice of the people in each political subdivision of the metropolitan planning area must not be circumvented by any Federal redevelopment plan. They should have the opportunity to either be part of the plan or refuse to be part of it depending upon the combined judgment of the residents.

REDUNDANT CONGRESSIONAL MANDATE

The requirement in section 202 of this title that all Federal agencies consult with and ask advice from all other agencies to assure fully coordinated programs is redundant at best and an indictment of the present administration of Federal programs. It is indefensible that agencies using public funds would not take all possible measures to assure that any projects under their administration relating to metropolitan development were in accord with proper area development and all other federally assisted projects, even in the absence of a congressional mandate. There may be reason for rivalry among private individuals, firms, or institutions, but there is no excuse for such among those who are supposed to be public servants.

FEDERAL BRIBE NOT NECESSARY

We are not of the opinion that it is necessary to provide an additional Federal incentive of 20 percent, thus reducing the local share in order to bring about metropolitan planning, nor have we been convinced that the funds provided in this title will increase planning. We suspect that those advanced areas which already are well along with their planning will receive the supplemental grants as a windfall and that little additional planning will result.

The Federal Government is already contributing from 50 to 90 percent of the cost of a wide variety of projects ranging from sewer facilities to beautification projects. We see no reason why the Federal contribution as set forth in programs which are already now part of

the law are not predicated on the condition that the assisted project fit into a coordinated plan.

Last year, a bill which would have made areawide planning a condition for Federal participation in local programs was approved by the Senate. We feel that that bill, S. 561, would be a more appropriate measure for the stimulation of metropolitan planning, at no additional expense for the Federal Government.

ADMINISTRATOR TO CONTROL PRIVATE DEVELOPMENT

This legislation would require that any land development or uses which have a major impact on the development of the area, whether federally assisted or not, must be carried out in conformance with the comprehensive plan approved by the Secretary of the Department of Housing and Urban Development. Thus, not only would the Secretary have a stranglehold over the projects which receive Federal aid, but also any other construction or development in a metropolitan area. He would have this by virtue of the fact that the supplemental Federal share on federally assisted projects can be withheld unless all development having metropolitanwide or interjurisdictional significance, is in accord with the plan.

While it is desirable that all development proceed in an orderly manner, we do not feel that it is necessary or in keeping with American tradition to give the Secretary such great power over city development.

FEDERAL SUBSIDY SHOULD BE BASED ON NEED

Some of the projects which under this legislation would receive an additional 20 percent Federal aid are not under the administration of the Department of Housing and Urban Development nor the jurisdiction of the Banking and Currency Committee. If additional subsidy is needed by localities for the development of waste treatment works or outdoor recreational facilities, administered by the Department of the Interior, or if the Federal share of Federal highway programs and public works and development facilities administered by the Department of Commerce; or airport planning and development administered by the Federal Aviation Agency, then let those congressional committees which have responsibility for these programs recommend an increase in the Federal share. It would be far better that the increase be based on the operation of each program and the needs not now being filled than that there be an across-the-board 20-percent increase in the Federal share.

SMALL CITIES FINALLY REMEMBERED

Title III setting up urban information and technical assistance services is a belated recognition that small cities are not in a position to benefit from either the demonstration cities program or the metropolitan development program. Although it has been stated again and again by supporters of the two programs that they would be for both large and small cities, it is evident that the small city civic organizations are not even aware of the Federal subsidies now available, to say nothing of their inability to meet the planning requirements. This prompted acceptance of title III of the bill which would

provide a means by which a small community with a population of 25,000 or less can receive from the Federal Government, grants up to 50 percent of the cost of the operation of technical assistance and urban needs centers.

FEDERAL BUDGET EQUALS THE SUM OF ITS PARTS

There is no convincing evidence that the administration intends to cut back its demands for domestic Federal expenditures. We have no assurance that a tax increase is going to be recommended to finance the additional billions of dollars now being approved for both military and domestic expenditures. In the absence of measures bringing about an increase in receipts, it is unrealistic to suggest that we pay something on the Federal debt, as the Treasury Department testified, unless we take action that will lead to that end. We have yet to see a Federal budget that does not equal the sum of its parts. This bill would authorize an increase in spending of \$1 billion.

We cannot expect others to show restraint unless we, too, are willing to do so. It is extremely difficult to cut back on established programs but it is possible to either postpone or reject proposed new programs.

We suggest that the welfare of this Nation could best be served by such action.

WALLACE F. BENNETT.

JOHN G. TOWER.

STROM THURMOND.

BOURKE B. HICKENLOOPER.

89TH CONGRESS
2D SESSION

Calendar No. 1404

S. 3708

[Report No. 1439]

IN THE SENATE OF THE UNITED STATES

AUGUST 9, 1966

Mr. MUSKIE, from the Committee on Banking and Currency, reported the following bill; which was read twice and ordered to be placed on the calendar

A BILL

To assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*
3 That this Act may be cited as the "Demonstration Cities
4 and Metropolitan Development Act of 1966".

1 TITLE I—COMPREHENSIVE CITY DEMONSTRA-
2 TION PROGRAMS

3 FINDINGS AND DECLARATION OF PURPOSE

4 SEC. 101. The Congress hereby finds and declares that
5 improving the quality of urban life is the most critical do-
6 mestic problem facing the United States. The persistence
7 of widespread urban slums and blight, the concentration of
8 persons of low income in older urban areas, and the unmet
9 needs for additional housing and community facilities and
10 services arising from rapid expansion of our urban popula-
11 tion have resulted in a marked deterioration in the quality
12 of the environment and the lives of large numbers of our
13 people while the Nation as a whole prospers.

14 The Congress further finds and declares that cities, of
15 all sizes, do not have adequate resources to deal effectively
16 with the critical problems facing them, and that Federal
17 assistance in addition to that now authorized by the urban
18 renewal program and other existing Federal grant-in-aid
19 programs is essential to enable cities to plan, develop, and
20 conduct programs to improve their physical environment,
21 increase their supply of adequate housing for low- and mod-
22 erate-income people, and provide educational and social
23 services vital to health and welfare.

24 The purposes of this title are to provide additional finan-

1 cial and technical assistance to enable cities of all sizes (with
2 equal regard to the problems of small as well as large cities)
3 to plan, develop, and carry out locally prepared and sched-
4 uled comprehensive city demonstration programs containing
5 new and imaginative proposals to rebuild or revitalize large
6 slum and blighted areas; to expand housing, job, and income
7 opportunities; to reduce dependence on welfare payments; to
8 improve educational facilities and programs; to combat dis-
9 ease and ill health; to reduce the incidence of crime and de-
10 linquency; to enhance recreational and cultural opportunities;
11 to establish better access between homes and jobs; and gen-
12 erally to improve living conditions for the people who live
13 in such areas, and to accomplish these objectives through the
14 most effective and economical concentration and coordina-
15 tion of Federal, State, and local public and private efforts
16 to improve the quality of urban life.

17 BASIC AUTHORITY

18 SEC. 102. The Secretary of Housing and Urban De-
19 velopment (hereinafter referred to as the "Secretary") is
20 authorized to make grants and provide technical assistance,
21 as provided by this title, to enable city demonstration agen-
22 cies (as defined in section 112 (2)) to plan, develop, and
23 carry out comprehensive city demonstration programs in ac-
24 cordance with the purposes of this title.

1 ELIGIBILITY FOR ASSISTANCE

2 SEC. 103. (a) A comprehensive city demonstration
3 program is eligible for assistance under sections 105 and
4 107 only if—

5 (1) physical and social problems in the area of
6 the city covered by the program are such that a compre-
7 hensive city demonstration program is necessary to carry
8 out the policy of the Congress as expressed in section
9 101;

10 (2) the program is of sufficient magnitude to make
11 a substantial impact on the physical and social prob-
12 lems and to remove or arrest blight and decay in entire
13 sections or neighborhoods; to contribute to the sound
14 development of the entire city; to make marked prog-
15 ress in reducing social and educational disadvantages,
16 ill health, underemployment, and enforced idleness; and
17 to provide educational, health, and social services neces-
18 sary to serve the poor and disadvantaged in the area,
19 widespread citizen participation in the program, maxi-
20 mum opportunities for employing residents of the area
21 in all phases of the program, and enlarged opportunities
22 for work and training;

23 (3) the program, including rebuilding or restora-
24 tion, will contribute to a well-balanced city with a sub-
25 stantial increase in the supply of standard housing of

low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all income levels, adequate public facilities (including those needed for education, health and social services, transportation and recreation), commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment;

(4) the various projects and activities to be undertaken in connection with such programs are scheduled to be initiated within a reasonably short period of time; adequate local resources are, or will be, available for the completion of the program as scheduled; administrative machinery is available at the local level for carrying out the program on a consolidated and coordinated basis; substantive local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program; there exists a relocation plan meeting the requirements of the regulations referred to in section 107; the local governing body has approved the program and, where appropriate, applications for assistance under the program; agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation; the program is consistent with comprehensive planning in the entire urban or metropolitan area; and the locality

1 will maintain, during the period an approved compre-
2 hensive city demonstration program is being carried out,
3 a level of aggregate expenditures for activities similar
4 to those being assisted under this title which is not less
5 than the level of aggregate expenditures for such activi-
6 ties prior to initiation of the comprehensive city demon-
7 stration program; and

8 (5) the program meets such additional require-
9 ments as the Secretary may establish to carry out the
10 purposes of this title.

11 (b) In implementing this title the Secretary shall—

12 (1) emphasize local initiative in the planning, de-
13 velopment, and implementation of comprehensive city
14 demonstration programs;

15 (2) insure, in conjunction with other appropriate
16 Federal departments and agencies and at the direction
17 of the President, maximum coordination of Federal as-
18 sistance provided in connection with this title, prompt
19 response to local initiative, and maximum flexibility in
20 programing, consistent with the requirements of law
21 and sound administrative practice; and

22 (3) encourage city demonstration agencies to (A)
23 enhance neighborhoods by applying a high standard of
24 design, (B) maintain, as appropriate, natural and his-
25 toric sites and distinctive neighborhood characteristics,

1 and (C) make maximum possible use of new and im-
2 proved technology and design, including cost reduction
3 techniques.

4 FINANCIAL ASSISTANCE FOR PLANNING COMPREHENSIVE
5 CITY DEMONSTRATION PROGRAMS

6 SEC. 104. (a) The Secretary is authorized to make
7 grants to, and to contract with, city demonstration agencies
8 to pay 80 per centum of the costs of planning and develop-
9 ing comprehensive city demonstration programs.

10 (b) Financial assistance will be provided under this
11 section only if (1) the application for such assistance has
12 been approved by the local governing body of the city, and
13 (2) the Secretary has determined that there exist (A) ad-
14 ministrative machinery through which coordination of all
15 related planning activities of local agencies can be achieved,
16 and (B) evidence that necessary cooperation of agencies
17 engaged in related local planning can be obtained.

18 FINANCIAL ASSISTANCE FOR APPROVED COMPREHENSIVE
19 CITY DEMONSTRATION PROGRAMS

20 SEC. 105. (a) The Secretary is authorized to approve
21 comprehensive city demonstration programs if, after review
22 of the plans, he determines that such plans satisfy the criteria
23 for such programs set forth in section 103.

24 (b) The Secretary is authorized to make grants to, and
25 to contract with, city demonstration agencies to pay 80 per

1 centum of the cost of administering approved comprehensive
2 city demonstration programs, but not the cost of adminis-
3 tering any project or activity assisted under a Federal grant-
4 in-aid program.

5 (c) To assist the city to carry out the projects or activ-
6 ities included within an approved comprehensive city dem-
7 onstration program, the Secretary is authorized to make
8 grants to the city demonstration agency of not to exceed
9 80 per centum of the aggregate amount of non-Federal
10 contributions otherwise required to be made to all projects
11 or activities assisted by Federal grant-in-aid programs (as
12 defined in section 112 (1)) which are carried out in connec-
13 tion with such demonstration program: *Provided*, That no
14 Federal grant-in-aid program shall be considered to be car-
15 ried out in connection with such demonstration program
16 unless it is closely related to the physical and social problems
17 in the area of the city covered by the program and unless
18 it can reasonably be expected to have a noticeable effect
19 upon such problems. The specific amount of any such grant
20 shall take into account the number and intensity of the
21 economic and social pressures in the sections or neighbor-
22 hoods involved, such as those involving or resulting from
23 population density, poverty levels, unemployment rate, pub-
24 lic welfare participation, educational levels, health and dis-
25 ease characteristics, crime and delinquency rate, and degree

1 of substandard and dilapidated housing. The amount of
2 non-Federal contribution required for each project in a
3 Federal grant-in-aid program shall be certified to the Secre-
4 tary by the Federal department or agency (other than the
5 Department of Housing and Urban Development) admin-
6 istering such program, and the Secretary shall accept such
7 certification in computing the grants hereunder.

8 (d) Grant funds provided to assist projects and activ-
9 ities included within an approved comprehensive city demon-
10 stration program pursuant to subsection (c) of this section
11 shall be made available to assist new and additional projects
12 and activities not assisted under a Federal grant-in-aid pro-
13 gram. To the extent such funds are not necessary to support
14 fully such new and additional projects and activities, they
15 may be used and credited as part or all of the required non-
16 Federal contribution to projects or activities, assisted under
17 a Federal grant-in-aid program, which are part of an ap-
18 proved comprehensive city demonstration program. Such
19 grant funds, however, shall not be used—

20 (1) for the general administration of local govern-
21 ments; or

22 (2) to replace non-Federal contributions in any
23 federally aided project or activity included in an ap-
24 proved comprehensive city demonstration program, if

1 prior to the filing of an application for assistance under
2 section 104 an agreement has been entered into with
3 any Federal agency obligating such non-Federal con-
4 tributions with respect to such project or activity.

5 TECHNICAL ASSISTANCE

6 SEC. 106. The Secretary is authorized to undertake such
7 activities as he determines to be desirable to provide, either
8 directly or by contracts or other arrangements, technical
9 assistance to city demonstration agencies to assist such agen-
10 cies in planning, developing, and administering compre-
11 hensive city demonstration programs.

12 RELOCATION REQUIREMENTS AND PAYMENTS

13 SEC. 107. (a) A comprehensive city demonstration
14 program shall include a plan for the relocation of individuals,
15 families, business concerns, and nonprofit organizations dis-
16 placed or to be displaced in the carrying out of such pro-
17 gram. The relocation plan shall be consistent with regu-
18 lations prescribed by the Secretary to assure that (1) the
19 provisions and procedures included in the plan meet relo-
20 cation standards equivalent to those prescribed under sec-
21 tion 105 (c) of the Housing Act of 1949 with respect to
22 urban renewal projects assisted under title I of that Act,
23 and (2) relocation activities are coordinated to the maxi-
24 mum extent feasible with the increase in the supply of decent,

1 safe, and sanitary housing for families and individuals of low
2 or moderate income, as provided under the comprehensive
3 city demonstration program, or otherwise, in order to best
4 maintain the available supply of housing for all such families
5 and individuals throughout the city.

6 (b) (1) To the extent not otherwise authorized under
7 any Federal law, financial assistance extended to a city
8 demonstration agency under section 105 shall include grants
9 to cover the full cost of relocation payments, as herein de-
10 fined. Such grants shall be in addition to other financial
11 assistance extended to such agency under section 105.

12 (2) The term "relocation payments" means payments
13 by a city demonstration agency to a displaced individual,
14 family, business concern, or nonprofit organization which
15 are made on such terms and conditions and subject to such
16 limitations (to the extent applicable, but not including the
17 date of displacement) as are provided for relocation pay-
18 ments, at the time such payments are approved, by sections
19 114 (b), (c), (d), and (e) of the Housing Act of 1949
20 with respect to projects assisted under title I thereof.

21 (c) Subsection (b) shall not be applicable with respect
22 to any displacement occurring prior to the date of the enact-
23 ment of this Act.

1 CONTINUED AVAILABILITY OF FEDERAL GRANT-IN-AID
2 PROGRAMS

3 SEC. 108. Notwithstanding any other provision of law,
4 unless hereafter enacted expressly in limitation of the pro-
5 visions of this section, funds appropriated for a Federal
6 grant-in-aid program which are reserved for any projects or
7 activities assisted under such grant-in-aid program and un-
8 dertaken in connection with an approved comprehensive city
9 demonstration program shall remain available until expended.

10 CONSULTATION

11 SEC. 109. In carrying out the provisions of this title,
12 including the issuance of regulations, the Secretary shall
13 consult with other Federal departments and agencies ad-
14 ministering Federal grant-in-aid programs. The Secretary
15 shall consult with each Federal department and agency
16 affected by each comprehensive city demonstration program
17 before entering into a commitment to make grants for
18 such program under section 105.

19 LABOR STANDARDS

20 SEC. 110. (a) All laborers and mechanics employed
21 by contractors or subcontractors in the construction, re-
22 habilitation, alteration, or repair of projects which—

23 (1) are federally assisted in whole or in part under
24 this title and

(2) are not otherwise subject to section 212 of the National Housing Act, section 16(2) of the United State Housing Act of 1937, section 109 of the Housing Act of 1949, or any other provision of Federal law imposing labor standards on federally assisted construction,

shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a-276a-5) : *Provided*, That this section shall apply to the construction, rehabilitation, alteration, or repair of residential property only if such residential property is designed for residential use for eight or more families. No financial assistance shall be extended to any such projects unless adequate assurance is first obtained that these labor standards will be maintained upon the construction work.

(b) The Secretary of Labor shall have, with respect to labor standards specified in subsection (a), the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276c), and the Contract Work Hours Standards Act (76 Stat. 357).

APPROPRIATIONS

SEC. 111. (a) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under section 104, not to exceed \$12,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$12,000,000 for the fiscal year ending June 30, 1968.

(b) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under sections 105, 106, and 107, not to exceed \$400,000,-000 for the fiscal year ending June 30, 1968, and not to exceed \$500,000,000 for the fiscal year ending June 30, 1969.

(c) Appropriations authorized under this section shall remain available until expended.

DEFINITIONS

SEC. 112. As used in this title—

(1) “Federal grant-in-aid program” means a program of Federal financial assistance other than loans and other than the assistance provided by this title.

(2) "City demonstration agency" means the city or any local public agency established or designated by the local governing body to administer the comprehensive city demonstration program.

(3) “City” means any municipality (or two or more municipalities acting jointly) or, with respect to urban areas

1 outside of incorporated municipalities, any county or other
2 public body (or two or more acting jointly) having general
3 governmental powers.

4 (4) "Local" agencies include State agencies and in-
5 strumentalities providing services or resources to a city or
6 locality, and "local" resources include those provided to a
7 city or locality by a State or its agency or instrumentality.

8 GRANT AUTHORITY FOR URBAN RENEWAL PROJECTS
9 WHICH ARE PART OF APPROVED COMPREHENSIVE
10 CITY DEMONSTRATION PROGRAMS

11 SEC. 113. Section 103 (b) of the Housing Act of 1949
12 is amended by inserting after the first sentence the follow-
13 ing new sentence: "In addition to the authority to make
14 grants provided in the first sentence of this subsection, the
15 Secretary may contract to make grants under this title, on or
16 after July 1, 1967, in an amount not to exceed \$250,000,-
17 000: *Provided*, That the authority to contract to make
18 grants provided by this sentence shall be exercised only
19 with respect to an urban renewal project which is identified
20 and scheduled to be carried out as one of the projects or
21 activities included within an approved comprehensive city
22 demonstration program assisted under the provisions of sec-
23 tion 105 (c) of the Demonstration Cities and Metropolitan
24 Development Act of 1966".

1 TITLE II—PLANNED METROPOLITAN
2 DEVELOPMENT

3 FINDINGS AND DECLARATION OF PURPOSE

4 SEC. 201. (a) The Congress hereby finds that the
5 welfare of the Nation and of its people is directly dependent
6 upon the sound and orderly development and the effective
7 organization and functioning of the metropolitan areas in
8 which two-thirds of its people live and work.

9 It further finds that the continuing rapid growth of these
10 areas makes it essential that they prepare, keep current, and
11 carry out comprehensive plans and programs for their
12 orderly physical development with a view to meeting
13 efficiently all their economic and social needs.

14 It further finds that metropolitan areas are especially
15 handicapped in this task by the complexity and scope of
16 governmental services required in such rapidly growing
17 areas, the multiplicity of political jurisdictions and agencies
18 involved, and the inadequacy of the operational and admin-
19 istrative arrangements available for cooperation among them.

20 It further finds that present requirements for areawide
21 planning and programing in connection with various Federal
22 programs have materially assisted in the solution of metro-
23 politan problems, but that greater coordination of Federal
24 programs and additional participation and cooperation are

1 needed from the States and localities in perfecting and carry-
2 ing out such efforts.

3 (b) It is the purpose of this title to provide, through
4 greater coordination of Federal programs and through sup-
5 plementary grants for certain federally assisted develop-
6 ment projects, additional encouragement and assistance to
7 States and localities for making comprehensive metropolitan
8 planning and programing effective.

9 COOPERATION BETWEEN FEDERAL AGENCIES

10 SEC. 202. In order to insure that all Federal programs
11 related to metropolitan development are carried out in a co-
12 ordinated manner—

13 (1) the Secretary is authorized to call upon other
14 Federal agencies to supply such statistical data, pro-
15 gram reports, and other materials as he deems necessary
16 to discharge his responsibilities for metropolitan devel-
17 opment, and to assist the President in coordinating the
18 metropolitan development efforts of all Federal agen-
19 cies; and

20 (2) all Federal agencies which are engaged in
21 administering programs related to metropolitan develop-
22 ment, or which otherwise perform functions relating
23 thereto, shall, to the maximum extent practicable, con-

1 sult with and seek advice from all other significantly
2 affected Federal departments and agencies in an effort
3 to assure fully coordinated programs.

4 METROPOLITAN EXPEDITERS

5 SEC. 203. Upon the request of one or more duly author-
6 ized local officials and after consultation with local govern-
7 mental authorities in a metropolitan area, the Secretary may
8 appoint a metropolitan expediter for such area whenever he
9 finds a need for the services specified in this section. The
10 metropolitan expediter shall provide information, data, and
11 assistance to local authorities and private individuals and
12 entities within the metropolitan area, and to all relevant
13 Federal departments and agencies, with respect to all pro-
14 grams and activities conducted within such metropolitan area
15 by the Department of Housing and Urban Development,
16 and with respect to other public and private activities and
17 needs within such metropolitan area which relate to the
18 programs and activities of the Department.

19 COORDINATION OF FEDERAL AIDS IN METROPOLITAN AREAS

20 SEC. 204. (a) All applications made after June 30,
21 1967, for Federal loans or grants to assist in carrying out
22 open-space land projects or for the planning or construction
23 of hospitals, airports, libraries, water supply and distribution
24 facilities, sewerage facilities and waste treatment works,
25 highways, transportation facilities, and water development

1 and land conservation projects within any metropolitan area
2 shall be submitted for review—

3 (1) to any areawide agency designated to per-
4 form metropolitan or regional planning for the area with-
5 in which the assistance is to be used, and which is, to
6 the greatest practicable extent, composed of or respon-
7 sible to the elected officials of the units of general local
8 government within whose jurisdiction such agency is
9 authorized to engage in such planning, and

10 (2) if made by a special purpose unit of local
11 government, to the unit or units of general local govern-
12 ment with authority to operate in the area within which
13 the project is to be located.

14 (b) (1) Except as provided in paragraph (2) of this
15 subsection, each application shall be accompanied (A)
16 by the comments and recommendations with respect to
17 the project involved by the areawide agency and gov-
18 erning bodies of the units of general local government to
19 which the application has been submitted for review,
20 and (B) by a statement by the applicant that such com-
21 ments and recommendations have been considered prior
22 to formal submission of the application. Such comments
23 shall include information concerning the extent to which the
24 project is consistent with comprehensive planning developed

1 or in the process of development for the metropolitan
2 area or the unit of general local government, as the case
3 may be, and the extent to which such project contributes
4 to the fulfillment of such planning. The comments and
5 recommendations and the statement referred to in this sec-
6 tion shall, except in the case referred to in paragraph (2)
7 of this subsection, be reviewed by the agency of the Federal
8 Government to which such application is submitted for
9 the sole purpose of assisting it in determining whether the
10 application is in accordance with the provisions of Federal
11 law which govern the making of the loans or grants.

12 (2) An application for a Federal loan or grant need
13 not be accompanied by the comments and recommendations
14 and the statements referred to in paragraph (1) of this sub-
15 section, if the applicant certifies that a plan or description
16 of the project, meeting the requirements of such rules and
17 regulations as may be prescribed under subsection (c), or
18 such application, has lain before an appropriate areawide
19 agency or instrumentality or unit of general local govern-
20 ment for a period of sixty days without comments or recom-
21 mendations thereon being made by such agency or instru-
22 mentality.

23 (3) The requirements of paragraphs (1) and (2)
24 shall also apply to any amendment of the application which,
25 in light of the purposes of this title, involves a major change

1 in the project covered by the application prior to such
2 amendment.

3 (c) The Bureau of the Budget, or such other agency as
4 may be designated by the President, is hereby authorized to
5 prescribe such rules and regulations as are deemed appropri-
6 ate for the effective administration of this section.

7 GRANTS TO ASSIST IN PLANNED METROPOLITAN
8 DEVELOPMENT

9 SEC. 205. (a) The Secretary is authorized to make
10 supplementary grants to applicant State and local public
11 bodies and agencies carrying out, or assisting in carrying
12 out, metropolitan development projects meeting the require-
13 ments of this section.

14 (b) Grants may be made under this section only for
15 metropolitan development projects in metropolitan areas
16 for which it has been demonstrated, to the satisfaction of the
17 Secretary, that—

18 (1) metropolitanwide comprehensive planning and
19 programing provide an adequate basis for evaluating

20 (A) the location, financing, and scheduling of individ-
21 ual public facility projects (including, but not limited
22 to hospitals and libraries; sewer, water, and sewage
23 treatment facilities; highway, mass transit, airport, and
24 other transportation facilities; and recreation and other
25 open-space areas) whether or not federally assisted; and

1 (B) other proposed land development or uses, which
2 projects or uses, because of their size, density, type, or
3 location, have public metropolitanwide or interjurisdic-
4 tional significance;

5 (2) adequate metropolitanwide institutional or
6 other arrangements exist for coordinating, on the basis
7 of such metropolitanwide comprehensive planning and
8 programing, local public policies and activities affecting
9 the development of the area; and

10 (3) public facility projects and other land develop-
11 ment or uses which have a major impact on the develop-
12 ment of the area are, in fact, being carried out in accord
13 with such metropolitanwide comprehensive planning
14 and programing.

15 (c) (1) Where the applicant for a grant under this sec-
16 tion is a unit of general local government, it must demon-
17 strate to the satisfaction of the Secretary that, taking into
18 consideration the scope of its authority and responsibilities
19 it is adequately assuring that public facility projects and
20 other land development or uses of public metropolitanwide
21 or interjurisdictional significance are being, and will be,
22 carried out in accord with metropolitan planning and pro-
23 graming meeting the requirements of subsection (b). In
24 making this determination the Secretary shall give special
25 consideration to whether the applicant is effectively assisting

1 in, and conforming to, metropolitan planning and program-
2 ing through (A) the location and scheduling of public
3 facility projects, whether or not federally assisted; and (B)
4 the establishment and consistent administration of zoning
5 codes, subdivision regulations, and similar land-use and
6 density controls.

7 (2) Where the applicant for a grant under this section
8 is not a unit of general local government, both it and the unit
9 of general local government having jurisdiction over the
10 location of the project must meet the requirements of this
11 subsection.

12 (d) In making the determinations required under this
13 section, the Secretary shall obtain, and give full considera-
14 tion to, the comments of the body or bodies (State or local)
15 responsible for comprehensive planning and programing for
16 the metropolitan area.

17 (e) No grant shall be made under this section with re-
18 spect to a metropolitan development project for which a Fed-
19 eral grant has been made or a contract of assistance has been
20 entered into, under the legislation referred to in paragraph
21 (2) of section 208, prior to February 21, 1966, or more than
22 one year prior to the date on which the Secretary has made
23 the determinations required under this section with respect to
24 the applicant and to the area in which the project is located:
25 *Provided*, That in the case of a project for which a contract

1 of assistance under the legislation referred to in paragraph
2 (2) of section 208 has been entered into after June 30,
3 1967, no grant shall be made under this section unless an
4 application for such grant has been made on or before the
5 date of such contract.

6 EXTENT OF GRANT

7 SEC. 206. (a) A grant under section 205 shall not
8 exceed (1) 20 per centum of the cost of the project for
9 which the grant is made; nor (2) the Federal grant made
10 with respect to the project under the legislation referred to
11 in paragraph (2) of section 208. In no case shall the
12 total Federal contributions to the cost of such project be
13 more than 80 per centum. Notwithstanding any other pro-
14 vision of law, including requirements with respect to non-
15 Federal contributions, grants under section 205 shall be
16 eligible for inclusion (directly or through refunds or credits)
17 as part of the financing for such projects: *Provided*, That
18 projects or activities on the basis of which assistance is pro-
19 vided under section 105 (c) shall not be eligible for assist-
20 ance under section 205.

21 (b) There are authorized to be appropriated for grants
22 under section 205 not to exceed \$25,000,000 for the fiscal
23 year ending June 30, 1967, and not to exceed \$50,000,000
24 for the fiscal year ending June 30, 1968. Appropriations

1 authorized under this section shall remain available until
2 expended.

3 CONSULTATION AND CERTIFICATION

4 SEC. 207. In carrying out his authority under section
5 205, including the issuance of regulations, the Secretary shall
6 consult with the Department of the Interior; the Department
7 of Health, Education, and Welfare; the Department of
8 Commerce; and the Federal Aviation Agency with respect
9 to metropolitan development projects assisted by those de-
10 partments and agencies; and he shall, for the purpose of
11 section 206, accept their respective certifications as to the
12 cost of those projects and the amount of the non-Federal
13 contribution paid or to be paid to that cost.

14 DEFINITIONS

15 SEC. 208. As used in this title—

16 (1) “Metropolitan development” means all projects or
17 programs for the acquisition, use, and development of open
18 space land; and the planning and construction of hospitals,
19 libraries, airports, water supply and distribution facilities,
20 sewerage facilities and waste treatment works, transporta-
21 tion facilities, highways, water development and land con-
22 servation, and other public works facilities.

23 (2) “Metropolitan development project” means a proj-
24 ect assisted or to be assisted under section 702 of the

1 Housing and Urban Development Act of 1965; title II of the
2 Library Services and Construction Act; section 606 of the
3 Public Health Service Act; section 8 of the Federal Water
4 Pollution Control Act; section 120 (a) of title 23, United
5 States Code; section 9 of the Federal Airport Act; section 3
6 of the Urban Mass Transportation Act of 1964; title VII
7 of the Housing Act of 1961; section 5 (e) of the Land and
8 Water Conservation Fund Act of 1965; or section 101
9 (a) (1) of the Public Works and Economic Development
10 Act of 1965 (for a project of a type which the Secretary
11 determines to be eligible for assistance under the other pro-
12 visions listed above).

13 (3) "State" means any State of the United States, the
14 District of Columbia, the Commonwealth of Puerto Rico,
15 any territory or possession of the United States, or an agency
16 or instrumentality of any of the foregoing.

17 (4) "Metropolitan area" means a standard metro-
18 politan statistical area as established by the Bureau of the
19 Budget, subject however to such modifications and exten-
20 sions as the Secretary may determine to be appropriate for
21 the purposes of this title.

22 (5) "Comprehensive planning" includes the following,
23 to the extent directly related to area needs or needs of a unit
24 of general local government, (A) preparation, as a guide
25 for long-range development, of general physical plans with

1 respect to the pattern and intensity of land use and the pro-
2 vision of public facilities, including transportation facilities;
3 (B) programming of capital improvements based on a de-
4 termination of relative urgency; (C) long-range fiscal plans
5 for implementing such plans and programs; and (D) pro-
6 posed regulatory and administrative measures which aid in
7 achieving coordination of all related plans of the departments
8 or subdivisions of the governments concerned and intergov-
9 ernmental coordination of related planned activities among
10 the State and local governmental agencies concerned.

11 (6) "Hospital" means any public health center or gen-
12 eral, tuberculosis, mental, chronic disease, and other type of
13 hospital and related facilities, such as laboratories, outpatient
14 departments, nurses' home and training facilities, and central
15 service facilities normally operated in connection with hos-
16 pitals, but does not include any hospital furnishing primarily
17 domiciliary care.

18 (7) "Areawide agency" means an official State or
19 metropolitan or regional agency empowered under State or
20 local laws or under an interstate compact or agreement to
21 perform comprehensive planning in an area; an organiza-
22 tion of the type referred to in section 701 (g) of the Housing
23 Act of 1954; or such other agency or instrumentality as
24 may be designated by the Governor (or, in the case of
25 metropolitan areas crossing State lines, any one or more of

1 such agencies or instrumentalities as may be designated by
 2 the Governors of the States involved) to perform such
 3 planning.

4 (8) "Special purpose unit of local government" means
 5 any special district, public-purpose corporation, or other
 6 limited-purpose political subdivision of a State, but shall not
 7 include a school district.

8 (9) "Unit of general local government" means any city,
 9 county, town, parish, village, or other general-purpose po-
 10 litical subdivision of a State.

11 (10) "Secretary" means the Secretary of Housing and
 12 Urban Development.

13 TITLE III—URBAN INFORMATION AND TECH- 14 NICAL ASSISTANCE SERVICES

15 PURPOSE

16 SEC. 301. It is the purpose of this title to assist States
 17 and metropolitan area agencies to make available informa-
 18 tion and data on urban needs and assistance programs and
 19 activities through centers established for such purpose, and
 20 to provide technical assistance through such centers to small
 21 communities with respect to the solution of urban problems.

22 GRANT AUTHORITY

23 SEC. 302. (a) The Secretary is authorized to make
 24 grants to States and metropolitan-area agencies to help
 25 finance programs for the assembly, correlation, and dissemi-

1 nation of information and data needed for improving, coor-
2 dinating, and more effectively utilizing governmental and
3 other programs and activities available for the solution of lo-
4 cal urban problems and to provide technical assistance to
5 small communities with respect to the solution of such prob-
6 lems. Activities aided by such grants shall include—

7 (1) the planning and establishment of urban in-
8 formation and technical assistance centers;

9 (2) the assembly, correlation, and dissemination of
10 urban physical, social, and economic development in-
11 formation and data through such centers for the pur-
12 pose of informing local governments, organizations, and
13 individuals of the availability and status of Federal,
14 State, and local programs and other resources and data
15 for the solution of urban problems; and

16 (3) providing, through such centers, technical as-
17 sistance with respect to the solution of urban problems
18 to any small community requesting such assistance.

19 (b) A program assisted under this section shall—

20 (1) specify the information and technical assist-
21 ance activities to be carried on and justify the needs for
22 and costs of such activities; and

23 (2) represent substantially increased or improved
24 activities on the part of the applicant State or metro-
25 politan-area agency.

1 EXTENT OF ACTIVITIES

2 SEC. 303. (a) An urban information and technical
3 assistance center established by a metropolitan-area agency
4 under this title shall be directed primarily to the provision
5 of (1) informational services of general metropolitanwide
6 utility, and (2) informational services and technical assist-
7 ance of utility to the communities within that metropolitan
8 area.

(b) An urban information and technical assistance center established by a State under this title shall be directed primarily to the provision of (1) informational services of general statewide utility, and (2) informational services and technical assistance of utility to communities not within metropolitan areas for which information centers have been established under this title.

16 AMOUNT OF GRANT

17 SEC. 304. (a) A grant under this section shall not
18 exceed 50 per centum of the cost of the activities carried
19 on under an approved urban information and technical assist-
20 ance program.

(b) No grant shall be made under this title to assist in assembling data, or providing information, to be used primarily in the day-to-day operations of State or local governing bodies and agencies.

FEDERAL COOPERATION

SEC. 305. Federal departments and agencies shall cooperate with States and metropolitan-area agencies in providing information to assist in carrying out the purpose of this title.

DEFINITIONS

SEC. 306. As used in this title—

(1) “State” means any State of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, or an agency or instrumentality designated by the chief executive of any of the foregoing.

(2) “Metropolitan area” means a standard metropolitan statistical area as established by the Bureau of the Budget, subject however to such modifications and extensions as the Secretary may determine to be appropriate.

(3) “Metropolitan-area agency” means (A) an organization or body composed of public officials which the Secretary determines to be representative of the political jurisdictions encompassing a metropolitan area; or (B) where no such organization exists and can qualify for a grant under this title, a public body or agency (i) designated by the governing body of that political jurisdiction within the area which contains the largest population, according to the most recent decennial census, and (ii) concurred in by other local political jurisdictions which, together with the designating juris-

1 diction, contain at least two-thirds of the population of the
2 area.

3 (4) "Small community" means any municipality or
4 other political subdivision of a State having a population of
5 twenty-five thousand or less.

6 (5) "Secretary" means the Secretary of Housing and
7 Urban Development.

8 **APPROPRIATIONS**

9 SEC. 307. There are authorized to be appropriated for
10 the purpose of carrying out the provisions of this title not
11 to exceed \$5,000,000 for the fiscal year ending June 30,
12 1967, and not to exceed \$10,000,000 for the fiscal year end-
13 ing June 30, 1968. Appropriations authorized under this
14 section shall remain available until expended.

A BILL

To assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

By Mr. MUSKIE

HIGHLIGHTS: Senate agreed to conference report on small reclamation projects bill.
Motion to report REA financing bill was defeated in House subcommittee.

HOUSE

1. REA FINANCING. The "Daily Digest" states that a motion to report a committee print of H. R. 14837, the REA financing bill, was defeated in a subcommittee of the Agriculture Committee. p. D779
2. INDEPENDENT OFFICES APPROPRIATION BILL. Agreed to the conference report on this bill, H. R. 14921. Rejected, 176-190, a motion by Rep. Jonas to recommit the bill to conference with instructions to insist that the provision to effectuate the Participation Sales Act be deleted. pp. 19045-66, 19098-9

3. HIGHWAY SAFETY. Passed, 317-3, with amendments H. R. 13290, to provide for highway safety research and development, certain highway safety programs, a national driver register, and a highway accident research and test facility. pp. 19066-86
4. INTEREST RATES. Rep. Patman said he would request floor consideration of H. R. 14026, to hold down interest rates, etc., on Sept. 12. pp. 19044-5
5. HIDE EXPORTS. Rep. Burke defended export controls on cattle hides. pp. 19087-8
6. ECONOMY. Rep. Curtis discussed the status of the economy and suggested actions to assure stability. pp. 19094-6
7. DATA CENTER. Rep. Gallagher questioned the proposed National Data Center as an invasion of privacy. pp. 19099-103
8. WATER POLLUTION. The Public Works Committee voted to report (but did not actually report) H. R. 16076, "to improve and make more effective" the Water Pollution Control Act. p. D780
9. LEGISLATIVE PROGRAM for next week was announced by Rep. Albert: Mon., D. C. bills; remainder of the week, various bills, including rural community developments districts, child nutrition, Department of Transportation, and HemisFair Exposition. p. 19093
10. ADJOURNED until Mon., Aug. 22. p. 19117

SENATE

11. PERSONNEL; RETIREMENT. The Commerce Committee reported with an amendment S. 699, to provide for inclusion of certain periods of reemployment of annuitants for the purpose of computing annuities of their surviving spouses (S. Rept. 1481). p. 18934
12. RECLAMATION. Agreed to the second (revised) conference report on S. 602, to amend the Small Reclamation Projects Act of 1956. As reported the bill deletes the provision in the House version that would have extended the Act to the eastern States. pp. 18994-5
13. APPROPRIATIONS. Passed, 86-0, with amendments H. R. 15941, the defense appropriation bill, which includes funds for milk for military personnel which previously has been financed by USDA. pp. 18963, 18970-99
14. DEMONSTRATION CITIES. Began debate on S. 3708, the demonstration cities and metropolitan development bill. pp. 18999, 19007-30
15. BANKING. The Banking and Currency Committee reported with an amendment S. 3158, to strengthen the regulatory and supervisory authority of Federal agencies over insured banks and insured savings and loan associations (S. Rept. 1482). p. 18934
16. TRAFFIC SAFETY. Conferees were appointed on S. 3005, to establish motor vehicle safety standards. House conferees have not yet been appointed. pp. 18999-19004

humane care of animals? If our citizens are willing to support government subsidies for research involving laboratory animals, why should not the government implant humanity and morality into this procedure?

In connection with our deliberations, I welcome the statement of Dr. James A. Shannon, Director of NIH, one of the principal agencies conducting and sponsoring scientific research. Dr. Shannon yesterday told this committee that a study of the need for regulation in the animal experimental field is now underway jointly by the PHS and HEW. The study is being conducted with the goal of making a determination of the necessity for legislation, and, if needed, what kind of legislation. Such a study will, I am confident, be valuable as a source of information. I am heartened that HEW and PHS are coming to grips with this matter. I understand that you, Mr. Chairman, directed Dr. Shannon to provide this committee with a report of the findings of the study. I look forward with interest and anticipation to the results.

Meanwhile, Mr. Chairman, I say in all seriousness that I fail to understand why mention of a licensing provision in our bills causes consternation among research scientists. We proposed that individuals engaged in experimentation with animals be required to obtain a license from an appropriate agency which will be staffed with people qualified to issue licenses to those scientists who met stated standards. By the very act of applying for and, subsequently obtaining a license, the individual scientist would acknowledge a personal responsibility for his work, for the way he cares for the animals he uses, for the records he keeps in connection with his experiments. In short, he, himself, is responsible, not his supervisor or his employer. Thus, a good deal of unnecessary and unlawful mistreatment of animals will be prevented at the source, the laboratory worker.

Under this bill, the intent is to provide for a small, efficient number of highly trained and qualified inspectors. It will be their job to see that the law is being faithfully adhered to. They will have the authority to inspect laboratory facilities, determine the condition of animals being used and examine records of experiments to determine if they are being conducted in consonance with humane and scientific practices. In short, the enforcement official will function as far more than merely a kennel inspector.

Any scientist using animals for research which benefits human life has a moral obligation to justify his work, to limit pain as far as he can, and to give considerate care to the animals he is using in the interest of scientific research. Human carelessness and cruelty toward animals, as we have heard in testimony, is often present in laboratories, and it is always unnecessary. Under this bill, laboratory animals will be anesthetized, when severely painful or prolonged experimentation is necessary, and following the completion of such experiments, the animals must be put to death without being permitted to regain consciousness. In the event of severe injury to an animal, where the preservation of its life is not a scientific necessity, the animal must be mercifully put to death promptly.

Mr. Chairman, let me say that my mail on this subject is very heavy. These letters indicate to me that the American people want a humane treatment bill, but an effective one. I support the Cleveland-Clark bill. I ask you to support it, too.

DINESH KUMAR PODDAR

Mr. MUSKIE. Mr. President, I ask that the Chair lay before the Senate the message from the House of Representatives amending S. 2263.

The PRESIDING OFFICER laid before the Senate the amendments of the House of Representatives to the bill (S. 2663) for the relief of Dinesh Kumar Poddar which were, to strike out all after the enacting clause and insert:

That, in the administration of the Immigration and Nationality Act, Dinesh Kumar Poddar and Girish Kumar Poddar may be classified as children within the meaning of section 101(b)(1)(F) of the Act, upon approval of petitions filed in their behalf by Mr. and Mrs. Bhagwati P. K. Podar, a lawfully resident alien and a citizen of the United States, respectively, pursuant to section 204 of the Act.

And to amend the title so as to read: "An act for the relief of Dinesh Kumar Poddar and Girish Kumar Poddar."

Mr. MUSKIE. Mr. President, on June 13, 1966, the Senate passed S. 2663 to enable the beneficiary to qualify for immediate relative status as the adopted son of a lawfully resident alien and a citizen of the United States.

On August 16, 1966, the House of Representatives passed S. 2663 with an amendment to include a second adopted son of the same couple to enable him to also qualify for immediate relative status.

I move that the Senate concur in the House amendments to S. 2663.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from Maine to concur in the House amendments.

The motion was agreed to.

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966

The Senate resumed the consideration of the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

UNANIMOUS-CONSENT AGREEMENT

Mr. TOWER. Mr. President, does the Senator from Maine desire to make a unanimous-consent request?

Mr. MUSKIE. Mr. President, I ask unanimous consent that the debate on the pending bill be limited to 2 hours on the Tower amendment, 1 hour on other amendments, and 4 hours on the bill.

The PRESIDING OFFICER. Is there objection?

Mr. TOWER. Mr. President, reserving the right to object, may I modify that request by noting that the time be controlled on the amendments 30 minutes by the proposer of the amendments and 30 minutes by the Senator from Maine [Mr. MUSKIE], and on the bill 2 hours to be controlled by the Senator from Maine [Mr. MUSKIE] and 2 hours by the Senator from Texas [Mr. TOWER], and may I further modify the request to read that the consent agreement will not go into effect until tomorrow after morning business, so that Members of the Senate who may have any desire to discuss unrelated matters tonight may be free to do so?

Mr. JAVITS. Mr. President, has there been a ruling?

The PRESIDING OFFICER. Is there objection?

Mr. JAVITS. Mr. President, reserving the right to object, I have already communicated this desire to the Senator from Texas. I have no objection except that I be permitted to have a half-hour on the bill.

Mr. TOWER. Mr. President, as I have already assured the Senator from New York, there will be no difficulty in yielding him 30 minutes on the bill.

Mr. President, I suggest a further amendment of the request, that the 2-hour limitation relates to the Tower amendment No. 746, because there are other Tower amendments.

The PRESIDING OFFICER. Is there objection?

Mr. JAVITS. Mr. President, what is the limitation?

The PRESIDING OFFICER. One hour on each amendment, 2 hours on amendment 746, and 4 hours on the bill.

Mr. JAVITS. There is no limit as to whether it shall apply only to amendments on the desk?

The PRESIDING OFFICER. No.

Mr. TOWER. Mr. President, will the Senator from Maine yield further?

Mr. MUSKIE. I yield.

Mr. TOWER. I might note for the information of Senators that the vote on my amendment No. 746 will probably be the critical vote on the bill, and Senators should be present for a vote on that amendment.

Mr. CLARK. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state it.

Mr. CLARK. Is this the kind of agreement in which it should be stipulated that amendments shall be germane? I think that should be included in this case.

Mr. MUSKIE. Mr. President, I ask unanimous consent that the agreement include that amendments must be germane.

The PRESIDING OFFICER. Is there objection to the unanimous consent?

Without objection, the agreement is entered.

The unanimous-consent agreement later reduced to writing is as follows:

UNANIMOUS-CONSENT AGREEMENT

Ordered, That, effective on Friday, August 19, 1966, at the conclusion of routine morning business, during the further consideration of the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes, debate on any amendment (except an amendment to be proposed by the Senator from Texas [Mr. TOWER], numbered 746, debate on which is to be limited to two hours), motion, or appeal, except a motion to lay on the table, shall be limited to 1 hour, to be equally divided and controlled by the mover of any such amendment or motion and the Senator from Maine [Mr. MUSKIE]: *Provided*, That in the event he is in favor of any such amendment or motion, the time in opposition thereto shall be controlled by the Senator from Texas [Mr. TOWER] or some

Senator designated by him: *Provided further*, That no amendment that is not germane to the provisions of the said bill shall be received.

Ordered further, That on the question of the final passage of the said bill debate shall be limited to 4 hours, to be equally divided and controlled, respectively, by the Senator from Maine [Mr. MUSKIE] and the Senator from Texas [Mr. Tower]: *Provided*, That the said Senators, or either of them, may, from the time under their control on the passage of the said bill, allot additional time to any Senator during the consideration of any amendment, motion, or appeal.

Mr. MUSKIE. Mr. President, proceeding to the pending business, throughout history cities have been mainsprings of social and economic growth. Men have gathered in them for common protection, for trade, for industry, for the exchange of ideas, for social intercourse, and for the comforts and attractions urban life could offer.

Men have been drawn to cities as if by magnets. Cities have used the power and imagination of their people to create states, nations and even civilizations. However much we may be attracted to rural scenes and quiet places, we still return to the cities and towns for our business, for government, and for the fruits of learning and the arts.

In a real sense cities are creators of life—and at the same time they can be destroyers of lives. The pages of history are full of the tales of those who sought the promise of the city and found only despair. From the book of Job, to Charles Dickens, to James Baldwin, we have read the ills of the cities.

Our cities contain within themselves the flowers of man's genius and the nettles of his failures.

We are all familiar with the photographs of our Capitol, with slums blocking the foreground. We know of the explosive forces rumbling, and sometimes bursting, out of the crowded slums not far from the glitter of Broadway, the soaring new buildings of Chicago or the palm-lined streets of Los Angeles.

We also know of the other side of the tracks in smaller cities, where unemployment comes first and prosperity arrives last.

It is in the slum and blighted areas of our cities that unemployment rates have soared up to 24 percent; it is in the decayed neighborhoods that almost 70 percent of the poor live in dilapidated, overcrowded, or unsafe and unsanitary dwellings.

It is in these areas or unrest that public welfare payments are concentrated—24 percent of the population of Watts, for example, was on public assistance at the time of the riots.

It is in these areas of stifled opportunity that below average school buildings and teaching are concentrated.

It is in these areas of bleak ugliness that recreational facilities are most limited.

And it is in these areas that disease, ill health, and crime are most prevalent.

For example, a study by the Depart-

ment of Health, Education, and Welfare states that in one city, compared with a control "good area," the substandard area required police charges 2½ times as high, ambulance runs and fire calls almost twice as high, welfare costs 14 times as high. In another city, the poor housing area produced 36 percent of the city's juvenile delinquency and 76 percent of the city's tuberculosis cases.

Whatever its size, wherever its location in this land of ours, the city is a problem which grows as our nation grows, a problem which belongs to all of us, a problem which all of us must join in solving.

We are, increasingly, a nation of urban dwellers. At present 70 percent of our population lives in metropolitan areas. By the year 2000 the proportion will probably reach 80 percent.

The two major phenomena of this urban growth are crowded, decaying and blighted areas and the surrounding, too often formless, suburban sprawl. The result is poor housing, inadequate public facilities, limited education and job opportunities, disease and ill-health, excessive dependence on welfare payments and the threats of crime and delinquency for those crowded into the slums and blighted areas. The more affluent members of society, who still use the city for business and entertainment, but who have used modern transportation to escape the problems of living in the city, now battle traffic problems, suffer through smog, recoil at riots in the slums and feel more uneasy over the dangers of urban life.

Too often, for the poor, for those of modest means, and for the rich, our cities have become nightmares rather than dreams.

Our awareness of the problems of the city is not new.

In 1902 my hometown—Waterville, Maine—celebrated its centennial. This was an age of universal optimism in that bright period before the first of the World Wars. President William H. P. Faunce, of Brown University, noted in a sermon at the centennial religious mass meeting, June 22, 1902, that "the century which has elapsed since the founding of Waterville has been justly called the wonderful century." Men have discovered more facts and invented more mechanisms in the last 100 years than in all preceeding history. But the greatness of our apparatus ought to mean greatness of intellect and character. The difference between the old hand loom and the modern loom is enormous; is the difference as great between the man who stood behind the former and the man who stands behind the latter? What is the use of the incandescent light if it does not enable the citizen to see his duty? What is the advantage of traveling at 60 miles an hour if we are as discontented at the end of the journey as at the beginning? The aim of our civilization is not to whiten the seas with the sails of commerce, but to develop simple, homely virtues which are the chief defense of our

Nation, the best safeguards of the fireside and the home.

Reverend Faunce's remarks were true 64 years ago, and they are even more pertinent today. He spoke almost a year and a half before the Wright brothers made their first successful flight at Kitty Hawk. In the brief span of time between his address and our day we have increased man's speed from 60 miles an hour on land to 18,000 miles an hour in space. The goals which he set for American society are relevant to our own time. He called on the citizens of Waterville to "develop a new sense of civic pride and municipal duty." He notes:

Americans have succeeded nobly in founding States, but they have not yet learned to govern cities.

Since Reverend Faunce delivered his sermon we have labored to improve the lot of our cities. Our major efforts go back more than 30 years. During this time Federal, State, and local governments have worked together in the search for solutions to urban problems. Planning aids, urban renewal, public housing, aids to education, hospital construction, community facilities construction, public welfare assistance, employment assistance, transportation loans and grants—all these and many more programs have been approved by the Congress.

These programs have accomplished a great deal—but they have fallen far short of the need.

One reason is that every program of Federal aid to the cities has approached a single problem with a single weapon. They have operated side by side—frequently indifferent to each other, sometimes even in conflict with each other.

A city might have urban renewal without adequate low- and middle-income housing, public housing but an inadequate public health program, a welfare program but little vocational training, a recreation program but inadequate schools. Repeatedly, neglect of one area canceled out efforts in another.

A second shortcoming has been that even where all existing Federal aids have been available to a city, there has been no systematic arrangement for coordinating their impact—cities could be lost in a maze of Federal aids.

There have been no local plans broad enough to make effective use of combined aid programs.

There has been no focal point for concentrating their resources on the problems of a neighborhood.

There has been little incentive for coordinated use of Federal programs.

Third, present programs are simply insufficient in two ways:

They are not adequate to meet the growing needs of growing urban populations.

They are not designed to meet all the needs that the neglected neighborhoods display.

Finally, compounding these difficulties has been the financial crisis of the cities. Between 1954 and 1963, municipalities increased their tax revenues by 43 percent,

and local government indebtedness increased by 119 percent. For the central city the problem has become a vicious circle. The more determined the city's effort to raise funds to meet the need for increased services, the more likely that effort drives its economically affluent citizens to the nearby suburbs. Similarly, the greater burden the city places on industry within its borders, the less its opportunity to attract and hold the industry and commerce its economy requires. So the city becomes, increasingly, a home for the economically deprived, those least able to bear the cost of municipal services. It is not surprising that the cities with the greatest slum problems often have the least capacity to deal with those problems.

Conflicts in program goals, divisions of authority, major program gaps, lack of resources—all prevent us from building and rebuilding cities our urban citizens deserve and all of us need.

Recognizing these human problems of urban life, President Johnson named a task force of distinguished Americans, working with Secretary Weaver, to study these problems, analyze the shortcomings of existing Federal programs, and recommend to him a program for immediate action.

The result was the demonstration cities program.

The essentials of the program the President transmitted to Congress on January 26, 1966 were these:

The concentration of available and special resources in sufficient magnitude to demonstrate swiftly what qualified urban communities can do and can become.

The coordination of all available talent and aid on these targets in a way which is impossible where assistance is provided across the board and men and money must be spread thin.

The mobilization of local leadership and initiative to assure that the key decisions as to the future of American cities are made by the citizens who live there and to commit local leadership, both public and private, to a comprehensive attack on urban problems, freed from the constraints that have handicapped past efforts and inflated their costs.

In his message to the Congress, the President said:

Today, I have placed before the Congress and before you, the people of America, a new way of answering an ancient dream. That dream is of cities of promise, cities of hope, where it could truly be said, to every man his chance, to every man, regardless of his birth, his shining golden opportunity, to every man the right to live and to work and to be himself and to become whatever thing his manhood and his vision can combine to make him.

The new way of answering that ancient dream is this:

To rebuild where there is hopeless blight;
To renew where there is decay and ugliness;

To refresh the spirit of men and women that are growing weary with jobless anxiety.

To restore old communities and to bring forth new ones where children will be proud to say, "This is my home."

What I have offered is a massive program, involving everything that we know about building homes and schools and parks and streets that are safe from fear.

The choice facing the Nation was posed by President Johnson in that special message: Shall we make our cities livable for ourselves and our posterity? Or shall we by timidity and neglect damn them to fester and decay?

The Housing Subcommittee and the Banking and Currency Committee have voted to accept the challenge, to make a new beginning in our campaign to improve the quality of life for all our citizens.

The legislation we present today is designed to meet the President's objectives and to achieve the American dream—for the child whose playground is a trash-strewn alley—for the young boy or girl whose classroom is a rat-infested cellar—for the parent whose income is uncertain and whose housing choice is an overcrowded tenement room or the street—for the young man who cannot get a job because he lacks training and cannot get training because he lacks funds—for the man or woman who cannot find decent housing because of the color of his or her skin.

The legislation we present today places the central city in the context of the entire metropolitan area, and it addresses itself to the problems of metropolitan regions. It requires better coordination of Federal activities, and it provides incentives for coordinated metropolitan area planning and development.

Finally, the legislation we present today will help the States to provide technical assistance to local communities in making better use of Federal assistance programs.

As I have indicated, S. 3708 is based on recommendations made to the Congress by President Johnson. The Subcommittee on Housing made substantial changes in the draft legislation submitted by the administration, but it did not depart from the President's intent.

PROVISIONS OF THE LEGISLATION

Mr. President, as reported by the Banking and Currency Committee, S. 3708 has three titles—Title I: Comprehensive City Demonstration Programs; Title II: Planned Metropolitan Development; and Title III: Urban Information and Technical Assistance Services.

All three titles have a consistent purpose of providing additional Federal assistance to help cities and metropolitan areas make effective use of existing Federal programs in order to make more significant progress toward the accomplishment of the national housing policy of a decent home and a suitable living environment for every American family. This would be done by the bill in two ways: First, better coordination of existing programs—Federal, State, and local; and second, additional Federal

financial assistance to be used by the locality for activities which supplement existing programs.

Title I of the bill would establish a new city demonstration program of Federal grants and technical assistance to help provide the incentive and the financial means for a city to plan and carry out a program for rebuilding and restoring entire sections or neighborhoods of slum and blight and to improve the general welfare of the people in such areas.

Mr. GORE. Mr. President, will the Senator yield?

Mr. MUSKIE. I yield.

Mr. GORE. Mr. President, in this respect, how would this program differ from the urban renewal program?

Mr. MUSKIE. Mr. President, the urban renewal program is aimed at the physical reconstruction of blighted areas. It is, of course, a part—and a fundamental and necessary part—of any city demonstration program developed under this legislation. However, the emphasis in this legislation is to supplement programs dealing with the physical reconstruction of cities by other programs designed to reconstruct the lives of people who live in those cities.

This will be done first by coordinating more effectively existing Federal programs dealing with the human side of the problem and, second, by providing supplemental funds to stimulate the development of comprehensive programs dealing with the shortcomings of existing programs and, in these diseased areas and cities, dealing with the human problem.

For example, we can help the cities become involved in education to a greater degree than they are now in these areas, and the record shows that usually the quality of the teachers in these areas is at the bottom of quality list across the country.
